Pensacola, Florida 32507

August 2012

General Information

The Surgical Technology program at Pensacola State College is a yearlong course (1320 hours/44 vocational credits). The program prepares individuals to function as part of the team that provides surgical care to patients in a variety of settings. The Surgical Technologist works under medical supervision to ensure that the operating room is safe, and that the operative procedure is conducted under conditions that maximize patient safety.

A Surgical Technologist functions as a sterile member of a surgical team. The Surgical Technologist assists in preparing the operating room for surgical cases. A Surgical Technologist passes instruments and provides sterile items to the surgeons. The Surgical Technologist may also hold retractors or suction the operative site, to mention a few of the learned skills.

The ability to perform under pressure in stressful and emergency situations is a quality essential to Surgical Technologists. According to the Association of Surgical Technologists (AST), a Surgical Technologist must “have a stable temperament, a strong sense of responsibility, considerable patience, and concern for order”. “Manual dexterity and physical stamina are vital.” AST adds “Surgical Technologists must be able to work quickly and must be oriented to detail.”

Surgical Technologists work a 40 hour work week, and most are required to work “on call”, or “be available to work on short notice”.

When do classes begin?

Surgical Technology classes start in the fall semester (August) of each year and continue through the summer semesters of the following year. The curriculum plan is attached.

Where are classes and clinicals held?

Classes are held at the Warrington Campus of Pensacola State College. Clinical practice hours are scheduled in area hospitals and surgical facilities.

Are seats limited?

Seats in the program are limited to 20 students. Therefore, applicants are encouraged to complete the application and testing requirements outlined below as soon as possible as students are offered seats on a first-qualified, first-seated basis.

How are students selected?

Provisional acceptance letters are mailed in mid-January. The letter will include an acceptance form, the deadline to accept seat and the time and date for the mandatory orientation session. Candidates who do not attend the mandatory orientation, attend the informal meeting with program director, turn in all required medical documentation and complete drug screen and background check by set deadlines will be replaced with the next alternate on the candidate list until the class is full.

What are the admission requirements?

Applicants must hold a High School diploma (or GED), be 18 years of age or older, and be able to read at the 11th grade level as demonstrated by a composite score of 11.0 or higher on the Nelson Denny Reading test.

How do I apply?

		Check
1.	Submit a Pensacola State College application. New students will be assessed a \$30.00 application fee. If you have not attended credit courses within the previous 12 months you need to submit a new/updated application.	
2.	2.0 vocational grade point average	
3.	Complete the Pensacola State College Transcript request form and send off for transcripts.	
4.	Complete the Application for Health-Related Programs. Submit it to the Health Admissions Office, Warrington Campus, Building 3600, 5555 West Highway 98, Pensacola, FL 32507	
5.	Take the Nelson-Denny Reading test. Applicants must achieve a composite score of 11.0 to be eligible for the Surgical Technology Program.	
6.	Make an appointment to take the Test of Adult Basic Education (TABE).	

Both the Nelson-Denny and the TABE tests are administered through the Testing Centers on the Warrington **484-1076** and Pensacola **484-1656** campuses. Call to schedule your tests.

When you have completed the **Pensacola State College application**, the **Application for Health-Related Programs**, the **Nelson-Denny Reading test with a composite score of 11.0**, the **Test of Adult Basic Education (TABE)**, and your **transcripts are on file**, you will be an eligible candidate for the Surgical Technology Program. The program will begin notifying candidates in early spring of acceptance status. Students will attend an informal conference with the program director and also to attend a mandatory Surgical Technology Orientation where the registration, drug and background information will be discussed. Each candidate must have a Trial Schedule from the Program Director to register for Surgical Technology courses.

Is there a health requirement?

Students are required to complete the Student Health Form which includes a physical examination and documentation of immunizations. This form will be provided to you as soon as your eligibility for the program is determined and must be completed and submitted as requested by the program director. This form must be signed by a physician, physician's assistant or nurse practitioner.

Do I have to take a drug screen?

Yes, all students must have a urine drug screen. The drugs screened for are: alcohol, amphetamines, Cannabinoids, Cocaine, Phencyclidine, Opiates, Barbiturates, Benzodiazepine, Methadone, and Propoxyphene. Drug screen results may prevent a student from participating in the program.

Background Checks

All students will undergo a background check. Background results may prevent a student from participating in the program.
