PREMIER CAMPS

June 4–8, June 11–15 and June 18–20

LEGO® Video Games: Combine your two favorite activities: LEGOs and Video Games! Students will create their own LEGO characters and adventures in an interactive 2D Video Game. Everyone is welcome in this one-of-a-kind class. At the end of the program, every student will have a finished LEGO video game that can be shared with friends and family through a password-protected Black Rocket website.

Minecraft Designers: If you love the game Minecraft, and always wanted to design your own world, this class is for you! Learn how to create a custom map, the basics of creating 3D models using a new software to design your very own objects, how to build with Redstone and Command blocks, and create custom textures for you to import at home or share with friends.

Minecraft Modders: Students learn to modify and create their own Minecraft® characters, tools, mobs, and more. They utilize their favorite game to learn the basics of modding and foundations of programming.

ROBLOX® Makers-Coders-Entrepreneurs: Discover how to code in the Lua language while playing and designing worlds in ROBLOX®, an online universe where you can create anything you dream of. This new class combines game design concepts, coding, and fun! Young entrepreneurs will also learn how to navigate Roblox's fast growing marketplace to publish their games. Student-created games will be available on a password-protected Black Rocket website to share with friends and family. Students will work in pairs or teams for most of the program.

Star Wars® Stop Animation: Make your own Star Wars adventure come to life! Bring in your favorite action figures or Star Wars vehicles and create a short film with your friends. Whether you want to recreate a scene from Star Wars or design a new world of your own, this class brings your dreams to the screen. Students will need to bring in Star Wars action figures or vehicles from home, but all other equipment will be provided. Student-created films will be available on a password protected website to share with friends and family. Students will work in pairs or teams for most of the program.

Virtual Reality: The Future is Now: Embark on an EPIC adventure in virtual reality! In this cutting edge class, learn the foundations of VR design by creating your own virtual worlds, exploring simulated environments, and crafting memorable 3D experiences. At the end of the week, take home your first cardboard VR headset to show friends and family the new worlds you created. VR projects can be viewed on a website or a mobile device. Students do not need a mobile device to take the class, but to use the VR headset a camper will need access to an Android or Apple mobile device. Students will work in pairs or teams and VR projects will be available on a password-protected Black Rocket website to share with friends and family.
