Career Service Education Incentive Plan Instructions

The following guidelines have been established as it relates to the awarding of the incentive:

- Any career service employee already in possession of a documented degree from an accredited institution as of June 30, 2003, will be eligible to receive a \$300.00 incentive award (pending budget availability).
- Incentive awards for degrees received after program implementation will take effect the first pay period after all required paperwork has been provided by the employee to Human Resources.
- There will be a lifetime limit of two (2) incentive awards given to any employee.
 - An employee already in possession of more than one degree as of June 30, 2003 is eligible for only one award of \$300.00. However, they remain eligible for a second incentive award if an additional degree is received in the future.
 - An employee already at the cap of his/her salary range will still be eligible for the incentive award.
- For the purpose of this plan:
 - Accredited Institution means an accredited college, university, or community college which has been accredited by the Southern Association of Colleges and School, another regional accrediting agency, or the American Association of Collegiate Registrar and Admissions Officers.
 - Awarded degrees to be considered for eligibility include associate's, bachelor's, and master's degrees.
- Career service employees wishing to participate in this plan will be responsible for filling out the required application materials and providing Human Resources with an official transcript from the degree awarding institution.
