VOLUME 59 NO. 1 August, 2016

Pensacola State College does not discriminate against any person on the basis of race, ethnicity, national origin, color, gender/sex, age, religion, marital status, pregnancy, disability, sexual orientation, gender identity or genetic information in its educational programs, activities or employment. For inquiries regarding Title IX and the college's nondiscrimination policies, contact the Associate Vice President of Institutional Diversity/Title IX Officer at (850) 484-1759, Pensacola State College, 1000 College Blvd., Pensacola, Florida 32504.
PENSACOLA STATE COLLEGE

PRESIDENT’S MESSAGE

Congratulations on choosing Pensacola State College! With more than 100 programs, a dedicated faculty and staff, and affordable tuition, we are committed to preparing you for university transfer or providing training that can put you on the path to a rewarding career in a large number of technical fields.

Meeting industry needs with training and education for in-demand jobs is an important part of our mission. For example, students can complete PSC’s state-of-the-art welding program in just three semesters and be prepared for a career with many possibilities along the Gulf Coast. In another response to workforce needs, we have expanded our outstanding cybersecurity associate degree program into an affordable bachelor’s degree program and opened the door even more for high-wage jobs for our graduates.

We are committed to helping our students not only to attend college but also to graduate. In fact, Pensacola State is consistently listed in the Top 100 Associate Degree Producers in the nation. This ranking affirms that PSC is among the best at providing the programs, faculty, facilities, counseling, and financial aid needed for students to earn their degrees.

In the coming year, we also hope you will explore the many avenues to become involved outside the classroom while you are here. We have more than 40 student organizations with plenty of opportunities for leadership, community service and lifelong friendships. Broaden your horizons!

Our acclaimed Switzer Visual Arts Gallery and Lyceum Series bring in top artists, musicians, and performers from across the nation, and our student athletic programs are exciting to watch – and these events are free for students!

Education has the power to enrich and transform lives. We are delighted that you have chosen Pensacola State College as the place to pursue your professional and personal goals.

Sincerely,

Edward Meadows
President
NOTICE REGARDING CHANGES TO POLICIES
The provisions of this publication are not to be construed as a contract between the student and Pensacola State College. The College reserves the right to change any provision or requirement when such action becomes necessary. Each student is advised to work closely with a College counselor or advisor to verify the appropriateness of the course(s) for which he or she registers.
Each student is expected to become familiar with the rules and regulations of the College and will be held responsible for the observance of those rules and regulations.

EQUAL ACCESS/EQUAL OPPORTUNITY
Without regard to race, color, ethnicity, sex, pregnancy, creed, age, religion, marital status, national origin, disability, sexual orientation or gender identity, Pensacola State College commits to the following:
1. Pensacola State College is an equal access/equal opportunity employer and shall recruit, employ, evaluate, assign, promote, or dismiss employees in compliance with all federal and state legislation pertaining to non-discrimination.
2. The College shall provide equal educational opportunities to prospective and enrolled students to include recruitment, admission, programs and activities, facilities, counseling and testing, financial assistance, evaluation, dismissal, graduation, and placement.
3. The equal opportunity principle applies to students, applicants for admission, applicants for employment, employees, veterans, and otherwise qualified disabled persons with regard to employment, the delivery of educational programs and services, and all other appropriate areas in which the College is involved.
4. The College prohibits racial, ethnic, religious, physical, and sexual harassment of its employees and students. Furthermore, the College prohibits discrimination and retaliation of any kind, including discrimination based on sexual orientation, gender identity or genetic information and discrimination based upon religion and assures reasonable accommodation of religious observances, practices, and beliefs of individual students and employees in regard to admission, class attendance, scheduling of examinations, and work assignments.

Inquiries or complaints may be addressed to the Associate Vice President, Institutional Diversity, at (850) 484-1759, Pensacola campus, Administration Building 7, Room 705.
THE COLLEGE

MISSION STATEMENT
Pensacola State College, under the governance of a local Board of Trustees, is one of 28 public colleges in the Florida College System committed to affordable, open access to educational opportunities. The College offers baccalaureate and associate degrees, career oriented certificates, developmental education, adult education, GED preparation, and standard high school diplomas. In addition, the College provides specialized business and industry training, recreation and leisure courses, and community outreach and services. Pensacola State College is dedicated to maximizing educational opportunities, through a variety of delivery methods that develop the academic, career, personal, and aesthetic capabilities of individuals for the benefit of themselves and the global community.

VISION STATEMENT
Pensacola State College educates students thorough a dynamic and supportive learning environment that develops all students intellectually, culturally, and socially, propelling them to succeed within the global economy.

COLLEGE INSTITUTIONAL PRIORITIES
1. Enhance internal and external partnerships to further develop capabilities to better serve students and the community.
2. Invest in people by improving evaluation processes and professional development opportunities; improving reward and recognition systems; and formally celebrating achievement and productivity.
3. Enhance the quality of instructional programs and services by improving student learning; improving student retention; improving student completion of educational career goals; and improving satisfaction in all aspects of the student experience at Pensacola State College.
4. Develop systems and processes for continuous improvement and quality enhancement.
5. Assure that existing and developing technologies are fully and effectively applied to the advancement of the instructional, student support, and administrative functions of the College.
6. Seek new financial resources for the College and College foundations to maximize financial assistance for students and also assure the institution’s long-term health.
7. Ensure that existing resources are effectively utilized through improved efficiencies.
8. Redesign existing facilities and acquire resources to construct new facilities to better support learning and to better meet the changing demographics of the College service area.
9. Seek increased diversity and promote a campus climate where the principles of affirmative action, equal opportunity, and multiculturalism are truly valued.
10. Enhance and develop Continuing Workforce Education (CWE) programs, continuing education, and other non-credit programs.
11. Increase student and client satisfaction by focusing on customer service, campus safety, campus beautification, use of technology, program evaluation, program development, and institutional effectiveness processes.
12. Market the College and programs of the College through current and emerging media conduits.
13. Increase access of services and programs to residents of the College service area.
14. Improve communication between faculty, staff, students, and the general public.
15. Continue to enhance the College’s commitment to creating an opportunity for success in an atmosphere of concern, respect, integrity, and responsibility for students, clients, and employees.

PENSACOLA STATE COLLEGE DISTRICT
Pensacola State College serves Escambia and Santa Rosa counties in Florida as well as surrounding Alabama communities. The population of the two-county area is nearly 450,000. The area is best known for its sugar-white beaches, historical significance, health care institutions, and military installations, one of which hosts the world famous Blue Angels flight demonstration team and the National Museum of Naval Aviation.

Faculty
Pensacola State College is proud of its highly qualified faculty. Typical preparation of the academic faculty member consists of graduate work beyond the master’s degree. Many faculty members hold doctorates. Vocational faculty are trained specialists whose thorough knowledge of the occupation comes from both formal study and career experience.

Though Pensacola State College students come primarily from the local community, the faculty are drawn from across the nation and from more than one hundred colleges and universities to broaden the scope of instruction.

Pensacola State College faculty members hold positions on boards and commissions and belong to professional and scholarly organizations. Many are engaged in research and have authored articles, monographs, and textbooks.

In 1986, Pensacola State College established the Academy of Teaching Excellence to recognize outstanding faculty. Each year, four full-time faculty and one adjunct faculty are inducted into the Academy, and one outstanding new faculty member is honored.

Pensacola State College faculty also benefit from a number of endowed teaching chairs that are supported by private contributions to provide travel and research opportunities.

Pensacola State College Foundation, Inc.
The Pensacola State College Foundation, Inc., is a private, non-profit corporation that has been established to encourage, solicit, receive, and administer gifts and bequests of property and funds for the benefit of the College and College activities. The Pensacola State College Foundation is administered by a Board of Governors made up of members of the community who have an interest in the College.

The Pensacola State College Foundation promotes the annual giving program of the College and solicits funds for various college projects. In addition, donations are sought for scholarships and other worthwhile projects, which assist the College and its students.

As a tax-assisted institution, Pensacola State College cannot meet all needs with state and student support. The Pensacola State
College Foundation assists in obtaining private support to supplement College budgets. The Pensacola State College Foundation is a 501(c)(3) tax-deductible non-profit corporation and a direct support organization chartered by the state of Florida to provide private support to the College.

The Board of Governors of the Pensacola State College Foundation meets quarterly and holds an annual meeting to elect new governors.

HISTORY

1948 – 1954. Director James L. McCord

Pensacola State College began as Pensacola Junior College, Florida's first public junior college to be established under the Minimum Foundation Program Law in 1947. This law recommended that junior colleges become part of local school systems supported by government funding.

In this historical narrative, the College will be referred to as Pensacola Junior College (PJC) from 1948 to 2010 and thereafter as Pensacola State College.

With pioneer spirit, Pensacola High School Principal James L. McCord, Dean Jesse Barfield, and teacher Margaret Andrus completed the documents for a new junior college and wrote PJC's first College Catalog.

James H. Allen, president of Florida Pulp and Paper Company, contributed two years' rent for a boarding house at the southeast corner of Palafox and Cervantes streets. Pensacola Junior College held its first class there on September 13, 1948, with an enrollment of 136 students and James L. McCord as the first director.

Louis A. Ross, social science instructor, headed PJC's first basketball team in 1949 and the first football team in 1951. During 1949-50, the first student newspaper, The Beachcomber, and the first yearbook, The Tide, were introduced.

Due to increasing enrollment, in June 1953 the College moved one block south on Palafox Street to the former Pensacola High School facility.

Henry L. Ashmore became Pensacola Junior College's first president in 1954. A well-known consultant in the field of teacher training, Ashmore held a doctorate from the University of Florida and served as the regional director for the National Association of Student Teaching.

In January 1955, the PJC Alumni Association was chartered and Joe Froisio, a 1950 graduate, was the first president.

On May 13, 1955, Florida Governor LeRoy Collins signed a bill appropriating $1,243,000 to the College for building improvement. The Pensacola Kiwanis Club had supported the bill and recommended a new campus location — the eighty acre Camp Franklin property on 9th Avenue, owned by the City of Pensacola and the Baars Estate.

Enrollment for 1955-56 totaled 1,147 students. The College faculty had expanded accordingly and the weekly employee newsletter, Green & White, was initiated in 1955 to facilitate internal communication. The name of the student newspaper changed from The Beachcomber to The Corsair.

Accreditation was granted by the Southern Association of Colleges and Secondary Schools in December 1956.

Students attended classes on the new 9th Avenue campus for the first time in September 1957.

In 1958, PJC began its second decade by introducing a two-year nursing program — the first of its kind in the Southeast. The nursing program began as a joint venture with Baptist Hospital.

Lyceum, PJC's cultural enrichment program, also began in 1958. Created by John T. Vetetozzi, Fine Arts and Humanities chair, Lyceum continues to bring nationally known speakers, musicians, and artists to the College.

The Student Union for Good Government and Greek organizations emerged during the early 1960s. In 1960, Delta Chi Omega became PJC's first sorority, and in 1961, Delta Kappa Alpha became the first fraternity. Instructional television came to PJC in 1961.

Closed-circuit broadcasting to PJC classrooms and selected public schools began in 1962.

PJC became one of three colleges in the state to establish a dental hygiene program in 1962.

In 1963, President Ashmore accepted the presidency at Armstrong State College in Savannah, Georgia.

1964 – 1980, President T. Felton Harrison

On July 1, 1964, T. Felton Harrison assumed the presidency. He had served as Dean of Instruction at PJC since 1957.

In 1964, the new Center for Adult Studies became home to Adult High School and PJC's vocational and technical education programs.

The area's first planetarium open to the public and a dental health clinic were included in an addition to the Mary Ellison Baars Science Building in 1965.

Expansion continued in 1965 with the opening of a new Educational Television Building. Lauded as the finest facility of its kind in the South, the new ETV Building housed two large television studios for closed-circuit television and a television station.

In September 1967, WSRE-TV Channel 23 went on the air open-circuit, beaming enrichment and college credit programs to the community.

The PJC Foundation was incorporated on November 1, 1965, with Crawford Rainwater as the first president.

President Harrison spearheaded the merger of PJC with Booker T. Washington Junior College (WJC) in 1965. WJC was the first black junior college built in Florida and had served the black community since 1949.

WJC President Garrett T. Wiggins joined the PJC administration as director of research. The merger brought approximately two-hundred black students to the PJC campus.

The Triple G Club was founded in 1968. It was later renamed the Black Student Union.

The Florida legislature passed a bill in 1968 changing authority over community colleges from local boards of advisors who reported to county school boards to local boards of trustees who reported to the State Board of Education.

PJC's former advisory committee became the District Board of Trustees, the governing body of the College. The district was defined as including Escambia and Santa Rosa counties.

Pensacola Junior College's first District Board of Trustees included James Lay, chair, and members Leonard Wolf, O.M. Carter, H.T. Woodruff, Mrs. E.J. Moore, Shelby Walter, Warren Briggs, Dr. S.W. Boyd, and Earle Bowden.

In 1971, PJC's Milton Center was created to better serve Santa Rosa County. Classes were held in the former Canal Street School in Downtown Milton with William H. Massey as the Milton Center's first director.

WSRE began broadcasting in color in 1971.
In 1973, PJC celebrated its silver anniversary and dedicated a new $1 million Career Development Center that provided free services to more than 22,000 people each year. Women were welcomed to varsity sports in 1974, and Joy DeSensi was hired part-time to coach the Lady Pirates basketball team. In 1975, a $1 million Learning Resources Center with state-of-the-art technology opened on the Pensacola campus.

A new campus in Warrington opened for classes on August 22, 1977. The $8 million facility was built on 164.7 acres donated by the U.S. Government. Gaspare Tamburello, the college’s Veterans Affairs director and a retired U.S. Navy captain, was instrumental in acquiring this land.

John T. Venetozzi spearheaded the construction of the Warrington campus and became its first provost.

In February 1980, President Harrison announced plans for retirement.

1980 – 1997, President Horace “Ed” Hartsell

Following a national search, Horace “Ed” Hartsell became Pensacola Junior College’s third president in May 1980. Hartsell had been president of East Arkansas Community College in Forrest City.

Doug Worley, Dean of Personnel Affairs, was selected as director of the Milton Center in 1980 and named provost later that year.

In 1981, PJC began an academic honors program, the first to feature small classes and challenging material.

In December 1981, PJC opened a center at Naval Air Station Pensacola, offering daytime and evening classes to both military and civilian personnel. David Sutton served as NAS Center director from its inception through 2005.

A pristine eighty-acre site along Highway 90 was purchased for the new Milton Center in 1982. Designed to preserve its natural environment, the Milton Center opened for classes in January 1985 and offered new programs in horticulture and wildlife ecology. Phase II was completed in 1986.

In 1984, J.C. Thedford became the first provost of the Pensacola campus. The following year, Thedford became provost of community programs, and Richard Bedics became provost of the Pensacola campus.

In 1985, the Lady Pirates won the FCCAA State Basketball Championship, and Coach Vicki Carson, who had been selected as the first full-time coach for women’s basketball in 1980, was named FCCAA Coach of the Year.

The Academy of Teaching Excellence was established in 1986 by Charles Atwell, Executive Vice President. Each year the Academy recognizes outstanding faculty who have exhibited sustained excellence in teaching.

In 1988, Coach Mary Bailey led the Lady Pirates slow-pitch softball team to the NJCAA Division I National Championship. Bailey had been softball coach since the Lady Pirates team formed in 1981.

In 1989, PJC opened a Downtown Center in the Blount Building, offering courses geared for working adults and the local business community. Continued growth prompted the move to a permanent, four-story facility on West Garden Street in 1996.

PJC honored its first president by naming the extensively renovated Building 8 as the Henry L. Ashmore Fine Arts Center in May 1990. The 314-seat auditorium and adjoining classrooms were originally constructed during Ashmore’s tenure.

The Baroco Center for Science and Advanced Technology was dedicated in October 1990. The 125,000-square-foot center provides the latest in science, math, computer science, and advanced technology programs and houses a high-tech planetarium.

In 1993, PJC sports enjoyed a banner year with the Pirates winning two national championships. The Pirates basketball team, under Coach Bob Martin, became the first Florida team to win the NJCAA Division I National Championship in basketball.

The Pirates golf team, under Coach Jim Donovan, won the NJCAA Division II National Championship that same year.

The Kugelman Center for Telecommunications opened in 1994 to house WSRE-TV. The $7 million, 43,000-square-foot facility is home to the area’s first digital television station.

In 1997, President Hartsell and the District Board of Trustees announced plans for an eighty-foot bell tower on the Pensacola campus as part of PJC’s fiftieth anniversary celebration. The carillon was named for M.J. Menge, a 1956 PJC graduate and the College’s general counsel for thirty-one years.

The year 1997 also marked the beginning of PJC’s fourth presidential search as President Hartsell began plans for retirement in 1998.

1998 – 2002, President Charles A. Atwell

Following a national search, Charles A. Atwell became Pensacola Junior College’s fourth president. His inauguration coincided with PJC’s fiftieth anniversary on September 8, 1998. Atwell had served as the College’s Executive Vice President since 1986.

Women’s volleyball began in fall 1998 with Kim Hollon coaching. The next year, PJC alum Pete Pena took over as volleyball coach.

In December 1998, the PJC Foundation launched the College’s first capital campaign. The lead gift of $1 million from the Switzer and Reilly families established the Anna Lamar Switzer Center for Visual Arts. The campaign exceeded its goal, reaching more than $5 million. Nearly 750 individuals, organizations, and businesses participated in the fund drive, including more than 300 PJC faculty and staff.

PJC’s first Endowed Teaching Chair, named in honor of Margaret Moore Nickelsen, was awarded to Lou Fazio, dental health professor, in 1999.

During 1999–2000, PJC served 30,742 students in both credit and non-credit courses, including those offered through dual enrollment at area high schools.

The Sandra and Grover Robinson III Honors Program began in August 2000 with forty-two Robinson Scholars.

In fall 2000, a student ambassador program was initiated to help increase student recruitment and retention.

Construction for the Warrington campus Health Sciences Complex and the Pensacola campus Anna Lamar Switzer Center for Visual Arts began in January 2001. The first Anna Lamar Switzer Endowed Teaching Chair was awarded to photography professor Warren Thompson.

In celebration of Community College Month 2001, PJC began a “Legends” program honoring employees who had served twenty-five years or more.

On July 3, 2001, WSRE became the second public broadcaster in Florida to air a digital signal. The station initiated a capital
campaign in 2002 with a goal of $2 million to complete the digital conversion.

Former First Lady Barbara Bush visited PJC in February 2002 to help the Foundation launch the Universal Scholarship and Adult Literacy Fund.

The 2002 Pirates baseball team enjoyed renovated facilities and placed third in the State Baseball Tournament, setting a team record of 39 wins.

Between 2001-02 the Lady Pirates enjoyed great success. The volleyball team won the Panhandle Conference championship, the softball team was voted Academic Team of the Year in the Panhandle Conference, and Coach Vicki Carson earned her 400th win in women’s basketball.

In 2002, the Anna Lamar Switzer Center for Visual Arts held a grand opening, and the Charles A. Atwell Health Sciences Complex was dedicated.

For the first time, the Foundation presented Governor Emeritus awards to Wayne Peacock and Jim Stolhanske in 2002.

President Atwell announced plans for retirement in 2002.

2002 – 2008, President G. Thomas Delaino

Following a national search, G. Thomas Delaino became Pensacola Junior College’s fifth president on September 18, 2002. Delaino had served as Senior Vice President and Vice President of Planning and Administration at the College since 1993.

In 2003, Gael Frazier became the College’s first Associate Vice President for Institutional Diversity.

The Pirate baseball team won the State Championship - the first state title for Pirates baseball since it began in 1951 - and Coach Bill Hamilton was named Coach of the Year in May 2004.

Category Three Hurricane Ivan devastated the area in September 2004, leaving more than $10 million in damage to the College’s three campuses, Downtown Center, and NAS Center.

U.S. President George W. Bush held a town hall meeting at the College in March 2005.

Lady Pirates’ basketball coach Vicki Carson won her five-hundredth game in January 2005. At the end of the season, Carson retired from twenty-five years of coaching with 515 wins, the most wins in FCCAA history. Chanda Rigby was named new head coach for women’s basketball. In February 2005, the Garrett T. Wiggins Student Affairs Complex was dedicated in honor of Wiggins, who was president of Booker T. Washington Junior College when it merged with PJC in 1965. In March 2005, the 16,257 square-foot Jean and Paul Amos Performance Studio was dedicated with several Public Broadcasting celebrities attending the weekend event at WSRE.

A new student literary magazine, Issue, debuted in June 2005 with Marzia Accardo as the first editor.

Green & White, the official internal weekly newsletter established in 1955, went to solely electronic publications with the July 18, 2005, issue.

Beginning August 2005, PJC’s academic calendar changed to three full semesters — fall, spring, and summer — with each offering four sessions with a variety of starting and ending dates.

PJC participated in the first nation-wide observation of Constitution Day on September 22, 2005, with speakers and free copies of the U.S. Constitution.

The Foundation celebrated its fortieth Anniversary in 2005 by honoring the six visionary businessmen who launched it in 1965 — Crawford Rainwater Sr., E.W. Hopkins, M.J. Menge, Warren Briggs Sr., Howard Rein, and Gaspare Tamburello.

Partnering with Habitat for Humanity, the College began a carpentry program in May 2006, giving students experience by building local Habitat homes.

The 2006 FCCAA Hall of Fame inducted Ken McAferty, the College’s Brain Bowl coach for twenty-three years, and Vicki Carson, women’s basketball coach for twenty-five years.

The 2007 FCCAA Basketball Coaches Hall of Fame inducted Vicki Carson; Bob Marlin, former men’s basketball coach; and Mike Gilbert, long-time scorekeeper.

All College Day was launched February 2, 2007, with all faculty and staff participating in professional development workshops.

Retired President Ed Hartsell was honored with the dedication of the newly renovated Hartsell Basketball Arena on February 21, 2007.

The Corsair student newspaper won the national Pacemaker Award for the first time for its online version, eCorsair, in 2007.

Harvard University medical faculty conducted a three-day seminar at PJC’s Mary Ekdahl Smart Center for Patient Simulation Training and Research on the Warrington campus in May 2007.

President Tom Delaino was honored for outstanding leadership in the community with the PACE Pioneer Award in February 2008.

Milton Center sponsored its twentieth Forestry Conclave and Lumberjack Festival in February 2008.

President Delaino retired in May 2008.

2008 – Present, President C. Edward Meadows

Following a national search, C. Edward “Ed” Meadows was selected as Pensacola Junior College’s sixth president and began leading the College in June 2008. Meadows previously had been president of Lurleen B. Wallace Community College in Alabama.

NASA astronaut and PJC alum Alan Poindexter took a specially minted, gold PJC medallion with him on a 5.3 million-mile Atlantis space shuttle mission in February 2008. In June, he presented the medallion to President Meadows and College officials.

September 8, 2008, marked the sixtieth anniversary of Pensacola Junior College. Celebratory events included cake cutting ceremonies on each campus and an outdoor, evening concert directed by Don Snowden, longtime Music and Theatre Department Head.

In October 2008, The Corsair captured the General Excellence Award for Florida community college papers for the fifteenth time in eighteen years.

PJC’s nursing program received full accreditation from the National League for Nursing and Accrediting Commission in 2008.

The Practical Nursing Program ranked number one out of all 1,036 programs across the nation for the period of April through September 2008.

In 2008, PJC partnered with the Pensacola Area Chamber of Commerce to open the Center for Innovation and Entrepreneurship at the Downtown Center. This incubator program provides a supportive environment to new business startup for high technology and virtual entrepreneurs.

The College’s SkillsUSA student organization was chartered and began hosting the regional secondary and post-secondary skills competitions in 2008.

In November 2008, the College Board of Trustees unanimously voted to pursue the offering of baccalaureate degrees.

PJC’s nationally recognized Smart Simulation Center was designated as a Center of Educational Excellence by Laerdal.
In March 2011, the Lady Pirates basketball team, coached by Chanda Rigby, ended a 35-1 season with thirty-four straight wins. The Lady Pirates won the FCCAA State Championship for the first time since 1985 and the Panhandle Conference Championship for the first time since 1994, and returned from the National Junior College Athletic Association finals, ranked number three in the nation. Coach Rigby was named Panhandle Conference and FCCAA Coach of the Year.

In January 2011, inaugural classes began for Bachelor of Science in Nursing (BSN) and Bachelor of Applied Science in Administration and Supervision (BAS) programs.

In March 2011, the Lady Pirates basketball team ended a record-breaking 35-1 season with 34 straight wins. Lady Pirates won the FCCAA State Championship for the first time since 1985, the Panhandle Conference Championship for the first time since 1994, and returned from the NJCAA finals, ranked No. 3 in the nation. Lady Pirates Basketball Coach Chanda Rigby was named Panhandle Conference and FCCAA Coach of the Year.

The first President’s Leadership Institute was initiated in 2011 as a rigorous, year-long professional development program open to full-time College employees selected through a competitive process.

In June 2011, the Florida Heritage Site Historical Marker was unveiled honoring the original site of the College at the corner of Palafox and Cervantes streets in downtown Pensacola.

For the first time in the College’s history, bachelor's degrees were awarded at the December 2011 graduation. The seven students receiving BAS and BSN degrees also received specially minted coins recognizing their accomplishments and serving as a talisman for their future endeavors.

In January 2012, Pensacola State opened two new centers—the new 35,000 square-foot South Santa Rosa Center and the extensively-renovated Century Center. The Lady Pirates basketball players made history in March 2012 as the College’s first athletic team to win back-to-back FCSAA State Championships. Coached by Chanda Rigby, the team again ended the season ranked third in the nation.

Pensacola State College received the first annual Higher Education Excellence in Diversity (HEED) Award from INSIGHT Into Diversity magazine in November 2012.

The College began 2013 by unveiling a new logo reflecting Pensacola State College’s name change and beautiful coastal area.

In April 2013, PSC hosted the largest-ever Florida SkillsUSA State Conference, drawing more than 6,500 participants.

PSC Visual Arts Professor Bill Clover received the U.S. President’s Call to Service Lifetime Achievement Award for contributing more than 7,000 hours of volunteer service to Manna Food Pantries. PSC Performing Arts Instructor Kadisha Onalbayeva was named an International Steinway Artist and performed on the legendary Steinway & Sons Horowitz piano in the North American tour.

In September 2013, PSC celebrated its 65th anniversary as the oldest college in the area and launched a new Alumni Affairs office to better serve the College’s more than 96,000 graduates.

PSC welcomed the opening of a stunning 15,500-square-foot facility to house the PACE Center for Girls in fall 2013 - the only PACE Center in Florida located on a college campus.

In 2014, Visual Arts Students won 41 of 50 ADDY awards in the local college and university competition, 10 ADDY awards in the district competition, and two ADDY awards in the national competition.

In June 2014, PSC and the University of West Florida launched the PSC2UWF partnership to better facilitate students who complete an associate degree from PSC and transfer to UWF to complete a bachelor’s degree.
PSC opened the first outdoor gallery of its kind with a 15X20 foot reproduction of the Dutch masterpiece, "Girl with a Pearl Earring," in summer 2014.

The Lamar, Reilly and Switzer families presented a $1 million gift for construction of the Charles W. Lamar Studio at PSC's Anna Lamar Switzer Center for Visual Arts.

Acclaimed National Geographic photographer, Steve McCurry, displayed 74 large format photographs in a first-ever, four-month solo exhibit at the Switzer Gallery.

In January 2015, PSC and the University of West Florida entered a partnership to admit select students from PSC’s Bachelor of Applied Science program into UWF’s Master of Business Administration or Master of Science in Administration, Health Care Administration Track.

After 18 years coaching the Lady Pirates softball team, Brenda Pena retired at the end of the 2015 season with 891 wins. She had coached the team since 1997 and held the distinction of being the first athlete signed to play for PSC's inaugural softball team in 1981.

In June 2015, the Molly McGuire Culinary Arts Dining Room was dedicated in memory of Molly McGuire, a beloved restauranteur known for her unmatched hospitality.

Visual Arts Professor Bill Clover began his 50th year teaching at the college in August 2015. He is an award-winning artist and is the longest serving faculty member in the history of Pensacola State.

In January 2016, PSC received approval from the Florida Board of Education to offer a new baccalaureate degree program, the Bachelor of Applied Science in Cybersecurity, designed around industry and Department of Homeland Security standards.

From its modest beginnings in 1948, Pensacola State College has grown into a premier, student-friendly college that competes with the best.
ACADEMIC AND STUDENT SERVICES

CENTER FOR ADVISING AND CAREER SERVICES

Pensacola State College offers academic advising, career advising, and educational planning for students. Advisors are available on all campuses and centers:

**Pensacola Campus Advising Center**
Building 5, Room 508
(850) 484-1630

**Warrington Campus Student Services Office**
Building 3600, Room 3612
(850) 484-2270

**Milton Campus Student Services Office**
Building 4200, Room 4202
(850) 484-4410

**Century Center**
(850) 471-4622

**South Santa Rosa Center**
(850) 471-4630

Advisors are available to assist students with program planning, course registration, and graduation or transfer requirements. New students should schedule a registration session or complete the online orientation at www.pensacolastate.edu. Additionally, specialized academic advising is available in the various academic departments at Pensacola State College. Students pursuing a Bachelor’s degree, an Advanced Technical Certificate, the Associate in Arts degree, an Associate in Science degree, or a certificate program may also receive advising through the appropriate department head or program director.

Students may obtain a degree audit through their Spyglass account located at www.pensacolastate.edu. Students may also access academic information through www.floridashines.org, which offers academic information specific to Florida public colleges and universities, career readiness and distance learning resources for students and parents.

**NON-CITIZEN STUDENTS (F-1 VISA HOLDERS)**

Any citizen of another country interested in obtaining the F-1 Student Visa to attend Pensacola State College should contact the Registrar's Office and submit the International Student Application, available at www.pensacolastate.edu.

The College Registrar serves as the Designated School Official for Immigration, who handles issues related to the admissions and enrollment of international students. A member of the Pensacola Campus Advising Center serves as the advisor for F-1 visa holders and has the responsibility of advising each international student regarding his or her academic goals and assisting with special needs.

A student whose native language is not English has the benefit of enrolling in reading and writing courses to assist the student's speaking and composition skills. These courses are available through non-credit and developmental education instruction. The international student advisor will assist the student in appropriate course placement.

STUDENT JOB SERVICES AND COOPERATIVE EDUCATION

Student Job Services assists Pensacola State College students and alumni with their employment needs and offers Cooperative Education opportunities to qualifying students. Employers can use Pensacola State College Works On-Line to post jobs and search for qualified applicants. Student job services assists students in creating resumes, preparing for job interviews, and developing employability and work effectiveness skills.

Interested students should contact Student Job Services, Building 6, Room 641 on the Pensacola campus or call (850) 484-1654 for more information. Students should update their online student profile each term.

**Job Placement**

Employment assistance is provided to all students and graduates. Full-time and part-time jobs are listed at www.pensacolastate.edu/sjs. Pensacola State Works Online allows students and graduates to search for jobs and post resumes and allows employers to contact applicants. Student Job Services assists students in creating resumes, preparing for job interviews, and developing employability and work effectiveness skills.

**Cooperative Education**

The Cooperative Education program is a planned, paid work experience in which a student is employed in a job directly related to his or her fields of study. The program offers both alternating and parallel work schedules. In the alternating schedule, the student works full-time one semester and is enrolled in classes full-time the following semester. In the parallel schedule, the student is enrolled in classes and works part-time each semester.

The program offers academic or vocational credits for each semester worked. The student must maintain a 2.5 GPA throughout the cooperative education experience. Each student must complete certain requirements before being sent on job interviews and must also complete specific objectives related to his or her program for each semester of employment. These requirements will ensure that the student participates in real life occupational experiences, which will enhance the educational experience through individualized, on-the-job situations.

The cooperative education program unites the College, the student, and the employer to provide each student with a well-rounded education and offers experience for the job market. Any interested student should contact the Student Job Services, Building 6, Room 641 on the Pensacola Campus or call (850) 484-1654 for more information.

Complete details on job placement and cooperative education services may be found at www.pensacolastate.edu/sjs.

LIBRARIES

The mission of the Pensacola State College libraries is to promote the curriculum, goals, and initiatives of the College. The libraries provide access to print and digital information resources, reference assistance, workshops, and library services for students, faculty, staff, and community patrons.

Resources include the on-line catalog, interlibrary loan, books, e-books, and full-text magazine articles on the library website: http://library.pensacolastate.edu/. A Pensacola State College ID is required to access several web-based resources.

Each campus library also furnishes photocopy machines and computers. A PirateMail account is required for a student to access any library computer.
The libraries offer two college credit courses: LIS2005 (p. 223) Information and Internet Research and LIS1004 (p. 223) Introduction to Internet Research. All libraries house materials for Pensacola State College distance learning courses. Library computers are equipped for visually impaired students and the library website is ADA compliant.

**Regular Library Hours**

**Milton**
- Monday: 7:30 a.m. – 7:00 p.m.
- Tuesday: 7:30 a.m. – 7:00 p.m.
- Wednesday: 7:30 a.m. – 4:00 p.m.
- Thursday: 7:30 a.m. – 7:00 p.m.
- Friday: 7:30 a.m. – 4:00 p.m.
- Saturday: Closed
- Sunday: Closed

**Pensacola**
- Monday: 7:30 a.m. - 8:30 p.m.
- Tuesday: 7:30 a.m. - 8:30 p.m.
- Wednesday: 7:30 a.m. - 8:30 p.m.
- Thursday: 7:30 a.m. - 4:00 p.m.
- Friday: 7:30 a.m. - 4:00 p.m.
- Saturday: Closed
- Sunday: 1:00 p.m. - 5 p.m.

**Warrington**
- Monday: 7:30 a.m. - 7:00 p.m.
- Tuesday: 7:30 a.m. - 7:00 p.m.
- Wednesday: 7:30 a.m. - 4:00 p.m.
- Thursday: 7:30 a.m. - 7:00 p.m.
- Friday: 7:30 a.m. - 4:00 p.m.
- Saturday: Closed
- Sunday: Closed

*For holiday closures and extended hours call (850) 484-2001. For hours at the South Santa Rosa Center call (850) 471-4630, For hours at the Century Center call (850) 471-4622.

**TESTING AND ASSESSMENT**

The Testing and Assessment Center administers a wide range of campus, state, and national examinations used in student advising, course placement, research, certification, licensing, and awarding of college credits. The Testing and Assessment Center is located in the Student Services Building, Building 6, on the Pensacola campus. Testing services are also available in the Student Services offices on the Milton campus, Warrington campus, Century Center, and South Santa Rosa Center.

**ACT and SAT**

Information about registration, test dates, fees, etc. may be obtained on the following websites:

- ACT: www.actstudent.org
- SAT: www.collegeboard.com

Information may be obtained from the Testing and Assessment Center, Building 6, Pensacola campus or from Student Services offices on district campus sites or centers. A prospective student may obtain application packets from area school guidance offices.

A prospective student is encouraged to take the ACT or SAT examination and have the scores forwarded to Pensacola State College. ACT and SAT scores, if appropriate, will be recognized for placement purposes.

**Placement Testing and Developmental Education**

Pensacola State College offers the Post-Secondary Education Readiness Test (PERT) to determine placement into college-level courses.

**Testing Exemption:** Due to a legislative change, a student may be exempt from the required placement testing and developmental education. Per the rule a Florida public high school student who entered Grade 9 in the Florida public school system in the 2003-2004 academic year (or later) and earned the Florida Standard High School Diploma shall not be required to take the common placement test and shall not be required to enroll in developmental education instruction in a Florida College System institution. Additionally, any active duty military service member shall not be required to take the common placement test and shall not be required to enroll in developmental education. After the successful completion and submission of the College’s admission application, a student or active duty service member is encouraged to meet with an advisor to determine eligibility for testing exemption and discuss the process for opting out of testing and developmental education.

A student who is not exempt from placement testing and who wishes to enroll in college credit English or mathematics courses (Gateway courses) must satisfy placement requirements through testing. The following tests meet the State of Florida’s Placement requirements and any of these scores (active scores less than 2-years old) are accepted for placement at Pensacola State College: ACT, SAT, CPT or Post-Secondary Education Readiness Test (PERT).

Transfer students may satisfy placement testing requirements through prior coursework and/or successful completion of an acceptable placement exam (ACT, SAT, CPT or PERT).

Special Students and Non-Degree Seeking Students are subject to placement testing requirements if enrolling in writing emphasis or mathematics courses.

A student whose placement scores indicate a need for skill review should enroll in developmental education courses in the first semester of enrollment. A student with test results indicating the need for 2 or more developmental education courses should also enroll in SLS1101 (College Success) even if this course does not satisfy a requirement for the intended degree. A student who tests into developmental education courses should enroll in these courses by the time they have attempted 12 credit hours. A student must maintain continuous enrollment in at least one developmental course each semester until the requirements are completed. A student may take other credit courses along with the developmental education course as long as the developmental education course is not a prerequisite for the credit course. For additional information, please contact an advisor.

**Test of Adult Basic Education (TABE)**

Pensacola State College offers the Test of Adult Basic Education (TABE) to determine skills assessment for participation in some Vocational Certificate programs.

A recent legislative change (see Placement Testing and Developmental Education) may apply to a student and his or her placement requirements for a certificate program. After the successful completion and submission of the College’s admission application, a student or active duty service member is encouraged to meet with an advisor to determine eligibility for testing exemption and discuss the process for opting out of testing and developmental studies.

A student who meets the Developmental Education Exemption requirements (see Placement Testing and Developmental Education) is exempt from TABE requirements for the certificate programs. Also, a student who has earned an Associate Degree or higher is exempt from TABE requirements.

The TABE assessment is conducted before enrollment (or within the first 6-weeks of enrollment) at district campus sites. A student
must meet the required skill levels in mathematics and/or communications before completion of the vocational program in which his or her are enrolled. A student should contact the program director or department head for additional information about the requirements.

General Educational Development (GED) Test
The 2014 GED test is administered on computer throughout the year at the Testing and Assessment Center on the Pensacola campus. Information about registration, test dates, fees, etc. may be obtained on the following website: GED: www.ged.com. Additional information may be obtained from the Testing and Assessment Center, Building 6, on the Pensacola campus.

College Level Examination Program (CLEP)
The College Level Examination Program (CLEP) is a nationally developed program for credit-by-examination. Credit may be granted for scores meeting the established criterion score on approved tests. Examination fees are established by the College Board. CLEP application information is available in the College Testing and Assessment Center on the Pensacola campus. A student should consult with an advisor regarding his or her education plan prior to taking a CLEP examination. Credit awarded for the CLEP test is determined by the State Board of Education.

Florida Comprehensive Assessment Test (FCAT)
The Florida Comprehensive Assessment Test (FCAT) is being phased out and replaced with the state-mandated Florida Standards Assessment (FSA). A high school student is expected to meet with a Collegiate High School advisor to determine the appropriate assessment(s) for his or her particular graduation requirements.

Florida Standards Assessment (FSA)
FSA/ELA is the new assessment required by the Florida Dept. of Education. It replaces the FCAT. A student is expected to meet with a Collegiate High School advisor to determine which of these tests is/are needed for graduation from the FSC Collegiate High School.

Industry Certification Testing
Some Pensacola State College programs recommend that a student pursue industry certification testing. Information about available tests for industry certification may be obtained at the Testing and Assessment Center on the Pensacola campus, Building 6. More detailed information about additional tests offered may be found on the Pensacola State College website at www.pensacolastate.edu (Testing and Assessment link on the Current Students page).

TUTORING SERVICES

Math Lab
Free math tutoring is available to all Pensacola State College students currently enrolled in developmental education or college-level courses. No appointment is necessary. The Math Labs are located on the Pensacola, Milton, and Warrington campuses, and at the South Santa Rosa Center. Math tutoring via Skype is available at the Century Center via Skype (850) 484-2003

Wright Lab
Free writing tutoring is available to all Pensacola State College students currently enrolled in developmental education or college-level courses. No appointment is necessary. The Writing Labs are located on the Pensacola, Milton, and Warrington campuses, and at the South Santa Rosa Center. Tutoring is available at the Century Center via Skype. Services include assistance with writing assignments for any Pensacola State College course, grammar review, support for developmental reading courses, vocabulary development, and access to computers. Distance tutoring is available via Skype, and online paper reviews are provided via eLearning or PirateMail. In addition, free virtual tutoring featuring live online help is offered. For more information regarding these services, contact any of the Writing Labs. Below are the locations and telephone numbers for each Writing Lab.

Virtual Tutoring
Free virtual tutoring featuring live online help is available for students enrolled in writing emphasis courses as well as many disciplines, including but not limited to mathematics, anatomy and physiology, and chemistry. For more information about virtual tutoring, access the Virtual Resource Center: http://www.pensacolastate.edu/virtual-resource-center/

STUDENT RESOURCE CENTER FOR ADA SERVICES
The Student Resource Center for ADA Services is located on the Pensacola campus in Building 6, Room 603, and can be reached by telephone at (850) 484-1637. A student with documented disabilities is enrolled in classes for inclusion in the educational experiences common to all students. A variety of services are provided:

1. Orientation to campus facilities;
2. Personal and vocational counseling;
3. Special classroom arrangements;
4. Information and assistance to faculty;
5. Coordination with local community services;
6. Referral to community agencies;
7. Braille and taped materials;
8. Adaptive computer software programs for reading materials;
9. Special testing accommodations;
10. Note taking assistance;
11. Interpreters for deaf and hard of hearing; and
12. Textbooks on tape.

When necessary, course substitutions can be made pursuant to Florida Statute 1007.264 and State Board of Education Rule 6A-10.041. Accommodations for the GED and other standardized tests are also available.

Pensacola campus Bldg. 1, Rm. 102 (850) 484-2003

Milton campus Bldg. 4200, Rm. 4213 (850) 484-4425 or 484-4420

Warrington campus Bldg. 3400, Rm. 3402D (850) 484-2378

South Santa Rosa Center Bldg. 51, Rm. 5131A (850) 475-4851

Century Center via Skype (850) 484-2003
DIVISION OF VOCATIONAL REHABILITATION

To serve each student with a disability who is attending the College under the auspices of the Division of Vocational Rehabilitation, the Department of Education has branch offices located on two of the College campuses.

Pensacola campus  Building 6, Room 659  (850) 484-1660
Milton campus  Building 4100  (850) 983-5340

VETERAN SERVICES

Pensacola State College has served veterans and their families since 1948. The Veteran Services Office (VSO), located in Building 6 on the Pensacola Campus, assists students with Department of Veteran Affairs (DVA) and College VSO procedures. Veteran Services is part of the Student Financial Services Division of the College. The VSO assists a student with his or her DVA education claims and is responsible for meeting all institutional reporting requirements mandated by DVA regulations. A student using Veteran Benefits is required to follow both the academic policies and procedures for obtaining a degree or certificate at Pensacola State College and adhere to DVA policies and procedures. DVA determines the education benefits and amount to be paid to the eligible student. Both the College and the student must abide by DVA regulations. The College’s VSO is a service of Pensacola State College and not an affiliate of the United States Department of Veteran Affairs (DVA). Information for students receiving DVA benefits is found in this catalog and on the website: http://www.pensacolastate.edu/financialaid/veterans.asp.

Resources are also available in the VSO. Pensacola State College’s VSO is committed to providing resources online for students, limited and protected by concerns for privacy and security. A student should frequently consult the DVA website: http://www.benefits.va.gov/gibill/ for updates.

Advanced Payment (Chapter 30, 35 and 1606 only)

A new student or those who have not received VA education benefits from any school within 30 days of the start of the semester may apply for a one month advance payment of their eligible education benefit. The properly completed application and certified documentation must be received by the DVA Regional Office no earlier than 120 days and no later than 30 days before the first day of class. A student should allow an average of four to six weeks after the VSO office submits enrollment certification for receipt of his or her first direct deposit of DVA education benefits. Visit http://pensacolastate.edu/financialaid/veteransaffairsforms.asp for more current information.

Application

A student anticipating the use of his or her DVA education benefits for enrollment at Pensacola State College must submit their applications using the VONAPP (Veterans-On-Line Application) website: http://www.benefits.va.gov/gibill/apply.asp.

Any student who has previously attended training or education after high school (including military education/training) are required by the DVA to have his or her training evaluated for applicable credit to programs of study, regardless of whether or not DVA assistance was previously received. The credit evaluation is processed by the Pensacola State College Registrar’s Office. Credits may then be applied toward the student’s degree program at Pensacola State College. A copy of all DD-214’s or Military Training Transcripts (Joint Services Transcript for Army, Navy and Marines; CCAF for Air Force) and official school transcripts must be submitted to the Admissions/Records Office at this College for their military/educational training evaluation. The Pensacola State College VA Certification Request form is available from the VSO website and must be accurately completed, signed, and submitted to this VSO by the student.

Certificate of Eligibility

Upon favorable review of a benefits application, the DVA will issue a Certificate of Eligibility directly to the student. The student MUST then submit a copy of the Certificate to the VSO.

Attendance Requirements

A VA student may be withdrawn by his or her instructors when absences are excessive, as defined under the Attendance Policy described in this catalog. A student must verify his or her attendance on the last day of the month to initiate the release of the monthly benefit check if using CH 30, 1606, or 1607 education benefits. To verify attendance, please use the Web Automated Verification of Enrollment (WAVE) at https://www.gibill.va.gov/wave/index.do, or the toll free Interactive Voice Response (IVR) telephone line at (877) 823-2378.

Calculation of Pay Rate

Pay rate classifications are set by DVA for all GI Bill chapters. The rate calculation is based on the combination of credits enrolled and the length of the session in days of instruction. Pensacola State College has three semesters — fall, spring, and summer. Each semester has four sessions, A, B, C, and D. The sessions have varied lengths. It is important to remember that semester and session have different meanings and measurements. A student enrolled in 12 credit hours for fall semester, all in the A session is FULL TIME for the semester. Enrollment in two or more different sessions during the semester could result in changes in the calculation of the rate of pay over the semester. A student should go to http://www.benefits.va.gov/gibill/ for pay rate information.

Certification

All enrolled VA students should submit a VA Certification Request form upon completion of registration to the VSO if they wish to claim DVA benefits for the upcoming semester. IMPORTANT: Students should complete their registration and the necessary steps for certification as early as possible to ensure quick processing and DVA payment.

Communications

Official communications between Pensacola State College and a student is through PirateMail. It is each student’s responsibility to regularly monitor this account. A student should submit correspondence to the VSO using veterans@pensacolastate.edu. The student’s name, Pensacola State Student ID number, and chapter of VA benefits should always be included.

Cooperative (CO-OP) Training

Co-op training is approved for DVA benefits if the course is required in a student’s program and meets DVA regulations for certification purposes. If the co-op course is verifiable and the student would like to receive DVA benefits, the “Statement of Election” form must be completed before the co-op course can be certified to the DVA. Contact the VSO to ensure the course is verifiable and to obtain the necessary paperwork.

Courses for Which the VA Will Not Pay

Any course that cannot be applied toward fulfilling graduation requirements in a student’s DVA approved degree program at Pensacola State College cannot be certified to the DVA for benefit payments. The following list reflects other types of non-pay courses, but is not all inclusive.

1.  Repeated courses which have been successfully completed with a grade of D or better, unless the course is being repeated in accordance with the Gordon Rule or Pensacola State College graduation requirements. This includes courses transferred in whether DVA benefits were received or not.
2.  Courses not listed under a student’s DVA approved degree program; unless the course is a pre-requisite or co-requisite listed under the course descriptions in the current College Catalog, or a course substitution, processed and approved before the semester begins. A student should follow the
Pensacola State College program outline listed in the College Catalog verified as the one under which the student plans to graduate.

3. Courses offered as open entry/open exit.
4. Courses considered excessive electives. This includes credit received for prior training that will count toward an elective requirement whether DVA benefits were received or not.
5. Remedial courses which are not required by placement test scores or under Florida State laws.
6. Courses taken to fulfill requirements at another institution unless an approved transient authorization is received.
7. Courses taken as audit, non-credit, CLEP, or exemption.
8. Any course in which a student’s final permanent grade is non-punitive in nature, for example a W grade, unless DVA finds the student received the grade due to mitigating circumstances. See Grades Table elsewhere in the catalog.
9. Courses offered as independent study in a certificate program.

**Deferment**
Florida law provides for one deferment of tuition and fees (not including books) per academic year for a student receiving DVA benefits. The deferment is a legal promissory note between Pensacola State College and the student; therefore, the student is responsible for making full payment by the due date. All costs of collection including reasonable attorney fees will be the responsibility of the student. The student’s obligation to pay is not contingent on the student first receiving his or her DVA payment.
Consult with the VSO staff for complete eligibility requirements and proper ID documents. Students receiving CH 33 benefits should review the Post 9/11 section for additional information.

**Dual Degree**
DVA allows a student to concurrently pursue two degree programs. A student must first receive approval from Pensacola State College’s Registrar. Then a student must request approval through Pensacola State College’s VSO. The Dual Degree request should be submitted sixty business days prior to the start of the semester dual enrollment is desired. If a student changes one of the dual degree programs after approval, the approval is then voided. If a student submits a certification request with other than one of the approved dual programs, that certification will not be processed. Careful review of the dual request form should be done prior to submitting the request located at: http://www.pensacolastate.edu/financialaid/veteransAffairsForms.asp.

**DVA Resources**
Pensacola State College’s VSO does NOT have access to a student’s DVA pay information; therefore, a student should consult the DVA’s websites: http://www.ebenefits.va.gov and http://www.benefits.va.gov/gibill/ to check on education benefits and payments. Specific questions regarding a student’s education benefits and payments should be addressed directly to the DVA using the “Ask a Question” feature at the following address: https://gibill.custhelp.com/app/utils/login_form/redirect/ask or by calling (888) 442-4551.

**DVA Vocational Rehabilitation**
A student approved for DVA Vocational Rehabilitation (Chapter 31) is eligible to charge tuition, fees, books, and supplies as approved by his or her DVA case manager and as allowed by DVA regulations. The college’s VSO must receive an authorized DVA Form 28-1905 from the case manager before charges can be made. Please allow at least five business days for changes to be made. For additional information, email veterans@pensacolastate.edu.

**Educational Objective**
In order to receive DVA Educational Assistance, a student must be pursuing an approved BAS, BSN, AA, AS, or certificate at Pensacola State College. A student must follow the Catalog for the academic year the student began the program, unless the student takes longer than five years to complete the program. Please see the Effective Catalog Policy for complete details. Transient students must contact the VSO staff for additional requirements.

**NOTE:** DVA will not pay educational benefits for pursuit of a second AA degree if the student has already earned an AA or a bachelor’s degree issued by the state of Florida.

**Graduating Semester**
A VA student under Chapters 30, 33, 35, 1606, or 1607 may register in any college credit course, not part of their degree program, to achieve up to full-time enrollment during his or her graduation term. This exception is once per program.

**Name/Address/Program Changes**
A student is to notify VSO and the Admissions/Registrar’s office of change of name, address, or degree program. These changes can affect receipt of DVA education benefits.

**Non-College Degree (NCD) Programs**
DVA sets specific standards for NCD programs. Based on the instruction/lab mix of the course, DVA designates the number of contact hours needed to qualify for full-time training rate. A student enrolled in Adult Basic Education (ABE) and Collegiate High School (CHS) programs is required by DVA to provide monthly Attendance Sheets for EACH course enrolled. Attendance Sheets for the previous month must be received by Pensacola State College’s VSO by the fifth business day of the next month. If the Attendance Sheets are not received by the deadline, the student will not be certified for payment until after the end of the term and all completed Attendance Sheets are received. Additional information will be provided to each student in an NCD program. Students in ABE and CHS may have his or her benefits terminated for excessive absences.

**Post 9/11 GI Bill-CH 33**
A student using CH 33 will be allowed to request a VA Deferment each semester provided that the student has no unpaid debt to the college.

**Processing Time**
New applications, program changes, and certification requests should allow a minimum of two weeks for the VSO to audit and submit to the DVA. Certifications are processed in date-received sequence.

**Shopping Sheet**
The Veteran Financial Aid Shopping Sheet (PDF), automatically sent to veterans who apply to this college, is a consumer tool used to notify students of their potential financial aid package. Designed to simplify the information that prospective students receive about costs and financial aid, it is used to help a veteran make informed decisions about where to attend school.

**Repeating Courses**
A student may repeat a course in which an F or a non-passing grade is received. The DVA will not pay for successfully completed courses unless a student is repeating a D grade in accordance with the Gordon Rule or Pensacola State graduation requirements.

**Reporting Requirements**
It is the responsibility of a VA student to keep the VSO informed of all changes in their enrollment status by adhering to the following:

1. After registering for classes, the student should go to http://www.pensacolastate.edu/ and in the Spyglass application, click on Degree Audit. Any course indicated as “The following credits are not used in this program” may not count toward enrollment for calculation of benefits. The VSO can help determine which courses are eligible for benefits. Submit an email to veterans@pensacolastate.edu with the
student’s name, Student ID number, chapter of VA benefits, and a statement confirming completion of registration.

2. A student under Chapters 30, 35, 1606, and 1607 must certify their enrollment each month. Verification of attendance should be done on the last day of the month to initiate the release of the monthly benefits check. CH 30, 1606, and 1607 should use the Web Automated Verification of Enrollment (WAVE) at https://www.gibill.va.gov/wave or the toll free Interactive Voice Response (IVR) telephone line at (877) 823-2378 to verify enrollment. CH 35 students must call (888) 442-4554.

3. A student must e-mail veterans@pensacolastate.edu with his or her name, Student ID number, and chapter of VA benefits to report any changes in school enrollment or attendance.

**Tutorial Assistance**

A DVA student enrolled in at least half-time status in a post-secondary program has potential entitlement to DVA tutorial assistance. Contact VSO for additional information and proper forms. Veterans under Chapter 31 should contact their DVA vocational rehabilitation counselor.

**Unsatisfactory Progress**

When a student fails to meet Pensacola State College’s standards of academic progress, the VSO is required to advise the DVA. A student must obtain a Pensacola State College Veteran Services Office Unsatisfactory Academic Progress Form and make an appointment with an academic advisor to have the form completed. When completed, the form must state the reason for the unsatisfactory academic progress and steps a student should take to regain satisfactory academic progress. The completed form must be returned to the VSO in order to be certified for DVA benefits. If the student is on academic probation or suspension for two consecutive terms, his or her DVA benefits can be suspended for unsatisfactory academic progress. See STANDARDS OF ACADEMIC PROGRESS (p. 55) described in this Catalog.

**Work-Study**

A DVA student enrolled a minimum of three-quarter time may apply for the DVA Work-Study Program. The qualified and selected student is paid minimum wage (Florida or federal, whichever is higher) by the Department of Veteran Affairs. Work-Study pay is tax exempt and students may work a maximum of 425 hours over a fall or spring semester and 325 hours over the summer semester. For additional information, please contact veterans@pensacolastate.edu.

**Military Credit**

Active duty service members and retired military personnel may request a review of military experiences for possible credit. Please see the NON-TRADITIONAL CREDIT (EXTERNAL CREDIT) (p. 44) section of this Catalog for detailed information and guidance.

**TRIO FEDERAL GRANT PROGRAMS**

TRIO programs are federally funded by the US Department of Education and designed to encourage enrollment in postsecondary or high school education programs. The various TRIO programs serve those who are first-generation-in-college, low income, veterans, or individuals with disabilities residing in Escambia or Santa Rosa county.

TRIO Programs include

**Educational Talent Search (ETS)**

Designed to serve students from disadvantaged backgrounds in grades 6-12 to increase high school completion rates and encourage enrollment in any accredited postsecondary institution in the country. Services include but are not limited to: college tours, academic tutoring, career exploration, ACT/SAT test preparation, FAFSA submission, college application and admissions assistance, and student and family workshops.

Eligibility requirements include maintain a minimum 2.5 GPA, first-generation-in-college, meet income levels established by the grant, desire to pursue a postsecondary education, and attend a participating middle or high school in the Escambia or Santa Rosa County Public School System. Please contact ETS at (850) 484-1620 for additional details.

**Educational Opportunity Center (EOC)**

Designed to serve individuals who want to enroll in college at any accredited postsecondary institution in the country, whether it is enrolling for the first time or returning to college if they have stopped out for at least one semester (Fall or Spring). Services include but are not limited to completing Admissions application, filing for financial aid (PELL Grant) or researching other financial aid options, and exploring educational and career options.

Eligibility requirements include first-generation-in-college, meet income levels established by the grant, earned high school diploma or GED, and resident of Escambia or Santa Rosa County. Please contact EOC at (850) 484-1601 for additional details.

**Student Support Services (SSS)**

Designed to increase retention, graduation, and transfer rates of participants of students at Pensacola State College.

Services include but are not limited to tutoring, academic advising, college visits, cultural events, financial literacy, and peer mentoring.

Eligibility requirements include first-generation-in-college or low income or students with disabilities, and must have an academic need (e.g., tested into one or more developmental education classes). Please contact SSS at (850) 484-2028 for additional details.

**Veteran’s Upward Bound**

Designed to serve as a pre-college program for veterans and provides free academic preparation for veterans returning to school.

Services include but are not limited to free preparatory classes and workshops, support services, campus tours, cultural events, and referrals.

Eligibility requirements include veteran of US Armed Forces, first-generation-in-college, and meets income levels established by the grant. Please contact VUB at (850) 484-2068 for additional details.

**LYCEUM**

Pensacola State College’s Lyceum series offers programs of cultural and educational value to the College as well as to the greater Pensacola community. Musical performances, theatre, dance, art exhibitions, and distinguished speakers are available at no charge to Pensacola State College students through the Lyceum series. Faculty, staff, and the general public are invited to attend for a nominal fee. For information regarding Lyceum events, please call the Performing Arts Department at (850) 484-1847 or visit the Lyceum website at lyceum.pensacolastate.edu.

**ART GALLERY**

The Visual Arts Gallery, housed in the Anna Lamar Switzer Center for Visual Arts, is located on the Pensacola campus, building 15, and is open to the general public, free of charge. Exhibitions of contemporary art are displayed throughout the academic year. Gallery tours for groups are available by appointment for each exhibition. For more information, please call the Visual Arts Department at (850) 484-2563 or the Gallery Director at (850) 484-2048, or visit visualarts.pensacolastate.edu.
ATHLETICS
Pensacola State College is a member of the National Junior College Athletic Association, Region VIII, and a member of the Florida State College Activities Association. Varsity participation on a team is open to full-time students from any campus, but is limited to two years of participation. Full-time students in a vocational program may participate as long as the eligibility requirements of both the NJCAA and the FSCAA are met.

Athletic Scholarships
Athletic scholarships are available to students maintaining a satisfactory grade point average under present regulations. Interested students should contact the team coach.

Gymnastics Club
The College has an organized gymnastics club open to all area youth. Participants in the club register through the Continuing Education Office. Registration for club participation is available at http://www.pensacolastate.edu/continuingeducation.

Intercollegiate Sports
On the intercollegiate level, Pensacola State College participates in men’s and women’s basketball, men’s baseball, women’s softball, and women’s volleyball.

Intramural Sports
The intramural program is under the direction of the Athletic Department and includes tournaments, leagues, and clubs in approximately forty sport activities. The program is open to all students attending Pensacola State College.

WSRE
Vision
WSRE will positively influence the daily lives of all on the Gulf Coast through broadcast programming and educational outreach services that encourage us to engage more deeply in the world around us.

Mission
The mission of WSRE is to open doors to a larger world with quality programming and educational outreach services for every person on the Gulf Coast who desires to be more educated, informed and entertained. WSRE helps people make informed decisions with a better understanding of the community and world in which they live. As a community-supported, outreach service of Pensacola State College, WSRE brings forth culture and ideas that enhance the quality of life and promote the joy of discovery and learning.

WSRE was founded and first signed on the air September 11, 1967. WSRE is licensed to the District Board of Trustees of Pensacola State College, and is operated from its main studios in Pensacola as a service of Pensacola State College. WSRE offers four free, over-the-air digital channels 24/7 providing 35,040 hours of television each year, and on-demand viewing through WSRE.org and PBS.org streaming. WSRE has garnered four regional Emmy® Award nominations and nine Telly Awards for original programming since 2008. WSRE’s robust local production lineup includes Conversations with Jeff Weeks, StudioAmped, Pensacola State Today, AWARE, In Your Own Backyard, Legislative Review, RALLY, and various award-winning documentaries. WSRE’s Educational Services and Literacy Outreach programs reach thousands of children every year and distribute free books and educational resources annually to children, parents, and teachers. PSC’s Learning Lab/WSRE’s Imagination Station (opened in April 2013), located at the Wahoos Stadium in Pensacola reaches thousands of parents and children in a fun, learning-rich environment that is free of charge.

For more information, please visit www.wsre.org or call (850) 484-1200.

COLLEGE PUBLICATIONS
The Corsair is Pensacola State College’s award-winning student newspaper, available in print and at www.ecorsair.com. The paper is written and edited by a staff of student journalists and covers topics relevant to student life, the College, and the community. For more information or to inquire about joining the staff, call The Corsair office at (850) 484-1455 or send an email to corsair@pensacolastate.edu.

The Kilgore Review is an annual student literary magazine published by The Literary Roundtable, a creative writing organization advised by a faculty member in the English and Communications Department. To join the group, submit work for consideration, or obtain additional information, call (850) 484-1433 or (850) 484-1400.

The Hurricane Review is a nationally recognized literary journal published annually by the English and Communications Department. This journal is edited and formatted by Pensacola State College students under the direction of a faculty adviser. Submissions of short fiction and poetry are welcome. For additional information call (850) 484-1431 or (850) 484-1400.

PENSACOLA STATE COLLEGE WEBSITE
www.pensacolastate.edu
The Pensacola State College website serves as a gateway to student services, student activities, courses and workshops, degree and certificate programs, College news, and special events. Designed for interactivity, the Pensacola State College website supports traditional instruction, research, and distance learning. Remote students can access academic programs and support services easily through the Pensacola State College website.

PIRATE MAIL
Pensacola State College provides every student an email account through the PirateMail system. PirateMail is the primary method of communication with Pensacola State College.

credit seeking students. The PirateMail account becomes available to the credit seeking student one business day after the application or re-application has been processed. Each student is responsible for activating the PirateMail account and accessing emails from the College. The expectation is that the student will access the PirateMail account at least once per week and more often during a registration period. Failure to access the PirateMail account and read communications from the College will not be grounds for an appeal of any action taken by the College or any requirement established by an instructor when that information has been communicated to a student by PirateMail. The PirateMail account will remain active throughout a student’s enrollment and for three semesters after the last term of attendance.

STUDENT ID
Each student ID card can be obtained in the Public Safety office on any campus. A student ID card is needed to access campus services such as the Library and the Testing Center. The first student ID card is free. There is a $5.00 fee for a replacement card. Student IDs can be used for library access, testing purposes, and discounts in the community.

ACADEMIC HONORS
The College recognizes student achievement in several ways, as indicated below.
Semester Honors Lists

Two academic honors lists are published at the end of the fall and spring semesters of each academic year under the Current Students tab on the College’s website. These honors lists recognize students who have achieved outstanding grade point averages for the semester. To be eligible for the lists, students must be in good academic standing at Pensacola State College as outlined in the Standards of Academic Progress (p. 51).

- **The President’s List:** Full-time students (12 credit hours or more per semester) who earn an overall GPA of 4.0 for the semester.
- **Dean’s List:** Full-time students (12 credit hours or more per semester) who earn an overall GPA of 3.50–3.99 for the semester.

Graduation Honors

All students are eligible for academic achievement recognition during the appropriate Commencement Ceremony. Grade point averages are based on all credit hours attempted at Pensacola State College combined with transfer credits from other institutions attended including courses not used for the degree awarded. Associate degree students and baccalaureate students will graduate with honors according to three honors categories:

- **Cum Laude** will be awarded to students with a cumulative GPA between 3.50–3.74.
- **Magna Cum Laude** will be awarded to students with a cumulative GPA between 3.75–3.99.
- **Summa Cum Laude** will be awarded to students with a cumulative grade point average of 4.0.

The determination of the three honors categories (Summa Cum Laude, Magna Cum Laude, and Cum Laude) for the commencement ceremony is based on the cumulative grade point average at the end of the student’s last semester of enrollment prior to the semester of graduation. Students who have met the criteria for honors prior to their semester of graduation will be eligible for the honors cords at the graduation ceremony. The transcript is the final and official record of a student’s standing at the time of graduation. A student meeting the honors criteria at the time of graduation and after the official analysis of graduation will have the appropriate notation affixed to the official transcript and on the diploma, degree, or certificate awarded.

Student Excellence Awards

At this annual honors ceremony, students are recognized for Departmental and Program Scholars, Scholastic Achievement, Leadership, and Service.

1. Departmental and Program Scholar recipients are selected by the individual academic departments in recognition of outstanding performance in the classroom and high test scores on competitive departmental examinations.
2. Scholastic Achievement Award recipients are selected by grade point averages. Recipients must have maintained a 3.9 GPA or better while completing at least 80% of the requirements for the degree they are seeking.
3. The Leadership Award is based upon participation in service clubs.
4. Service Award recipients are selected by the faculty and department heads. This award is based on the outstanding services rendered in their respective departments, schools, and campuses.
5. The Sigma Beta Delta Award is an International Honor Society in Business Administration and Management. Induction is offered to BAS students who have a 3.5 or above GPA after having taken 90 credit hours.

PUBLIC SAFETY

The Pensacola State College Department of Public Safety is committed to the safety of students, employees, and visitors at all Pensacola State College campuses and centers. The Department of Public Safety takes a proactive stance in response to crime on campus and strives to identify problems and address issues before a crisis occurs. A student is encouraged to assist the Department of Public Safety by contacting the department when any of the following occur:

1. You are a victim of crime occurring on campus.
2. You are or may be a victim of domestic violence.
3. You are a victim of rape (including acquaintance rape).
4. You are being stalked.
5. You know of crimes occurring on campus.
6. You have been a victim of crime, on or off campus, and need information, counseling, or referral for further help.
7. You have questions about Florida laws or law-related issues.
8. You need help and do not know where to go or who to ask for information.
9. You need assistance starting your car.
10. You need car key assistance to enter your car.
11. You would like a police escort to ensure safety to or from your class.

Public Safety and Security Hours and Information

The department operates 24 hours a day/7 days a week. Uniformed police officers patrol the campus by marked vehicle, foot patrol, buggy, and bicycle. Police officers carry firearms and have the authority to make arrests. Additionally, uniformed public safety officers assist in situations that do not call for specific police action. If you have an on-campus emergency, please contact 484-2500.

Call public safety officers at
- Milton Campus Police, Bldg. 4100, 484-4481
- Pensacola Campus Police, Bldg. 5, 484-2500
- Warrington Campus Police, Bldg. 3300, 484-2283

In case of an extreme emergency, dial 9–911 on campus telephones. This will connect you to a law enforcement operator of the jurisdiction where you are located. That agency will dispatch emergency help. It is important to stay on the line and tell them your location.

Additional information can be found by visiting http://www.pensacolastate.edu/publicsafety/. 

OTHER SUPPORT SERVICES

Snack Bar and Vending

The College contracts for various food and vending services for the convenience of students, faculty, and College staff. Self-service vending is widely available, with beverage and snack vending machines available on each campus. There are Subway restaurants on the Pensacola and Warrington campuses. Student scholarship funds are routinely enhanced through vending commissions, made possible through use of the College’s vending operations.

College Bookstores

The College has bookstores on the Milton, Pensacola, and Warrington campuses. These bookstores provide textbooks and supplies for sale to students, faculty, staff, and the community. Commissions from the bookstore operations fund scholarships for many Pensacola State College students. Books and supplies required for each course are kept in the College bookstores, as well as imprinted notebooks and clothes, and a large selection of College
outlines and preparation and reference books. Textbooks may also be purchased via the website at www.efollett.com. Books and supplies may be purchased by cash, check, Visa, MasterCard, Discover, American Express, or by authorization from the Financial Aid Office or other certifying office. Students may write checks for the amount of purchase or up to $5 over the purchase amount. Checks must include an address and a phone number. A driver’s license or state identification card is required.

For bookstore services at the South Santa Rosa Center, please call (850) 471-4630, and for bookstore services at the Century Center, please call (850) 471-4622.

**Refunds**

A full refund is given if books are returned in the same condition as when purchased, as long as books are returned within 7 days from the first day of class and the student has proof of purchase via sales receipt.

**Textbook Buy-Back**

The College bookstores provide students the opportunity to sell their textbooks throughout the year. Highest used market value is paid for editions which will be used in the upcoming term, and national wholesale value is offered for all other titles. A picture ID is required.

**Health Clinic**

A health clinic, located on the Pensacola campus and under the supervision of a registered nurse, is available to assist students, faculty, and staff in the event of an accident or illness. If the nurse is needed at the scene of an accident or emergency illness, the Public Safety Office should be contacted at (850) 484-2500. The Health Clinic is located in the Lou Ross Health/Sports Center. Services are provided free of charge. Hours of operation are Monday through Friday 7:30 a.m. to 4 p.m. during the fall and spring semesters and Monday through Thursday 7 a.m. to 5 p.m. during the summer semester.

**Alcohol and Drug Education and Prevention Information**

Recognizing that the use and abuse of mind-altering substances represents a serious threat to the College’s mission, the College has devoted significant effort to the prevention of these problems. These efforts include educational programming, media presentations, curriculum resources, and referral services. For more information, contact the office of Student Leadership and Activities (850) 484-1503.

**AIDS INFORMATION**

Information related to acquired immune deficiency syndrome (AIDS) education may be obtained from the Center for Disease Control and Prevention at http://www.cdc.gov/hiv/. Confidential testing is available to the College community on various dates and locations; please see the College Event Calendar for current information.

**ACTIVITIES AND SPECIAL PROGRAMS**

**Student Leadership and Activities Office**

The Student Leadership and Activities Offices provide a common point of contact and coordination between students and student organizations. A variety of services exists on each campus. For a complete listing, contact the Student Leadership and Activities Office on the Pensacola campus at 484-1501, on the Milton campus at 484-4491, or on the Warrington campus at 484-2293.

**Posting Student Notices and Use of Bulletin Boards**

All notices placed on the various bulletin boards in College buildings must be approved through the appropriate campus Student Leadership and Activities office prior to posting. No notices are to be posted in locations other than these bulletin boards. A housing bulletin board is available on the Pensacola campus in the Student Center to advertise rooms for rent, search for roommates, etc.

**Student Organizations**

All organizations, except honor societies, are open to all students with a GPA of 2.0 or above. Membership in an honor society is by invitation only. Students interested in joining a Pensacola State College club or organization should inquire at the Student Leadership and Activities Office for information on procedures and people to contact. Student Organization Guidelines are listed later in this section.

**Academic and Department Organizations**

- Band & Jazz Ensembles
- Barber Club
- Biology Club
- Brain Bowl
- Cheerleading
- Chorale
- Cosmetology Club

- Sigma Beta Delta - BAS Supervision and Management

Religious Organizations
- Baptist Collegiate Ministry

Social Service Organizations
- African American Student Association
- Jared Sparks Historical Society
- Outdoor Recreation
- Student Government Association

Student Ambassador Program
The mission of the Pensacola State College Ambassador program is to promote Pensacola State College. Student Ambassadors serve as official hosts and hostesses, representing the College at campus visits and tours, commencements, Alumni Association and Foundation activities, and general recruiting initiatives. The Pensacola State College Student Ambassador program is an opportunity for a student to develop leadership and communication skills while conveying Pensacola State College’s Mission of “maximizing educational opportunities that develop the academic, career, personal, and aesthetic capabilities of individuals for the benefit of themselves and the global community.” Ambassadors are selected for their demonstration of leadership, academic achievement, community involvement, and display of pride and ownership of Pensacola State College.

To be eligible for consideration, a student
1. Must be a Florida or Alabama high school senior applying as a first-time student who intends to enroll in classes during the forthcoming Fall and Spring semesters or a current Ambassador in good standing academically who has maintained adequate participation.
2. Must enroll in at least 6 credit hours per semester.
3. Must be at least 18 years old prior to the August Training Session.
4. Must be in good academic standing with a minimum 3.0 cumulative GPA.
5. Must demonstrate prior leadership experience.
6. Must be able to participate in ambassador activities including evening and weekend commitments (hours will vary based on assigned activities, i.e., registration periods, college fairs, orientations/tours).
7. Must commit to serving as an Ambassador for at least one academic year, renewable for a second year upon verification of participation.

Specific Discipline Honors Organizations
Outstanding academic performance is recognized by honors organizations for students in the respective discipline. These honors organizations are open to Pensacola State College students with high academic performance and afford a variety of activities and opportunities or recognition and service.

Student Organization Guidelines
Pensacola State College recognizes student organizations that exist to promote the social and educational well-being of their members. Recognition for an on-campus organization by the College is granted and maintained, provided the organization demonstrates continued acceptable social behavior and sound fiscal management. The College delegates to the Student Leadership and Activities office the authority to approve, censure, or deny privileges to campus organizations. Such authority, however, is subject to review by the Vice President, Student Affairs. Organizations seeking affiliation with other organizations outside the jurisdiction of Pensacola State College must first have the approval of the Vice President, Student Affairs, or his or her designee. The Student Leadership and Activities Office is available to organizations for counsel and assistance on all campuses. Responsibility for the standing of an organization rests solely on its members. All student organizations’ regulations and the provisions of student organizations’ constitutions must be consistent with the policies of the District Board of Trustees, as well as national, state, and county laws.

Student Membership
Membership is open to any student who meets one of the following:
1. A current cumulative GPA of 2.0 or higher at Pensacola State College.
2. A cumulative GPA of 2.0 or higher from the previous college or university (if a new transfer student).
3. Any first time college student entering from high school will have a one semester grace period to earn a college GPA.

Obtaining Campus Charters
To obtain a campus charter, representatives of a student organization must first consult with the campus Student Leadership and Activities office. Students on the Century or South Santa Rosa centers should contact the Student Leadership and Activities office on the Pensacola campus. The students must also provide the following:
1. Statement of purpose.
2. A proposed constitution.
3. Bylaws incorporating the College’s anti-hazing policy (see anti-hazing policy in this College Catalog).
4. Name of advisor(s), approved by the supervisor.
5. List of prospective members who must be Pensacola State College students.

The advisor will then present the charter request to the respective campus Student Leadership & Activities office. The charter and the proposed constitution will be forwarded to the Vice President of Student Affairs, or his or her designee, for review and approval.

Common Responsibilities
1. Secure one or more approved advisors who either attend meetings or approve the meeting’s agenda in advance. An advisor should be present at all meetings held after 5 p.m. An advisor may be any individual employed at Pensacola State College as an instructor, administrator, or career service employee. Student Leadership and Activities Manuals are available for all advisors in the Student Leadership and Activities Office.
2. Accept all responsibility for organizational financial matters of the individual organization. No action on the part of any organization, collectively or by individual members, shall incur any indebtedness to Pensacola State College.
3. Furnish to the Student Leadership and Activities Office a complete list of officers and members. Also, within two weeks from the beginning of the spring and fall terms, furnish the times and places of meetings as well as the name(s) of the advisor(s). Any changes in the organization’s constitution or purpose must be placed on file in the Student Leadership and Activities Office.

4. Limit membership to current Pensacola State College students maintaining a minimum 2.0 semester grade point average. Students joining a club or organization directly from high school will be given a one semester grace period to establish college GPA.

5. Drop any member who fails to fulfill the required 2.0 semester GPA.

6. Furnish a report of the names, addresses, and telephone numbers of officers for the coming year along with a list of major activities engaged in during the previous year. This report is to be filed in the Student Leadership and Activities Office three weeks prior to the end of the spring term.

7. Refrain from any type of hazing. See Anti-Hazing Policy.

8. Submit a detailed outline of any activity to the appropriate campus Student Leadership and Activities coordinator no later than two weeks in advance of the event or activity. Each activity is to be approved by the Student Leadership and Activities coordinator, the club sponsor, and the department head with oversight of the facility being used (if held on campus). The Student Leadership and Activities coordinator will meet with the sponsoring organization to discuss the proposed plans and assist with ideas or suggestions to help insure the success of the activity. Activity forms are available in the Student Leadership and Activities Office.

9. Complete and return a re-chartering request to the Student Leadership Activities Office each term.

10. All funded clubs must present one campus-wide event each fall and spring term and meet all other obligations set forth by the Student Leadership and Activities Office.

Penalties
Organizations failing to fulfill the above responsibilities are subject to the following penalties:

1. Forfeiture of social privileges;
2. Forfeiture of representation in student publications;
3. Forfeiture of representation in intramural or other competitive campus activities;
4. Forfeiture of campus charter;
5. Suspension of campus charter;
6. Suspension of members’ right to participate in other campus activities or organizations;
7. Trial of officers or members suspected of violating the Pensacola State College Honor Code; and
8. Any penalty as set forth in the College statement on student rights and responsibilities. Penalties may be prescribed for organizations by the Vice President of Student Affairs for infractions of a minor nature in accordance with procedures outlined in the College statement on student rights and responsibilities.

Organization Activities
Registered social functions may be held on the campus or at a place approved in advance by the Student Leadership and Activities Office. Any request for approval of a location should be submitted one week prior to the planned date of the activity.

Approved social activities of student organizations must be registered in the Student Leadership and Activities Office. Registration of the activity is completed by filling out an activity form available in the office. If a club or organization enters into a contractual agreement with any group that will be using Pensacola State College facilities, a copy of the contract must be filed in the Student Leadership and Activities Office and reviewed before approval will be given to the activity.

Guest speakers on campus must also be approved by the College. Completed applications for approval must be submitted to the Student Leadership Activities Office at least 10 calendar days prior to the date of the proposed speaking engagement.

All registered social functions, either on or off campus, are required to have chaperones in attendance. The chaperones may be an advisor and spouse, or any couple, one of whom is employed by the College as an instructor, an administrator, or a member of the professional staff. Only employees of the College may receive student activity per diem expenses. Chaperones shall exactly appropriate conduct from attending students and shall affect proper regard for College regulations at social functions.

Instructions for chaperones, outlining their responsibilities, are available in the Student Leadership and Activities Offices.

**Student Government Association**

Pensacola State College provides an opportunity for experience in self-government on each campus. A student may hold any office in the Student Government Association (SGA), other College organization, or represent the College in any manner if he or she satisfies the requirements stated by the organization’s constitution. Students are the constituents of the academic community of Pensacola State College and are entitled to express their opinions on subjects involving their intellectual, social, physical, and moral development, and to participate in the formulation of institutional policy, which affects their general interests and welfare. The SGA is the primary vehicle for student expression and participation in the democratic process.

The SGA should serve to promote a climate encouraging responsible participation and leadership in the College community, to foster understanding and a positive relationship between the student body and the faculty and administration, and to lead actions beneficial to the College community as a whole. Current copies of the SGA’s Constitution are on file in the Student Leadership and Activities Office.

**Scope of Authority**

The Pensacola State College SGA is recognized as the official student body government and shall serve to express the will of the general college body. The College shall work with the SGA in seeking the opinions and assistance of the general student body on matters of their proper concern. The SGA is responsible for establishing and enforcing its own rules of procedure. Such rules must not be in conflict with the policies of the College or laws of the state and national government.

The Student Government Association is responsible for the following:

1. Budgeting student leadership and activities fund;
2. Informing the organizations of the necessity of compliance with all organizational regulations;
3. Recommending changes necessary for the successful and proper functioning of organizations;
4. Encouraging various student publications to publish such notices as it deems necessary for the information of the student body;
5. Informing students of its role, of the students’ roles, and of the necessity of student participation in maintaining effective student government and the democratic process;
6. Promoting, endorsing, and continually striving to improve the honor system described in Article IV of the Constitution;
7. Expressing choices and making recommendations for speakers and entertainers for the Pensacola State College Lyceum series;
8. Participating in the formulations of policies regulating student conduct through representation on committees charged with drawing up codes of conduct;
9. Requesting appropriate changes in College policy not directly under the control of the SGA, such as changes in curriculum, to the appropriate faculty committee or administrative official;
10. Receiving petitions from students who wish to express their opinions or suggest changes to College policy; and
11. Establishing special committees to study particular problems. Actions of the SGA shall be subject to review by officials authorized to do so by Constitution or by the College President.
STUDENT HANDBOOK

STUDENT RESPONSIBILITIES

Office of Student Conduct

The Office of Student Conduct, located on the Pensacola campus, assists students by acting as a mediator in non-academic grievances that have not been resolved by the department, making available current information on students’ rights, listening to complaints or criticisms with an open mind, and following up quickly, providing a fair and impartial hearing for any student accused of violating the Pensacola State College Code of Conduct and/or state law, and providing drug education information and referrals.

Basic Student Responsibilities

Introduction

A student is first a citizen of his or her country, and as such is entitled to its freedoms and benefits as well as being responsible for compliance with its laws and regulations local, state, and national. Similarly, when a person enrolls at Pensacola State College, he or she becomes a member of the academic community of which membership brings to the student certain responsibilities. In this sense, the relationship between the student and the College is a voluntary agreement, or contract, which involves rights and responsibilities designed to accomplish with maximum order and effectiveness the goals of the College.

Enrollment at this institution is not compulsory. The Federal Constitution protects the equality of opportunity for all qualified persons to enroll at Pensacola State College. Enrollment is voluntary. Since enrollment is voluntary, the student voluntarily assumes the obligations of performance and behavior reasonably imposed by the institution relevant to its lawful mission, processes, and functions. The institution assumes the obligation of establishing guidelines and taking necessary steps to assure compliance with this obligation. The rights of the students to learn and of the faculty to teach are obligations the institution is charged to uphold. The institution will, therefore, take the necessary steps to protect those rights.

No member of the academic community may, without liability to lawful discipline, intentionally act to impair or prevent the accomplishment of any lawful mission, process, or function of the institution.

Learning Outcomes

1. Students participating in the conduct process will demonstrate increased knowledge of College policies and procedures.
2. Students participating in the conduct process will understand the impact of their decisions and behaviors on themselves and the College community.
3. Students participating in the conduct process will develop a plan for success at the college following their interaction with the Office of Student Conduct.

Rights of Students and Recognized Student Organizations

Every Pensacola State College student and recognized student organization is entitled to certain procedural rights and guarantees in the student conduct process. The rights outlined below are not exhaustive, but serve as guidelines to ensure that all students and recognized student organizations are treated fairly.

1. A student or recognized student organization is entitled to be notified of an alleged Student Code of Conduct violation as soon as reasonably possible. In most cases, the student or recognized student organization will be notified within 5 class days. Notifications of an alleged violations will be sent to the Piratemail address of the student or recognized student organization. Sending such an email shall be deemed constructive notice.
2. The Office of Student Conduct will give written notice of an informal hearing to the alleged student or recognized student organization. The notice shall include the date, time, and location of the hearing and will be given at least 3 class days prior to the hearing. This notice will be sent via Piratemail and sending such an email shall be deemed constructive notice.
3. A student or recognized student organization may inspect their conduct file upon request to the Office of Student Conduct in advance of the conduct hearing.
4. The alleged student or recognized student organization have the right to meet with staff from the Office of Student Conduct to discuss their incident and be informed of the entire student conduct process.
5. The alleged student or recognized student organization has the right to utilize the Student Advocate/Student Ombudsman at no cost. The use of the service of the Student Advocate/Student Ombudsman is to be determined by the student. The Student Advocate/Student Ombudsman can provide guidance and advice regarding the student conduct process.
6. An advisor may accompany the alleged student, recognized student organization, complainant, and victim/survivor of an incident at any time during the student conduct process. Advisors will only be allowed to confer with their advisees (alleged student, recognized student organization, complainant, and victim/survivor). The advisor will not be allowed to directly participate in the student conduct process on behalf of any party or as a spokesperson, advocate, or expert witness.
7. The student or recognized student organization will be given the opportunity to participate in a fair and impartial hearing. The student or recognized student organization will not be forced to give self-incriminating testimony, may inspect all documents before the hearing, may hear and question all adverse witnesses who participate in the hearing, and may present information and call witnesses on the behalf of the student or recognized student organization.
8. The college is not required to postpone any disciplinary proceedings pending the outcome of any criminal proceedings.
9. A written decision will be sent to the alleged student or recognized student organization within 5 class day following the hearing. This time may be extended for cases in which additional time is needed for deliberations. If additional time is needed, the student or recognized student organization will be notified.
10. The student or recognized student organization has the right to appeal the decision of a Judicial Review Board Hearing in writing to the Vice President for Student Affairs within 5 class days of the date of the decision letter. Grounds for appeals are limited to the following:
   a. The student or recognized student organization’s procedural rights were violated in the student conduct process.
b. New information is discovered that was not available at the time of the hearing

c. Information presented does not support the decision

d. The sanction(s) imposed were not appropriate for the violation

**College Authority Regarding Student**

1. Under the authority of Section 1001.64, Florida Statutes, the District Board of Trustees of Pensacola State College is authorized to establish policies and procedures governing the behavior and discipline of students.

2. The authority of the College to impose penalties will be asserted when the Code of Conduct is violated. The authority also carries to restricting students from registration and returning to class until conduct violation hearings are resolved.

3. When activities of the student results in violation of federal, state, or local laws, those students who violate such laws will be penalized as prescribed by civil and institutional authorities.

4. Student organizations are also responsible for compliance with the policies set forth in this section.

5. Activities sponsored by the College, including student groups participating off campus in college-sponsored or related activities, shall be subject to supervision by the College.

6. The College is not required to postpone hearings for violations of the Code of Conduct or College policies if there are also criminal proceedings. In some cases, the College will allow the investigation of law enforcement and criminal proceedings to take place prior to a conduct hearing with a student or Recognized Student Organization.

**Code of Student Conduct**

Any student or recognized student organization found to have committed or to have attempted to commit the following misconduct is subject to disciplinary sanctions through the student conduct process. Expulsion, suspension, or any lesser penalty may be imposed upon any student or recognized student organization who participates in any of the following:

1. **Abuse or Endangerment:** Physically harming or abusing, assaulting, battering, intimidating, harassing, coercing, bullying, verbally abusing or threatening harm to any person, intentionally or recklessly, or causing reasonable apprehension of such harm, or creating a condition that endangers the health and safety of one's self or others. Abuse also includes but is not limited to fighting, the use of a knife, gun, or other weapon, or restraining or transporting someone against his or her will.

2. **Abuse of Computer Resources:** Theft, improper use or other abuse of computer facilities and resources, including but not limited to:
   a. Use of College computers and/or technology resources to send, receive, or view obscene or sexually explicit messages or pictures.
   b. Any violation of the College Acceptable Use Policy which governs all use of College information technology services.
   c. Unauthorized entry into a file, to use, read, or change the contents, or for any other purpose.
   d. Unauthorized transfer of a file.
   e. Use of another individual's identification and/or password.
   f. Use of computing facilities and resources to interfere with the work of another student, faculty member, or College Official.
   g. Use of computing facilities and resources to send obscene or abusive messages.
   h. Use of computing facilities and resources to interfere with normal operations of the College computing system.
   i. Use of computing facilities and resources in violation of copyright laws.

3. **Abuse of the Student Conduct System:** Abuse of the Student Conduct System, including but not limited to:
   a. Failure to obey the notice from the disciplinary board, the Director of Student Conduct, or any College Official to appear for a meeting or hearing as part of the Student Conduct System.
   b. Falsification, distortion, or misrepresentation of information before a Student Conduct staff member or a disciplinary board.
   c. Disruption or interference with the orderly conduct of any disciplinary hearing.
   d. Knowing completion and filing of a false incident report.
   e. Attempting to discourage an individual's proper participation in, or use of, the student conduct system.
   f. Attempting to influence the impartiality of a member of the disciplinary board or the Hearing Administrator prior to, or during the course of, a student conduct informal or formal hearing.
   g. Harassment (verbal or physical) or intimidation of a witness, complainant, member of the disciplinary board or the Hearing Administrator prior to, during, or after a student conduct hearing.
   h. Failure to comply with the sanction(s) imposed at the resolution of an informal or formal hearing.
   i. Influencing or attempting to influence another person to commit an abuse of the student conduct system.

4. **Academic Misconduct:** The receipt or transmission of unauthorized aid on assignments or examinations, including, but not limited to, copying, plagiarism, fabrication of information or citations, facilitation of acts of academic dishonesty by others, unauthorized possession of examinations, submitting work of another person or work previously used without informing the instructor, and tampering with the academic work of other students. Disciplinary actions for academic misconduct shall be administered by the Division of Academic Affairs.

5. **Alcohol:** Possession, use, manufacturing or distribution of alcoholic beverages on any College property, during college-sponsored student travel, or any college-sponsored event off campus. Exceptions to this policy will occur at special events expressly approved by an act of the College's Board of Trustees where persons twenty-one (21) years of age or over are permitted to consume alcohol.

6. **Destruction of Property:** Malicious destruction, damage, vandalism, defacing or misuse of College property, including library materials, or any property belonging to others on campus.

7. **Dishonesty:** Acts of dishonesty include but are not limited to the following forms of deceit:
   a. Cheating, plagiarism, or other forms of academic dishonesty.
   b. Furnishing false information (written or oral) to any Pensacola State College official, faculty member, or office representative.
   c. Forgery, alteration, or misuse of any Pensacola State College document, record, or instrument of identification.

8. **Disorderly or Indecent Conduct:** Conduct that is disorderly, lewd, indecent, a breach of peace, or an unlawful assembly such as unauthorized occupation of any College facility, or aiding, abetting, or procuring another person to
breach the peace on College premises or at functions sponsored by the College. Disorderly and indecent conduct includes, but is not limited to the following:

a. Unauthorized use of electronic or other devices to make an audio or video record of any person while on College premises without his or her prior knowledge, or without his or her effective consent when such a recording is likely to cause injury or distress.
b. Taking unauthorized pictures of another person in a gym, locker room, or restroom.
c. Exhibitionism in the form of nudity.
d. Lewd and lascivious conduct.
e. Indecent exposure of the person.
f. Obscenity or public profanity.

9. Disruptive Behavior (Disruption of Operations):
Disruption of any function of the College, including but not limited to:

a. Conduct which disrupts the learning environment of any class while in session and/or failure to comply with the directives of an instructor.
b. Interference with academic freedom or freedom of speech of any member or guest of the College.
c. Participating in, or leading or inciting others to participate in, any activity which disrupts, obstructs, or interferes with the normal operation of the college, including any classroom instruction, meetings, administrative functions, student events, athletic events, student services, disciplinary proceedings, public service activities, or any other College function or event of any kind, on or off campus, or any authorized non-college activities being conducted on campus.
d. Interference with the freedom of movement of any member or guest of the College to enter, use or leave any College facility, service, or scheduled activity, to carry out their normal functions or duties, or the obstruction of the free flow of pedestrian or vehicular traffic on College premises or at College sponsored or supervised functions.

e. Taking amplified speakers or other electronic or other devices or equipment which disrupts the learning environment or obstructs normal College operations.

10. Drugs: Possession, use, manufacturing or distribution of narcotics, marijuana, sedatives, tranquilizers, stimulants, hallucinogens or any other controlled substances under Federal or State law, except as expressly permitted by law.

11. Drunkenness (Intoxication): Intoxication on campus, whether resulting from consumption on or off campus, when a person is intoxicated to the degree that the person may endanger himself or herself, other persons, or property, or disrupt persons in the vicinity.

12. Electronic Devices: Failure or refusal to turn off electronic devices such as, but not limited to, cell phones, cameras, iPods while attending a class or lyceum program, unless use of such device in class has been approved by the instructor.

13. Failure to Comply: Failing to comply with reasonable directives from College or other officials related to the performance of their official duties when directed to do so. Failure to provide identification or to report to the Director of Student Conduct or any administrative officer, or when reasonable cause exists, failing to leave College-controlled premises or dangerous situations when directed to do so by properly authorized persons including public safety personnel or other College staff. Failing to complete sanctions as part of the conduct process.

14. Fire Safety Violations: Tampering with fire or other safety equipment or setting unauthorized fires. Exhibiting behaviors that risk the health and safety of one’s self or others during a fire related incident. Burning candles, incense, or other items in athletic dormitories or other College facilities, whether attended or unattended.

15. Harassment: Engaging in behavior that is sufficiently severe or pervasive so as to threaten an individual or substantially interfere with the individual’s employment, education or access to College programs, activities or opportunities, if such behavior would detrimentally affect a reasonable person under the same circumstances. Harassing behavior includes but is not limited to threats, intimidation, coercion, bullying and/or other conduct which threatens or endangers the mental or physical health or safety of any person or causes reasonable apprehension of such harm. Behaviors that are considered harassment also include, but are not limited to, the following:

a. Directing physical conduct, or verbal, written, or electronic communication towards an individual because of the individual’s age, race, color, ancestry, national origin, religion, creed, service in the uniformed services, veteran status, sex, sexual orientation, marital or family status, pregnancy, physical or mental disability, gender identity, genetic information or political ideas.
b. Subjecting a person or group of persons to unwanted physical contact or threat of such.
c. Engaging in a course of conduct, including following the person without proper authority (e.g., stalking) under circumstances which would cause a reasonable person to fear for his or her safety or the safety of others or to suffer emotional distress.
d. Engaging in a course of conduct to communicate, or to cause to be communicated, words, images, or language by or through the use of devices or electronic or written communication directed at a specific person (e.g., cyber stalking), causing substantial emotional distress to that person and serving no legitimate purpose.

16. Hazing: Participation in hazing (see anti-hazing policy)

17. Retaliation: Taking adverse or hostile action against any individual or group on the basis of a good faith report made or complaint filed by such individual or group, or on the basis of an individual’s participation in an investigation, hearing, or inquiry by the College or an appropriate authority, or the individual’s participating in a court proceeding relating to a suspected wrongful conduct. Retaliation against any person or group making a complaint is in many cases prohibited by law, and in matters such as sexual assault or sexual violence, retaliation by the accused offender or someone associated with the accused offender is a serious offence.

18. Sexual Harassment or Sexual Misconduct: Engaging in sexual misconduct or sexual harassment of an unwelcome sexual nature that is sufficiently severe or pervasive so as to substantially interfere with the individual’s employment, education, or access to College programs, activities, and opportunities, and that would detrimentally affect a reasonable person under the same circumstances. Sexual harassment may include, but is not limited to, verbal or physical conduct of a sexual nature, sexual advances, requests for sexual favors, sexual exploitation, and stalking. Sexual misconduct is a form of sexual harassment and refers to attempted or completed unwanted or non-consensual sexual activity, including but not limited to rape, sexual assault, sexual battery, forcible sodomy, sexual penetration with an inanimate object, intercourse without consent, sexual touching and fondling, the touching of an unwilling person’s intimate parts (defined as genitalia, groin, breast or buttock, or clothing covering those intimate parts), forcing an unwilling person to touch another’s intimate parts, sexual exploitation, domestic violence, dating violence, and sexual coercion.

19. Smoking: Violating College policies against smoking indoors, including the use of e-cigarettes (vape).
20. **Theft or Possession of Stolen Property:** Actual or attempted theft, larceny, stealing, embezzlement, or taking of property owned by the College, a member of the College community, or any other person, on or off campus. Being in possession of property belonging to another individual or entity without the express permission of the owner of such property. Taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

21. **Unauthorized Entry or Use:** The College has the right to control all use and entry into facilities for reasons of security, safety or protections of property and may close facilities at specified times. It should be recognized that an open or unlocked door is not an invitation to enter and use facilities.

Unauthorized entry or use may include but is not limited to:

a. Unauthorized entry into or use of College property or facilities including buildings, offices, classrooms, athletic dormitory rooms, College property leased to private entities or individuals, computers, computer networks, and any other restricted facilities.

b. Remaining on College property against the directive of a College police officer or public safety officer after the cessation of all classes and closure of all College offices, facilities, and libraries at night.

c. Unauthorized possession, duplication or use of keys to any College premises.

d. Infringing upon the rights of any member of the College community to privacy in offices, laboratories, athletic dormitories, or College property leased to private entities or individuals.

e. Infringing upon the rights of any member of the College community to maintain the confidentiality of their personal papers, records and effects.

22. **Violation of College Policies:** Any violation of a written College Policy, rule, procedure, administrative directive, or contract between the student and the College. Complicity in any violation by another person of this Code of Conduct, a College Policy, rule, procedure or administrative directive by being present at, or having advance knowledge of, such violation and taking any action that constitutes support, assistance, or an act in furtherance of the violation.

23. **Violation of the Law:** Committing any criminal act prohibited by, or otherwise violating, any federal, state or local law, including applicable county and city ordinances.

24. **Weapons, Explosives and Dangerous Items:** Possessing on a person or in a vehicle, discharging or exhibiting any sword, sword cane, firearm, electric weapon or device, destructive device, razor blade, box cutter, pellet gun, air rifle, or other weapons as defined under section 790.115, Florida Statutes, at a College sponsored event or on any College property, or using any weapon, even if legally possessed, in a manner that harms, threatens or causes fear to others. Sworn FDLE certified law enforcement officers attending class on a College campus may carry a weapon if required to do so by the policies of the law enforcement agency by which such officers are employed.

**Conduct Process**

1. The Pensacola State College Code of Student Conduct is published in the College Catalog. A student accused of violating the Pensacola State College Code of Student Conduct shall be entitled to certain procedural rights outlined below. Students attending Pensacola State College are expected to abide by the Pensacola State College Code of Student Conduct.

2. In some instances student conduct off campus can also be reviewed by Pensacola State College. The primary goal of the review process is to educate the student of the value to adhering to the established Pensacola State College Code of Student Conduct.

3. In the event the Director of Student Conduct and/or the Vice President of Student Affairs determines that the continued presence of a student on the campuses of Pensacola State College poses an imminent threat to the student and/or the campus community, the Director of Student Conduct and/or the Vice President of Student Affairs of Pensacola State College shall have the authority to immediately remove the student from the campus without the immediate entitlement of due process for the student. The student may request the initiation of due process only when the Director of Student Conduct and/or the Vice President of Student Affairs determine that the student no longer poses a threat to himself or herself or others in the College community.

**Informal Hearing Process**

The Director of Student Conduct or his or her designee shall attempt to informally resolve the alleged violation of the Pensacola State College Code of Student Conduct with the student. The purpose of the informal hearing process is to review with the student the alleged code of conduct violations, the hearing forum options, the conduct process, possible sanctions, and to answer student questions. During the informal hearing, the student will be given the opportunity to accept responsibility for the alleged violations. If the student accepts responsibility, a disciplinary sanction may be implemented. Disciplinary sanctions will be agreed upon by the Director of Student Conduct or his or her designee and the student involved. The resolution associated with this process is final and cannot be appealed. In the event resolution to the alleged violation of the Pensacola State College Code of Conduct cannot be reached during the informal hearing process, the matter will be referred to the formal process for resolution.

**Formal Hearing Process**

1. The student shall receive written notification of the alleged violation of the Pensacola State College Code of Student Conduct along with the date, time, and location of the hearing. The written notification will be provided to the student within five class days by the Office of the Vice President of Student Affairs or his or her designee. The written notification will be delivered via Piratemail and serves as constructive notice of the hearing.

2. The Office of the Vice President of Student Affairs shall convene the hearing of the Student Judicial Review Board. The Student Judicial Review Board shall consist of two members of the faculty, one member of the College staff, and two members of the student body.

3. The Director of Student Conduct or his or her designee shall present the evidence associated with the alleged violation of the Pensacola State College Code of Student Conduct. The college representative may also call witnesses as part of the presentation of evidence. The student will be able to hear all evidence and may question any witnesses presented by the college.

4. The student shall be entitled to appear in person and to present his or her defense to the Student Judicial Review Board and may call witnesses on his or her behalf. Students may bring an advisor to the hearing. If the student does not appear, and has not provided satisfactory justification to the Director of Student Conduct for non-appearance, the hearing shall be held in the student’s absence.

5. A recording of the hearing shall be made and retained by the Office of the Vice President of Student Affairs. All decisions of the Student Judicial Review Board are based upon the preponderance of evidence standard.
6. Following the hearing, the Student Judicial Review Board will convene and will determine if the student is responsible for the alleged conduct violations. If a student is found responsible, the Student Judicial Review Board will recommend disciplinary sanctions. The Student Conduct Office can either accept the recommendation, reject the recommendation, request the Student Judicial Review Board to reconvene to further review the evidence in the case, or modify the recommendation of the Student Judicial Review Board.

7. The Student Conduct Office will officially notify the student of the determination of responsibility and the nature of sanctions.

Conduct Appeal Process
1. The student will have the right to appeal any decision or sanction imposed by the Judicial Review Board.
2. The student may appeal the decision in writing to the Vice President of Student Affairs within 5 class days of the notification of the decision.
3. The Vice President of Student Affairs or designee will review the appeal without a hearing. The written appeal of the student will be reviewed along with the recording of the hearing and all documents submitted at the hearing. Grounds for appeal are limited to the following:
   a. The student’s procedural rights were violated in the hearing process
   b. New information is discovered that was not available at the time of hearing
   c. The information presented does not support the decisions; or
   d. The sanctions imposed were not appropriate for the violation.
4. If the decision is overturned, the Vice President for Student Affairs or designee may modify the decision and/or disciplinary sanctions or may remand the case to the Student Judicial Review Board for reconsideration or a new hearing.
5. If the decision is upheld by the Vice President of Student Affairs, the sanctions will remain in place and the decision is considered final and binding.

Sanctions
The following sanctions may be imposed upon any Student or Recognized Student Organization found to have violated the Code of Conduct or other College Policies. More than one (1) of the sanctions below may be imposed for any single violation. Any sanction not completed by the deadline may result in additional sanctions. Sanctions include, but are not limited to:
1. **Class Removal or Reassignment**: Removes a student from a class or requires a student to move into a different class or section. Students may also be instructed not to return to class until they have met with the Director of Student Conduct.
2. **Community Service**: Requires a student or Recognized Student Organization to complete hours of service to Pensacola State College or the Pensacola Community.
3. **Counseling**: Requires a student to meet with counseling services until it is deemed that student understands College policies and is able to act in a way that does not harm self, others, or the community.
4. **Educational Sanctions**: Includes but is not limited to the requirement of the completion of an educational assignment or assessment such as a research paper, program presentation, or attendance at a College event.
5. **Expulsion**: A permanent separation of the student from Pensacola State College.
6. **Fines/Restitution**: An amount of money applied to the student account for the violation of a policy or compensation for loss, damage, or injury to the college or another individual.
7. **Leadership Restriction**: Students will not be able to serve in leadership positions for academic and co-curricular organizations and may not participate in College sponsored travel.
8. **Loss of Privileges**: A denial of specified privileges for a designated period of time such as restriction from certain buildings, inability to hold events, restrictions on student travel etc.
9. **Loss of Recognized Student Organization Status**: A loss of all privileges including Pensacola State College recognition as a student organization for a specified period.
10. **Probation**: Probation for a designated period that includes the probability of more severe disciplinary sanctions if the Student or Recognized Student Organization is found to violate any College policies during the probationary period.
11. **Suspension**: A separation of the student from Pensacola State College for a definite period of time, after which the student may be eligible to return.
12. **Withholding Degree**: A withholding of the awarding of a degree otherwise earned until the completion of the process set forth in the Code of Conduct.
13. **Written Warning**: A formal or informal notice in writing to the student or Recognized Student Organization indicating a violation of College policies.

Records Retention
The non-academic records of any student charged with an alleged violation of the Pensacola State College Code for Student Conduct and applicable appeals shall be maintained in the Office of Student Conduct. The records will be maintained and purged in accordance with state-approved records retention schedules.

Classroom Policies

Classroom Activity
1. The instructor, in the classroom and in conference, should encourage free discussion, inquiry, and expression. Student performance should be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.
2. The student should be free to take reasoned exception to the data or views offered in any course of study, and to reserve judgment about matters of opinion. He or she are responsible, however, for learning the content of any course of study for which he or she are enrolled.
3. The student should be evaluated through orderly procedures. The student is responsible for maintaining standards of academic performance established for each course in which they are enrolled.

Class Attendance
Regulations governing punctual and regular class attendance are outlined under the Academic Regulations and Policies section.

Dress and Appearance
Each student is expected to dress and maintain a personal appearance in a manner which will not endanger his or her health, welfare, or safety. This will be in accordance with state and local laws and the College’s Code of Conduct.
Student Honor Pledge
All students enrolled at Pensacola State College are expected to fulfill the Honor Pledge, which is as follows:
“I pledge myself to uphold the highest standards of truth, honor, and integrity. I refuse to tolerate violations of these standards on the part of any other student.”
The following shall be considered infractions of the honor pledge:

1. Lying is a deliberate falsification of facts. It includes a deliberate act of deception or the telling of an untruth during direct questioning before members of authority, either fellow students or faculty members.
2. Cheating is giving or receiving aid, whether written, oral, or otherwise, in order that a student may receive undeserved credit.

Plagiarism and Academic Cheating
1. Plagiarism and academic cheating are serious offenses. An instructor may take action against any student who is suspected of plagiarism or academic cheating. The action taken may be the awarding of a failing grade on the assignment in question or withdrawal from the course with the assignment of an Early F. A student who disputes the allegation of plagiarism or academic cheating may discuss the situation with the instructor. If the student does not reach resolution after discussion with the instructor, the student may discuss the situation with appropriate academic officers beginning with the Department Head and the appropriate Dean.
2. Plagiarism involves presenting the work, words, or ideas of another student or writer without proper citation, even if unintentionally. Presenting someone else’s work as your own, even if in your own words, is plagiarism. It is plagiarism if the work you present is derived from the work of any other person, including, among others, any other student or College faculty member. It is plagiarism if the work you present is derived from any work, including among other things, any work of a literary, musical, dramatic, pictorial, graphic, sculptural, motion picture, sound recording, audiovisual or architectural nature, and regardless of the medium in which it is fixed, whether written, stored electronically, or in any other form by which it can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device. Presenting plagiarized work as your own may also constitute infringement under Federal copyright laws (Title 17 U.S.C.).

Anti-Hazing Policy
No student or other person associated with Pensacola State College shall engage in any “hazing” activities as that term is described herein below.

As used herein, “hazing” means any action or situation which recklessly or intentionally endangers the mental or physical health or safety of a student for the purpose of initiation or admission into or affiliation with any organization operating under the sanction of Pensacola State College. Such term shall include beating, branding, forced calisthenics, or exposure to the elements; forced consumption of any food, liquor, drug or other substance; or any other forced physical activity which could adversely affect the physical health or safety of the individual; and any other forced activity which could adversely affect the mental health or dignity of the individual. Any activity as described above upon which the initiation or admission into or affiliation with a Pensacola State College organization is directly or indirectly conditioned shall be presumed to be a “forced” activity, the willingness of an individual to participate in such activity notwithstanding.

Any student or other person associated with a Pensacola State College organization who engages in any hazing activity, on or off campus, may be subject to the following penalties: fine up to $100, withholding of diploma or transcript pending payment of any fine imposed, and/or probation. If the hazing activities are willful and flagrant violations of this policy and/or if the hazing consists of brutality of a physical nature, the student or other person associated with a Pensacola State College organization who engages in such hazing activities may be suspended or dismissed. Any Pensacola State College organization which authorizes hazing in blatant disregard of this policy may be subject to the following penalties:

1. Suspension or forfeiture of social privileges;
2. Suspension or forfeiture of representation in student publications;
3. Suspension or forfeiture of representation in intramural or other competitive campus activities;
4. Suspension of individual members’ rights to participate in other campus activities or organizations.

The penalty to be imposed on a Pensacola State College organization which authorizes hazing in blatant disregard of this policy will depend upon the facts of each incident. Repeated violation of this policy may result in the suspension or forfeiture of the organization’s campus charter.

Any penalties for violation of the College’s Anti-Hazing Policy shall be in addition to those penalties imposed for violation of any of the criminal laws of the state of Florida or for violation of any other rule promulgated by this college to which the violator may be subject.

Any student or other person associated with a Pensacola State College organization charged with the violation of the College’s Anti-Hazing Policy shall be entitled to a hearing and to the same procedural rights as any student accused of violating the College’s Code of Conduct.

1. Each College organization advisor shall be given a copy of the college’s Anti-Hazing Policy and shall be charged with the responsibility of informing the organization of the adoption of this policy.
2. Each College organization shall be required to incorporate the college’s Anti-Hazing Policy in its bylaws and to submit a copy of its revised bylaws to the Student Leadership and Activities office.
3. A copy of the Anti-Hazing Policy, rules, and penalties is available to each student.
4. The College’s Anti-Hazing Policy shall be printed in the College Catalog.
5. A representative of the College will meet with each student organization at the beginning of each school year to review, discuss, and answer all questions relating to the College’s Anti-Hazing Policy. Any amendment to the College’s Anti-Hazing Policy, rules, or penalties shall be submitted to the State Board of Education for its approval within ten (10) days after the adoption of such amendment.

Guests and Children on Campus
Individuals who are not registered may not attend classes or labs unless expressly authorized to do so by the appropriate administrator.

Individuals who bring children to campus are responsible for their supervision at all times. College officials are to contact a parent or other party responsible for children left unattended on campus and inform them that children must be properly supervised while on campus.
Administrators and faculty members have the authority to enforce these guidelines.

Individuals who bring children to campus and refuse to abide by these guidelines are to be referred to the chief Student Affairs officer on the appropriate campus.

No children are permitted in labs, shops, clinical areas, or any area where potential hazards exist, with the exception of children directly involved in the instructional process (e.g., as patients in the Dental Clinic or observed children in the Child Care Lab).

**Trespassing**

Pensacola State College adheres to Florida law addressing the crime of trespassing. Although, as a state college, Pensacola State College is open to the general public, specific situations may constitute the crime of trespassing. In those cases, any law enforcement officer may arrest, either on or off the premises, and without warrant, any person whom the law enforcement officer has probable cause to believe has committed any of the specific offenses addressed in the following Florida laws:

- **F.S.S. 810.08** Trespass in Structure or Conveyance;
- **F.S.S. 810.09** Trespass on Property Other than Structure or Conveyance;
- **F.S.S.10.095** Trespass on School Property with a Firearm or Other Weapon Prohibited;
- **F.S.S. 10.097** Trespass Upon the Grounds of a School Facility.

Florida State Statutes are accessible through the following website: [www.flsenate.gov/statutes/index.cfm](http://www.flsenate.gov/statutes/index.cfm). Additionally, an individual may be removed from campus for violation of any applicable Board Policy and Procedure.

**Student Motor Vehicle Regulations**

1. All students and employees operating motor vehicles on any Pensacola State College campus must register their vehicles at the time of class registration or upon employment. Register in the Pensacola State College Public Safety Department on any Pensacola State College campus.
2. Registered vehicles will be issued a Pensacola State College parking decal. To obtain a decal, the student must present a current student identification card (or receipt for fees paid) and a current vehicle registration. There is no charge for parking decals. Vehicle registration procedures apply to part-time as well as full-time students and employees.
3. The decal shall be permanently affixed to the rear window (right side) or rear bumper (right side) so that permit is clearly visible from behind. Motorcycles and similar vehicles shall display the permit on the rear of the vehicle so that it is clearly visible from behind.
4. If a decal is lost, becomes illegible, or is invalid due to expiration, it is the student’s or employee’s responsibility to immediately register the vehicle.
5. Decals are non-transferable.
6. The person who registered a vehicle and was issued a decal for it is, at all times, responsible for that vehicle, regardless of who is driving the vehicle. If the vehicle is sold, the decal should be removed.
7. Parking decals are subject to revocation by the administration in the event of repeated violations of campus parking and traffic regulations.
8. Handicapped parking will be by decal issued by the state of Florida only. Contact the Pensacola State College Public Safety Department for additional information.

**Other Regulations and Provisions**

1. The parking and traffic regulations apply to motorcycles, motor scooters, and mopeds, just as they apply to other vehicles.
2. Motorized vehicles operated by Pensacola State College employees are permitted to operate on campus sidewalks, as are vehicles for disabled persons. Pedestrians will always have the right of way.
3. Every operator and passenger of a motorcycle or motor scooter shall wear a DOT approved safety helmet while the vehicle is in motion.
4. College vehicles on emergency business are exempt from the rules in this section.
5. Skateboarding, skating, rollerblading, and riding scooters are prohibited on any Pensacola State College campus area.
6. The College assumes no responsibility for any damage to motor vehicles, or for any other loss, while the car is driven or parked on campus.
7. During special events, certain parking or driving areas may be restricted.
8. Bicycles are not allowed to be brought inside Pensacola State College buildings at any time.

**Student Motor Vehicle and Parking Violations**

1. A student may appeal a motor vehicle and parking ticket violation through the Student Leadership and Activities Office on the appropriate campus.
2. The student must appeal the ticket violation within ten (10) class days after receiving the ticket. Any appeal received after this time will not be considered.
3. There must be justifiable reasons for the appeal process to be initiated. The Student Government Association Traffic/Parking Appeals Committee will review the appeal.
4. The SGA Traffic/Parking Appeals Committee will either uphold the issuance of the ticket or recommend that the ticket be rescinded.
5. The Director of Student Conduct will review the SGA Traffic/Parking Appeals Committee’s recommendation. The decision of the Director for Student Conduct is final.

**Fundraising Activities**

Only College-recognized organizations may conduct fundraising projects. Such organizations may sell on campus consumable goods, if prepared in accordance with health department regulations, as well as non-consumable goods or services in order to raise funds for the support of activities, provided that this provision shall not be construed to allow the raising of funds for the support of activities or causes unrelated to the local college community, unless expressly authorized by the President or his or her designated representative. In the event that any controversy arises over whether a particular project is designed to raise funds for activities or causes unrelated to the local college community, or whether any item is improper for sale, the President or his or her designated representative shall resolve the controversy.

Any organization desiring to conduct a fundraising project on campus shall submit a written request describing the project to the appropriate Student Leadership and Activities Office on the form available from that office at least two weeks prior to the time that the organization desires to conduct the project. The completed form shall contain the signature of the organization’s president and advisor, if applicable, when submitted to the appropriate Student Leadership and Activities Office for consideration. The activity may commence only after approval by the campus dean or the dean’s designated representative.
Solicitation of donations, directly or indirectly, for support of any cause shall not be permitted on campus unless written permission from the President or his or her designated representative is first obtained.

This provision shall not be construed to allow the sale of printed matter as a fund raising project. The sale of printed matter on campus is not permitted except within the operation of the College bookstores.

Fundraising projects must not conflict with other scheduled projects or programs and must be in accordance with local, state, and federal laws.

**Speech and Publication Guidelines**

**Guest Speakers**

The freedom of speech and assembly guaranteed by the First and Fourteenth amendments of the United States Constitution shall be enjoyed by the students of Pensacola State College including the opportunity to hear off-campus or outside speakers on the College campus. Free discussions of subjects of controversial nature shall not be curtailed.

Students at Pensacola State College are expected to accept fully the responsibilities that accompany the freedoms of speech and assembly which they enjoy. When inviting an outside speaker, a student organization is charged with the responsibility of making a choice that reflects the students’ genuine concern for the best interest and welfare not only of their own organization but of the College and the community as well.

Policies concerning the issuance of invitations to outside speakers shall be limited to the following:

1. A request to invite an outside speaker will be considered only when made by an organized student group recognized by the College.
2. Invitations by an organized group shall not be issued to an outside speaker without prior written concurrence by the President of the College, or such person or committee as may be designated by the President (such person or committee thereafter referred to as his or her authorized designee), for scheduling of speaker dates and assignments of campus facilities.
3. Any speaker request shall be made in writing by an officer of the student organization desiring to sponsor the proposed speaker not later than ten calendar days prior to the date of the proposed speaking engagement. This request shall contain the name of the sponsoring organization; the proposed date, time and location of the meeting; the expected size of the audience; and topic of the speech. Any request not acted upon by the President, or his or her authorized designee, within four days after submission shall be deemed granted. A request made by a recognized organization may be denied only if the President or his or her authorized designee determines, after proper inquiry, that the proposed speech will constitute a clear and present danger to the institution’s orderly operation by the speaker’s advocacy of such actions as
   a. The violent overthrow of the government of the United States, the state of Florida, or any political subdivision thereof;
   b. The willful damage or destruction, or seizure and subversion of the institution’s buildings or other property;
   c. The forcible disruption or impairment of, or interference with, the institution’s buildings or other property;
   d. The physical harm, coercion, intimidation or other invasion of lawful rights of the institution’s officials, faculty members or students;
   e. Other campus disorders of a violent nature.

In determining the existence of a clear and present danger, the President or his or her authorized designee may consider all relevant factors, including whether such speaker has, within the past five years, incited violence resulting in the destruction of property at any state educational institution or willfully caused the forcible disruption of regularly scheduled classes or other educational functions at any such institution.

4. Where the request for an outside speaker is denied, any sponsoring organization thereby aggrieved shall, upon application to the President or his or her authorized designee, obtain a hearing within two days following the filing of its appeal before the Student/Faculty Hearing Panel for a de novo consideration of the request. The matter may be referred to the District Board of Trustees of Pensacola State College if the Student/Faculty Hearing Panel believes that the request was improperly denied by the President. Any sponsoring organization aggrieved by the action of the Student Faculty Hearing Panel or the District Board of Trustees in denying the request may obtain judicial review upon application at any court of competent jurisdiction, state or federal, by presenting its verified petition setting forth the grounds of complaint and giving adequate notice of such filing to the President. Upon a hearing to be conducted as soon as practicable, and at such time and place as the court may prescribe, the court shall either reverse or affirm the decision of the President as may be proper under the law and facts.

5. When the request for an outside speaker is granted and the speaker accepts the invitation, the sponsoring organization shall inform the President or his or her authorized designee in writing immediately. The President or his or her authorized designee may, at his or her discretion, require that the meeting be chaired by a member of the administration or faculty and may further require a statement to be made at the meeting that the views presented are not necessarily those of the institution or of the sponsoring group. In accepting the invitation to speak, the speaker assumes full responsibility for any violation of law committed by him while he is on campus.

**Public Address Area**

1. Students, faculty, administration, staff, or non-students may use the address area for free speech, advocacy, and recruiting any time the College is officially in session. The area used for this purpose on the Pensacola campus is defined as the triangle directly in front of the Student Center and bounded by the sidewalks. This area is identified on the campus map and does not include the sidewalks, which are used as boundaries. The address area on the Warrington campus is on the south side of the west entrance to Building 3600. On the Milton campus, it is just to the North of the entrance to the covered walkway to building 4200. At the South Santa Rosa Center it is at the north entrance of the campus and the Century Center it is located along the drive at the east entrance to the campus.

2. Although no prior request for use of the area need be made for extemporaneous expression, individuals reserving the use of the area have priority.

3. When reservations are made for use of the area, they will be made on a first-come, first-served basis by the appropriate Student Leadership and Activities Office on the Milton, Warrington, and Pensacola campuses and the Student Services offices at the Century and South Santa Rosa Centers.

4. Individuals using the speaker’s area during extemporaneous discussion must, as a matter of courtesy, yield the platform after a reasonable amount of time when others desire to speak.

5. Speech within the address area is subject to the regulations of the College and all local, state, and federal laws. Individuals who use speech which defames another, which is obscene, or which constitutes a clear and present danger to the institution’s orderly operation may be enjoined by the College and such speech may provide grounds for action under the Code of
The provisions of the Code of Conduct apply to the address area as well as other areas of the campus.

**Posting, Distributing, Exhibiting Printed or Filmed Material**

Students may distribute free non-commercial literature within the public address areas set aside by the College. Tables and easels may be set in designated areas. In these areas, signs may be used in conjunction with the tables. Tables should be supervised at all times. In the event of congestion or unreasonable interference with the flow of students passing through the area, the campus dean or his or her designee may reasonably regulate such activity.

Non-commercial notices may be posted by students and registered student groups on all bulletin boards. All postings must be cleared through the appropriate office to avoid congestion and to obtain optimum use of facilities available.

Students are expected to use mature judgment and a sense of discretion in the publication, posting, and distribution of any material on campus and to realize that they and their group or organization must accept responsibility for the consequences of their behavior.

The President or his or her authorized designee may prohibit the distribution on campus of any material or publication or the showing on campus of any films containing obscene or defamatory matter, or containing matter which the President or his or her authorized designee reasonably believes would incite others to take action which would substantially disrupt or materially interfere with school activities. Should the President prohibit the distribution of any film on campus, the student or recognized student group thereby aggrieved shall, upon written application to the President or his or her authorized designee, obtain a hearing within two days following the filing of the appeal before the Student/Faculty Hearing Panel. The appeal procedure shall be the same as provided in the case where the President denies a student organization’s request to invite an outside speaker to appear on campus.

Responsibility for editorial or other content of publications distributed on campus shall lie with the sponsoring agency, group, or organization. All publications distributed on campus should appropriately indicate that the opinions expressed therein are not necessarily those of the College or of the student body. The use of the College name, seal, or other official insignia in printed matter shall not imply that the College approves, supports, or endorses the College name, seal, or other official insignia in printed matter.

**Non-Academic Appeals**

1. **Student Motor Vehicle Regulations:** A student who wishes to dispute an alleged violation of the Student Motor Vehicle Regulations may submit an appeal to the Traffic Appeals Court through the Student Leadership and Activities Office on the appropriate campus.

2. **Code of Conduct Violations:** A student accused of violating a section or sections of the Pensacola State College Code of Conduct shall be entitled to certain procedural rights. See the Student Code of Conduct Violations in the Non-Academic Appeals Procedure section of the College Catalog.

3. **Student Grade Grievance Procedure (p. 15)**: A student who disputes a final grade assigned by a faculty member has 10 working days from the time of grade assignment to initiate a grievance. After the 10 day period, the student loses the right to file a grievance see Student Grade Grievance Procedure (p. 15) and no other administrative remedy or campus option is available.

4. **Graduation Policy Exception:** A student who wishes an exception to an existing graduation policy may appeal to the Student Academic Appeals Committee.

**STUDENT RIGHTS**

**Basic Student Procedural Due Process Rights**

Pensacola State College will observe the fundamentals of due process to reach a fair, equitable, and consistent resolution for students with complaints and grievances. Due process will be observed in the adjudication of alleged student violations of College policies and procedures. A student pursuing either a non-academic or academic complaint or grievance may use Pensacola State College’s Student Advocate/Student Ombudsman at no cost or obligation. The use of the services of the Student Advocate/Student Ombudsman is to be determined by the student. In addition, students who feel their grievance has not been resolved by the College may seek guidance from the Florida Department of Education at http://www.fldoe.org/schools/higher-ed/fl-college-system/about-us/complaints.shtml.

**Grievances Alleging Discrimination**

Pensacola State College prohibits discrimination and harassment of any kind. The College’s Policy of Nondiscrimination clearly prohibits discrimination based on race, ethnicity, national origin, color, gender/sex, pregnancy, age, religion, marital status, disability, sexual orientation, gender identity or genetic information (6Hx20-1.067). A student with a complaint regarding issues of discrimination or harassment, including Title IX, Section 504 or discriminatory conduct in the form of sexual misconduct/sexual harassment, should immediately notify the Associate Vice President, Institutional Diversity. This includes allegations of discrimination or harassment, whether the alleged discriminatory act occurs on or off campus, in an academic environment or non-academic environment or involves a College sanctioned program, service, or activity. The Associate Vice President, Institutional Diversity is located in the Administration Building #7, Room 705, on the Pensacola Campus, 1000 College Blvd., Pensacola, FL 32504. The phone number is (850) 484-1759.

In addition, Pensacola State College prohibits retaliation. At no time should a student be penalized, threatened, intimidated, or otherwise be discouraged from filing a discrimination complaint if the student in good faith made allegations of discrimination or believes he or she has been subjected to discriminatory conduct.

**Appeals Available to Students**

**Non-Academic Appeals**

1. **Student Motor Vehicle Regulations:** A student who wishes to dispute an alleged violation of the Student Motor Vehicle Regulations may submit an appeal to the Traffic Appeals Court through the Student Leadership and Activities Office on the appropriate campus.

2. **Code of Conduct Violations:** A student accused of violating a section or sections of the Pensacola State College Code of Conduct shall be entitled to certain procedural rights. See the Student Code of Conduct Violations in the Non-Academic Appeals Procedure section of the College Catalog.

**Academic Appeals**

1. **Grievances of Classroom and Instructor Issues:** A student with a complaint regarding specific issues related to a member of the Pensacola State College faculty, including Title IX and Section 504, may seek resolution through this process.

2. **Grade Grievance Procedure:** A student who disputes a final grade assigned by a faculty member has 10 working days from the time of grade assignment to initiate a grievance. After the 10 day period, the student loses the right to file a grievance see Student Grade Grievance Procedure (p. 15) and no other administrative remedy or campus option is available.

3. **Graduation Policy Exception:** A student who wishes an exception to an existing graduation policy may appeal to the Student Academic Appeals Committee.
4. Reinstatement in class: A student who has been withdrawn for excessive absences may request consideration for reinstatement by discussion with the instructor. If the instructor does not permit continued enrollment, the student may appeal to the Student Academic Appeals Committee.
5. Late withdrawal: A student who wishes to withdraw from a class after the established withdrawal deadline may petition the Student Academic Appeals Committee.
6. Academic Suspension or Academic Dismissal: A student who has been placed on academic suspension or who has been dismissed for academic reasons may petition for continued enrollment to the Student Academic Appeals Committee.

Student Academic Grievance Procedure
The purpose of the grievance procedure is to provide, at the lowest possible level, a means to mediate a fair and equitable solution to any complaint other than grade disputes (including Title IX and Section 504) that a student may have with a faculty member. A student with a complaint regarding issues of discrimination or harassment that occur on or off campus within an academic setting should bring the issue to the immediate attention of the Associate Vice President of Institutional Diversity. This procedure will not involve itself in any dispute in which the student is accused of a violation of the honor pledge or infraction of any rule or regulation governing the conduct of students, as set down by the institution. The time limit indicated throughout this procedure should be considered as maximum, and every effort should be made to expedite the process. However, the time limits may be extended by mutual consent of the parties concerned.

Any student who has a grievance with a member of the faculty that has not been resolved to his or her satisfaction may take the following steps to resolve the issue:

Informal Procedure
1. Within 60 days or less of the incident, the student should discuss the grievance with the department head to attempt to resolve the problem.
2. After the initial discussion with the appropriate department head, if the grievance is still unresolved, the student may discuss the grievance with the appropriate dean or designee.

Formal Procedure
1. If, as a result of informal discussion, the grievance is still unresolved, the student may file a Formal Grievance Petition by outlining the grievance in writing on a prescribed form available from the Campus Dean.
2. Within one calendar week of filing of the formal grievance, the Dean shall transmit the completed Formal Grievance Petition form and documentation to the Vice President of Academic Affairs.
3. The Vice President of Academic Affairs will appoint a chair of the Student-Faculty Relations Panel.
4. The Student-Faculty Relations Panel will schedule a hearing within two calendar weeks of the petition filing. The student will receive notification at least five days in advance of the grievance hearing and should appear at the hearing to present information and to call witnesses. Information and testimony in the hearing are limited to the scope of the complaint and the information provided during the informal process.
5. It is agreed that each party of a grievance shall furnish the other with any information in his or her possession which may be legally released and is necessary for the processing of grievances or complaints.

6. The Student-Faculty Relations Panel will recommend a solution to the complaint to the Vice President of Academic Affairs, in writing, within one calendar week after the hearing.
7. The Vice President of Academic Affairs or his or her designee will provide a written decision to the student within two calendar weeks of the receipt of the panel’s recommendation.
8. No reprisals of any kind shall be taken against any student for participation in any grievance.
9. Nothing in this procedure shall be construed to deny any student any rights or benefits guaranteed by law.
10. A grievance may be withdrawn at any level by the student filing the grievance.
11. All documents, forms, communications, and records dealing with a grievance shall be filed separately from the permanent record files of the participants. A copy of the formal grievance and its final disposition will be filed in the office of the Vice President of Academic Affairs.
12. The student shall be entitled to be accompanied and advised by private counsel, ombudsman, or other representative, but he or she may not participate in the hearing.
13. All hearings are closed.

Grade Disputes
The student has ten working days from when the final grades are posted on the Pensacola State College Student Information System (SpyGlass) to initiate a grade grievance. After the ten day period, the student loses the right to file a grievance and no other administrative remedy or campus option is available.

Appeals of Academic Regulations and Policies
See Academic Regulations and Policies (p. 55) for appropriate procedures in petitioning for reinstatement in a class, appealing an academic suspension or dismissal, and appealing any college policy (graduation, late withdrawal, etc.).

Student Grade Grievance Procedure
In order to institute this grade grievance procedure, the student will be prepared to show that course or grade requirements were not clearly explained in the section syllabus, requirements were not uniformly applied, requirements were changed without sufficient notice or for capricious reasons, the instructor’s data was not accurate, the final course grade could not be reasonably derived from data given, and/or prejudice affected assignment of the grade. The outcome of the process may be that the assigned grade will stand, assignment of the grade will be postponed until some agreed upon work has been completed, another grade will be substituted for the one originally assigned, or a compromise fitting the specific situation is reached.

In the event that the faculty member who assigned the grade is no longer employed by the College (due to resignation, retirement, or death), a faculty member from the same program or discipline will serve in the stead of the original faculty member. This substitute faculty member will be selected by a vote of the faculty members and the department head in the affected department or discipline.

In the event that the faculty member who assigned the grade will be returning to his or her position at the College but is temporarily away for longer than 10 days, the faculty member will be notified by his or her department head of the impending action. Unless the faculty member agrees to be available to meet earlier or has an alternate solution, the time lines below shall be amended so that the initial 10 days specified in Step One will not begin until the faculty member returns from the temporary absence. If, however, the Step Two deadline would be delayed longer than 30 calendar days, another full-time faculty member or administrator shall be designated to substitute. If the faculty member is unable to identify a substitute who is willing and able to fill this role, the department
head shall serve as the substitute. For extenuating circumstances where the student cannot meet the 10 day deadline, the student should contact the appropriate academic Department Head or Dean for an extension of time. The student should be prepared to present appropriate documentation to explain the need for the extension.

Informal Process
1. Within 10 working days of when the student’s final grade is posted on the Pensacola State College Student Information System (SpyGlass), the student shall meet with the faculty member and present data to support his or her assertion.
2. Within 10 working days, the faculty member must give a hearing to the student’s claim and consider the data in an attempt to resolve the issue. In the event that the resolution is not satisfactory to the student, the student may proceed to Step Three.
3. The student may meet with the department head and present data to support his or her assertion in the dispute. The department head must then meet and discuss the dispute with the faculty member. The department head must then attempt to resolve the dispute within 10 working days. In the event that the resolution is not satisfactory to the student, the student may proceed to Step Four.
4. The student may meet with the appropriate Dean and present data to support his or her assertion in the dispute. The Dean must then meet and discuss the dispute with the faculty member and Department Head. The Dean must then attempt to resolve the dispute within 10 working days. In the event that the resolution is not satisfactory to the student, the student may proceed to the Formal Student Grievance Process.

Formal Process
Within 10 working days of when the student is notified of the Dean’s response, the student may begin the formal grievance process by outlining the grievance in writing and presenting the petition to the Dean. A one-time panel will be assembled including three students and three faculty members, none of whom shall have any direct connection with the parties involved. At least one of the student members and at least one of the faculty members must be from a related discipline in which the grade is being disputed. In the event that there is no related discipline, at least one student member and at least one faculty member shall possess demonstrated knowledge of or experience with the discipline area involved in the grade dispute. A Chair for the panel will be selected by the Vice President, Academic Affairs. Following the hearing, the Chair will submit the panel’s recommendation to the Vice President, Academic Affairs, for a final decision.

Student Advocate/Student Ombudsman
Reflecting Florida Statute 1006.51, K-20 Education Code, Pensacola State College has created a Student Advocate/Student Ombudsman, who is accountable to the Vice President, Student Affairs.
A student pursuing either a non-academic or academic complaint/grievance may utilize Pensacola State College’s Student Advocate/Student Ombudsman at no cost or obligation. The use of the services of the Student Advocate/Student Ombudsman is to be determined by the student.
The Coordinator of Student Activities and Leadership Development on each campus shall serve as the Student Advocate/Student Ombudsman for his or her respective campus. The Pensacola campus Student Advocate/Ombudsman shall serve in this capacity for the South Santa Rosa Center, Century Center, Downtown Center, and for eLearning students. The Student Advocate/Ombudsman can assist with the following:
1. Guidance and advice regarding the informal and formal processes associated with complaints and grievances including academic and non-academic issues.
2. Assistance in seeking a mutually agreeable resolution of the complaint.
3. Assistance throughout the informal and formal processes associated with complaints and grievances.
4. Comprehension of existing policies and procedures of the College.
5. Serving as an advisor to the student during academic and non-academic appeal or hearing procedures.
6. Referring the student to the Associate Vice President, Institutional Diversity for guidance and assistance if the academic or non-academic complaint relates to alleged discrimination and harassment issues.
ADMISSIONS, REGULATIONS, FINANCIAL AID, AND GRADUATION

ADMISSIONS

General Information
In general, Pensacola State College is an open-door institution. However, depending on the applicant’s intended program of study, certain admissions criteria must be met. An applicant may obtain admissions information and required forms on any campus or center. The application is also available online in the Future Student menu at www.pensacolastate.edu. Each admitted student is provided an institutional email account called PirateMail. PirateMail is the official method of communication to the student from the College. The student should activate the PirateMail account within a week of admission and is expected to check the PirateMail accounts at least once per week, more often during a registration period. See complete details regarding PirateMail (p. 17) in this Catalog.

An applicant may be denied admission or be admitted with restrictions if evidence indicates that he or she has participated in activities that violate the Pensacola State College Code of Conduct. See the Student Rights and Responsibilities section (p. 23). Falsification of information or failure to furnish correct information on any admission form will subject the applicant to denial of admission.

Accreditation
Pensacola State College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate degrees, associate degrees, and certificates. Verification of accreditation may be obtained from the Commission on Colleges at 1866 Southern Lane, Decatur GA 30033-4097 or by telephone to 404-679-4500.

Social Security Number Collection and Usage Notification
In compliance with Section 119.071(5), Florida Statutes, Pensacola State College issues this notification regarding the purpose for the collection and use of an applicant’s or a student’s social security number (SSN). The SSN is collected and used only to perform the collection and use of an applicant’s or a student’s social security number (SSN). The SSN is collected and used only to perform the activities associated with the award of a baccalaureate, associate, or certificate degree, and grade point average. An applicant or student who is not exempt from the requirement to provide the SSN may be denied admission or be admitted with restrictions if evidence indicates that he or she has participated in activities that violate the Pensacola State College Code of Conduct. The College assigns each student a unique student identification number, which is used for associated educational purposes at Pensacola State College including the access of College records. Pensacola State College may collect and/or use a student's SSN for the following purposes:

1. Federal legislation relating to the Hope Tax Credit requires that all postsecondary institutions report student SSNs to the Internal Revenue Service (IRS). This IRS requirement makes it necessary for Pensacola State College to collect the SSN of every student. A student may refuse to disclose his or her SSN for this purpose, but he or she may be subject to IRS penalties.
2. The Florida public school system (K-12) uses the SSN as a student identifier. It is beneficial to have access to the same information for purposes of tracking and assisting students in the transition from one educational level to the next, linking all levels of the state education system. The intent is to establish a comprehensive management database of information which will co-reside with the Division of Public Schools Information Database and the State University System Database to provide integrated information at the state level for educational decision making.
3. SSNs appear on official transcripts and are used for business purposes in accordance with parameters outlined by the United States Department of Education.

Federal and State Regulations
1. Tracking uses are authorized by SBE Rule 6A-10955(3)(c); 1008.386, FS and the General Education Provisions Act (20 USC 1221f(c-1));
2. Hope/Lifetime/Tax Credit uses are authorized by 26 USC 6050S and Federal Register, June 16, 2000; IRC Section 25A;
3. Registration uses are authorized by 119.071(5), FS;
4. Issuance of Form 1098T for tuition payment reports are authorized by 26 UWSC 3402, 6051; and
5. The College Reach-Out Program (CROP) uses are authorized by 1007.34, FS.

Basic Steps in Applying for Admission to the College
Several programs at Pensacola State College have additional admissions requirements to those listed here. The applicant is responsible for reviewing specific requirements for the chosen program of study listed in this Catalog or provided through the academic department with oversight responsibility for the program. A student who is interested in any health-related program is encouraged to seek admissions assistance from the appropriate department.

1. Complete an Application for Admission and a Residence Statement. Applications are available in the admissions office on any campus or center as well as on the web site at www.pensacolastate.edu.
2. Request official transcripts to be sent to the Records Office at Pensacola State College. A high school transcript showing graduation, a GED score report, or a Home School Affidavit will document basic eligibility to the College. Official transcripts from each college or university attended must be submitted.
3. Submit placement test scores or determine if you meet the requirements for the Developmental Education Exemption (see Placement Testing and Developmental Studies for a complete description). ACT or SAT scores that are no more than two years of age will be accepted for a student who is not exempt from placement testing. A student who has not taken the ACT or SAT, or whose ACT or SAT scores are more than two years of age, may contact a test center on any campus or center to take the Postsecondary Education Readiness Test (PERT). Test scores are used for placement in reading, writing, and mathematics courses. The scores are not used for admission purposes. A transfer student who has completed college-level English courses with grades of C or better and college-level mathematics courses with grades of C or better will not be required to submit placement test scores. However, if the official transcript is not on file and evaluated by the time of the second term of registration, placement testing will be required.
4. Attend orientation and meet with an advisor or the program director for the specific program to which admission is requested. Contact Admissions and Information or any Student
Steps for Readmission to the College (Returning Students)
Any student who has attended Pensacola State College previously but not been in attendance within the previous 12 months must submit a reapplication form. The reapplication process may be completed in an admissions office on any campus or center. The reapplication may also be completed online at www.pensacolastate.edu. The reapplication process will require updated contact information, names of any additional colleges attended, and the Residence Statement. Transcripts from colleges attended since prior enrollment at Pensacola State College must be submitted during the first term of re-enrollment. Returning students will not be reassessed the application fee.

Baccalaureate Program Admission
Pensacola State College offers the Marjan Mazza Bachelor of Applied Science (BAS) degree in Business and Management with seven areas of concentration: Graphic Design Management, Health Care Management, Human Resources Management, Law Enforcement Administration, Organizational Administration, Project Management, and Public Safety Management. The College also offers a Bachelor of Applied Science in Cybersecurity and a Bachelor of Science in Nursing (BSN).

The baccalaureate degrees are designed to provide career ladder options for the student who has completed an associate degree (or at least 60 semester credit hours) and who wishes to pursue an education at the baccalaureate level.

An applicant for admission to the Marjan Mazza BAS in Business and Management degree program will be admitted with the following:
1. Completion of the Pensacola State College baccalaureate admission form and Residence Statement. See the Residency Classification section of this Catalog for information.
2. Submission of all college transcripts with documentation that the applicant has earned an associate degree or earned credit in no less than 60 semester hours from regionally accredited institutions.
3. Completion of entry-level placement testing unless the applicant’s transcript reflects grades of C or better in general education English or mathematics. Applicants whose test scores indicate the need for remediation (developmental education or college preparatory courses) will not be admitted into the baccalaureate program or baccalaureate courses until the required developmental education courses are satisfactorily completed.

Foreign Language Requirement: Each student in a baccalaureate program must meet the foreign language requirement. The foreign language requirement may be met with two sequential credits in high school foreign language, successful completion of a post-secondary language II course (the second course in a foreign language sequence), or other means as specified in institutional policy.

Associate Degree Admissions

First Time in College
An applicant for admission to any associate degree program must be a high school graduate with one of the below-listed credentials. In most cases, the awarding of financial aid is dependent upon receipt and validation of the high school credential.

1. Standard High School Diploma
   a. A Florida public high school graduate must have earned a standard high school diploma or the CPT-Eligible Certificate. The standard high school diploma or the CPT-Eligible Certificate must be designated on the official high school transcript.
   b. A student who has graduated from a regionally-accredited high school in any other state must have an official transcript submitted to the College.
   c. A student who has graduated from a non-regionally-accredited high school will be considered for admission provided the high school transcript documents courses taken and grades earned in a classroom environment. A student who has completed his or her high school education through a non-regionally-accredited high school should contact the Records Office for review of the secondary education transcript. NOTE: A high school diploma issued on the basis of an assessment test may not be recognized for admission into an associate degree program. A high school diploma or transcript purchased for a fee without any instruction received will not be
recognized for admission. A student who has earned the Certificate of Completion (other than the CPT-Eligible Certificate) or the Special Diploma from a Florida public school will not be considered a high school graduate for admission purposes.

2. **GED Equivalency Diploma:** A student who has received the General Education Diploma (GED) will be admitted. An official GED score report from the Department of Education in the state the GED was earned is required for admission.

3. **Home Educated Students:** A student who has completed a home education program (home school) must submit the Home School Completion Affidavit. The affidavit must be completed by a parent or legal guardian affirming that the student completed a home education program meeting State of Florida high school requirements. Documentation from the public school district will be required to ensure the home education program complied with state requirements for secondary education. The Home School Completion Affidavit is available in any admissions office on any campus or center.

4. **Foreign Educated Students:** A student who has completed secondary school education in another country will be admitted provided the level of education is equivalent to high school graduation in the United States. Determination of equivalency is made by the College Registrar utilizing resources provided by recognized credentials evaluators and through best practices of admissions offices in the nation.

5. **Conditional Admission to Summer Classes for Graduating Seniors:** Pensacola State College provides an opportunity to the high school senior with an anticipated high school graduation allowing summer enrollment in classes that begin before the actual high school graduation date. Under this conditional admission, the graduating high school senior may enroll at his or her own expense in courses during the summer semester of the year before graduation. Federal aid and scholarship opportunities are usually not available to the student admitted under this condition.

**Entry-Level Testing**
Each associate degree student is required to satisfy college placement test requirements or provide proof of exemption status. (Refer to page 2 of the Testing and Assessment section; Placement Testing and Developmental Studies.)

Placement tests do not determine admission; they are used to determine the appropriate placement in college-level English, writing-intensive, and mathematics courses. A student may provide scores from either the SAT or the ACT, but the test scores must not be more than two years old. No student, including a non-degree student, will be permitted to enroll in any college credit English, writing-emphasis, or mathematics course or any course having an English, mathematics, or reading prerequisite without meeting the state-mandated minimum scores on the placement test or verifying proof of exemption status.

An applicant who has not taken the SAT or ACT is required to take the Postsecondary Education Readiness Test (PERT) through a testing center on any campus or center.

**Requirement for SLS1101 College Success:** A student whose placement test scores indicate the requirement for enrollment in two or more developmental education/college preparatory courses must also enroll in SLS 1101 College Success. Enrollment in SLS1101 will be required even if the course is not a part of the curriculum for the student’s degree plan. Enrollment in the required developmental education/college preparatory courses should begin in the first semester of attendance but must begin before the 12th credit hour is attempted. Enrollment in other college-level courses is permitted provided the student is also enrolled in at least one of the required developmental education/college preparatory courses.

**Requirement for Developmental Math I and II:** Mathematics remediation, determined by placement test scores, will be required of any student following a curriculum leading to the associate of science or associate of applied science degree even if a college-level mathematics course is not specified in the curriculum for the degree. The associate degree will not be awarded until the student has demonstrated readiness for a college-level algebra course.

A transfer or baccalaureate applicant should review testing information in the appropriate admissions section below.

**Transfer Students:** A student is admitted as a transfer student if he or she has previously attended a college or university accredited by one of the six regional accrediting associations. The transfer student must request official transcripts to be sent directly from the issuing institutions to the Records Office at Pensacola State College. Transcripts marked issued to student will not be accepted. All college transcripts must be received and evaluated by the time the transfer student registers for his or her second term of enrollment.

**Financial Aid:** Financial aid is dependent upon receipt and evaluation of transcripts from all previously attended institutions. A student anticipating financial aid eligibility who has attended a non-regionally accredited institution will be required to have official transcripts from that institution submitted to the College, even though the College may not require those transcripts for admission purposes.

A **transfer student with grade of C or better** in a course determined to be equivalent to ENC1101C English Composition I will not be required to take the reading/writing portion of the placement test. A transfer student with a grade of C or better in a course determined to be equivalent to MAT1033C Intermediate Algebra (or a higher-level mathematics course) will not be required to take the mathematics/algebra portion of the placement test. A transfer student who does not document placement testing exemption with transfer courses and grades as indicated here will be required to take the placement test.

All credits attempted at the freshman and sophomore levels at regionally-accredited institutions will be recorded as transfer credits. An accepted transfer course satisfies general education requirements for the associate degrees only if the course is essentially the same as a corresponding Pensacola State College course. Final determination of transfer credits and course equivalency is made by the College Registrar. The evaluation process is normally completed within six weeks of transcript receipt, and the student will be notified by Pirate Mail when the evaluation is complete. Credits accepted and the manner in which those credits meet degree requirements may be viewed by the student through his or her Spyglass records (unofficial transcript and degree audit). A student admitted to a baccalaureate program will have transcripts reviewed for possible transfer of junior and senior level courses. See Baccalaureate Program Admission (p. 36). Remedial course work from non-Florida colleges or universities will not be accepted in lieu of placement test scores.

Grades of D or F will be accepted for transfer under the terms of the State Articulation Agreement and State Board of Education rules. Credits earned more than 20 years prior to enrollment at Pensacola State College may be subject to review as equivalent courses for transfer purposes.

**Credits from Non-Regionally-Accredited Colleges:** A student who has completed course work at a college or university that does not hold accreditation from one of the six regional accrediting agencies will not be required to submit transcripts from those institutions for admission purposes. However, the transcripts may be required for the determination of financial aid eligibility. A student who wishes to pursue the awarding of transfer credit for course work completed at a non-regionally-accredited institution should consult with the Records Office or an advisor regarding the procedure in place for seeking transferability of courses. The course...
must be equivalent to a course offered at Pensacola State College and must meet the criteria established by one of the six regional accrediting agencies in regard to faculty credentialing, course competencies, textbook utilization, course length, etc. 

**Credits from Institutions in Other Countries:** A student who has completed college-level courses in another country will not be required to submit transcripts. However, if the student wishes to have credit earned in another country considered for transfer purposes, the student will be responsible for securing the evaluation services of a recognized credentials evaluation agency. Information regarding this process may be obtained in any admissions office. Pensacola State College will not be involved in the fees charged by the credentials evaluation agency.

The recommendations made by the credentials evaluation agency will be reviewed, and coursework may be accepted provided the courses are comparable to courses taught at Pensacola State College.

College credits for English composition courses will not be accepted unless the student’s placement test scores indicate readiness for ENC1101C English Composition I. English courses taught in the English as a Second Language format will not be considered equivalent to either ENC1101C or ENC 1102.

**Certificate and Applied Technology Diploma Program Admission**

An applicant to a college credit certificate program, vocational credit certificate program, or applied technology diploma program is subject to admissions requirements as indicated above. Placement testing will not be required unless the program contains an English course or a mathematics course. Some vocational credit certificate programs do not require the high school diploma. Please review specific admissions requirements for the program. Basic admissions information follows:

1. An individual who has graduated from high school is eligible for enrollment in a vocational credit program.
2. An individual who has not graduated from high school but is at least 16 years-of-age and legally withdrawn from a regular school system may be admitted into a certificate program provided the specific program does not require high school graduation.
3. Unless required for admission into the particular program or for financial aid eligibility requirements, transcripts are not required. An application for admission and Residence Statement is required. See the Residency Classification section (p. 41) of this Catalog for information.

**Limited Access Programs**

**Limited Access Program Admission**

Certain Pensacola State College programs carry additional admission requirements so that the College and its students are able to meet certification and licensing requirements as well as specific program accreditation standards. Any individual interested in a limited access or selective admission program should contact the department with oversight of the program. The limited access programs include, but are not limited to, the following: Dental Hygiene, EKG Technician, Emergency Medical Technician, Health Information Management, Health Unit Coordinator, Massage Therapy, Medical Assistant, Paramedic, Pharmacy Technician, PhysicalTherapist Assistant, Practical Nursing, Radiography, Registered Nursing, Sonography, and Surgical Technology. See the Programs of Study section of this College Catalog.

**International Students**

Individuals who have been granted legal permanent resident status will be required to submit the same admissions documents as a United States citizen to include the establishment of residence for tuition purposes.

Individuals who plan to attend Pensacola State College while in the United States on a visa other than the F-1 Student Visa should contact the Registrar’s Office to determine eligibility. Several visa categories will permit enrollment in college courses during the temporary stay in the United States.

Undocumented aliens will be permitted to enroll at Pensacola State College but will not be able to declare a status as resident for tuition purposes. The undocumented alien will not be eligible for any financial assistance.

Individuals who will require the F-1 Student Visa, including those who are transferring the F-1 Visa from another institution to Pensacola State College, must present the documentation listed below.

Official copies of all documentation are required. International mail delays, transcript verifications, Bureau of Citizenship and Immigration Services (BCIS) regulations governing the issuance of the Immigration Form I-20, consular appointments, etc., must be anticipated. The College encourages non-citizen students seeking the F-1 Student Visa to begin the application process at least four months in advance of anticipated enrollment. Required application papers and credentials include the following:

1. **International Student Application for Admission** The International Student Application is available in an admissions office or on the web site at www.pensacolastate.edu.
2. **Secondary School Records** Official transcripts of secondary school records are required. Transcripts in languages other than English must be translated with certified translations provided. The secondary school record documents of an applicant who has completed his or her secondary education in a foreign country are evaluated in accordance with the general regulations governing admission of freshman students as well as guidelines established by the American Association of Collegiate Registrars (AACRAO) and the National Association of Foreign Student Advisors (NAFSA).
3. **College Transcripts** International students who have attended colleges in the United States must have official transcripts sent to Pensacola State College. Students who have completed college-level work at institutions outside of the United States and wish to receive transfer credit will be required to seek the services of recognized credentials analyst. See Transfer Students from Other Countries.
4. **Financial Support Documentation** An official statement from the applicant’s (or sponsor’s) bank or other financial institution is required and must verify the availability of sufficient funds for tuition, matriculation, books, and living expenses. All monetary amounts must be indicated in United States dollars. If the international student will be provided funding through his or her home country’s government or some other agency, documentation verifying the availability of sufficient funds for tuition, matriculation, books, and living expenses, etc., must be submitted.
5. **Language Proficiency** For those international applicants whose native language is not English, the Test of English as a Foreign Language (TOEFL) will be required. The minimum score acceptable for admission is 500 (on the paper-based exam), 173 (on the computer-based exam), and 61 (on the internet-based exam). An official TOEFL score report must be sent directly to the Registrar’s Office; Pensacola State College’s school code for this purpose is 5535. Student copies of the TOEFL score report will not be accepted. Students who have not taken the TOEFL but have completed an English Language School (ELS) through Level 109 will be considered. An official ELS transcript must be sent directly to the Registrar’s Office from the testing agency or the institution offering the ELS
program. No exceptions will be made to these requirements for language proficiency.

6. **Medical/Health Insurance**: Health insurance with hospitalization coverage is required. Evidence of a health insurance policy valid in the United States and covering the period of enrollment must be documented prior to registration.

7. **The Immigration Form I-20**: When all required documents and credentials are received, Pensacola State College will issue the Immigration Form I-20 recorded through the Student and Exchange Visitor Information System (SEVIS) of the United States Department of Immigration and Customs Enforcement. The admitted international student will be responsible for establishing an appointment with the appropriate Embassy and paying any fees associated with the process to receive the F-1 Student Visa.

**Dual Enrollment**

The Dual Enrollment program provides college-level instruction to the qualified high school student and is administered in accordance with State Board of Education Regulation 6A-10.0241 Articulation Plans for College Level Instruction for High School Students. Eligibility criteria and enrollment procedures comply with Florida Law and State Board of Education regulations as well as the Inter-Institutional Articulation Agreements agreed upon by the school districts, eligible private schools, or eligible home education students, and Pensacola State College.

A student who achieves minimum placement scores on state-approved placement exams, meets additional eligibility requirements as stated in the Inter-Institutional Articulation Agreement, who is in grade six through twelve, and who meets the minimum grade point average requirements is eligible for admission into the Dual Enrollment program.

A Dual Enrollment student is exempt from direct payment of tuition, matriculation, and laboratory fees. A public school student participating in dual enrollment may have books provided by the high school. Each private school or home educated student is responsible for purchasing his or her own textbook(s).

**Admission**

The Dual Enrollment student must meet the eligibility criteria established by state rules and specified in the applicable Inter-Institutional Articulation Agreement.

The following documents must be submitted to the assigned College Advisor:

1. Dual Enrollment Application.
2. Dual Enrollment Approval form signed by principal or designee indicating the course(s) to be taken through Pensacola State College.
3. Placement test scores that are not more than two years of age.
4. The Dual Enrollment Approval form completed by the high school will be required each semester of enrollment.

Each area high school is assigned a College Advisor for Dual Enrollment purposes. Any interested student should ask the guidance office at the high school for information on the dual enrollment program or may contact the College’s Advising Center for information.

**Collegiate High School**

**Collegiate High School Admission**

The Collegiate High School program, housed in the Hobbs Center on the Pensacola Campus, is designed to provide students an opportunity to earn the high school diploma. Each student is assessed $30 per semester regardless of the number of courses being taken. Any student enrolled in Collegiate High School courses is responsible for purchasing his or her own textbooks.

**Eligibility for the Collegiate High School is as follows:**

The applicant must be at least 16 years of age and not currently enrolled in any K-12 school system.

The applicant must not have earned a high school diploma or the GED diploma in any state.

Admission documents required include the following:

1. **Collegiate High School Application Form**: Available at the Collegiate High School located in Building 11 on the Pensacola Campus or a registration center on any campus or center.

2. **Registration Information**: Including beginning dates for semesters and sessions may be obtained from the High School or any registration center.

3. **Statement of Residence**: A Residence Statement is required. See the Residency Classification of this Catalog for information.

4. **Parent Agreement Form**: Any applicant under the age of 18 must have the agreement of a parent or legal guardian for enrollment in the Collegiate High School. The agreement form is included on the application for admission.

5. **Transcript**: Official copies of transcripts from previously attended high schools must be on file before registration in a second term will be permitted. Each applicant is encouraged to bring a personal copy of the high school record with him or her for advising purposes. The official transcript must be sent directly from the issuing high school to the Records Office.

6. **Home Education (Home School) Credits**: A student who has been enrolled in a home education program will have work evaluated in accordance with rules established at the state level. Successful completion of courses in residence is required before home school courses will be accepted and posted to a student’s permanent Collegiate High School record.

**Escambia County (FL) and Santa Rosa County Applicants**: Additional admission requirements are in place for the student who is enrolling with the Collegiate High School after withdrawing from a school in Escambia or Santa Rosa County. The applicant must present the official withdrawal form as well as a statement of eligibility to return.

**Co-enrollment from a District High School**: A high school student in an area public school may be required to co-enroll in a course offered through the Collegiate High School. Co-enrollment is limited to two courses per academic year, and no fees will be assessed to the students.

**Adult Education**

**Adult Education Admission**

The Adult Education Department offers non-credit classes for adults who want to improve basic academic skills, prepare for the GED examinations, or learn English. Eligibility requirements are as follows:

1. Applicants must be at least sixteen years of age.

2. Individuals anticipating enrollment in any Adult Education class must submit the Admission/Registration Form and a Residence Statement.

Students will be assessed $30 per semester regardless of the number of courses being taken.

See the Adult Education section of the Catalog for course offerings and contact information.
Non-Degree Seeking Student

Non-Degree Students
An applicant who does not wish to earn a degree or certificate from Pensacola State College and who wishes to take credit courses may not need to provide high school or college transcripts. However, an individual requesting non-degree seeking classification and enrolling in courses having prerequisites, courses with placement testing requirements, or other admissions requirements may be required to provide evidence of prior educational course work. Pensacola State College understands that many individuals enroll in courses to upgrade employment skills or for personal interest and enjoyment. Any student seeking non-degree status will be required to submit the application and Residence Statement. The application and Residence Statement are available at any campus, any center, or at www.pensacolastate.edu/admissions.

A non-degree seeking student will not be permitted to enroll in any college credit course unless eligibility is documented with the approved minimum placement test score or college transcripts showing show that the prerequisite for the course has been met.

A non-degree seeking student who subsequently declares a program of study will be required to meet admissions requirements as indicated above for a degree-seeking student.

College Graduates
An individual who has earned a bachelor’s degree or higher is eligible for enrollment in any course unless the course has restricted admission, placement testing requirements, or prerequisites that have not been met.

Transient Students
A student pursuing a degree at another college or university may be admitted as a transient student to transfer courses back to his or her home institution. A transient form or some other written authorization from the home institution is required indicating the specific course(s) to be taken and the home institution’s willingness to accept the credits earned. The transient form or written authorization must be submitted prior to registration. Testing requirements may be in place for the transient student.

A student whose home institution is a Florida college or university may complete the electronic transient authorization process through www.FLVC.org.

Special Student Admission (Non-graduate)
The Special Student admission classification is designed for a student enrolling in credit classes without the high school diploma or its equivalent. The Special Student must be at least 18 years of age and not currently enrolled in a K-12 program. The Special Student is permitted to accumulate 15 credit hours in this status and is encouraged to earn the GED diploma during the first semester of enrollment. The GED diploma is required to continue enrollment beyond the 15th credit hour. After earning the GED diploma, the Special Student may request to change to degree-seeking status or may continue as a non-degree seeking student.

Audit Students
A student who plans to audit a course must meet Pensacola State College admissions and course placement requirements. An audit student must declare the audit status prior to the end of the schedule adjustment period by completing an audit request form on any campus or center. A student auditing classes will be assessed the same fees as a grade-seeking student.

Senior Citizens
An individual who is 60 years-of-age or older is eligible for enrollment in any course unless the course has restricted admission, placement testing requirements, or prerequisites that have not been met. A decreased fee assessment is available to eligible senior citizens who delay registration in courses on a seat-available basis. Senior citizens interested in the decreased fee assessment are encouraged to discuss the process with a cashier’s office on any campus or center.

Collegiate High School Admission
The Collegiate High School program is housed in the Hobbs Center on the Pensacola Campus. The Collegiate High School is designed to provide a student an opportunity to earn the high school diploma. A student will be assessed $30 per semester regardless of the number of courses being taken. Any student enrolled in Collegiate High School courses will be responsible for purchasing his or her own textbooks.

Application Forms and Academic Credentials
All application forms and academic credentials should be on file well in advance of registration. A student with an incomplete admissions file may be granted provisional admission for the initial term of enrollment. Registration beyond the first term is dependent upon receipt of all required documents. Pensacola State College transcripts or other certifying information will not be released for or to those students with incomplete admissions files.

1. Application A new student must submit the completed application form. A former student who has not attended for 12 months or more must reapply to update his or her permanent record. The $30 application fee will not be assessed to a returning student.

2. Application Fee A new student will be assessed a $30 non-refundable application fee. A returning student will not be assessed the application fee. Each baccalaureate student will be assessed a $30 baccalaureate application fee regardless of prior enrollment at Pensacola State College.

3. Residence Statement An applicant claiming Florida residence for tuition purposes must file a written statement that he or she is entitled to classification as a Florida resident for tuition purposes. An applicant who does not meet the criteria for residence established by Florida law and an applicant who is a legal resident of another state must also complete the Residence Statement. See Residency Classification.

4. Educational Records (Transcripts) A freshman student must have official transcripts showing high school graduation sent to the Registrar’s Office. A freshman student who has earned the GED diploma must have an official GED score report sent to the Registrar’s Office. The parent or legal guardian of a freshman student who has completed a home education program must submit an affidavit verifying completion of a home education program meeting State of Florida requirements for the standard diploma.

Transfer students must have official transcripts as indicated above as well as official transcripts from each college or university attended.

Baccalaureate students must have official transcripts as indicated above (high school and college). Admission into the baccalaureate program will not be granted until all transcripts are on file and evaluated for transfer credit.

Limited access program applicants are expected to have all educational records on file well in advance of any application deadline for the program of choice.

Non-degree seeking students will be admitted without the requirement for transcripts. Enrollment in courses with placement testing requirements or pre-requisites may require a transcript to document eligibility.

Transient students may not be required to have official transcripts sent to the College. However, a Transient Student Authorization Form or some other written verification of enrollment approval is required each term of registration. Transient students from Florida state colleges and universities are
Residency Classification

For purposes of tuition assessment, each Pensacola State College student will be classified as a Florida resident, an Alabama resident, or a non-Florida resident. The criteria for determining the residency status are detailed in the Florida Statutes and the administrative rules of the State Board of Education. Detailed information for residence classification is available in the Registrar’s Office and at www.flvc.org. The Florida Resident Statement, included in the Application for Admission, is required of every new student and any returning student with an absence of twelve months or more.

A Florida resident for tuition purposes is a person (or the parent or legal guardian of a person) who has established and maintained legal residence in Florida for the 12 months immediately preceding the first day of classes of the semester for which residence classification is requested. Residence in Florida must be for the purpose of establishing a permanent home and not merely incidental to enrollment at an institution of higher education.

To qualify as a Florida resident for tuition purposes, the independent student or the parent or legal guardian of a dependent student must be a United States citizen, lawful permanent resident, or certain non-citizens granted indefinite stay by the United States Citizenship and Immigration Service. Living in or attending school in Florida does not, in and of itself, establish legal residence. A student who depends on out-of-state parents for support is presumed to be a legal resident of the same state as his or her parents unless one parent has established legal residence in Florida for more than 12 months. Documents supporting the establishment of legal residence must be dated, issued, or filed 12 months before the first day of classes for the term for which Florida residency status is sought. A student cannot hold an out-of-state driver’s license, vehicle registration, etc., and be eligible for Florida residency.

Providing false residency information is a violation of Florida Law and could result in disciplinary action being initiated. The College will correct the fees assessed of any student who misrepresents his or her places of legal residence. An invoice will be issued for the increase in tuition.

Dependent/Independent

A dependent student is any person under the age of twenty-four who is eligible to be claimed by his or her parent or legal guardian as a dependent under the federal income tax code and who receives at least 51% of his or her cost of living expenses from his or her parent or legal guardian. A student classified as a dependent student will be required to have his or her parents or legal guardians complete the Residence Statement. A copy of the student’s or parent’s most recent tax return or other documentation may be required to establish dependent or independent status.

A student under the age of twenty-four may be classified as an independent student if certain criteria as indicated below are met and documentation for the exception is attached to the Residence Statement:

1. The student is married.
2. The student has a child who receives more than half of his or her support from the student.
3. The student has other dependents who live with and receive more than half of their support from the student.
4. The student is currently serving on active duty in the United States armed forces for purposes other than training or is a veteran of the United States armed forces.

5. Both of the student’s parents are deceased or the student is/was a ward/dependent of the court system until the age of eighteen.

Exceptions/Qualifications

Other persons not meeting the twelve month legal residence requirement may be classified as Florida residents for tuition purposes only if they meet the requirements of a limited special category authorized by the Florida Legislature in FS 1009.21 (11). These exceptions are listed below:

1. Active duty service members of the United States armed forces stationed in or residing in Florida (spouse and dependent children included);
2. Active duty service members of the United States armed forces not stationed in Florida but whose legal state of residence certificate, the DD214, is Florida (spouse and dependent children included);
3. Full-time instructional and administrative personnel employed by the Florida public school system, Florida college system, or Florida university system (spouse and dependent children included);
4. A dependent child who has lived with an adult relative, who is not a parent or legal guardian, for at least the four years preceding the first day of class for the term of enrollment;
5. Persons who were enrolled as Florida residents at a state institution of higher learning but who abandon Florida residency for less than one year Latin American/Caribbean Scholars;
6. United States citizens living on the Isthmus of Panama who have completed 12 consecutive months of college-level course work at the Florida State University Panama Canal Branch (spouse and dependent children included);
7. Full-time employees of state-agencies or political subdivisions of the State when the student fees are paid by the agency or subdivision for the purposes of job-related law enforcement or corrections training;
8. Qualified beneficiaries under the Florida Pre-Paid Postsecondary Expense Program as provided in Florida Statute; and
9. A dependent child whose parents are divorced, separated, or otherwise living apart, will be considered a resident for tuition purposes if either parent is a legal resident of Florida, regardless of which parent claims the minor for tax purposes.

The law allows non-citizens such as lawful permanent residents, temporary permanent residents, asylees, parolees, and refugees who have applied for and been approved for such status and who otherwise meet the twelve month legal residence requirements, to be eligible to establish Florida residency for tuition purposes. For a list of these non-immigrant categories (visa categories and INS classifications) eligible to establish Florida residence for tuition purposes, contact the Registrar’s Office or visit www.flvc.org (click Admissions then Residency Guidelines).

Documents Required for Classification as a Resident for Tuition Purposes

Listed below are the documents established by the state as items required for classification as a resident for tuition purposes. A student, or the dependent student’s parent or legal guardian, must be able to present two of these documents, and one of the documents must be a Tier One document. All documents submitted must be dated, issued, or filed at least twelve months prior to the first day of classes for the term of enrollment.

Tier One Documents (at least one of the two documents submitted must be from this list)

1. A Florida driver’s license;
2. A State of Florida ID card;
3. A Florida voter’s registration card;
4. A Florida vehicle registration;
5. Proof of a permanent home in Florida which is occupied as a primary residence by the applicant or by the applicant’s parent if the applicant is a dependent;
6. Proof of homestead exemption in Florida;
7. Transcripts from a Florida high school for three or more years provided the Florida high school diploma or GED diploma was earned within the last 12 months; or
8. Proof of permanent full-time employment in Florida for at least thirty hours per week for a consecutive 12-month period.

Tier Two Documents (may be used in conjunction with one document from Tier One; if the student or the dependent student’s parent provides two Tier One documents, no Tier Two document is required.)
1. A Declaration of Domicile filed in Florida (at least twelve months prior to the first day of classes for the term);
2. A Florida professional or occupational license;
3. Florida incorporation;
4. A document evidencing family ties in Florida;
5. Proof of membership in a Florida-based charitable or professional organization; or
6. Any other document that supports the student’s request for resident status, including, but not limited to, utility bills (in the student’s name or the dependent student’s parent’s name) along with proof of twelve consecutive months of payments; a lease agreement (in the student’s name or the dependent student’s parents name) along with proof of twelve consecutive months of payments; or an official state, federal or court document evidencing legal ties to Florida.

Reclassification of Residence
A student classified as non-resident for tuition purposes may request reclassification as a resident at any time if he or she has met the criteria for residence classification. Reclassification will be granted to the student who presents clear and convincing evidence that living in Florida is for the purpose of establishing a legal residence, maintaining Florida as the permanent home, and that attendance at the College is not the primary purpose for living in the State of Florida. The clear and convincing evidence must include three documents from the listing above, two of which must be Tier One documents.

A student who becomes eligible for residence classification during a semester will be eligible for classification with the next semester of enrollment. At no time will a student be permitted to be classified as a non-resident for one session within a semester and a resident for another session within the same semester. A student who is married to an individual who meets Florida residency criteria and who has obtained a Tier One document may reclassify from non-Florida to Florida even if the 12-month residency requirement has not been met. The spouse must complete a Residency Statement, provide the Tier One and Tier Two documents, as well as a copy of the marriage license.

Residency Appeals
In cases where the applicant expresses a desire to appeal the residency classification determined by the College, the matter will be referred to the Residency Appeals Committee in accordance with the College’s official appeals process. The student must submit a request for review and include clear and convincing evidence that he or she is entitled to classification or reclassification as a Florida resident for tuition purposes. The Residency Appeals Committee will provide the final residency determination and the reasons for the determination in writing.

Alabama Tuition Differential
The Florida Legislature allows state colleges to assess Alabama residents a tuition differential that results in an assessment of tuition that is less than the out-of-state tuition. Pensacola State College provides Alabama residents, meeting the criteria of physical residence and establishment of two legal ties to the State of Alabama, a fee that is equivalent to the in-state tuition plus an additional $10.00 (at the time of this catalog printing) per credit hour or credit hour equivalent.

To be eligible for the Alabama Tuition Differential, the Alabama resident must have maintained legal residence in the State of Alabama for the twelve months immediately preceding the first day of classes in the term for which the differential tuition assessment is requested.

The residence status of a dependent student is considered to be that of the parent or legal guardian of the student. A dependent student is any person who is eligible to be claimed by another person for Internal Revenue purposes. If the student requesting the Alabama Tuition Differential is under the age of twenty-four, Pensacola State College will assume that the student is a dependent, and the parent/legal guardian must request the Alabama Tuition Differential for the dependent.

Prospective students interested in the assessment of the Alabama Tuition Differential may submit the request for classification as an Alabama Resident in a registration office on any campus. Listed below are the documents required for the Alabama Tuition Differential. An Alabama student, or the dependent student’s parent or legal guardian, must be able to present two of these documents, and one of the documents must be a Tier One document. All documents must be dated, issued, or filed at least twelve months prior to the first day of classes for the term of enrollment.

Tier One Documents (at least one of the two documents submitted must be from this list)
1. An Alabama driver’s license;
2. A State of Alabama ID card;
3. An Alabama voter’s registration card with proof of voter registration date;
4. An Alabama vehicle registration;
5. Proof of a permanent home in Alabama which is occupied as a primary residence by the applicant or by the applicant’s parent if the applicant is a dependent;
6. Proof of homestead exemption in Alabama;
7. Transcripts from an Alabama high school for three or more years provided the Alabama high school diploma or GED diploma was earned within the last twelve months; or
8. Proof of permanent full-time employment in Alabama for at least thirty hours per week for a consecutive twelve month period.

Tier Two Documents (may be used in conjunction with one document from Tier One; if the student or the dependent student’s parent provides two Tier One documents, no Tier Two document is required)
1. A Declaration of Domicile filed in Alabama (at least twelve months prior to the first day of classes for the term);
2. An Alabama professional or occupational license;
3. Alabama incorporation;
4. A document evidencing family ties in Alabama;
5. Proof of membership in an Alabama-based charitable or professional organization; or
6. Any other document that supports the student’s request for resident status, including, but not limited to, utility bills (in the student’s name or the dependent student’s parent’s name) along with proof of twelve consecutive months of payments; a lease agreement (in the student’s name or the dependent student’s parents name) along with proof of 12 consecutive months of payments; or an official state, federal or court document evidencing legal ties to Alabama.

Servicemember Opportunity College (SOC)

Pensacola State College is designated both a Military Friendly College and a Servicemember Opportunity College (SOC) institution. Pensacola State College, through SOC, extends to United States service members (and their dependents) an opportunity to contract with the College to earn degrees. A student who has earned a minimum of 25% of the credits towards his or her program at Pensacola State College is allowed ten years to complete program requirements for graduation. The remaining credits may be earned through successful completion of regular college courses at regionally accredited institutions who are also SOC schools. Information regarding Servicemembers Opportunity College may be obtained at www.soc.aascu.org. Contact the military liaison at 850-484-2270.

Reserve Officer Training CORP (ROTC)

Pensacola State College, in cooperation with the University of West Florida, offers the Army ROTC program. Army ROTC is a challenging series of college electives that include instruction on leadership and management skills. The program prepares both men and women for responsibilities as Second Lieutenants in the active Army, Army Reserve, or Army National Guard upon graduation. A student may pursue any course of study that leads to a baccalaureate or higher degree. A qualified student may compete for two-, three-, and four-year ROTC scholarships. A student does not have to be on scholarship to be in ROTC. Anyone attending college as a full-time student can take freshmen or sophomore ROTC classes with no commitment required. For further information please contact the ROTC office at the University of West Florida by telephoning (850) 474-2323. ROTC contains adventure activities such as paintball, helicopter rides, water survival, and rappelling. Physical fitness activities are required and are incorporated into the grade structure.

Change of Policy and Denial of Admission

The College reserves the right to deny admission to any applicant and to change any of the rules, courses, regulations, and charges without notice. The admission of any student may be postponed or denied if the student has been convicted of, or is under investigation for, violation of local, state, or federal statute. Falsification of information on any admission paper may result in denial of admission or immediate dismissal from the College.

REGISTRATION AND CREDITS

General Registration Information

Registration is required before a student can attend classes. Registration will be held several times during the year, and registration dates and times will be posted to the College’s web site at www.pensacolastate.edu.

A new degree-seeking student must meet placement testing requirements or declare eligibility for the exemption prior to registration (refer to Testing and Assessment section; Placement Testing and Developmental Studies). See the Entry-level Testing section of this Catalog. Orientation will be scheduled after testing or can be scheduled through an advising office on any campus. Orientation is also available online, and information regarding the online orientation process may be obtained in an advising office on any campus or center.

A student must be officially registered, including payment of fees, before attending any class.

Web Registration

Online registration through Spyglass at www.pensacolastate.edu is available to all students provided admission has been finalized and no obligations to the College exist.

Campus Registration

A student may register in person at any registration office or through an advisor or program manager. Registration dates and times will be posted on the College’s web site at www.pensacolastate.edu.

Late Registration

Late registration begins on the first day of classes, and a student will be assessed a $25 late registration fee.

Withdrawal or Change to Non-Credit

A student may choose to withdraw from a class or request a change to non-credit through the 70th percent point of the class. The last date to withdraw from a class will be published in the academic calendar in this Catalog and on the Pensacola State College web site. Financial aid recipients should discuss their intended withdrawals with a representative in the Financial Aid Office. Veteran benefit students should discuss their intended withdrawals with a member of the Veteran Services Office.

A student must process an official withdrawal from any class and should not expect the instructor to process a withdrawal for them. A student is encouraged to discuss any withdrawal with the instructor prior to withdrawing. Ceasing attendance does not guarantee a withdrawal. A student can be assured of receiving a grade of W only when the official withdrawal is processed. A withdrawal cannot be processed through Spyglass; a student must begin the official withdrawal process with an advisor on any campus or center. A student unable to visit an advisor for the official withdrawal process should send a Pirate Mail to their advisor of choice or the College Registrar.

After the 70th percent point of the course, a student may not withdraw from a class and an instructor cannot withdraw a student from a class. A grade of F (or N for college preparatory/developmental courses) will be assigned.

The College may withdraw a student for excessive absences, failure to pay fees, failure to meet conditions of admission, or for violations of the Pensacola State College Code of Conduct. A student who has been withdrawn for excessive absences may discuss reinstatement with the instructor. A student who has been withdrawn for non-payment of fees may seek reinstatement after satisfying the financial obligation.

A student is permitted two attempts of any course. A student will not be permitted to withdraw from the third attempt of a course and will receive a grade for the course. If a student in a third attempt stops attending, the instructor must assign an F.

No-Show Withdrawal

A student who does not attend class during the first week will be withdrawn, and a grade of W will appear on the student’s record. See the No-Show Procedure for First Week of Classes in the Attendance Policy (p. 57) section of this Catalog.

Early F Grade

A student will be assigned an Early F grade if he or she stops attending a class after the withdrawal deadline, stops attending a class in which the instructor does not process withdrawals, or stops attending a course being attempted for the third time.

Audit and Non-Credit Status

The fees paid to audit a course or to take a course for no credit are the same as to take the course for a grade.
Audit
A student may register in a class on an audit basis by completing the appropriate audit form in a registration office. A student may change to the audit status no later than the last day of the schedule adjustment period. A change from audit to credit is not permitted after the end of the schedule adjustment period. College preparatory or developmental courses cannot be audited.
Class examinations are not required for lecture-based courses; however, laboratory and clinical courses may require successful completion examinations. Regular class attendance is encouraged. A student auditing a class will not receive a letter grade (A through F). A mark of X will appear on the student’s transcript indicating that the course was taken for audit. Audit courses will not affect the grade point average. Courses taken on an audit basis will not be counted when determining eligibility for veteran benefits, financial aid, or certification of enrollment to outside agencies.

Non-Credit
A student may change to a non-credit status after the registration period but prior to the last date to withdraw (the 70th percent point of the course). A change from non-credit to credit is not permitted. Tests or examinations are not required for the non-credit student; however, regular attendance is encouraged. Courses taken for non-credit are not included in the calculation of the grade point average but are included in determination of academic progress. In determining academic standing, a course taken for non-credit is considered to be an attempted course that has not been completed. Courses taken for non-credit will not be counted when determining eligibility for veteran benefits, financial aid, or certification of enrollment to outside agencies.

Pass/Fail Option
A student may choose to enroll in a course using the Pass/Fail Option. Students passing the course will receive a grade of P and will earn credit for the course with no effect on the grade point average. Students not passing the course will receive a grade of F, and the F grade will be calculated for GPA purposes. In both cases, the grade and credits for courses taken by the Pass/Fail Option will be used in determining academic standing. See Standards of Academic Progress (p. 55).
The Pass/Fail option is not available for courses classified as general education even if the course is not being taken to meet general education requirements. Some program core courses cannot be taken using the Pass/Fail option.
A transient student should consult an advisor at his/her primary institution before electing the Pass/Fail Option in a course to be transferred to that institution.
The Pass/Fail option is not available for students enrolling in baccalaureate courses.
A student wishing to take a course using the Pass/Fail Option must declare their intent before the end of the schedule adjustment period by completing the appropriate form at any registration office. Students may not change from the Pass/Fail Option to a grade-seeking status after the end of the schedule adjustment period. The normal rules for repeating courses will apply to courses completed by the Pass/Fail Option. Students earning a P in a course may not repeat the course for a letter grade.
A student enrolled in associate degree or certificate programs may choose to take up to three elective credits by the Pass/Fail Option. These credits will be exclusive of any transfer credits or external credits. Students may choose to take additional courses using the Pass/Fail option, but any credits beyond the three credit maximum may not be used to meet graduation requirements.

NON-TRADITIONAL CREDIT
(EXTERNAL CREDIT)
A student enrolled in an associate degree or certificate program may request to take up to three elective credits by the Pass/Fail Option. These credits will be exclusive of any transfer credits or external credits. A student may choose to take additional courses using the Pass/Fail option, but any credits beyond the three credit maximum may not be used to meet graduation requirements.
A student may use credits earned through non-traditional learning experiences toward most degree programs offered by the College. The maximum number of non-traditional credits that may be counted toward graduation depends upon the particular program of study and the type of non-traditional credit. In all cases, no more than 15 credit hours earned through non-traditional means may be counted toward the general education requirements of the Associate in Arts degree. In all cases, no more than nine credit hours earned through non-traditional means may be counted toward the general education requirements of the Associate in Science degree.
Non-traditional credit earned will not appear on an official Pensacola State College transcript until a minimum of 15 credit hours of Pensacola State College course work has been earned. A student receiving financial aid should consult with a representative in the Financial Aid Office regarding non-traditional credit as it pertains to eligibility for financial assistance. A student receiving veteran benefits should consult with a representative of the Veteran Services Office regarding non-traditional credit as it pertains to benefit eligibility. Credit hours earned through non-traditional means will not be posted to the record with a letter grade. No quality points are attached to the course and the credits neither improve nor decrease the cumulative grade point average.

Departmental Exemption Exams
A student may challenge the content of certain courses and earn credit upon the successful completion of a departmental proficiency examination. A student must follow the procedure below.
1. Obtain approval from the appropriate Department Head, the College Registrar, or a designee, and pay the predetermined exemption examination fee at any cashier’s office. Registration in the course is not required. The exam fee is non-refundable. A student who is not registered in the course may take the departmental exemption exam at any time.
2. Obtain approval from the appropriate Department Head and the College Registrar, and pay the exam fee if a student registers for the course. The examination must be taken no later than the end of the third week of a class for a fall or spring semester and no later than the second week of class for a summer semester. If a student passes the examination, registration in the course will be cancelled, and the student will receive a refund of fees paid for the course. The exam fee is non-refundable.
3. The student must be currently enrolled in a credit course at the College other than the one being challenged or must have completed prior credit coursework at Pensacola State College.
4. The student must not have taken the exemption examination for the course at any previous time.
5. The student must not have earned a grade in the course through work at Pensacola State College or through transfer credit. A student may not use the exemption examination option to raise a grade of D or F.

Military Credit
Active duty service members and retired military personnel may request a review of military experiences for possible credit. An official copy of military service school training should be submitted to the Registrar’s Office for possible credit. Credits for military
experiences will be granted according to the recommendations of the American Council on Education (ACE) as published in the latest editions of The Guide to the Evaluation of Education in the Armed Services. Information regarding points of contact are provided in the table below.

Advanced Placement (AP)
Credit is awarded to a student who has earned a score of 3 or higher on a high school AP exam after completion of an AP course. The State Department of Education determines credit awarded. Official score reports are to be sent to the Records Office directly from College Board.

College Level Examination Program (CLEP)
CLEP exams are administered to anyone who wishes to document knowledge in a specific subject area. Those who wish to register for CLEP exams should contact the Pensacola Campus Test Center for dates and costs. The State Department of Education determines credit awarded. Official score reports are to be sent to the Records Office.

International Baccalaureate (IB)
Credit is awarded to a student who has completed courses in an International Baccalaureate (IB) program in high school. The State Department of Education determines credit. Official copies of the score report should be sent directly to the Records Office from the high school at which the student completed or attended the IB program.

Defense Activity for Non-Traditional Education Support (DANTES)
DANTES exams are administered to military personnel to document educational achievement. Test results must be sent directly to the College from DANTES. The State Department of Education determines credit awarded.

Prior Learning Assessment (PLA)
A student may earn credit for knowledge and skills gained outside the traditional classroom. On-the-job training, travel experiences, self-study, apprenticeship, and other similar life experiences may be translated into equivalent college or vocational credit. Only training and experiences in areas corresponding credit directly to Pensacola State College coursework will qualify for PLA credit; PLA credit will not be awarded for skills and experiences in areas not taught currently at the College. PLA credits awarded will be based on a portfolio review and will appear on the official Pensacola State College transcript in the same manner as other external credits. In all cases, no more than 25% of the student’s degree may be earned through PLA credits. Additional restrictions may apply to certain programs and courses. Questions and concerns regarding the Prior Learning Assessment process should be directed to the Office of the Vice President, Academic Affairs at 850-484-1706.

STUDENT RECORDS AND TRANSCRIPTS

Records
The Records Office is a single office at Pensacola State College and is located on the Pensacola Campus. All permanent, official, and final records of students are housed in and released by this office. Student records are maintained in a fire-protected vault and in electronic computer files. Information is released only upon the written request of the student in accordance with federal laws. Additional details on student records, the procedures for accessing records, appealing record contents, and receiving restricted records, and other rights of the Family Educational Rights and Privacy Act of 1974 are available from the College Registrar.

Transcripts
A transcript of a student’s academic record is kept in electronic files, filed in a permanent record folder, or housed on an archival record medium in the Records Office. Transcripts and other student record information will not be released if a student has an outstanding obligation to the College (incomplete admissions file or financial obligation). Under most circumstances, a student may obtain a copy of his/her transcript on the next business day after submitting the request. All transcripts issued to students will be stamped “issued to student.” Transcripts may be requested through a student’s SPYGLASS record at www.pensacolastate.edu. Transcripts may be requested in writing at a registration office or by mail/FAX. The written request must be accompanied by photo identification.

Enrollment Certification
Go to www.pensacolastate.edu. Click on the Spyglass icon on the landing page. Choose Enrollment Verification from the available menu buttons. Complete the online form and print the document you need from your own computer. The certification request may be used to provide information to outside agencies to verify your enrollment status, your anticipated graduation, your grade point average, and other items from your education record. The outside agencies normally requiring this type of information include potential employers, the Social Security Administration, automobile and health insurance companies, branches of the military for identification card purposes, etc.

If you need any information that is not provided through the online form, please visit a Records Office or Student Services Office on any campus or center.

Release of Student Information
The disclosure of student information is governed by the policies of the Pensacola State College Board of Trustees and the Florida Department of Education within the parameters established by state and federal laws, including the Family Educational Rights and Privacy Act of 1974 (FERPA). The written consent of the student is required for the disclosure or publication of any information that is personally identifiable of the student and part of the educational record. Certain exceptions, both in types of information that can be disclosed and in access to that information, are allowed by FERPA.

Subject to statutory conditions and limitations, prior consent of the student is not required for disclosure of information in the educational record to or for the following:
1. Officials of the College with a legitimate educational interest
2. State and Federal departments of education (DOE) as required for reporting and tracking of students;
3. Certain government agencies;
3. Accrediting organizations;
4. Certain financial aid matters;
5. Certain research circumstances;
6. Health and safety emergencies;
7. Pursuant to order or subpoena provided the student is notified in advance of the College's compliance with the order or subpoena; and
8. Any situation required by law.

Parents' Rights to Student Information
When a dependent student enters a post-secondary institution, the privacy/confidentiality rights transfer from the parent to the student. The Family Educational Rights and Privacy Act (FERPA) permits the release of information, other than Directory Information, to parents and legal guardians of dependent students. Pensacola State College will release information to an eligible parent or legal guardian in accordance with the specifications in FERPA and under the following circumstances:

The student is a dependent according to the Federal Internal Revenue Code.
The parent or legal guardian signs an affidavit, under penalty of perjury, indicating his/her status as the parent or legal guardian of a student who is eligible to be claimed as a dependent for IRS purposes. The affidavit may be obtained in any registration office and must be notarized.
The notarized statement described above will be filed in the student's permanent record, a copy will be provided to the parent, and the affidavit will remain effective for the tax year in which it was submitted.

In situations where the parent or legal guardian is asking for specific information known only by the instructor of a class in which the student is enrolled, the parent or legal guardian will complete the affidavit and will be provided a copy of the affidavit to present to the instructor for a scheduled conference. FERPA prohibits discussion by telephone or through email with anyone other than the student.

Pensacola State College may request documentation to substantiate the claim to eligibility for the confidential student information.

Directory Information
Prior consent of the student is not required for disclosure of portions of the educational record defined by the College as Directory Information. Pensacola State College includes the following as Directory Information:
1. Whether or not the student is currently enrolled;
2. Dates of registered attendance;
3. Degree(s) earned, date, major or field of concentration, and honors received;
4. Participation in officially recognized activities and sports; and
5. Weight and height of members of athletic teams.

Directory Information may be released by or published by the College without prior written consent of the student unless the student submits a formal request to withhold the release of Directory Information.

Solomon Amendment (Information Provided to Military Recruiters)
If “student recruiting information” is requested by any branch of the armed services, the Solomon Amendment to the Family Education Rights and Privacy Act (FERPA) requires institutions to provide the information on currently enrolled students who are at least seventeen years of age. The information may be requested by any branch of the armed services no more than once per semester.

“Student recruiting information” is defined by federal law as student name, address, telephone number(s), age or date of birth, birth place, class level, degrees received, major, and most recent educational institution attended. Students who do not wish recruiting information to be released to military recruiters may file the Request for Confidential Status of Directory Information (see below).

Request for Confidential Status of Directory Information
A student may request that no information, including Directory Information, be released except as required by law. The student must complete the Request for Confidential Status of Directory Information form available in any Admissions and Information or Student Services Office. A student's request to prevent the release of any information will result in preventing the publication of all items including graduation, honors, and awards. Further, queries to the College by prospective employers regarding dates of enrollment and graduation information will not be answered.

Students are encouraged to contact the Records Office with any concerns about confidentiality of records and release of information. The Request for Confidential Status of Directory Information will not prevent the release of information to an eligible parent or legal guardian, and subpoenas will be honored regardless of the request for confidential status.
FINANCIAL AID INFORMATION AND FEES

Cashier's Office
The Cashier's Office is responsible for all student accounting and collections. The Cashier's Office is located on each of the three campuses and provides the following services:

1. Collection of student registration fees;
2. Collection of special fees;
3. Billing and collection of accounts receivable;
4. Billing and collection of loans receivable;
5. Cashing of student checks up to $10 with a valid student ID and the student ID number included on the check; and
6. Distribution of student payroll checks. The student must present a valid student ID.

Distribution of student financial aid must be approved for release by the Financial Aid Office. Financial aid funds are disbursed through Higher One. No financial aid disbursements will be made which are less than $1.

Payment of Fees
Financial obligations for delinquent loans, veteran’s deferments, Direct Loan deferments, returned checks, and student financial aid over awards must be repaid before students can register.

All fees on a class schedule must be paid in full by the due date or enrollment in every course on the schedule will be canceled. Payment may be made by cash, check, American Express, Discover, VISA, MasterCard, or approved financial aid. If a change in the student’s enrollment status results in loss of anticipated financial aid, the obligation for payment of fees remains the student’s responsibility.

This fee will be assessed to those students initiating registration for developmental level courses, vocational preparatory, college credit, or vocational credit courses following the close of the regular registration period.

Parking decal                          No student cost
Prior learning assessment               $40.00
Service members Opportunity College     No student cost
Lab fees                                as applicable

Refunds
1. Refunds result from classes dropped by the student prior to the end of the published schedule adjustment period (drop and add period) and for classes which are canceled by the College. A FULL REFUND OF FEES PAID WILL BE GIVEN IF PROPER PROCEDURES FOR DROPPING A CLASS ARE FOLLOWED. Please visit this link for drop with refund procedures. www.pensacolastate.edu/students/studentforms.asp
2. A drop is different from a withdrawal. A drop will result in the elimination of the dropped class(es) from the student’s permanent record (transcript). A dropped class does not affect the student’s academic standing. A withdrawal will result in a letter grade of “W” in each class from which the student withdraws or is withdrawn. Withdrawals are included in the calculation of a student’s academic standing.
3. The current Pensacola State College Course Schedule Booklet contains information regarding policies and procedures related to refunds for non-credit classes offered through the Center for Corporate and Professional Development Training which can be found online at www.pensacolastate.edu/continuingeducation.
4. Refunds are processed to Higher One within two weeks after the end of the published schedule adjustment period each term. Refunds of $5 or less will not be processed unless specifically requested by the student.
5. Exceptions to this refund policy may be authorized by the President or his designee when extenuating circumstances support an exception to the refund policy.

Delinquent Financial Obligations/Returned Checks
Grades, transcripts, and other student records will not be released to those students who owe parking fines or library fines. Payments on library fines are collected at the LRC. Payments on parking fines are collected at the Cashier’s Office.

Students with delinquent financial obligations, including loans, veteran deferments, federal Direct Loan deferments, returned checks, and student financial aid over awards will not be allowed to register, to obtain transcripts, or other student records until all obligations have been satisfied. All costs and expenses, including reasonable attorney fees, incurred by the College in collecting the debt are the responsibility of the student.

Students who have defaulted on a Federal student loan are not eligible for further federal or state financial aid nor may their college transcripts be released until such time as the student makes documented satisfactory repayment arrangements.

It is a violation of Florida law to give a worthless check or to stop payment on a check given to satisfy a valid obligation. It is not acceptable for students to stop payment on a check in order to “drop” classes. Students must follow proper procedures to drop classes for a refund. Students who do not pay for checks returned as uncollectible will be administratively withdrawn from all classes; withdrawal does not relieve the student of responsibility for payment of the obligation. Students may apply for reinstatement after the obligation has been satisfied. Students who give uncollectible checks are subject to prosecution by the College to the fullest extent provided by law. All costs and expenses, including reasonable attorney fees, incurred by the College in collecting the debt are the responsibility of the student.

Cost of Books and Supplies
Textbooks, workbooks, and necessary school supplies may be purchased at the College bookstores or online. Cost of these items varies with the program of the student. Some programs require the
Financial Aid Information
Students and their families have the primary responsibility for financing their higher education. Students who need additional resources to pay the costs associated with their attendance at Pensacola State College should complete the Free Application for Federal Student Aid (FAFSA). Filing a FAFSA is the first step in determining student eligibility for federal, state, institutional aid and part-time work study employment. Pensacola State College’s school code required on the FAFSA is 001513.

Financial Need
Financial need is the basis for awarding federal and most state aid. Financial need is the difference between the Cost of Attendance (COA) and the Expected Family Contribution (EFC). The EFC is determined by the results of the processed Free Application for Federal Student Aid (FAFSA).

Cost of Attendance
The Cost of Attendance for nine months is an average budget calculated by the FA/VS/Scholarships Office. The following direct and indirect expenses, as permitted by federal regulations, are calculated by the FA/VS/Scholarships Office. The following direct and indirect expenses, as permitted by federal regulations, are calculated by the FA/VS/Scholarships Office.

1. Average tuition and fee charges for a full-time student based on the student’s educational objective (BAS/BSN/AA/AS or Certificate) and residency status;
2. Average required book, supply, and equipment expenses;
3. Average room and board based on whether or not the student lives with parent(s);
4. Average transportation expense to and from school; and
5. Reasonable miscellaneous personal expenses.

General Eligibility Requirements
All financial aid is dependent upon the availability of federal, state, local, and institutional resources. To be eligible for financial aid, a student must:

1. Be accepted as a Pensacola State College degree-seeking student taking required developmental level courses, required degree courses, and electives that are used toward their AA, AS, or baccalaureate degree program;
2. Be accepted as a Pensacola State College certificate-seeking student in an eligible Vocational program or eligible Vocational Clock Hour program;
3. Be making satisfactory academic progress for financial aid purposes (FASAP);
4. Be a U.S. citizen, permanent resident alien, or an eligible noncitizen;
5. Enroll at least half time (six credit hours) for most aid programs;
6. Not be in default on a prior student loan;
7. Not owe a repayment or overpayment of a federal grant;
8. Not have an existing financial obligation to Pensacola State College;
9. Be registered for Selective Service, if required;
10. Have a standard high school diploma from a valid high school or GED certificate;
11. If a college transfer student, an official transcript from each previously attended institution must be submitted to and evaluated by the Pensacola State College Records Office prior to the awarding of any federal or state aid; and

12. Not have been convicted of the sale or possession of illegal drugs during a semester in which they received Title IV financial aid.

Enrollment Requirements
Prior to registering for classes the student is responsible to go online to www.pensacolastate.edu, logon to their SpyGlass account, and view their Degree Audit. To be eligible to use federal or state aid for which they may otherwise be eligible, the student should register only in courses as indicated on the Degree Audit that count toward fulfilling the requirements for graduation in their declared program of study. When registering for courses, the student should consult the Catalog page for the program of study to see information regarding proper course sequencing. For Direct Loan eligibility the student must be registered at minimum six credits in courses required for their primary program of study. Students on an approved appeal (Financial Aid Probation) must follow the written conditions concerning their enrollment in order to be eligible for their reinstated federal aid. Federal and state financial aid may be awarded to students who meet these enrollment requirements.

Federal Aid Programs
Federal Pell Grant (PELL)
PELL Grants are available to undergraduate students only. Students with a bachelor’s degree are not eligible, with the exception of those enrolled in the Educator Preparation Institute (alternative teacher certification program) at this College. Each year Congress establishes the maximum Pell Grant award based on a student’s enrollment level and Expected Family Contribution (EFC). The following chart shows how PELL Grant awards are adjusted based on enrollment:

<table>
<thead>
<tr>
<th>Number of Credit Hours</th>
<th>Enrollment level</th>
<th>Percentage of Award</th>
</tr>
</thead>
<tbody>
<tr>
<td>6 to 8</td>
<td>Half-time</td>
<td>50%</td>
</tr>
<tr>
<td>9 to 11</td>
<td>Three-quarter-time</td>
<td>75%</td>
</tr>
<tr>
<td>12 or more</td>
<td>Full-time</td>
<td>100%</td>
</tr>
</tbody>
</table>

Some students may be eligible to receive a PELL grant for enrollment in less than six credit hours. Aid recipients receive tentative award letters after eligibility has been determined for a particular award year via SpyGlass.

Lifetime Eligibility Used—The amount of Federal Pell Grant funds a student may receive over their lifetime is limited by federal law. The limit is the equivalent of six years of Pell Grant funding. Since the maximum amount of Pell Grant funding students may receive each year is equal to 100%, a six-year equivalent is 600%, less than full time enrollment will result is a longer period of eligibility. There is no appeal of this federal limit. Current students and those who have previously attended college may view their personal Pell and loan information at www.nslds.ed.gov by using their Federal Student Aid ID (previously the Personal Identification Number PIN).

Federal Supplemental Educational Opportunity Grant (FSEOG)
FSEOG is a federal grant for undergraduates with exceptional financial need. Since these funds are limited. Only Pensacola State College Pell Grant recipients with zero EFC will be awarded FSEOG funds. The award amount will vary per academic year based on federal funding levels. Awards are available during the Fall and Spring semesters only. A minimum enrollment of half-time each semester is required for a student to receive a partial award.
Students who have exhausted all other resources may request a federal student loan. Direct Loans are limited to educational expenses and are either subsidized or unsubsidized. Additional student eligibility criteria apply. The student must accurately complete all required steps prior to the awarding of a loan. Students must submit the Free Application for Federal Student Aid online at www.fafsa.gov as their first step. Students, and their families, must review the information at the United States Department of Education (USDOE) website www.studentloans.gov, and in the Pensacola State College Guide to Federal Direct Loans on the Financial Aid page at www.pensacolastate.edu. Prior to submitting the loan request form to the Financial Aid/Veteran Services/Scholarships office for eligibility evaluation and processing, the student must complete Entrance Loan Counseling (ELC) and a Master Promissory note (MPN) which are both on the federal website listed previously. As a part of the college’s default prevention program a student must complete both of these steps prior to requesting a Direct Loan. Enrollment of half-time in required courses for the student’s primary program of study at the College is required.

Note: On a case by case basis, the school may refuse to certify a loan or certify a loan for an amount less than the student requests. All students including transfer students are required to have a cumulative completion rate of 67% and a grade point average based on the number of attempted credits in the Required Standards chart in this Catalog in order to apply for a Direct Loan. As part of default prevention, loan limits apply and are based on the level of earned credits in the student’s program of study at this college and total amount of funds previously borrowed. Transfer students with excessive student loan indebtedness may be reviewed on a case-by-case basis to determine Direct Loan potential eligibility. Demonstrated willingness to repay prior loans is also taken into consideration. Loans are funds that must be repaid.

Parent Plus Direct Loans
This is a loan program which enables credit worthy parents to borrow money for their dependent student’s educational costs directly associated with their student’s education at Pensacola State College. The dependent must be degree-seeking and enrolled at minimum half-time in courses required for their program of study. PLUS loans are limited in amount to the cost of attendance minus any other financial aid received by the student. The USDOE requires the student to complete the FAFSA and any required verification processes before the school may process a PLUS loan. Parents who are denied a Direct Loan after their credit has been checked by the USDOE, may appeal directly to the USDOE and/or may request to have credit worthy endorsers added to the loan.

Direct Loan Deferment of Tuition and Fees
Students planning to use Federal Direct Loans for payment of tuition and fees should register for classes and after receiving notification via their Piratemail account that their Direct Loan request has been processed, process an online Deferment of Fees via their SpyGlass logon at the college website. A deferment must be processed for each semester of enrollment. Without a Direct Loan deferment, no fees are automatically paid. Direct Loans cannot be used to cover books and supplies.

Alternative Payment Options
Pensacola State College Short Term Loans
In addition to Federal and State aid programs, Pensacola State College offers limited assistance from a Short-Term Loan Program to assist with registration fees. The student must be eighteen years of age, have at least a 2.0 cumulative GPA, maintain satisfactory progress, have no financial obligations to the College, not owe a repayment on a federal grant, and not have a defaulted federal student loan. The maximum amount of loan available is $700 and is limited to no more than 75% of the cost of tuition for each course. This program does not require a completed FAFSA to be filed.

Tuition Installment Plan
To help the student meet their educational expenses, Pensacola State College provides the Tuition Installment Plan (TIP) for college credit students. TIP allows the student to pay tuition in monthly payments. TIP is administered for Pensacola State College by FACTS Management Co., Lincoln, NE. A student may access the online application at www.pensacolastate.edu.

Private Education Loans
The College does not certify private education loans.

Work Study Programs
Federal Work Study (FWS)
FWS awards are made to eligible students who submit an online Work Study application and indicate on their FAFSA that they desire employment from this program. The Free Application for Federal Student Aid (FAFSA) must be filed by the student though they do not have to be eligible for the Pell grant. Awards are based on the date the financial aid file is completed and on positions available. The College Student Job Services Office assists students with online job applications and placement. For current information logon to the College website at www.pensacolastate.edu/services/jsa.asp. Eligible students are paid the current Florida minimum wage rate. Students are scheduled to work twenty hours (20) per week based on the average award. Students must enroll for a minimum of six (6) credits all of which must be required for their primary degree program. Students must maintain a 2.0 grade point average. Funds are limited and awards are made based on the date the student’s financial aid file is completed. Priority is given to returning FWS students who remain eligible.

Florida Work Experience Program (FWEP)
FWEP is a need-based State of Florida program providing Florida resident eligible students work experiences to complement and reinforce their education and career goals. Eligible students are paid the current Florida minimum wage rate. Students must submit a Work Study online application at www.pensacolastate.edu/services/jsa.asp Students selected are scheduled by Student Job Services to work twenty (20) hours per week based on the average award. The Free Application for Federal Student Aid (FAFSA) must be filed by the student though they do not have to be eligible for the Pell grant. Awards are based on the date the financial aid file is completed and on positions available. Students must enroll for a minimum of six (6) credits all of which must be required for their primary degree program. Eligible students must maintain a 2.0 grade point average. Renewal eligibility is determined at the end of the award year by the Florida State Office of Student Financial Assistance and the College. The State of Florida limits the allocation of FWEP funding for each college.

Florida State Aid Programs
Florida Student Assistance Grant (FSAG)
FSAG is a Florida State financial aid grant program awarded for full and spring semesters to a Florida resident student who is working on their first undergraduate degree, has remaining need, is enrolled in an AA, AS, BSN or BAS degree program, maintains satisfactory academic progress and meets other eligibility criteria as established by the State of Florida. Student awards are automatically made until the limited Florida State funds are depleted.
Florida Student Assistance Grant – Certificate Education (FSAG-CE)

FSAG-CE is a Florida State financial aid grant program awarded for fall and spring semesters to a Florida resident student who is working on their first work-force certificate, enrolled in a minimum of six credits in their program of study, has remaining need, maintains satisfactory academic progress, and meets other eligibility criteria as established by the State of Florida. Student awards are automatically made until the limited Florida State funds are depleted.

Florida First Generation Grant (FGMG)

FGMG is a need-based grant for fall and spring semesters for an undergraduate student whose parents have not earned baccalaureate degrees. Student awards are automatically made until the limited funds are depleted. A student must file a FAFSA, have remaining need, and meet other eligibility criteria determined by the State of Florida. A limited number of awards are made each year to Florida residents based on the allocation provided to the College. Preference is given to those renewing eligible students who make satisfactory academic progress towards completing their program of study at this College.

Florida Bright Futures (FBF)

To access a Florida Bright Futures award, a student must submit an online Florida Financial Aid Application after December 1st of their senior year and prior to high school graduation or forfeit all future eligibility. A mid-year graduate may submit a fully completed application and, if selected, will receive a Florida Bright Futures award starting in the fall following their year of graduation. The Florida Office of Student Financial Aid (OSFA) will process the application, online at http://www.floridastudentfinancialaid.org.

The Pensacola State College FA/VS/Scholarships office automatically awards this merit aid each semester to eligible students enrolled at this college and identified by the Florida Office of Student Financial Assistance. It is the student’s responsibility to select the College at which they wish to receive their award. Bright Futures scholarship awards do not pay 100% of tuition and related expenses at any college. The award amount per credit hour is determined annually by the Florida Legislature and is published on the State website. The Florida Office of Student Financial Assistance (OSFA) notifies the student of the per credit hour amount in an email message to the address the student provides on their application.

A student who withdraws or is withdrawn from courses after the end of schedule adjustment will be billed by the College for those hours and will be unable to register for any future term until their debt to the College is paid. All costs of collection including reasonable attorney fees will be the responsibility of the student.

Renewal and reinstatement details and changes are listed on the Bright Futures Web site at http://www.floridastudentfinancialaid.org.

Financial Aid Application Process

Students begin the financial aid process by applying for admission to Pensacola State College, declaring a major or program of study and, when necessary, completing placement testing, orientation, and academic advising. Students must submit all official final transcripts directly to the Pensacola State College Admission/Records Office for review and evaluation by that department. All transcripts include the final high school and/or official GED scores, plus all prior college and technical school transcripts. No aid can be processed or awarded prior to receipt and evaluation of all transcripts.

Transcript evaluation will assist students to determine all necessary courses needed to complete their program of study at Pensacola State College. Federal financial aid is awarded to students for the credits required to complete their degree or certificate.

Students must complete the Free Application for Federal Student Aid (FAFSA) each year. The FAFSA is available online on the State website.

FAFSA online processing allows the student/parent to use the IRS retrieval process to ensure accuracy of data. Changes to the IRS data will result in the student being selected by the federal processor for school verification. In some cases; however, it is inappropriate for the student and their family to use this process. Contact the FA/VS/Scholarships office for assistance if you are unsure as to whether or not you or your family can successfully complete the FAFSA using the IRS Retrieval tool. The initial letter the student receives from the federal processor of the FAFSA, the Student Aid Report (SAR), is a confirmation that the student submitted their FAFSA, not an award of funds. The listed aid in the letter is general information concerning all potential federal aid and federal loans available through the FAFSA process. The student’s actual eligibility for aid is not determined until their enrollment, program of study, and academic progress are evaluated by the College. In some cases the federal processor selects a student’s data for verification by the College and additional documents and forms are then requested of the student and, as needed, from their parents. Only students whose FAFSA information has been determined to be accurate will be awarded federal and state aid.

Title IV Federal Student Aid Repayment Policy Effective Fall 2000

This policy affects ALL students who receive Title IV Student Aid including:

1. Federal PELL Grants;
2. Federal Supplemental Educational Opportunity Grants (FSEOG); and

Federal Law states that federal student aid is to be awarded under the assumption students will attend school for the entire term (payment period).

Students who withdraw from all courses prior to completing more than 60% of the payment period or stop attending must have their aid eligibility recalculated based on the percent of the payment period completed. This recalculation may result in the student having to repay the federal government a percentage of the federal aid received. Students who withdraw from all courses and have future starting courses within the same term (payment period) for which they have not yet had the opportunity to begin attendance must affirm in writing to the College that they plan on beginning attendance in later starting course(s) within fourteen days of stopping all current attendance.

Pensacola State College is required to share with the student in this repayment responsibility for the courses that the student began attending. The student will have to repay Pensacola State College the debt resulting from the student’s failure to earn the aid awarded by the due date. Unpaid debts will result in an overpayment of aid being reported to USDOE. Until both the debt to the College and the debt to the USDOE are repaid by the student no College transcript will be released, no additional enrollment will be processed, and no institutional, federal or state aid may be awarded or disbursed to the student.
Students must pay the debt in full prior to future enrollment at Pensacola State College. Students will also lose their federal aid eligibility until they either repay the portion owed to the federal government or make repayment arrangements with the USDOE. All costs of collection including reasonable attorney fees will be the responsibility of the student.

It’s the law, there are no appeals.
If you have questions concerning this federal law, contact the Financial Aid/Veteran Services/Scholarships Office.

Federal Aid Satisfactory Academic Progress Policy and Required Standards

College Credit Hour Programs (BAS, BSN, AA, AS, PSV Certificates)

FASAP Definition
Federal Regulation 34 CFR 668.34 requires Pensacola State College to establish and apply reasonable standards of Satisfactory Academic Progress for the purpose of administration of financial assistance under the programs authorized by Title IV of the Higher Education Act. The programs subject to this rule include, but are not limited to Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work Study, Federal Direct Loans and some Florida State and Institutional aid. In order to receive this financial assistance a student must be maintaining Financial Aid Satisfactory Academic Progress (FASAP). Failure to meet the requirements listed below will result in the suspension of financial aid eligibility. This policy is separate and independent from the Academic SAP policy at this College.

FASAP is evaluated at the end of each semester, beginning with the first attempted credit at this College. Students must meet ALL of the following minimum standards:

1. This College uses the student’s grade point average (GPA) to measure qualitative progress. Remedial/Developmental Education hours are included in this measure. A student must maintain a grade point average dependent upon the total number of hours attempted as indicated below:

<table>
<thead>
<tr>
<th>Total Credit Hours Attempted</th>
<th>Required Minimum Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 to 24</td>
<td>1.50</td>
</tr>
<tr>
<td>25 to 45</td>
<td>1.75</td>
</tr>
<tr>
<td>46 or more</td>
<td>2.00</td>
</tr>
</tbody>
</table>

AND
2. This College is required to establish and evaluate the maximum time frame in which students must complete their educational programs and the pace of completion that ensures completion of the programs within that time frame. This College requires that all financial aid recipients successfully complete a cumulative minimum of 67% of the credit hours attempted (total hours earned divided by total hours attempted). Financial aid recipients must also complete their program within 150% of the credits required to do so. Remedial/Developmental Education hours are excluded for these calculations. For example, an associate degree of 60 credit hours must be completed within 90 credit hours.

Transfer Credits. Students who attend other colleges must submit all prior transcripts for evaluation prior to the awarding of student aid. Students who are enrolled concurrently in another college must notify this College. The courses accepted as transfer credit by Pensacola State College that meet declared program of study requirements will be considered in the evaluation of progress. All successfully completed transfer courses accepted and courses taken at Pensacola State College that meet or could have met the student’s declared program of study requirements will be included in determining Financial Aid Satisfactory Academic Progress (FASAP).

Program Changes. Students will be awarded Title IV funding for a maximum of four unique programs of study at Pensacola State College. A student may appeal this loss of eligibility if the student has documented mitigating circumstances which directly caused the program changes. For more information, please refer to the appeal for reinstatement of aid process in this catalog. Program changes after the effective date of this policy will be counted toward the number of changes allowed.

Incomplete Courses/Withdrawals. Successful completion of coursework is defined at Pensacola State College as earning a grade of A, B+, B, C+, C, D+, D or F.

Course Revisions. Under HEA regulations, a Title IV recipient is permitted to repeat a course in which a failing grade was previously earned without limit, except as imposed by the FASAP standards. Once a student has earned a grade of A, B+, B, C+, C, D+, D or F, one repeat of the course is permitted to be counted toward calculating Title IV aid eligibility enrollment for the semester. All subsequent attempts of that course are ineligible for Title IV funding.

Financial Aid

FASAP Statuses Defined
Students must meet all of the Financial Aid Satisfactory Academic Progress (FASAP) required standards to be considered in Financial Aid Satisfactory Academic standing. After attending one (1) credit of enrollment as a degree-seeking student, one of the following financial aid standings will be displayed on their DEGREE AUDIT: Clear, Warning and Suspension as defined in this section.

Financial Aid Warning Semester
Students who are not meeting FASAP standards will be placed on Financial Aid Warning the following semester of enrollment, except when the student reaches or exceed the 150% maximum time frame allowed for his/her program or the student’s PELL disbursements meet the lifetime eligibility limit (600% of a full time PELL award). Students who are enrolled during the financial aid warning semester may receive Title IV aid, as long as they are otherwise eligible. Students are notified via PirateMail of their warning status.

During the warning semester the student must successfully work to regain FASAP by meeting the required completion rate standard (67%) and the graduated grade point average required for the number of credits attempted (see chart). If the student is unable to meet the required standards at the end of the WARNING semester, all Title IV federal and state aid will be suspended.

Financial Aid Suspension
Students who do not regain FASAP after a semester on warning will have Title IV aid suspended because they no longer meet the standards. Students who reach or exceed maximum time frame for their program of study (150% of the required credits) will have their Title IV aid eligibility suspended. Students who no longer have sufficient credits of potential eligibility remaining to complete their declared program of study will have their Title IV aid suspended. (34 CFR 668.34(a)(7))

Financial Aid Probation Semester
Financial Aid Probation is the status of a student who has successfully appealed for federal aid reinstatement after suspension of eligibility. During the time frame that the student status is FA Probation, the student will be required to complete...
100% of their enrollment and maintain at least a 2.0 grade point average in the period of enrollment. A withdrawal or incomplete grade received during FA Probation will result in the student’s status returning to SUSPENSION. In some cases the required grade point average for a semester may be higher than 2.0 in order for the student to meet the required grade point average to graduate within the specified time frame. The conditions required of a student on an approved appeal are determined by the Appeal Committee, documented in the Student Record System, and provided in writing to the student. Students who follow their approved academic plans and meet the conditions of their approved appeals will continue to receive aid for which they are otherwise eligible until their status changes or they complete their program of study. (34 CFR 668.34(a)(8)(ii), 668.34(d)(2)(iii)(B))

Monitoring Financial Aid Progress
Each financial aid recipient will have progress monitored at the end of the term, beginning with the first credit hour attempted as a degree-seeking student. If, at the end of a term, the student has not met the required standards, the student will be placed on Financial Aid Warning for one semester. (See Required Standards (p. 52.) If the student does not achieve FASAP at the end of the Warning semester, eligibility for federal and state financial assistance will be suspended until the student’s progress improves and returns to FASAP status of clear. (See FASAP definition.)

Note: A transfer student’s eligibility for all federal aid including Direct Loans is based on their successfully completed transfer courses accepted and courses taken at Pensacola State College that meet or could have met the student’s currently declared program of study requirements. These credits are used to establish their cumulative grade point average and completion rate as documented in the student’s record in the College Student Record System.

Required Maximum Time Frame and Credit Limits for Federal Aid

Baccalaureate Degree Students
A student otherwise eligible for federal or state financial aid and enrolled in a baccalaureate degree program who has attempted more than 150% of the number of credit hours required in that program is not progressing at the required pace to complete the program within the required standard and therefore is considered to be making unsatisfactory academic progress. Students will be awarded Title IV funding for a maximum of four unique programs of study at Pensacola State College.

Associate Degree Students
A student otherwise eligible for federal or state financial aid and enrolled in an associate degree program who has attempted more than 150% of the number of credit hours required in that program is not progressing at the required pace to complete the program within the required standard and therefore is considered to be making unsatisfactory academic progress. Students will be awarded Title IV funding for a maximum of four unique programs of study at Pensacola State College.

College Credit Certificate Program Students
A student otherwise eligible for federal or state financial aid and enrolled in an approved certificate program who has attempted more than 150% of the number of credit hours required in that program is not progressing at the required pace to complete the program within the required standard and therefore is considered to be making unsatisfactory academic progress. Students will be awarded Title IV funding for a maximum of four unique programs of study at Pensacola State College.

Developmental Education Courses
Required developmental education coursework is counted in determining a student’s level of enrollment for federal financial aid awarding purposes. Federal regulations limit financial aid recipients to a maximum of thirty (30) semester hours of federally funded developmental education (remedial) coursework plus prerequisite coursework, not counted as electives.

Financial Aid for Vocational Certificate (Clock Hour) Programs
The following list of programs are designated postsecondary adult vocational (PSAV) by the State of Florida Department of Education and therefore federal Title IV Aid must be awarded and disbursed based on clock hour policies and procedures.

Additional programs may be added by the College with USDOE approval.

Available Aid for Clock Hour Programs
A student in a clock hour certificate program may qualify for Title IV federal aid including Pell Grant, SEOG, Direct Loan, PLUS Parent Direct Loan, and Federal Workstudy. Florida residents may be eligible for Florida State aid including Florida Bright Futures, FSAG-CE, and Florida Work Experience Program. The College provides institutional grants and scholarships as funding is available. To be considered for aid, a student must submit the Free Application for Federal Student Aid (FAFSA) for the appropriate financial aid award year. A student anticipating the use of Florida Bright Futures must meet with his or her high school counselor and submit the required online application after December 1st and prior to high school graduation. An early high school graduate must meet with their high school guidance counselor for assistance. Not all vocational certificate (clock hour) programs at this college are Pell eligible. Only the vocational certificate (clock hour) programs listed in this catalog have been approved by the College, the State of Florida, and the USDOE. An eligible
A student may receive federal financial aid while enrolled and making satisfactory academic progress.

A student who is enrolled in vocational certificate (clock hour) programs that are less than the Pensacola State College defined academic year of 900 clock hours and 32 weeks will receive an initial full time disbursement in the first payment period. After successfully completing 450 clock hours and 16 weeks of the program, the student will receive their second prorated scheduled payment.

A student who has earned clock hours from a previously attempted vocational certificate (clock hour) program which are being used toward the completion of their current clock hour program will have their remaining required number of clock hours calculated prior to the determination of their federal and state aid eligibility.

A student who is enrolled in a vocational certificate (clock hour) program that exceeds the Pensacola State College defined academic year will receive an initial payment of half of their full time scheduled award. After the student successfully completes the initial payment period defined as 450 program clock hours and the required weeks in the payment period, additional payment periods will be funded based on continued eligibility. A student may be eligible to receive a second year aid amount per federal guidelines when the number of clock hours required extends to a second year. The student must be determined eligible academically and by filing an accurate FAFSA for the new award year.

Payment Periods and Disbursement Procedure for Vocational Certificate (Clock Hour) Programs

The College has defined the clock hour academic year for awarding and disbursement purposes as 900 clock hours and 32 weeks. Federal Pell Grant funds may be used to pay the balance of fees. Federal Pell Grants may also be used to purchase required books and supplies or equipment through the bookstore. Any credit balance remaining will be disbursed to the student via his or her student account in two or more payments, depending on the number of academic years defined in the program. The first payment period begins at the start of the program and ends at the halfway point of the defined academic year.

Prior to the second and all subsequent payments, the student’s hours completed and satisfactory academic progress will be verified. Direct loan disbursements are subject to a 30-day delay prior to disbursement. A student whose direct loan eligibility has been verified may process a deferment of fees based on the anticipated federal student loan disbursement. A student whose program of study is a one (1) year certificate have a maximum loan eligibility of 1 1/2 years of subsidized loan eligibility.

Program instructors are responsible for documenting the number of hours of participation, excused and unexcused hours of absence, and the student’s satisfactory academic progress during their weeks of attendance. Aid disbursements are based on this reported information.

Federal Pell Grant credit balances are normally disbursed within the first fourteen (14) days of each payment period after student participation in the clock hour program has been documented by the instructors. Depending on the program there are two or more payment periods. Programs with one academic year will have two payment periods, while programs that have a second academic year will have more than two payment periods. The student may access his or her Fee Details and Financial Aid Summary screen via the secure login to SpyGlass at www.pensacolastate.edu.

Financial Aid Satisfactory Academic Progress for Vocational Certificate (Clock Hour) Programs

In order for students in clock hour certificate programs to receive financial aid, they must maintain Financial Aid Satisfactory Academic Progress (FASAP) toward completion of their program. Satisfactory progress is evaluated at the end of each payment period after grades are posted and also at the time the student completes both the required hours and weeks in a payment period if not concurrent with the end of a standard semester. If satisfactory progress is not achieved at the end of that payment period, financial aid assistance will be suspended or delayed until such time as the student regains satisfactory academic progress. FASAP is measured in terms of pace and grade point average (GPA). Pace progress is defined as the ratio of clock hours completed to clock hours scheduled and weeks scheduled to weeks completed as defined for the program payment periods.

Minimum Requirements (Qualitative and Quantitative)

GPA: Students must maintain a GPA of at least 2.0.*

Progression: Students must successfully complete at least 67% of the clock hours attempted.

*Minimum may be higher than 2.0 GPA based on clock hour program requirements.

Maximum Timeframe: Pensacola State College students may continue to receive their federal financial aid as long as they maintain the ability to complete their program within 150% of the scheduled weeks of the program and they meet the quantitative and qualitative minimums. Example: A 44 week program has a maximum time frame of 66 weeks (44 weeks x 150%).

Students not meeting minimum requirements for their clock hour program will have their financial aid assistance delayed or suspended.

All payment periods or semesters of attendance will be included in the evaluation, regardless of what year the student first enrolled or first received federal aid.

All transfer clock hours that are used to complete the clock hours required for the program will impact the number of clock hours required for which the student may be awarded aid. These hours will also be used to measure qualitative and quantitative eligibility.

Program Changes: Students will be awarded Title IV funding for a maximum of four unique programs of study at Pensacola State College.

Transfer Credits

Courses accepted as transfer credit by Pensacola State College that meet the declared program of study requirements will be used in evaluation of progress.

Course Incompletes/Withdrawals

Successful completion of coursework is defined at Pensacola State College as earning a grade of A, B+, B, C+, C, D+, D or P in most programs.

Financial Aid Appeal Policy and Process

Applicants and recipients of Title IV (Pell, FSEOG, FWS, Direct and Plus Loans) who do not meet the required standards for Financial Aid Satisfactory Academic Progress (FASAP) due to circumstances beyond their control may appeal their status by accessing the College’s FASAP appeal process.
Based on documented extenuating circumstances*, a student may appeal for aid reinstatement in order to complete a particular program of study.

*Documented extenuating circumstances might include, but are not limited to:
1. Serious illness or injury to the student
2. Serious illness, injury or death of a student’s immediate family member (parent, sibling, spouse, child)
3. Special documented circumstances of a unique and substantial nature.

Appeal Process
A Financial Aid Appeal Request Form is available in any campus financial aid office and online in the Financial Aid Forms section of the College website. Students eligible to submit an appeal must also submit a signed academic plan (Degree Audit). In order to develop the academic plan, the student must schedule a meeting with an academic advisor for advising during which time a plan will be agreed upon. Both the advisor and student must sign and date the plan. Failure to submit all required attachments and documentation will result in a denied appeal. Full instructions for submitting a FASAP appeal are available with the form(s) online. The student must indicate clearly and in detail the circumstances of his/her failure to meet FASAP standards. Specific dates and events must be identified and documentation to support the appeal must be attached to the form. Appeals submitted without specific dates, events, or documentation are incomplete and will be denied. Filing an appeal does not guarantee that the appeal will be approved.

The completed appeal form and documentation must be submitted to a Financial Aid/Veteran Services/Scholarships office located on the Milton, Pensacola, or Warrington Campus. The Financial Aid Appeals Committee will review and make a determination concerning the appeal. When an appeal is granted, additional conditions may be established which the student will be required to meet in order to continue with financial aid eligibility. The student will be notified in writing of the decision. Should the student receive a denial, the student may not submit another appeal for that award year. If the student does not agree with the denial and has substantive additional information and documentation not previously submitted, the student may submit a written letter of disagreement and the additional documentation to the Director of Financial Aid/Veteran Services/Scholarships within 14 days with a new appeal packet and the additional documentation. The Director’s decision is the final authorized decision.

Note: If an appeal is submitted during a registration period, the process will take longer.

Release of Student Financial Aid Information
The disclosure of student information is governed by the policies of the Pensacola State College Board of Trustees and the Florida Department of Education within the parameters established by state and federal laws, including the Family Educational Rights and Privacy Act of 1974 (FERPA).

The written consent of the financial aid recipient is required for any disclosure or publication of any financial aid information that is personally identifiable. Parents and legal guardians of dependent financial aid recipients may have access to financial aid information only with the written consent of their dependent student. The appropriate form is available from the Office of Financial Aid/Veteran Services/Scholarships and on the College website at Financial Aid/ General Financial Aid Forms/ Release of Information Authorization.

Official Correspondence and Communication
Official communication between Pensacola State College and all college students is through Pirate Mail and SpyGlass notifications. A student email address is issued to each student one day after his or her application for admission to Pensacola State College is processed. The FA/VS/Scholarship office will communicate through Pirate Mail and SpyGlass notifications. It is a student’s responsibility to regularly monitor this official Pirate Mail email site, failure to do so may result in a delay in the awarding of any and all aid or the loss of aid due to limited funding. See https://piratemail.pensacolastate.edu/PEMailFAQ.asp for Pirate Email for help and frequently asked questions.

Scholarships
The Pensacola State College Scholarship Program recognizes both academic performance and financial need when awarding scholarships. Many criteria are used to select scholarship recipients. Among these criteria are grade point average, leadership qualities, contributions to school or community, visual and performing arts achievement, athletic ability, and other academic activities. This information is provided by new students during the application process and updated by returning students who apply on their annual application. (See the Scholarship Application Form section) Additionally, the Florida Legislature requires all students receiving a Pensacola State College academic scholarship to also have their financial need assessed by a nationally recognized needs analysis. The Free Application for Federal Student Aid (FAFSA) is the approved needs determination process in Florida.

To apply for an academic scholarship, an applicant must complete and process an accurate Free Application for Federal Student Aid (FAFSA). The FAFSA is available online at www.fafsa.gov. The student must input Pensacola State College’s school code 001513 as one of their college choices on the FAFSA. (See the Financial Aid section (p. 51) of the catalog).

Pensacola State College Foundation Scholarships
The Pensacola State College Foundation, Inc. is a private non-profit corporation established to encourage, solicit, receive, and administer funds for the benefit of the College and College activities including the College’s scholarship program.

The Pensacola State College Foundation scholarships are divided into two categories:
1. Foundation Scholarships awarded by the Pensacola State College Scholarship Selection Committee using Foundation-approved selection criteria.
2. Foundation Scholarships awarded by Foundation/College appointed awarding administrators using selection criteria established by the donor.

For detailed information regarding eligibility, selection criteria, and application procedures, refer to the online link on the College website.

Academic Merit and Non-Academic Merit Scholarships
Eligibility consideration in awarding scholarships begins with three key steps:
1. Apply early.
2. Submit a properly completed Pensacola State College Application for Admission to the college’s Admissions/Records Office.
3. Submit a properly completed online Pensacola State College Scholarship Application by the published deadlines.

Eligibility Requirements (Academic Merit and Non-Academic Merit Scholarships)
1. An applicant must be a U.S. Citizen or Resident Alien. All scholarship applicants must have a completed paid Application for Admission to Pensacola State College on file with the Admissions office. Students who have been attending
Pensacola State College under the dual enrollment program must file a new Admission Application upon graduation from high school. Students who have stopped enrollment for one calendar year will need to update their application to the College to insure demographic information (name, address, phone number) and program of study are current.

2. Scholarship applicants who have completed an associate’s or higher degree or have attempted a total of sixty-five college credits, or more, are not eligible.

3. Current high school seniors must submit an official copy of their high school transcript showing all work completed through the first semester of their senior year. Students may upload a copy through their online scholarship application and, upon high school graduation, applicants must submit a final official copy of their high school transcript to the College Registrar/Admissions Office and notify the FA/VS/Scholarships office. Failure to provide this final copy of the high school transcript may result in the application not being considered for available scholarships.

4. All home educated students must comply with the requirements listed in the Admissions section of this catalog under Application Forms and Academic Credentials/Educational Records (Transcripts) required for admissions as a regular college students; and either a minimum score of 520 computation and 521 verbal on the SAT; or a minimum score of 19 English, 20 Math, and 22 Reading on the ACT; or a minimum score of 104 Reading, 99 Writing and 123 Math PERT test scores. This documentation must be submitted to the Pensacola State College Admissions/Records Office.

5. A scholarship applicant who has completed fewer than twelve college or vocational semester credits at Pensacola State College, and has graduated from high school within the last ten years, must submit an official copy of his/her final high school transcript. For Pensacola State College scholarship purposes, selection consideration will be based on high school grade point average. Dual enrollment courses are considered in calculating the high school GPA until the student has completed at least twelve college credits beyond high school graduation.

6. A scholarship applicant who has completed fewer than twelve college or vocational semester credits at Pensacola State College, and graduated from high school more than ten years ago, will not be considered until the applicant has completed a minimum of twelve college, college preparatory, or vocational credits at Pensacola State College.

7. A scholarship applicant who has completed twelve or more college, developmental level, or vocational semester credits at Pensacola State College and/or has attended other colleges or universities may be considered for Pensacola State College scholarships provided he/she has furnished the Pensacola State College Admissions office with official transcript(s) from the previously attended institution(s).

8. A scholarship applicant who has scored 170 or higher on the General Education Development (GED) Exam may be eligible for a Pensacola State College scholarship. Applicants must have tested or re-tested for the GED exam with the Pensacola State College Test Center between April 1 and the following March 31. The student applicant is responsible to provide an official copy of their GED transcript to the college Admissions/Records office for evaluation by the published scholarship deadline date.

9. Students who do not meet the Pensacola State College Standards of Academic Progress (on academic warning, probation, suspension, suspension waiver or have other restrictions) are not eligible for a Pensacola State College Scholarship.

10. An appeal for an exception to the scholarship policies may be submitted to the Pensacola State College District Financial Aid/Veteran Services/Scholarships Office. The appeal must be in writing with a full explanation and documentation. The Coordinator of Financial Aid/Scholarships will either approve or deny the appeal. If the appeal is denied and the student does not agree with the decision, it will be forwarded to the Pensacola State College Scholarship Policy Committee for consideration at their next scheduled committee meeting.

Note: It is the scholarship applicant’s responsibility to ensure all required documents are submitted as attachments to their online PSC Scholarship Application by the published deadlines.

Scholarship Online Application
To be eligible for consideration for Pensacola State College scholarships, applicants need to complete one application each academic year. The online application can be accessed through the College website at https://www.pensacolastate.edu/financial-aid/. A scholarship application may be updated any time during the academic year by the student requesting the Financial Aid/Veteran Services/Scholarship Office to re-open access to their submitted scholarship application. Completed scholarship applications and any changes must be submitted online by the published deadline.

Scholarship Deadline Dates
Complete the scholarship application process online as soon as possible. Scholarship deadline dates are strictly enforced. Deadlines for consideration are published on the college website and in the online scholarship application.

Additional Information
For additional information about scholarship availability, specific eligibility requirements, or transfer scholarships, contact the district Financial Aid/Veteran Services/Scholarships Office located in the Registration Center (Building 2) on the Pensacola campus. The telephone number for scholarship information is (850) 484-1634 or review the information on the Financial Aid/Veteran Services/Scholarships website at http://pensacolastate.edu/financialAid/scholarships.asp.

ACADEMIC REGULATIONS AND POLICIES

Standards of Academic Progress

College Credit Programs
The regulations regarding academic progress apply to all credit students regardless of the beginning date of attendance. In determining academic progress, all credits are combined: college and developmental education or college preparatory. Transfer courses and courses taken for audit will not be included in the determination of academic standing. “Attempted” is defined as any course in which a student has processed an official registration and in which a student remains enrolled after the schedule adjustment period excluding any course for which a student receives a refund. A student’s academic standing is determined at the end of the term in which the 13th hour is attempted. At the end of that semester and every semester thereafter, a student must have earned credit in one-half of all hours attempted and have a cumulative grade point average dependent upon those attempted hours as follows.
See Grading Policy for an explanation of cumulative grade point average calculation; however, the GPA referred to here is a combined GPA of all courses regardless of level (college, vocational, developmental/preparatory).

**Good Standing** A student is in good standing when the above requirements are met.

**Academic Warning** A student is considered to be in good standing while in the warning status.

**Academic Probation** A student will be placed on academic probation, after being on warning, at the end of a semester if any one of the conditions in the above table is not met.

**Academic Suspension** A student will be suspended, after being on probation, if any one of the conditions in the above table is not met.

**Suspension Waiver** A student may request approval to re-enroll after suspension by filing a formal appeal to the Student Academic Appeals Committee. Appeal procedures may be obtained in the Registrar’s Office. If approved, the student will be permitted to enroll in a status of Suspension Waiver and is expected to complete all classes attempted with grades leading to a GPA of 2.0 or better. In some cases the required grade point average may be higher than 2.0 in order for the student to have the required grade point average to graduate within the specified time frame. Additionally, the Committee may establish additional enrollment conditions. If disapproved, the student may be dismissed. See Academic Dismissal.

**Academic Dismissal** If the conditions of the Suspension Waiver are not met, the student may be dismissed. A student may appeal a dismissal to the Student Academic Appeals Committee. If approved, the student will re-enroll in the status of Suspension Waiver. (See above.) If disapproved, the student will be required to sit out for one semester. Committee disapproval may be appealed to the Vice President, Academic Affairs.

**Clock Hour Programs**

Satisfactory progress is evaluated at the end of each grading period after grades are posted and evaluated. In order for a student to meet satisfactory academic progress in a certificate clock hour program, both qualitative and quantitative conditions must be satisfied.

**Qualitative**

GPA: The student must maintain a GPA of at least 2.0 in all clock hour courses. All semesters of clock hour attendance will be included in the GPA evaluation. Individual clock hour programs may require a higher minimum GPA.

**Quantitative**

Progression: The student must successfully complete at least 67% of the clock hours attempted in a grading period. Progression is defined as the ratio of clock hours completed to clock hours attempted in a program during the scheduled weeks of attendance.

“Attempted” is defined as any course in which a student has processed an official registration and in which a student remains enrolled after the schedule adjustment period. Any course for which a student receives a refund will be excluded.

**Good Standing** A student is meeting satisfactory progress when the above qualitative and quantitative requirements are met.

**Academic Warning** If a student fails to meet the qualitative or quantitative requirements, the student will be considered under satisfactory academic progress warning.

**Academic Suspension** A student will be suspended, after being on warning, if either qualitative or quantitative conditions are not met in the warning period. The warning period is usually one semester.

**Clock Hour Suspension Waiver** A student may request approval to re-enroll after suspension by filing a formal request for a Suspension Waiver to the Student Academic Appeals Committee. Appeal procedures may be obtained in the Registrar’s Office. If approved, the student will be permitted to enroll in a status of Clock Hour Suspension Waiver and is expected to complete all classes attempted with grades leading to a GPA of 2.0 or better. In some cases the required grade point average may be higher than 2.0 in order for the student to have the required grade point average to graduate within the specified time frame. Additionally, the Committee may establish additional enrollment conditions. If disapproved, the student may be dismissed. See Academic Dismissal.

**Academic Dismissal** If the conditions of the Clock Hour Suspension Waiver are not met, the student may be dismissed. A student may appeal a dismissal to the Student Academic Appeals Committee. If approved, the student will re-enroll in the status of Clock Hour Suspension Waiver. (See above.) If disapproved, the student will be required to sit out for one semester. Committee disapproval may be appealed to the Vice President, Academic Affairs.

**Transfer Students** Individuals requesting that hours be transferred to Pensacola State College for a clock hour program must have successfully completed those hours within the previous four (4) years of entering Pensacola State College. The College will evaluate transfer hours on a case-by-case basis with a requirement of at least 25% of a program being completed at Pensacola State College. Transfer hours must be evaluated and awarded prior to enrollment and the calculation of potential federal and state aid.

**Collegiate High School**

The regulations regarding academic progress apply to all Collegiate High School students regardless of the beginning date of attendance. Only courses taken in the Collegiate High School will be used to determine academic standing. “Attempted” is defined as any course in which a student has processed an official registration and in which a student remains enrolled after the schedule adjustment period.

A Collegiate High School student’s academic standing is determined at the end of the term in which the fifth credit is attempted. At the end of that semester, and every semester thereafter, a student must have earned credit in one-half of all credits attempted and have a cumulative grade point average dependent upon those attempted hours as follows.

<table>
<thead>
<tr>
<th>Attempted Hours</th>
<th>Completion Requirements</th>
<th>Minimum GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 to 14</td>
<td>One-half of total hrs. attempted</td>
<td>1.00</td>
</tr>
<tr>
<td>15 to 18</td>
<td>One-half of total hrs. attempted</td>
<td>1.25</td>
</tr>
<tr>
<td>19 or more</td>
<td>One-half of total hrs. attempted</td>
<td>1.50</td>
</tr>
</tbody>
</table>

**Good Standing** A student is in good standing when the above requirements (completion and minimum GPA) are met.
Academic Warning A student will be placed on academic warning at the end of a term if any one of the conditions in the above table is not met. A student is considered to be in good standing while in the warning status.

Academic Probation A student will be placed on academic probation, after being on warning, at the end of a semester if any one of the conditions in the above table is not met.

Academic Suspension A student will be suspended, after being on academic probation, at the end of a semester if any one of the conditions in the above table is not met.

Suspension Waiver A student may request approval to re-enroll after suspension by filing a formal appeal to the Student Academic Appeals Committee. Appeal procedures may be obtained in any registration office or in the Collegiate High School Counseling Office. If approved, the student will be permitted to enroll in a status of Suspension Waiver and is expected to complete all classes attempted with grades of C or better. If disapproved, the student may be dismissed. See Academic Dismissal.

Academic Dismissal If, after being permitted to re-enroll in the status of Suspension Waiver, a student does not meet the conditions established by the Student Academic Appeals Committee, the student may be dismissed for one semester. A student may appeal a dismissal to the Student Academic Appeals Committee. If approved, the student will re-enroll in the status of Suspension Waiver (see above). If disapproved, the student will be required to sit out for one semester. Committee disapproval may be appealed to the Vice President of Academic Affairs.

Academic Grade Amnesty
A credit student with previous coursework that is ten (10) years of age or older may seek Academic Grade Amnesty (AGA), which will remove the effect of those credits on the cumulative grade point average. AGA may be granted only once in a student’s academic career. If granted, AGA applies to all credits and grades that are ten or more years of age. The student may not select specific semesters, specific courses, or specific grades for amnesty. AGA will apply to all coursework that is ten years of age and older from the date AGA is granted.

If a student has already earned a degree or certificate, Academic Grade Amnesty will not be permitted if it results in the forgiveness of courses used for the previously earned degree or certificate. All courses and grades affected by AGA will remain on the official Pensacola State College transcript even though the grades are not used in calculating the cumulative grade point average. A notation of the Academic Grade Amnesty will be posted to the student’s record and will appear on the official transcript. AGA granted at Pensacola State College may not be honored in the transfer process. Other institutions may consider the older credits and grades when evaluating a student’s Pensacola State College transcript. A student seeking AGA is encouraged to discuss the matter with representatives of the institution to which transfer is planned.

AGA has no effect on federal and state student financial aid standards of academic progress.

Any student requesting AGA is required to meet with an advisor before submitting the request for AGA.

Maximum Attempts for a Course
Students may attempt any college credit course or college preparatory/developmental course twice with regular fee assessment. A third attempt of the course will result in the assessment of the full cost of instruction. The full cost of instruction is approximately three times the cost of the in-state tuition rate. Students enrolling in a third attempt of any course will not be permitted to withdraw from the class or change to non-credit. A final grade of W, I, N, or NC will not be permitted, and a letter grade will be assigned. A student may appeal the assessment of the full cost of instruction to the Vice President of Student Affairs or designee. A request for enrollment in a course for a fourth attempt requires the approval of the Vice President of Student Affairs or designee. Any registration for a third or greater attempt of one course cannot be processed through Spyglass web registration; the registration, if approved, must be processed after discussion with an advisor. Florida Law mandates the maximum number of times a student can attempt any course.

Maximum Hours per Semester
A student is limited to enrollment in no more than 18 credit hours per semester regardless of the sessions in which the student is enrolled. A student may not enroll in more than 9 credit hours during a B or D session.

A request for a waiver to the limit may be discussed with a student services director on any campus or center.

Repeating Courses
Courses in which a grade of D, D+, or F was earned may be repeated for credit and only the most recent grade earned will be used to calculate the cumulative grade point average. This policy applies to any student who repeats a course in which a grade of D or D+ was earned and earns a grade of F in the repeated course; the F grade will replace the D or D+ for calculation of the cumulative grade point average.

Courses that are not indicated in the course description as repeatable courses should not be retaken if the initial grade was a C or better. If repeated, credit will not be given for the repeat and the grade earned in the repeat will not count for GPA calculation.

Students receiving financial aid should consult with a financial aid representative before repeating any course.

Other institutions to which the student transfers may use all course attempts in computing the transfer grade point average.

Attendance Policies
Attendance policies differ between credit hour programs and clock hour programs. Consult the appropriate attendance policy for more information.

Credit Hour Attendance Policies
Attendance Policy
Regular and punctual attendance in class is required. Each student is responsible for knowing and adhering to the instructor’s attendance policy for each course taken. Specific attendance requirements for each course will be included in the course syllabus provided by the instructor.

Distance Learning Attendance Policy
For any student enrolled in a distance learning course, participation in the course according to the schedule of events described by the instructor is considered in attendance. A student who does not access the class web site during the first week of class, does not take examinations by established due dates, or does not otherwise participate in the distance learning process as outlined by the instructor is subject to withdrawal according to the attendance policies outlined below.

Excessive Absences
A student may miss one class meeting beyond the number of times the class meets per week before being considered excessively absent. For example, if a student is enrolled in a class that meets three times per week, the student may miss four class meetings. If the student misses a fifth class meeting, the student may be
considered excessively absent. This policy will be followed for 16-week classes in a fall or spring semester and 12-week classes in the summer. These allowable absences should provide for student illness as well as permit the student to take care of emergencies and personal business. Absences during an eight-week session or a six-week summer session will be considered excessive if the student misses more than three day classes or more than two evening classes.

A student registering late in any course will be counted absent for those class meetings missed before the registration.

Students who do not attend during the first week of class will be withdrawn. See the No-Show Procedure for the First Week of Classes.

In certain specialized programs, such as the health-related programs, licensure, certification, or accreditation requirements mandate fewer absences than the College normally permits. A student enrolled in a program with more stringent attendance requirements is informed of those requirements. If the specific program requirements are not met by the student, the student will not be withdrawn from non-program specific courses but may be withdrawn from the program and program specific courses.

No-Show Procedures for First Week of Classes
Attendance during the first week of classes is required. A student who does not attend the first week of class will be withdrawn with a grade of W on the permanent record. A student who is withdrawn for not attending the first week of class may discuss reinstatement with the instructor. If the instructor does not support the reinstatement, the student may petition the Student Academic Appeals Committee for reinstatement. A student who has registered for a distance learning course is required to access the web site for the course during the first week. Failure to do so will result in withdrawal.

Tardy Policy
A student not present at the beginning of any class meeting is considered tardy. When so specified in departmental policies, program policies, or the instructor’s syllabus, habitual or excessive tardiness may be converted to absences. Some instructors will not permit late entrance into a class as this disturbs the educational experience; the section syllabus will indicate the instructor’s policy on late entry.

Clock Hour Attendance Policies
Attendance Policy
Attendance is required in all course meetings for clock hour programs. Pensacola State College recognizes the following as excused absences:

1. Jury Duty or required court appearance.
2. Documented illness of self, spouse, minor dependent child, parent, or household member. Any clinical site refusal to allow a student to attend for health reasons is considered an illness of self.
3. Established, recognized religious holiday.
4. College sponsored activity such as SkillsUSA, Health Occupation Student Association, or Student Government Association events.
5. Death of an immediate family member or household member.

Each program will specify a number of hours that may be excused. While excused absences do not have to be made up for financial aid purposes and will not impact disbursement of financial aid funds, some programs may require the time to be made up for academic purposes including grades or required clinical hours.

Enrollment Status
Pensacola State College considers full-time enrollment to be enrollment in 12 college, 15 credit hours (450 clock hours) for vocational, and/or developmental level developmental credit hours in any semester. Full-time enrollment to be considered is also considered to be 12 credit hours. Collegiate High School students are considered full-time when enrolled in 20 contact hours per week in any fall or spring semester. Continuous enrollment is defined as being enrolled in credit courses in the fall and spring semesters. In certain circumstances, continuous enrollment may be defined differently.

Certification of Attendance
The Records Office will provide official statements certifying attendance status to outside agencies. Certification of the attendance or veterans is processed by the Veteran Services Office.

Final Exams
Final examinations are administered during the final examination week at the end of each semester at the dates and times published on the Pensacola State College web site as well as at the designated date and time during the mini-sessions. It is each student’s responsibility to know when and where the final examination is scheduled and to be present on time with all required materials. The administration of a final examination at any time other than the published final examination period is a violation of College procedure. However, a change to the published examination date and time may be made by the course instructor, with department head approval, during the scheduled examination week if an examination is scheduled on a non-class day or if simultaneous examinations are scheduled. A student may not attempt a final examination twice for a single class. Any examination in a distance learning course must be scheduled in a way that will not hinder any student’s participation in traditionally delivered courses or examinations.

Late Examinations
In the event of an individual student’s absence for a final examination in any class due to illness, or other reason approved by the course instructor prior to the exam, a grade of I (Incomplete) may be assigned by the instructor or record and a deferred examination may be given.

Change of Policy Disclaimer
The provisions of this publication are not considered a contract between the student and Pensacola State College. The College reserves the right to change any provision or requirement when the College deems such action necessary. Students are encouraged to consult with an advisor to verify the appropriateness of the courses selected before enrollment in those courses.

Students are expected to familiarize themselves with all rules and regulations of the College including official announcements that may be posted in student service areas, published in the Catalog, on the College web site, disseminated by mail, or provided through Pirate Mails (the institutional email accounts).
GRADES

Grade Information
A grade is awarded in every college credit, vocational credit, developmental education (college preparatory), and vocational preparatory course as well as in certain non-credit courses. Pensacola State College maintains permanent records for every student registering for courses. A student may obtain the final grade for a course by accessing his or her Spyglass records online at www.pensacolastate.edu. A cumulative record of the student’s grades appears on the transcript. A complete explanation of the letter grades appears in the Grades Table (p. 61).

Grade Reports
A grade report will not be mailed to a student. A student may view final grades by accessing his or her Spyglass record on www.pensacolastate.edu. A student may obtain midterm progress information from the instructor. In some cases, the instructor will post midterm grade information, which may be viewed on Spyglass. Midterm grades do not display on the academic transcript and do not become a part of a student’s permanent record.

Minimum Grades
Unless otherwise specified, a grade of D or D+ is counted as earned credit, may be used to meet program requirements, and will be used in calculating academic progress. Any student seeking an Associate in Arts degree must earn a minimum grade of C in each mathematics course and each writing emphasis course used to meet general education requirements. This minimum grade requirement is established by State Board of Education Rule 6A-10.030. See the General Education page for more information about the requirements.

Incomplete Grades
The following conditions must be met in order for a student to be eligible for an Incomplete (I) grade:
1. The student must be passing the course;
2. The student must have completed at least 70% of the course requirements; and
3. The student and the instructor must reach a mutual agreement that the student has a reasonable chance of successfully completing the course without additional instructional contact.

If all three conditions are met, the student and the instructor will enter into a written contract for the completion of the course. A copy of the contract will be provided to the student, and copies will be maintained by the instructor and the Department Head. The contract shall include the following information:
1. The student’s last date of attendance in the course;
2. The student’s remaining requirements for course completion; and
3. The student’s deadline for completing the remaining course requirements. The last date to complete the course is determined at the instructor’s discretion but shall not exceed one year from the last day of class.

A grade of I in a college credit, vocational credit, or Collegiate High School course will become a grade of F if not completed by the date indicated by the instructor. A grade of I in a developmental education (college preparatory) course will become a grade of N if not completed by the date indicated by the instructor. With extenuating and mitigating circumstances, a student may request that a failing grade (F) be changed to a W by filing a formal appeal for late withdrawal to the Student Academic Appeals Committee.

An Incomplete grade will not be issued if
1. The student has ceased attending class;
2. The student is not passing the class; or
3. The student has not completed at least 70% of the course requirements.

In these three cases, a grade other than an Incomplete will be assigned.

Grading Policy

Instructor Withdrawal
An instructor may withdraw a student who is excessively absent up to the 70th percent point of the semester. After the 70th percent point, neither the instructor nor the student can process a withdrawal and a final grade will be assigned. The instructor will withdraw a student who has not attended a class meeting during the first week. The instructor may assign a grade of Early F to a student who is excessively absent.

Early F Grade Assignment
The instructor will be permitted to assign an Early F to a student who meets any of the following criteria:
1. A student who has stopped attending a class in which the instructor does not process withdrawals;
2. A student who stops attending a class after the 70th percent point of the class;
3. A student who stops attending a course being attempted for the third time;
4. A student who has been determined to be cheating on any assignment or examination; or
5. A student who has plagiarized any written assignment.

A student who has been assigned the Early F for non-attendance will be provided an opportunity to adjust the F to a W (student withdrawal). The F must remain in third-attempt courses, in cases where the student does not request the adjustment prior to the established withdrawal deadline, and in cases where the F is assigned for cheating or plagiarism. If the adjustment is processed, the last date of attendance as reported by the instructor of record will remain. A student who has been assigned an F as a result of cheating or plagiarism does not have the option of requesting an adjustment to W but may dispute the grade assigned by following the grade grievance process.

Under extenuating circumstances, a student will have an opportunity to appeal for late withdrawal after the 70th percent point of the class. The Student Academic Appeals Committee will review these appeals. Information regarding the appeal process may be obtained in any registration office.

Reinstatement
A student who is withdrawn for excessive absences or assigned the Early F may discuss the option for reinstatement with the instructor. A student who does not attend the first week of class and is withdrawn in accordance with the “No-Show” procedure may discuss the option for reinstatement with the instructor. If the instructor does not agree to the request for continued enrollment in the class, the student may petition the Student Academic Appeals Committee for reinstatement.

Students Receiving Veterans Benefits
A student receiving benefits from the Veterans Administration is required to abide by the College’s Attendance Policy as stated in this Catalog. If the student exceeds the number of absences permitted and does not have the instructor’s approval, certification will be terminated.
College Trips
A student who is representing the College on official business, including field trips, will not be counted absent provided a prior notice is given to the instructor and any missed work is completed.

Special Programs
In certain specialized programs, such as the health-related programs, licensure, certification, or accreditation requirements mandate fewer absences than the College normally permits. A student enrolled in one of these programs is informed of these externally imposed attendance requirements. If these requirements are exceeded, the student will not be withdrawn from academic courses but may be withdrawn from the specific program.

Grade Point Average
The student's permanent record contains grade point average (GPA) calculations. The student's GPA is used in determining academic standing, graduation readiness, eligibility for the honors lists and graduation with honors, and in other academically-related decisions.

In general, the Grade Point Average is computed as follows:

\[
\text{Quality Point Total} \div \text{Total Credit Hours (for GPA)} = \text{GPA}
\]

When calculating the cumulative GPA, use total quality points and total credit hours. Quality points are awarded as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>B+</td>
<td>3.5</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>C+</td>
<td>2.5</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>D+</td>
<td>1.5</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

To determine the total quality points for a grade in a particular course, the following formula is used:

\[
\text{Credit Hours} \times \text{Grade Quality Points} = \text{Total Quality Points for Course}
\]

For example, the total quality points for a grade of C in ENC1101C (a three-credit hour course) are calculated by multiplying the credit hours by the grade quality points for a C: three credit hours \times two grade quality points = six total quality points for the course.

Credit hours are defined as those credits in which a letter grade (A through F) has been awarded. Grades of S, P, U, I, N, NC, W, and X do not carry grade quality points. In general, credits for these grades do not count in hours pursued. However, in certain other circumstances, such as determination of repeat enrollments and in computation of certain specialized GPAs, credit hours that carry these grades may be included in the GPA computation. Questions regarding grade calculations may be directed to any Student Services office.
# Grades Table

</table>

1. Final grades may be based upon daily work, special reports, research papers, laboratory and field work, tests, final examinations, and other courses assignments or requirements.

2. Upon written request, a transcript will be furnished without charge.

3. A course with final grade of P or C or higher cannot be repeated for credit or to improve one’s GPA.

4. I (Incomplete) grades received at the end of any semester become failing grades (F) if not completed by the date assigned by the instructor or the maximum completion date of one academic year.

5. A grade of N is used only in developmental education courses. A grade of N may be assigned to a student earning a D or F in such a course. VA-assisted student education benefits will not be affected by an N grade, but the VA student should not expect to retain benefits for any course(s) assigned a W, NC, or X.

6. Credit hours earned through examinations such as advanced placement tests, College Examination Program (CLEP), and departmental examinations do not affect the GPA. These credit hours do count toward graduation and are counted as meeting certain course requirements.

7. Not to be assigned by instructor. Except in CEU courses, a student may elect to audit a course at registration or before drop/add ends, and the status cannot be changed later.

8. For use in courses offered through the Adult Education Department indicating that, although coursework has not been satisfactorily completed, positive progress is being made.

9. Credit earned through the Pass/Fail option will carry a grade of P or F. A grade of P will not be included in the calculations of grade point average; a grade of F will be included in the calculations of grade point average.

10. Assigned only in non-credit classes.
GRADUATION

Student Responsibilities for Graduation
Each student is responsible for selecting courses that meet program requirements and for earning the minimum grades (p. 59) required in those courses. Every student is strongly encouraged to start working on mathematics requirements during the first semester enrolled and to remain continuously enrolled in mathematics courses each semester until all mathematics requirements have been satisfied.

Some courses are only offered only once each year. The student is strongly encouraged to plan his or her program of study with an advisor or the appropriate Department Head. Additionally, each academic program is represented in the catalog as a sequence of semesters. The student who stays on sequence will finish on time and will meet all prerequisite and corequisite requirements of courses required for the degree.

A student may review his or her graduation progress with an advisor, the program coordinator or director, through the degree audit component of Spyglass, or through www.flvc.org.

Effective Catalog Policy
Each student must follow the requirements in effect at the time of initial enrollment in a program of study and is expected to complete the program within five catalog years. A student who does not complete the requirements within five catalog years will be analyzed for graduation using the catalog requirements in effect upon re-enrollment after the expiration of the initial effective catalog.

If a student’s program of study becomes inactive and the student has not been continuously enrolled, the ability to resume studies in the inactive program may not be available to the student. Continuous enrollment for this purpose is considered enrollment in at least one course per major semester (fall and spring) during an academic year.

As program requirements change, the student may wish to change to a newer catalog year. A student may request to move to a newer catalog year by meeting with an advisor or the appropriate Department Head who will review the new program requirements with the student.

Applications and Procedures
Application for Graduation
Each student must submit an Application for Graduation through Spyglass on the College’s web site by the published deadline. A student who does not apply by the published deadline will be reviewed for graduation and, if eligible, may still march in the graduation ceremony; however, the student’s name may not appear in the commencement program. Students are encouraged to apply for graduation one semester in advance of anticipated program completion.

Graduation Procedures
Upon receipt of the Application for Graduation, the student’s permanent record at the College will be reviewed. If the graduation analyst in the Records Office determines that the student will not meet graduation requirements, the student will be notified and advised to meet with an academic advisor, the appropriate department head, or the program director to find a resolution to the graduation discrepancy. All admissions conditions and financial obligations must be resolved prior to graduation.

Commencement Ceremony
The College holds two commencement ceremonies: one in December at the end of the fall semester and one in May at the end of the spring semester. Pensacola State College does not conduct a summer graduation ceremony. A student eligible for summer graduation may choose to march in the spring ceremony or the fall ceremony. Names of each summer graduate will be printed in the Commencement Ceremony Program for the commencement ceremony in which he or she chooses to march. Information regarding the graduation regalia (cap and gown rentals) and other information regarding the graduation ceremony will be communicated through PirateMail.

Diplomas
The diploma is mailed to the student after the commencement ceremony and upon completion of the final review of requirements. A spring or summer semester graduate may expect to receive the diploma within three weeks after graduation. Because of the winter holidays, a fall semester (December) graduate may expect to receive the diploma by the third week of January. A diploma will not be mailed to a student with an outstanding financial obligation to the College or with an incomplete admissions record. Upon request the diploma will be released after satisfaction of the financial obligation or submission of the missing admissions document.

Transfer of Credit
Articulation and Transfer of Credit
Pensacola State College offers a broad range of educational opportunities for the student whose goal is to transfer to another institution that offers a program the student wishes to complete. The resources listed below can assist the student in making informed decisions when selecting courses, choosing transfer institutions, and developing a transfer plan.

Advising Centers
A student planning to transfer Pensacola State College coursework to another college or university should contact a Pensacola State College Advising Center or Student Services Office to take advantage of the resources designed specifically for the transfer student. Some of the resources available include college and university catalogs, reference books and materials, transfer manuals, transfer admissions information, and information about general education requirements and electives most suitable for the planned transfer. Every student is encouraged to take advantage of these resources throughout the time he or she is enrolled at Pensacola State College, particularly if undecided on a major or transfer institution.

Online Resources
Articulation and transfer information is available at www.pensacolastate.edu and www.flvc.org. A student may access his or her Spyglass records and process degree audits to assist in the selection of courses that will meet graduation requirements. A variety of tools to assist the student planning to transfer to another college or university in Florida may be found at www.flvc.org including information on:

1. Career planning;
2. Online applications;
3. Transfer services;
4. College advising tools;
5. Advising manuals; and

Transfer Courses
Transfer courses are those that are designed to transfer to other colleges and universities. The transferability of a course does not necessarily indicate that it will apply toward a specific major or degree at another college or university. Therefore, it is important for the student to consult with an advisor about the transferability and the applicability of a specific course for the student’s intended major and transfer institution.
To assist a student in transferring from one college to another, most institutions of higher education in Florida are members of the Florida Common Course Numbering System. This system provides a shared, uniform set of course designations or equivalences to facilitate the transfer of credit on a statewide basis. Common Course Numbering information is found at www.flvc.org.

Articulation Agreements
Articulation is the formal process of developing and maintaining transfer options for students. Pensacola State College has established articulation agreements with several other institutions in order to provide students with access to, and linkages with, other institutions. Agreements often include the following: minimum GPA requirements for admission, minimum number of credit hours that will transfer, and transferable courses for specific degrees or majors. In addition, a student should consider the following suggestions when making transfer plans.

1. Begin early and plan ahead;
2. Develop a transfer plan with the assistance of a Pensacola State College advisor;
3. Make contact with an academic advisor and admissions representative at the institution to which transfer is planned; and
4. Follow the transfer agreement established for each college or university program listed.

Resolution of Transfer Disputes
Pensacola State College works closely with other colleges and universities to provide a smooth transfer experience for Pensacola State College students. The Transfer Services link at www.flvc.org provides procedures for the resolution of admissions and transfer difficulties.

A student may contact a Pensacola State College advisor for resolution of credit or transfer difficulties.

Graduation Rates
Information regarding graduation rates and placement information is available as required by the Student Right to Know Act (Public Law 101-542) at www.pensacolastate.edu/gainful-employment-report/.

Graduation Requirements
All Programs
1. Complete all course requirements as specified in the program of study published in the Effective Catalog (the catalog in effect at the time the student first enrolled in the program). See Effective Catalog Policy (p. 62).
2. Submit a Graduation Application through Spyglass even if participation in a commencement ceremony is not planned. The Graduation Application prompts the analysis of the permanent record for graduation purposes.
3. Resolve all other requirements and satisfy all financial obligations to the College including parking and library fines.

Baccalaureate Degrees
1. Earn a minimum cumulative grade point average of 2.00 in all coursework completed at the College. If any course or courses have been attempted at any other college or university, the grades earned at the other institution(s) combined with the grades earned at Pensacola State College must also result in a minimum cumulative grade point average of 2.00;
2. Complete a minimum of 25% of degree requirements for the degree in residence at the College;
3. Complete the general education requirements for the Associate in Arts degree including earning grades of C or better in all writing-emphasis courses and mathematics courses; and
4. Demonstrate foreign language competency through successful completion of two sequential credits in high school foreign language or successful completion of a post-secondary elementary foreign language II course (the second course in a foreign language sequence), or other means as specified in institutional policy.

5. Individual baccalaureate degrees may have additional requirements. Consult with a Program Coordinator or Department Head when starting the program.

Associate in Arts Degree
1. Earn a minimum cumulative grade point average of 2.00 in all coursework completed at the College. If any course has or courses have been attempted at any other college or university, the grades earned at the other institution(s) combined with the grades earned at Pensacola State College must also result in a minimum cumulative grade point average of 2.00.
2. Complete a minimum of 25% of program requirements in residence at the College.
3. The student who began college in or after the fall 2014 semester must demonstrate foreign language competency through successful completion of two sequential credits in high school foreign language, or successful completion of a post-secondary elementary foreign language II course (the second course in a foreign language sequence), or other means as specified in institutional policy.

Associate in Science Degrees
1. Earn a minimum cumulative grade point average of 2.00 in all coursework completed at the College. If any work has been attempted at any other college or university, the grades earned at the other institution(s) combined with the grades earned at Pensacola State College must also result in a minimum cumulative grade point average of 2.00.
2. Have a cumulative grade point average of 2.00 or better in all courses applicable to the specific program of study
3. Complete a minimum of 25% of program requirements in residence at the College.

Certificate Programs
1. Earn a minimum cumulative grade point average of 2.00 in all coursework completed at the College. If any course has been attempted at any other college or university, the grades earned at the other institution(s) combined with the grades earned at Pensacola State College must also result in a minimum cumulative grade point average of 2.00.
2. Achieve appropriate minimum skill levels on the Test of Adult Basic Education (TABE) if required for the particular program of study. Students pursuing a certificate may be exempt from the TABE requirement based on a previously earned associate or higher degree. Contact the Program Coordinator or Department Head for more information.

Collegiate High School
1. Earn a cumulative grade point average of 2.00 in all courses required for graduation.
2. Earn at least three high school credits at the Pensacola State College Collegiate High School. One of these credits may be an approved dual enrollment course taken during enrollment in the Collegiate High School.
3. Earn a minimum of 24 high school credits as specified by Florida Statute 228.0422 to include the mandated credits in required courses and pass the Florida Comprehensive
Assessment Test (FCAT) or the High School Competency Test (HSCT), whichever is appropriate. The State Department of Education establishes minimum scores. The tests are given at no charge to the student and may be retaken if necessary. A student who does not pass the FCAT will not be awarded the high school diploma. However, the student’s permanent record will contain the notation of earning the Certificate of Completion. Collegiate High students are encouraged to discuss graduation requirements, such as End of Course exams, with their advisor of choice.

Commencement Ceremony

The College holds two commencement ceremonies: at the end of the Fall Term in December and at the end of the Spring Term in May. The Director of Student Life will mail information regarding graduation regalia (cap and gown rentals) and other information regarding the graduation ceremony.

Students who submit the Application for Graduation for a summer term will be eligible to participate in either the Fall Term or the Spring Term ceremony. A student is expected to submit the Graduation Application indicating the term of anticipated graduation not the term of participation in the Annual Commencement Ceremony. A Graduation Application must be submitted regardless of participation in the ceremony. The Graduation application is to be submitted through a student’s Spyglass record at www.pensacolastate.edu.

Graduation Exceptions and Appeals

Graduation Policy Exceptions

A student who wishes to request an exception to a particular aspect of Pensacola State College graduation policies may petition the Student Academic Appeals Committee. The form for this petition is available in any Student Services office and in the Office of the Registrar.

Course Substitutions or Waivers

A student who wishes to request the substitution of one course for a required course or request a waiver of a required course must discuss the request with the appropriate program director, Department Head, Dean, or an advisor. The request is to be submitted on a Course Substitution Request form, reviewed by the program director, appropriate Department Head and Dean, and submitted to the Registrar.

Effective Catalog Changes

Requests to change the effective catalog are to be submitted to the College Registrar. The change request process is to begin with the program director, Department Head, or an advisor.

Grade Grievance

No Pensacola State College administrator or standing committee is authorized to change the grade assigned by any instructor. See Grade Grievance Procedure (p. 32).

Exception: A student may petition the Student Academic Appeals Committee for a late withdrawal in a class for which an instructor has assigned an F grade for non-attendance. Documentation of extenuating and mitigating circumstances must be submitted. The form for this purpose is available in any Student Services office and the Office of the Registrar. A student may apply for a refund for a course and, if approved, any grade assigned for that course will be removed from the student record.

Minimum Hours in Residence

Pensacola State College will comply with the standards mandated by its regional accrediting authority, the Southern Association of Colleges and Schools Commission on Colleges, and shall award a degree or a certificate only to a student who complete a minimum of 25% of college credits applicable to the degree or certificate at Pensacola State College. No exception to this requirement will be granted.

Notification of Decisions

In most cases, decisions regarding appeals and request for exceptions, substitutions, and waivers will be provided to the student through the PirateMail account. Each student is expected to access PirateMail accounts at least once per week during a semester and more often during a registration period. PirateMail is the primary means of communication with the student from the College.

Honors

All students are eligible for academic achievement recognition at Commencement Ceremonies. Grade point averages are based on all credits attempted at Pensacola State College combined with transfer credits from other institutions attended including courses not used for the degree awarded. Associate degree students and baccalaureate students will graduate with honors according to three honors categories:

- **Cum Laude:** An honor awarded to students who achieve a cumulative GPA of 3.50 to 3.74;
- **Magna Cum Laude:** An honor awarded to students who achieve a cumulative GPA of 3.75 to 3.99; and
- **Summa Cum Laude:** An honor awarded to students who achieve a cumulative GPA of 4.00.

The commencement program is printed prior to the recording of final grades. For this reason, the commencement program as well as eligibility to obtain honors cords will be based on the cumulative grade point average achieved at the end of the term prior to the ceremony. The official Pensacola State College transcript and diploma will be based on the cumulative grade point average of the student at the time of official graduation. An appropriate notation will be placed on the student’s transcript and the diploma will be marked accordingly. All courses attempted, including transfer courses, will be calculated in determining the cumulative grade point average for all purposes including the honors designation.

Additional Degrees

The State of Florida authorizes the awarding of the associate in arts degree. Colleges are permitted to provide curricula, concentrations, or programs of study leading to the associate in arts degree to ease the transferability of state college students to the university. Earning more than one associate in arts degree is not possible, because there is only ONE associate in arts degree with various concentrations.

A student should pursue only one degree at a time. A student may request permission to pursue two programs simultaneously by submitting a request, reviewed by an advisor or program manager, to the Registrar’s Office.

An associate in science degree and an associate in applied science degree may not be earned in the same program of study.

The written degree plan for an additional associate in science or associate in applied science degree shall specify the prerequisite and core courses for the additional degree. In meeting those requirements, the student may use courses completed for a previous degree. However, the student must complete at least fifteen additional credits after being awarded the preceding degree. The additional fifteen credits may be core credits or general education credits, but are usually technical courses that support the
specific program of study. The degree plan including the additional courses must be approved in advance by the appropriate Department Head.

The degree plan for earning an associate in science or associate in applied science degree after earning the associate in arts degree shall specify the general education requirements to be met. In meeting those requirements, the student may use courses completed for the associate in arts degree. However, the student must complete at least fifteen additional credits after being awarded the associate in arts degree. The additional credits may be elective credits or general education credits. All other requirements for graduation remain in effect for students pursuing additional degrees (e.g., grade point average requirements, residency requirements, etc.).
Pensacola State College offers a wide variety of academic programs to the residents of the College’s service area. The focus of each program is to assist each student reach his or her educational or career goals.

The College offers baccalaureate degrees that prepare the student for a career or for career advancement in a business or healthcare field. Baccalaureate courses are available at a variety of times and in a variety of learning environments including online, hybrid, and face-to-face in order to accommodate both the full-time student as well as the working professional who is enrolled part-time.

Several Advanced Technical Certificates (ATCs) are available for the student who has completed an associate degree and wishes to gain specialized knowledge and earn an additional academic credential. In some cases, coursework required for an ATC articulates into an appropriate baccalaureate program at Pensacola State College allowing the student to move easily from an ATC into a baccalaureate program. The interested student should contact the appropriate Department Head or Program Coordinator for more information.

The Associate in Arts (AA) degree prepares the student for transfer into a baccalaureate degree program. Degree concentrations are available to assist each student with identifying appropriate courses for the intended four-year degree. A student earning the Associate in Arts degree may remain at Pensacola State College to complete a baccalaureate degree or transfer seamlessly to any state college or university in the state of Florida system.

Associate in Science (AS) degrees are specialized programs that prepare a student to enter a career field. These programs allow the student to gain career-specific information with an abbreviated general education curriculum; therefore, the Associate in Science degree focuses mainly on coursework specific to the discipline of the program. Associate in Science programs are built around curriculum frameworks produced by the Florida Department of Education. Program personnel for each program coordinate with an Advisory Council of local professionals to ensure that the program includes current information as well as marketable skills. Associate in Science programs do not have guaranteed transfer to universities; however, many AS programs will transfer into Pensacola State College baccalaureate programs.

A number of college credit certificates (CCC) are available for the student who wishes to learn specific skills or information and earn an academic credential. These programs are limited only to courses needed to deliver the knowledge that is specified in the curriculum framework provided by the Florida Department of Education. Most college credit certificates are embedded in AS programs, enabling a student to complete the CCC while progressing toward the AS degree.

Applied Technology Diploma programs prepare the student for immediate entry into a career. These programs require prescribed technical courses. Most credits earned in ATD programs will transfer into AA or AS programs.

Vocational certificate (clock hour) programs include instruction in required skills as specified in the Florida Department of Education curriculum frameworks to prepare the student for entry into the workforce. Vocational certificates are closely tied to the local workforce needs and offer a student a quick path to employment. Developmental education courses enable a student to attain the skills in communication and computation that are necessary for success at the college level. Once the necessary developmental education coursework in a subject area is complete, the student is prepared to enroll in college level courses that require placement at the college level.

Adult education courses are available to any adult wishing to improve basic academic skills or to prepare for the GED exam. Adult education courses are non-credit courses and are available at a variety of times and locations.

The Collegiate High School offers the opportunity for the student who is at least 16 years of age to earn the high school diploma. A student can earn high school credit in approximately half of the time required in a public high school. A Collegiate High School student may also take advantage of dual enrollment opportunities at the College and earn college credit while meeting the high school graduation requirements.

### BACALeUARETE DEGREE PROGRAMS

The Marjan Mazza Bachelor of Applied Science degree in Business and Management, the Bachelor of Applied Science in Cybersecurity, and the Bachelor of Science in Nursing degrees are baccalaureate programs designed to accommodate the unique demands for entry and advancement within specific workforce sectors. These programs provide degree completion opportunities for the student from any of a variety of educational backgrounds, but are primarily designed for the student with an earned associate degree.

Each baccalaureate student must complete the 36-credit-hour general education curriculum and satisfy the foreign language requirement as defined in the general education section of the catalog.

#### Marjan Mazza Bachelor of Applied Science in Business and Management

The Marjan Mazza Bachelor of Applied Science (BAS) in Business and Management includes seven areas of concentration: Graphic Design Management, Health Care Management, Human Resources Management, Law Enforcement Administration, Organizational Management, Project Management, and Public Safety Management. These concentrations were selected based on a needs assessment, employer demand for graduates, economic development trends, projected job growth, and student interest.

The Florida Panhandle is poised for industry growth and the BAS in Business and Management program at Pensacola State College is designed to provide highly-skilled employees for the knowledge-based leadership roles in our area. Anticipating our state economy to strengthen and continue the positive focus on diversification, Pensacola State College strives to ensure that the residents of the College’s service area have access to higher education that is dynamic, affordable, regionally-accredited, and easily accessible.

### MARJAN MAZZA BACHELOR OF APPLIED SCIENCE IN BUSINESS AND MANAGEMENT, GRAPHIC DESIGN MANAGEMENT CONCENTRATION (GRPH-BAS)

The BAS degree in Business and Management concentration in Graphic Design Management provides access to the student who already has skills in graphic design and hopes to advance to a higher level position within graphic design businesses. The upper-level coursework included in this concentration will broaden the student’s knowledge in graphic design and management practices with the goal of preparing the student for supervisory and management opportunities within graphic design professions.

**Note:** Any student interested in pursuing the BAS in Business and Management with a concentration in Graphic Design should meet with Kris Lien, Department Head of Visual Arts, in order to develop a personalized degree plan.

Mr. Lien can be contacted by e-mail at klien@pensacolastate.edu or by telephone at (850) 484-2554. A student with an AA degree must complete an additional 21 credit hours in courses at the lower division 1000 and 2000 level with a prefix of ARH, ART, GRA, or PGY in order to enroll in the Graphic Design Concentration or have earned an A5 or AAS degree in Graphic Design.

### MARJAN MAZZA BACHELOR OF APPLIED SCIENCE IN BUSINESS AND MANAGEMENT, HEALTH CARE MANAGEMENT CONCENTRATION (HCMG-BAS)

The BAS degree in Business and Management concentration in Health Care Management provides access to the student who already has skills in a health care provider field and wishes to advance to higher level supervisory and management positions in health care. The upper-level coursework in this concentration broadens the student’s knowledge in health care management practices and prepares the student for supervisory and management opportunities within his or her chosen field.
Admission requires an AS degree, an AA degree, or at least sixty credits in a related discipline including at least fifteen credit hours of transferable general education coursework.

For AS graduates, additional general education credits are required to complete the 36 credit hour general education requirement of Pensacola State College.

BACHELOR OF APPLIED SCIENCE IN CYBERSECURITY (CYSEC-BAS)

The Bachelor of Applied Science (BAS) degree in Cybersecurity is built on the eight fundamental domains identified in the world renowned ISC² Certified Information Security System Professional (CISSP) Certification. Graduates of this BAS degree program who enter from the preferred academic pathway, Associate in Science in Cybersecurity, will be prepared to earn 17 industry standard certifications (9 at the associate level and 8 at the baccalaureate level). These certifications have been identified by industry partners as highly desirable in employees, provide quantifiable knowledge and skills in a specific technology, and are recognized worldwide. Throughout the program, students will work in a hands-on environment that will reinforce theoretical concepts and enable students to apply knowledge in real-world situations.

The program curriculum includes upper level courses in database, cloud, and operating system security in addition to risk management, ethics, and security testing. The curriculum, including the Associate in Science in Cybersecurity, includes 84 credit hours of cybersecurity coursework (42 credit hours at the
Each baccalaureate student must meet the foreign language requirement as defined in the general education section of the catalog.

BACHELOR OF SCIENCE IN NURSING (NUR-BSN)

The mission of the Department of Nursing is to provide quality educational opportunities for students seeking to enter or advance in the nursing profession. The Department of Nursing is committed to creating a learning environment that fosters academic, personal and professional growth by supporting the professional nursing standards of care to meet health care needs of the community.

The Bachelor of Science in Nursing (RN to BSN) program is designed to prepare the graduate of an Associate Degree in Nursing (ADN) program, who already holds a Registered Nursing (RN) license, with additional skills in management, leadership, theory, research, and evidence-based practice to succeed and be promoted within the nursing profession. The BSN graduate will be qualified for supervisory jobs such as nurse manager and other advanced bedside clinical care jobs. He or she will also be qualified for supervisory jobs such as nurse manager and other advanced bedside clinical care jobs. He or she will also be qualified for supervisory jobs such as nurse manager and other advanced bedside clinical care jobs. He or she will also be qualified for supervisory jobs such as nurse manager and other advanced bedside clinical care jobs. He or she will also be qualified for supervisory jobs such as nurse manager and other advanced bedside clinical care jobs. He or she will also be qualified for supervisory jobs such as nurse manager and other advanced bedside clinical care jobs. He or she will also be qualified for supervisory jobs such as nurse manager and other advanced bedside clinical care jobs.

The Bachelor of Science in Nursing program is a candidate for accreditation with the Accreditation Commission for Education in Nursing (ACEN) and the Commission on Collegiate Nursing Education (CCNE).

Requirements for Progression

1. Grade of C or higher in courses in the curriculum;
2. Current CPR certification at the HealthCare Provider level (American Heart Association); and
3. Satisfactory level of mental and physical health, including current immunizations, Hepatitis B vaccinations, yearly TB testing, and ability to meet course requirements for practicum experiences.
The student who does not meet progression requirements must withdraw from the BSN program and apply for readmission. Applicants to the RN to BSN program will be admitted with varying levels of experience and education. Depending upon the number of general education requirements completed at the time of admission, an entering BSN student can complete the nursing core courses in 3, 4, or 5 semesters. Therefore, it is important that each student meet with the BSN Program Coordinator or Director of Nursing to plan an individualized course of study.

### DEGREE REQUIREMENTS

#### General education courses (36 cc)
BSN students must complete the 36 credit hour general education curriculum (p. 84).

The BSN program requires MAC 1105, STA 2023, HUN 1201, and CHM 1045 as general education courses.

Each baccalaureate student must meet the foreign language requirement as defined in the general education section of the catalog.

#### Lower level degree requirements (12 cc)

ADVANCED TECHNICAL CERTIFICATES

Several Advanced Technical Certificates (ATCs) are available for the student who has completed an associate degree and wishes to gain specialized knowledge and earn an additional academic credential. In some cases, coursework required for an ATC articulates into an appropriate baccalaureate program at Pensacola State College allowing the student to move easily from an ATC into a baccalaureate program. The ATC student must complete a minimum of 25% of the credit hours of the program in residence at Pensacola State College immediately prior to graduation. The interested student should contact the appropriate Department Head or Program Coordinator for more information.

Business and Management Advanced Technical Certificate Programs

An Advanced Technical Certificate (ATC) is a program of study for a student who has completed an associate degree and chooses to obtain additional skills. Each baccalaureate level ATC includes between 24 and 33 credit hours of coursework, the majority of which are at the baccalaureate level, that articulate into the Bachelor of Applied Science in Supervision and Management degree.

HUMAN RESOURCE MANAGEMENT ADVANCED TECHNICAL CERTIFICATE (HRM-ATC)

The Human Resources Management ATC is designed for the student with an interest in increasing his or her knowledge in issues related to human resources and management. Admission requires an associate degree from a regionally-accredited college. The preferred academic pathway into this ATC is the Associate in Science in Business Administration. Any applicant from any other academic pathway will be required to complete MNA1300 Human Resources Management (p. 228), MAN2021 Principles of Management (p. 224), and COM2100 Business Communication (p. 194) prior to enrolling in this program. The admissions process for this ATC follows the baccalaureate admissions process (p. 36).

For more information or for academic advising, contact the Department of Business at (850) 484-2503.

LAW ENFORCEMENT ADMINISTRATION ADVANCED TECHNICAL CERTIFICATE (LEA-ATC)

The Law Enforcement Administration ATC is for the student with an interest in increasing his or her knowledge in this field. Admission requires an associate degree from a regionally-accredited college. The preferred academic pathway into this program is the Associate in Science in Criminal Justice Technology. An applicant from any other academic pathway should contact the Department of Business to review their academic preparation for this program.

The admissions process for this ATC follows the baccalaureate admissions process (p. 36).

For more information or for academic advising, contact the Department of Business at (850) 484-2503.

PROJECT MANAGEMENT ADVANCED TECHNICAL CERTIFICATE (PM-ATC)

The Project Management Advanced Technical Certificate (PM-ATC) is for students with an interest in increasing their knowledge in project management. Admission requires an associate degree from a regionally-accredited college. The preferred academic pathway into this ATC is the Associate in Science in Business Administration. An applicant from any other academic pathway will be required to complete; MNA1300 Human Resources Management, MAN2021 Principles of Management, COM2100 Business Communications, and three credit hours of accounting (ACG prefix) before entering this program.

The admissions process for this ATC follows the baccalaureate admissions process (p. 36).

For more information or for academic advising, contact the Department of Business at (850) 484-2503.

Nursing Advanced Technical Certificate
Programs

CRITICAL CARE NURSING ADVANCED TECHNICAL CERTIFICATE (CCN-ATC)

This advanced certificate is designed for the registered nurse who has had no previous experience in critical care. At the completion of this course, it is expected that the nurse will be able to practice independently at the beginning level in a high acuity setting. Course content includes knowledge and skills required to provide nursing care to patients with multisystem disorders.

CERTIFICATE REQUIREMENT
Required Course (9 cc)
NSP 2270C Critical Care Nursing 9 cc

PERIOPERATIVE NURSING ADVANCED TECHNICAL CERTIFICATE (PERI-ATC)

This advanced certificate is designed for the registered nurse who has no previous experience in the Operating Room. At the completion of this course, it is expected that the nurse will be able to practice independently at the beginning level in a perioperative position. Course content includes knowledge and skills required to provide care to patients having surgical intervention during the peroperative, intraoperative, and postoperative periods. Emphasis will be placed on performing those functions directly related to scrubbing and circulating for selected surgical procedures.

CERTIFICATE REQUIREMENT
Required Course (9 cc)
NSP 2290C Perioperative Nursing 9 cc
ASSOCIATE IN ARTS PROGRAM (UNIVERSITY TRANSFER)

The Associate in Arts (AA) degree is a single degree issued by the College. The College has designed several areas of concentration to assist the student in transferring to a baccalaureate program. Those concentrations are listed in the Programs of Study section of this Catalog. The general education component of each concentration will meet the goals established by the state as well as the standards for accreditation.

The Associate in Arts (AA) degree is designed to prepare a student for entry into the junior year in an appropriate baccalaureate degree. The AA degree is a university parallel, college transfer degree comprised of 36 general education credits and 24 college elective credits.

Any student who knows the Associate in Arts area of study he or she plans to pursue at the upper-division may elect to customize his or her studies at Pensacola State College in accordance with the requirements of a particular college or university. Counselors and academic advisors are available to help the student who wishes to pursue this option. With the help of a counselor or an advisor, a student may take the choice of electives which will be the most advantageous to the pursuit of a particular bachelor's degree. (See Option to Follow University General Education Requirements.)

Areas of Concentration

The following are pre-planned sets of electives for the areas of concentration to complete the requirements for an Associate in Arts Degree:

- Agricultural Science (p. 87)
- Art (p. 87)
- Biology (p. 88)
- Biochemistry (p. 89)
- Business (p. 89)
- Chemistry (p. 90)
- Computer Information Systems (p. 91)
- Computer Science (p. 91)
- Criminal Justice (p. 92)
- Early Childhood Teacher: Pre-Primary (p. 93)
- Education (p. 94)
- English (p. 94)
- Environmental Science (p. 95)
- General Studies (p. 96)
- History—Public Service (p. 97)
- Horticultural Science/Golf and Sport Turf Management (p. 104)
- Human Performance and Recreation Exercise Science/Athletic Training (p. 97)
- Human Performance and Recreation - Community Health Education (p. 98)
- Human Performance and Recreation Physical Education (p. 99)
- Journalism (p. 100)
- Mathematics (p. 101)
- Music (p. 102)
- Natural Resource Conservation/Pre-Forestry (p. 102)
- Philosophy (p. 103)
- Physics (p. 103)
- Pre-Clinical Laboratory Sciences (p. 105)
- Pre-Engineering (p. 106)
- Pre-Law/Pre-Legal Administration (p. 106)
- Pre-Medical/Dental/Veterinary Studies (p. 107)
- Pre-Nursing (p. 108)
- Pre-Pharmacy (p. 109)
- Pre-Physical Therapy (p. 109)
- Psychology (p. 110)
- Social Sciences (p. 111)
- Social Work (p. 111)
- Theatre (p. 112)

Option to Follow University General Education Requirements

A student who wishes to take a planned transfer program of studies not outlined in the Pensacola State College catalog may use such a program for graduation if he or she meets the following guidelines.

1. Meets with a Pensacola State College counselor to review the proposed plan. The counselor will check course prerequisites and approve the plan in writing.

2. Within the student’s first 30 hours of credits, his or her alternate plan must be approved by a counselor and the relevant dean.

3. The student must then complete at least 30 credit hours at Pensacola State College.

Alternate plans will be for a specific institution and must include documentation. The student will, upon completion of the model institution’s first two years’ academic work (at least 60 credits), be graduated with an Associate in Arts degree. The student’s transcript will not be stamped “General Education Requirements Met” unless the student has, in fact, completed the general education requirements at Pensacola State College.

Meta-Majors

A meta-major is a collection of academic programs that have common or related content (s. 1008.02(3), F.S.). All meta-majors require ENC1101C English Composition I as the gateway course in communications. However, the gateway course in mathematics varies by meta-major. Meta-major academic pathways have been established to advise students of the gateway courses in mathematics that are aligned with specific academic and career goals.

Review the meta-major program table to identify Pensacola State College programs that are associated with each meta-major and the appropriate mathematics gateway course(s).

GENERAL EDUCATION
(BACCALAUREATE AND ASSOCIATE IN ARTS PROGRAMS)

The general education program at Pensacola State College provides the student with a broad range of knowledge and skills that have enduring value, no matter what path in life a student pursues. The foundation built through the general education courses prepares individuals not only for a baccalaureate or associate degree but for lifelong learning as well.

All baccalaureate and associate degree programs at the College include a general education component, which is a substantial part of each degree. Thirty-six credit hours of general education courses are required in the Bachelor of Applied Science in Supervision and Management, Bachelor of Science in Nursing, and the Associate in Arts degrees. Associate in Science degrees require a minimum of 15 college credit hours of general education courses.

The general education requirements at Pensacola State College are designed to ensure breadth of knowledge. Coursework in Communications, Humanities, Mathematics, Natural Sciences, and Social Sciences is required. No course in the general education program may narrowly focus on skills, techniques, or procedures specific to a particular occupation or profession; instead, general education courses serve as an introduction to a wide range of knowledge and a broad overview of various disciplines and subject matters.

Global Learning Outcomes

Each student who completes the general education program at Pensacola State College will have achieved the following outcomes:

1. CRITICAL THINKING: Evaluate the validity of ideas, developing informed opinions or defensible conclusions.
2. COMMUNICATION: Effectively communicate knowledge and ideas.
3. SCIENTIFIC AND MATHEMATICAL LITERACY: Properly identify and apply scientific or mathematical principles and methods.
4. INFORMATION LITERACY: Effectively locate, evaluate, and apply information from a variety of sources.
5. CULTURAL LITERACY: Demonstrate an understanding of human culture and its diversity.

Minimum Grades

An AA student must maintain an overall GPA of 2.0 or higher and must earn a minimum grade of C or better in each course meeting the general education requirement. An overall GPA includes the Pensacola State College cumulative GPA as well as any transfer courses earned prior to enrollment at Pensacola State College.

Non-Traditional Credits

An AA student may not earn more than 15 credits hours of the general education course work through non-traditional credits. Non-traditional credits include the following: credits earned through CLEP, departmental exemption examination, PLA, and all other credits described under “Non-Traditional Credits” in the Registration and Credits section.

Excess Hours Advisory Statement

Florida Statute, establishes an “excess hour” surcharge for a student seeking a baccalaureate degree at a state university. It is critical that students, including those entering Florida State colleges, are aware of the potential for additional course fees.

“Excess hours” are defined as hours that go beyond 120% of the hours required for a baccalaureate degree program. For example, if the length of the program is 120 credit hours, the student may be subject to an excess hour surcharge for any credits attempted beyond 144 credit hours (120 x 120%).

All students whose educational plan may include earning a bachelor’s degree should make every effort to enroll in and successfully complete those courses that are required for their intended major on their first attempt. Florida college students intending to transfer to a state university should identify a major or transfer program early and be advised of admission requirements for that program, including the approved common prerequisites. Course withdrawals and/or repeats as well as enrollment in courses non-essential to the intended major may contribute to a potential excess hours surcharge.

Foreign Language Requirement

A student who is enrolling in college for the first time (not a transfer student) in Fall 2014, or thereafter, and anticipates earning a baccalaureate degree or an Associate in Arts degree must meet the foreign language requirement. The foreign language requirement may be met with two semesters of the same foreign language in high school, two semesters of the same foreign language in college, the second semester of a freshman-level foreign language course, or appropriate scores on an external test for a foreign language.

An alternate method for students to demonstrate equivalent foreign language competence is by credit awarded on the basis of scores on the foreign language subject matter examinations in the College Level Examination Program (CLEP) as indicated in FAC Rule 6A-10.024(5)(b), which shall count toward the eight to ten semester hours. The examination, minimum scores for awarding credit, and maximum credit to be awarded are as follows.

</table>

A student who received an Associate in Arts degree prior to September 1, 1989, or who enrolled in a program of studies leading to an Associate in Arts degree from a Florida state college prior to August 1, 1989, and has maintained continuous enrollment shall be exempt from this admissions requirement. Any lower division student admitted without meeting the foreign language requirement must earn such credits prior to admission to the upper division of a state university. Any AA degree graduate from a public community college admitted without meeting the foreign language requirement must earn such credits prior to graduation from a state university.

Writing Emphasis Requirement

Per State Board of Education Rule 6A-10.030, hereafter referred to as the Writing Emphasis Requirement, prior to receipt of a baccalaureate or Associate in Arts degree from a public college or university, a student shall earn a grade of C or higher in at least twelve (12) college credit hours in which the student is required to
demonstrate college-level writing skills through multiple assignments.

The student pursuing a baccalaureate or AA degree is required to complete ENC1101C, ENC1102, and one literature course within the general education curriculum. These required courses satisfy nine (9) of the required writing emphasis credits. The remaining three (3) college credit hours of writing emphasis coursework must be earned through the completion of a second literature course or one of the courses listed below with a grade of C or higher.

**WRITING EMPHASIS COURSES**

**Humanities Writing Emphasis Courses**
- HUM 2020 Introduction to Humanities 3 cc
- DAN 2010 Dance Appreciation 3 cc
- MUH 2110 Introduction to Music History 3 cc
- PHI 2010 Introduction to Philosophy 3 cc

- SPAN 1121 Beginning Spanish II 4 cc

**Mathematics (6 cc)**

A student who is required to complete MAT1033C Intermediate Algebra before enrolling in a higher level mathematics course is strongly encouraged to enroll in MAT1033C during the first semester at Pensacola State College.

**Choose two courses.**
- MAC 1105 College Algebra 3 cc
- MAC 2311 Analytic Geometry and Calculus I 4 cc
- MGF 1106 Mathematics for Liberal Arts I 3 cc
- MGF 1107 Mathematics for Liberal Arts II 3 cc
- STA 2023 Elementary Statistics 3 cc
- MAC 1114 Plane Trigonometry 3 cc
- MAC 1140 Precalculus Algebra 3 cc
- MAC 1147 Precalculus Algebra/Trigonometry 4 cc
- MAC 2233 Calculus with Business Applications I 3 cc
- MAC 2312 Analytic Geometry and Calculus II 4 cc
- MAC 2313 Analytic Geometry and Calculus III 4 cc
- MAP 2302 Differential Equations 3 cc

**Mathematics elective**
- COP 1510 Programming Concepts 3 cc

**Natural Sciences (6 cc)**

Choose one core course, either biological science or physical science.

If a biological science is chosen from the core, the second natural sciences course must be a physical science course (elective or core).

If a physical science is chosen from the core, the second natural sciences course must be a biological science course (elective or core).

### General Education Electives (6 cc)

The student must choose additional general education courses.
Associate in Arts Concentrations

AGRICULTURAL SCIENCE ASSOCIATE IN ARTS (AGSCI-AA)

The Agricultural Science program provides the first two years of a four-year baccalaureate degree. Students finishing the program will be prepared to enter the Florida Agricultural and Mechanical University agricultural program in Agriculture Science.

Students should consult with an advisor at the College or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Biological Sciences Department for assistance in planning your program of study.

</table>

See general education course list (p. 84) for general education course options.
Semester 3 (15 cc)
- Humanities (Literature LIT, AML, or ENL prefix) 3 cc
- Social Sciences (General Education Core Course) 3 cc
- Natural Sciences (General Education Core Course) 3 cc
- Natural Science Companion Lab 1 cc
- Any Electives 2 cc
- Choose one of the following courses:
  - Foreign Language I 3 cc
  - ART 2500C Painting I 3 cc
  - ART 2701C Sculpture I 3 cc

Foreign Language I must be selected if this requirement has not been met.
The required companion lab may be taken this semester or with the Natural Science course in semester 4.

See general education course list (p. 84) for general education course options.

Semester 4 (15 cc)
- Humanities (General Education Core Course) 3 cc
- Any Natural Sciences General Education Course 3 cc
- Any Social Sciences General Education Course 3 cc
- Program Electives 3 cc
- Choose one of the following courses:
  - Foreign Language II 3 cc
  - SPC 1608 Public Speaking 3 cc
  - SPC 2300 Interpersonal Communication 3 cc

Foreign Language II must be selected if the foreign language requirement has not been met.
If a biological science was selected in semester 3, then a physical science must be selected in semester 4. If a physical science was selected in semester 3, then a biological science must be selected in semester 4.

See general education course list (p. 84) for general education course options.

Program Electives
Students must select electives from the following list of courses:
- ART 1150C Jewelry I 3 cc
- ART 1151C Jewelry II 3 cc
- ART 1400C Print Making I 3 cc
- ART 1401C Print Making II 3 cc
- ART 1750C Ceramics I 3 cc
- ART 1751C Ceramics II 3 cc
- ART 2500C Painting I 3 cc
- ART 2501C Painting II 3 cc
- ART 2701C Sculpture I 3 cc
- ART 2702C Sculpture II 3 cc
- ART 2185C Glass Blowing 3 cc
- PGY 2401C Photography I 3 cc
- PGY 2404C Photography II 3 cc

Total Credit Hours: 60

BIOLOGY ASSOCIATE IN ARTS (BIO-AA)
The AA Biology curriculum provides the first two years of college education leading to a baccalaureate degree in one of the biological sciences and will insure articulation into the major at Florida SUS institutions.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Biological Sciences Department for assistance in planning your program of study.

Department Head:
Matt Drum, (850) 484-1167
mdrum@pensacolastate.edu

DEGREE REQUIREMENTS

Semester 1 (14 cc)
- BSC 2010 Principles of Biology 3 cc
- BSC 2010L Principles of Biology Laboratory 1 cc
- CHM 1045 General Chemistry I 3 cc
- CHM 1045L General Chemistry I Laboratory 1 cc
- ENC 1101C English Composition I 3 cc
- MAC 1105 College Algebra 3 cc

Semester 2 (17 cc)
- BSC 2023 Principles of Biological Diversity 3 cc
- BSC 2023L Principles of Biological Diversity Laboratory 1 cc
- CHM 1046 General Chemistry II 3 cc
- CHM 1046L General Chemistry II Laboratory 1 cc
- ENC 1102 English Composition II 3 cc
- ENC 1102L English Composition II Laboratory 1 cc
- MAC 1105 College Algebra 3 cc

One Social Science or Humanities general education course must be a writing emphasis course. See general education course list (p. 84) for general education course options.

Semester 3 (16 cc)
- CHM 2210 Organic Chemistry I 3 cc
- CHM 2210L Organic Chemistry I Laboratory 1 cc
- Program Elective(s) (Foreign Language I) 9 cc
- Any Social Sciences General Education Course 3 cc

Foreign Language I must be selected if this requirement has not been met.
One Social Science general education course must be a writing emphasis course. See general education course list (p. 84) for general education course options.

Semester 4 (13 cc)
- CHM 2211 Organic Chemistry II 3 cc
- CHM 2211L Organic Chemistry II Laboratory 1 cc
- STA 2023 Elementary Statistics 3 cc
- Humanities (Literature LIT, AML, or ENL prefix) 3 cc
- General Education Elective or Foreign Language I 3 cc

If the Foreign Language II requirement has been met, students must select a general education elective from an area other than Natural Sciences. See general education course list (p. 84) for general education course options.
### BIOCHEMISTRY ASSOCIATE IN ARTS (BCHEM-AA)

This program provides the first two years of a four-year university program leading to a baccalaureate degree in biochemistry. The Pensacola State College curriculum has the necessary SUS prerequisite courses for a completer to begin upper-division work as a university junior in the major.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Physical Sciences Department for assistance in planning your program of study.

Foreign Language II must be selected if this requirement has not been met. If Foreign Language II requirement has been met, students must select a General Education Elective from an area other than Natural Sciences. See general education course list (p. 84) for general education course options.

### BUSINESS ASSOCIATE IN ARTS (BUS-AA)

Provides the first two years of a four-year university program leading to a baccalaureate degree in accounting, business administration, economics, finance, management, or marketing. However, the student who desires to postpone pursuit of a bachelor’s degree will have acquired sufficient knowledge and skill upon completion of this two-year program to be ready for employment.

Students wishing to transfer to UWF, FSU, or UF should consult with a counselor to select appropriate electives. Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution.

We strongly encourage you to contact the Pensacola State College Business Department for assistance in planning your program of study.
**DEGREE REQUIREMENTS**

**Semester 1 (16 cc)**
- ACG 2021 Financial Accounting Principles 3 cc
- CGS 1570 Computer Concepts and Applications 3 cc
- ENC 1101C English Composition I 3 cc
- MAC 1105 College Algebra 3 cc
- MAC 2311 Analytic Geometry and Calculus I 4 cc
- MNA 1300 Human Resource Management 3 cc
- MNA 2100 Human Relations 3 cc

The required companion lab may be taken this semester or with the natural science course in semester 2.

See general education course list (p. 84) for general education course options.

**Semester 2 (15 cc)**
- ACG 2071 Introduction to Managerial Accounting 3 cc
- ENC 1102 English Composition II 3 cc
- STA 2023 Elementary Statistics 3 cc
- MAC 2312 Analytic Geometry and Calculus II 4 cc
- PHY 2048 Physics I with Calculus 4 cc

If a biological science course was selected in semester 1, then a physical science course must be selected in semester 2. If a physical science was selected in semester 1, then a biological science course must be selected in semester 2.

Foreign Language I must be selected if this requirement has not been met.

See general education course list (p. 84) for general education course options.

**Semester 3 (15 cc)**
- ECO 2013 Macroeconomics 3 cc
- MAC 2233 Calculus with Business Applications I 3 cc
- SPC 1608 Public Speaking 3 cc
- MAC 2313 Analytic Geometry and Calculus III 4 cc
- PHY 2048L Physics I with Calculus Laboratory 1 cc

Foreign Language II must be selected if this requirement has not been met.

See general education course list (p. 84) for general education course options.

**Semester 4 (14 cc)**
- ECO 2023 Microeconomics 3 cc
- PSY 2012 General Psychology 3 cc
- MAN 2021 Principles of Management 3 cc
- STA 2023L Elementary Statistics Laboratory 1 cc
- PHY 2048L Physics I with Calculus Laboratory 1 cc

Foreign Language I must be selected if this requirement has not been met. If the Foreign Language I requirement has been met, students must select from the Program Electives shown.

See general education course list (p. 84) for general education course options.

**Program Electives**

Students must select 5 credits from the following list courses:
- BUL 2241 Business Law 3 cc
- GEB 2112 Entrepreneurship 3 cc
- GEB 2430 Business Ethics 3 cc
- MAN 1161 Customer Service 3 cc
- MNA 1300 Human Resource Management 3 cc
- MNA 2100 Human Relations 3 cc

**Total Credit Hours: 60**

**CHEMISTRY ASSOCIATE IN ARTS (CHEM-AA)**

This program provides the first two years of a four-year university program leading to a baccalaureate degree in chemistry. The Pensacola State College curriculum has the necessary SUS prerequisite courses for a completer to begin upper-division work as a university junior in the major.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Physical Sciences Department for assistance in planning your program of study.

**Department Head:**

- CHM 2210 Organic Chemistry I 3 cc
- CHM 2210L Organic Chemistry I Laboratory 1 cc
- MAN 2021 Principles of Management 3 cc
- STA 2023L Elementary Statistics Laboratory 1 cc
- STA 2023L Elementary Statistics Laboratory 1 cc
- STA 2023L Elementary Statistics Laboratory 1 cc

Foreign Language I must be selected if this requirement has not been met. If the Foreign Language I requirement has been met, students must select from the Program Electives shown.

See general education course list (p. 84) for general education course options.
ACADEMIC PROGRAMS

COMPUTER INFORMATION SYSTEMS
ASSOCIATE IN ARTS (COMP-AA)

This Associate in Arts degree concentration leads to employment in technical computer-related jobs such as a programmer or systems analyst. The AA program meets prerequisites for transfer to the University of West Florida B.S. in Computer Science (Computer Information Systems option) program as well as similar programs at other universities.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Computer Science Department for assistance in planning your program of study.

Department Head:
Kirk Bradley, (850) 484-1128
kbradley@pensacolastate.edu

Program Contact:
Rich Cacace, (850) 484-2052
rcacace@pensacolastate.edu

DEGREE REQUIREMENTS

Semester 1 (15 cc)
- ACG 2021 Financial Accounting Principles 3 cc
- CGS 1570 Computer Concepts and Applications 3 cc
- ENC 1101C English Composition I 3 cc
- MAC 1105 College Algebra 3 cc
- ECO 2023 Microeconomics 3 cc

Semester 2 (16 cc)
- COP 1510 Programming Concepts 3 cc
- ACG 2071 Introduction to Managerial Accounting 3 cc
- ENC 1102 English Composition II 3 cc
- Natural Sciences (General Education Core Course) 3 cc
- Humanities (General Education Core Course) 3 cc

See general education course list (p. 84) for general education course options.

Semester 3 (15 cc)
Foreign Language I must be selected if this requirement has not been met.
- COP 2800 Java Programming 3 cc
- ECO 2013 Macroeconomics 3 cc
- Humanities (Literature LIT, AML, or ENL prefix) 3 cc
- Program Elective(s) (Foreign Language I) 3 cc
- Any Natural Sciences General Education Course 3 cc

See general education course list (p. 84) for general education course options.

Semester 4 (14 cc)
Foreign Language II must be selected if the foreign language requirement has not been met.
- COP 2224 C++ Programming 3 cc
- MAC 2233 Calculus with Business Applications I 3 cc
- Any Social Sciences General Education Course 3 cc
- General Education Elective or Foreign Language II 3 cc
- Any Electives 2 cc

See general education course list (p. 84) for general education course options.

COMPUTER SCIENCE ASSOCIATE IN ARTS (CMPSC-AA)

This field leads to employment in technical computer-related jobs such as programmer or systems analyst. The AA program meets prerequisites for transfer to the University of West Florida B.S. in Computer Science (Computer Science option) program as well as similar programs at other universities.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Computer Science Department for assistance in planning your program of study.

Department Head:

See general education course list (p. 84) for general education course options.

---

**CRIMINAL JUSTICE ASSOCIATE IN ARTS (LAW-AA)**

This curriculum prepares students for transfer to a four-year institution after completing two years at Pensacola State College. Because of the interdisciplinary nature of Criminal Justice, this program may be attractive for those planning to enter law, behavioral and social sciences. Students planning to enter this program should contact the Department for assistance in planning for their careers.  
Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Business Department for assistance in planning your program of study.

EDUCATION ASSOCIATE IN ARTS (TEACH-AA)

Provides the first two years of baccalaureate program in teacher education. The program serves students who plan to teach in preprimary, early childhood, elementary, middle grades, special education or related settings. Students who want to teach in a high school setting (grades 9 through 12) should major in the appropriate content area.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Education Department for assistance in planning your program of study.

Two courses, EDF 1005 and EDF 2085, require service learning in a public school setting. Background checks may be required.

Department Head:
Susan Morgan, (850) 484-1425
smorgan@pensacolastate.edu

**GENERAL STUDIES (LIBERAL ARTS)**

**ASSOCIATE IN ARTS (GEN-AA)**

Students who do not yet know in what area they plan to major or which upper-division school to which they plan to transfer may pursue the AA degree through a program of general studies. This route to the AA degree provides an avenue for students to take any college credit electives, in addition to the general education program requirements without following any one of the preplanned areas of concentration listed in this catalog. Students need to be aware that few universities or colleges offer a general degree. Upon application to a university, the student must commit to a degree. Students are advised to work closely with a counselor or departmental advisor to insure the courses taken at Pensacola State College will meet the student’s major requirements.
HISTORY – PUBLIC SERVICE
ASSOCIATE IN ARTS (HIST-AA)

The History—Public Service AA is designed to meet the academic needs of students who have a strong interest in history. This program provides students an opportunity to begin studies for upper division work in history, political science, law and education. Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College History, Languages, and Social Sciences Department for assistance in planning your program of study.

Department Head:
Susan Morgan, (850) 484-1425

BSC1094 and BSC1094L are recommended electives.

Total Credit Hours: 60

JOURNALISM ASSOCIATE IN ARTS (JOURN-AA)

This program stresses the basics of news and feature writing in a real life setting. Students gain practical experience as they produce the student newspaper, The Corsair. Internships with area publications may be available to students who excel. Required courses provide the liberal arts background that most universities and editors recommend.

Each student should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. The interested student should contact the English and Communications Department for assistance in planning the program of study.

MUSIC ASSOCIATE IN ARTS (MUSIC-AA)

This program is designed to provide students with basic skills and concepts in the field of music and to prepare the student completely for transfer to an upper-level institution. Students may choose as their principal instrument—piano, voice, organ, all woodwind instruments, all brass instruments, percussion, guitar, and strings. Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Performing Arts Department for assistance in planning your program of study.

Department Head:
Don Snowden, (850) 484-1802
dsnowden@pensacolastate.edu

DEGREE REQUIREMENTS

THIS PROGRAM IS UNDER REVIEW, CONTACT THE DEPARTMENT FOR MORE INFORMATION

NATURAL RESOURCE CONSERVATION/PRE-FORESTRY ASSOCIATE IN ARTS (TREE-AA)

This program of study offers the first two years of a baccalaureate degree program in forestry, wildlife ecology or resource conservation. Working in close cooperation with an academic advisor, Natural Resource Conservation students prepare programs of study according to their educational career goals, or they follow one of several specialized options. Natural Resource Conservation graduates find employment in government agencies, consulting firms and environmental education programs. This program was developed with agreement from several leading universities in forest studies including the University of Florida, Auburn University, University of Georgia and Mississippi State University. Two plus two scholarships between Pensacola State College and the University of Florida, Milton Campus, are available each year to graduating high school seniors.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Biological Sciences Department for assistance in planning your program of study. If you plan to transfer to the University of Florida, Milton Campus, please contact Dr. Anthea Amos, Dean, (850) 484-4463 or UF Academic Programs (850) 983-5416 to make sure you meet UF preadmission requirements.

PHILOSOPHY ASSOCIATE IN ARTS (PHIL-AA)

This program is suggested for students who wish to pursue an AA degree with a concentration in philosophy. It will provide an excellent basis for anyone who plans to continue toward a higher degree in the liberal arts or the humanities.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College History/Languages/Social Sciences Department for assistance in planning your program of study.

Foreign Language II must be selected if this requirement has not been met. If Foreign Language II requirement has been met, students must select a general education elective from an area other than Natural Sciences.

See general education course list (p. 84) for general education course options.

Total Credit Hours: 60

PLANT SCIENCE/ENVIRONMENTAL HORTICULTURAL ASSOCIATE IN ARTS (HORT-AA)

Prepares students for transfer to a four-year institution after completion of two years at Pensacola State College. Landscape and Nursery Horticulture exposes students to the art and science of breeding, installing and maintaining plants that are used to enhance and improve the human environment. This interdisciplinary program combines the study of landscape and nursery horticultural sciences with the study of business, management and communications.

Horticultural Science graduates look forward to careers as nursery managers/owners, landscape designers, garden magazine journalists, environmental restoration consultants, plant breeders/inspectors and municipal horticulturalists. Career opportunities include work with golf courses, athletic fields, lawn care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms and governmental agencies, as well as preparation for graduate school. Job opportunities are plentiful for individuals with targeted educational backgrounds and experience in nursery and landscape management.

This program was developed with agreement from the University of Florida, Milton Campus. Two plus two scholarships between Pensacola State College and the University of Florida are available each year to graduating seniors.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State Biological Sciences Department for assistance in planning your program of study. If you plan to transfer to the University of Florida, Milton Campus, please contact Dr. Anthea Amos, Dean, (850) 484-4463 or UF Academic Programs (850) 983-5216 to make sure you meet UF preadmission requirements.

hbc@pensacolastate.edu
Thor Garber, (850) 484-1105
tgarber@pensacolastate.edu

DEGREE REQUIREMENTS

Semester 1 (14 cc)
CHM 1045 General Chemistry I 3 cc
CHM 1045L General Chemistry I Laboratory 1 cc
ENC 1101C English Composition I 3 cc
MAC 2311 Analytic Geometry and Calculus I 4 cc
Any Biological Science General Education Course 3 cc

See general education course list (p. 84) for general education course options.

Semester 2 (15 cc)
ENC 1102 English Composition II 3 cc
MAC 2312 Analytic Geometry and Calculus II 4 cc
PHY 2048 Physics I with Calculus 4 cc
PHY 2048L Physics I with Calculus Laboratory 1 cc
Social Sciences (General Education Core Course) 3 cc

See general education course list (p. 84) for general education course options.

Semester 3 (16 cc)
MAC 2313 Analytic Geometry and Calculus III 4 cc
PHY 2049 Physics II with Calculus 4 cc
PHY 2049L Physics II with Calculus Laboratory 1 cc
Program Elective(s) (Foreign Language I) 4 cc
Humanities (Literature LIT, AML, or ENL prefix) 3 cc

Foreign Language I must be selected if this requirement has not been met. If Foreign Language I requirement has been met, students must select from the Program Electives shown.

See general education course list (p. 84) for general education course options.

Semester 4 (15 cc)
MAP 2302 Differential Equations 3 cc
Any Social Sciences General Education Course 3 cc
Education Course 3 cc
General Education Elective or Foreign Language II 3 cc
Program Electives 3 cc

Foreign Language II must be selected if this requirement has not been met. If Foreign Language II requirement has been met, students must select a General Education Elective from an area other than Natural Sciences.

Program Electives
Students must select from the following list of courses:
CHM 1046 General Chemistry II 3 cc
CHM 1046L General Chemistry II Laboratory 1 cc
EGN 2312 Engineering Statics 3 cc
EGN 2322 Engineering Dynamics 3 cc
MAC 1114 Plane Trigonometry 3 cc
MAC 1140 Precalculus Algebra 3 cc
MAC 1147 Precalculus Algebra/Trigonometry 4 cc

The Associate in Arts degree may be awarded upon satisfactory completion of 60 credit hours. Students are advised to complete the above planned track in order to transfer into a similar program at senior institutions. Students should contact the department head or program coordinator regarding “the 48 hours” of common prerequisites for possible early transfer to the State University System.

Total Credit Hours: 60

PRE-FORESTRY ASSOCIATE IN ARTS (TREE-AA)

See Natural Resource Conservation (p. 102)

PRE-LAW/PRE-LEGAL ADMINISTRATION ASSOCIATE IN ARTS (LEGAL-AA)

This curriculum provides the first two years in a pre-law curriculum for students who expect to enter law school upon completion of a four-year baccalaureate degree program. It is aimed at a broad general education in the liberal arts and sciences. There is no standard, prescribed pre-law curriculum. However, students who intend to enter a phase of law in which the major emphasis will be business should follow the business transfer program.
Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Business Department for assistance in planning your program of study.

PRE-MEDICAL/DENTAL/VETERINARY STUDIES ASSOCIATE IN ARTS (MED-ARTS)

The curriculum provides the first two years of college education for science majors seeking a baccalaureate degree followed by postgraduate work in a professional school.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Biological Sciences Department for assistance in planning your program of study.

Department Head:  
Matt Drum, (850) 484-1167

**PRE-NURSING ASSOCIATE IN ARTS (NURSE-AA)**

The program as outlined below is intended to give the student the first two years of a four-year program leading to a bachelor’s degree in nursing and will satisfy the requirements of most baccalaureate nursing programs. In some instances, however, it is necessary for the student to take the entire program at the institution granting

the nursing degree. Since requirements of colleges vary, students should obtain a catalog of the college to which they plan to transfer and consult with the dean of the intended nursing program in order to make the best choice of courses in junior college. In some cases, it may be desirable for the student to transfer at the end of the freshman year.

Following is a suggested sequence for taking courses in this program. The prescribed 60 hours are required for an Associate in Arts degree.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College Biological Sciences Department for assistance in planning your program of study.

Department Head:
Matt Drum, (850) 484-1167

(Due to the competitive nature of the Physical Therapy programs, students are strongly advised to contact the Biological Sciences Department on the Pensacola Campus, (850) 484-1168, during the first semester of enrollment at the College.)
Recommended Electives:
- CGS 1570  Computer Concepts and Applications 3 cc
- EEX 2010  Introduction to Exceptional Children 3 cc
- HLP 1081  Concepts of Life Fitness 3 cc
- SOW 2031  Introduction to Social Work and Social Welfare 3 cc
- SPC 1608  Public Speaking 3 cc
- or
- SPC 2300  Interpersonal Communication 3 cc

Total Credit Hours: 60

SOCIALLY SCIENCE ASSOCIATE IN ARTS (SOCSC-AA)

This program is designed to provide the first two years of a baccalaureate degree in Social Sciences. Students pursuing an upper-level degree in the social sciences can also obtain an excellent interdisciplinary foundation through the SOCSC-AA program.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College History/Languages/Social Sciences Department for assistance in planning your program of study.

Department Head:
Susan Morgan, (850) 484-2137
smorgan@pensacolastate.edu

DEGREE REQUIREMENTS

Semester 1 (15 cc)
- ENC 1101C  English Composition I 3 cc
  Choose one of the following Mathematics General Education Courses:
  - MAC 1105  College Algebra 3 cc
  - MGF 1106  Mathematics for Liberal Arts I 3 cc
  - MGF 1107  Mathematics for Liberal Arts II 3 cc
  - STA 2023  Elementary Statistics 3 cc
- ANT 2000  Introduction to Anthropology 3 cc
- POS 2041  American National Government 3 cc
- Foreign Language I or Elective 3 cc

Foreign Language I must be selected if the foreign language requirement has not been met.

Semester 2 (15 cc)
- ENC 1102  English Composition II 3 cc
  Choose one of the following Mathematics General Education Courses (not selected in semester 1):
  - MAC 1105  College Algebra 3 cc
  - MGF 1106  Mathematics for Liberal Arts I 3 cc
  - MGF 1107  Mathematics for Liberal Arts II 3 cc
  - STA 2023  Elementary Statistics 3 cc
- AMH 2010  American History from 1877 3 cc
- ECO 2013  Macroeconomics 3 cc
- or
- General Education Elective or Foreign Language II 3 cc

Foreign Language II must be selected if the foreign language requirement has not been met.

Semester 3 (15 cc)
- AMH 2020  American History from 1877 3 cc
- Humanities (Literature LIT, AML, or ENL prefix) 3 cc
- Natural Sciences (General Education Core Course) 3 cc
- Natural Science Companion Lab 1 cc
- Electives 5 cc

The required companion lab may be taken this semester or with the Natural Sciences course in semester 4.

See general education course list (p. 84) for general education course options.

Semester 4 (15 cc)
- Any Natural Sciences General Education Course 3 cc
- Humanities (General Education Core Course) 3 cc
- Electives 6 cc
- General Education Electives 3 cc

If a biological science was selected in semester 2, then a physical science must be selected in semester 4. If a physical science was selected in semester 2, then a biological science must be selected in semester 4.

See general education course list (p. 84) for general education course options.

Recommended Electives:
- ANT 2410  Cultural Anthropology 3 cc
- ECO 2023  Macroeconomics 3 cc
- EEX 2010  Introduction to Exceptional Children 3 cc
- GEA 2000  World Regional Geography 3 cc
- HUM 2454  African-American Humanities 3 cc
- PST 2012  General Psychology 3 cc
- SYG 2000  Introduction to Sociology 3 cc

Recommended Electives for students planning to teach:
- EDF 1005  Introduction to the Teaching Profession 3 cc
- EDF 2085  Introduction to Diversity for Educators 3 cc
- EME 2040  Introduction to Technology for Educators 3 cc

Total Credit Hours: 60

SOCIAL WORK ASSOCIATE IN ARTS (SOCWK-AA)

This program is designed to provide the first two years of a baccalaureate degree in Social Work. Students pursuing an upper level degree in the social work can obtain an excellent foundation through the SOCWK-AA program. Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the Pensacola State College History/Languages/Social Sciences Department for assistance in planning your program of study.

Total Credit Hours: 60

UNIVERSITY OF FLORIDA AT PENSACOLA STATE COLLEGE

The University of Florida (UF) offers two Bachelor of Science degree programs on the Pensacola State College Milton Campus: Natural Resource Conservation and Plant Science with specialization in Landscape and Nursery Horticulture. Earning a degree from the University of Florida, Milton Campus is no different than earning a degree from the Gainesville campus.

**Natural Resource Conservation** is a degree program that provides graduates with expertise in the management and conservation of our natural heritage, from forests and wildlife to water and soil. This program covers many different fields including ecology, biology, geology, management, and economic aspects of natural resources. Natural Resource Conservation students meet with a UF advisor to develop personalized programs of study according to their areas of interest by utilizing elective choices in wildlife, forestry, biology, marine biology, ecotourism and environmental studies. Some areas of specialization include: forestry, soils, coastal and wetland ecology, environmental law, and geographic information computer systems. Students may also choose to minor in Wildlife Ecology and Conservation, Environmental Horticulture, or Soil and Water Science. Natural Resource Conservation graduates find employment in government agencies, consulting firms, and environmental education programs and pursue careers as Ecologists, Environmental Educators, Fisheries Specialists, Environmental Consultants, GIS Specialists, Environmental Lawyers or Consultants, Research Technicians, Park Rangers and Restoration Specialists. See General Education Requirements for AA Degree for a complete description of the Pensacola State College Associate in Arts degree program designed to meet all of the admission requirements for the Natural Resource Conservation degree program at the University of Florida, Milton Campus.

**Plant Science: Specialization in Landscape and Nursery Horticulture** is a field of study that deals with the art and science of breeding, propagating, installing, and maintaining plants that are used to enhance and improve the human environment. In this sustainable field students can be creative, work outdoors, and improve the urban environment. Landscape and Nursery Horticulture represents a diverse field including Ornamental Horticulture, Plant Biotechnology, Plant Conservation, Landscape Design, Floriculture, and Nursery Management. Students learn about the cutting edge of technology in plant science. This degree blends knowledge in business, plant science, and the environment allowing students to focus on their interests and to prepare them for a career in the horticultural industry. Students apply principals of biology, botany, business, chemistry, mathematics and education to growing and using plants in all areas of life. This degree provides the skills and training for employment in Florida’s diverse environmental horticulture industry, including theme parks, nursery industries, and landscape management firms.

Graduates look forward to careers as nursery managers/owners, landscape designers, garden magazine journalists, environmental restoration consultants, extension specialists, plant breeders/inspectors and municipal horticulturists. The Plant Science Degree program is administered by the University of Florida’s College of Agricultural and Life Sciences. Students may also choose to minor in Wildlife Ecology Conservation and/or Soil and Water Science. See General Education Requirements for AA Degree for a complete description of the Pensacola State College Associate in Arts degree program designed to meet all of the admission requirements for the Plant Science: Environmental Horticulture degree program at the University of Florida, Milton Campus.

Graduates of these programs receive salaries that are among the highest within these industries. Career opportunities include work with foresters, ecologists, biologists, golf courses, athletic fields, lawn care companies, parks, fisheries, environmental consulting firms, GIS specialists, environmental lawyers, research facilities, agrichemical industries, theme parks, botanical gardens, environmental consulting firms, sod farms and governmental agencies, as well as preparation for graduate school.

**Admission to University of Florida, Milton Campus**

Admission to the University of Florida programs requires an Associate in Arts degree. Any AA degree will be accepted by UF, as long as students met the proper prerequisites for their desired program at the University of Florida. Students first enroll in Pensacola State College and complete an AA degree that includes the prerequisites specific to their program of interest. Once the AA is completed, students are eligible to apply for admission to the University of Florida. The University of Florida faculty and staff reside in the local area and deliver this seamless four-year transfer degree program along with other state-wide faculty with expertise in a broad range of subjects. The UF programs, faculty, and staff on the Milton Campus are all part of the West Florida Research and Education Center, The Institute of Food and Agricultural Sciences, and the College of Agriculture and Life Sciences. Students admitted to a UF program on the Milton Campus are members of the University of Florida student body and their diploma is conferred by the University of Florida.

Students are highly encouraged to seek counseling and instruction from the University of Florida Academic Coordinator on the Milton Campus in order to facilitate a smooth transition from Pensacola State College to UF.
For further information contact:
Academic Program Recruiter

Scholarships
Scholarship opportunities are available for Pensacola State College students enrolled in these programs while attending Pensacola State College via the 2+2 Scholarship for High School Students. For more information on this scholarship opportunity, please contact the Dean, Milton Campus at (850) 484-4463.

After admission to the University of Florida, additional scholarships are available from the West Florida Research and Education Center, the College of Agricultural and Life Sciences, and the department of the student’s major at UF. Please contact (850) 983-5216 for more information.
ASSOCIATE IN SCIENCE AND COLLEGE CREDIT CERTIFICATE PROGRAMS

The Associate in Science degrees are designed to prepare students for immediate entry or advancement into employment requiring specialized skills. The programs consist of at least sixty (60) credits in two basic areas. One area will be specialized courses in the career area, and the second will be General Education courses. General Education courses help students become well-rounded individuals capable of thinking and acting as mature, educated, and enlightened citizens.

Students working toward an Associate in Science degree are not necessarily preparing for transfer to a university. Earning one of the degrees prepares students for a career that requires study beyond high school, but does not require a four-year degree. Students who have earned an Associate in Science degree may be qualified to enter into the Bachelor of Applied Science program in Supervision and Management at Pensacola State College. Students deciding to attend a university may be required to do additional work at the freshman or sophomore level. The Business Administration and Hospitality and Tourism Management degrees presently have statewide articulation agreements which provide for the articulation into baccalaureate degrees. Students are encouraged to discuss career plans and seek advising assistance from a program contact or department head identified for each program.

AS Graduation Requirements:
1. Earn at least a cumulative grade point average of 2.0 or better in all work completed at Pensacola State College. If any work has been attempted at any other institution of higher education, the grades earned at the other institution(s) combined with those grades earned at Pensacola State College must also result in a minimum cumulative grade point average of 2.0.
2. Earn a cumulative grade point average of 2.0 in general education courses used for the degree.
3. Complete a minimum of 25% of the credit hours of the program in residence at Pensacola State College immediately prior to graduation.

Associate in Science Programs
Accounting Technology (p. 117)
Architectural Design & Construction Technology (p. 117)
Business Administration (p. 119)
Computer Information Technology (p. 120)
Computer Programming and Analysis-Programming Support (p. 122)
Computer Programming and Analysis-Web Design (p. 122)
Criminal Justice Technology (p. 123)
Culinary Management (p. 124)

Early Childhood Intervention (p. 129)
Electronics Aide (p. 130)
Engineering Technology Support Specialist (p. 132)
Event Planning Management (p. 139)
Florida Child Care Professional Credential (FCCPC) (p. 129)
Food and Beverages Management (p. 139)
Guest Services Specialist (p. 140)
Infant/Toddler Specialization (p. 128)
Mechanical Designer & Programmer (p. 134)
Medical Information Coder/Biller (p. 137)
Network Communications (LAN) (p. 121)
Paramedic (p. 135)
Rooms Division Management (p. 140)
Web Development Specialist (p. 123)
Wireless Communications (p. 121)
General Education Requirements

Minimum Grades
The Associate of Science student must maintain an overall average GPA of 2.0 or higher in all general education courses required by that degree program. Additionally, some individual programs require a minimum C grade in specific general education courses. Grades in other courses cannot be used to offset a general education GPA of less than 2.0.

Non-Traditional Credits
The AS student may not earn more than 9 of his or her general education course credits through non-traditional means. Non-traditional credits include: credits earned through CLEP, departmental exemption exams, or PLA, and all other credits described under “Non-Traditional Credits” in the Academic Policies section (p. 55) of this catalog.

Course Requirements
The Associate of Science student must complete 15 college credits of General Education Coursework as indicated in the following table.

Associate in Science Programs of Study

ACCOUNTING TECHNOLOGY ASSOCIATE IN SCIENCE (ACCT-AS)

Provides the education and skill development to prepare the students for entry-level employment in accounting or bookkeeping or to provide supplemental training for persons previously or currently employed in these areas. The knowledge and training acquired in this program can also be applied to many other managerial or supervisory positions in business and government. Students should consult a business advisor when choosing electives.

The Associate in Science in Accounting Technology includes the following college credit certificate:

- Accounting Technology Management (p. 117)

Students in this program are encouraged to apply to graduate with the certificate as soon as the requirements are satisfied.

We strongly encourage you to contact the Business Department for assistance in planning your program of study.

Department Head: Debra Kuhl, (850) 484-2504 dkuhl@pensacolastate.edu

Program Contact: Jeanne Branch, (850) 484-2508 jbranch@pensacolastate.edu

See general education course list (p. 116) for general education course options.

Semester 2 (15 cc)

- ACG 2011 Accounting II 3 cc
- CGS 1570 Computer Concepts and Applications 3 cc
- ECO 2013 Macroeconomics 3 cc
- FIN 2100 Personal Finance and Money Management 3 cc
- GEB 1011 Introduction to Business 3 cc

Semester 3 (15 cc)

- APA 2147 Accounting Software Applications 3 cc
- BUL 2241 Business Law 3 cc
- CGS 2510 Spreadsheet 3 cc
- COM 2100 Business Communications 3 cc
- GEB 2430 Business Ethics 3 cc

Semester 4 (15 cc)

- ACG 2071 Introduction to Managerial Accounting 3 cc
- ACG 2002 Computerized Accounting 3 cc
- ACO 1806 Payroll Accounting 3 cc
- TAX 2000 Income Tax Procedures 3 cc
- Choose one of the following courses:
  - ACG 2949 Accounting Co-op 3 cc
  - ACO 2943 Accounting Internship 3 cc
  - MNA 1161 Customer Service 3 cc

ACG2949 and ACO2943 are restricted access courses, grade of B or higher required.

Total Credit Hours: 60

ACCOUNTING TECHNOLOGY MANAGEMENT COLLEGE CREDIT CERTIFICATE (ACCTG-CT)

Students earn an entry level accounting credential that will enhance employability in jobs requiring accounting knowledge. All courses in this college credit certificate will articulate into the Associate of Science degree in Accounting Technology should a student choose to complete the more advanced degree.

CERTIFICATE REQUIREMENTS

Required Courses

- ACG 2002 Computerized Accounting 3 cc
- ACG 2001 Accounting I 3 cc
- ACG 2011 Accounting II 3 cc
- ACO 1806 Payroll Accounting 3 cc
- APA 2147 Accounting Software Applications 3 cc
- CGS 1570 Computer Concepts and Applications 3 cc
- CGS 2510 Spreadsheet 3 cc
- FIN 2100 Personal Finance and Money Management 3 cc
- TAX 2000 Income Tax Procedures 3 cc

Total Credit Hours: 27

ARCHITECTURAL DESIGN AND CONSTRUCTION TECHNOLOGY ASSOCIATE IN SCIENCE (ARCH-AS)

The Architectural Design and Construction Technology program with emphasis in AEC (ARCH-AS) provides students with practical, hands-on training while exploring broad issues such as planning, management, finance, technical and product skills, safety and environmental issues within the architectural and construction industry. Attaining these skills qualifies the student to work for companies such as engineering firms, contractors or architects offices, building construction administration, facilities planning and management, or self-employment in the construction industry.

The program emphasizes skills such as architectural drafting using AutoCAD, cost estimating, material selecting, specification writing, and building information management (BIM).

The Associate in Science in Architectural Design and Construction Technology includes the following college credit certificates:

- AutoCAD Foundations (p. 118)
- Building Construction Specialist (p. 118)
- Drafting (p. 118)

Students in this program are encouraged to apply to graduate with each certificate as the requirements are satisfied.
We strongly encourage you to contact the Applied Technology Department for assistance in planning your program of study.

Total Credit Hours: 66

AUTOCAD FOUNDATIONS COLLEGE
CREDIT CERTIFICATE (CAD-CT)

The AutoCAD Foundations technical certificate provides students with the practical skills necessary to accept the challenges of a construction drafting career. The program is designed to prepare students for an entry-level professional position in a technical area that requires numerous computer-aided drafting skills. The program is composed of selected college credit courses offered within the Architectural Design and Construction Technology AS degree which prepares students to draw, dimension and print technical drawings by computer. Successful certificate holders may find employment as a drafts-person in an architect’s, engineer’s, or contractor’s office, governmental agencies, corporate planning departments, or other private industries.

Students who have not had listed prerequisites for some of the courses should contact the Engineering Technology Department for assistance in registering for the courses. Because of prerequisites and scheduling, this program requires a minimum of three semesters to complete.

CERTIFICATE REQUIREMENTS

Required Courses
EGN 1123          Engineering Graphics                      3 cc
ETD 2340          Computer Drafting                            3 cc
ETD 1399          Architectural Drafting                       3 cc
ETD 1542          Structural Drafting                         3 cc
ETD 2551          Civil Engineering Drafting                   3 cc
ETD 2355          Advanced Computer Drafting                   3 cc

This certificate assumes the student has a basic knowledge of computer operating systems, hardware and software.

Total Credit Hours: 15

BUILDING CONSTRUCTION
SPECIALIST COLLEGE CREDIT
CERTIFICATE (BLDG-CT)

This certificate is designed to prepare individuals for entry-level positions working for architects, engineers, contractors and building officials. Students will gain knowledge of estimating, scheduling, and general construction processes and procedures.

CERTIFICATE REQUIREMENTS

Required Courses
BCN 1001          Building Construction                        3 cc
ETC 1250          Properties of Materials                     3 cc
BCT 2770          Construction Estimating                     3 cc
BCN 2721          Construction Management                      3 cc
Electives: See elective choices below
Subtotal: 18

Electives:
Students must select 6 credits from the following list of courses.
BCT 2706          Construction Documents                       3 cc
BCN 2440          Concrete Construction                       3 cc
BCT 2760          Building Codes                            3 cc
SUR 1100C         Construction Surveying                      4 cc
BCN 2948          Building Construction Technology Co-op        2 cc
BCN 2949          Building Construction Technology Co-op        3 cc

DRAFTING COLLEGE CREDIT
CERTIFICATE (DRAFT-CT)

This certificate is designed to prepare individuals for entry-level positions working for architects, engineers, contractors, and construction industry employers. Students will gain knowledge of drafting and design practices and procedures. Students will also gain a general knowledge of the construction industry.

Students who have not had listed prerequisites for some of the courses should contact the Engineering Technology Department for assistance in registering for the courses. Because of prerequisites and scheduling, this program requires a minimum of three semesters to complete.

- GIS 2040C Geographic Information Systems  
  - 3 cc

**Total Credit Hours: 24**

**BUSINESS ADMINISTRATION ASSOCIATE IN SCIENCE (BUS-AS)**

Provides students with a broad foundation in all areas of business and completion of this program will prepare students to seek employment in various business fields. This program includes the management specialization outcomes defined in the Florida Department of Education Curriculum Frameworks. The Business Administration AS program is the preferred academic pathway into the Supervision and Management baccalaureate degree program at Pensacola State College.

The Associate in Science in Business Administration includes the following college credit certificates:
- Business Development and Entrepreneurship (p. 119)
- Business Management (p. 120)
- Human Resource Administrator (p. 120)

Students in this program are encouraged to apply to graduate with each certificate as the requirements are satisfied.

We strongly encourage you to contact the Business Department for assistance in planning your program of study.

COMPUTER INFORMATION TECHNOLOGY ASSOCIATE IN SCIENCE (CIT-AS)

The Computer Information Technology program prepares students by giving them a basic understanding of voice and data networks in their foundation courses. Typical job titles include computer repair technician, system administrator, network engineer, network security specialist and telecommunications specialist. By special agreement with the University of West Florida, students with an AS Degree can continue their studies in a Bachelor of Arts Degree program. If a student plans to do so, electives should be chosen carefully with the help of the department head. UWF will also require certain additional general education course work for transferes holding the AS Degree.

The Associate in Science in Computer Information Technology includes the following college credit certificates:

- Cable Technician (Voice and Data Cabling) (p. 121)
- Networking Communications (Local Area Network) (p. 121)
- Wireless Communications (p. 121)

Students in this program are encouraged to apply to graduate with each certificate as the requirements are satisfied.

Contact the Information Technology Department for assistance in planning your program of study.

Department Head:
Kirk Bradley, (850) 484-1128
kbradley@pensacolastate.edu

Program Contact:
Robert Pratten (850) 484-2523
rpratten@pensacolastate.edu

DEGREE REQUIREMENTS

Semester 1 (15 cc)
CGS 1061C  Introduction to Computers in Technology (3 cc)
CIS 1350C  Security Awareness (3 cc)
ENC 1101C  English Composition I (3 cc)
MAC 1105  College Algebra (3 cc)
ECON 1011C  Principles of Management (3 cc)

See general education course list (p. 116) for general education course options.

Semester 2 (18 cc)
HUM 1211C  Humanities (General Education Core Course) (3 cc)
SOC 2016C  Social Sciences (General Education Core Course) (3 cc)
CTS 1155  Help Desk Technician (3 cc)
CTS 2149  Fundamentals of Project Management (3 cc)
CIT 2934  CIT Professional Project (3 cc)
CIT 2935  Emphasis Electives (3 cc)

See general education course list (p. 116) for general education course options.

Semester 3 (15 cc)
Emphasis Courses (choose courses from any emphasis area) (15 cc)

Semester 4 (15 cc)
Emphasis Courses (choose courses from any emphasis area) (15 cc)

EMPHASIS COURSES (33 cc)

Choose 33 college credits from the following list of courses:

General
- Programming Language Course (3 cc)
- Wireless LANS (3 cc)
- Linux+ (3 cc)
- Network + (3 cc)
- Programming Language Course: Choose 3 credit hours from the following courses: COP 1000, COP 1510, COP 2332, COP 2360, COP 2511, COP 2800, COP 2949, CIT 2440, or CIT 2441.

Computer Technician
- PC Hardware (A+) (3 cc)
- PC Operating Systems (A+) (3 cc)
- Personal Computers Maintenance, Upgrade and Support (3 cc)
- Telecommunications Distribution Systems (3 cc)
- Introduction to Electronics (3 cc)
**Systems Administrator: Microsoft Certified Systems Administrator (M.C.S.A.)**

**CABLE TECHNICIAN (VOICE AND DATA CABLING) COLLEGE CREDIT CERTIFICATE (CABLE-CT)**

The Cable Installation technical certificate provides students with the practical skills necessary for employment as a cable installer, cable tester, cable technician, or to provide supplemental training to persons currently employed in the field. The program is composed of selected college credit courses offered within the Telecommunications Technology Associate in Applied Science degree. If desired, successfully completed coursework within the technical certificate can be transferred into an appropriate AS program. The program prepares the student with a basic knowledge of voice and data cabling and prepares them for BICISI Level I Installer Certification.

This certificate assumes the student has a basic knowledge of computer operating systems, hardware and software.

These credits may be applied towards the Electronics Engineering Technology or Computer Information Technology AS degree programs.

COMPUTER PROGRAMMING AND ANALYSIS-PROGRAMMING SUPPORT

ASSOCIATE IN SCIENCE (Cprog-AS)

Computer Programming personnel can be found in many types of organizations performing a wide variety of computer tasks. Our computer programming degree focuses on helping the student develop the necessary skills that are essential to understanding computer systems, applications, and technology by providing a strong programming foundation while at the same time emphasizing specific career fields such as programmer, web developer, game developer, software testers, software designers, etc. Students will be required to complete an emphasis track in Programming Support, Simulation and Game Design, Web Development or Software Engineering. The program also enables students to learn computer programming languages such as, Java, C++, C#, Visual Basic and PHP. If you enjoy solving puzzles, are comfortable with logical thinking and problem solving, and enjoy working in a team setting, computer programming and analysis could be a technology area you might like to pursue.

The Associate in Science in Computer Programming and Analysis includes the following college credit certificate:

COMPUTER PROGRAMMING AND ANALYSIS-WEB DESIGN (CPWD-AS)

Computer Programming personnel can be found in many types of organizations performing a wide variety of computer tasks. Our Web Development degree focuses on helping the student develop the necessary skills that are essential to understanding computer systems, applications, and technology by providing a strong programming foundation while at the same time emphasizing career fields specific to Web development, such as Web Developer, Web Designer and Webmaster. The program also enables students to learn computer programming languages such as, Java, C++, C#, Visual Basic and PHP. If you enjoy solving puzzles, are comfortable with logical thinking and problem solving, and enjoy working in a
team setting, computer programming and analysis could be a
technology area you might like to pursue.

The Associate in Science in Computer Programming and Analysis-
Web Development includes the following college credit certificate:

Web Development Specialist (p. 123)

Each student in this program is encouraged to apply to graduate
with the certificate as the requirements are satisfied. Each student
in the program is encouraged to contact the Computer Science
Department for assistance in planning the program of study.

Department Head:
Kirk Bradley, (850) 484-1128

DEGREE REQUIREMENTS

Semester 1 (15 cc)

- ENC 1101C  English Composition I  3 cc
- MAC 1105  College Algebra  3 cc
- COP 1510  Programming Concepts  3 cc

See general education course list (p. 116) for general education
course options.

Semester 2 (15 cc)

- ECO 2013  Macroeconomics  3 cc
- CGS 1570  Computer Concepts and Applications  3 cc
- CGS 1700  Introduction to Operating Systems  3 cc
- CIS 1350C  Security Awareness  3 cc
- CGS 2820  HTML  3 cc

Semester 3 (15 cc)

- COP 2800  Java Programming  3 cc
- COP 2332  Visual Basic  3 cc
- CGS 2822  Scripting for the Web  3 cc
- COP 2842  Programming in PHP  3 cc
- Technical Electives from any ART, CAP, CET, CIS, COP, CTS, or GRA prefix  3 cc

Semester 4 (15 cc)

- GRA 2151C  Computer Graphics I  3 cc
- CTS 2433  Database Development and Management  3 cc
- CTS 2423  ASP .NET Web Application Development  3 cc
- CGS 2829  Web Design Specialist  3 cc
- Technical Electives from any ART, CAP, CET, CIS, COP, CTS, or GRA prefix  3 cc

Total Credit Hours: 60

WEB DEVELOPMENT SPECIALIST
COLLEGE CREDIT CERTIFICATE (WEB-CT)

Provides an opportunity to establish a basic foundation in the field
of web design and programming for employment in business,
industrial and governmental institutions. Graduates are prepared
for entry level positions as web technician, web development
specialist trainee and web developer trainee. All courses in this
program apply to the program.

*We strongly encourage you to contact the Computer Science
Department for assistance in planning your program of study.

CERTIFICATE REQUIREMENTS

Semester 1 (12 cc)

- CIS 1350C  Security Awareness  3 cc
- COP 1510  Programming Concepts  3 cc
- CGS 2820  HTML  3 cc

- CGS 2829  Web Design Specialist  3 cc
- CTS 2423  ASP .NET Web Application Development  3 cc
- Technical Electives (CAP, CET, CIS, COP or CTS prefix)  3 cc

Total Credit Hours: 36

CRIMINAL JUSTICE TECHNOLOGY
ASSOCIATE IN SCIENCE (LAW-AS)

The Criminal Justice Technology program is open to all students. The
program provides an opportunity to prepare for a law
enforcement or corrections career. Also currently employed
practitioners can increase their knowledge and help develop their
professional competence.

Students who have had prior Criminal Justice training may be
eligible for articulation if they meet the following criteria:

Credit for Approved Prior Training

Credit opportunities are available for individuals who have prior
training approved by the Florida Criminal Justice Standards or
Training Commission and offered by a Florida Certified Center
located at a Community College or a Vocational Center. The
maximum credit awarded is fifteen credits. Courses from other
training centers will be limited to those nationally recognized
including the Southern Police Institute, FBI National Academy,
and the Drug Enforcement Administration Drug School.

We strongly encourage you to contact the Business Department for
assistance in planning your program of study.

Department Head:
Debra Kuhl, (850) 484-2504
dkuhl@pensacolastate.edu

CULINARY MANAGEMENT ASSOCIATE
IN SCIENCE (CHEF-AS)

This program in Culinary Management prepares individuals for
careers in the many widely varied areas of the culinary industry.
The Culinary Management program provides the student with a
unique combination of comprehensive theoretical knowledge and
hands-on training. The program is carefully structured to meet the
requirements of American Culinary Federation Education
Foundation Accrediting Commission. Students will master the
fundamentals of culinary production in an environment that builds
teamwork while gaining practical individualized experience.

Students may receive dual credits toward Diploma and/or
professional certificates with appropriate courses in the program.

Because of limited lab resources, enrollment for FSS 1220C and
FSS 1063C is limited to Culinary students unless prior approval
from the program coordinator is obtained. Preferences will be
given to Culinary students who have completed or substantially
completed general education courses followed by Culinary students
who have completed all required developmental courses. Any
remaining seats will be available to Culinary students who have not
yet completed required developmental courses or who have
received special permission from the program coordinator.

CRIME SCENE TECHNICIAN COLLEGE
CREDIT CERTIFICATE (CST-CT)

Students earning the Crime Scene Technician certificate are eligible to
sit for the certification examination offered through the
International Association of Identification (IAI). Persons earning
IAI Certification can serve in positions including, but not limited to,
Crime Scene Technician, Crime Scene Photographer, Fingerprint Classification Specialist, Crime Lab
Assistant/Investigator, Latent Print Examiner, and Property and
Evidence Staff. While the Crime Scene Technician certificate is a
stand-alone program open to all students, this certificate also
enhances employment opportunities for students earning the
LAW-AA and/or LAW-AS degree. Entities employing persons with
IAI Certification include, but are not limited to, local, state, and
federal law enforcement agencies, State Attorneys' Offices, Public
Defenders' Offices, Medical Examiners' Offices, law firms and
insurance firms.

Crime Scene Investigators are charged with collection, inventory, and documenting evidence found at a crime scene. It is their job to
testify in court as to its probative value and link to the defendant or
defendants. Anyone with a criminal record would not be hired by
any agency based on their liability as a witness, so completing the program is not recommended for anyone with a criminal record:

This is a restricted entry program based upon special requirements
needed to work for a Law Enforcement Agency.

1. Citizen of the United States.
2. High school diploma or GED (transcript required).
3. Not discharged from Armed Forces under dishonorable
conditions.
4. Good moral character and NOT have been convicted of a
felony, or any misdemeanor involving lying or perjury.
5. Submit to and pass background investigation to include a
finger print check. We strongly encourage you to contact the
Business Department for assistance in planning your program of
study.

**CYBERSECURITY ASSOCIATE IN SCIENCE (ITSEC–AS)**

This program covers a broad expanse of technological concepts and provides individuals with the skills required to implement effective and comprehensive information security controls to protect the confidentiality, integrity, and availability of information and information systems. Course work includes securing network technologies and operating systems, security management, and industry best practices. Additionally, students will acquire the skills and hands-on experience with hardware and software that allow them to pursue various industry certifications.

Each student should contact the Information Technology Department for assistance in planning the program of study.

**DENTAL HYGIENE ASSOCIATE IN SCIENCE (DH-AS)**

A two-year curriculum designed to prepare students to master clinical competencies and prepare for all of the roles of a dental hygienist. Graduates receive an Associate in Science degree in dental hygiene and are eligible to apply to sit for the state board examination in any state in which they desire to practice.

Program graduates may be able to pursue the Bachelor of Science degree at an institution offering the degree.

The dental hygiene program is fully accredited by the American Dental Association Commission of Accreditation.

**Special Admission Requirements**

Admission to this program is limited by admission requirements and the availability of clinical space. Therefore, students seeking program admission must complete applications to both the College and the program. Students should not self-advice. Courses are designed to be in sequence. Continued progress in the dental hygiene program depends upon successful completion of courses in this sequence. Application packets are available from the Health Admission Office or the Pensacola State College website at www.pensacolastate.edu.

Admission requirements for eligibility to the program include satisfactory scores on the Health Occupation Basic Entrance Test (HOBET), a minimum GPA of 2.75 and 18 credits of specific course work.

When applicants have completed all sections of the application process and meet the minimum criteria, they will move to candidate status and are assigned a ranking number by the date on which they completed the final requirement. Students are selected in that rank order. Therefore, the sooner applicants complete the requirements, the sooner they move to candidate status and the higher their ranking on the list. Contact the Allied Health department at (850) 484-2308 for further details. The program begins each May.

**Special Program Requirement**

Students must complete all courses in the Dental Hygiene curriculum with a grade of C or higher.

The interested student is encouraged to contact the Allied Health department for assistance in planning the program of study.

**Department Head:**
Christa Ruber, (850) 484-2301
cruber@pensacolastate.edu

**Program Director:**
Linda Lambert, RDH, (850) 484-2242
llambert@pensacolastate.edu
DEGREE REQUIREMENTS

Prerequisites (18 cc)
The following courses MUST be completed with a grade of C or better to be accepted into the Dental Hygiene Program.

ENC 1101C English Composition I 3 cc
BSC 1093 Anatomy and Physiology I 3 cc
BSC 1093L Anatomy and Physiology I Laboratory 1 cc
MCB 1000 Applied Microbiology 3 cc
MCB 1000L Applied Microbiology Laboratory 1 cc
CHM 1045 General Chemistry I 3 cc
CHM 1045L General Chemistry I Laboratory 1 cc
MAC 1105 College Algebra 3 cc

Semester 1 (10 cc)
BSC 1094 Anatomy and Physiology II 3 cc
BSC 1094L Anatomy and Physiology II Laboratory 1 cc
DES 1000 Dental Anatomy 2 cc
SPC 1006 Study of Speaking and Listening 1 cc
DEP 2004 Human Growth and Development 3 cc

By the end of Semester 1, students must possess and maintain a Healthcare Providers CPR card, American Heart or Red Cross only. Certification can be earned by successfully completing W 00753 CPR for Healthcare Providers.

Semester 2 (14 cc)
DES 1010 Head and Neck Anatomy 2 cc
DEH 1300 Oral Embryology and Histology 1 cc
DEH 1002 Fundamentals of Dental Hygiene 3 cc
DEH 1002L Dental Hygiene Pre-Clinic 3 cc
DES 1200C Dental Hygiene Radiology I 3 cc
DEH 1720 Preventive Dentistry 2 cc

Semester 3 (14 cc)
DEH 1811 Dental Ethics and Jurisprudence 1 cc
DEH 1800 Dental Hygiene I 2 cc
DEH 1800L Dental Hygiene Clinic I 4 cc
DEH 1400 Oral Pathology 2 cc
DEH 2602 Periodontics 2 cc
SYG 2000 Introduction to Sociology 3 cc

Semester 4 (10 cc)
DEH 1802 Dental Hygiene II 1 cc
DEH 1802L Dental Hygiene Clinic II 3 cc
DEH 2202 Nutrition and Dental Health 2 cc
DES 1100C Dental Materials 3 cc
DES 1051C Pain Management 1 cc

Semester 5 (14 cc)
DEH 2300 Pharmacology/Dental Office Emergencies 2 cc
DEH 2804 Dental Hygiene III 2 cc
DEH 2804L Dental Hygiene Clinic III 5 cc
DEH 2702 Dental Public Health 2 cc
DEH 2702L Dental Public Health Lab 1 cc

Semester 6 (8 cc)
DEH 2806 Dental Hygiene IV 2 cc
DEH 2806L Dental Hygiene Clinic IV 5 cc
DEH 2702L Dental Public Health Lab 1 cc

Total Credit Hours: 88

EARLY CHILDHOOD EDUCATION
ASSOCIATE IN SCIENCE (CHILD-AS)

Early Childhood Education is concerned with the education, guidance and daily care of young children. Early Childhood professionals plan and implement activities that stimulate children’s intellectual, social, emotional and physical development. Completion of the program prepares students to teach in or to operate a child care center, preschool program, or a home child care center. Students will gain insight into working with children from birth through age 8. Course components focus on all aspects of early childhood including curriculum development, behavior management techniques, and forming partnerships with parents and the community.

Program completion creates the option for students to transfer to a higher degree program. The Early Childhood Education program meets the State of Florida education requirements related to owning, directing, operating, or working in a child care program.

Two courses (EDF1005 and EDG2085) require service learning in a public school setting. Background checks may be required. Although a school district may provide an appeals process to persons receiving a disapproval to enter K-12 classrooms as a result of the background check, students should be aware of the Florida statutes §435.04. Pursuant to Chapter 1012, Fla. Stat., any individual who has been found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense enumerated in §435.04, Fla. Stat., shall be ineligible for appointment to any instructional, non-instructional or voluntary position in any daycare, school or other educational facility providing care or instruction to children 17 years of age or younger. To view §435.04, Florida Statutes, go to www.flstate.gov/statutes.

The Associate in Science in Early Childhood Education includes the following college credit certificates.

- Early Childhood Teacher (Preschool) (p. 128)
- Early Childhood Intervention (Child Development and Early Intervention) (p. 129)
- Infant/Toddler Specialization (p. 128)

Students in this program are encouraged to apply to graduate with each certificate as the requirements are satisfied.

Additionally, Pensacola State College provides preparation for students to apply for the following credential.

- Florida Child Care Professional Credential (FCCPC) (p. 129)

We strongly encourage you to contact the History, Languages, and Social Sciences Department for assistance in planning your program of study.

Department Head
Susan Morgan, (850) 484-2137
smorgan@pensacolastate.edu
DEGREE REQUIREMENTS

Semester 1 (15 cc)
ENC 1101C  English Composition I  3 cc

Choose one of the following
Mathematics General Education Courses:
MAC 1105  College Algebra  3 cc
MGF 1106  Mathematics for Liberal Arts I  3 cc
MGF 1107  Mathematics for Liberal Arts II  3 cc
STA 2023  Elementary Statistics  3 cc

EEC 1100  Introduction to Early Childhood  3 cc
DEP 2001  Child Development  3 cc
EEC 1601  Observation and Assessment in Early Childhood  3 cc

Semester 2 (15 cc)

Humanities (General Education Core Course)  3 cc
EME 2040  Introduction to Technology for Educators  3 cc
EEC 1312  Creative Experiences for Young Children  3 cc
EEC 2521  Childcare Management  3 cc
EEC 2940C  Early Childhood Practicum  3 cc

See general education course list (p. 116) for general education course options.

Semester 3 (15 cc)
Natural Sciences (General Education Core Course)  3 cc
EDF 1005  Introduction to the Teaching Profession  3 cc
EEX 1600  Behavior Management  3 cc
EEX 2401  Home and Community  3 cc
HSC 2400  First Aid and Injuries  3 cc
or Electives  3 cc

If a student has a current CPR/First Aid card, an elective may be chosen.
See general education course list (p. 116) for general education course options.

Semester 4 (18 cc)
Social Sciences (General Education Core Course)  3 cc
EDF 2085  Introduction to Diversity for Educators  3 cc
EEC 2500  Infant and Toddler Development  3 cc
EEX 2010  Introduction to Exceptional Children  3 cc
or Electives  3 cc

See general education course list (p. 116) for general education course options.
Some courses require field experience or service learning. Check course descriptions for more information.

Total Credit Hours: 60

EARLY CHILDHOOD TEACHER (PRESCHOOL) COLLEGE CREDIT CERTIFICATE (PREK-CT)

The Pre-K College Technical Certificate is a 12 college credit program designed to provide students with the skills needed to design developmentally appropriate curriculum for young children and enable them to begin careers as early childhood education caregivers with a preschool specialization. Additionally, the courses can be transferred into appropriate technical certificate programs within Early Childhood or can be used in either the AS or AA Early Childhood degree programs. Please contact the program coordinator for advising.

CERTIFICATE REQUIREMENTS

Required Courses
DEP 2001  Child Development  3 cc
EEC 1100  Introduction to Early Childhood  3 cc
EEC 1312  Creative Experiences for Young Children  3 cc
EEC 1601  Observation and Assessment in Early Childhood  3 cc

Some courses require field experience or service learning. Check course descriptions for more information.

EEC 1100 and DEP 2001 fulfills a portion of the requirements toward the Florida Child Care Professional Credential (FCCPC). The FCCPC, awarded by the Florida Department of Children and Families, is a 12 college credit program designed to prepare students as entry-level childcare workers and teachers. It requires completion of 4 courses in addition to 480 hours of work and/or service learning experience.

Total Credit Hours: 12

INFANT/TODDLER SPECIALIZATION COLLEGE CREDIT CERTIFICATE (BABY-CT)

The Baby-CT College Technical Certificate is a 12 college-credit program designed to provide students with the skills and information needed to design a developmentally appropriate environment and curriculum for infants and toddlers. This program is composed of selected college-credit courses offered within the AS and AA Early Childhood degree programs and will count toward those degrees.

CERTIFICATE REQUIREMENTS

Required Courses
DEP 2001  Child Development  3 cc
EEC 1100  Introduction to Early Childhood  3 cc
EEC 2500  Infant and Toddler Development  3 cc
EEC 2940C  Early Childhood Practicum  3 cc

Some courses require field experience or service learning. Check course descriptions for more information.

DEP 2001, EEC 1100, and EEC 2940C fulfills a portion of the requirements toward the Florida Child Care Professional Credential (FCCPC). FCCPC is a 12 college credit program to prepare students as entry-level childcare workers and teachers. It requires completion of 4 courses in addition to 400 hours of work and/or service learning experience.

Total Credit Hours: 12
CHILD DEVELOPMENT AND EARLY INTERVENTION COLLEGE CREDIT CERTIFICATE (CHD-CT)

The CHD-CT Child Development and Early Intervention Technical Certificate is a 36-credit college program designed to prepare students as entry level teachers in a child care or pre-school program. Upon completion of this program, students will have earned their FCCPC along with Pre-K and Infant/Toddler specialization certificates. This program is composed of selected college credit courses offered within the AS Early Childhood degree program and will count toward that degree. Selected credits will count toward the Early Childhood Teacher Pre-Primary AA program. Please contact the program coordinator for advising.

PREPARATION FOR THE FLORIDA CHILD CARE PROFESSIONAL CREDENTIAL (FCCPC)

The Florida Child Care Professional Credential, Birth to Age 5, is awarded through The Florida Department of Children and Families (DCF). It is a 12 college credit program designed to equip students with the knowledge and skills necessary to provide quality childcare programs. The completion of these courses coupled with 480 hours of observation or work experience with children birth through 5 qualifies the student for the FCCPC. Additionally these courses can be transferred into Early Childhood Technical Certificate programs, AS or AA Early Childhood degrees. Contact the program coordinator for additional information and assistance with your FCCPC application.

ELECTRONICS ENGINEERING TECHNOLOGY ASSOCIATE IN SCIENCE (ELEC-AS)

The Electronics Engineering Technology Program provides students with the fundamentals of electronics that will prepare them as technicians in a variety of fields including computer technology, networking, instrumentation, and biomedical. Selected specialty courses are available to provide detailed instruction in these technical areas. The content includes but is not limited to DC circuits, AC circuits, solid-state devices, analog circuits, digital fundamentals and circuits. Integrated into this content will be communications skills, employability skills, safe and efficient work practices, use of circuit diagrams and schematics, and soldering. Program includes lecture and significant hands-on lab experiences. The program focuses on a common core of foundational, intermediate and advanced courses required of all students. Students will then specialize in one or more emphasis areas depending on their career goals. Students are strongly urged to consult with the Department when selecting their courses.

We strongly encourage that you contact the Engineering Technology Department for assistance in planning your program of study. The Associate in Science in Electronics Engineering includes the following college credit certificate:

Electronics Aide (p. 130)

Students in this program are encouraged to apply to graduate with the certificate as the requirements are satisfied.

Department Head:
Danny Steele, (850) 484-2522
dsteele@pensacolastate.edu

Program Contact:
Larry Ball, (850) 484-2577
lball@pensacolastate.edu
DEGREE REQUIREMENTS

Semester 1 (17 cc)
- CGS 1061C Introduction to Computers in Technology 3 cc
  - Choose one of the following Mathematics General Education Courses:
    - MAC 1105 College Algebra 3 cc
    - MGF 1107 Mathematics for Liberal Arts II 3 cc
- EET 1015C Direct Current Circuits 3 cc
- EET 1025C Alternating Current Circuits 3 cc
- CET 1112C Digital Fundamentals 3 cc
  - Emphasis Electives 2 cc

MAC 1105 recommended for students planning to complete a baccalaureate degree.

Semester 2 (17 cc)
- CET 2113C Digital Circuits 3 cc
- EET 1141C Electronic Devices and Integrated Circuits I 3 cc
- EET 2142C Linear Circuits 3 cc
- ETI 1701 Industrial Safety 3 cc
  - Emphasis Electives 2 cc
  - Natural Sciences (General Education Core Course) 3 cc

See general education course list (p. 116) for general education course options.

Semester 3 (17 cc)
- COP 1510 Programming Concepts 3 cc
- ENC 1101C English Composition I 3 cc
  - Emphasis Electives 11 cc

Semester 4 (17 cc)
- Humanities (General Education Core Course) 3 cc
- Social Sciences (General Education Core Course) 3 cc
  - Emphasis Electives 11 cc

See general education course list (p. 116) for general education course options.

EMPHASIS COURSES (26 CC)

Cisco Certified Networking Associate (C.C.N.A.) Emphasis
- CET 1020C Introduction to Networks 3 cc
- CET 1610C Routing and Switching Essentials 3 cc
- CET 2025C Scaling Networks 3 cc
- CET 2026C Connecting Networks 3 cc

Computer Technician Emphasis
- CET 1178C PC Hardware (A+) 3 cc
- CET 1179C PC Operating Systems (A+) 3 cc
- CET 1588S Network + 3 cc
- CET 1634C Telecommunications Distribution Systems 3 cc
- CET 2172C Personal Computers Maintenance, Upgrade and Support 3 cc
- CIS 1550C Security Awareness 3 cc
- CTS 1155 Help Desk Technician 3 cc
- CTS 2106C Linux+ 3 cc
- CTS 2120C Security + 3 cc

Managing Technology Emphasis
- EET 1931 Special Topics in Electronics Engineering Technology 1 cc
- EET 1932 Special Topics in Electronics Engineering Technology 2 cc
- EET 1933 Special Topics in Electronics Engineering Technology 3 cc
- EET 2084C Introduction to Electronics 3 cc
- EET 2215C Automation Electronics 3 cc
- EGN 1123 Engineering Graphics 3 cc
- ETI 2164 3D Parametric Modeling Using SOLIDWORKS I 4 cc
- ETI 2368 3D Parametric Modeling Using SOLIDWORKS II 3 cc
- ETI 1622C Concepts of LEAN Manufacturing and Six Sigma 3 cc
- ETI 1931 Special Topics in Mechanical Design 1 cc
- ETI 1932 Special Topics in Mechanical Design 2 cc
- ETI 1933 Special Topics in Mechanical Design 3 cc
- ETI 2411 Manufacturing Processes CNC 4 cc
- ENS 1123 Manufacturing Processes CNC Machining/MasterCam-Lathe 3 cc
- ETI 2414 Computer-Aided Manufacturing MasterCam-Mill 2-D & Solidworks 4 cc
- ETM 2325C Electronics CAD 3 cc
- ETS 1603C Robotics-Mechanics and Controls 3 cc
- ETS 2511C Motors and Controls 3 cc
- ETS 2542C Programmable Logic Controller (PLC) Fundamentals 3 cc

Biomedical Emphasis
- BSC 1093 Anatomy and Physiology I 3 cc
- BSC 1093L Anatomy and Physiology I Laboratory 1 cc
- BSC 1094 Anatomy and Physiology II 3 cc
- BSC 1094L Anatomy and Physiology II Laboratory 1 cc
- ETS 2406 Biomedical Equipment 4 cc

Cooperative Education
- EET 2947 Electronic Technology Co-op 1 cc
- EET 2948 Electronic Technology Co-op 2 cc
- EET 2949 Electronic Technology Co-op 3 cc

Total Credit Hours: 68

ELECTRONICS AIDE COLLEGE CREDIT CERTIFICATE (ELEC-CT)

The Credits in this certificate may be applied towards the Electronics Engineering Technology AS degree program.

CERTIFICATE REQUIREMENTS

Required Courses
- EET 1015C Direct Current Circuits 3 cc
- EET 1025C Alternating Current Circuits 3 cc
- EET 1141C Electronic Devices and Integrated Circuits I 3 cc
- CET 2113C Digital Circuits 3 cc

This certificate assumes the student has a basic knowledge of digital principles. If not, the student may need to take CET 1112C prior to taking CET 2113C.

Total Credit Hours: 12
ELECTRONICS TECHNICIAN CCC (ETECH-CT)

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the manufacturing career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the manufacturing career cluster. The content includes but is not limited to DC circuits, AC circuits, solid-state devices, analog circuits, and digital circuits. Integrated into this content will be safe and efficient work practices, use of circuit diagrams and schematics, soldering, and laboratory practices. This program focuses on broad, transferable skills and stresses understanding and demonstration of the skills required to enter a variety of fields within the Electronics industry.

Students are encouraged to contact the Engineering Technology Department for assistance in planning of the program of study.

ENGINEERING TECHNOLOGY - ADVANCED MANUFACTURING (ENGNR-AS)

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the manufacturing career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the manufacturing career cluster. The program consists of general education requirements and a set of Engineering Technology Core courses which leads to the college credit certificate, Engineering Technology Support Specialist. The program Engineering Technology Core aligns with the Manufacturing Skills Standards Council’s (MSSC). MSSC skill standards define the knowledge, skills, and performance needed for manufacturing workers. After completing the Technical Core and the General Education requirements, students should be prepared to pass the MSSC - CPT Certified Production Technician (CPT) Certification. A student can also acquire practical working experience by participating in our Co-op opportunities with local manufacturers. We strongly encourage that you contact the Engineering Technology Department for assistance in your decision to take coursework and in the planning of your program of study. The Engineering Technology AS program requires students to select one of two specializations; Advanced Manufacturing or Mechanical Design and Fabrication.

The Associate in Science in Engineering Technology-Advanced Manufacturing includes the following college credit certificate:

Engineering Technology Support Specialist (p. 132)

Students in this program are encouraged to apply to graduate with the certificate as the requirements are satisfied.

We strongly encourage you to contact the Engineering Technology Department for assistance in planning your program of study.

ENGINEERING TECHNOLOGY SUPPORT SPECIALIST COLLEGE CREDIT CERTIFICATE (ESPEC-CT)

A sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the manufacturing career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the manufacturing career cluster. The content includes but is not limited to communication skills, leadership skills, human relations and employability skills, technical competency, safe and efficient work practices and a combination of theory and laboratory activities to gain the necessary cognitive and manipulative skills to perform preventive and corrective maintenance and support for engineering design, processes, production, testing, and/or maintaining product quality. This program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the Engineering Technology and Industrial Applications: production materials and processes, quality, computer-aided drafting, electronics, mechanics, instrumentation and safety.

The 18 credit hour certificate is the Technical Core to our Engineering Technology A.S. program. The Engineering Technology Support Specialist certificate has been defined to align with the Manufacturing Skills Standards Council’s (MSSC). MSSC skill standards define the knowledge, skills, and performance needed for manufacturing workers. After completing the Technical Core and the General Education requirements, students should be prepared to pass the MSSC - CPT Certified Production Technician (CPT) Certification.

We strongly encourage that you contact the Engineering Technology Department for assistance in your decision to take coursework and in the planning of your program of study.

- EET 2511C: Motors and Controls 3 cc
- ETS 2542C: Programmable Logic Controller (PLC) Fundamentals 3 cc
Total Credit Hours: 18

PNEUMATICS HYDRAULICS AND MOTORS FOR MANUFACTURING COLLEGE CREDIT CERTIFICATE (PNEUM-CT)

Provides students with considerable experience in manufacturing with the knowledge and skills to become a Mechanical Engineering technician. The content includes but is not limited to, the theory of operation, supporting mathematics, and troubleshooting of Industrial Equipment. The program covers electric motors and the control of electric motors to include variable speed AC drives, as well as, how to troubleshoot basic electric motor circuits. It also includes the basic fundamentals of process control, and the control of industrial processes with an industrial computer. Pneumatics and hydraulics are also covered with emphasis on their role in process control.

Students may be required to complete EET1015C, Direct Current Circuits and a math class before completing this college credit certificate. Contact the Department Head or Program Coordinator for more information.

We strongly encourage that you contact the Engineering Technology Department for assistance in your decision to take coursework in the planning of your program of study.

CERTIFICATE REQUIREMENTS

Required Courses
- EET 2215C: Instrumentation Electronics 3 cc
- ETM 2315C: Hydraulics and Pneumatics 3 cc
- ETS 2511C: Motors and Controls 3 cc
- ETS 2542C: Programmable Logic Controller (PLC) Fundamentals 3 cc
Total Credit Hours: 12

ENGINEERING TECHNOLOGY - MECHANICAL DESIGN AND FABRICATION ASSOCIATE IN SCIENCE (MECH-AS)

The Mechanical Design & Fabrication specialization prepares students for careers in CNC machining, mechanical design and metal fabrication. The program offers unique technical skills and opportunities for employment in local and regional industries. The coursework provides the basis for employment in a variety of manufacturing areas some of which include Computer Aided Design (CAD), Computer Aided Manufacturing (CAM), Computerized Machining (CNC), Production Welding; and Metal and Composite Fabrication. Industry standard software taught in this program includes AutoCAD, PlasmaCAM, MasterCam and SolidWorks. A major objective in this program is to teach proficiency in CNC programming, set-up and operation of CNC machining and turning centers to prepare students for employment in this high demand industry. To accomplish this task, the lab is equipped with Haas CNC milling and turning machining centers, Camtech CNC gantry router, CNC plasma cutting, metal fabricating, and welding equipment. Additional skills taught include precision measuring and Rapid prototyping using an EMS 3D printer. Included in the Engineering Technology A.S. degree are five college credit certificates, these "micro-degrees" are CNC Machinist / Fabricator, CNC Machinist Operator / Programmer, CNC Composite Fabricator/Programmer, Mechanical Designer Programmer, and Engineering Technology Support Specialist. Most can be completed in one semester. Students can also acquire practical working experience by participating in Co-op opportunities with local manufacturers.
The Associate in Science in Engineering Technology-Mechanical Design and Fabrication includes the following college credit certificates:

- CNC Composite Fabricator/Programmer (p. 133)
- CNC Machinist/Fabricator (p. 133)
- CNC Machinist Operator Programmer (p. 134)
- Mechanical Designer/Programmer (p. 134)
- Engineering Technology Support Specialist (p. 132)

Students in this program are encouraged to apply to graduate with each certificate as the requirements are satisfied. You are strongly encouraged to contact the Engineering Technology Department for assistance in your decision to take coursework and in the planning of your program of study.

**DEGREE REQUIREMENTS**

**Semester 1 (15 cc)**
- ETI 2416 Metal Working Processes (Welding & Fabrication) 4 cc
- ETI 2411 Manufacturing Processes CNC 4 cc
- EGN 1123 Engineering Graphics 3 cc
- ETI 1701 Industrial Safety 3 cc

Apply for graduation: CNC Machinist/Fabricator College Credit certificate (CNC-CT).

**Semester 2 (15 cc)**
- EET 2084C Introduction to Electronics 3 cc
- ENC 1101C English Composition I 3 cc
- ETD 2364 3D Parametric Modeling Using SOLIDWORKS I 4 cc
- ETI 1931 Special Topics in Mechanical Design 1 cc
- ETI 2414 Computer-Aided Manufacturing MasterCam-Mill 2-D & Solidworks 4 cc

Apply for graduation: CNC Machinist Operator/Programmer (CNCMO-CT) and Mechanical Designer/Programmer (MECH-CT) College Credit certificates.

**Semester 3 (16 cc)**
- ETI 2415 Woodworking Processes (MasterCam Router) 4 cc
- ETI 1420 Mechanical Processes & Materials Humanities (General Education Core Course) 3 cc
- ETM 1010 Mechanical Measurement & Instrumentation 3 cc
- ETI 1110 Introduction to Quality Assurance 3 cc

Apply for graduation: Engineering Technology Support Specialist (ESPECT-CT) College Credit certificate.

**Semester 4 (14 cc)**
- ETI 2412 Fabrication Processes (MasterCam ART) 4 cc
- MAC 1105 College Algebra 3 cc
- ETI 2947 Manufacturing Technology Co-op 1 cc

Apply for graduation: CNC Composite Fabricator/Programmer (CNCW-CT) College Credit certificate.

**Total Credit Hours: 60**

**CNC COMPOSITE FABRICATOR/PROGRAMMER COLLEGE CREDIT CERTIFICATE (CNCW-CT)**

Offers training in Composite Fabrication, CNC Tool path Operations, Programming and Mastercam Design. The training also offers a solid foundation CNC Router setup and operations. Master Cam Router and ART is the primary programs used to generate 2D & 3D projects on the Cantech CNC router. The goal of this certificate is to offer entry level skills in the CNC Composite fabrication industry. Students may choose to Co-op to gain working experiences while in school. The four courses that comprise this Certificate are all applicable to the Engineering Technology A.S., Specialization: Mechanical Design & Fabrication.

The student is strongly encouraged to contact the Engineering Technology Department for assistance in the decision to take coursework and in the planning of the program of study.

**CERTIFICATE REQUIREMENTS**

**Required Courses**
- EGN 1123 Engineering Graphics 3 cc
- ETI 2415 Woodworking Processes (MasterCam Router) 4 cc
- ETI 2412 Fabrication Processes (MasterCam ART) 4 cc
- ETI 1931 Special Topics in Mechanical Design 1 cc

**Total Credit Hours: 12**

**CNC MACHINIST/FABRICATOR COLLEGE CREDIT CERTIFICATE (CNC-CT)**

The CNC Machinist/Fabricator Certificate reflects the culmination of those learned skills and proficiencies that allow a student to set up, operate and program CNC machining and turning centers. Pensacola State College is a Haas Educational Training Center (HTEC). Students will acquire specialized training on the Haas VF-2, TM-2 Mill and the Haas ST-10, TL-1 Lathe. Metal Fabrication training includes operations and processes in CNC plasma cutting, aircraft solid riveting and sheet metal processes, metalworking equipment operations and production Welding processes to include MIG (GMAW), TIG (GTAW), Stick (SMAW) and Oxyacetylene (OAW). Complete the requirements for this certificate to get a head start in the field as a CNC Machinist/Fabricator in one semester allowing students to start a new career. There are many employment opportunities in the local and regional areas.

**CERTIFICATE REQUIREMENTS**

**Required Courses**
- EGN 1123 Engineering Graphics 3 cc
- ETI 2416 Metal Working Processes (Welding & Fabrication) 4 cc
- ETI 2411 Manufacturing Processes CNC Maching/MasterCam-Lathe 4 cc
- ETI 1931 Special Topics in Mechanical Design 1 cc

**Total Credit Hours: 12**
CNC MACHINIST
OPERATOR/PROGRAMMER COLLEGE CREDIT CERTIFICATE (CNCMO-CT)

This technical certificate utilizes four essential courses used in the Engineering Technology Specialization Mechanical Design & Fabrication A.S. degree. The CNC Machinist certificate reflects the culmination of those learned skills and proficiencies that allow a student to set-up, operate and program CNC machining and turning centers. The core courses provide training in MasterCam Lathe and MasterCam Mill 2-D, and introduction to Solidworks. We offer skilled training on a Haas machining centers. The student will train on the Haas VF-2 and TM-2 Mill, Haas ST-10 and TL-1 Lathe to complete the requirements for this certificate to get a head start in the field as a CNC Machinist. There are many employment opportunities in the local and regional area in this field of study. While working on your courses, you may choose to co-op to gain valuable working experiences as you learn. In addition, you are building a solid foundation for the companion two-year A.S. degree in Engineering Technology Specialization Mechanical Design Fabrication. The primary goal of this certificate program is to prepare the student with employable technical skills to be applied in the CNC machining industry.

We strongly encourage that you contact the Engineering Technology Department for assistance in your decision to take coursework and in the planning of your program of study.

CERTIFICATION REQUIREMENTS

Required Courses
EGN 1123 Engineering Graphics 3 cc
ETI 2411 Manufacturing Processes CNC 4 cc
ETI 2414 Computer-Aided Manufacturing 4 cc
ETI 2414 MasterCam-Mill 2-D & Solidworks
ETI 1931 Special Topics in Mechanical Design 1 cc

Total Credit Hours: 12

MECHANICAL DESIGNER/PROGRAMMER COLLEGE CREDIT CERTIFICATE (MECH-CT)

The Mechanical Designer / Programmer Certificate reflects the culmination of those learned skills and proficiencies that allow a student become proficient in 3D mechanical design with the use of Solidworks and Inventor. Students have the opportunity to acquire certifications in MasterCam 2D & 3D toolpath processes and programming. At completion students should be prepared to take the Solidworks certificate exam. Students will process their designs on various Haas machining centers. There are employment opportunities as a Mechanical Designer in the local and regional areas. While working on your classes you may choose to co-op to gain valuable working experiences as you learn. This certificate can be completed in two semesters allowing you to start a new career in the machining and fabrication industry as a Mechanical Designer / Programmer. All courses used in the certificate are also applicable to the Engineering Technology A.S., Specialization: Mechanical Design & Fabrication degree.

We strongly encourage that you contact the Engineering Technology Department for assistance in your decision to take coursework and in the planning of your program of study.

CERTIFICATE REQUIREMENTS

Required Courses
EGN 1123 Engineering Graphics 3 cc
ETI 2414 Computer-Aided Manufacturing 4 cc
ETI 2414 MasterCam-Mill 2-D & Solidworks
ETD 2364 3D Parametric Modeling Using SOLIDWORKS I 4 cc
ETI 1931 Special Topics in Mechanical Design 1 cc

Total Credit Hours: 12

RAPID PROTOTYPING SPECIALIST CCC (RAPID-CT)

The Rapid Prototyping Specialist certificate reflects the demand for individuals who are proficient in three dimensional (3D) digital modeling and rapid prototyping. Specific attention will surround product design, 3D printing and additive manufacturing technologies. The design software used in the college certificate program is SOLIDWORKS.

The student will utilize 3D technologies for solid modeling design and physical creation of prototype parts and obtain the skills necessary for entry-level employment in modern design and advanced manufacturing companies. While working on classes, co-op opportunities will provide valuable working experience to the student.

Each student is encouraged to contact the Engineering Technology Department for assistance in planning the program of study.

CERTIFICATE REQUIREMENTS

Required Courses
EGN 1123 Engineering Graphics 3 cc
ETD 2364 3D Parametric Modeling Using SOLIDWORKS I 4 cc
ETD 2368 3D Parametric Modeling Using SOLIDWORKS II 3 cc
ETD 1931 Special Topics in Drafting Design 1 cc
ETD 2947 Drafting and Design Technology Co-op 1 cc

Total Credit Hours: 12

EMERGENCY MEDICAL SERVICES ASSOCIATE IN SCIENCE (EMS-AS)

The EMS-AS degree program completes the academic progress of a graduate of an Emergency Medical Technician Program and a Paramedic Certificate with 16 hours of general education courses.

Minimum requirements for eligibility to the program include high school diploma or GED, satisfactory scores in reading and math on the Test of Adult basic education (TABE), documentation of unencumbered current Florida EMT Certification, and a current American Heart Association or American Red Cross BLS for Healthcare Provider Card.

Students in the EMS–AS have generally completed 1) all general education courses and the EMT–ATD program, or 2) have completed the EMT–ATD program and are enrolled in the Paramedic Program and completing the general education requirements.
The Associate in Science in Emergency Medical Services includes the following college credit certificate:

- Paramedic (15 cc)

The student is encouraged to apply to graduate with the certificate as the requirements are satisfied.

The interested student should contact the Allied Health department for assistance in planning the program of study.

Elective: EMS 1335C is strongly recommended.

See general education course list (p. 116) for general education course options.

### Total Credit Hours: 73

#### PARAMEDIC COLLEGE CREDIT CERTIFICATE (PARAM-CT)

The four semester certificate program is designed to provide those responsible for pre-hospital emergency care the opportunity to become skilled in advanced life support measures. The program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of Committee on Accreditation of Educational Programs for the EMS Professions (CoAEMSP; CoAEMSP.org).

#### Special Admission Requirements

Admission is limited by special accreditation requirements and/or the availability of clinical assignments; therefore, students seeking admission to the program must complete applications to both the College and the program. Application packets are available from the Health Admissions Office on the Warrington campus or the Pensacola State College website at http://pensacolastate.edu/healthprograms. All application requirements must be completed by the established deadlines before students will be considered eligible for admission to this program.

Minimum requirements for eligibility to the program include high school diploma, or GED, satisfactory scores in reading and math on the Test of Basic Education (TABE), documentation of current unencumbered Florida EMT Certification and a current American Heart or American Red Cross BLS for Healthcare Card.

Admission to this program is based upon receipt date of completed application requirements. Once a particular class is full, the remaining qualified applicants are automatically listed as alternates for that class. If the applicant is not seated he or she will be offered admission in the next available class.
CERTIFICATE REQUIREMENTS
Required Courses
BSC 1080 Essentials of Anatomy and Physiology 3 cc
BSC 1080L Essentials of Anatomy and Physiology Laboratory 1 cc
EMS 2613 Patient Assessment 1 cc
EMS 2614 Airway Management and Respiratory Emergencies 3 cc
EMS 1601 Introduction to Advanced Prehospital Care 1 cc
EMS 2231L Paramedic Lab I 3 cc
EMS 1683 Fundamentals of Advanced Prehospital Care 1 cc
EMS 1654L Paramedic Field/Clinical Experience I 3 cc
EMS 2627 Medical Emergencies 4 cc
EMS 1612 Cardiovascular Emergencies 2 cc
EMS 2232L Paramedic Lab II 2 cc
EMS 2681 Special Considerations in Prehospital Care 1 cc
EMS 2680 Behavioral Emergencies 1 cc
EMS 2628 OB/GYN/Neonatal/Pediatric Emergencies 2 cc
EMS 2655L Paramedic Field/Clinical Experience II 3 cc
EMS 2682 Advanced Prehospital Trauma Management 2 cc
EMS 2236L Paramedic Lab III 3 cc
EMS 2460L EMS Field Leadership 1 cc
EMS 2656L Paramedic Field/Clinical Internship 5 cc
EMS 2627: This course includes field experience or service learning. See course description for more information.
Total Credit Hours: 42

GRAPHIC DESIGN TECHNOLOGY (GRAPHICS TECHNOLOGY) ASSOCIATE IN SCIENCE (GRAPH-AS)

A two-year program that serves as a prerequisite for Pensacola State’s Bachelor of Applied Science with a concentration in Graphic Design degree. It also prepares students for careers in graphic design or acts as a transfer degree for persons wishing to continue their education toward an advanced degree at a professional art school. Additional general education course work may be required for transfer to a four-year college. Contact the four-year school for information.

Courses cover practical and theoretical problems of visual communication from the inception of an idea to its final presentation to the printer or client. Concepts and execution are covered with strong emphasis on computer assistance, drawing skills and technical developments in the field. Some professional internships are available for advanced students.

We strongly encourage you to contact the Visual Arts Department for assistance in planning your program of study.

Department Head:
Krist Lien, (850) 484-2554
klien@pensacolastate.edu

Program Contact:
Mark Hopkins, (850) 484-1087
mhopkins@pensacolastate.edu

DEGREE REQUIREMENTS

Semester 1 (18 cc)
Choose one of the following Mathematics General Education Courses:
MAC 1105 College Algebra 3 cc
MGF 1106 Mathematics for Liberal Arts I 3 cc
MGF 1107 Mathematics for Liberal Arts II 3 cc
STA 2023 Elementary Statistics 3 cc

ARH 1051 Art History II 3 cc
GRA 2191C Graphic Design II 3 cc
Natural Sciences (General Education Core Course) 3 cc
Social Sciences (General Education Core Course) 3 cc

See general education course list (p. 116) for general education course options.

Note: Students should register in the Visual Arts Department and work out their personal schedules with the department head.

Total Credit Hours: 64

HEALTH INFORMATION TECHNOLOGY ASSOCIATE IN SCIENCE (HIT-AS)

The two-year degree provides a student with the technical skills necessary to prepare, analyze, and maintain health information required by the patient, health facility and public. The program is accredited by the Commission on the Accreditation for Health Informatics and Information Management (CAHIIM; www.CAHIIM.org). Graduates of the program are eligible to sit for the national qualifying examination offered through AHIMA for certification as Registered Health Information Technician (RHIT).

Special Requirements

Persons interested in the program should contact the Health Programs Admissions Office at the Warrington Campus. Applications must be returned to this office.

In order to establish candidacy and eligibility to enter the program, students must earn a C or better in the following prerequisite courses:
ENC 1101C English Composition I, CGS 1570, Computer Concepts and MAC 1105 College Algebra. Any remedial courses
must be completed before the college credit level courses listed above are completed to progress to the candidates’ status for the program. The Associate in Science in Health Information Technology includes the following college credit certificate:

Medical Information Coder/Biller (p. 137).

Students in this program are encouraged to apply to graduate with the certificate as the requirements are satisfied. The interested student should contact the Allied Health department for assistance in planning the program of study.

Department Head:
Christa Ruber, (850) 484-2301
cruber@pensacolastate.edu

DEGREE REQUIREMENTS

Prerequisite Courses (9 cc)
The following courses MUST be completed, with a grade of C or better, prior to enrolling in any core courses in the Health Information Technology Program:

- ENC 1101 English Composition I 3 cc
- CGS 1570 Computer Concepts and Applications 3 cc
- MAC 1105 College Algebra 3 cc

MEDICAL INFORMATION CODER/BILLER COLLEGE CREDIT CERTIFICATE (HIT-CT)

The Medical Information Coder/Biller program provides students with the technical skills necessary to code medical diagnoses, procedures and services provided for reimbursement in a wide variety of settings including hospital, outpatient, ambulatory surgery centers, clinics and physician offices. Upon completion of the program graduates will be eligible to sit for the national credentialing examination for the Certified Coding Assistant (CCA) credential offered through the American Health Information Management Association (AHIMA; www.AHIMA.org). Upon completion of the program graduates will have the option to progress towards a two-year Associate in Science (AS) degree in Health Information Technology to become Registered Health Information Technicians (RHIT).

Each student enrolled in the Medical Information Coder/Biller Certificate program must provide documentation of a CPR Health Care Provider Card and/or certificate or letter stating attendance in an AIDS/OSHA/Domestic Violence Workshop or course to the HIM program director or Allied Health Department Head located at the Warrington Campus.

Special Requirements

Persons interested in the program should contact the Health Programs Admission office at the Warrington campus. Applications must be returned to that office.

The interested student should contact the Allied Health Department for assistance in planning the program of study.

Upon completion, graduates of the Health Information Coder Certificate program will have the option to transfer into Health Information Technology A.S. degree program.

Total Credit Hours: 37

HEALTH SERVICES MANAGEMENT ASSOCIATE IN SCIENCE (HSM-AS)

Health Services Management graduates work in the administrative support areas of the health field. Positions include professional duties in hospitals, clinics, insurance companies, pharmaceutical firms and doctor’s offices. Health Services Management professionals have little or no direct patient contact, but provide business and administrative services “behind the scenes” by managing insurance, payroll, patient admissions, billings, regulatory reports, marketing, auxiliary services and other similar administrative functions.

Special Requirements

Admission is limited. All program requirements must be met before students are eligible for admission. Seats are allotted to qualified students on a first-qualified, first-admitted basis.

The interested student should contact the Allied Health department for assistance in planning the program of study.

Note: Certain courses are offered only once a year, therefore it is important that each student work with an academic advisor to determine the most effective course sequence.

Total Credit Hours: 60

HOSPITALITY AND TOURISM MANAGEMENT ASSOCIATE IN SCIENCE (HOTEL-AS)

The Hospitality and Tourism Management Program prepares graduates for careers in the many varied areas of the hospitality/tourism industry. The program is designed for individuals wanting to enter or advance in a professional career in lodging, restaurants, tourism, travel, food service, catering, and bar and beverage as well as many other management positions in the lodging, restaurant, hospitality and tourism industry. Courses in the program prepare students to work in any area of the hospitality industry. The students completing the program will have gained in knowledge and competencies in three areas: first in the management of people and other business resources; second the administrative skills to operate a business in the hospitality/tourism industry; and third how to apply their administrative and management skills in any position in the industry.

Students may receive dual credit toward diploma and/or professional certificates with appropriate courses in the program.

For information and assistance in selecting courses, please contact the hospitality and tourism management program coordinator.
Articulation agreements between this program and several Florida universities may be available for students desiring a bachelor’s degree by earning a 64 credit hospitality and tourism management associates of science degree from Pensacola State College then transferring to a Florida university and completing 60 credits in hospitality management. Call or e-mail the program contact for details.

The Associate in Science in Hospitality and Tourism Management includes the following college credit certificates:

- Event Planning Management (p. 139)
- Food and Beverages Management (p. 139)
- Guest Services Specialist (p. 140)
- Rooms Division Management (p. 140)

Students in this program are encouraged to apply to graduate with each certificate as the requirements are satisfied.

We strongly encourage you to contact the Professional Service Careers Department for assistance in planning your program of study.

# NURSING REGISTERED NURSE ASSOCIATE IN SCIENCE (RN-AS)

The Nursing faculty believes that associate in science degree nursing graduates contribute necessary, unique and skilled competencies to the health care system. The Department of Nursing’s mission is to provide quality educational opportunities for students seeking to enter the healthcare arena and to meet the healthcare needs of the community. Classes and clinical experiences are offered day, evenings and/or weekends. Graduates will be eligible to apply to the National Council Licensure Examination for Registered Nurses (NCLEX-RN). The Associate Degree program is accredited by the Accreditation Commission for Education in Nursing, ACEN, 3343 Peachtree Road NE, Suite 850, Atlanta GA 30326.

**Special Admission Requirements**

Students seeking admission to the program must complete application to the College and the program. Admission to this program is limited by student/faculty ratios and availability of clinical resources. All application requirements must be completed before a student will be considered for admission to the nursing program. Once all admission requirements are complete candidates are ranked according to a points system based on GPA and HESI test scores. A complete explanation of the points system may be found in the Associate Degree Nursing Student Information Packet which may be accessed on the Registered Nurse AS Degree page of the College website. Students are required to pass a criminal background check and a urine drug screen prior to clinical experiences. Applicants who have an arrest record (other than a minor traffic violation) should be aware that they may not be permitted to sit for the licensing examination NCLEX-RN after graduation. The Florida Board of Nursing determines eligibility for NCLEX-RN after receiving an individual’s application to take NCLEX-RN. Refer to www.doh.state.fl.us/mqa/nursing/nur_faq.html for questions. Progression to the clinical component of the program is contingent upon submission of satisfactory physical examination/immunization forms and current (American Heart Association only) CPR certification at the Health Care provider level.

**Admission Requirements:**

1. Minimum 2.75 cumulative grade point average in all college courses taken in the past 8 years
2. Completion of all required prerequisite courses with a grade of C or better and an overall grade point average of these courses of 2.75
3. Minimum score of 75 on each of the HESI A² components (reading, grammar, vocabulary, math, anatomy and physiology) in one sitting

**Requirements for Progression:**

1. Progression through the ADN program requires:
2. Grade of C or higher in courses in the curriculum;
3. Grade of C or higher in all corequisites and prerequisites;
4. Current CPR certification at the Health Care Provider level (American Heart Association) only
5. Minimum score of 90% on a dosage calculation examination semester 1 and 3 of nursing courses prior to clinical rotations.
6. Satisfactory level of mental and physical health, including current immunizations, Hepatitis B vaccinations; yearly TB testing and ability to meet Performance Standards
7. Passing a criminal background check and a urine drug screen prior to clinical experience.

Students who do not meet progression requirements must withdraw from the ADN program and apply for readmission.

We strongly encourage you to contact the Health Admission Specialist for assistance in the application process.

**Director of Nursing:**

Dusti Sluder, (850) 484-2204
dsluder@pensacolastate.edu

# DEGREE REQUIREMENTS

**Required Prerequisite Courses (17 cc)**

- BSC 1093 Anatomy and Physiology I 3 cc
- BSC 1093L Anatomy and Physiology I Laboratory 1 cc
- BSC 1094 Anatomy and Physiology II 3 cc
- BSC 1094L Anatomy and Physiology II Laboratory 1 cc

- NUR 2811C Transitional Practice/Preceptorship 4 cc

**Requirements for Readmission:**

Students who interrupt the specified progression through the program of study must apply for readmission to the program. Contact the Department of Nursing for specific instructions.

**Total Credit Hours: 72**
**CAREER MOBILITY OPTIONS**

The Career Mobility Option is designated to give the licensed practical nurse (LPN) and the certified paramedic the opportunity to complete the associate degree nursing program.

**Admission Requirements:**

Admission to this program is limited by student/faculty ratios and availability of clinical resources; therefore, students seeking admission to this program option must complete an application to both the College and the program. All application requirements must be completed before a student will be considered for admission to this program option. Once all admission requirements are completed candidates are ranked according to a points system based on GPA and HESI test scores. A complete explanation of the points system may be found in the Associate Degree Nursing Student Information Packet which may be accessed on the Registered Nurse AS Degree page of the College website. Students are required to pass a criminal background check and a urine drug screen prior to clinical experiences.

**Eligibility for admission requires:**

1. Minimum 2.75 cumulative grade point average in all college courses taken in the past 8 years
2. Completion of all required prerequisite courses with a grade of C or better and an overall grade point average on these courses of 2.75
3. Minimum score of 75 on each of the HESI A² components (reading, grammar, vocabulary, math, anatomy and physiology) in one sitting
4. Current unencumbered Florida licensure as a Practical Nurse or current unencumbered Florida certification as a Paramedic

Progression to the clinical component of the program is contingent upon submission of satisfactory physical examination, immunization forms and current CPR certification at the Health Care Provider level (American Heart Association only).

(For information on the requirements for Progression, Readmission and Academic Eligibility, see Nursing (Associate Degree) RN program.

We strongly encourage you to contact the Health Admission Specialist for assistance in the application process.

PARALEGAL STUDIES (LEGAL ASSISTING) ASSOCIATE IN SCIENCE (LEGAL-AS)

The legal assistant—also referred to as a paralegal—has become, in less than two decades, an integral part of the legal profession. This program equips its graduates to function both as an attorney’s general assistant and as a highly competent specialist in a particular area of law.

In addition to 16 hours of general education courses, all students must complete 48 hours of core courses.

Courses are structured and scheduled so that a student should be able to enter the program on either a full or part-time basis in any day or night semester.

We strongly encourage you to contact the Business Department for assistance in planning your program of study.

Department Head:
Debra Kuhl, (850) 484-2504
dkuhl@pensacolastate.edu

Program Contact:
James Hightower, (850) 484-1367
jhightower@pensacolastate.edu

DEGREE REQUIREMENTS

Semester 1 (15 cc)
ENC 1101C    English Composition I  3 cc
PLA 1003    The Legal Profession  3 cc
PLA 1104    Legal Research and Writing I  3 cc
PLA 1273    Torts  3 cc
Humanities (General Education Core Course)  3 cc

See general education course list (p. 116) for general education course options.

Semester 2 (16 cc)
ENC 1102    English Composition II  3 cc
PLA 1203    Civil Litigation  3 cc
PLA 1700    Legal Ethics  3 cc
PLA 2880    Constitutional Law  3 cc
SPC 1006    Study of Speaking and Listening  1 cc

Choose one of the following Mathematics General Education Courses:
MAC 1105    College Algebra  3 cc
MGF 1106    Mathematics for Liberal Arts I  3 cc
MGF 1107    Mathematics for Liberal Arts II  3 cc
STA 2023    Elementary Statistics  3 cc

MAC 1105 is recommended.

Semester 3 (18 cc)
PLA 2730    Computers in Law  3 cc
Any Natural Sciences General Education Course  3 cc
Any Social Sciences General Education Course  3 cc
Program Electives  9 cc

See general education course list (p. 116) for general education course options.

Semester 4 (15 cc)
PLA 2114    Legal Research and Writing II  3 cc
PLA 2944    Paralegal Practicum  3 cc
Program Electives  9 cc

Program Electives
PLA 1303    Criminal Law and Procedure  3 cc
PLA 2260    Evidence  3 cc
PLA 2276    Automobile Insurance, Workers’ Compensation, and Administrative Law  3 cc
PLA 2423    Contracts  3 cc

PLA 2601    Probate  3 cc
PLA 2610    Real Estate Law  3 cc
PLA 2800    Domestic Relations  3 cc
PLA 2943    Law Office Internship  3 cc
PLA 2949    Paralegal Studies Co-op  3 cc
CGS 1570    Computer Concepts and Applications  3 cc

Only students who are not familiar with the Microsoft Office products (Word, Excel, PowerPoint and Access) should take CGS 1570.

Total Credit Hours: 64

PHARMACY MANAGEMENT ASSOCIATE IN SCIENCE (PHM-AS)

The Associate in Science (A.S.) degree in Pharmacy Management expands on the curriculum of the Pharmacy Technician Applied Technology Diploma to prepare students for careers as Pharmacy Technician Specialists. Students can enroll directly into the A.S. degree program or transition from the Pharmacy Technician ATD program.

Upon successful completion of the program, graduates earn an Associate in Science degree and are equipped to assume entry-level management responsibilities in a pharmacy. Graduates are prepared for employment in hospitals, long term care facilities, retail stores, drug manufacturing companies, wholesale drug houses and health maintenance organizations.

The interested student should contact the Allied Health Department for assistance in planning the program of study.

Department Head:
Christa Ruber, (850) 484-2301
cruber@pensacolastate.edu

DEGREE REQUIREMENTS

Semester 1-Fall (16 cc)
CHM 1025    Introduction to College Chemistry  3 cc
CHM 1025L    Introduction to College Chemistry Laboratory  1 cc
ENC 1101C    English Composition I  3 cc
SPC 2300    Interpersonal Communication  3 cc
MAC 1105    College Algebra  3 cc
SLS 1353    Generations at Work  3 cc

See general education course list (p. 116) for general education course options.
PHOTOGRAPHIC TECHNOLOGY
ASSOCIATE IN SCIENCE (PHOTO-AS)

This two-year photography program is designed to train students for careers in the emerging fields of commercial/artistic photography, emphasizing digital technology, and analog processes. Importance is placed on technical competence, aesthetics and creative approach. Upon graduation, this degree initiates transferable courses for persons wishing to continue their education toward an advanced four-year school. Additional general education course work may be required for transfer to a four-year college. Contact the four-year school for information.

We strongly encourage you to contact the Visual Arts Department for assistance in planning your program of study.

Note: Students should register in the Visual Arts Department and work out their personal schedules with the department head.

Total Credit Hours: 64

PHYSICAL THERAPIST ASSISTANT
ASSOCIATE IN SCIENCE (PTA-AS)

The physical therapist assistant is a skilled technical health care worker who, under the supervision of a registered physical therapist, carries out a planned patient care program. Duties of the physical therapist assistant include: training patients in exercise and activities of daily living; conducting treatments utilizing special equipment; assisting in performing tests, evaluations and treatment procedures; and observing the patient’s responses and reporting to the supervising physical therapist. The Physical Therapist Assistant Program at Pensacola State College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) 1111 North Fairfax Street, Alexandria, Virginia 22314; telephone: 703-765-3243; email: accreditation@apta.org; website: http://www.capteonline.org.
Special Admissions Requirements

Enrollment in the program is limited. The number of students in each class will be determined by the availability of space, equipment, qualified faculty and hospital and clinical facilities necessary for a meaningful education. Only one class per year is accepted. Program acceptance is based on selection from all qualified applicants meeting the minimum criteria on a first-qualified/first served basis. After the allotted seats for each class are filled, the applicants meeting the minimum criteria will be guaranteed a seat in the next available class. All applicants who meet the established criteria will be accepted into the program. However, not all will be guaranteed seats in the class of their choice if the application is not completed in a timely fashion. Minimum requirements for eligibility include high school diploma or GED. Applications for both the College and program must be complete and the appropriate transcripts must be on file. Applicants must have a GPA of 2.5 or higher and have completed prerequisite course work with "C's" or better. Finally, applicants must provide documentation of 48 hours of observation of physical therapy in three different venues. Final admission to the program is contingent upon submission of a satisfactory federal criminal background check and a drug screen. Admissions information packets are available on the Pensacola State College website. The interested student should contact the Allied Health Department for assistance in planning the program of study.

RADIOGRAPHY ASSOCIATE IN SCIENCE (XRAY-AS)

The 23-month full-time curriculum has been designed to assist students in developing and mastering basic clinical competencies and theoretical concepts of current radiography practice. Graduates receive an AS Degree in Radiologic Technology and are eligible to sit for the national examination given by the American Registry of Radiologic Technologists (ARRT). ARRT certification is recognized throughout the United States. The Radiography program is fully accredited by the Joint Review Committee on Education in Radiologic Technology, 20 N. Wacker Drive, Suite 3182, Chicago, IL 60606-3182. Telephone (312) 704-5300. www.JRCERT.org

Special Admissions Requirements

Admission is limited. All program entry requirements must be met before students are eligible for admission. One class per year is accepted. Seats are allotted to qualified students on a first qualified/first served basis.

Minimum requirements for eligibility to the program include high school diploma or GED and satisfactory scores on diagnostic tests in reading and math computation skills. Application packets are available from the Health Programs Admissions Office (850-484-2210) on the Warrington Campus or the Pensacola State College website at www.pensacolastate.edu/healthprograms. Next, scroll to the Radiography Information Packet.

When students complete all sections of the application process and meet minimum criteria, they will be provisionally accepted into the program and assigned a seat in the next available class. Therefore, it is important to complete the application, testing and transcript acquisition process as soon as possible. Applicants will be notified of their provisional acceptance in a timely manner. Final admission into the program is contingent upon submission of satisfactory
physical examination/immunization forms, drug screen and 
criminal background check.
Core courses with an RTE prefix may not be taken on a Pass/Fail 
option.

**Requirements for the Associate in Science Degree for 
Hospital Based Radiographer graduates:**

Pensacola State College provides a means for graduates of JRCERT 
accredited Hospital-based two-year programs who are currently 
registered Radiologic Technologist to pursue an Associate Degree.

To qualify, applicants must submit an application to the College 
and the Allied Health Department. Applicants must also submit an 
official transcript to the College and hold a current, unrestricted RT 
registration. Once applicants have completed the required general 
education courses, they would receive 62 credits and would be 
awarded the Associate in Science degree. Please contact the Allied 
Health Department for advising.

Students are encouraged to to contact the Allied Health 
Department for assistance in planning their program of study.

**SONOGRAPHY (DIAGNOSTIC MEDICAL SONOGRAPHY) ASSOCIATE IN 
SCIENCE (SON-AS)**

The Associate in Science in Diagnostic Medical Sonography 
curriculum prepares the student to exercise initiative and 
independent judgment in the performance of sonographic 
examinations.

Each graduate is encouraged to pursue registry and are eligible to 
sit for the American Registry for Radiologic Technology (ARRT) 
sonography exam upon graduation. The American Registry for 
Diagnostic Medical Sonography (ARDMS) is another national 
registry that graduates can qualify for by different pathways. The 
information packet has more information about registry.

**Special Requirements**

Admission is limited by the availability of clinical assignments. All 
program requirements must be met before students are eligible for 
admission. One class per year is accepted. Seats are allotted to 
qualified students on a first qualified, first admitted basis. All 
qualified students will be accepted into the program but their seats 
may not be available in the year of their choice.

The minimum requirements include: application to both the 
College and program, high school diploma or GED, appropriate 
transcripts on file, minimum score of 55 on all 5 subcategories 
segments of the Test of Essential Academics Skills V for Allied 
Health (TEAS-VAH), pre-orientation/information sheet, 
completion of all pre-requisite courses with a minimum grade of C 
or better in each course and a minimum GPA in these courses 
combined of 2.75, and a minimum composite (all college credits 
attempted) of 2.50.

Applicants who have completed a program in an allied health care 
field that is patient care related at an associate degree level or 
higher may qualify for special admission requirements. The 
information packet details this articulation agreement.

Immediately prior to the clinical portion of the program all 
students must satisfactorily pass a federal criminal background 
check, drug screen, physical examination/immunization record, 
and hold a current American Heart Association CPR for Health 
Care Provider card. There is a technical standard for the clinical 
portion of the program and other clinical restrictions may apply.

Details of the program requirements and all forms needed are 
available from the Health Programs Admissions Office on the
Warrington Campus or on the Pensacola State College website, www.pensacolastate.edu.

The interested student should contact the Allied Health department for assistance in planning the program of study.

VETERINARY TECHNOLOGY
ASSOCIATE IN SCIENCE (VET-AS)

The two year, full-time program prepares students to perform entry-level skills as a Veterinary Technician. Skills are mastered through classroom instruction and supervised laboratory instruction. Students will be assigned to a clinical work site throughout the program. The core courses of the program begin in August of each year. Prior to starting core courses students must have completed the following general education courses: ENC 1101 (p. 207) (English Composition I), MAC 1105 (p. 223) (College Algebra) and ZOO 1010 (p. 248) (General Zoology with ZOO 1010L (p. 248) General Zoology Lab) or BSC1010 (p. 185) (Principles of Biology with BSC1010L (p. 185), Principles of Biology Lab). Other required general education courses can be taken prior to graduation. Students must also complete 30 hours of veterinary clinical work or volunteer experience prior to acceptance into the program. The veterinary clinic observation form can be found in the application packet. The complete information packet and application process can be found at www.pensacolastate.edu/vettech/. Please read the application procedures carefully and use the student checklist provided. Applicants are advised to contact the department at veterinarytech@pensacolastate.edu to assess their application status. Program information is subject to change.

The interested student encouraged to contact the Veterinary Technology Program Coordinator for assistance in planning their program of study.

Note: Clinical Work Experience will require that the student spend four hours per week at an approved clinical site each semester.

Total Credit Hours: 73
APPLIED TECHNOLOGY DIPLOMA (ATD) PROGRAMS

The Applied Technology Diploma program prepares students for immediate entry into a career in the workforce. The program requires prescribed technical courses. For students who meet degree seeking requirements college credit hours earned in an Applied Technology Diploma program are applicable towards a related Associate in Applied Science Degree or an Associate in Science Degree. The Applied Technology Diploma does not contain a separate general education component, but students are required to demonstrate or achieve a specified level of competence in basic skills as evidenced by minimum scores on the Test of Adult Basic Skills (TABE) before graduation.

EMERGENCY MEDICAL TECHNICIAN APPLIED TECHNOLOGY DIPLOMA (EMT-ATD)

The program is designed to provide an opportunity for persons interested in pre-hospital emergency care to become skilled in basic emergency care to save lives and reduce injury. The Florida Department of Health, Bureau of EMS, has approved Pensacola State College as a training center for EMT and Paramedic programs. Graduates are eligible to take the State and National EMT Certification examination. Health Program applications are available from the Admissions Specialist, Health Programs Office on the Warrington Campus or on the Pensacola State College website at www.pensacolastate.edu, click on Warrington Campus, then Emergency Medical Technician program for specific details.

All application requirements must be completed by the established deadlines before a student will be considered eligible for admission to this program. Background and drug screen must be completed by the established deadlines.

Minimum requirements for eligibility to the program include high school diploma or GED and 18 years of age. All applicants to the EMT program must provide a current, valid CPR (basic Life Support for healthcare provider or professional rescuer) course completion card at the time of application. Must meet a composite score of 10.0 on the Nelson Denny Reading Comprehension exam and score at the 10th grade reading level. Acceptable cards include American Heart Association, American Red Cross, and American Safety and Health Institute. This completion card must remain current through the program, once the applicant has been accepted. For questions regarding this requirement, please email the program director.

Admission is competitive among eligible applicants. Applicants who have submitted the application packet and met the minimum criteria for entrance into the program will be placed in the class according to when the applicant's completed packet is received. Fall and Spring classes are limited to 24 students and Summer classes are limited to 24 students. Once the current class is filled, the applicants will be placed in the next available class. Final admission to the program is contingent upon submission of satisfactory physical examination/immunization forms.

EMS 1411L EMT Clinical Internship 2 cc
Total Credit Hours: 11

MEDICAL RECORDS TRANSCRIBING APPLIED TECHNOLOGY DIPLOMA (MDTR-ATD)

The program prepares students for employment as medical transcriptionists. Positions include opportunities with hospitals, outpatient clinics, physician’s offices, independent transcription services, as well as nursing homes and ancillary facilities.

Special Requirements
Persons interested in the program should contact the Health Programs Admission office on the Warrington campus; applications must be returned to that office.

Department Head:
Christa Ruber, (850) 484-2301 cruber@pensacolastate.edu

Program Director:

OST 1613 Medical Transcription III 3 cc
OST 1614 Medical Transcription IV 3 cc

Total Credit Hours: 33
PHARMACY TECHNICIAN APPLIED TECHNOLOGY DIPLOMA (PHRM-ATD)

The program prepares graduates to work in both institutional and community pharmacy settings under the supervision of a pharmacist. Pharmacy technicians assist pharmacists in dispensing medications and are accountable to the supervising pharmacist who is legally responsible through state licensure for the care and safety of patients served by the pharmacy.

Pharmacy technician job duties include providing medication and other health care products to patients and working with third party agents and physicians in resolving adjudication of patients’ insurance or state program. Pharmacy technicians often do the routine tasks associated with preparing and providing prescribed medications to patients, but may also do compounding of medications, doctor calls, expense and medication orders, returns and expired credits, and non-licensed pharmacy management.

State rules and regulations as well as job policies and procedures define the functions and responsibilities of pharmacy technicians.

Special Admission Requirements

Student enrollment in the program is limited. The number of students in each class shall be determined by the availability of space, equipment, qualified faculty, and institutional and community clinical facilities necessary for a meaningful education.

Only one class per year is accepted. Program acceptance is based on selection from all qualified applicants meeting the minimum criteria on a first-qualified/first-seated basis. All applicants who meet the established criteria will be accepted into the program. However, not all will be guaranteed seats in the class of their choice if the application is not completed in a timely fashion.

Minimum requirements for eligibility to the program include high school diploma or GED. Applications for both the College and program must be on file. Applicants must have a GPA of 2.0 or higher and be at least 17 years of age. Final admission to the program is contingent upon submission of satisfactory physical examination/immunization forms, a federal background check and a drug screen. Admissions information packets are available on the Pensacola State College website.

Note: CPR for Health Care Providers must be taken prior to starting clinicals. All courses must be completed with a grade of C or higher. Additionally, Test of Adult Basic Education (TABE) scores must be on file, if required. Please check with the Testing Center for more information.

Total Credit Hours: 40
DEVELOPMENTAL EDUCATION

Developmental education is instruction through which a high school graduate may attain the communication and computation skills necessary to successfully complete college credit instruction. The College offers developmental education courses in English, reading, and mathematics. According to the Florida Administrative Code, an entering student who is not exempt from common placement testing and developmental education must take Florida’s placement test, the PERT (Post-Secondary Education Readiness Test). A non-exempt student whose PERT scores in English, reading, or mathematics fall below the minimum in these areas must take developmental education courses.

Per Florida Statute 1008.30, the following students are exempt from the requirement to take the common placement test and to enroll in developmental education:

1. Students who entered Grade 9 in a Florida public school in 2003-2004 or thereafter and earned a Florida standard high school diploma; and
2. Students who are serving as active duty members of any branch of the United States Armed Services.

However, a student who is not required to take the common placement test nor to enroll in developmental education courses may choose to be assessed and enroll in developmental education instruction.

A student who is not exempt from common placement testing and who tests into developmental education and subsequently enrolls in developmental courses must successfully complete the required developmental education courses by the time he or she has accumulated 12 credit hours of college coursework or must maintain continuous enrollment in developmental coursework each semester until the requirements are completed while performing satisfactorily in the degree earning coursework. A student who is required to take two or more developmental education courses must also complete SLS 1101 College Success (p. 244).

Developmental education courses do not satisfy any requirements for graduation. Each developmental education course is designated in the course description to indicate the number of college preparatory (c.p.) credits awarded. For assistance in college credit course selection or for additional information about this state requirement, contact an advisor.

In accordance with Florida law, a student may use Adult Education, Adult Secondary Education, private provider instruction, or approved documented student achievements as an alternative to traditional developmental education instruction. For information on these options, contact Mr. Kirk Bradley in the Mathematics Department at 850-484-1128 or Dr. Tracy Peyton in the English and Communications Department at 850-484-1400.

Developmental Education Courses

ENC 0015 - Developmental Writing I (3 cp)

Designed for students whose basic language skills need improvement, this course includes a review of basic grammar rules, sentence structure, punctuation, and capitalization. The writing component of the course focuses on effective paragraph composition.

Prerequisite: Appropriate score on the Florida entry-level placement exam. Offered: FA, SP, SU.

ENC 0025 - Developmental Writing II (3 cp)

Designed for students who need to improve their language skills, this course offers a review of grammar rules, language usage, sentence structure, punctuation, and composition of effective paragraphs and short essays.

Prerequisite: Appropriate score on the Florida entry-level placement exam or completion of ENC 0015 with a grade of C or better. Offered: FA, SP, SU.

ENC 0055 - Developmental Writing Modules (1 cp)

Based on a student’s performance on a diagnostic instrument or in a previous attempt of ENC 0025, this course covers up to 33% of the material in ENC 0025, which provides a review of grammar rules, language usage, sentence structure, and punctuation.

Prerequisite: Appropriate score on the Florida entry-level placement exam or accelerated completion of 67% or more of ENC 0025 and department head approval. Offered: FA, SP, SU. Notes: Lab fee.

ENC 0056 - Developmental Writing Modules (2 cp)

Based on a student’s performance on a diagnostic instrument or in a previous attempt of ENC 0025, this course covers up to 66% of the material in ENC 0025, which provides a review of grammar rules, language usage, sentence structure, and punctuation.

Prerequisite: Appropriate score on the Florida entry-level placement exam or accelerated completion of 34% or more of ENC 0025 and department head approval. Offered: FA, SP, SU. Notes: Lab fee.

MAT 0018 - Developmental Mathematics I (3 cp)

A math course for students who have little or no algebra background. The major topics in the course are operations with signed numbers, fractions, decimals, ratios and proportions, percents, and geometric figures. The prealgebra topics will include properties of signed numbers, simplifying polynomials, and equation solving. Students must earn a grade of "C" or higher in order to advance to the next higher mathematics course which is MAT 0028.

Prerequisite: Appropriate score on Florida entry-level placement exam. Offered: FA, SP, SU.

MAT 0028 - Developmental Mathematics II (3 cp)

This course is designed for students who have had some previous algebra instruction and it will provide the algebra skills needed for success in MAT 1033. The major topics in the course are signed numbers, algebraic expressions, exponents, polynomials, factoring polynomials, linear and quadratic equations, rational and radical expressions, and an introduction to graphing. Students must earn a grade of "C" or higher in order to advance to the next higher mathematics course which is MAT 1033.

Prerequisite: Appropriate score on Florida entry-level placement exam or completion of MAT0018 with a grade of C or higher. Offered: FA, SP, SU.

MAT 0055 - Developmental Mathematics Modules (1 cp)

Based on a student’s performance on a diagnostic instrument or in a previous attempt of MAT 0028, this course covers up to 33% of the materials in MAT0028, which provides algebra skills needed for success in MAT1033. The major topics in the course may include signed numbers, algebraic expressions, exponents, polynomials, factoring polynomials, linear and quadratic equations, rational and radical expressions, and an introduction to graphing.

Prerequisite: Appropriate score on Florida entry-level placement exam or completion of MAT0018 with a grade of C or higher. Offered: TBA. Notes: Lab fee.
MAT 0056 - Developmental Mathematics Modules (2 cp)
Based on a student's performance on a diagnostic instrument or in a previous attempt of MAT 0028, this course covers up to 66% of the material in MAT 0028, which provides algebra skills needed for success in MAT 1033. The major topics in the course may include signed numbers, algebraic expressions, exponents, polynomials, factoring polynomials, linear and quadratic equations, rational and radical expressions, and an introduction to graphing.
Prerequisite: Appropriate score on Florida entry-level placement exam or completion of MAT0018 with a grade of C or higher.
Offered: TBA. Notes: Lab fee.

REA 0007 - Developmental Reading I (3 cp)
REA0007 is a college preparatory reading course that builds basic skills in vocabulary and literal and critical comprehension. This course emphasizes student development of successful reading strategies.
Prerequisite: Appropriate score on the Florida entry-level placement exam. Offered: FA, SP, SU.

REA 0017 - Developmental Reading II (3 cp)
REA0017 is a college preparatory reading course that advances college-level skills in vocabulary and literal and critical comprehension. This course emphasizes student development of successful reading strategies.
Prerequisite: Appropriate score on the Florida entry-level placement exam or completion of REA 0007 with grade of C or better. Offered: FA, SP, SU.

REA 0055 - Developmental Reading Modules (1 cp)
Based on a student's performance on a diagnostic instrument or in a previous attempt of REA 0017, this course covers up to 33% of the material in REA 0017, which advances college-level skills in vocabulary and literal and critical comprehension and emphasizes student development of successful reading strategies.
Prerequisite: Appropriate score on the Florida entry-level placement exam or accelerated completion of 67% or more of REA 0017 and department head approval. Offered: FA, SP, SU. Notes: Lab fee.

REA 0056 - Developmental Reading Modules (2 cp)
Based on a student's performance on a diagnostic instrument or in a previous attempt of REA 0017, this course covers up to 66% of the material in REA 0017, which advances college-level skills in vocabulary and literal and critical comprehension and emphasizes student development of successful reading strategies.
Prerequisite: Appropriate score on the Florida entry-level placement exam or accelerated completion of 34% or more of REA 0017 and department head approval. Offered: FA, SP, SU. Notes: Lab fee.
VOCATIONAL CERTIFICATE (CLOCK HOUR) PROGRAMS

The Vocational Certificate (Clock Hour) programs prepare students for careers that provide direct entry into the workforce. The programs require prescribed vocational clock hour courses and the student is required to demonstrate or achieve a specified level of competence in basic skills as evidenced by minimum scores on the Test of Adult Basic Skills (TABE) before graduation.

Certificate Graduation Requirements:
1. A student must earn a cumulative grade point average of 2.0 or better in all courses applicable to the program of study from which the student wishes to graduate.
2. A student must achieve appropriate minimum skill levels on the Test of Adult Basic Education (TABE) for Applied Technology Diploma and vocational certificates with 450 clock hours or more. A student pursuing a certificate may be exempted from the TABE requirement based on prior attainment of an Associate in Arts or higher degree.
3. A student must meet academic residence requirement of completing at least 25% of the program with classes at Pensacola State College.

Vocational Certificate (Clock Hour) Programs (VC)
Advanced Esthetics (p. 153)
Applied Welding Technologies (p. 159)
Barbering (p. 153)
Carpentry (p. 153)
Cosmetology (p. 154)
Electricity (p. 154)
Electrocardiograph Technician (p. 154)
Facials Specialty (p. 155)
Heating, Ventilation, and Air Conditioning (p. 155)
Massage Therapy (p. 155)
Medical Assisting (p. 156)
Nails Specialty (p. 156)

Nursing - Practical Nursing (p. 158)
Phlebotomy (p. 157)
Plumbing Technology (p. 157)
Psychiatric Technology (p. 158)
Public Safety Telecommunicator (p. 158)
Surgical Technology (p. 159)

ADVANCED ESTHETICS CAREER AND TECHNICAL CERTIFICATE (ESTHE-VC)

This program is targeted at those who are already working as a registered Facial Skin Care Specialist and is a continuation of the Facials/Skin Care Specialty program. It is designed for Facial Skin Care Specialist/Estheticians needing the advanced skills required for employment within the spa industry, medical offices including dermatologist and plastic surgeons, and the new medi-spa industry.

Areas of study include Florida cosmetology law and rules; spa therapies; chemical peels; exfoliates, exfoliation techniques; microdermabrasion equipment; advanced esthetics; advanced European treatments; and esthetics chemistry.

BARBERING CAREER AND TECHNICAL CERTIFICATE (BARB-VC)

Prepares students for licensure and employment as a barber to administer hair designs and hair care. For questions regarding entrance requirements and program application, contact the Professional Service Careers Department. Evening classes only (Monday–Thursday). Summer Term Monday–Friday.

We strongly encourage you to contact the Professional Service Careers Department for assistance in planning your program of study.

CERTIFICATE REQUIREMENTS (600 CH)

Required Courses
CSP 0105C Advanced Skin Care I 150 ch
CSP 0106C Advanced Skin Care II 150 ch
CSP 0264C Facial Treatments 150 ch
CSP 0931 Specialty Topics 60 ch
CSP 0505 Ethical Business Practices 30 ch
CSP 0940L Internship 60 ch

Carpentry Career and Technical Certificate (CARP-VC)

This three semester program prepares students for a career in the carpentry trade by focusing on broad, transferable skills that stress both theory and hands on training. Carpenters make up the largest building trades occupation in the industry and those with all-around skills are in high demand. Carpenters are involved in many different kinds of construction activities, from building highways and bridges to installing kitchen cabinets. Carpenters construct,
erect, install, and repair structures and fixtures made from wood and other materials. This program teaches essential carpentry skills and offers on-the-job training, which can help you build on your proficiency and future earnings potential and the opportunity to be your own boss. This four-level curriculum covers content leading to certification by the National Center for Construction Education and Research (NCCER). Basic entry-level skills in math, reading, and language must be attained in order to complete this program. Students wishing to enter this program of study should be advised by the instructor or program manager prior to enrollment in these courses.

**COSMETOLOGY CAREER AND TECHNICAL CERTIFICATE (COSM-VC)**

Cosmetology is a twelve-month, 1200 clock hour program of study that prepares students for State licensure and employment in the areas of hair, nail and skin care. Classes begin in August, January, and May and are limited to spaces available. For questions regarding entrance requirements and program application, contact the Professional Service Careers Department. The Cosmetology program is offered in the Pensacola, Milton, and Century campuses.

We strongly encourage you to contact the Professional Service Careers Department for assistance in planning your program of study.

**EKG TECHNICIAN CAREER AND TECHNICAL CERTIFICATE (EKG-VC)**

This program prepares the student for employment as an electrocardiograph aide, electrocardiograph technician, EKG technician, or other job requiring knowledge of how to perform a 12-lead EKG and recognize a cardiac emergency. Course content includes normal cardiac function, the relationship of EKG markings to normal function, preparing a patient mentally and physically, setting up equipment properly, recognizing cardiac emergencies, interpersonal skills, an overview of cardiovascular anatomy and physiology, medical terminology, patient care techniques, medical instrumentation, cardiovascular drugs, the interpretation of monitoring and testing results, medical ethics, cardiac wellness and rehabilitation, safe and efficient work practices, CPR, and employability skills.

Program graduates may sit for the EKG Technician National Certification Exam through the National Healthcareer Association (NHA).

The interested student should contact the Allied Health department for assistance in planning the program of study.

**ELECTRICITY CAREER AND TECHNICAL CERTIFICATE (ELECT-VC)**

This program offers entry level electrical skills required by the construction industry. Electricians install electrical systems in structures; they install wiring and other electrical components such as circuit breaker panels, switches, and light fixtures, and they follow blueprints, the National Electrical Code® and state and local codes. Completers of this program earn a Florida Vocational Certificate in Electricity. The program is also nationally certified by The National Center for Construction Education and Research (NCCER).

Courses in this 1200 hour program offer a combination of theory and hands-on training. Among the topics covered are: DC/AC theories; proper selection and use of power and hand tools used in the trade; use of blueprints; National Electrical Code (NEC); wiring techniques; and electrical maintenance procedures. Training experience will consist of “hands-on” situations in the lab and through actual construction projects with the emphasis placed on safety in the lab and on the project site. Basic entry-level skills in math, reading, and language must be attained in order to complete this program. Students wishing to enter this program of study should be advised by the instructor or program manager prior to enrollment in these courses.

FACIALS SPECIALTY CAREER AND TECHNICAL CERTIFICATE (FACE-VC)

Our Facials/Skin Care Specialist program is a one semester program of study that prepares skin-care students for licensure and a career in the esthetics profession.

In an age of specialization, the esthetician plays a crucial role in the cast of our Salons and Day Spas. As a Certified Facials/Skin Care Specialist, your skills as a make-up artist and skin-care technician will serve you well in a world where "pampering" is no longer a luxury enjoyed by the privileged few. Studies will emphasize the structure and function of the skin and will prepare students to crucially assess and meet the unique needs of each client. The program delivers a strong foundation in the applied and general sciences. Business and career development classes, along with training in Florida laws and regulations, are also offered. The program offers instruction in basic facials, color theory, makeup artistry, body treatments, lash application, brow tinting, and hair removal. Each of our comprehensive programs also covers sanitation procedures, bacteriology, chemistry, electricity such as 81 machines, and the use of microdermabrasion.

Admission is by application only. Please contact the program coordinator in Building 12 at (850) 484-1642. We strongly encourage you to contact the Professional Service Careers Department for assistance in planning your program of study.

HEATING, VENTILATION AND AIR CONDITIONING CAREER AND TECHNICAL CERTIFICATE (HVAC-VC)

This program prepares students for entry level employment in the HVAC industry. HVAC is an acronym that stands for heating, ventilation, and air-conditioning. The HVAC industry is made up of skilled professionals, known as HVAC technicians, who install and maintain HVAC systems found in residences, commercial buildings, office buildings, schools, hospitals and retail establishments. Air quality, temperature control, humidity regulation, refrigeration, heating, and other aspects of climate control are all handled by the HVAC systems.

Both theory and hands-on application of skills are emphasized in this program which enables students to obtain Level 1 thru Level 4 NCCER (National Center for Construction Education and Research) certification. The program also demonstrates elements such as planning, management, finance, technical and production skills, the underlying principles of technology, as well as, labor, health, safety, and environmental issues. Basic entry-level skills in math, reading, and language must be attained in order to complete this program.

Both full time (day) and part time (night) programs are available. The full time program is designed to take students one year to complete while the evening part time program will take longer.

Students wishing to enter this program of study should be advised by program personnel as to when introductory courses begin.

MASSAGE THERAPY CAREER AND TECHNICAL CERTIFICATE (MT-VC)

The professional Massage Therapy Program is a 750 clock hours (25 vocational credits), vocational certificate program that prepares students for employment as a Florida licensed massage therapist.

The program content includes but is not limited to the theory and practice of massage, theory and practice of hydrotherapy, hygiene, practice demonstration, human anatomy and physiology, legal aspects of massage practice, allied modalities, leadership and human relations skills, health and safety, CPR, and employability skills.

Individuals successfully completing the program will be eligible to sit for the Florida Department of Health, Board of Massage Therapy license examination.

Students must select either the full-time daytime track lasting approximately eight months (two semesters) or the part-time
evening track lasting approximately twelve months (three semesters). The both tracks are design to comply with course of study classroom hours as stated in F.A.C. 64B7-32.003.

Admission to this program is based upon receipt date of completed application requirements. Once a particular class is full, the remaining qualified applicants are automatically listed as alternates for that class. Applicants are strongly encouraged to contact the Pensacola State College Massage Therapy coordinator for assistance.

Contact the Professional Service Careers Department for assistance in planning your program of study.

NURSING ASSISTANT CAREER AND TECHNICAL CERTIFICATE (NA-VC)
The Nursing Assistant Program consists of one core course in the same semester. The program provides technical skill proficiency, competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, occupation-specific skills specific to patient care.

Successful completion of the program prepares students for certification for employment as a Certified Nursing Assistant in a nursing home, in accordance with 464.203, of the Florida Statutes.

Special Admission Requirements
Admission is limited by special accreditation requirements and/or the availability of clinical resources. Students seeking admission to the program must complete application to both the College and the Nursing Assistant program. All application requirements must be completed before students will be considered for admission to the Nursing Assistant program. Students must hold a high school diploma or GED equivalent, and an overall 2.0 grade point average.

Program Progression
Students must earn a grade of C or better in all courses leading to completion of the Nursing Assistant Program. Background check, drug screen and health form, and appropriate immunizations are required for all applicants. A student whose drug screening and criminal background checks are deemed unsatisfactory may be denied access to clinical experiences by the clinical agency. Failure to qualify for and meet clinical requirements at clinical sites will
prevent completion of the program. Withdrawal from the program may be necessary if students cannot be placed for clinical experiences, and withdrawal for these reasons after drop/add period will not include reimbursement of tuition and fees.

PHLEBOTOMY CAREER AND
TECHNICAL CERTIFICATE (PHLEB-VC)
The Phlebotomy program trains students in the basic and supporting skills of the phlebotomist. Skills include: specimen collection by venipuncture and capillary puncture, basic anatomy and physiology, infection control, safety, and patient relations.

This program meets the requirements for taking the Phlebotomist National Certification Exam through the National Health Career Association (NHA) and the America Society of Clinical Pathology (ASCP).

Interested students should contact the Allied Health department for assistance in planning their program of study.

Special Requirements
Admission is limited by clinical assignments. All program requirements must be met before students are eligible for admission. Three classes per year are accepted. Seats are allotted to qualified applicants on a first qualified/first served basis. All qualified students will be accepted into the program, but their seats may not be available in the year of their choice.

Details of the program requirements and all forms needed are available from the Health Programs Admission Office on the Warrington Campus or on the Pensacola State College website, www.pensacolastate.edu. The minimum requirements include: applications to the College and program, high school diploma or GED, appropriate transcripts on file, a minimum composite college level GPA of 2.0 and a minimum age of 18. All students must satisfactorily pass a federal background check, drug screen, physical examination/immunization record, and a front/back copy of a current American Heart Association Basic Life Support card. Technical standards for the clinical portion of the program and other clinical restrictions may apply.

The program information packet is available on the college website for answers to frequently asked questions, program schedule and more specific details.

PLUMBING TECHNOLOGY CAREER
AND TECHNICAL CERTIFICATE
(PLUMB-VC)

This program prepares students for employment or advanced training in a variety of pipe occupations by focusing on broad, transferable skills, and stressing the understanding of all aspects of the plumbing industry. Topics include pipe fitting, plumbing tools, types of valves, DWV (drains, waste and venting), and potable water treatment leading to entry level positions within the plumbing industry. Plumbers install, maintain, and repair many different types of pipe systems in residential, commercial and industrial settings. For example, some systems move water to a municipal water treatment plant and then to residential, commercial, and public buildings. Other systems dispose of waste, provide gas to stoves and furnaces, or supply air conditioning. The curriculum follows The National Center for Construction Education and Research (NCCEER) guidelines and leads to Level 1-4 certification. This program prepares students for employment or advanced training in a variety of pipe occupations by focusing on broad, transferable skills, and stressing the understanding of all aspects of the plumbing industry. NURSING - PRACTICAL NURSING
CAREER AND TECHNICAL
CERTIFICATE (LPN-VC)

Prepares the students to perform safe nursing care as a practical nurse under the direction of a Registered Nurse or a licensed physician. Entry-level skills are acquired through classroom instruction and supervised experience in the laboratory and hospital. The program completers are eligible to take the National Council Licensure Examination for Practical Nurses. The Practical Nursing program is a candidate for accreditation with the Accreditation Commission on Education for Nursing Education.

Special Admission Requirements
Admission to this program is limited by student/faculty rations and availability of clinical resources; therefore, students seeking admission to the program must complete application to both the College and the program. All application requirements must be completed before a student will be considered for admission to the practical nursing program. Admission is based on a first qualified, first accepted. Students are required to pass a criminal background check and urine drug screen prior to clinical experiences. Also required is a satisfactory physical examination/immunization forms and current CPR certification at the Health Care Provider level (American Heart Association).

Eligibility for Admission Requirements
- Minimum 2.0 cumulative grade point average
- Minimum raw scores of 24 on Judgment and Comprehension (reading),
- 35 on Academic Aptitude and 42 of Natural Science on the Practical Nursing Entrance Exam
- Minimum score of 23 of the Health Related Math Exam

Requirements of Progression
- 2.0 cumulative vocation GPA
- Minimum grade of "C" in all courses required in the curriculum
- Fulfillment of all course prerequisites and corequisites
- Satisfactory level of mental and physical health, including current immunizations, Hepatitis B vaccinations, yearly TB testing and ability to meet Technical Standards/Physical Abilities
- Current CPR certification at the Health Care Provider level (American Heart Association only)
- Satisfactory urine drug screen and criminal background check

Students who do not meet progression requirements must withdraw from the Practical Nursing Program and apply for readmission. Requirements for readmission will be discussed with the student at the time of the exit interview by the Director or Assistant Director of Nursing.

PSYCHIATRIC TECHNOLOGY CAREER AND TECHNICAL CERTIFICATE (PSYT-VC)

The Psychiatric Technology program is a 450 clock-hour program which provides an introduction to the health care industry specific to duties and responsibilities of a Psychiatric Technician. The curriculum presents the foundational theory and skills necessary to gain entry-level employment as a mental health employee in psychiatric treatment facilities, residential treatment, and other similar programs. Graduates of the program are eligible to apply to sit for the examination to qualify as a Nationally Certified Psychiatric Technician through the American Association of Psychiatric Technicians.

Enrollment in this program is limited by available clinical assignments. Immediately prior to the clinical portion of the program all students must satisfactorily pass a federal background check, drug screen and physical examination/immunization record, and hold a current American Heart Association CPR for Health Care Provider card. Students should contact the Allied Health Department or the Admissions Specialist, Health Programs Office on the Warrington Campus for information on admissions procedures and criteria.

The program information packet is available on the college website for answers to frequently asked questions, program schedule and more specific details.

The interested student should contact the Allied Health Department for assistance in planning the program of study.

PUBLIC SAFETY TELECOMMUNICATOR CAREER AND TECHNICAL CERTIFICATE (DSP-VC)

The program prepares students for employment as dispatcher for police, fire, and ambulance agencies. Content includes ethics; the role of the telecommunicator; standard operating procedures; relationship to field personnel; command levels; message center layouts; performance aids; overview of emergency agencies; functions and terminology; use of correct words and grammar; types of communications equipment, functions, and terminology; malfunctions and maintenance agreements; proper, correct telephone and dispatching procedures and techniques; cooperation and reciprocal agreements with other agencies; communication rules (federal, state, local); emergency situations and operating procedures; emergency medical dispatch procedures; leadership and human relations skills; and health and safety, including CPR.

Special Admission Requirements
Program admission requirements and prerequisites: High school graduate or GED, overall 2.0 grade point average. Students must earn a C or better to complete the program. In order to complete the program, a student must test at 10th grade level on the TABE.
Background check, drug screen required for all applicants. Students whose drug screening and criminal background checks are deemed unsatisfactory may be denied access to clinical experiences by the clinical agencies. Students with any felony arrest, no contest, or conviction will not be permitted entry into the program. Failure to qualify for and meet clinical requirements at clinical sites may prevent completion of the program. Withdrawal from the program may be necessary if students cannot be placed for clinical experiences, and withdrawal for these reasons after drop/add period will not include reimbursement of tuition and fees.

SURGICAL TECHNOLOGY CAREER AND TECHNICAL CERTIFICATE (SURG-VC)
The Surgical Technology program prepares the student to perform as a member of the surgical team who works closely with surgeons, anesthesiologist, registered nurses and other surgical personnel in delivering patient care and assuming appropriate responsibilities before, during and after surgery.

The Surgical Technology Program is accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of the Accreditation Review Committee for Education in Surgical Technology and Surgical Assistants (ARC-ST/SA). Information may be obtained from CAAHEP, 1361 Park Street, Clearwater, FL 33756; (727) 210-2350 and ARC-ST, 6 W. Dry Creek Circle, Suite 210, Littleton, CO 80120; (303) 694-9262.

Special Admission Requirements
Admission is limited by accreditation requirements, student/faculty ratio and availability of clinical resources. Students seeking admission to the program must complete application to both the College and the program. All application requirements must be completed before students will be considered for admission to the Surgical Technology program. Admission is based on first qualified, first accepted.

Eligibility Requirements
1. Test of Adult Basic Education (TABE) on file, if required; 2. 2.0 grade point average.

Progression to the clinical component of the program is contingent upon submission of satisfactory physical examination/immunization status and current CPR certification at the Health Care Provider level (American Heart Association); Ability to meet and comply with standards and policies in the current College catalog and Student Handbook; satisfactory background and urine drug screen.

Requirements for Progression
Progression through the ST program requires:
1. Grade of C or higher in all courses in the curriculum
2. Satisfactory completion of all corequisites and prerequisites
3. Current CPR certification at the Health Care Provider level (American Heart Association)

4. Satisfactory level of mental and physical health, including current immunizations, Hepatitis B vaccination and yearly TB testing.

Students who do not meet progression requirements must withdraw from the ST program and apply for readmission.

Interested students should contact the Allied Health Department for assistance in planning your program of study.

Students who interrupt the specified progression through the program of study must apply for readmission to the program. A discussion of requirements for readmission will be given to the student at the time of the Exit Interview from the program by the Program Director.

WELDING TECHNOLOGY CAREER AND TECHNICAL CERTIFICATE (WELD-VC)
This post-secondary adult vocational program prepares students for entry level work in the welding field in both the manufacturing and construction sectors. The program uses a combination of theoretical, simulation and hands on instruction. Strong emphasis is placed on safety as well as specific welding techniques and skills in an effort for students to obtain industry certifications. Students successfully progressing through the program are prepared to take National Center for Construction Education and Research (NCCER) welding certification exams as well as test to become certified through the American Welding Society. The full program is designed to be completed in 1050 clock hours. Students are responsible for supplying personal protective equipment (PPE) and basic hand tools that are standard in the welding profession.

ADULT EDUCATION

The Adult Education Department offers classes for any adult who wants to improve his or her basic academic skills, prepare for the GED Examinations, or learn English. The program offers the following:

1. Non-credit classes for adults who are at least 18 years of age; individuals who are 16 or 17 years old may be admitted with a letter of permission or an age waiver from the school district in the county in which they reside.
2. Convenient class locations throughout the community and on all Pensacola State College campuses.
3. Open entry classes: enroll at almost any time.
4. Morning, afternoon, and evening classes.

Tuition - Florida law requires all students (Florida Residents, Alabama Residents and all other out-of-state students) to pay $30 per semester.

The Adult Education Department provides several options for students:

1. Adult Basic Education classes are provided for adults whose academic skills are below ninth grade level. The program covers basic reading, math, and language skills. Pre-GED review, family literacy, workforce readiness, and life coping skills may also be addressed.
2. General Education Development (GED) classes are offered for students who do not have a high school diploma and whose academic skills are at or above ninth grade level. Classes prepare students for all areas of the GED Examinations.
3. English for Speakers of Other Languages (ESOL) classes are available for non-native speakers of English who wish to improve their English language skills. Everyday survival skills and a basic knowledge of the English language are covered.
4. Adult Education for Adults with Disabilities classes are provided for clients at Pollack Training Center and at Capstone Adaptive Learning & Therapy Centers, Inc. (formerly known as United Cerebral Palsy of Northwest Florida). For information about Pollack Training Center, please call (850) 438-5577. For information about Capstone Adaptive Learning & Therapy Centers, Inc. (UCP of NWFL), please call (850) 432-1596.

The GED Examinations are offered at the Test Center on the Pensacola campus. For information about test registration and fees, call the Test Center at (850) 484-1656 or visit GED.com.

Director:
Kathy Van Dyck, 484-2120

A-ADULT EDUCATION

A 099AC - ABE Comprehensive

Comprehensive Adult Education is a non-credit course designed to develop literacy skills necessary to be a successful worker, citizen, and family member. Comprehensive Adult Education prepares students to enroll in GED preparation courses. A student enrolled in the ABE Comprehensive program may be receiving instruction in mathematics, language, and/or reading.

A 099EA-ESOL Foundation - Foundation

ESOL Foundation, Low Beginner and High Beginner are non-credit courses designed to help students develop and build on vocabulary, pronunciation, spelling, and reading skills. In addition, students are exposed to communication and writing skills necessary for citizenship and job enhancement.

A 099EB - ESOL Low Beginner

ESOL Foundation, Low Beginner and High Beginner are non-credit courses designed to help students develop and build on vocabulary, pronunciation, spelling, and reading skills. In addition, students are exposed to communication and writing skills necessary for citizenship and job enhancement.

A 099EC - ESOL High Beginner

ESOL Foundation, Low Beginner and High Beginner are non-credit courses designed to help students develop and build on vocabulary, pronunciation, spelling, and reading skills. In addition, students are exposed to communication and writing skills necessary for citizenship and job enhancement.

A 099ED - ESOL Low Intermediate

ESOL Low Intermediate, High Intermediate and Advanced non-credit courses designed to fine tune student skills in grammar, contextual reading, and paragraph writing. Science, health, social studies, and consumer education help prepare the student for a high school or college diploma. Written and oral communication is strengthened to help the student achieve goals in the workplace and/or academic arena.

A 099EE - ESOL High Intermediate

ESOL Low Intermediate, High Intermediate and Advanced non-credit courses designed to fine tune student skills in grammar, contextual reading, and paragraph writing. Science, health, social studies, and consumer education help prepare the student for a high school or college diploma. Written and oral communication is strengthened to help the student achieve goals in the workplace and/or academic arena.

A 099EF - ESOL Advanced

ESOL Low Intermediate, High Intermediate and Advanced non-credit courses designed to fine tune student skills in grammar, contextual reading, and paragraph writing. Science, health, social studies, and consumer education help prepare the student for a high school or college diploma. Written and oral communication is strengthened to help the student achieve goals in the workplace and/or academic arena.

A 099GC - GED Comprehensive

GED Comprehensive is a non-credit course designed to prepare adult learners for all aspects of the GED examinations.

A 099GL - GED Reasoning through Language Arts

The Reasoning through Language Arts (RLA) course of the GED preparation program will prepare students to pass the GED RLA Test. The course focuses on the fundamentals in three major content areas: Reading, Language Arts, and Writing. Students will achieve the ability to read closely, write clearly, and edit and understand the use of standard written English in context.

A 099GM - GED Mathematics Reasoning

The Mathematical Reasoning course of the GED preparation program will prepare students to pass the GED Mathematical Reasoning Test. The course will focus on the fundamentals of mathematics in two major content areas: quantitative problem solving and algebraic problem solving. Students will achieve a deeper conceptual understanding, procedural skill and fluency, and the ability to apply these fundamentals in realistic situations.

A 099LA - AE Basic Language

AE Basic, Beginning, Intermediate, and Functional Language are non-credit courses designed to help adult students gain and improve basic language skills. Capitalization, punctuation, sentence identification, grammatical concepts, communication of ideas and information in both spoken and written forms, and organization of ideas are among the topics covered in the AE Language continuum of classes.
A 099LB - AE Beginning Language
AE Basic, Beginning, Intermediate, and Functional Language are non-credit courses designed to help adult students gain and improve basic language skills. Capitalization, punctuation, sentence identification, grammatical concepts, communication of ideas and information in both spoken and written forms, and organization of ideas are among the topics covered in the AE Language continuum of classes.

A 099LC - AE Intermediate Language
AE Basic, Beginning, Intermediate, and Functional Language are non-credit courses designed to help adult students gain and improve basic language skills. Capitalization, punctuation, sentence identification, grammatical concepts, communication of ideas and information in both spoken and written forms, and organization of ideas are among the topics covered in the AE Language continuum of classes.

A 099LD - AE Functional Language
AE Basic, Beginning, Intermediate, and Functional Language are non-credit courses designed to help adult students gain and improve basic language skills. Capitalization, punctuation, sentence identification, grammatical concepts, communication of ideas and information in both spoken and written forms, and organization of ideas are among the topics covered in the AE Language continuum of classes.

A 099MA - AE Basic Mathematics
AE Basic, Beginning, Intermediate, and Functional Mathematics are non-credit courses designed to help adult students gain and improve basic mathematics skills. Addition, subtraction, multiplication and division of whole numbers, fractions, and decimals, percents, ratio and proportion, problem solving, measurement, and beginning algebra and geometry are among the topics covered in the AE Mathematics continuum of classes.

A 099MB - AE Beginning Mathematics
AE Basic, Beginning, Intermediate, and Functional Mathematics are non-credit courses designed to help adult students gain and improve basic mathematics skills. Addition, subtraction, multiplication and division of whole numbers, fractions, and decimals, percents, ratio and proportion, problem solving, measurement, and beginning algebra and geometry are among the topics covered in the AE Mathematics continuum of classes.

A 099MC - AE Intermediate Mathematics
AE Basic, Beginning, Intermediate, and Functional Mathematics are non-credit courses designed to help adult students gain and improve basic mathematics skills. Addition, subtraction, multiplication and division of whole numbers, fractions, and decimals, percents, ratio and proportion, problem solving, measurement, and beginning algebra and geometry are among the topics covered in the AE Mathematics continuum of classes.

A 099MD - AE Functional Mathematics
AE Basic, Beginning, Intermediate, and Functional Mathematics are non-credit courses designed to help adult students gain and improve basic mathematics skills. Addition, subtraction, multiplication and division of whole numbers, fractions, and decimals, percents, ratio and proportion, problem solving, measurement, and beginning algebra and geometry are among the topics covered in the AE Mathematics continuum of classes.

A 099RA - AE Basic Reading
AE Basic, Beginning, Intermediate, and Functional Reading are non-credit courses designed to help adult students gain and improve basic reading skills. Word attack skills, reading comprehension, vocabulary building, and understanding a variety of literary forms are among the topics covered in the AE Reading continuum of classes.

A 099RB - AE Beginning Reading
AE Basic, Beginning, Intermediate, and Functional Reading are non-credit courses designed to help adult students gain and improve basic reading skills. Word attack skills, reading comprehension, vocabulary building, and understanding a variety of literary forms are among the topics covered in the AE Reading continuum of classes.

A 099RC - AE Intermediate Reading
AE Basic, Beginning, Intermediate, and Functional Reading are non-credit courses designed to help adult students gain and improve basic reading skills. Word attack skills, reading comprehension, vocabulary building, and understanding a variety of literary forms are among the topics covered in the AE Reading continuum of classes.

A 099RD - AE Functional Reading
AE Basic, Beginning, Intermediate, and Functional Reading are non-credit courses designed to help adult students gain and improve basic reading skills. Word attack skills, reading comprehension, vocabulary building, and understanding a variety of literary forms are among the topics covered in the AE Reading continuum of classes.
COLLEGIATE HIGH SCHOOL

The Collegiate High School is located in the Raymond B. and Leila Hobbs Center for Teaching Excellence in building 11 on the Pensacola campus. A generous donor provided the funds which created the Raymond B. and Leila Hobbs Center for Teaching Excellence to honor the Hobbses, who dedicated their lives to teaching and learning.

The Collegiate High School has a long tradition of providing quality education to students 16 years of age or older in the greater Northwest Florida area. Over the 60 year history, more high school diplomas have been awarded through the Pensacola State College Collegiate High School than any other similar program in Florida.

Principal:
Joseph V. Kyle, 484-2130
jkyle@pensacolastate.edu

Counselor:
Karen Harris, 484-2177
kharris@pensacolastate.edu

High School Program

High school courses are made available to a Florida resident who wishes to continue his or her education. The primary purpose of the Collegiate High School is to provide an individual the opportunity to earn a traditional high school diploma in an accelerated amount of time. Courses offered in this program are the same as those offered in a traditional high school program. A student earns high school credit in about half the time required in a regular high school. Individualized programs meet specific interests and academic goals of the student. Academic competency is a consequence of good learning skills, learning confidence, and self-discipline. Thus, the Collegiate High School faculty and staff assist the student in the development of life skills that will enhance future success.

Not all courses are offered every session. Each current and prospective student should contact the Collegiate High School for the current course schedule and make an appointment with a Collegiate High School counselor for advising.

Dual Enrollment Program

Dual enrollment is an acceleration program that allows an eligible high school student to simultaneously earn credit toward a high school diploma and toward an associate degree or certificate. For additional information and eligibility requirements, contact a Collegiate High School counselor.

Florida Bright Futures Scholarship Program

A Collegiate High School student is eligible to apply for a Florida Bright Futures Scholarship. This program rewards a Florida high school graduate who has demonstrated high academic achievement.

Enrollment Fees

As of July 1, 2011, Pensacola State College began assessing a one-time per semester enrollment fee for Collegiate High School students (excluding transient students). There are three semesters (Fall, Spring, and Summer) per academic year. The fee remains the same, regardless of how many credits a student takes each semester.

Fee Schedule

Florida law requires all students (Florida Residents, Alabama Residents and all other out-of-state students) pay $30.00 per semester.

Semester Schedule

A full-time Collegiate High School student can earn as many as two years of high school credit in nine months. This accelerated program offers courses during two 8-week sessions in the fall semester, two 8-week sessions during the spring semester, and two 6-week sessions during the summer semester.

Graduation Requirements for Collegiate High School

High School Diploma Requirements:
1. Earn a minimum of 24 high school credits as specified by Florida Statute 228.0422. (See high school course requirements below.)
2. Pass the required statewide assessments: Florida Comprehensive Assessment Test (FCAT), FCAT 2.0, and Florida End-of-Course (EOC) Assessments.
3. Achieve a 2.0 or higher cumulative grade point average (GPA) in all courses attempted in high school.
4. Earn at least three high school credits in residence at Pensacola State College Collegiate High School. One of the three required credits may be earned through dual enrollment.

Upon satisfactory completion of the high school program, Pensacola State College awards the graduate a high school diploma.

Note: Each student is required to purchase textbooks used in the Collegiate High School program. In addition, each student is required to wear his or her Pensacola State College ID while on the Collegiate High School campus.

High School Courses

0104300 - Advanced Placement Art-Drawing Portfolio
(1/2 cr)
The purpose of this course is to give advanced students the opportunity to develop quality, concentration, discipline, and breadth in drawing.
Prerequisite: 0104340, 0104370.

0104340 - Drawing I (1/2 cr)
This course includes the techniques of pictorial art. Most work will be done in charcoal, pencil, and pen and ink.

0104350 - Drawing II (1/2 cr)
The purpose of this course is to provide an opportunity for students to expand their drawing abilities, use new media and challenging techniques, complete requirements for portfolios for higher education institutions, or simply to acquire new skills.
Prerequisite: 0104340.

0104370 - Painting I (1/2 cr)
The fundamentals of art are now put to use in actual painting and design.
0104380 - Painting II (1/2 cr)
The purpose of this course is to enable students to develop intermediate-level perceptual, observational, compositional skills necessary to communicate a range of subject matter, symbols, ideas, and concepts using knowledge of painting media, processes, and techniques.
Prerequisite: 0104370.

0111310 - Sculpture I (1 cr)
The purpose of this course gives the student an understanding of expression in sculpture.

0111320 - Sculpture II (1 cr)
This course gives the student an understanding of three dimensional expression in sculpture.

0200300 - Introduction to Computers (1/2 cr)
The purpose of this course is to provide opportunities that will allow students to understand the capabilities, applications, and social implications of computer terminology.

0400300 - Introduction to Drama (1/2 cr)
The purpose of this course is to provide a broad overview of the study and practice of dramatic arts.

0701320 - French I (1 cr)
This course will introduce students to French and French culture and to develop communication skills and cross-cultural understanding.

0701330 - French II (1 cr)
French II reinforces previously acquired fundamental skills and will develop increased listening, speaking, reading, and writing skills, as well as cultural awareness.
Prerequisite: 0701320.

0708340 - Spanish I (1 cr)
This course is an introduction to Spanish and Hispanic culture. Students will develop communication skills and cross-cultural understanding.

0708350 - Spanish II (1 cr)
The purpose of this course is to reinforce previously acquired fundamental skills. This course develops increased listening, speaking, reading, and writing skills, as well as cultural awareness.
Prerequisite: 0708340.

0800300 - Health I Life Management Skills (1/2 cr)
The purpose of this course is to develop and enhance critical life management skills necessary to make sound decisions and take positive actions for healthy and effective living.

0800310 - Health II Personal Health (1/2 cr)
The purpose of this course is to provide students with knowledge and skills related to health topics, which will enhance their ability to make wise health decisions for themselves, their families, and communities.

0800320 - First Aid and Safety (1/2 cr)
The purpose of this course is to enable students to acquire skills in first aid, emergency care, and personal safety.

1000400 - Intensive Language Arts (1 cr)
The purpose of this course is to enable students to develop language arts skills through remedial instruction and practice. This course may be repeated for elective credit. (counselor approval)

1000410 - Intensive Reading (1 cr)
The purpose of this course is to enable students to build comprehensive reading knowledge, develop independent reading endurance, and increase comprehension through intensive instruction and practice. This course may be repeated for elective credit. (counselor approval)

1000410A - Intensive Reading (1/2 cr)
This course is designed for certificate high school students who need to pass the FCAT for the high school diploma.

1001310 - English I (1 cr)
The purpose of this course is to provide instruction in English language skills including reading, writing, speaking, and listening in the content areas of literature and language.

1001340 - English II (1 cr)
This course will provide instruction in English language skills and in the study of world literature.
Prerequisite: 1001310.

1001370 - English III (1 cr)
An introduction to American literature and English language skills.
Prerequisite: 1001340.

1001400 - English IV (1 cr)
The purpose of this course is to provide instruction in English language skills and the study of British literature.
Prerequisite: 1001370.

1001405 - English IV: Florida College Prep (1 cr)
This course incorporates reading and writing study through writing a variety of informative text using grade-level writing craft and through the in-depth reading and analysis of informational selections in order to develop critical reading and writing skills necessary for success in college courses. This course prepares students for successful completion of Florida college English courses. The benchmarks reflect the Florida College Competencies necessary for entry-level college courses and are also related to the College and Career Readiness (CCR) anchor standards, the exit standards of Florida’s K-12 Common Core Standards.
Prerequisite: 1001370.

1006300 - Journalism I (1 cr)
The purpose of this course is to enable students to develop fundamental skills in the production of print or electronic journalistic media. The content should include, but not be limited to, the following: writing processes; production skills for varied media; history and ethics of journalism; applications and issues in photojournalism; organization and management techniques; technology for research, production, and dissemination; analysis of journalistic media and careers in journalism.

1007300 - Speech I (1/2 cr)
This course provides instruction in the fundamentals of formal and informal oral communication.

1007310 - Speech II (1/2 cr)
This course offers further instruction in intermediate skills of formal and informal oral communication.
Prerequisite: 1007300.

1008300 - Reading I (1 cr)
Reading I helps students with serious reading problems develop reading skills. (counselor approval)
1008320 - Advanced Reading (1/2 cr)
Develops advanced reading skills in students who plan to continue their formal education after high school.

1009300 - Writing I (1/2 cr)
The purpose of this course is to provide an organized study of the structure of sentences, paragraphs, and larger discursive patterns culminating in written assignments which are based upon personal experience, observations and literature.

1009310 - Writing II (1/2 cr)
This course will extend the writing skills introduced in Writing I by focusing on refining exposition and introducing analysis and persuasion. There will be a variety of reading samples that will serve as modules of effective writing styles.
Prerequisite: 1009300.

1009320 - Creative Writing I (1/2 cr)
The purpose of this course is to develop writing and language skills needed for individual expression in literary forms.

1200300 - Pre-Algebra (1 cr)
Students will develop the skills necessary for success in algebra.

1200310 - Algebra I (1 cr)
This course will provide the foundation for more advanced mathematics courses and to develop the skills needed to solve mathematical problems.

1200330 - Algebra II (1 cr)
A continuation of the study of the structure of algebra and to provide the foundation for applying these skills to other mathematical and scientific fields.
Prerequisite: 1200310 or 1200380.

1200370 - Algebra IA (1 cr)
The purpose of this course is to develop the algebraic concepts and processes that can be used to solve a variety of real world and mathematical problems. This is the first of a two-year sequence of courses, Algebra IA and Algebra Ib. Together, the two courses have the same requirements as 1200310 Algebra I.

1200380 - Algebra IB (1 cr)
The purpose of this course is to develop the algebraic concepts and processes that can be used to solve a variety of real world and mathematical problems. This is the second of a two-year sequence of courses, Algebra IA and Algebra Ib. Together, the two courses have the same requirements as 1200310 Algebra I.
Prerequisite: 1200370.

1200400 - Intensive Mathematics (1 cr)
The purpose of this course is to provide remedial instruction and practice in mathematics skills and concepts. The content may be identified by diagnosis of each student's needs for remedial instruction and/or, designed to assist the student in passing the HSCF or FCAT. A student may repeat this course for multiple elective credits if, on subsequent offerings, the required level of student proficiency increases. This course may not be used to meet the graduation requirement for mathematics. (counselor approval)

1200400A - Intensive Mathematics (1/2 cr)
This course is designed to prepare certificate high school students for the FCAT which will allow them to receive a high school diploma.

1200700 - Mathematics for College Readiness (1 cr)
This course continues the study of mathematics including functions and relations, polynomials, rational expressions and equations, logarithmic and quadratic equations.
Prerequisite: 1200370, 1200310.

12006310 - Geometry (1 cr)
The purpose of this course is to develop the geometric relationship and deductive strategies that can be used to solve a variety of real world and mathematical problems. Formal proofs are required.
Prerequisite: 1200310.

12008300 - Liberal Arts Math (1 cr)
The purpose of this course is to strengthen mathematical skills necessary for further study of advanced mathematics.
Prerequisite: 1200310 or 1200380.

1400300 - Peer Counseling I (1/2 cr)
The purpose of this course is to provide students with an understanding of the elements of communications and group processes.

1400310 - Peer Counseling II (1/2 cr)
The purpose of this course is to provide an opportunity for students to learn and adopt methods to be successful in school.

1700370 - Critical Thinking/Study Skills (1/2 cr)
The purpose of this course is to provide an opportunity for students to learn and adopt methods to be successful in school.

1700380 - Career Research and Decision Making (1/2 cr)
The purpose of this course is to teach decision-making and self-assessment skills, help students develop self-esteem, and enable students to make career choices.

2000310 - Biology I (1 cr)
General exploratory experience and activities in the fundamental concepts of life will be covered in this course.

2001310 - Earth/Space Science (1 cr)
The purpose of this course is to develop concepts basic to the earth, its materials, processes, history and environment in space.

2001340 - Environmental Science (1 cr)
A study of man's interaction with the environment.

2002400 - Integrated Science (1 cr)
The purpose of this course is to provide opportunities to investigate the theories and ideas associated with the biological, earth, and physical sciences.

2002500 - Marine Science I (1 cr)
This course provides students with an overview of the marine environment. The content includes the origins of the ocean, the nature of the marine habitat including chemical, physical, and geological aspects, ecology of the sea zonation, marine communities, classification, taxonomy, characteristics of major phyla/divisions, and man's interrelationship with the oceans. State Code 2002500

2003310 - Physical Science (1 cr)
This course is a quantitative investigative study of the introductory concepts of physics and chemistry.
2003340 - Chemistry I (1 cr)
Students will study the composition, properties, and changes associated with matter.
Prerequisite: 2003310 or instructor approval.

2100310 - United States History (1 cr)
The purpose of this course is to acquire an understanding of the chronological development of the American people by examining the political, economic, social, religious, military, scientific, and cultural events that have affected the rise and growth of our nation.

2100340 - African-American History (1/2 cr)
The purpose of this course is to give students an understanding of the development of African-American heritage within the context of a broad historical focus. Students examine connections to the past to prepare for their future as participating members of a democratic society.

2102335 - Economics Financial Literacy (1/2 cr)
This course introduces new concepts (financial and investment markets) and the business cycle in addition to the study of concepts and processes of the national and international economic systems.
Prerequisite: 2109310, 2100310.

2100300 - World Geography (1 cr)
This course introduces students to an understanding of the interrelationships between people and their environment.

2100300A - World Geography (1/2 cr)
A course which provides students with an understanding of regional geography and its impact on political, social and economic issues.

2106310 - United States Government (1/2 cr)
An understanding of American government and political behavior.

2106350 - Law Studies (1/2 cr)
The purpose of this course is to acquire an understanding of the American legal process.

2106370 - Comprehensive Law Studies (1 cr)
This course provides students with an in-depth approach to examining the workings of our criminal and civil justice system. This is a full credit elective course.

2107300 - Psychology I (1/2 cr)
This course provides students with opportunities to acquire an understanding of human behavior, behavioral interaction, and the progressive development of individuals.

2108300 - Sociology (1/2 cr)
An understanding of group interaction and its impact on individuals.

2109310 - World History (1 cr)
By examining the political, economic, social, religious, military, dynastic, scientific, and cultural events that have affected humanity, students will acquire an understanding of the chronological development of civilization.

2109350 - Contemporary History (1/2 cr)
Course designed to offer students to discuss, study contemporary issues facing the nation and the international community. This includes social, political and social issues of the day.

2109430 - Holocaust (1/2 cr)
The purpose of this course is to examine the events of the Holocaust. A further purpose of this course is to enable students to understand their connection to the development of civilization by examining the past to prepare for their future as participating members of a global society.

8200320 - Practical Keyboarding Skills (1/2 cr)
The purpose of this course is to teach students basic keyboarding skills and techniques of formatting to include information systems inputting.

8200330 - Practical Computer Skills (1/2 cr)
The purpose of this course is to teach practical computer skills and the effects of its application on society.

8207110 - Web Design I (1 cr)
The purpose of this course is designed to provide a basic overview of the Internet, Intranet, and World Wide Web. The student will be able to plan, develop, and publish well-designed web sites that combine effective navigation with appropriate use of graphics, text, color, and sound. The content includes operating systems; basic HTML commands; navigation of the Internet, Intranet, and Web; and Web page design.
Prerequisite: 8200330 or 8209020.

8207120 - Web Design II (1 cr)
This course provides advanced concepts for Internet, Intranet, and Web design. The content includes Internet/Intranet tools, Web site promotion, advanced HTML commands, advanced page design, and multimedia applications.
Prerequisite: 8207110.

8209010 - Keyboarding and Document Processing (1 cr)
This course is designed to provide a foundation for all business technology education programs and includes the following areas: keyboarding, math, communication and technology applications.
Prerequisite: 8200320 or 8200330.

8209020 - Business Systems and Technology (1 cr)
This course is designed to provide a basic overview of current business and information systems and trends and to introduce students to the basics and foundations required for today's business environments. Emphasis is placed on applications, so that they may be used as communication tools for enhancing personal and work place productivity in an information-based society. This also includes proficiency with computers using databases, spreadsheets, presentation applications, and the integration of these programs using software that meets industry standards.
Prerequisite: 8200320 or 8200330.

8212010 - Word Processing I (1 cr)
This course is designed to provide instruction that will enable the student to perform the basic functions of input, edit, store and retrieval utilizing electronic equipment.
Prerequisite: 8209010 or 8200320 or 8200330.

8300310 - Workplace Essentials (1/2 cr)
The purpose of this course is to provide students with the essential abilities known as employability skills. The content of this program includes the following: how to obtain personal and occupational information necessary in choosing a career; how to prepare for the job hunt; get leads on jobs, make contact with employers; how to write resumes, fill out application forms, check payroll deductions; how to handle promotions, resignation, losses and career changes.
8500120 - Personal and Family Finance (1/2 cr)
The purpose of this course is to give students an overview of personal family finance concepts including the American economic system, personal and family management of resources including income, money management, bookkeeping, saving and investing, spending and credit, the role of financial institutions and the consumer, consumer information and taxation and financial planning.

8500300 - Parenting Skills (1/2 cr)
The purpose of this course is to prepare students for the multiple roles essential to becoming a model parent and to understand the dual roles of males and females as parents and wage earners. This course will also enhance their abilities to assist children to become effective citizens in a multi-cultural and technological society.

8500310 - Child Development and Parenting (1/2 cr)
This course will prepare students to understand the nature of child development from prenatal care through age six and the function and significance of the parenting experience.

8500345 - Family Dynamics (1/2 cr)
The purpose of this course is to prepare students for the roles, responsibilities, and relationships essential to functional families. To understand the nature, function, and significance of human relationships within the family/individual units.

8500355 - Nutrition and Wellness (1/2 cr)
The purpose of this course is to prepare students to understand the relationship between nutrition and wellness. The program also provides for selection, preparation, service, and storage of foods. It allows students to use technology to practice meal management techniques directed toward nutritional food choices based on the life cycle. This course will provide an awareness of consumer issues relating to health and wellness.

8500375 - Blueprint for Professional Success (1 cr)
This course is designed to prepare students for the workplace in the twenty-first century. Emphasis will include using current technology resources to investigate the broad range of occupations and careers in family and consumer sciences.
CONTINUING EDUCATION

The mission of Continuing Education is to be a strong link between the College and the community by offering courses and programs for lifelong learning, recreation and leisure, and cultural events at a reasonable price and convenient to students of all ages.

Individuals participate in continuing education courses or programs for a variety of reasons, including learning new skills, broadening the knowledge base for special topics of interest, cultivating hobbies, and enhancing lifestyles through leisure time activities. Classes are offered at times that meet the scheduling demands of the students.

Classes are delivered in a variety of formats, such as non-credit short courses, workshops, seminars, and conferences, and classes are located at numerous sites within the community as well as provided via internet. Qualified instructors with interest and expertise in the subject matter are selected from the community at large to teach continuing education courses.

Subject matter is provided under a vast array of categories, including creative arts, hobbies, home and garden, sports and fitness, work and life balance, and online courses. Courses include such topics of interest as painting and drawing, photography, acting, vocal and instrumental instruction, computer science, foreign languages, aerobic exercise, tennis, yoga, swimming, handcrafts, hobbies, home improvements, language arts, dog obedience, and more.

A unique program provided by the College is Pensacola State Kids’ College, which is a non-credit educational opportunity for young people ages 6–12, conducted during the summer months. Kids’ College is designed to give students quality instruction that is fun, interesting, and challenging. Subject areas include the arts and sciences, languages, computers, music and theatre, career exploration, sports, crafts and hobbies among others.

A number of state-regulated and court-mandated courses and programs are coordinated through Continuing Education, including TransParenting, Guardianship Education, Driver Improvement School, Motorcycle Safety Endorsement, and Tobacco and Consequences for Teens. For additional information please contact Continuing Education at (850) 484-1797.

CENTER FOR CORPORATE AND PROFESSIONAL DEVELOPMENT TRAINING

Workforce and Economic Development serves several important functions within the College and the Pensacola Bay Area business community. The Pensacola State College Center for Corporate and Professional Development Training is an active education partner with many local organizations, delivering responsive and updated training at any location. Based out of its downtown Pensacola office, the Pensacola State College Center for Corporate and Professional Development provides education and training intent upon skill enhancement, certification, or licensure. A wide range of courses deliver continuing professional education for those in the insurance, real estate, health, construction, and computer industries, as well as training in Leadership Development, Customer Service, and Project Management. In addition, the Pensacola State College Center for Corporate and Professional Development can develop training to meet any need.

ACADEMIC PROGRAM ENHANCEMENTS

ELEARNING (DISTANCE LEARNING)

Pensacola State College is committed to providing every student with a consistent, comprehensive, and user-friendly eLearning environment to maximize scheduling flexibility and to reduce travel time.

Most eLearning opportunities are college credit courses that are part of a baccalaureate, Associate in Arts, or Associate in Science program of study. These courses cover the same material at the same level of academic rigor as in the traditional classroom environment; however, most students find online learning to be more challenging than classroom learning. Developmental education courses and Vocational Certificate (clock hour) courses are not available through eLearning. The student utilizing VA education courses and Vocational Certificate (clock hour) courses must meet the following criteria:

1. **Distance Learning Courses**: No campus visits are required. All distance learning courses carry an $8.33 per credit hour Distance Learning Fee in addition to tuition. Lower level distance learning courses have section numbers in the 9500s, 9600s, or 9700s. Distance learning courses at the baccalaureate level have section numbers in the 7100s.

2. **Hybrid Courses**: Campus visits are reduced and substituted with online instruction. Hybrid courses do not carry a Distance Learning Fee. Lower level hybrid courses have section numbers in the 2400s; baccalaureate level hybrid courses have section numbers from 7000-7049.

3. **Traditional Courses**: The majority of college-credit courses now incorporate some degree of eLearning methods and technology. Although a traditional face-to-face course meets on campus for all instruction, the instructor often includes supplemental course materials via the internet.

Is distance learning right for you?

1. Does your schedule not allow you to take traditional college classes?
2. Do you have excellent time management skills?
3. Are you self-motivated?
4. Do you have a good working knowledge of computer technology and the internet?
5. Do you have routine access to a computer that meets the following criteria?
   a. Minimum Operating System Requirements: Windows 7, Mac OSX 10.6, Linux-Chrome OS.
   b. Browser Requirements: Current version of Internet Explorer, Chrome, Safari, or Firefox.
   c. A reliable Internet connection (broadband access recommended, i.e., cable or DSL). Most problems experienced by distance learning students involve waiting until the last minute to complete tasks and using a computer that does not meet the specifications listed above. **Neither problem will excuse a student from grade penalties assessed due to late or incomplete work.**

Important things to do prior to registration

1. Visit the Pensacola State College eLearning website for additional information: www.pensacolastate.edu/elearning.
2. Request access to and complete the eLearning Course Preview on the eLearning website.

For questions regarding eLearning at Pensacola State College, call (850) 484-1238 or email elearning@pensacolastate.edu.

DUAL ENROLLMENT

The Dual Enrollment program provides the opportunity for a qualified high school student to enroll in approved courses at Pensacola State College while concurrently enrolled in high school. The student can receive both high school and college credit for these courses. This program is open to the student from a public high school, an accredited private school, or an approved home-education program.

To be eligible for dual enrollment classes, the student must meet the following criteria as appropriate.

1. The student must be enrolled in grade six through twelve;
2. The student must have an unweighted high school grade point average of 3.0 or above with a minimum of three high school credits, and who has earned appropriate college placement test scores to enroll in college credit courses; or
3. The student must have an unweighted high school grade point average of 2.5 with a minimum of three high school credits, and who has earned appropriate college placement test scores to enroll in programs leading to an industry certification or an applied technology diploma.
4. A home education student must obtain evidence of eligibility from the School District’s dual enrollment coordinator. A student who is eligible for the Dual Enrollment program may, based on local availability, enroll in courses on the campus of the high school in which they are enrolled or enroll in courses on a Pensacola State College campus or center. A student wishing to participate in the on-campus Dual Enrollment category should consult with his or her high school guidance counselor to determine whether coursework completed will meet high school graduation requirements.

The Escambia and Santa Rosa County School Districts are responsible for ensuring that the participating student has the approved textbooks for Pensacola State College courses. Each private school is responsible for ensuring the student has the approved textbooks for Pensacola State College courses. The home education student who is approved to enroll in college courses is responsible for purchasing the approved textbooks.

Additional information about the Dual Enrollment Program may be obtained from the College’s dual enrollment web page, or the Admissions Office by phone at (850) 484-2544 or by e-mail at AskUs@pensacolastate.edu.

CAREER AND TECHNICAL EDUCATION (CTE) STUDENT RESOURCES

Career and Technical Education (CTE) Student Resources provides free services to the student enrolled in qualifying Associate in Science and vocational certificate (clock hour) programs. Free career assessments are also available in the CTE office to the student who is unsure of his or her academic plans.
Services are contingent upon individual needs, personal eligibility criteria, and available resources. The eligible student must meet one or more of the following criteria.

1. The student is an economically disadvantaged single parent.
2. The student is receiving training for a career that is nontraditional for his or her gender.
3. The student is disabled.
4. The student is a displaced homemaker.
5. The student has limited English proficiency.

The student who meets additional eligibility requirements may be considered for additional services which may include use of required textbooks, scholarships, mentoring, and support services. Each interested student seeking more information is encouraged to visit the CTE website at www.pensacolastate.edu/services/cte/cte.asp, contact the office at 850-484-2163, or e-mail at askcte@pensacolastate.edu.

HONORS PROGRAM

The Pensacola State College Honors program, the Robinson Scholars program, is designed to offer academically gifted students a unique learning experience that goes beyond the traditional classroom. These opportunities for educational enrichment are made possible by the generous endowment from the Grover Robinson IV family.

At the time of this printing, the Honors program was under revision.

For further information, please contact the Office of the Vice President of Academic Affairs at (850) 484-1706.

PENSACOLA STATE COLLEGE
PLANETARIUM AND SPACE THEATRE

The Pensacola State College Planetarium and Space Theater, located in Building 21 of the Pensacola Campus, is a unique College resource used to support courses in astronomy and other subject areas. The planetarium also provides educational opportunities for K-12 students from across northwest Florida as well as students from Alabama.

For more information please visit the website at http://planetarium.pensacolastate.edu/ or email planetarium@pensacolastate.edu.

COURSES

FLORIDA’S STATEWIDE COURSE NUMBERING SYSTEM

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida’s Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and by participating nonpublic institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. This information is at the SCNS website at http://scns.fldoe.org.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated courses is referred to as the “SCNS taxonomy.” Descriptions of the content of courses are referred to as “statewide course profiles.”

Example of Course Identifier

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Level Code (first digit)</th>
<th>Century Digit (second digit)</th>
<th>Decade Digit (third digit)</th>
<th>Unit Digit (fourth digit)</th>
<th>Lab Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENC</td>
<td>1</td>
<td>1</td>
<td>0</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>English Composition</td>
<td>Lower (Freshman)</td>
<td>Level at this institution</td>
<td>Freshman Composition</td>
<td>Freshman Composition Skills</td>
<td>Freshman Composition Skills I</td>
</tr>
</tbody>
</table>

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in Exceptions to the General Rule for Equivalency.

For example, a freshman composition skills course is offered by 84 different public and nonpublic postsecondary institutions. Each institution uses ENC_101 to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, ENC means English Composition, the century digit 1 represents Freshman Composition, the decade digit 0 represents Freshman Composition Skills, and the unit digit 1 represents Freshman Composition Skills I.

In the sciences and certain other areas, a C or L after the course number is known as a lab indicator. The C represents a combined lecture and laboratory course that meets in the same place at the same time. The L represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at a Florida College System institution is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent. NOTE: Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

The Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states:
Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be
evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

1. Courses not offered by the receiving institution.
2. For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question.
3. Courses in the _900-999_ series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Thesis and Dissertations.
5. Graduate courses.
6. Internships, apprenticeships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999.
7. Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

**Courses at Nonregionally Accredited Institutions**

The SCNS makes available on its home page (http://scns.fldoe.org) a report entitled “Courses at Nonregionally Accredited Institutions” that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course’s transfer level and transfer effective date. This report is updated monthly.

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the Office of the Dean of Baccalaureate Studies and Academic Support, Pensacola State College or to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the SCNS office at (850) 245-0427 or at http://scns.fldoe.org.

**COLLEGE CREDIT AND VOCATIONAL (CLOCK HOUR) COURSES**

Courses are listed alphabetically and are organized by numerical order within each discipline. Each course is designated as college credit (cc), vocational clock hours (ch), developmental education credit (cp), or institutional credit (ic).

The first number following the course prefix indicates the level of the course. If the first number is a zero (0), for example, BSC0070 (p. 185), the course is a vocational certificate (clock hour) course (ch) or developmental education credit (cp), such as MAT0028 (p. 151). A course with a number beginning with a 1 or 2, such as ENC1102 (p. 207) or PHI2070 (p. 236), is a college credit (cc) course. Baccalaureate college credit courses begin with a 3 or 4, such as MAN3303 (p. 224) or NUR4636 (p. 233). In general, vocational certificate (clock hour) courses and developmental education courses are not transferable to baccalaureate programs; college credit courses are usually transferable. College credit courses with the "AS Only" designation in the course description may be transferable to baccalaureate programs at Pensacola State College and schools with which Pensacola State College has developed specific articulation agreements. Questions about these issues should be addressed with a counselor, the appropriate Departmental Head, or the Registrar’s Office. See also the section entitled Florida's Statewide Course Numbering System (p. 173).

Selected courses may be offered online by means of distance learning. Not all courses are offered at all campuses or during all semesters. A student should consult the current course schedule to determine which courses are available. Course sections may be added or canceled based on enrollment.

**Course Section Semester Schedule** The semester during which courses will be offered are included in the course description with the following indicators:

- FA = Fall Semester;
- SP = Spring Semester;
- SU = Summer Semester;
- TBA = To Be Announced (consult with the appropriate department).
**ACG - ACCOUNTING GENERAL**

**ACG 2001 - Accounting I (3 cc)**
The study of accounting terminology, concepts, techniques, methods, principles, practices and procedures as applied to sole proprietorship. Typical financial transactions are analyzed in relation to the basic accounting equation and recorded in the books of the business. Business financial statements are prepared and interpreted by the student.

Offered: FA, SP, SU.

**ACG 2002 - Computerized Accounting (3 cc)**
An introduction to computerized integrated accounting procedures found in microcomputer office environments. The popular Quickbooks accounting program is used to record financial transactions. Major topics include managing revenue and expenses, payroll setup and processing, bank reconciliation, reports, and graphs, inventory, adjustments and year-end procedures, and company file setup and maintenance.

**ACG 2011 - Accounting II (3 cc)**
A continuation of Accounting I including long-term assets, partnerships, corporations, long-term liabilities, the statement of cash flows, and financial statement analysis.

Prerequisite: ACG 2001. Offered: FA, SP, SU.

**ACG 2021 - Financial Accounting Principles (3 cc)**
This course approaches accounting as an information or decision support system. Emphasis is placed on the analysis of business transactions and the evaluation of their effect on the operation of the enterprise. The method of instruction is shifted from "how to do it" to "why it is done and what it means." The basic logic and principles associated with preparation and/or critical evaluation of accounting information will also be addressed.

Offered: FA, SP, SU.

**ACG 2071 - Introduction to Managerial Accounting (3 cc)**
Using accounting information for planning, control, and decision making. Includes principles of product costing, budgeting techniques, and capital decisions.

Prerequisite: ACG 2011 or ACG 2021. Offered: FA, SP, SU.

**ACG 2947 - Accounting Co-op (1 cc)**
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student's academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.

Offered: FA, SP, SU.

**ACG 2949 - Accounting Co-op (3 cc)**
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.

Offered: FA, SP, SU.

**ACG 3024 - Accounting for Non-Financial Majors (3 cc)**
Introduction to the principles used in measuring organization performance and reporting the results of organizational activities. For non-business majors only.

Offered: FA, SP, SU.

**ACO-Accounting-Occupational-Technical-Variable-Paced**

**ACO 1806 - Payroll Accounting (3 cc)**
Trains the student to complete all payroll activities of any business. Topics covered are payroll and personnel records, federal payroll laws, payroll accounting systems, payroll operations, and preparation of payroll records such as payroll registers, individual earnings records and federal, state, and local payroll tax forms.

Prerequisite: ACG 2001 or ACG 2021 or permission of instructor.

Offered: FA, SP. Notes: AS only.

**ACO 2943 - Accounting Internship (3 cc)**
The student gains accounting related work experience in the offices of various employers in the Pensacola area. This course should be taken the last semester of enrollment. Student must have "B" average in accounting courses.

Prerequisite: Permission of the department head. Offered: FA, SP, SU. Notes: AS only.

**ACR-HVAC-HEAT-VENTILATION-REFRIGERATION-TECH-TRADES**

**ACR 0640C - Introduction to HVAC Level I (150 ch)**
This course is an introductory course within the Heating, Ventilation and Air Conditioning Program. Part of the National Center for Construction Education and Research (NCCER) certification program, the course helps prepare students for Level I certification. Key content includes: Introduction to HVAC, Trade Mathematics, Copper and Plastic Piping Practices, Soldering and Brazing, and Ferrous Metal Piping Practices.

Prerequisite: BCV 0003C or instructor Permission. Offered: TBA. Notes: Lab Fee.

**ACR 0641C - Intermediate HVAC Level I (150 ch)**
This course is part of the National Center for Construction Education and Research (NCCER) certified Heating, Ventilation and Air Conditioning (HVAC) program. Course helps prepare students for Level 1 certification. Key content includes: basic electricity, introduction to cooling and heating, and air distribution systems.

Prerequisite: BCV 0003C or instructor Permission. Offered: TBA. Notes: Lab Fee.

**ACR 0642C - Introduction to HVAC Level 2 (150 ch)**
This course is part of the National Center for Construction Education and Research (NCCER) certified Heating, Ventilation and Air Conditioning (HVAC) program. Course helps prepare students for Level II certification. Key content includes: Key content includes: Commercial Airside Systems, Chimneys, Vents and Flues, Introduction to Hydronic Systems, Air Quality Equipment, Leak Detection - Evacuation - Recovery and Charging, Alternating Current, and Basic Electronics.

Prerequisite: BCV 0003C or instructor Permission. Offered: TBA. Notes: Lab Fee.
ACR 0643C - Intermediate HVAC Level 2 (150 ch)
This course is part of the National Center for Construction Education and Research (NCCER) certified Heating, Ventilation and Air Conditioning (HVAC) program. Course helps prepare students for Level III certification. Key content includes: Refrigerants and Oils, Compressors, Metering Devices, Retail Refrigeration Systems, Commercial Hydronic Systems and Steam Systems.
Prerequisite: BCV 0003C or instructor Permission. Offered: TBA. Notes: Lab Fee.

ACR 0644C - Introduction to HVAC Level 3 (150 ch)
This course is part of the National Center for Construction Education and Research (NCCER) certified Heating, Ventilation and Air Conditioning (HVAC) program. Course helps prepare students for Level III certification. Key content includes: Planned Maintenance, Water Treatment, Troubleshooting Electronic Controls Troubleshooting Oil Heating, and Troubleshooting Accessories.
Prerequisite: BCV 0003C or instructor Permission. Offered: TBA. Notes: Lab Fee.

ACR 0645C - Intermediate HVAC Level 3 (150 ch)
This course is part of the National Center for Construction Education and Research (NCCER) certified Heating, Ventilation and Air Conditioning (HVAC) program. Course helps prepare students for Level III certification. Key content includes: Planned Maintenance, Water Treatment, Troubleshooting Electronic Controls Troubleshooting Oil Heating, and Troubleshooting Accessories.
Prerequisite: BCV 0003C or instructor Permission. Offered: TBA. Notes: Lab Fee.

ACR 0646C - Introduction to HVAC Level 4 (150 ch)
This course is part of the National Center for Construction Education and Research (NCCER) certified Heating, Ventilation and Air Conditioning (HVAC) program. Course helps prepare students for Level IV certification. Key content includes: System Startup and Shutdown, Heating and Cooling System Design, Commercial and Industrial Refrigeration Systems, Alternative Heating and Cooling Systems, and Introduction to supervisory Skills.
Prerequisite: BCV 0003C or instructor Permission. Offered: TBA. Notes: Lab Fee.

ACR 0647C - Intermediate HVAC Level 4 (150 ch)
This course is part of the National Center for Construction Education and Research (NCCER) certified Heating, Ventilation and Air Conditioning (HVAC) program. Course helps prepare students for Level IV certification. Key content includes: System Startup and Shutdown, Heating and Cooling System Design, Commercial and Industrial Refrigeration Systems, Alternative Heating and Cooling Systems, and Introduction to supervisory Skills.
Prerequisite: BCV 0003C or instructor Permission. Offered: TBA. Notes: Lab Fee.

ACR 0993O - HVAC Co-op (150 ch)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s vocational field of study. Each student must meet certain Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Prerequisite: Permission of instructor. Offered: TBA.

AEB-AGRICULTURAL ECONOMICS AND BUSINESS

AEB 2949 - Agriculture Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU.

AMH - AMERICAN HISTORY

AMH 2010 - American History to 1877 (3 cc)
Survey of the history of the American experience from the Colonial period to 1877. Emphasizes the development and adoption of the Constitution, the major events resulting in the democratization of American society, the sectional struggle over the nature of America’s destiny, and the Reconstruction Era.
Prerequisite: Grade of C or better in ENC 1101C. Distribution: General Education, Social Sciences. A writing emphasis course.
Offered: FA, SP, SU.

AMH 2020 - American History from 1877 (3 cc)
Survey of the history of the American experience from 1877 to present. Emphasizes the growth of American industry and business and the social and economic reforms connected with that growth. Also emphasizes the emergence of the United States as a world power during the 20th century and the ramifications that rise has had on foreign and domestic policy.
Prerequisite: Grade of C or better in ENC 1101C. Distribution: General Education, Social Sciences. A writing emphasis course.
Offered: FA, SP, SU.

AMH 2091 - African-American History and Culture (3 cc)
A history of the African-American experience from 1619 to the present. This course will emphasize the growth of an African-American community from slavery to freedom. This course will also examine the socio-political, cultural and artistic aspects of American life for Blacks in America.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Social Sciences. Offered: FA, SP.

AML - AMERICAN LITERATURE

These courses meet the general education literature requirement. Literature courses further the ability to understand literary devices and language; to appreciate a text and its socio-cultural and historical contexts; to evaluate a text, whether fiction or non-fiction, for its literal and figurative meanings; and to synthesize and communicate the understanding of a text. Further, literature enriches understanding of and appreciation for the diversity of human experience.

AML 2010 - American Literature to 1870 (3 cc)
Selected literature from its beginnings to the mid-nineteenth century.
Prerequisite: Grade of C or better in ENC 1102. Distribution: Meets A.A. general education literature requirement. A writing emphasis course. Offered: FA, SP, SU.
AML 2020 - American Literature from 1870 (3 cc)
Selected American literature from the mid-nineteenth century to the present.
Prerequisite: Grade of C or better in ENC 1102. Distribution: Meets A.A. general education literature requirement. A writing emphasis course. Offered: FA, SP, SU.

AML 2600 - Introduction to African-American Literature (3 cc)
Selected African American and related literature from its beginning in the colonial period to the present. The course considers both African and European influences, covers a variety of genres, and relates African American literary works to historical present-day concerns.
Prerequisite: Grade of C or better in ENC 1102. Distribution: Meets A.A. general education literature requirement. A writing emphasis course. Offered: FA, SP.

ANT - ANTHROPOLOGY
ANT 2000 - Introduction to Anthropology (3 cc)
Surveys the biological and cultural development of the human species, using the research tools of anthropology. Anthropology is both a scientific and humanistic approach. Topics include the sub-disciplines of anthropology, human evolution, and the concept of cultural adaptation. The course will examine past and present cultures in terms of survival, socialization, social systems, communication, subsistence, power, spirituality, and cultural change.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education Core, Social Sciences. Offered: FA, SP.

ANT 2410 - Cultural Anthropology (3 cc)
Founded on the principle that humans are best understood holistically, by examining the entirety of their biological, environmental, and cultural condition. A comparative, cross-cultural approach will be used to study the economic, political, religious, and family systems of past and present cultures.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Social Sciences. Offered: SP.

APA - APPLIED ACCOUNTING
APA 2147 - Accounting Software Applications (3 cc)
This course is the study of Accounting Principles, practices and procedures as applied to a computerized environment reinforcement of fundamentals learned in financial accounting course(s). Topics to be covered: accounting cycles of service and merchandising businesses, bank reconciliations, voucher system and budgeting, accounts payable, accounts receivable, payroll, partnerships, corporations, financial statement analysis, departmentalized accounting and accounting system setup.

ARH - ART HISTORY
ARH 1002 - Art for Non-Majors (3 cc)
A study of the creative process for non art majors. Course is meant to develop an understanding of the contexts within which artists work, modern and historical, the technical processes they use, and the means by which art is evaluated. May include lectures, films, videos, gallery and studio visits, class discussions. No artistic skill required.
Distribution: General Education, Humanities. Offered: FA, SP.

ARH 1050 - Art History I (3 cc)
A chronological study of art history (to and including the Middle Ages).
Distribution: General Education, Humanities. Offered: FA.

ARH 1051 - Art History II (3 cc)
A continuation of ARH 1050 in sequence from the Middle Ages to the present day. May be taken prior to ARH 1050.
Distribution: General Education, Humanities. Offered: FA.

ARH 2000 - Humanities Art (For Non-Art Majors) (3 cc)
A survey course for non-art majors covering painting, sculpture, architecture, and the arts of Western Civilization from antiquity to the present.
Distribution: General Education Core, Humanities. Offered: FA, SP, SU.

ART - ART
ART 1150C - Jewelry I (3 cc)
A basic course involving the fundamentals of jewelry construction. Projects will be assigned that cover fabrication, cutting, soldering, lost wax casting, and stone setting, using silver and non-ferrous metals.
Offered: FA, SP, SU. Notes: Lab Fee.

ART 1151C - Jewelry II (3 cc)
Advanced jewelry making techniques building on those learned in Jewelry I. Processes will include enameling, raising, and forging.
Prerequisite: ART 1150C. Offered: FA, SP, SU. Notes: Lab Fee.

ART 1201C - Two-Dimensional Design (3 cc)
The elements of design; line, texture, shape, value and color are used to give substance to visual expression on the two-dimensional plane. Basic course for art majors.
Offered: FA, SP, SU.

ART 1203C - Three-Dimensional Design (3 cc)
Basic problems in integrating line, form, color, and texture with actual space and volume. Various materials are used to construct three-dimensional forms. Serves as an introduction to sculpture.
Offered: FA, SP. Notes: Lab Fee.

ART 1300C - Drawing I (3 cc)
A beginning studio class covering the drawing process and pictorial composition. Basic analytical and expressive approaches are applied to still life, interiors, landscape and the figure.
Offered: FA, SP, SU. Notes: Lab Fee.
ART 1301C - Drawing II (3 cc)
An introductory course in figure drawing, which includes study of the skeletal and muscular compositions of the human form and culminates in drawing from nude models. A variety of media, including color, is also explored during both gesture and extended drawings of the figure. Drawings exhibit the design concepts learned in ART1300C.
Prerequisite: Grade of C or better in ART 1300C. Offered: SP. Notes: Lab Fee.

ART 1400C - PrintMaking I (3 cc)
An introduction to the fundamentals of printmaking. Processes may include: relief (linoleum and woodblock), calligraphy, etching, monotypes, and solar prints.
Prerequisite: Grade of C or better in ART 1201C, ART 1300C.
Offered: TBA. Notes: Lab Fee.

ART 1401C - Print Making II (3 cc)
A continuation of Printmaking I. Processes may include: relief (linoleum and woodblock), calligraphy, etching, monotypes, and solar prints. Additional exploration into contemporary printmaking including mono prints, chine colle and mixed media with prints.
Prerequisite: Grade of C or better in ART 1400C. Offered: TBA. Notes: Lab Fee.

ART 1750C - Ceramics I (3 cc)
Methods and techniques of making pottery using both the potter's wheel and hand-built procedures. Lectures in theory and practical experience in the use of clay, glazes, and firing techniques.
Offered: FA, SP, SU. Notes: Lab Fee.

ART 1751C - Ceramics II (3 cc)
Further exploration of techniques of pottery making.
Prerequisite: Grade of C or better in ART 1750C. Offered: FA, SP, SU. Notes: Lab Fee.

ART 2183C - Glass Blowing (3 cc)
A basic course in off-hand glass blowing, concerned with preparing, forming, and finishing glass; understanding of glass as an art form; operation and maintenance of a glass studio.
Offered: FA, SP, SU. Notes: Lab fee.

ART 2500C - Painting I (3 cc)
The student is instructed in the academic methods of painting and then encouraged to explore other methods.
Prerequisite: Grade of C or better in ART 1201C and ART 1300C.
Offered: TBA. Notes: Lab Fee.

ART 2501C - Painting II (3 cc)
A continuation of ART 2500C in the exploration of traditional painting methods with an emphasis on mixed media and current development.
Prerequisite: Grade of C or better in ART 2500C. Offered: TBA. Notes: Lab Fee.

ART 2701C - Sculpture I (3 cc)
Investigation and employment of various materials, methods, and concepts available to the sculptor today. Exploration of metal, wood, clay, stone, and plaster techniques; lost wax bronze casting.
Prerequisite: Grade of C or better in ART 1203C. Offered: FA, SP. Notes: Lab Fee.

ART 2702C - Sculpture II (3 cc)
This course is a continuation of ART 2701C. Further investigation of sculptural media with major emphasis on advanced theories and techniques. Individual interests and personalized projects will be encouraged.
Prerequisite: Grade of C or better in ART 2701C. Offered: FA, SP. Notes: Lab Fee.

ART 2900 - Independent Study (3 cc)
Independent study courses are available for most studio offerings. Contact the department head for information about any required prerequisites or about repeating this course for credit.
Prerequisite: Some sections may require Permission of instructor. Offered: TBA. Notes: Lab Fees.

ART 2901 - Independent Study (3 cc)
Independent study courses are available for most studio offerings. Contact the department head for information about any required prerequisites or about repeating this course for credit.
Prerequisite: Some sections may require Permission of instructor. Offered: TBA. Notes: Lab Fees.

ART 2905 - Portfolio (3 cc)
Enables students to present a prospective employer, college, or university with a professional portfolio and proof of experience in studio art courses, graphic design, and photography. Course should be taken during the student's last term of study.
Offered: FA, SP. Notes: Lab Fee.

ART 2943 - Arts Internship (3 cc)
Several professional internships are available on a competitive basis in various studio areas. These positions provide on-the-job training for college credit in local art-related businesses. Only advanced students are eligible. Contact your instructor for details on availability as internships vary from semester to semester.
Offered: TBA. Notes: Lab Fee.

ART 2947 - Art Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: TBA.

ART 2949 - Art Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: TBA.

ART 3170C - Book Binding (3 cc)
This course offers basic book binding techniques, methods, structures, and production of books.
Prerequisite: GRA 2191C, ART 2905. Offered: TBA. Notes: Lab Fee.
**ASL - AMERICAN SIGN LANGUAGE**

**ASL 1140 - American Sign Language I (4 cc)**
An introduction to the syntax and vocabulary of American Sign Language and an examination of the differences between American Sign Language and the English language. Describes the history, values, and culture of deaf persons in America. Emphasizes receptive skills rather than expressive skills.
Offered: FA, SP, SU.

**ASL 1150 - American Sign Language II (4 cc)**
Focuses on the expansion of American Sign Language vocabulary and grammatical structures. Particular emphasis is placed on proficiency in expressive signing, receptive skills, and knowledge of Deaf culture. Meets foreign language requirement.
Prerequisite: Grade of C or better in ASL 1140 within the last 3 years, or departmental approval. Distribution: General Education, Humanities. Offered: FA, SP, SU.

**ASL 2160C - American Sign Language III (4 cc)**
This course is designed to continue development of conversational skills in ASL and an awareness of various aspects of deafness. Emphasis is placed on students’ expressive skills. Students are presented with the structure, conversational vocabulary and grammatical principles of ASL while also focusing on the historical, cultural, and social aspects of deafness. Students are also introduced to ASL literature, enhancing both comprehension and appreciation of the art of narrative expression.
Prerequisite: ASL 1140C, ASL 1150C. Offered: TBA.

**ASL 2200C - American Sign Language IV (4 cc)**
This course is an integration of expressive and receptive skills in American Sign Language with an emphasis on culturally appropriate discourse styles and contextualization. Students will be given instruction regarding idiomatic and colloquial usages of signs. Additional complex grammatical topics such as classifiers, role-shifting, use of space and contrastive structure will be included.
Prerequisite: ASL 2160C. Offered: TBA.

**ASL 2300 - Structure of American Sign Language (3 cc)**
This course in Structure of American Sign Language (ASL) is designed to explore the basic constructs of linguistics as they pertain to ASL. These basic concepts will be contrasted with corresponding constructs in English. Comparison and contrast between the two languages will include five levels of complexity: phonological, morphological, lexical, syntactic, and discourse.
Prerequisite: Grade of C or better in ASL 1140C, ASL 1150C.
Offered: TBA.

**AST - ASTRONOMY**

**AST 1002 - Descriptive Astronomy (3 cc)**
A study of the celestial sphere, constellations, time, telescopes, properties of light, the solar system, introduction to stars and galaxies. A working knowledge of arithmetic and simple algebra is required.
Distribution: General Education Core, Natural Sciences (Physical Sciences). Offered: FA, SP, SU.

**AST 1002L - Descriptive Astronomy Laboratory (1 cc)**
An optional laboratory course designed to illustrate the laws and principles presented in AST 1002. Includes computer simulations, Internet astronomy, and calculations using the latest research. A working knowledge of arithmetic and simple algebra is required.
Corequisite: AST 1002. Offered: FA, SP, SU. Notes: Lab Fee.

**ATE - ANIMAL SCIENCE TECHNOLOGY**

**ATE 1050 - Canine and Feline Behavior (2 cc)**
Focuses on common canine and feline behavior issues. There will be an emphasis on the client’s role in behavior issues and how common behavior problems can lead to the choice of euthanasia for the patient. There will be a case presentation from each student which will satisfy the oral communication requirement.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program’s semester one core courses with a C or better. Offered: FA.

**ATE 1110 - Animal Anatomy and Physiology (3 cc)**
Focuses on fundamentals of anatomy and physiology of domestic animals, especially the canine, with emphasis on locating and identifying that anatomical regions and landmarks. This will teach the student to communicate to colleagues on a professional level.
Prerequisite: Completion of general education requirements as outlined in the program curriculum with a C or better and acceptance into the Veterinary Technology Program. Corequisite: ATE 1110L. Offered: FA.

**ATE 1110L - Animal Anatomy and Physiology Lab (1 cc)**
Focuses on fundamental techniques in animal dissection and necropsy techniques. The laboratory will correlate the concepts taught in anatomy and physiology and give the students hands on experience. Animal handling, personal safety and OSHA standards will be demonstrated and practiced.
Prerequisite: Completion of general education requirements with a C or better and acceptance into the Veterinary Technology Program. Corequisite: ATE 1110. Offered: FA. Notes: Lab Fee.

**ATE 1311 - Veterinary Office Procedures and Terminology (3 cc)**
Covers information as it relates to the field of veterinary technology and clinical practice management, office and hospital procedures, client relations and communication. This course will satisfy the Computer Competency requirement. This course will also cover an introduction to medical terminology and veterinary terminology. This course will cover the foundation of medical language such as word roots, prefixes, suffixes and combination of forms.
Prerequisite: Completion of general education requirements with a grade of C or better and acceptance into the Veterinary Technology Program. Offered: FA. Notes: Lab Fee.

**ATE 1612 - Large Animal Medicine (3 cc)**
Focuses on the common diseases, conditions and patient care in the equine, bovine, swine, camelid and small ruminants.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program’s semester one core courses with a C or better. Corequisite: ATE 1636, ATE 1636L. Offered: SP.
ATE 1636 - Large Animal Clinical Procedures (3 cc)
Focuses on large animal nursing skills as they relate to farm animals. There will be an emphasis on herd health and husbandry. There will also be a focus on farm animal nutrition as it relates to farm animal production. We will also cover reproduction and lactation in selected farm animal species.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one core courses with a C or better. Corequisite: ATE 1612, ATE 1636L. Offered: SP.

ATE 1636L - Large Animal Clinical Procedures Lab (1 cc)
Focuses on safe handling and restraint techniques used with large animals and production animals. The student will be exposed to selected farm animal species and perform various tasks related to husbandry, nutrition, therapeutic and dentistry procedures. Animal handling, personal safety and OSHA standards will be demonstrated and practiced.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one core courses with a C or better. Corequisite: ATE 1612, ATE 1636. Offered: SP. Notes: Lab Fee.

ATE 1650 - Introduction to Clinical Procedures (3 cc)
Covers entry level nursing skills and clinical laboratory skills. Instruction and development of occupational safety will be detailed in this course. Animal handling, personal safety and OSHA standards will be emphasized.
Prerequisite: Completion of general education requirements with a C or better and acceptance into the Veterinary Technology Program. Offered: FA. Notes: Lab Fee.

ATE 1941L - Clinical Work Experience (1 cc)
Consists of supervised clinical experience in a work place approved by the instructor. A minimum of 64 hours per semester in a full service veterinary clinic is required.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one core courses with a C or better. Offered: SP.

ATE 1942L - Clinical Work Experience II (1 cc)
Consists of supervised clinical experience in a work place approved by the instructor. A minimum of 64 hours in a full service veterinary clinic is required.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one and two core courses with a C or better. Offered: SP.

ATE 2020 - Contemporary Clinical Issues (3 cc)
This course will focus on current trends in veterinary medicine. Special focus will be on the most current information for diagnostics, patient care, pharmacology and therapeutics. Veterinary practice management, alternative medicine, and the role of veterinary medicine in global settings will also be discussed.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, three, and four core courses, with a C or better. Offered: TBA.

ATE 2501 - Professional Development (2 cc)
Focuses on current information on credentialing and testing of veterinary technicians. We will also focus on the pursuit of employment in a professional environment and the pursuit of lifelong learning.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, three, and four core courses, with a C or better. Offered: SP.

ATE 2511 - The Human Animal Bond (2 cc)
Focus on the end of life issues with animals. Euthanasia and bereavement will be discussed along with how that impacts the veterinary healthcare team. Shelter medicine and the importance of early education of clients will be a focus in this class.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, three, and four core courses with a C or better. Offered: SP.

ATE 2618 - Small Animal Diseases (3 cc)
Develops the basic knowledge of small animal diseases with an emphasis on dogs and cats. Clinical Signs, diagnostic tests, and client information will be highlighted.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one core courses with a C or better. Offered: SP.

ATE 2630 - Pharmacology (4 cc)
Focuses on the importance of safety and efficacy when prescribing medication to patients. This course will also cover the federal and state regulations that govern the prescription of medications.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one core courses with a C or better. Corequisite: ATE 2632L. Offered: SP.

ATE 2632 - Small Animal Clinical Procedures II (3 cc)
Focuses on preventative medicine, diagnostic sampling, and therapeutic techniques performed in small animals. The diagnostic sampling will include pathology, parasitology, and microbiology. Safety and OSHA standards will be emphasized.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one core courses with a C or better. Corequisite: ATE 2632L. Offered: SP.

ATE 2632L - Small Animal Clinical Procedures II Lab (1 cc)
Focuses on laboratory procedures that are performed by veterinary technicians in a clinical setting on a regular basis. Topics to be included are clinical pathology and radiology. Animal handling, personal safety and OSHA standards will be demonstrated and practiced.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one core courses with a C or better. Corequisite: ATE 2632L. Offered: SP. Notes: Lab Fee.

ATE 2634 - Small Animal Clinical Procedures III (3 cc)
Focuses on small animal anesthetic procedures. The student will gain an understanding in patient assessment and risk status to help determine appropriate perianesthetic and anesthetic protocols to provide effective pain management and maximum safety.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, and three core courses, with a C or better. Corequisite: ATE 2634L. Offered: FA.

ATE 2634L - Small Animal Clinical Procedures III Lab (1 cc)
Provides the psychomotor skills required for small animal anesthesia, dental prophylaxis, and radiology. Animal handling, personal safety and OSHA standards will be demonstrated and practiced.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, and three core courses, with a C or better. Corequisite: ATE 2634. Offered: FA. Notes: Lab Fee.
ATE 2635 - Small Animal Clinical Procedures IV (3 cc)
Focuses on surgical nursing.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, three, and four core courses with a C or better. Corequisite: ATE 2635L. Offered: SP.

ATE 2635L - Small Animal Clinical Procedures IV Lab (1 cc)
Focuses on surgical nursing. The skills taught in ATE2634 will be demonstrated in this lab. Animal handling, personal safety and OSHA standards will be demonstrated and practiced.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, three, and four core courses with a C or better. Corequisite: ATE 2635. Offered: SP. Notes: Lab Fee.

ATE 2648 - Radiography (3 cc)
The principles of radiation are presented as well as the technical skills needed to perform radiological procedures. Alternative imaging techniques are also included.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one core courses with a grade of C or better. Offered: SP.

ATE 2671 - Laboratory Animal Medicine (2 cc)
Focuses on the basic principles of animal research and understand the utilization of laboratory animals in animal research. We will also have a working knowledge of federal, state, and local animal welfare regulations.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one and two core courses with a C or better. Corequisite: ATE 2671L. Offered: SU.

ATE 2671L - Laboratory Animal Medicine Lab (1 cc)
Focuses on the basic principles of animal research and understand the utilization of laboratory animals in animal research. We will also have a working knowledge of federal, state, and local animal welfare regulations. Animal handling, personal safety and OSHA standards will be demonstrated and practiced.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one and two core courses with a C or better. Corequisite: ATE 2671. Offered: SU. Notes: Lab Fee.

ATE 2710 - Veterinary Emergency Medicine (3 cc)
Focuses on the fundamentals of veterinary emergency medicine. An emphasis will be placed on nursing skills, triaging, complications and CPR.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, and three core courses with a C or better. Offered: FA.

ATE 2722 - Avian, Exotic, Small Mammals and Fish (2 cc)
Focuses on the approach to providing safe and effective care for birds, reptiles, amphibians, guinea pigs, hamsters, gerbils, and ferrets. Animal handling, personal safety and OSHA standards will be demonstrated and practiced.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one and two core courses with a C or better. Offered: SU.

ATE 2943L - Clinical Work Experience III (1 cc)
Consists of supervised clinical experience in a work place approved by the instructor. A minimum of 64 hours in a full service veterinary clinic is required.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, and three core courses with a C or better. Offered: FA.

ATE 2944L - Clinical Work Experience IV (1 cc)
Consists of supervised clinical experience in a work place approved by the instructor. A minimum of 64 hours in a full service veterinary clinic is required.
Prerequisite: Acceptance into the Veterinary Technology Program and completion of the program's semester one, two, three, and four core courses with a C or better. Offered: SP.

BCN - BUILDING CONSTRUCTION

BCN 1001 - Building Construction (3 cc)
A course planned to acquaint the student with the terminology, methods, procedures, materials, sequences of operations, and types of construction.
Offered: FA, SP. Notes: AS only.

BCN 2405 - Construction Mechanics (3 cc)
An introductory course in structural design for Building Construction, Drafting and Design, and Civil Engineering Technology students which does not require a rigorous mathematical treatment. Emphasis is in problem solving. Includes resultants and equilibrium of force systems-beams, trusses, frames. Includes centroids and shear and moment diagrams.
Prerequisite: BCN 1001 or permission of instructor. Corequisite: MAT 1033C or MAC 1105 or permission of instructor. Offered: SP. Notes: AS only.

BCN 2440 - Concrete Construction (3 cc)
An introductory course involving the design of mixes of quality concrete, reinforced concrete designs of various types of structures using algebraic equations, use of tables, nomographs, and other handbook data.
Prerequisite: BCN 1001. Offered: SP. Notes: AS only.

BCN 2721 - Construction Management (3 cc)
A study of the techniques and skills needed to plan, manage, and oversee the processes involved in the Building Construction Industry. A computer applications software is used in the course.
Prerequisite: BCN 1001, CGS 1570 or permission of instructor. Offered: FA. Notes: AS only. Lab Fee.

BCN 2947 - Building Construction Technology Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student's academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.
BCN 2948 - Building Construction Technology Co-op (2 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.

BCN 2949 - Building Construction Technology Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.

BCT - BUILDING CONSTRUCTION TRADES

BCT 2706 - Construction Documents (3 cc)
A study of the documents used in the construction industry. These documents involve the study, use and legal aspects of advertisement for bids, contracts, change orders, insurance and bonds.
Prerequisite: BCN 1001 or permission of instructor. Offered: FA. Notes: AS only.

BCT 2760 - Building Codes (3 cc)
A study of the Building Codes designed to acquaint the student with the requirements for commercial construction based on occupancy classification and construction type.
Prerequisite: BCN 1001 or permission of instructor. Offered: FA. Notes: AS only.

BCT 2770 - Construction Estimating (3 cc)
A course involving systems of accounting, material inventory, and the critical path method of planning and scheduling. This course is designed specifically for cost estimating in heavy construction but those who complete it should have no trouble doing light construction or commercial estimating. Completion of or simultaneous enrollment in ETD 1399 or the ability to read blueprints will aid the student in this class. Some computer assisted estimating is used.
Prerequisite: BCN 1001. Corequisite: MAT 1033C or MAC 1105. Offered: FA. Notes: AS only. Lab Fee.

BCV-BUILDING-CONSTRUCTION-VOCATIONAL

BCV 0003C - Introductory to Craft Skills (150 ch)
This is an introductory course required by the National Center for Construction Education and Research (NCCEER) for all construction trade vocational certificate programs (carpentry, electrical, plumbing and HVAC) as part of their certifications. Key content includes: Basic Safety, Introduction to Construction Math, Introduction to Hand Tools, Introduction to Power Tools, Introduction to Blueprints, Basic Rigging, Basic Communication Skills, and Basic Employability Skills. As part of the skills curriculum students will be given an opportunity to become certified in CPR, AED, First Aid and OSHA-10.
Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0117C - Introduction to Carpentry (240 ch)
This is the second in a series of courses which lead to the Florida Vocational Certificate in Carpentry. The curriculum will enable the student to earn NCCER certifications up to Level One. The following topics will be stressed: Orientation to the Trade, Building Materials, Fasteners, and Adhesives, Hand and Power Tools, Reading Plans and Elevations, Floor Systems, Wall and Ceiling Framing, Roof Framing, Introduction to Concrete, Reinforcing Materials, and Forms, Windows and Exterior Doors, and Basic Stair Layout.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0120C - Carpentry Framing & Finishing (210 ch)
This is the third in a series of courses which lead to the Florida Vocational Certificate in Carpentry. The curriculum will enable the student to earn NCCER certifications up to Level One. The following topics will be included: Commercial Drawings, Roofing Applications, Thermal and Moisture Protection, Exterior Finishing, Cold-Formed Steel Framing, Drywall Installation, Drywall Finishing, Doors and Door Hardware, suspended Ceilings, Window - Door - Floor and Ceiling Trim, Cabinet Installation and Fabrication.
Prerequisite: BCV 0117C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0121C - Rigging and Concrete (180 ch)
This is the third in a series of courses which leads to the Florida Vocational Certificate in Carpentry. The curriculum will enable the student earn NCCER certification. Content will emphasize Rigging Equipment, Rigging Practices, Properties of Concrete, Reinforcing Concrete, Handling and Placing Concrete, Trenching and Excavating, Foundations and Slab-on-Grade, Vertical Formwork, Horizontal Formwork, and Tilt-Up Wall Panels.
Prerequisite: BCV 0120C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0123C - Foundations and Forms (210 ch)
This is the third in a series of courses which leads to the Florida Vocational Certificate in Carpentry. The curriculum will enable the student earn NCCER certification. Content will emphasize Trenching and Excavating, Foundations and Slab-on-Grade, Vertical Formwork, Horizontal Formwork, and Tilt-Up Wall Panels.
Prerequisite: BCV 0121C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.
BCV 0524C - Advanced Carpentry (210 ch)
This is the last in a series of courses which leads to the Florida Vocational Certificate in Carpentry. The curriculum will enable the student to earn NCCER certification. Content will emphasize a variety of topics including but not limited to Site Layout Distance Measurement and Leveling, Site Layout Angular Measurement, Advanced Roof Systems, Advanced Wall Systems, Advanced Stair Systems, Introduction to Light Equipment, Welding, Commercial Finish Work, Site Preparation, and Introductory Skills for the Crew Leader.
Prerequisite: BCV 0123C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0501C - Pipefitting/Plumbing (90 ch)
Part of the National Center for Construction Education and Research (NCCER) certification program, this introductory course in plumbing helps prepare students for Level 1 certification. Key content includes an introduction to the plumbing profession as well as such topics as orientation to the trade, pipefitting hand tools, pipefitting power tools, oxyfuel cutting, ladders and scaffolds, and motorized equipment, plumbing safety, tools of the plumbing trade, introduction to plumbing math, introduction to plumbing drawings, and an introduction to pipes and fittings.
Prerequisite: Permission of instructor. Corequisite: BCV 0003C.
Offered: FA, SP, SU. Notes: Lab fee.

BCV 0510C - Introduction to Pipefitting (120 ch)
Teaches entry level job skills and to familiarize students with the pipefitting trade. Students will learn basic use and tools in the trade, read and interpret blueprints and building codes as applies to the trade.
Prerequisite: BCV 0500C or permission of instructor. Offered: FA, SP, SU.

BCV 0523C - Introduction to Plumbing Level 2 (120 ch)
Part of the National Center for Construction Education and Research (NCCER) certification program, this course in plumbing helps prepare students for Level 1 and Level 2 NCCER certification. Key content includes plumbing math, reading commercial drawings, motorized equipment, fixtures and faucets, introduction to DWV (Drains, Waste and Venting) systems, introduction to water distribution systems, hangers, supports, structural penetrations and fire stopping, and installing roof, floor and area drains.
Offered: FA, SP, SU. Notes: Lab fee.

BCV 0524C - Intermediate Plumbing Level 2 (120 ch)
Part of the National Center for Construction Education and Research (NCCER) certification program, this course in plumbing helps prepare students for Level 2 certification. Key content includes Installing Fixtures - Valves and Faucets, Introduction to Electricity, Installing Water Heaters, Fuel Gas Systems and Servicing of Fixtures - Valves and Faucets.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab fee.

BCV 0570C - Introduction to Plumbing Level 3 (120 ch)
Part of the National Center for Construction Education and Research (NCCER) certification program, this course in plumbing helps prepare students for Level 3 certification. Key content includes plumbing math, sizing water supply piping, potable water treatment, backflow preventers, and types of venting.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab fee.

BCV 0593C - Intermediate Plumbing Level 3 (120 ch)
Part of the National Center for Construction Education and Research (NCCER) certification program, this course in plumbing helps prepare students for Level 3 certification. Key content includes plumbing math, sizing DWV (Drains, Waste and Venting) and storm systems, sewage pumps and sump pumps, corrosive-resistant waste piping, and compressed air.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab fee.

BCV 0594C - Introduction to Plumbing Level 4 (120 ch)
Part of the National Center for Construction Education and Research (NCCER) certification program, this course in plumbing helps prepare students for Level 4 certification. Key content includes business principles for plumbers, introductory supervisory skills, water pressure booster and recirculation systems, indirect and special waste, hydronic and solar heating systems, and plumbing codes.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab fee.

BCV 0595C - Intermediate Plumbing Level 4 (120 ch)
Part of the National Center for Construction Education and Research (NCCER) certification program, this course in plumbing helps prepare students for Level 4 certification. Key content includes servicing piping systems, fixtures and appliances, private water well systems and waste disposal systems, swimming pools/hot tubs and plumbing for mobile homes and travel trailer parks.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab fee.

BCV 0670C - Introduction to Electricity Level 1 (120 ch)
Electricians install electrical systems in structures; they install wiring and other electrical components, such as circuit breaker panels, switches, and light fixtures, and they follow blueprints, the National Electrical Code(r) and state and local codes. This is the initial course in Electricity leading to a Florida Vocational Certificate. Students will concentrate on electrical theory as well as gain proficiency with hands on lab work. This is the initial course within NCCER's 4-level Electrical.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0671C - Intermediate Electricity Level 1 (120 ch)
Part of a sequence of instruction in Electricity leading to a Florida Vocational Certificate. Students will concentrate on electrical theory as well as gain proficiency with hands on lab work. This course helps prepare a student for NCCER's Level 1 certification.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0672C - Introduction to Electricity Level 2 (180 ch)
Part of a planned sequence of instruction in Electricity leading to a Florida Vocational Certificate. Students will concentrate on electrical theory as well as gain proficiency with hands on lab work. This course prepares a student to take NCCER's Level 2 certification test.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.
BCV 0673C - Intermediate Electricity Level 2 (120 ch)
This is part of the sequence of courses in Electricity leading to a Florida Vocational Certificate. Students will continue to study NCCER Level 2 topics, concentrating on electrical theory as well as gain proficiency with hands-on lab work. This course is part of a student's preparation to take NCCER's Level 2 certification test.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0674C - Intermediate Electricity Level 3 (120 ch)
Part of the sequence of courses in Electricity leading to a Florida Vocational Certificate. Students will continue study of Level 3 topics. This course is part of a student's preparation to take NCCER's Level 3 certification test with hands on lab work. This course is part of a student's preparation to take NCCER's Level 3 certification test.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0675C - Intermediate Electricity Level 3 (120 ch)
Part of the sequence of courses in Electricity leading to a Florida Vocational Certificate. Students will continue study of Level 3 topics. This course is part of a student's preparation to take NCCER's Level 3 certification test with hands on lab work. This course is part of a student's preparation to take NCCER's Level 3 certification test.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0676C - Introduction to Electricity Level 4 (150 ch)
Part of the sequence of courses in Electricity leading to a Florida Vocational Certificate. Students will concentrate on electrical theory as well as gain proficiency with hands on lab work. This course is part of a student's preparation to take NCCER's Level 4 certification test.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0677C - Intermediate Electricity Level 4 (150 ch)
Part of the sequence of courses in Electricity leading to a Florida Vocational Certificate. Students will concentrate on electrical theory as well as gain proficiency with hands on lab work. This course is part of a student's preparation to take NCCER's Level 4 certification test.
Prerequisite: BCV 0003C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BCV 0924 - Building Co-op (120 ch)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for a job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU.

BCV 0925 - Building Co-op (150 ch)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for a job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU.

BCV 0931C - Special Topic in Building Construction (30 ch)
A course designed to allow flexibility to present a wide variety of topics related to the construction field trades.
Prerequisite: Permission of instructor. Offered: FA, SP, SU.

BCV 0932C - Special Topic in Building Construction (60 ch)
A course designed to allow flexibility to present a wide variety of topics related to the construction field trades.
Prerequisite: Permission of instructor. Offered: FA, SP, SU.

BCV 0935C - Special Topics Construction Trades (150 ch)
A platform for presenting a variety of topics relating to the construction trade industries, such as current and future trends and new technologies. This course may be repeated when the content varies.
Prerequisite: Permission of the instructor or department head. Offered: FA, SP, SU. Notes: Lab fee.

BCV 0949 - Electrical Co-op (150 ch)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s vocational field of study. Each student must meet certain Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Prerequisite: Permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

BOT - BOTANY

BOT 2010 - General Botany (3 cc)
Morphological, physiological, and taxonomic aspects of plants are studied. Significant plant groups are surveyed to illustrate basic biological principles.
Prerequisite: Grade of C or better in BSC 1010 and BSC 1010L. Corequisite: BOT 2010L. Offered: SP.

BOT 2010L - General Botany Laboratory (1 cc)
A Botanical Laboratory experience that includes microscopy, experimental exercises, and dissection.
Prerequisite: Grade of C or better in BSC 1010 and BSC 1010L. Corequisite: BOT 2010. Offered: SP. Notes: Lab Fee.
BSC - BIOLOGICAL SCIENCES

BSC 0070 - Structure and Function (60 ch)
This course covers basic normal anatomy and physiology and explores man's need to maintain homeostasis in his environment. The foundation for subsequent learning involving human structure and physiology is emphasized. Medical terminology for each system is integrated throughout the course.
Offered: FA, SP, SU.

BSC 1005 - Introduction to Biology (3 cc)
Survey of biological principles as they apply to lifestyle choices, health and nutrition, bioenergetics, environmental impact, heredity, physiology, and organismal change over time; and the application of these principles to issues of current interest. NOT RECOMMENDED FOR BIOLOGY MAJORS.
Distribution: General Education Core, Natural Sciences (Biological Sciences). Offered: FA, SP, SU.

BSC 1005L - Introduction to Biology Laboratory (1 cc)
A laboratory experience illustrating biological principles as they apply to lifestyle choices, health and nutrition, bioenergetics, environmental impact, heredity, physiology, and organismal change over time.
Corequisite: BSC 1005. Offered: FA, SP, SU. Notes: Lab Fee.

BSC 1010 - Principles of Biology (3 cc)
Study of the cellular, genetic, and evolutionary principles which form the foundation of biology. Emphasis on biomolecules, cell structure and function, protein synthesis, genetics and organic evolution. The first course for biology majors.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Corequisite: BSC 1010L. Distribution: General Education Core, Natural Sciences (Biological Sciences). Offered: FA, SP, SU.

BSC 1010L - Principles of Biology Laboratory (1 cc)
A laboratory course which provides hands-on exercises to complement the material in lecture course BSC 1010. Required for biology majors.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Corequisite: BSC 1010. Offered: FA, SP, SU. Notes: Lab Fee.

BSC 1011 - Principles of Biological Diversity (3 cc)
Explores the diversity of life including bacteria, protists, fungi, plants and animals at the introductory level. The course will cover basic functional morphology and physiology at the organismal level. The course will also provide an introduction to ecological interactions at the population and community level.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Natural Sciences (Biological Sciences). Offered: FA, SP.

BSC 1011L - Principles of Biological Diversity Laboratory (1 cc)
A laboratory course which provides hands-on exercises to complement the concepts discussed in lecture. In particular, the diversity of life including bacteria, protists, fungi, plants and animals are covered at the introductory level. In addition, the lab will contain exercises that introduce students to basic functional morphology and physiology at the organismal level, as well as ecological interactions at the population and community level.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Corequisite: BSC 1011. Offered: FA, SP. Notes: Lab fee.

BSC 1080 - Essentials of Anatomy and Physiology (3 cc)
This is a survey course consisting of lectures and demonstrations covering the basic structures and functions of the human body. It is not recommended for students who intend to major in biology, medicine, or registered nursing.
Corequisite: BSC 1080L. Distribution: General Education, Natural Sciences (Biological Sciences). Offered: FA, SP.

BSC 1080L - Essentials of Anatomy and Physiology Laboratory (1 cc)
This is a laboratory course in which dissected materials, microscopy, models, and other supplemental materials will be used to reinforce concepts presented in BSC 1080.
Corequisite: BSC 1080. Offered: FA, SP. Notes: Lab Fee.

BSC 1093 - Anatomy and Physiology I (3 cc)
An intensive study of human anatomy with emphasis on normal physiology and disease states that result when normal homeostatic mechanisms are compromised. Topics covered include basic cellular function, tissue components of the body, cellular metabolism, integumentary, skeletal, muscular, and nervous systems, and special senses. Laboratory exercises are intended to enhance topics covered in lecture. Models, dissection material, and other media are used to explore the structure of the cell, tissues, integumentary, skeletal, muscular, and nervous systems.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Corequisite: BSC 1093L. Offered: FA, SP, SU.

BSC 1093C - Anatomy and Physiology I (4 cc)
An intensive study of human anatomy with emphasis on normal physiology and disease states that result when normal homeostatic mechanisms are compromised. Topics covered include basic cellular structure and function, tissue components of the body, cellular metabolism, integumentary, skeletal, muscular, and nervous systems and special senses. Laboratory exercises are intended to enhance topics covered in lecture. Models, dissection material, and other media are used to explore the structure of the cell, tissues, integumentary, skeletal, muscular, and nervous systems.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA, SP, SU. Notes: Lab Fee.

BSC 1093L - Anatomy and Physiology I Laboratory (1 cc)
This course uses laboratory exercises in anatomy and physiology intended to enhance topics covered in BSC 1093. Models, dissection material and other media will be used to explore the structure of the cell, tissues, integumentary, skeletal, muscular, and nervous systems.
Corequisite: BSC 1093. Offered: FA, SP, SU. Notes: Lab Fee.

BSC 1094 - Anatomy and Physiology II (3 cc)
This course is a continuation of BSC 1093. Topics covered include the endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, urinary and reproductive systems, including genetics, general developmental concepts and pregnancy. Normal and pathological conditions of fluid, acid-base, and electrolyte balance are also surveyed.
Prerequisite: Grade of C or better in BSC 1093 and BSC 1093L.
Corequisite: BSC 1094L. Offered: FA, SP, SU.
BSC 1094C - Anatomy and Physiology II (4 cc)
This course is a continuation of BSC 1093 and BSC 1093L or BSC 1093C. Topics covered include the endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, urinary and reproductive systems, including genetics, general developmental concepts, and pregnancy. Normal and pathological conditions of fluid, acid-base, and electrolyte balance are also surveyed. Laboratory exercises in anatomy and physiology to enhance topics covered in the lecture. Models, dissection material and other media will be used to explore the structure of the sensory, cardiovascular, respiratory, digestive, urinary and reproductive systems.
Prerequisite: Grade of C or better in BSC 1093 and BSC 1093L or BSC 1093C. Offered: FA, SP, SU. Notes: Lab Fee.

BSC 1094L - Anatomy and Physiology II Laboratory (1 cc)
This course uses laboratory exercises in anatomy and physiology to enhance topics covered in BSC 1094. Models, dissection material and other media will be used to explore the structure of the sensory, endocrine, cardiovascular, respiratory, digestive, urinary and reproductive systems, including genetics.
Prerequisite: BSC 1093L. Corequisite: BSC 1094. Continuation of BSC 1093L. Offered: FA, SP, SU. Notes: Lab Fee.

BSC 1931 - Special Topics in Biological Sciences (1 cc)
This course is designed to allow flexibility for presenting a variety of topics in biological sciences, such as biotechnology, environment, and natural history. The course may be repeated for credit when content varies.
Offered: FA, SP, SU. Notes: Some sections may require Lab Fees.

BSC 1931L - Special Topics in Biological Sciences (2 cc)
This course is designed to allow flexibility for presenting a variety of topics in biological sciences, such as biotechnology, environment, and natural history. The course may be repeated for credit when content varies.
Offered: FA, SP, SU. Notes: Some sections may require Lab Fees.

BSC 1932 - Special Topics in Biological Sciences (2 cc)
This course is designed to allow flexibility for presenting a variety of topics in biological sciences, such as biotechnology, environment, and natural history. The course may be repeated for credit when content varies.
Offered: FA, SP, SU. Notes: Some sections may require Lab Fees.

BSC 1933 - Special Topics in Biological Sciences (3 cc)
This course is designed to allow flexibility for presenting a variety of topics in biological sciences, such as biotechnology, environment, and natural history. The course may be repeated for credit when content varies.
Offered: FA, SP, SU. Notes: Some sections may require Lab Fees.

BSC 2033 - Ethical Issues in Biology (2 cc)
In recent years, the life sciences have produced numerous techniques and laboratory devices whose applications have produced challenging ethical dilemmas for modern society. This course explores the complex interactions that occur at the overlap between ethics and modern biology. Topics to be presented will include the use of genetic information, genetic testing, genetic engineering, gene therapy, medical ethics, use of reproductive technologies, abortion, euthanasia, xenotransplantation and cloning.
Prerequisite: BSC 1005 or BSC 1010 or BSC 1080 or BSC 0070 or BSC 1093 and BSC 1094. Offered: SP, SU.

BUL - BUSINESS LAW

BUL 2241 - Business Law (3 cc)
A general introduction to Business law which includes a study of the foundations of legal systems and the role of law in society, fundamental principles of the law of crimes, torts, contracts, sales, and commercial paper. Emphasis is placed on logical reasoning and the application of rules of law to everyday business affairs.
Offered: FA, SP, SU.

BUL 3150 - Legal Environment (3 cc)
Covers issues such as contracts, torts, legal/political/economic aspects of ethics and the Law, antitrust law, employment law, administrative law, securities law, and international business law topics.
Offered: FA, SP, SU.

CAP - COMPUTER APPLICATIONS

CAP 2050 - XBOX Game Programming (3 cc)
Students will be introduced to Microsoft’s XNA programming language. They will learn how the XNA framework integrates with C#, basic game programming concepts, how to create 2D and 3D games using the language, and how to transfer games on the Xbox.
Prerequisite: COP 2360 or COP 2800. Offered: FA. Notes: Lab Fee.

CAP 2051 - Game Level Design (3 cc)
Introduction to the tools and concepts used to create levels for games and simulations. Incorporates level design, architecture theory, concepts of critical path and flow, balancing, play testing, and storytelling. Includes utilization of toolsets from industry titles.
Prerequisite: COP 1000 or COP 1510. Offered: FA, SP. Notes: Lab Fee.

CAP 2134C - Database Security (3 cc)
Provides students the skills and knowledge of the Information Technology security professional to protect technology infrastructures, intellectual property, business functions, and protect the company’s most valuable assets, the databases. The course presents the proper techniques and methodologies in securing and protecting databases beginning with database installation and testing to auditing and SQL Injection.
Prerequisite: CGS 1061C. Offered: FA, SP. Notes: Lab fee.

CAP 2140C - Digital Forensics I (3 cc)
Provides information on forensic lab set up, how to acquire tools and software necessary for a forensics investigation, identification of inappropriate uses of information, gathering electronic evidence of wrongdoing, securing corporate systems from further misuse, manage corporate computer forensic operations, gathering electronic evidence, and protecting it from intentional or accidental modification.
Prerequisite: CET 1178C, CET 1179C, CTS 1300C, CTS 1390C, CTS 2106C. Offered: FA. Notes: Lab fee.
CAP 2141C - Digital Forensics II (3 cc)
This course provides information on advanced computer forensics, how to prepare and conduct a computer investigation, use of advanced computer forensics software such as Access Data’s Forensic Toolkit FTK, Guidance Software's Encase, Forensic Recovery Evidence Device (FRED), Ultimate Tool Kit write blocker suite, Voom Hardcopy II, and windows registry analysis using FTK’s registry analyzer. Students will learn how to recover forensic data from various digital devices such as cell phones using PARABEN’s Cell and PDA Seizure, password recovery tools including Access Data’s PRTK, and analysis of windows and Linux operating systems.
Prerequisite: CAP 2140C. Offered: SP. Notes: Lab fee.

CCJ - CRIMINOLOGY AND CRIMINAL JUSTICE

CCJ 2010 - Criminology (3 cc)
Covers the nature and extent of sexual crimes committed in America today as well as the prominent theories of causation. This course will review the current sex offender laws and the legal challenges facing law enforcement and the courts.
Offered: FA, SP.

CCJ 2693 - The Study of Sex Crimes (3 cc)
Provides the student with an integrative experience in a law enforcement and business information security environment. This course incorporates the Certified Digital Forensic Examiner (CDFE) certification exam.
Prerequisite: Permission of the instructor. Offered: SU.

CCJ 2940C - Cyber Forensics Capstone (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. Offered: FA, SP, SU.

CET - COMPUTER ENGINEERING TECHNOLOGY

CET 1020C - Introduction to Networks (3 cc)
As the first course in the Cisco CCENT curriculum, the student will learn about the architecture, structure, functions, components, and modules of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum.
Prerequisite: CGS1061C. Offered: FA. Notes: Lab fee.

CET 1112C - Digital Fundamentals (3 cc)
Covers introductory concepts of digital circuits. Material covered in the course is divided into four lesson units. Each unit introduces a new concept that is applied in a practical lab activity. Material covered includes number systems, digital codes, logic theory and lab includes number systems, digital codes, logic circuits, Boolean -algebra, Karnagh mapping, Demorgan's Theorem, arithmetic circuits, code converters, multiplexers, and demultiplexers.
Offered: FA, SP, SU. Notes: AS only. Lab Fee.

CET 1178C - PC Operating Systems (A+) (3 cc)
This course is designed to prepare the student to take the A+ Certification exam by teaching the student basic technical skills needed to understand the function and operation of the major elements of personal computer systems, and how to localize and correct common hardware and software problems.
Prerequisite: CGS 1061C. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

CET 1179C - PC Operating Systems (A+) (3 cc)
This course is designed to prepare the student to take the A+ Certification exam by teaching the student basic technical skills needed to understand the function and operation of the major elements of personal computer systems, including DOS, Win 98/2000/XP. Major topics include disk, file and memory management, system configurations, menu driven processing, graphical user interfaces, boot files, disk caching, virtual memory, device drivers, TSRs, and basic system errors.
Prerequisite: CGS 1061C. Offered: FA, SP, SU. Notes: AS only. Lab Fee.
CET 1588 - Network + (3 cc)
This course serves as a general introduction for students to acquire a foundation in current network technologies for local area networks (LANs), wide area networks (WANS), and the Internet. This course prepares the student to take the CompTIA Network+ certification exam. The course provides an introduction to the hardware, software, terminology, components, design, and connections of a network, as well as the topologies and protocols for LANs. It covers LAN-user concepts and the basic functions of system administration and operation.

Prerequisite: CET 1610C or permission of instructor. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

CET 1605C - Introduction to Cisco Internetworking (3 cc)
This course will cover the concepts of routers and switches and how they are used in internetworking. The course is also an overview for the Cisco CCNA certification.

Prerequisite: CGS 1061C. Offered: TBA.

CET 1610C - Routing and Switching Essentials (3 cc)
This is the second course of two in the Cisco CCENT curriculum. Students learn architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. This course completes the Cisco CCENT curriculum and prepares the student for the Cisco CCENT certification exam.

Prerequisite: CET 1020C. Offered: FA, SP. Notes: AS only. Lab Fee.

CET 1630C - Network Cable Installation (2 cc)
This is an introductory course about broadband cable installation. The student will learn about basic broadband technology and how to install and troubleshoot broadband cable installations.

Prerequisite: CGS 1061C. Offered: TBA. Notes: AS only.

CET 1632C - Fiber Optic Installation and Activation (2 cc)
This course covers fiber-optic technology including the attributes of various fiber-optic networks and transmission systems. It also covers fiber optic topologies, amplitude modulation, frequency modulation and digital modulation as well as multiplexing and demultiplexing.

Prerequisite: CET 1630C. Offered: TBA. Notes: AS only.

CET 1634C - Telecommunications Distribution Systems (3 cc)
This course is designed to teach a student the fundamentals of structured cabling systems and the fundamentals of grounding and protection for telecommunications systems. It also will be an introduction to telecommunications cabling infrastructure for a customer-owned outside plant.

Offered: FA, SP, SU. Notes: AS only. Lab Fee.

CET 1730C - Windows Server 2008 Active Directory (3 cc)
Provides students with the knowledge and skills necessary to configure the Windows Server 2008 Active Directory and prepares students for the Microsoft Exam 70-640.

Prerequisite: CGS 1061C, CTS 1300. Offered: FA. Notes: Lab Fee.

CET 2025C - Scaling Networks (3 cc)
This is the first course of two in the Cisco Routing and Switching curriculum. The student will learn about the architecture, components, and operations of routers and switches in a larger and more complex network. Students will learn how to configure routers and switches for advanced functionality.

Prerequisite: CET 1610C. Offered: SP. Notes: Lab fee.

CET 2026C - Connecting Networks (3 cc)
This is the final course of two in the Cisco Routing and Switching curriculum. The student will learn about the WAN technologies and network services required by converged applications in a complex network. The course enables students to understand the selection criteria of network devices and WAN technologies to meet network requirements. This course prepares the student for the Cisco CCNA Routing and Switching certification exam.

Prerequisite: CET 2025C. Offered: SU. Notes: Lab fee.

CET 2113C - Digital Circuits (3 cc)
A theory-lab course which covers additional digital electronics circuits and concepts. Circuits included are latches, flip-flops, counters, registers, multivibrators, timers, digital-to-analog converters (DAC), analog to digital converters (ADC), and common memory technologies (R/WR and ROM).

Prerequisite: CET 1112C. Offered: SP. Notes: AS only. Lab Fee.

CET 2172C - Personal Computers Maintenance, Upgrade and Support (3 cc)
A combination theory and laboratory oriented course which introduces the student to maintenance of microcomputers. It will prepare students in maintenance, upgrade, and support of PCs. Major items covered include: hardware/software/firmware concepts, troubleshooting, repair, support of the PC, LAN/WAN network applications, and operating systems.

Prerequisite: CET 1178C or departmental waiver based on documented personal experience. Offered: FA, SP. Notes: AS only. Lab Fee.

CET 2614C - Cisco CCNA Security (3 cc)
Focuses on the overall security process based on a security policy and its relation to the router IOS firewall. This course also maps to the Cisco CCNA Security Exam.

Prerequisite: CET 2026C, CTS 2120C. Offered: FA. Notes: Lab Fee.

CET 2731C - Windows Server 2008 Network Infrastructure (3 cc)
Provides students with the knowledge and skills necessary to install, manage, monitor, configure, and troubleshoot DNS, Remote Access, File and Print services, Distributed File System, and the Network Infrastructure.

Prerequisite: CET 1730C. Offered: SP. Notes: Lab Fee.

CET 2732C - Administer Windows Server 2008 (3 cc)
This course provides students with the knowledge and skill to plan, deploy, install, manage, monitor, and maintain the Windows Server 2008 Operating System (OS).

Prerequisite: CET 2731C. Offered: TBA. Notes: Lab Fee.

CET 2854C - Wireless LANS (3 cc)
This course focuses on wireless LANS, topology, infrastructure, and site survey techniques. Mathematics and physics are held to a minimum to allow for the broadest possible audience. Prerequisite: CET 1588C or CET 2620C. Offered: FA, SP. Notes: AS only. Lab Fee.

CET 2890C - Network Defense and Countermeasures (3 cc)
Focuses on one of the most important and urgent concepts in protecting computers and networks: intrusion detection. Prerequisite: CET 2026C, CTS 2120C. Offered: SP, SU. Notes: Lab Fee.
CET 2932 - Advanced Telecommunications Topics (3 cc)
Focuses on the overall security process based on a security policy and its relation to the router IOS Firewall. This course also maps to the Cisco SECUR exam.
Offered: SP. Notes: AS only.

CET 2934 - CIT Professional Project (3 cc)
This course, taken during the last semester, is the culmination of the student's Computer Information Technology degree program, and as such represents an opportunity for the student to complete a project and present an integrated summary of what he/she learned. Class time will be spent planning and working through the specific details of the project and creating a personal presentation. Suggested project include, but are not limited to, network design, risk assessment, wiring design, security awareness program, developing security policies.
Prerequisite: CTS 2149. Offered: TBA. Notes: AS only. Lab Fee.

CET 2947 - Telecommunications Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student's academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.

CET 2949 - Telecommunications Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student's academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.

CGS - COMPUTER GENERAL STUDIES

CGS 1570 - Computer Concepts and Applications (3 cc)
This course will cover computer and networking concepts, computer applications, and productivity software (word processing, spreadsheet, graphics, and database).
Distribution: General Education, Communications. Offered: FA, SP, SU. Notes: Lab Fee.

CGS 1584 - PowerPoint Presentations for Business (3 cc)
A projects-based course in multimedia presentation tools with emphasis on the use of microcomputers for professional and academic use. Topics include presentation planning, ergonomic design, and integration of several different types of multimedia. Participants will become familiar with integrating text, clip art, digital pictures, and animation with the Microsoft PowerPoint program.
Prerequisite: CGS 1061C or CGS 1570. Offered: FA, SP. Notes: AS only. Lab Fee.

CGS 1700 - Introduction to Operating Systems (3 cc)
Course covers concepts concerning software design, data representation, and operating systems without regard to any particular type of computer. This course will examine the "why" and "how" of an operating system and its responsibility to hardware applications.
Prerequisite: CGS 1570 or CGS 1061C. Offered: FA, SP.

CGS 2122 - Engineering Technical Spreadsheets (3 cc)
This course is an intermediate spreadsheet course using Microsoft Excel software which provides the student with skills necessary to solve engineering problems. This course provides a mathematical foundation for engineering calculations including geometry and trigonometry. It will take the student or professional through the Excel software program in a systematic approach describing intermediate commands and procedures in detail.
Prerequisite: CGS 1570, EGS 1111, MAT 1033C or permission of instructor. Offered: FA. Notes: AS only. Lab Fee.

CGS 2510 - Spreadsheet (3 cc)
Spreadsheet applications will be taught by a combination of lecture and hands-on experience. Electronic spreadsheet and data management applications will be covered.
Prerequisite: CGS 1570. Offered: FA, SP, SU. Notes: Lab Fee.

CGS 2555 - Internet Literacy. (3 cc)
This course will cover use of Windows based software, Internet concepts, connectivity, communication, search engines, Web page creation, Internet multimedia, and the origin, current impact on society, and future of the Internet.
Offered: FA, SP, SU. Notes: Lab Fee.

CGS 2820 - HTML (3 cc)
Teaches students essential Web page development skills. Students will develop Web sites using Hypertext Markup Language (HTML) and Cascading Style Sheets (CSS). Students learn to write HTML code manually, as well as use graphical user interface (GUI) authoring tools. Students will create Web pages using the HTML structure tags, embed video and audio, and develop cross-browser user-input forms. They will use CSS to position and format content, and to create effects such as transformations, transitions and animation. In addition, students will learn techniques for code validation and testing, inline form field validation, and mobile design for browsers and apps, including Responsive Web Design (RWD).
Offered: FA, SP. Notes: Lab fee.
CGS 2821 - Advanced HTML/CSS (3 cc)
The Advanced HTML/CSS course builds upon students' coding skills to develop Web documents using new elements, attributes and selectors introduced in CGS2820. Students will create Web pages using the HTML structure tags, embed video and audio, and develop cross-browser user-input forms. They will use CSS to position and format content, and to create effects such as transformations, transitions and animation. In addition, students will learn techniques for code validation and testing, inline form field validation, and mobile design for browsers and apps, including Responsive Web Design (RWD).
Prerequisite: CGS 2820. Offered: SP. Notes: Lab Fee.

CGS 2822 - Scripting for the Web (3 cc)
This course teaches the basics of writing scripts for use on the World Wide Web. Emphasis will be placed on the student learning to program with Javascript and Perl, with a brief survey of several other scripting languages.
Prerequisite: COP 1510. Offered: FA, SP. Notes: Lab Fee.

CGS 2829 - Web Design Specialist (3 cc)
Builds on the skills acquired in the previous two web creation courses while introducing advanced skills for designing and coding responsive web sites. Integration of industry standard software will be utilized. Students will build upon their basic Web authoring skills to learn the essentials and best practices of Web design, including design theory, tools and technologies.
Offered: FA, SP. Notes: Lab Fee.

CGS 2933 - Special Topics in Computer Science (3 cc)
A course designed to allow flexibility to present a wide variety of topics related to the application of microcomputer software to business, economics, and managerial decision-making in rapidly changing environments.
Offered: TBA. Notes: Lab Fee.

CGS 3812 - Business Continuity and Disaster Recovery (3 cc)
A study of disaster recovery and business continuity planning. Emphasizes a business’ critical operations, especially IT infrastructure. The goal is to keep critical operations of the business running, which today heavily relies on its IT infrastructure. The student will be prepared to work with businesses to create and implement disaster recovery and business continuity plans. This course prepares students for the Mile2 Certified Disaster Recovery Engineer (CDRE) certification exam. The National Security Agency has validated the CDRE for the CNSSI-4016: National Information Assurance Training Standards for Risk Analysis.
Prerequisite: CET 2614C. Offered: FA. Notes: Lab Fee.

**CHD-HOME-ECONOMICS-CHILD-DEVELOPMENT**

CHD 1933 - Early Childhood Seminar (3 cc)
This course explores current topics as they affect the child in the family, the child’s development and the child in settings such as child care, pre-kindergarten and primary grades. The student will receive instruction in child literacy and math skills development. The literacy component will meet the state mandated literacy requirements for Early Childhood educators.
Offered: TBA.

CHD 2947 - Child Development Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP.

CHD 2949 - Child Development Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP.

**CHM-CHEMISTRY**

CHM 1025 - Introduction to College Chemistry (3 cc)
An introductory course in chemistry for students who have had little or no prior exposure to the subject. Emphasis is on the language, fundamental concepts, and problem solving in chemistry.
Distribution: General Education, Natural Sciences (Physical Sciences). Offered: FA, SP, SU.

CHM 1025L - Introduction to College Chemistry Laboratory (1 cc)
An optional laboratory course to accompany CHM 1025, with emphasis on basic laboratory skills and practical applications of chemistry. Activities performed by the student in CHM 1025L will help reinforce concepts presented in CHM 1025. Lab safety exam is required. (Students taking CHM 1025 concurrently are required to withdraw from CHM 1025L if they withdraw from CHM 1025.)
Corequisite: CHM 1025. Offered: FA, SP, SU. Notes: Lab Fee.

CHM 1032 - Survey of General Chemistry (3 cc)
A one semester introductory course surveying the major areas and principles of general chemistry. This course is designed for science-related and health majors that require a somewhat less rigorous treatment of the subject than is presented in the two-semester mainstream General Chemistry I and II sequence. Basic skills in arithmetic and algebra are important to succeed in this course.
Offered: TBA.

CHM 1032L - Survey of General Chemistry Laboratory (1 cc)
An optional laboratory course to accompany CHM 1032, with emphasis on laboratory experiences to illustrate the concepts presented in CHM 1032 and on the development of fundamental laboratory skills in chemistry. Lab safety test required. (Students taking CHM 1032 concurrently are required to withdraw from CHM 1032L if they withdraw from CHM 1032.)
Corequisite: CHM 1032. Offered: TBA. Notes: Lab Fee.
CHM 1045 - General Chemistry I (3 cc)
A modern survey of basic principles in chemistry with emphasis on scientific measurement, atomic and molecular structure, periodic properties, chemical reactions, stoichiometry, and kinetic molecular theory of gases. Mastery of basic algebra skills is essential for successful completion of this course.
Prerequisite: Grade of C or better in CHM 1045L. Corequisite: CHM 1046L. Distribution: General Education Core, Natural Sciences (Physical Sciences). Offered: FA, SP, SU.

CHM 1045C - General Chemistry I (4 cc)
A modern survey of basic principles in chemistry with emphasis on scientific measurement, atomic and molecular structure, periodic properties, chemical reactions, stoichiometry, and kinetic molecular theory of gases. The laboratory component of the course emphasizes the development of laboratory skills in chemistry which are fundamental to students of science. Lab safety exam is required. Mastery of basic algebra skills is essential for successful completion of this course.
Prerequisite: CHM 1045 or high school chemistry. Corequisite: MAC 1105, CHM 1045L. Distribution: General Education Core, Natural Sciences (Physical Sciences). Offered: TBA. Notes: Lab Fee.

CHM 1045L - General Chemistry I Laboratory (1 cc)
A laboratory course to accompany CHM 1045, with emphasis on the development of laboratory skills in chemistry which are fundamental to students of science. Experiments performed by the student in CHM 1045L will both complement and supplement the concepts presented in CHM 1045. Lab safety exam is required. (Students taking CHM 1045 concurrently are required to withdraw from CHM 1045L if they withdraw from CHM 1045.)
Corequisite: CHM 1045. Offered: FA, SP, SU. Notes: Lab Fee.

CHM 1046 - General Chemistry II (3 cc)
Topics treated include physical states of matter, the nature and physical properties of solutions, acids and bases, kinetics, chemical equilibrium, thermodynamics, electrochemistry, coordination compounds, and nuclear chemistry.
Prerequisite: Grade of C or better in CHM 1045. Corequisite: CHM 1046L. Offered: FA, SP, SU.

CHM 1046L - General Chemistry II Laboratory (1 cc)
A laboratory course to accompany CHM 1046, with emphasis on the development of laboratory skills in chemistry which are fundamental to students of science. Experiments performed by the student in CHM 1046L will both complement and supplement the concepts presented in CHM 1046. Lab safety test required. (Students taking CHM 1046 concurrently are required to withdraw from CHM 1046L if they withdraw from CHM 1046.)
Prerequisite: Grade of C or better in CHM 1046. Corequisite: CHM 1046. Offered: FA, SP, SU. Notes: Lab Fee.

CHM 2210 - Organic Chemistry I (3 cc)
A study of carbon compounds with emphasis placed on reaction mechanisms, functional group behavior, synthesis, and structure determination.
Prerequisite: Grade of C or better in CHM 1046. Corequisite: CHM 2210L. Offered: FA, SP.

CHM 2210L - Organic Chemistry I Laboratory (1 cc)
Experiments designed to provide hands-on experience to reinforce topics covered in the lecture course. Lab safety test required. (Students taking CHM 2210 concurrently are required to withdraw from CHM 2210L if they withdraw from CHM 2210.)
Prerequisite: Grade of C or better in CHM 1046L. Corequisite: CHM 2210. Offered: FA, SP. Notes: Lab Fee.

CHM 2211 - Organic Chemistry II (3 cc)
A continuation of CHM 2210.
Prerequisite: Grade of C or better in CHM 2210. Corequisite: CHM 2211L. Offered: SP, SU.

CHM 2211L - Organic Chemistry II Laboratory (1 cc)
A continuation of CHM 2210L. Lab safety test required. (Students taking CHM 2211 concurrently are required to withdraw from CHM 2211L if they withdraw from CHM 2211.)
Prerequisite: Grade of C or better in CHM 2210L. Corequisite: CHM 2211. Offered: SP, SU. Notes: Lab Fee.

CIS - COMPUTER SCIENCE AND INFORMATION SYSTEMS

CIS 1350C - Security Awareness (3 cc)
Provides a broad overview of practical computer security for all users.
Offered: TBA. Notes: AS only. Lab Fee.

CIS 2120C - Principles of Information Assurance (3 cc)
This course is focusing on evaluation of information systems: security, analysis, lifecycle management, computer operations/management, legal and ethical issues, and business applications.
Prerequisite: CIS 1350, CTS 2120C, CTS 1300C and CTS 2106C.
Offered: TBA. Notes: AS only.

CIS 2381C - Foundations of Digital Forensics (3 cc)
Digital forensics is the application of traditional forensic science principles and practices to the problem of electronically stored evidence. Students will receive an overview of the principles and practices of this emerging discipline to include the acquisition, examination and analysis of electronic evidence.
Prerequisite: CGS 1061C, CTS 1300C, CTS 2106C and CET 1588C.
Offered: TBA. Notes: Lab Fee.

CIS 3361 - Security Testing and Auditing (3 cc)
A presentation of proven, hands-on, penetration testing methodologies, based on the five key elements of ‘Pen Testing’: Information Gathering, Scanning, Enumeration, Exploitation and Reporting. Upon completion, the student will have the knowledge to perform penetration tests and be prepared to take the C)PTE certification exam. The course is accredited by the NSA CNSSI-4013: National Information Assurance Training.
Prerequisite: CET 2614C. Offered: FA. Notes: Lab Fee.

CIS 3367C - Operating Systems Security (3 cc)
A presentation of the nature of attacks against operating systems and security related issues. Examines various operating systems, including Windows systems and servers, Linux, Netware, Red Hat Linux, and Mac OS X; and tools and techniques for securing those operating systems. The student will acquire knowledge and skills to perform audit assessments and implement enterprise-wide operating system security.
Prerequisite: CTS 1390C. Offered: SP. Notes: Lab fee.

CIS 3615C - Secure Software Development (3 cc)
A study of the perspectives and techniques used to ensure the security of essential software with emphasis on the methodologies and principles that reduce security risk early in the software development life cycle. Implementation-level issues are discussed and applied through code samples. Secure software risk assessment, design, coding, and testing are also covered.
Prerequisite: COP 1510. Offered: FA. Notes: Lab fee.
CIS 4201 - Law and Legal Aspects of Information Technology (3 cc)
An overview of the rights, responsibilities, and liabilities associated with IT systems today. Statutes, case histories, regulations, etc., will be discussed. Research topics will be assigned to students.
Prerequisite: CTS 2120. Offered: FA.

CIS 4253 - Ethics in Information Technology (3 cc)
An examination of the impact ethical issues have on the use of information technology in the modern business world. Topics will include Cloud computing, cyberterrorism, social networking Web sites, and infringement of intellectual property, security risks, identity theft, employee surveillance, privacy, compliance, and ethics of IT corporations.
Offered: SP.

CIS 4357C - Advanced Security Practitioner (3 cc)
An examination of critical thinking and problem solving strategies used across a broad spectrum of security disciplines. Emphasizes the required knowledge and skills necessary to implement clear solutions in complex environments and supports the growing demand for advanced IT security in the enterprise. This course prepares students for the CompTIA Advanced Security Practitioner (CAS) CAS-002 exam. The CASP certification is approved by the U.S. Department of Defense (DoD) to meet 8570.01-M and 8140 technical and management directives. It is compliant with government regulations under the Federal Information Security Management Act (FISMA).
Prerequisite: CET 2890. Offered: SP. Notes: Lab fee.

CIS 4385 - Computer Forensics and Investigations (3 cc)
An analysis of the technical issues used to acquire computer evidence and popular file systems. Topics on reporting issues in the legal system, digital evidence collection and evaluation, and legal issues involved in network forensics are examined. This course prepares the student for the CompTIA Advanced Security Practitioner (CAS) CAS-002 exam. The CASP certification is approved by the U.S. Department of Defense (DoD) to meet 8570.01-M and 8140 technical and management directives. It is compliant with government regulations under the Federal Information Security Management Act (FISMA).
Prerequisite: CTS 3100. Offered: FA. Notes: Lab fee.

CIS 4512 - Information Security and Risk Management (3 cc)
An in-depth examination of how to manage and reduce IT-associated risks. Provides a thorough overview of risk management and its implications on IT infrastructures.
Prerequisite: CTS 2318. Offered: FA.

CIS 4596 - Cybersecurity Capstone (3 cc)
A presentation of a broad range of industry best practices and knowledge and skills expected of a security manager/officer. Includes in-depth theory of the practical implementation of core security concepts, practices, monitoring and compliance in the full panorama of IS management. Through the use of a risk-based approach, the Information Systems Security Officer is able to implement and maintain cost-effective security controls that are closely aligned with both business and industry standards. This course will prepare students for the Mile2 CISSO certification exam. The CISSO is an FBI Tier III preferred degree and work experience extended certificate. The CISSO certification has been validated by the NSA CNSSI-4012, National Information Assurance as well as the Training Standard for Senior System Managers and NSTISSI - 4011, National Training Standard for Information Systems Security (INFOSEC).
Prerequisite: CIS 4357C. Offered: SP. Notes: Lab fee.

CJC - CORRECTIONS

CJC 1000 - Theory and Practice of Corrections (3 cc)
A comprehensive view of the history and philosophy of corrections at the federal, state and local levels. The course presents types and classifications of correctional facilities; temporary problems in corrections; and a career orientation.
Offered: FA, SP, SU.

CJC 2162 - Probation and Parole (3 cc)
Explores the theories and practices of correcting behavior in the community setting. The difference between the two is discussed along with the range of restrictions that can be placed on the parolee or probationer in attempts to guide his/her behavioral modification.
Offered: FA, SP, SU.

CJE - LAW ENFORCEMENT

CJE 1500 - Police Operations (3 cc)
This is a study of the principles and purposes of divisional functions of police agencies-line, auxiliary, and administrative-and analysis of the major activities of each division, including communications, record keeping, public relations, selection processes, and specialized units.
Offered: FA, SP, SU.

CJE 1640 - Introduction to Criminalistics (3 cc)
Scientific methods are applied in the course. It includes the examination of documents, firearms identification, toxicology, pathology, photography, fingerprinting, and the basic capabilities of local, state, and federal crime laboratories.
Offered: FA, SP.

CJE 1642 - Advanced Crime Scene Technology (3 cc)
This course covers advanced principles, theories, and applications in crime scene technology. An overview of specialized collection procedures of weapons, traffic crash evidence, arson, gunshot residue, blood splatter, and recovery of buried bodies and surface skeletons are included.
Corequisite: CJE 1600, CJE 1640. Offered: FA.

CJE 1673 - Crime Scene Photography I (3 cc)
This course includes basic photographic skills including camera operation and exposure control. It is a hands-on course that will build basic proficiency in documenting a crime scene. Each student should have personal access to a digital camera and software to process photographs.
Corequisite: CJE 1600, CJE 1640. Offered: FA. Notes: Lab Fee.

CJE 1772 - Crime Scene Photography II (3 cc)
Includes advanced photographic skills including camera operation and exposure control. It is a hands-on course that will build proficiency in documenting a crime scene. Each student should have access to a digital camera and software to process the photographs. This course will build upon skills and techniques taught in CJE 1673 Crime Scene Photography.
Prerequisite: CJE 1673. Offered: SP.
CJE 2030 - Writing and Reviewing Criminal Reports (3 cc)
Provides a focused review and practice of the basic elements necessary for effective writing in any situation or any type of report in the Law Enforcement environment. This course is recommended for Criminal Justice, law enforcement personnel, paralegals, and pre-law students.
Prerequisite: ENC1101C. Offered: FA, SP.

CJE 2644 - Crime Scene Safety (2 cc)
Covers potential health and safety hazards one will encounter at a crime scene. The course will also introduce the proper protective techniques to minimize risk to self and others. Emergency procedures and state and federal regulations are included. 32 contact hours.
Corequisite: CJE 1600, CJE 1640. Offered: FA.

CJE 2671 - Latent Fingerprint Development (3 cc)
This course covers the techniques involved in detection, enhancement, and recovery of latent fingerprints from physical evidence. Chemical and mechanical methods will be taught for use on varying surfaces.
Offered: SP. Notes: Lab Fee.

CJE 2676 - Biological Evidence (2 cc)
This course exposes the student to the forensic value, collection, handling, preservation, testing, and documentation of biological evidence. It also addresses safety issues in handling biological evidence.
Corequisite: CJE 1600, CJE 1640. Offered: SP. Notes: Lab Fee.

CJE 2686 - Forensic Cyber Investigation (3 cc)
Introduces the student to the field of cyber-crime and evidence recovery. Upon completion of the course the student will understand what portions of a computer can be used to successfully prosecute an offender in court together with the laws that govern such retrieval.
Offered: FA, SP.

CJE 3310 - Law Enforcement Administration I (3 cc)
A study of the organization, management, and administration of law enforcement agencies. Topics include police administration in the political arena, organizational theory, police organizational structure, leadership, organizational communication, police subsystem tasks, decision-making, performance evaluation, and organizational improvement.
Prerequisite: COM 2100, MAN 2021, MNA 1300. Offered: SP.

CJE 3311 - Law Enforcement Administration II (3 cc)
Provides methods for dealing with problem personnel through progressive discipline. The budgeting process for public safety units and disaster planning and implementation of response is covered. Includes various methodologies for training personnel.
Prerequisite: CJE 3310, COM 2100, MAN 2021, MNA 1300.
Offered: SP.

CJJ - JUVENILE JUSTICE

CJJ 2002 - Juvenile Justice (3 cc)
The influence of political, economic, and environmental factors pertaining to adolescents and treatment of delinquent children are presented in this course. The course surveys youth crimes and the police role in programs of prevention and control.
Offered: FA, SP, SU.

CJL-LAW-PROCESS

CJL 1100 - Criminal Law (3 cc)
An introduction to the specific rules of criminal law generally in force in the United States and the State of Florida. Topics will include fundamentals of criminal law; essential elements of a crime; criminal liability, responsibility and capacity; defenses and criminal jurisdiction.
Offered: FA, SP, SU.

CJL 2403 - Criminal Procedure and Evidence (3 cc)
Emphasis will be placed on the following: arrests, search warrants, probable cause, admissions and confessions, stop and frisk, pretrial identification procedures and preparation of cases for courts.
Prerequisite: CJL 1020. Offered: FA, SP.

CJL 2502 - Introduction to Courts (3 cc)
Offers an understanding of the process and functions of the U.S. court system. Course will define and identify different aspects of law and crime, examine aspects of federal and state court systems, the trial process, examine the roles of court workers, examine the sentencing process.
Offered: FA, SP.

CLT - CLASSICAL CULTURE IN TRANSLATION OR TRANSATION SKILLS

CLT 1500 - Classical Mythology (3 cc)
Introduces the student to the major deities and heroes of Greco-Roman mythology, including Greco-Roman literature involving these. The course then follows a chronological examination (beginning with Greece to the present) of how artists and poets thematically used classical mythology in their works. The course will involve lectures, correlated readings and illustrations or representative works from each period studied.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Humanities. Offered: FA, SP, SU.

CNT - COMPUTER NETWORKS

CNT 2405 - Information Security Management (3 cc)
This course deals with processes and technical solutions that implement the information security governance framework, focuses on the tasks necessary for the information security manager to effectively manage information security within an organization, and provides a description of various techniques the information security manager can use. This course also covers steps and solutions for responding to an incident. This course loosely follows the ISACA CISM certification.
Offered: TBA. Notes: AS only.

CNT 3411 - Security Operations (3 cc)
A study of cyber warfare, including the knowledge and skills necessary to prevent it as well as the tools used to minimize its impact. Relevant examples of cyber warfare will be examined. An emphasis on designing an effective Security Operations Center.
Prerequisite: CTS 2318. Offered: SP.
### CNT 3421 - Securing the Cloud (3 cc)
An analysis of cloud computing from a business and technical perspective. Includes the process of moving to the cloud and governing the cloud. This course will prepare the student for the CompTIA Cloud+ certification exam (CVO-001).
Prerequisite: CIS 1350C. Offered: FA.

### CNT 3524 – Mobile Security (3 cc)
Issues relating to information security for mobile devices in today's society are covered. Topics include mobile risk model, cellular network security, jailbreak and rooting, information leakage, mobile malware, mobile device management, and mobile application threat modeling.
Prerequisite: CET 2026C. Offered: FA.

### COM - COMMUNICATION

#### COM 2100 - Business Communications (3 cc)
Business Communications is a comprehensive course designed to improve skills in all aspects of organizational communication. Systems, practices, and media will be included as will some aspects of the behavioral sciences. Emphasis is on composing and arranging effective written communications.
Prerequisite: ENC 1101C. Offered: FA, SP, SU.

### COP - COMPUTER PROGRAMMING

#### COP 1000 - Introduction to Game Programming (3 cc)
Introduction to game programming and design with an emphasis on problem solving and programming techniques. Covers basic concepts of data representation and types, functions, program control structures, files, game graphics and audio.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: TBA. Notes: Lab Fee.

#### COP 1510 - Programming Concepts (3 cc)
Provides the beginning programmer with a guide to developing structured program logic and assumes no programming language experience. Programming concepts, design solutions, algorithms, pseudocode, flow charts, debugging, and documentation using a high-level language will be emphasized. Successful completion of this course enables a student to enroll in specific programming languages such as Java, C++, C#, Visual Basic.Net, etc.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education Elective, Mathematics.
Offered: FA, SP, SU. Notes: Lab Fee.

#### COP 1510 - Programming Concepts II (3 cc)
Continuation of Programming Concepts I. Course covers additional programming language features with an emphasis on program design, problem solving using procedural programming. Includes structured data, arrays, linked lists, (stacks, queues, and trees), binary files, sorting and searching.
Prerequisite: COP 1510 or COP 1000, MAC 1105. Offered: FA, SP, SU. Notes: Lab Fee.

#### COP 2526 - Mobile Application Programming (3 cc)
A mobile platform programming course that includes emphasis on basic programming logic, structured and object oriented programming, documentation, and utilization of the unique capabilities of mobile programming languages to create both applications and applets.
Prerequisite: COP 2511 or COP 2800. Offered: FA, SP.

#### COP 2650 - Mobile Application Programming (3 cc)
This is a course in Java Programming. It includes emphasis on basic programming logic, structured and object oriented programming, documentation, and utilization of the unique capabilities of Java to create both applications and applets.
Prerequisite: MAC 1105, COP 1510 or COP 1000. Offered: FA, SP, SU. Notes: Lab Fee.

#### COP 2842 - Programming in PHP (3 cc)
Introduces students to basic to intermediate programming aspects of the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create web pages using PHP scripting language features and MySQL database. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language. PHP can be used to create all types of dynamic web interfaces, and because of its open-source robustness, has become one of the most widely used programming languages for the Internet.
Prerequisite: CGS 2820, CTS 2433 or permission of instructor. Offered: FA, SP. Notes: Lab Fee.

#### COP 2911 - Special Topics in Computer Programming (1 cc)
A course designed to allow flexibility to present a wide variety of topics related to programming applications and languages.
Prerequisite: COP 1000 or COP 1510 or permission of instructor. Offered: TBA. Notes: Lab Fee.
COS 0010L - Cosmetology I Lab (150 ch)
Application and technical skills as applied to proper draping, handling of shears (scissors), thinning shears, razors, combs, brushes, clips, clippers, shampooing, conditioning, scalp manipulations, up-do hair arranging, braiding, wet setting, blow dry styling, hair cutting, clipper cutting, creating styles to suit client’s facial structures, client consultations. Relaxer, rodding of permanent wave.
Corequisite: COS 0010. Offered: FA, SP, SU. Notes: Lab Fee.

COS 0088L - Cosmetology II Lab (300 ch)
Focus on theoretical principals in product costs, knowledge of waste, and setting service charges, application, proper mixing techniques and correct product selection for permanent waving and in-depth study of color theory and chemistry in permanent color, semi-permanent color, temporary color, decolorizing products, high-lift colors and toners. Hair extensions and the making of wigs. Continued development of professional portfolio, resume development and job interview skills.
Prerequisite: Grade of C or better in COS 0010, COS 0010L. Corequisite: COS 0088L. Offered: FA, SP, SU.

COS 0088L - Cosmetology II Lab (150 ch)
Focus on theoretical principals in product costs, knowledge of waste, and setting service charges, application, proper mixing techniques and correct product selection for permanent waving and in-depth study of color theory and chemistry in permanent color, semi-permanent color, temporary color, decolorizing products, high-lift colors and toners. Hair extensions and the making of wigs. Continued development of professional portfolio, resume development and job interview skills.
Prerequisite: Grade of C or better in COS 0010, COS 0010L. Corequisite: COS 0088L. Offered: FA, SP, SU.

COS 0090 - Cosmetology III (60 ch)
Focus is on the business side of cosmetology. Students will research and develop business and marketing components to be implemented in a mock salon presentation as they apply previous knowledge to salon ownership including sales, management, budgets, advertising, public relations, staff development, community awareness and involvement. Additionally, students will be presented with written mock State Board testing and applicable remediation in preparation for the Florida State Board Exam. Complete portfolio and resume for professional review.
Prerequisite: Grade of C or better in COS 0088, COS 0088L. Corequisite: COS 0090L. Offered: FA, SP, SU.

COS 0089L - Cosmetology III Lab (240 ch)
Students develop advanced techniques in wigs, hair extensions, both glued and sewn in, advanced color and foil placements, specialty perm wraps, and continued practice of all previously learned concepts with attention to detail, quality, and timeliness. Students will be required to take a mock practical exam and complete applicable remediation in preparation for the Florida State Board exam.
Prerequisite: Grade of C or better in COS 0088, COS 0088L. Corequisite: COS 0089L. Offered: FA, SP, SU. Notes: Lab fee.
COS 0421C - Barbering I (240 ch)
Provides students with beginning theoretical and practical procedures of barbering. The basic topics and tasks to be performed are: History of Barbecueing; Professional Image and Ethics; Bacteriology; Sterilization and Sanitation; Safe and Efficient Work Practices; and Implements, Tools, And Equipment. In addition, skin, scalp, and hair structure; disorders and treatments of hair and skin; and manipulations and facial treatments will be addressed in this course. The student will also be instructed in draping, shampooing/rinsing men’s hair, haircutting and hairstyling, shaving, beard and mustache trims, women’s haircutting and hairstyling.
Offered: FA, SP, SU. Notes: Lab Fee.

COS 0422C - Barbering II (240 ch)
Provides students with the beginning theoretical and practical procedures of barbering. The basic topics and tasks to be introduced are non-chemical and chemical hair processing in permanent waving and finish work as the students expand their skill base in both men and women’s hair design techniques. This course provides students with a continuation of proper barbering techniques as assigned in the supervised clinical classroom. All services will be monitored with individualized instruction and approved by the clinic instructor. In addition, hair piece and wig fitting and care will be covered along with thinning hair care.
Prerequisite: Grade of C or better in COS 0421C. Offered: FA, SP, SU. Notes: Lab Fee.

COS 0423C - Barbering III (240 ch)
Provides students with additional theoretical and practical procedures of barbering. This course provides students with a continuation of proper barbering techniques as assigned in the supervised classroom. In addition, hair piece and wig fitting and care will be covered along with thinning hair care.
Prerequisite: Grade of C or better in COS 0422C. Offered: FA, SP, SU. Notes: Lab Fee.

COS 0424C - Barbering IV (240 ch)
Provides students with a continuation of proper barbering techniques as assigned in the supervised clinical classroom. All services will be monitored with individualized instruction and approved by the clinic instructor.
Prerequisite: Grade of C or better in COS 0423C. Offered: FA, SP, SU. Notes: Lab Fee.

COS 0425L - Barbering V (210 ch)
Provides students with a continuation of proper barbering techniques as assigned in the supervised clinical classroom. All services will be monitored with individualized instruction and approved by the clinic instructor.
Prerequisite: Grade of C or better in COS 0424C. Offered: FA, SP, SU.

COS 0920 - Barbering-State Board Preparation (30 ch)
Reviews pertinent areas in Barbering in order to prepare the student for the State Board examination for licensure. This review course focuses on and highlights the learning materials for both theory and practical examinations questions and provides the student with a practice in evaluating and answering State Board situational problems. This course is designed to review pertinent areas in Barbering in order to prepare the student for the State Board examination for licensure. This review course focuses on and highlights the learning materials for both theory and practical examinations questions and provides the student with a practice in evaluating and answering State Board situational problems.
Prerequisite: Grade of C or better in COS 0424C or permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

COS 0941 - Internship (30 ch)
Provides students with practical applications in a clinical setting either demonstrating manual proficiency of the principles of cosmetology/barbering or in the workforce setting to observe styling techniques, procedures, and salon operations in industry. This course is offered at the junior/senior cosmetology/barbering level and is designed to strengthen specific skill development to prepare the student for the Florida Board of Cosmetology/Barbering Examination.
Offered: FA, SP, SU.

COS 0942 - Internship (60 ch)
Provides students with practical applications in a clinical setting either demonstrating manual proficiency of the principles of cosmetology/barbering or in the workforce setting to observe styling techniques, procedures, and salon operations in industry. This course is offered at the junior/senior cosmetology/barbering level and is designed to strengthen specific skill development to prepare the student for the Florida Board of Cosmetology/Barbering Examination.
Offered: FA, SP, SU.

COS 0943 - Internship (90 ch)
Provides students with practical applications in a clinical setting either demonstrating manual proficiency of the principles of cosmetology/barbering or in the workforce setting to observe styling techniques, procedures, and salon operations in industry. This course is offered at the junior/senior cosmetology/barbering level and is designed to strengthen specific skill development to prepare the student for the Florida Board of Cosmetology/Barbering Examination.
Offered: FA, SP, SU.

CRW - CREATIVE WRITING

CRW 2100 - Creative Writing: Fiction (3 cc)
Designed to aid the student in the clear, effective expression of ideas with emphasis upon imaginative work in prose. Group discussions of students’ papers and selected literary works. Elective only.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA.

CRW 2300 - Creative Writing: Poetry (3 cc)
A course designed to aid the student in the clear, effective expression of ideas with emphasis upon imaginative work in poetry. Group discussions of students’ papers and selected literary works. Elective only.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: SP.

CSP - COSMETOLOGY-SPECIALIZED

CSP 0005 - Introduction to Facials (30 ch)
Introduces the student the history of skin care, professionalism, sanitation, and disinfection.
Prerequisite: Permission of Instructor. Offered: FA. Notes: Lab Fee.

CSP 0015C - Nail Technology (240 ch)
This course provides the manicure, pedicure, nail specialist with techniques and practice in nail care.
Offered: FA, SP, SU. Notes: Lab Fee.
COURSES

CSP 0031 - Anatomy & Physiology for Facial Specialty (30 ch)
Overview of the structure and function of the human body systems to provide foundational knowledge for the theory and practice of facial specialty. Includes pathology, contraindications, and anatomical relationships. Prepare the individual with the opportunity to learn the skills and techniques of esthetics, information, related technology and correct terminology necessary to become employed in the field of esthetics.
Prerequisite: Permission of instructor. Offered: FA. Notes: Lab Fee.

CSP 0105C - Advanced Skin Care I (150 ch)
Designed for registered Facials/Skin Care Specialists who wish to gain additional knowledge in the field of esthetics. The course will emphasize advanced esthetics terminology, procedures, and equipment including contraindications and indications. It will include an overview of the medi-spa industry, which is a multibillion-dollar industry that works with specialized doctors who perform surgical procedures and techniques to improve client’s skin with specific cosmetic procedures. There will be a strong emphasis on universal precautions and safety practices in the techniques of advanced esthetics.
Prerequisite: Permission of instructor. Offered: FA. Notes: Lab Fee.

CSP 0106C - Advanced Skin Care II (150 ch)
Re-enforces and expands the foundation of esthetics by giving the Facial/Skin Care Specialist a more comprehensive understanding of the functions of the skin, the skin layers, and the anatomy of the face in order to improve treatment of clients who are in need of advanced treatment protocols and services. This will emphasize advanced working knowledge of various skin treatments such as mask and skin therapy as well as advanced chemical peels such as glycolic and salicylic as well as herbal designed peels. Students will investigate product chemistry and product ingredients and their impact on the skin. Also included are aromatherapy, collagen stimulates, and the cellular improvement of the skin. This course is also designed to include advanced working knowledge of microdermabrasion and treatment protocols to enhance the skill level.
Prerequisite: CSP 0105C. Offered: SP. Notes: Lab Fee.

CSP 0201 - Introduction to Skin Care (30 ch)
Provides instruction in safety, rules, and procedures for the classroom and laboratory setting. In addition it will provide competencies in facials and facial manipulations, procedures and techniques.
Offered: FA. Notes: Lab Fee.

CSP 0263 - Facial Specialty Services (60 ch)
Teaches the student theory and practical procedures for hair removal, massage, and use of facial machines.
Prerequisite: Permission of the instructor. Offered: FA. Notes: Lab Fee.

CSP 0264C - Facial Treatments (150 ch)
Offers hands on step by step training to implement specific treatment protocols which are designed to reinforce implementation of advanced techniques involving facial treatments without the use of machines and treatment protocols for all skin types. These skin types include normal, dry, oily, mature and aging skin, combination skin, multi-culture skin and well as acne issues.
Prerequisite: Permission of instructor. Offered: FA. Notes: Lab Fee.

CSP 0301L - Facials/Make-up Clinic (90 ch)
Provides supervised clinical instruction in the hands-on application of facials and make-up utilizing consultation, anatomy and physiology, salon management and proper sanitation.
Corequisite: CSP 0331. Offered: FA.

CSP 0331 - Make-up/Salon Management (30 ch)
Provides instruction in proper make-up application and encompassing color analysis, facial balance and corrective make-up. This course also focuses on the successful role of the esthetician in the cosmetology or specialty salon.
Offered: FA. Notes: Lab Fee.

CSP 0370 - Professional Practices in Esthetics (30 ch)
The capstone course of the program which ties together the professional principles of the esthetician profession. Students will prepare for the final program examination, emphasizing statutory requirements of the profession.
Prerequisite: Permission of instructor. Offered: FA.

CSP 0505 - Ethical Business Practices (30 ch)
Provides instruction in good business practices and an opportunity to become familiar with competencies involved in running a business or department. Students will be exposed to an overview of competencies in business skill management and record keeping.
Prerequisite: Permission of instructor. Offered: SP. Notes: Lab Fee.

CSP 0931 - Specialty Topics (60 ch)
Introduces students to specialty topics in a variety of areas. Examples might be Light Emitting Diodes (LED) Light therapies, Laser Lights, Lymphatic Drainage Techniques, spa applications, permanent makeup applications, and electrolysis with an introduction to advanced make-up artistry. Students will have clinical opportunities to learn new skills.
Prerequisite: Permission of instructor. Offered: SP. Notes: Lab Fee.

CSP 0941L - Internship (60 ch)
Students will be placed in area businesses which will supply the students with additional professional experience and knowledge in the field of interest: medi-spas, dermatology, or plastic surgery. This course is also designed to impart working knowledge and employability skills for the advanced esthetics industry.
Prerequisite: Permission of instructor. Offered: SP. Notes: Lab Fee.

CTS - COMPUTER TECHNOLOGY AND SKILLS

CTS 1131C - I.T. Essentials (3 cc)
The IT Essentials: PC Hardware and Software curriculum provides an introduction to the computer hardware and software skills needed to help meet the growing demand for entry-level information and communication technology (ICT) professionals. The curriculum covers the fundamentals of PC technology, networking, and security, and also provides an introduction to advanced concepts. Students who complete this course will be able to describe the internal components of a computer, assemble a computer system, install an operating system, and troubleshoot using system tools and diagnostic software. Hands-on labs and Virtual Laptop and Virtual Desktop learning tools help students develop critical thinking and complex problem-solving skills. Cisco Packet Tracer simulation based learning activities promote the exploration of network and networking security concepts and allow students to experiment with network behavior.
Prerequisite: CGS 1060C or the permission of instructor. Offered: TBA. Notes: AS only.

CTS 1155 - Help Desk Technician (3 cc)
This course is a study of the computer user support field and provides the skills, knowledge, and abilities needed to work at a computer Help Desk. The student will utilize knowledge from other courses in the diagnosis and solution of computer problems.
Prerequisite: CET 1178C and CET 1179C or CET 1112C or CTS 2318. Offered: TBA. Notes: AS only. Lab Fee.
CTS 1390C - Administering Microsoft Windows Workstation (3 cc)
Provides students with the knowledge and skills necessary to install, configure, customize, and troubleshoot Windows operating systems in work group and domain networks. In addition, this course gives you the background to understand Microsoft courses that cover detailed technical support of Windows operating systems.
Prerequisite: CET 1020C or CET 1588C. Offered: FA. Notes: AS only. Lab Fee.

CTS 1334 - Administering Microsoft Windows Server (3 cc)
This course provides students with the knowledge and skills necessary to perform post-installation and day-to-day administrative tasks of Windows Server in single-domain networks. In addition, students learn how to integrate Windows 2003 and Novell Netware networks.
Prerequisite: CTS 1300C. Offered: FA, SP. Notes: AS only. Lab Fee.

CTS 1390C - Install & Configure Windows Server 2012 (3 cc)
Provides students with the conceptual knowledge and hands-on skills necessary to install and configure Windows servers, configure server roles and features, configure Hyper-V®, deploy and configure core network services, install and administer Active Directory®, and create and manage Group Policy. This course prepares the student for the Microsoft® MCSA certification exam 70-410.
Prerequisite: CGS1061C. Offered: TBA. Notes: Lab fee.

CTS 2104 - Windows (3 cc)
This course is designed to cover Windows, starting with an overview to the basic interface and leading into advanced topics.
Prerequisite: CGS 1570. Offered: FA, SP, SU. Notes: Lab Fee.

CTS 2106C - Linux+ (3 cc)
Provides students with the conceptual knowledge and hands-on skills necessary to work with the Linux operating systems in a network administration environment. Comprehensive cover will include updated information pertinent to the latest Linux distributions, as well as new storage technologies such as LVM and ext4.
Prerequisite: GGS 1061C or CGS 1570C. Offered: FA,SP. Notes: Lab fee.

CTS 2120C - Security + (3 cc)
Serves the needs of individuals interested in understanding the field of network-security and how the field relates to other areas of Information Technology. The material in this course will provide the broad-based knowledge necessary to prepare students for further study in specialized security fields or may be used as a course for those interested in a general introduction to field network security. This course will also serve the needs of individuals seeking to pass the CompTIA Security + certification exam.
Prerequisite: CIS 1350, CET 1588C, or CET 1610C. Offered: FA, SP, SU. Notes: Lab Fee.

CTS 2125C - Hardening the Network Infrastructure (3 cc)
Covers the ongoing process of insuring that a network is protected from threats that would compromise the integrity of its operation.
Prerequisite: CET 2620C, CTS 2120C. Offered: FA. Notes: AS only. Lab Fee.

CTS 2145C - Cloud Essential (3 cc)
Prepares the student to demonstrate knowledge of what cloud computing means from a business and technical perspective, as well as what is involved in moving to and governing the cloud. This course prepares the student for the CompTIA Cloud Essentials specialty certification (Exam CLO-001).
Prerequisite: CGS 1060C, CIS 1350, CTS 1300C, CET1588C or CET 1610C. Offered: TBA. Notes: Lab fee.

CTS 2149 - Fundamentals of Project Management (3 cc)
Provides an introduction to the project management body of knowledge. It focuses on the nine knowledge areas of project management outlined by the Project Management Institute.
Offered: FA, SP, SU. Notes: AS only.

CTS 2302 - Administering Active Directory (3 cc)
This course provides students with the knowledge and skills necessary to install, configure, and troubleshoot the Windows 2003 Active Directory components, DNS for Active Directory, and Active Directory security solutions. In addition, the course will develop the skills required to manage, monitor, and optimize the desktop environment by using Group Policy.
Prerequisite: CTS 2304. Offered: FA, SP. Notes: AS only. Lab Fee.

CTS 2303 - Designing Directory Services (3 cc)
This course provides students with the knowledge and skills necessary to analyze the business requirements and design directory services architecture.
Prerequisite: CTS 2302. Offered: FA, SP. Notes: AS only. Lab Fee.

CTS 2304 - Administering Network Infrastructure (3 cc)
This course provides students with the knowledge and skills necessary to install, manage, monitor, configure, and troubleshoot DNS, DHCP, Remote Access, Network Protocols, IP Routing, and WINS in a Windows 2003 Network infrastructure. In addition, the course will develop the skills required to manage, monitor, and troubleshoot Network Address Translation and Certificate Services.
Prerequisite: CTS 1334. Offered: FA, SP. Notes: AS only. Lab Fee.

CTS 2310 - Microsoft Windows Security (3 cc)
This course trains students to implement, manage, maintain, and troubleshoot security in a Windows Server 2003 network infrastructure and also plan and configure a Windows Server 2003 Public Key Infrastructure (PKI). Prepares students for Exam 70-299: Implementing and Administering Security in a Microsoft Windows Server 2003 Network.
Prerequisite: CTS 2304. Offered: FA, SP. Notes: AS only. Lab Fee.

CTS 2318 - Information Security Management (3 cc)
Covers processes and technical solutions that implement the information security governance framework, focuses on the tasks necessary for the information security manager to effectively manage information security within an organization, and provides a description of various techniques the information security manager can use. This course also covers steps and solutions for responding to an incident. This course loosely follows the ISACA CISM certification.
Prerequisite: CTS 2120C. Offered: SP. Notes: AS only.
CTS 2330 - Microsoft Exchange Server (3 cc)
This course offers students an extensive introduction to the knowledge and skills necessary to install, configure, administer, and troubleshoot information systems that incorporate Microsoft Exchange Server 2003. Prepares students for Exam 70-224: Installing, Configuring, and Administering Microsoft Exchange 2003 Server.
Prerequisite: CTS 2303. Offered: FA, SP. Notes: AS only. Lab Fee.

CTS 2391C - Manage and Administer Windows Server 2012 (3 cc)
Provides students with the conceptual knowledge and hands-on skills necessary to deploy, management, and maintain Windows 2012 servers; configure file and print services; configure network services and access; and configure a Network Policy Server (NPS) infrastructure; configure and manage Active Directory® and Group Policy. This course prepares the student for the Microsoft® MCSA certification exam 70-411.
Prerequisite: CGSi061C. Offered: TBA. Notes: Lab fee.

CTS 2392C - Windows Server Pro: Advanced Services (3 cc)
Advanced configuration of services necessary to deploy, manage, and maintain a Windows Server 2012 infrastructure, includes advanced networking services, Active Directory Domain Services (AD DS), Active Directory Rights Management Services (AD RMS), Active Directory Federation Services (AD FS), Network Load Balancing, Failover Clustering, business continuity and disaster recovery services as well as access and information provisioning and protection technologies such as Dynamic Access Control (DAC), and Web Application Proxy integration with AD FS and Workplace Join. This course prepares the student for the Microsoft® MCSA certification exam 70-412.
Prerequisite: CGSi061C. Offered: TBA. Notes: Lab fee.

CTS 2423 - ASP .NET Web Application Development (3 cc)
Reviews concepts and skills needed to build professional web applications using C# with ASP .NET. The course will begin by developing simple multi-page web applications and will build on this with important concepts including: using validation controls, URL encoding, securing a web site, using e-mail, error pages, and back-button control. The course will also cover WCF and Web API services and the MVC design pattern.
Prerequisite: COP1510. Offered: TBA. Notes: Lab fee.

CTS 2433 - Database Development and Management (3 cc)
This course covers database development and management using current database systems with emphasis on SQL.
Prerequisite: CGS 1570. Offered: TBA. Notes: Lab Fee.

CTS 2440 - Introduction to Oracle SQL (3 cc)
This course provides students with an introduction to database technology using the Oracle 9i database. The course covers relational database concepts. A strong SQL focus is emphasized. The student will be introduced to DDL, DML, and DCL statements. The course prepares students for the Oracle Database Administrator exams.
Prerequisite: COP 1510 or COP 2224. Offered: FA, SP. Notes: Lab Fee.

CTS 2441 - Oracle Database Administration (3 cc)
This course provides the basic knowledge required to perform database administration tasks. The course prepares students for the most commonly used administration tasks. These tasks include managing user accounts, managing database instances and managing all database resources. The course prepares students for the Oracle Database Administrator exams.
Prerequisite: CTS 2440. Offered: FA, SP. Notes: Lab Fee.

DAA - DANCE, EMPHASIS ON ACTIVITY

DAA 1100 - Beginning Modern Dance (1 cc)
Introduces the student to the principles of modern dance technique. The emphasis is on correct placement and body alignment, strength and flexibility, movement vocabulary, rhythmic and creative skills.
Offered: FA, SP.

DAA 1200 - Fundamentals of Ballet (1 cc)
A beginning level ballet technique class that focuses on the fundamentals of classical ballet and is designed to strengthen and develop technique at a beginning level through Barre and Centre practice. The emphasis is on correct body placement and alignment, strength and flexibility, vocabulary, musicality and movement quality.
Offered: FA, SP.

DAA 1500C - Jazz Dance (1 cc)
Introduces the student to the principles of jazz dance technique. The emphasis is on correct placement and body alignment, strength and flexibility, vocabulary, musicality and rhythmic skills.
Offered: TBA.

DAA 2920 - Dance Techniques Workshop (1 cc)
This Summer dance workshop includes techniques in ballet, jazz, modern and tap dance and seminars for dancers. May be repeated once for credit.
Prerequisite: Permission of instructor. Offered: SU.

DAN - DANCE

DAN 2100 - Dance Appreciation (3 cc)
An introduction to the history and culture of dance as an art form. Explores various dance elements, forms, and styles from ancient and world dance to ballet, modern, jazz, theatre, and social dance. Includes lectures, video presentations, demonstrations, and discussion.
Prerequisite: Grade of C or better in ENC 1101C. Distribution: General Education, Humanities. A writing emphasis course.
Offered: TBA.

DEH - DENTAL HYGIENE

DEH 1002 - Fundamentals of Dental Hygiene (3 cc)
A lecture series introducing students to basic principles, procedures and skills required to provide comprehensive preventive dental health services for patients. Topics include infection control, instrument design and utilization, gingival characteristics, tooth deposits, medical history analysis, oral inspection, patient education, polishing with handpieces and fluorides.
Prerequisite: DES 1000. Corequisite: DEH 1002L. Offered: FA. Notes: AS only.
DEH 1002L - Dental Hygiene Pre-Clinic (3 cc)
A clinical practice course designed for the clinical application of principles and concepts developed in DEH 1002. Students master basic instrumentation skills through practice on mannequin models prior to performing preventive dental hygiene services for clinical patients.
Corequisite: DEH 1002. Offered: FA. Notes: AS only. Lab Fee.

DEH 1400 - Oral Pathology (2 cc)
A study of general and oral pathological diseases with emphasis on those related to the oral cavity. Students will apply pathological principles to the clinical practice of dental hygiene. Recognition of normal and abnormal conditions of the oral cavity and surrounding tissues will be cultivated through case presentations and slide series.
Prerequisite: DES 1000. Offered: SP. Notes: AS only.

DEH 1720 - Preventive Dentistry (2 cc)
Assists students in prescribing oral hygiene regimens based on the uniqueness of each patient presented. Emphasis will be placed on current disease control techniques and auxiliary plaque control measures with special concern given to products available on the market for dental care. Dental appliances care, fluoride therapy and development of preventive programs for the dental office will be included.
Prerequisite: DES 1000. Offered: FA. Notes: AS only.

DEH 1800 - Dental Hygiene I (2 cc)
A continuation of DEH 1002 with an emphasis on health promotion and preventive oral hygiene techniques and procedures.
Topics include instrument sharpening, medical and dental emergencies, patient management, communication, and motivation, abuse and neglect, disease prevention strategies, dental hygiene care planning, dental charting, patient anxiety control and an introduction to patient assessment and case building, cultural diversity in patient care, oral malodor, and introduction to ultrasonics.
Prerequisite: DEH 1002. Corequisite: DEH 1800L. Offered: SP. Notes: AS only.

DEH 1801L - Dental Hygiene Clinic I (4 cc)
Teaches initial application of dental hygiene services by providing comprehensive preventive oral health services using the dental hygiene process of care. Skills include patient assessment, treatment planning, education, instrumentation, and proper documentation for patients with mild to moderate periodontal disease.
Corequisite: DEH 1800. Offered: SP. Notes: AS only. Lab Fee.

DEH 1802 - Dental Hygiene II (1 cc)
Didactic instruction will be presented focusing on further knowledge in the application of dental hygiene procedures. This includes information on treatment planning, periodontal charting, ultrasonic scaling, air polishing and comprehensive dental hygiene care.
Prerequisite: DEH 1800. Corequisite: DEH 1802L. Offered: SU. Notes: AS only.

DEH 1802L - Dental Hygiene Clinic II (3 cc)
Topics include ultrasonic scaling, chemotherapeutics, and advanced instrumentation. This course will emphasize comprehensive treatment of patients with moderate to advanced periodontal disease.
Corequisite: DEH 1802. Offered: SU. Notes: AS only. Lab Fee.

DEH 2020 - Nutrition and Dental Health (2 cc)
Provides a study of nutrients, their nature, source, and utilization. Emphasis is placed on the relationship between diet and oral health. Oral manifestations of nutritional deficiencies are also studied.
Prerequisite: DEH 1800. Offered: SU. Notes: AS only.

DEH 2300 - Pharmacology/Dental Office Emergencies (2 cc)
A study of drugs and anesthetics used in dentistry with emphasis on therapeutic and adverse effects. Route of administration, absorption, metabolism and excretion of drugs will be studied as well. Management of dental office medical emergencies will be an important component of this course.
Prerequisite: DEH 1802. Offered: FA. Notes: AS only.

DEH 2602 - Periodontics (2 cc)
An intensive comprehensive study of chronic inflammatory periodontal disease. An analysis and correlation of etiology, immunology, clinical and radiographic diagnosis, treatment planning, prognosis and oral therapy are presented. A special emphasis is placed on the role of the dental hygienist in preventive oral therapy. Clinical experiences are coordinated with DEH 1800. Periodontal procedures included in this study are within the legal scope of practice of the dental hygienist.
Prerequisite: DEH 1130, MCB 1000, MCB 1000L or DEH 1130, MCB 2010, MCB 2010L. Offered: FA. Notes: AS only.

DEH 2702 - Dental Public Health (2 cc)
This course teaches the application of basic statistical concepts, program development, implementation, research, and evaluation. The student will apply the principles of public and community dental health as they relate to the role of the dental hygienist, through project implementation and evaluation.
Prerequisite: DEH 1802. Offered: FA. Notes: AS only.

DEH 2702L - Dental Public Health Lab (1 cc)
This course teaches the application of basic statistical concepts, program development, implementation, research, and evaluation. The student will apply the principles of public and community dental health as they relate to the role of the dental hygienist, through project implementation and evaluation.
Prerequisite: DEH 2702. Offered: TBA. Notes: AS only.

DEH 2804 - Dental Hygiene III (2 cc)
A continuation of DEH 1802 progressing to the comprehensive dental hygiene services and treatment of medically compromised patients and patients with special needs.
Prerequisite: DEH 1802. Corequisite: DEH 2804L. Offered: FA. Notes: AS only.
DEH 2804L - Dental Hygiene Clinic III (5 cc)
Teaches the application of dental hygiene services through an evidenced based approach to rendering comprehensive preventive oral health services, using the dental hygiene process of care. Special emphasis on patients with special needs.
Corequisite: DEH 2804. Offered: FA. Notes: AS only. Lab Fee.

DEH 2806 - Dental Hygiene IV (2 cc)
This course is a forum for discussion of treatment planning considerations as the student progresses in the curriculum which allows for the integration of theoretical knowledge and clinical treatment. Topics include self and peer assessment, quality assurance, and medical errors.
Prerequisite: DEH 2804L. Corequisite: DEH 2806L. Offered: TBA. Notes: AS only.

DEH 2806L - Dental Hygiene Clinic IV (5 cc)
Teaches the application of dental hygiene services that are evidenced based, in rendering comprehensive preventive oral health services, using the dental hygiene process of care, focusing on the proficiency of care.
Prerequisite: DEH 2804L. Corequisite: DEH2806. Offered: SP.

DEH 2902 - Special Topics in Dental Hygiene (1 cc)
This course is designed to enhance and supplement the student’s basic dental hygiene knowledge and skills. The course may provide comprehensive and individualized instruction in clinical patient care and/or provide dental hygiene review in preparation for dental hygiene board examinations.
Offered: TBA.

DEH 2903 - Special Topics in Dental Hygiene (2 cc)
This course is designed to enhance and supplement the student’s basic dental hygiene knowledge and skills. The course may provide comprehensive and individualized instruction in clinical patient care and/or provide dental hygiene review in preparation for dental hygiene board examinations.
Offered: TBA.

DEH 2904 - Special Topics in Dental Hygiene (3 cc)
This course is designed to enhance and supplement the student’s basic dental hygiene knowledge and skills. The course may provide comprehensive and individualized instruction in clinical patient care and/or provide dental hygiene review in preparation for dental hygiene board examinations.
Offered: TBA.

DEP 2001 - Child Development (3 cc)
Focuses on the physical, cognitive, emotional and social theories of how children grow and develop. This course examines the role of adults in promoting optimum development of children and is of special interest to parents, educators, nurses, social workers and counselors. This course fulfills a portion of the required 120 hours of training for the Florida Child Care Professional Credential (FCCPC) and includes 10 clock hours of observations.
Offered: FA, SP, SU.

DEP 2004 - Human Growth and Development (3 cc)
Designed to provide the foundation for understanding the life cycle from birth to death. The approach throughout the course is multidisciplinary including biological, sociological, anthropological, and psychological perspectives with emphasis on basic psychological principles. Concepts are related to every day life situations and to current social issues.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Social Sciences. Offered: FA, SP, SU.

DES - DENTAL SUPPORT

DES 1000 - Dental Anatomy (2 cc)
This course will provide the student with comprehensive instruction in macroscopic anatomy of the human dentition. The teeth are studied individually and collectively in terms of shape, function and relation to each other. The course content will provide the student with essential dental terminology to facilitate communication among dental professionals. This course will also address the eruption patterns of both deciduous and permanent dentitions.
Prerequisite: Must be approved by dental hygiene program to enter this course. Offered: SU. Notes: AS only Lab Fee.

DES 1010 - Head and Neck Anatomy (2 cc)
A detailed study of the skeletal, muscular, circulatory and nervous systems of the head and neck. Special emphasis is placed on the structures associated with oral cavity. Teeth are studied in relationship to the structures that support them and are covered in more detail in DES 1020.
Prerequisite: DES 1000. Offered: FA. Notes: AS only.

DES 1051 - Nitrous Oxide Monitoring (1 cc)
A sixteen-hour certification course for dental auxiliaries in the legal monitoring of nitrous oxide conscious sedation.
Prerequisite: DES 1802. Offered: FA. Notes: AS only. Lab Fee.

DES 1051C - Pain Management (1 cc)
Provides the student with the required training and information to safely and effectively relieve pain and reduce anxiety in the dental patient. The course requires that the student apply knowledge from pharmacology, biochemistry, physiology and anatomy.
Prerequisite: DES 1800. Offered: SU. Notes: Lab fee.

DES 1100C - Dental Materials (3 cc)
A study of the basic chemical, physical and biological properties of the commonly used dental materials. Compositions and proper handling will be presented.
Prerequisite: DES 1800. Offered: SP. Notes: AS only. Lab Fee.

DES 1200C - Dental Hygiene Radiology I (3 cc)
This competency based course is structured as a method of study of the student to master, through interpretation and recognition, each module before advancing to the next module. Dental radiography is a clinical discipline encompassing the techniques of exposing, processing, mounting dental radiographs and includes interpretation of the films to aid in obtaining a diagnosis. Radiation safety is a crucial component of this study. The history and theory of the use of ionizing radiation as applied to dentistry will be presented.
Corequisite: DES 1010. Offered: FA. Notes: AS only. Lab Fee.
DES 2055C - Administration of Local Anesthetics by Dental Hygienists (3 cc)
This course provides the student with the required training and information to safely and effectively relieve pain and reduce anxiety in the dental patient. The course requires that the student apply knowledge from pharmacology, biochemistry, physiology and anatomy. The student should also realize that competency, and ultimately proficiency, in the administration of local anesthesia requires repeated administration and periodic self-re-education. This course is specifically designed to obtain certification for local anesthesia in the State of Florida.
Prerequisite: Current dental hygiene license, CPR, Malpractice Insurance. Offered: TBA. Notes: Lab fee.

ECO - ECONOMICS

ECO 2013 - Macroeconomics (3 cc)
A basic survey of economic principles, concepts and institutions. The course describes the basic mechanism of the American economic system, examines how well the system operates, shows how to develop economic measuring devices, and outlines potential policies to keep the economy operating effectively. It offers some consideration to the development of economic concepts that treat mainly macro theory.
Distribution: General Education Core, Social Sciences. Offered: FA, SP, SU.

ECO 2023 - Microeconomics (3 cc)
This course treats mainly micro theory. It gives much attention to model building and analysis of product and resource markets. The course especially emphasizes topics such as the economics of the firm under the four major market conditions, resources allocation, the monopoly problem and legislation associated there with, agriculture, unionism, international trade and finance, and the institutions of the command economy.
Offered: FA, SP, SU.

EDF-EDUCATION-FOUNDATIONS-AND-POLICY-STUDIES

EDF 2085 - Introduction to Diversity for Educators (3 cc)
Designed for the prospective educator, this course provides the opportunity to explore issues of diversity, including an understanding of the influence of exceptionalities, culture, family, gender, sexual orientation, socioeconomic status, religion, language of origin, ethnicity, and age upon the educational experience. Students will explore personal attitudes toward diversity and exceptionalities. Students will be provided information on the Florida Educator Accomplished Practices, Florida Standards, and the Professional Educator Competencies. A minimum of 15 hours of field-based experience working with diverse populations of children and youth in schools or similar settings is required. The field experience should not be via virtual modes of film or Internet.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA, SP.

EEC-EDUCATION-EARLY-CHILDHOOD

EEC 1100 - Introduction to Early Childhood (3 cc)
Covers the history, types and guidelines for pre-school educational programs: center based, family home child care, nursery, and after school programs. Students are required to complete 20 hours of observation /service learning experience in an early childhood setting and begin developing a professional portfolio. The course fulfills a portion of the 120 hours of training required for the Florida Child Care Professional Credential (FCCPC) or a National Child Development Associate (CDA) Credential. Offered: FA, SP, SU.

EEC 1312 - Creative Experiences for Young Children (3 cc)
Emphasizes the importance of creativity and play in the physical, cognitive, language, emotional and social development of young children. Students will create materials and activities for young children and understand how to adapt them to the developmental level of the child.
Offered: SP.

EEC 1601 - Observation and Assessment in Early Childhood (3 cc)
Emphasizes the importance of observing and recording the physical, intellectual, language, emotional and social development of young children and how to use the information in developing a quality environment for them. Different methods for documenting young children’s behaviors will be explored.
Offered: FA.

EEC 2401 - Home and Community (3 cc)
Students learn the importance of the relationship between the family, school and community. These relationships are crucial in providing appropriate experiences for young children. Specific attitudes, philosophies and practical techniques that all teachers need to build relationships with families will be emphasized.
Offered: FA.

EEC 2500 - Infant and Toddler Development (3 cc)
Early childhood professionals will expand their knowledge in the care and development of infants and toddlers, with special attention given to creating a developmentally appropriate environment. This course is required as part of the Infant/Toddler Specialization Technical Certificate.
Offered: SP.
EET 1324C - Communications Systems Technician (2 cc)
This course covers modulation and demodulation of television signals, transmission line fundamentals, radio-frequency wave propagation, microwave theory and devices as well as using a spectrum analyzer.
Prerequisite: EET 1324C. Offered: TBA. Notes: AS only. Lab Fee.

EET 1330C - Transmission Lines Service Technician (2 cc)
This course covers electronic theory as it pertains to broadband cable systems, coaxial connectors, radio frequency amplifiers, couplers and taps. It also includes the usage of broadband test equipment including time domain reflectometers.
Prerequisite: CGS 1061C. Offered: TBA. Notes: AS only. Lab Fee.

EET 1351C - Introduction to Data Communications Systems (3 cc)
This course serves as an introduction to computer data communications and networks. Included will be the introduction of communications concepts, media, protocols, principles of networking, and common standards. Emphasizes the ISO and OSI layered communications model.
Prerequisite: CET 2071. Offered: FA. Notes: AS only. Lab Fee.

EET 1371C - Telecommunications Fiber Testing and Maintenance (2 cc)
This course covers using fiber-optic test equipment to troubleshoot and maintain fiber-optic networks.
Prerequisite: CET 1632C. Offered: TBA. Notes: AS only. Lab Fee.

EET 1931 - Special Topics in Electronics Engineering Technology (1 cc)
This course is designed to allow flexibility for presenting a variety of topics relating to electronic engineering technology and applications. Some special topics may require laboratory assignments. The course may be repeated when the content varies.
Offered: TBA.

EET 1932 - Special Topics in Electronics Engineering Technology (2 cc)
This course is designed to allow flexibility for presenting a variety of topics relating to electronics engineering principles and applications. Some special topics may require laboratory assignments. The course may be repeated for credit when the content varies.
Offered: TBA.
EET 1933 - Special Topics in Electronics Engineering Technology (3 cc)
This course is designed to allow flexibility for presenting a variety of topics relating to electronics engineering principles and applications. Some special topics may require laboratory assignments. The course may be repeated for credit when the content varies.
Offered: FA, SP, SU.

EET 2084C - Introduction to Electronics (3 cc)
This is an introductory course in analog electronics specifically designed for students in technology other than electronics majors. The student will learn the theory and perform basic experiments in the following subject areas: basic electricity, direct current (DC) circuits, alternating current (AC) circuits, diodes and power supply circuits and transistors and Op-Amps.
Prerequisite: Test score requirement the same as MAT 1033C or permission of instructor. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

EET 2142C - Linear Circuits (3 cc)
This is a continuing study of the principles of semiconductors, special devices, and transistor applications in power supply circuits. AF and RF amplifiers, and oscillators. This will include operational amplifier circuits and special ICS. Power circuits will include switching and amplifying applications. Laboratory experiences are provided to use test instruments to measure and determine various operational characteristics of solid state devices and circuits.
Prerequisite: EET 1142C. Offered: SP. Notes: AS only. Lab Fee.

EET 2215C - Instrumentation Electronics (3 cc)
This course includes theory and application of electronics control circuits and systems used in electronics instrumentation. The function of interfacing devices, test instruments, and sensors which are used in instrumentation measurements is an integral part of this course.
Prerequisite: EET 1015C. Offered: SP. Notes: AS only. Lab Fee.

EET 2947 - Electronic Technology Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. A background check will be included.
Offered: FA, SP, SU. Notes: AS only.

EET 2949 - Electronic Technology Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. A background check will be included.
Offered: FA, SP, SU. Notes: AS only. Lab Fee.

EEX 1600 - Behavior Management (3 cc)
An introduction to a variety of approaches that can be effective in classroom situations with students exhibiting behavior problems. Decision making criteria to determine when, how, and why specific interventions that may be responsive of varying needs of students at all grade levels will be explored.
Offered: FA, SP.

EEX 2010 - Introduction to Exceptional Children (3 cc)
An introductory survey of the categories of exceptional (disabled) children and adults. Attention will be directed to each of the following: learning disabilities, behavior disorders, mental handicaps, visual and hearing impairments, communication disorders, and physical and multiple handicaps. Giftedness also will be covered. Course is designed for Education majors.
Offered: FA, SP, SU.

EEX 2949 - Instructional Services Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU.

EGN - ENGINEERING GENERAL

EGN 1123 - Engineering Graphics
An introductory course dealing with the fundamentals of engineering graphics and computer-aided drafting (CAD) using AutoCAD. This course covers the depiction of objects in a standard multiview drawing on a computer. One, two, three, auxiliary, and section views are used. Dimensioning is covered. Three-dimensional objects are created both in surface and solid models and then depicted in a standard multiview format including pictorial views. This course is the prerequisite for all the computer drafting courses.
Corequisite: CGS 1064C or CGS 1570 or departmental approval.
Offered: FA, SP, SU. Notes: AS only. Lab Fee.
EGN 2312 - Engineering Statics (3 cc)
Reduction of force systems, equilibrium of particles, and rigid bodies are covered as are vector methods. Includes application of these force systems to structures and mechanisms. Topics in dynamics and mechanics of materials are also covered. Prerequisite: MAC 2312, PHY 2048. Corequisite: MAC 2313, PHY 2049. Offered: FA. Notes: Pre-Engineering elective.

EGN 2322 - Engineering Dynamics (3 cc)
Includes dynamics of particles and rigid bodies for rectilinear translation, curvilinear motion, rotation and planar motion. Principles of work and energy, impulse, momentum, and mechanics of materials are also covered. This course is taught with calculus, vector analysis, and differential equations. Prerequisite: EGN 2312, MAC 2313. Corequisite: MAP 2302. Offered: SP. Notes: Pre-engineering elective.

EMERGENCY MEDICAL SERVICES

EMS 0000C - Public Safety Telecommunication (240 ch)
The purpose of this program is to prepare students for employment as public safety dispatcher, for police, fire, or EMS telecommunications. Offered: TBA. Notes: Lab Fee.

EMS 1119 - Emergency Medical Technician (7 cc)
Prepares the student with the necessary fundamental knowledge to be successful in meeting Emergency Medical Technician certification and licensing requirements. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician. There is emphasis on assessment based learning and complies with National DOT EMT curriculum. Prerequisite: Permission of instructor. Corequisite: EMS 1119L, EMS 1411L. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

EMS 1119L - EMT Lab (2 cc)
An integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician in the laboratory and simulated field environment. There is emphasis on assessment based learning and complies with National DOT EMT curriculum. Prerequisite: Permission of instructor. Corequisite: EMS 1411L, EMS 1119. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

EMS 1335C - Emergency Vehicle Operator Course (1 cc)
Provides certification in Emergency Vehicle Operations. This course meets State requirements to operate ambulances in the State of Florida. Students must have a valid driver's license to attend this class. Prerequisite: EMS 1119 and valid driver's license. Offered: FA, SP.

EMS 1411L - EMT Clinical Internship (2 cc)
An integrated experience that is designed to allow the student to apply practical experience to material learned in Emergency Medical Technician and EMT Lab. Students will learn how to assess, treat and transport the sick and injured at the level of the Emergency Medical Technician to transport the sick and injured at the level of the Emergency Medical Technician in area hospitals and advanced life support EMS ambulances. There is emphasis on assessment based learning and complies with National DOT EMT curriculum. Prerequisite: Permission of instructor. Corequisite: EMS 1911, EMS 1911L. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

EMS 1612 - Cardiovascular Emergencies (2 cc)
Focuses upon cardiovascular anatomy and physiology, electrocardiographic monitoring, dysrhythmias, assessment and management of the cardiovascular patient and12-lead ECG monitoring. Prerequisite: EMT certification, CPR for Health Care Providers. Corequisite: EMS 2232L. Offered: SP. Notes: AS only.

EMS 1601 - Introduction to Advanced Prehospital Care (1 cc)
This course focuses upon Paramedic roles and responsibilities, wellness in EMS, primary injury prevention, medical/legal considerations, emergency medical services ethics, EMS communication systems, and proper patient documentation. Prerequisite: EMT certification, CPR for Health Care Providers. Offered: FA. Notes: AS only.

EMS 1654L - Paramedic Field/Clinical Experience I (3 cc)
This course focuses upon orientation, clinical and field experience provided in area hospitals and EMS agencies under supervision. Students begin their ambulance time in an observational capacity and valid driver's license. Offered: FA. Notes: AS only. Lab Fee.

EMS 1683 - Fundamentals of Advanced Prehospital Care (1 cc)
This course focuses on general concepts of pharmacology, administration of medications, venous circulation, effective therapeutic communication, and communication strategies. Prerequisite: Entry into Paramedic Program. Corequisite: EMS 2232L. Offered: FA. Notes: AS only.
EMS 1931C - Special Topics in Emergency Medicine (1 cc)
This course is designed to enhance the student’s basic patient assessment skills in the medical/trauma environment. Current changes and updates in Emergency Medicine will be incorporated into the course as they occur. The course will build on information acquired in EMS 1151 and EMS 1152C. After successful completion, the student will meet the requirements for HIV/AIDS update and State of Florida EMS requirements for recertification.
Prerequisite: EMS 1152C. Offered: TBA. Notes: AS only. Lab Fee.

EMS 2232L - Paramedic Lab I (3 cc)
Focuses upon general patient assessment and initial management of patients. It will also cover respiratory emergencies and airway management problems today’s field paramedic will be faced with.
Corequisite: EMS 2613, EMS 2614. Offered: FA. Notes: Lab Fee.

EMS 2232L - Paramedic Lab II (2 cc)
Focuses upon general patient assessment and initial management of patients with various cardiovascular emergencies. It will also provide a foundation of apply pharmacological skills.
Corequisite: EMS 1683, EMS 1612. Offered: SP. Notes: Lab Fee.

EMS 2236L - Paramedic Lab III (3 cc)
Provides an opportunity for practical application of didactic material and the development of the psychomotor skills and tasks associated with this material, to include medicinal dosages and interventions and rhythm recognition and treatment involved in cardiovascular emergencies.
Corequisite: EMS 2682, EMS 2628. Offered: SU. Notes: Lab Fee.

EMS 2460L – EMS Field Leadership (1 cc)
Students will learn advanced assessment and treatment techniques for sentinel medical and trauma cases that span the geriatric, adult, and pediatric age ranges. Special emphasis will be placed on the role of the Paramedic as the leader and coordinator of pre-hospital emergency care. This course will assist students in the successful transition of assuming their leadership role upon graduation.
Prerequisite: Permission required. Corequisite: EMS 2656. Offered: FA. Notes: AS only. Lab Fee.

EMS 2613 - Patient Assessment (1 cc)
This course focuses upon general patient assessment and initial management, techniques of patient assessment, and application of a process of clinical decision making.
Prerequisite: EMT certification, CPR for Health Care Providers. Corequisite: EMS 2232L. Offered: FA. Notes: AS only.

EMS 2614 - Airway Management and Respiratory Emergencies (3 cc)
Focuses upon a review of respiratory anatomy and physiology, pathophysiology, assessment of the respiratory system, diagnostic testing, and management of specific respiratory disorders, establishing and maintaining a patent airway and ventilation, including anatomy, physiology and pathophysiology of the airway, use of equipment for assessment and treatment, and the use of airway adjuncts.
Corequisite: EMS 2232L. Offered: FA.

EMS 2627 - Medical Emergencies (4 cc)
This course focuses upon teaching the paramedic student how to integrate pathophysiologial and assessment findings to formulate a field impression and implement the treatment plan for the patient with a medical emergency.
Prerequisite: EMT certification, CPR for Health Care Providers. Offered: SP. Notes: AS only.

EMS 2628 - OB/GYN/Neonatal/Pediatric Emergencies (2 cc)
This course focuses on implementation of the proper treatment plans for a patient with a suspected gynecological emergency, a suspected obstetrical emergency, a neonatal emergency, and for a pediatric patient with an emergency.
Prerequisite: EMT certification, CPR for Health Care Providers. Corequisite: EMS 2236L. Offered: SP. Notes: AS only.

EMS 2653L - Paramedic Field/Clinical Experience II (3 cc)
This course focuses upon clinical and field experience provided in area hospitals and EMS agencies under supervision.
Prerequisite: EMT certification, CPR for Health Care Providers. Offered: SU. Notes: AS only.

EMS 2656L - Paramedic Field/Clinical Internship (5 cc)
This course focuses upon successful integration of all prehospital skills by the student. The field internship verifies that the student has achieved entry-level competence, and is able to serve as team leader in a variety of prehospital advanced life support emergency medical situations.
Prerequisite: EMT certification, CPR for Health Care Providers. Offered: SU. Notes: AS only.

EMS 2680 - Behavioral Emergencies (1 cc)
This course focuses upon psychiatric and behavioral emergencies, the pathophysiology of psychiatric disorders, biological, psychosocial and socio-cultural components, assessment and management of behavioral emergency patients, potentially suicidal patients and violent patients.
Prerequisite: Entry into Paramedic Program. Corequisite: EMS 2232L. Offered: SU. Notes: AS only.

EMS 2681 - Special Considerations in Prehospital Care (1 cc)
This course focuses upon implementation of a proper treatment plan for: the geriatric patient, the patient who has sustained abuse or assault, diverse patients with a suspected emergency, the chronic care patient, and the patient with common complaints; procedures to ensure safe and effective ground and air transport; integration of the principles of: general incident management and multiple casualty incident management (MCI), rescue awareness management, human hazards awareness management, and general incident management of hazardous materials emergencies.
Prerequisite: Entry into Paramedic Program. Corequisite: EMS 2232L. Offered: SU. Notes: AS only.

EMS 2682 - Advanced Prehospital Trauma Management (2 cc)
This course focuses upon the principles of kinematics to enhance patient assessment, implementation of a proper treatment plan for a patient with: shock or hemorrhage, soft tissue trauma, burn injuries, traumatic head injury, suspected spinal injury, suspected thoracic injury, suspected abdominal trauma, or suspected musculoskeletal injury.
Prerequisite: EMT certification, CPR for Health Care Providers. Offered: SU. Notes: AS only.
**ENC - ENGLISH COMPOSITION**

**ENC 1101C - English Composition I (3 cc)**
A comprehensive course embodying the fundamentals of effective expression with emphasis on expository writing and logical thinking.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education Core, Communications. A writing emphasis course. Offered: FA, SP, SU. Notes: Lab fee.

**ENC 1102 - English Composition II (3 cc)**
A comprehensive course embodying the fundamentals of effective expression with emphasis on writing the essay and reading literature for understanding and appreciation.
Prerequisite: Grade of C or better in ENC 1101C. Distribution: General Education, Communications. A writing emphasis course. Offered: FA, SP, SU.

**ENC 1210 - Technical Writing I (3 cc)**
The principles of expository writing (unity, clarity, coherence, organization, and corrections) are applied to a variety of industrial and technical reports, letters, and forms. Students will be given practice in writing reports, letters, and proposals.
Prerequisite: Placement at the college level in English. Offered: SU.

**ENL - ENGLISH LITERATURE**

These courses meet the general education literature requirement. Literature courses further the ability to understand literary devices and language; to appreciate a text and its socio-cultural and historical contexts; to evaluate a text, whether fiction or non-fiction, for its literal and figurative meanings; and to synthesize and communicate the understanding of a text. Further, literature enriches understanding of and appreciation for the diversity of human experience.

**ENL 2012 - English Literature to 1800 (3 cc)**
Selected British literature from the Middle Ages to the end of the eighteenth century.
Prerequisite: Grade of C or better in ENC 1102. Distribution: Meets A.A. general education literature requirement. A writing emphasis course. Offered: FA, SP, SU.

**ENL 2022 - English Literature from 1800 (3 cc)**
Selected British literature from the late eighteenth century to the present.
Prerequisite: Grade of C or better in ENC 1102. Distribution: Meets A.A. general education literature requirement. A writing emphasis course. Offered: FA, SP, SU.

**ENT - ENTREPRENEURSHIP**

**ENT 3003 - Entrepreneurship/Small Business Management (3 cc)**
An introduction to the general theories, principles, concepts and practices of entrepreneurship. Developing business plans. Heavy emphasis is placed on lecture, readings, case studies and group projects.
Offered: SU.

**ESC - EARTH SCIENCE**

**ESC 1000 - Earth Science (3 cc)**
A broad survey of geology (earth materials and processes), oceanography, meteorology, and astronomy. A course primarily designed for non-science majors taught at an introductory level which will provide the student with a solid background of the interrelated disciplines that make up the "earth sciences."
Distribution: General Education Core, Natural Sciences (Physical Sciences). Offered: FA, SP, SU.

**ETC-ENGINEERING-TECHNOLOGY-CIVIL**

**ETC 1250 - Properties of Materials (3 cc)**
An introductory course involving classification, physical properties, application, and use of materials used in the construction industry. The materials covered include stone, brick, concrete, wood, and other general building products.
Offered: FA, SP. Notes: AS only.

**ETD-ENGINEERING-TECHNOLOGY-DRAFTING**

**ETD 1310 - Survey of Computer Aided Drafting (3 cc)**
Introduces students to basic drafting skills and terminology including introductions to AutoCAD, Inventor, and Solidworks. Common view, line types, and title block features shall be discussed. This course will build on a student’s existing knowledge of computer use. Students unfamiliar with computers should take CGS 1061C. Students shall be introduced to basic use of .PDF files, printers, plotters, and 3D printing in addition to intermediate computer and file management skills.
Offered: FA, SP. Notes: Lab fee.

**ETD 1399 - Architectural Drafting (3 cc)**
An advanced computer drafting course dealing with selected topics from architectural plans as well as mechanical and electrical drafting used in the preparation of working drawings for light and heavy commercial projects. Most emphasis will be placed on the collecting of building components into a contract document rather than the drafting aspect.
Prerequisite: BCN 1001, ETD 2340 or permission of instructor. Offered: SP. Notes: AS only. Lab Fee.

**ETD 1542 - Structural Drafting (3 cc)**
An advanced computer drafting course consisting of the drafting of steel and reinforced concrete details for commercial building. Includes minor connection details.
Prerequisite: BCN 1001, ETD 2340 or permission of instructor. Corequisite: ETC 1250. Offered: SU. Notes: AS only. Lab Fee.

**ETD 1931 - Special Topics in Drafting Design (1 cc)**
This course is designed to allow flexibility for presenting a variety of topics relating to drafting and design principles and applications. Some special topics may require laboratory assignments. The course may be repeated for credit when the content varies.
Offered: TBA. Notes: AS only. Lab Fee.
ETD 1932 - Special Topics in Drafting Design (2 cc)
This course is designed to allow flexibility for presenting a variety of topics relating to drafting and design principles and applications. Some special topics may require laboratory assignments. The course may be repeated for credit when the content varies.
Offered: TBA. Notes: AS only. Lab Fee.

ETD 1933 - Special Topics in Drafting Design (3 cc)
This course is designed to allow flexibility for presenting a variety of topics relating to drafting and design principles and applications. Some special topics may require laboratory assignments. The course may be repeated for credit when the content varies.
Offered: TBA. Notes: AS only. Lab Fee.

ETD 2332 - AutoCAD Customization (2 cc)
A basic course in AutoCAD customization that enables the user to work more efficiently. This will be oriented towards the user; not for advanced programmers.
Prerequisite: ETD 2340 or permission of instructor. Offered: FA, SU. Notes: AS only. Lab Fee.

ETD 2340 - Computer Drafting (3 cc)
A second course in computer drafting where the drafting is emphasized. This course is intended for drafting students and covers the nuances of the computer as a drafting tool. Much of the material in EGS 1111 will be covered but in greater detail while omitting the 3D/design aspect. The course is taught "hands-on" using desktop computers with AutoCAD software.
Prerequisite: EGS 1111 or permission of instructor. Offered: FA, SU. Notes: AS only. Lab Fee.

ETD 2355 - Advanced Computer Drafting (3 cc)
A computer--drafting course dealing with advanced topics. Most of this course will dwell on 3D and technical illustration. Topics include minor customization, surface and solid modeling, and rendering.
Prerequisite: ETD 2340 or permission of instructor. Offered: SP. Notes: AS only. Lab Fee.

ETD 2364 - 3D Parametric Modeling Using SOLIDWORKS I (4 cc)
A basic course in parametric solid design using solidworks software. Topics include: basic concepts of parametric part sketching, 3D part creation, revolve, sweep and lofted features, shell and coil, surface creation, sheet metal and orthographic drawing creation.
Prerequisite: EGN 1123 or permission of program coordinator/head. Offered: FA, SP. Notes: Lab Fee.

ETD 2368 - 3D Parametric Modeling Using SOLIDWORKS II (3 cc)
Student will develop skill and proficiency in parametric solid design. Topics include sheet metal modeling, assembly concepts, assembly modeling, advanced constraints, motion simulation, adaptive technology and drawing presentation.
Prerequisite: ETD2364 or program coordinator approval. Offered: FA, SP. Notes: AS only. Lab Fee.

ETD 2397C - Building Information Management I (3 cc)
Students will be introduced to elements of Building Information Modeling (BIM) utilizing a "centralized" database methodology thru the application of Autodesk Revit Architecture software. Students will begin learning the fundamental concepts on which BIM architecture is built and the characteristics of its parametric change engine. They will learn the terminology, the hierarchy of elements, and the application of the basic drawing tools to create a project model.
Prerequisite: EGS 1111. Corequisite: ETD 2340. Offered: FA, SP. Notes: Lab Fee.

ETD 2398 - Building Information Management II (3 cc)
Explores BIM software interface and features, generation of working documents, advanced applications and student projects.
Prerequisite: ETD 2397C. Offered: FA. Notes: Lab fee.

ETD 2550 - Civil 3D (3 cc)
Covers a typical residential subdivision design process, and covers all project phases including point importing, surface modeling, subdivision parcel layout, horizontal alignments, vertical alignments, road cross sections, site grading and volume calculations. The work of corridor modeling and pipe design, all of this is accomplished with a tool that facilitates three dimensional development.
Prerequisite: EGS 1111. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

ETD 2551 - Civil Engineering Drafting (3 cc)
Covers fundamentals of civil engineering for computer drafting, including measuring errors, error of closure, coordinate conversion, curve data, contour lines, cut and fill, and profile work. Because computer drafting solutions are so accurate they can be measured, material will be dealt with both mathematically and graphically. A trig calculator is required.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA. Notes: AS only. Lab Fee.

ETD 2930C - AEC/Mechanical Design Capstone (3 cc)
The culminating course for the program; students will learn and apply career acquisition skills and participate in program assessment. Focuses on design projects developed in independently and in consultation with the Instructor. When available, students will partner with local industry for real world projects. Topics may include but not limited to, parametric modeling, AEC rendering and presentation techniques, electro-mechanical, 3-D Solids, exploration of application software and the integration of CAD/CAM. The course will review resume writing, contacting potential employers, and how to put a professional portfolio of work together for review.
Corequisite: ETD 2398. Offered: SP. Notes: Lab fee.

ETD 2947 - Drafting and Design Technology Co-op. (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.
ETD 2948 - Drafting and Design Technology Co-op. (2 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only. Lab Fee

ETD 2949 - Drafting and Design Technology Co-op. (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.

ETI ENGINEERING-TECHNOLOGY-INDUSTRIAL

ETI 1110 - Introduction to Quality Assurance (3 cc)
Defines the role of quality in an industrial environment. Topics include the use of quality management techniques and quality philosophies, process development, techniques used for evaluation, approaches used on continuous operations, methods used to control quality, and the International Organization for Standardization (ISO) series of standards. The responsibility of quality assurance during the engineering, manufacturing, and marketing of a product is also covered.
Offered: SP.

ETI 1420 - Mechanical Processes & Materials (3 cc)
Materials are useful when they are made into products. Students will encounter manufacturing processes, production systems and techniques, mechanisms, materials and their properties which are used in a modern manufacturing environment. The course will teach students the benefits, limitations, and applications of different machine tools and materials for manufacturing processing. Adaptability of machinery to a variety of manufacturing processes is studied to identify selection, design, and planning of manufacturing processes and material. This course will identify the characteristics and manufacturing properties of materials, including metal alloys, polymers, ceramics, and composites are taught in this course. The metal-casting processes and the shaping and forming processes are also covered along with the machines needed for manufacturing.
Offered: SU.

ETI 1622C - Concepts of LEAN Manufacturing and Six Sigma (3 cc)
Provides an introduction to the fundamentals of LEAN techniques, based on the concepts in the Toyota Production System model of business function operating systems. A comprehensive overview of the LEAN and Six Sigma methodologies is presented, including the Define, Measure, Analyze, Improve, and Control (DMAIC) process improvement paradigm.
Offered: FA, SP. Notes: Lab fee.

ETI 1701 - Industrial Safety (3 cc)
Principles of safety in a typical industrial environment are studied. Emphasis is on OSHA, and the analysis and design of safety programs for industry.
Offered: FA. Notes: AS only. Lab Fee.

ETI 1931 - Special Topics in Mechanical Design (1 cc)
 Allows flexibility for presenting a variety of topics relating to manufacturing principles and applications. The special topics will require laboratory assignments. The student’s shop time will be used to work on developing the necessary skills to be proficient in industrial machining and fabrication. The course may be repeated for credit when the content varies. Designed to be used in the college credit certificates offered under the Mechanical Design & Fabrication A.S. degree, the main objective of this course is to allow a student open shop time to use the equipment in the metals fabrication lab outside of class times. Students can use this course to prepare for the MSSC - CPT Certified Production Technician (CPT) Certification. Manufacturing Skills Standards Council’s (MSSC) skill standards define the knowledge, skills, and performance needed for manufacturing workers.
Prerequisite: Program coordinator approval. Offered: TBA. Notes: AS only. Lab Fee.

ETI 1932 - Special Topics in Mechanical Design (2 cc)
This course is designed to allow flexibility for presenting a variety of topics relating to manufacturing principles and applications. The special topics will require laboratory assignments. The students shop time will be used to work on developing the necessary skills to be proficient as a CNC operator / programmer. The course may be repeated for credit when the content varies.
Prerequisite: ETI 2416, ETI 2411, ETI 2412, ETI 2414, ETI 2415.
Offered: TBA. Notes: AS only. Lab Fee.

ETI 1933 - Special Topics in Mechanical Design (3 cc)
This course is designed to allow flexibility for presenting a variety of topics relating to manufacturing principles and applications. The special topics will require laboratory assignments. The students shop time will be used to work on developing the necessary skills to be proficient as a CNC operator / programmer. The course may be repeated for credit when the content varies.
Prerequisite: ETI 2416, ETI 2411, ETI 2412, ETI 2414, ETI 2415.
Offered: TBA. Notes: AS only. Lab Fee.

ETI 2411 - Manufacturing Processes CNC Machining/MasterCam-Lathe (4 cc)
Training in CNC machine operation, programming and welding fabrication. The student will gain technical knowledge and programming methods employed in Haas CNC machining centers. CNC Machine programming, set-up and operations are taught using computer and hands on applications. Intermediate welding and metal fabrication processes are taught through lectures, demonstration and CNC Plasma Cutting operations. Completion of this course offers students technical skills as a CNC Machinist / Operator to be applied in various machining and fabrication industries. The Haas VF-2 & TM-2P Mill, ST-10 & TL-1 Lathe and CNC Plasma cutting machine are used in the lab to teach the student CNC metal processing. MasterCam-Lathe / Mill are taught to provide the student CNC Machining operations.
Corequisite: EGS 1111. Offered: FA, SP. Notes: AS only. Lab Fee.
ETI 2412 - Fabrication Processes (MasterCam ART) (4 cc)
The course will offer a working knowledge of MasterCam Art and CNC processes and operations using our CanTech II CNC Router. The student will learn to apply the 3-D processing available in MasterCam ART. This course is an in-depth study of MasterCam Art operations, CNC processing and the set-up of our CanTech CNC router is a core student proficiency. Intermediate woodworking processes through lecture and demonstration are taught to give the student additional skills as a CNC router operator and CAD/CAM (MasterCAM programmer). The students performance is based on a working portfolio of various projects completed.
Corequisite: EGS 1111. Offered: FA. Notes: AS only. Lab Fee.

ETI 2414 - Computer-Aided Manufacturing MasterCam-Mill 2-D & Solidworks (4 cc)
The course will offer students a working knowledge of MasterCam Mill 2-D and Solidworks. This is the first class offered which teaches the student to design using SolidWorks. An in-depth study of CAD/CAM software, CNC processing methods and the set-up of Haas CNC machining centers is a core student proficiency. The course offers material in both a lecture/lab format. Students will learn via hands on applications using Solidworks and generate projects processed with Mastercam toolpath software to generate various projects. The student will also learn to calculate machining feeds and speeds, edit CNC programs and part production using the Haas VF-2 TM-2p mill, TL-1 Lathe and the CNC Router. The student’s performance is based on a working portfolio of various projects completed. Students completing the MasterCam University subscription can earn a certification in MasterCam.
Corequisite: EGS 1111. Offered: SP. Notes: AS only. Lab Fee.

ETI 2415 - Woodworking Processes (MasterCam Router) (4 cc)
This course provides to the student technical knowledge and programming methods employed in CNC woodworking machining centers. CNC Router programming, set-up, and operations such as Engraving, Nesting, Lettering and Contouring are taught. Computer Aided Drafting and Computer Aided Manufacturing concepts and applications are taught using MasterCam Router. Novice to intermediate woodworking processes through lecture and demonstration are taught to produce tool/machinery skills
Offered: TBA. Notes: AS only. Lab Fee.

ETI 2416 - Metal Working Processes (Welding & Fabrication) (4 cc)
A study of the principles, concepts and applications of various metal fabrication methods encountered in a metalworking fabrication environment. The subject matter on hand tools, mechanical cutting and welding processes and specialized fabrication equipment covers operational applications used in the industry. Welding processes in Gas, Brazing, GMAW (Mig), GTA (Tig), SMAW (ARC) are taught to prepare the students as a Level 1 welder/fabricator. A plasmaCam CNC plasma cutter is used to teach students automated fabrication processes. This course utilizes hands on training to teach fabrication applications to give students practical skills in metalworking for entry level job opportunities needed in the fabrication industry. Metal fabricating processes also include sheet metal layout and aircraft solid riveting. Students are evaluated based on their performance of the course objectives and the completion of a compiled working portfolio of various projects completed in this course.
Offered: FA. Notes: AS only. Lab Fee.

ETI 2947 - Manufacturing Technology Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.

ETI 2948 - Manufacturing Technology Co-op (2 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.

ETI 2949 - Manufacturing Technology Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU. Notes: AS only.

ETM - ENGINEERING TECHNOLOGY

ETM 1010 - Mechanical Measurement & Instrumentation (3 cc)
Provides the basic foundation for both mechanical and electronic measurement techniques used in manufacturing environments. The course will integrate the concepts, principles, and techniques of mechanical measurement with the use of various types of instruments including micrometers, calipers, gages, and other types of measuring equipment. The course will also introduce the student to the basic measurement techniques employing electronic test equipment including the operation and usage of digital multimeters, function generators, and oscilloscopes.
Offered: FA.

ETM 2315C - Hydraulics and Pneumatics (3 cc)
Provides the student with the skills and techniques required to work with fluid power systems. Principles of fluid power components and flow is enforced in the lecture. Labs will include demonstration and set-up of various pneumatic and hydraulic components explaining how they are combined and function in their respective circuits.
Offered: FA.
ETS-ENGINEERING TECHNOLOGY SPECIALTY

ETS 1603C - Robotics-Mechanics and Controls (3 cc)
Theory and application of robot safety, system power up/down, coordinate systems, motion type path programming, control, arithmetic, I/O instructions, job editing, positioning accuracy tags, speed adjustment, job functions and tool control point (TCP).
Offered: FA. Notes: Lab fee.

ETS 2406 - Biomedical Equipment (4 cc)
A study of electronic systems and equipment used in the medical profession. Emphasis will be placed on the study of calibration, maintenance, and trouble-shooting procedures for circuits and devices. A background check will be included.
Prerequisite: EET 2142C. Offered: SP. Notes: AS only. Lab fee.

ETS 2511C - Motors and Controls (3 cc)
This course will cover operating principles of conventional and solid-state controls and their practical applications. General principles and fundamentals of electrical controls and control components including starters, troubleshooting techniques, various protective devices, schematics, and diagrams will be emphasized. Topics include manual motor control and overload protection, control transformers, control ladder logic, control relays and motor starters, variable speed AC Drives, two and three-wire motor controls and troubleshooting, and basic timer controls. Course will include lecture and hands-on lab exercises.
Prerequisite: EET 1025C. Offered: TBA. Notes: Lab Fee.

ETS 2542C - Programmable Logic Controller (PLC) Fundamentals (3 cc)
Introduces students to programmable logic controllers (PLCs) concentrating on programming, debugging, conversion of electrical ladder logic to PLC ladder logic, and troubleshooting of PLC's using the NIDA 5050 trainer which is based on an Allen Bradley Micrologic 1200 programmable logic controller.
Offered: TBA.

EUH - EUROPEAN HISTORY

EUH 1000 - European History I (3 cc)
A survey of Western Civilization from Mesopotamia and Egypt to the 17th century. This course traces the social, intellectual, political, and cultural forces that flow into the mainstream of Western development and culminate in the rise of Modern Europe.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Social Sciences. Offered: FA, SP.

EUH 1001 - European History II (3 cc)
A survey of European history from the 17th century to the present. Focuses on the end of the age of aristocracy, the impact of the Enlightenment, the French Revolution, the Napoleonic wars, and the rise of participatory democracy. Examines the consequences of the Industrial Revolution, Romanticism, and the rise of nationalism in the 19th centuries, which culminated in the world conflicts of the 20th century. Addressed ideologies such as liberalism, socialism, feminism, Marxism, fascism, and totalitarianism.
Prerequisite: Grade of C or better in ENC 1101C. Distribution: General Education, Social Sciences. A writing emphasis course.
Offered: FA, SP.

EUH 2010 - A History of Greece and Rome (3 cc)
Introduces the student to the cultures of Greece and Rome through an historical examination of each culture's political, military and social institutions. These civilizations are studied in a chronological order. This chronology begins in the late Minoan period and culminates with the fifth century collapse of the western Roman empire.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Social Sciences. Offered: FA, SP.

EVR - ENVIRONMENTAL STUDIES

EVR2000
EVR 2001 - Introduction to Environmental Science (3 cc)
An introduction to basic ecological principles and current environment problems.
Distribution: General Education Core, Natural Sciences (Biological Sciences). Offered: FA, SP, SU.

EVR 2001L - Introduction to Environmental Science Laboratory (1 cc)
Provides students with a "hands-on" experience and proper use of tools, equipment, and scientific protocols that are used to analyze environmental conditions. Students will use the scientific method to sample the environment, analyze the data, and interpret the data to make decisions about an appropriate course of action to correct potential environmental problems. This corrective action must take into consideration, scientific, social, political, and economic factors and should attempt to anticipate potential future problems that might arise.

FIN - FINANCE

FIN 2100 - Personal Finance and Money Management (3 cc)
This is a course in personal financial planning, resource management, and economic security. It is designed to provide students with the basic analytical skills and practical working knowledge necessary to set realistic financial goals, prepare a manageable budget, and make the decisions that will protect income, assets, credit rating, and retirement security. The course stresses objective approaches and strategies in determining needs, designing and managing a budget, coping with income and other taxes, calculating the cost of and wisely using credit, stretching income and assets through the effective use of insurance and investment options, and managing all phases of a financial program to achieve personal financial goals.
Offered: FA, SP, SU.

FIN 3400 - Financial Management (3 cc)
An introductory course in managerial finance in which the student should attain a clear, basic understanding of the fundamentals of finance and their associations to the decision-making framework faced by a financial manager who is charged with maximizing shareholders' wealth. Topics include financial statement analysis, financial planning and forecasting, time value of money, risk and rates of return, asset valuation, capital budgeting, capital structure, dividend policy and working capital management.
Prerequisite: ACG 3024 or ACG 2001 or ACG 2021. Offered: FA, SP, SU.
FRE - FRENCH LANGUAGE

FRE 1120 - Beginning French I (4 cc)
Emphasizes the development of basic skills in listening, speaking, reading, and writing French with an introduction to culture. Students with two consecutive years of high school French within the last 3 years with a grade of C or higher should begin in FRE1121.
Offered: FA.

FRE 1121 - Beginning French II (4 cc)
Continued development of basic skills in listening, speaking, reading, and writing with greater emphasis on culture.
Prerequisite: Grade of C or better in FRE 1120 within the last 3 years, or departmental approval. Distribution: General Education, Humanities. Offered: SP.

FSS - FOOD SERVICE SYSTEMS

FSS 1063C - Professional Baking (3 cc)
This course introduces the student to the principles of professional baking. The student will become familiar with the techniques and equipment used in a bakeshop or the baking area of a commercial kitchen. The student will apply the fundamentals of baking science in the production of various products. The student will learn the basic baking skills required in the culinary arts field.
Corequisite: HFT 2212. Offered: FA, SP, SU. Notes: Lab Fee.

FSS 1220C - Culinary Techniques (3 cc)
Emphasis in this course will be placed on the basic methods and chemistry of cooking. Students study ingredients, cooking, theories, terminology, equipment, technology, weights and measures, formula conversions and work on cooking skills and procedures.
Corequisite: HFT 2212. Offered: FA, SP, SU. Notes: Lab Fee.

FSS 1221C - Introduction to Culinary Production (3 cc)
It is recommended that students take HFT 2212 as a prerequisite or corequisite. This course is an overview of culinary production for those students pursuing a career in the hospitality industry. Emphasis is on the basic methods and chemistry of cooking, baking, kitchen operation, and kitchen management.
Offered: FA, SP. Notes: Lab Fee.

FSS 1222L - Culinary Production (3 cc)
Through extensive hands-on experience, students will acquire the skills necessary to plan and prepare various meals utilizing menu planning methods.
Prerequisite: FSS 1220C. Offered: FA, SP.

FSS 1308C - Dining Room Management Banquet and Russian Service (3 cc)
This course introduces the student to the organization and function of the dining room of a commercial food service facility utilizing Banquet and Russian table service. The class will place an emphasis on Regional and International Cuisines. The student will also demonstrate a familiarity with the skills and techniques utilized in American table service.
Corequisite: HFT 2212. Offered: FA, SP. Notes: Lab Fee.

FSS 2241L - Classical Cuisine (3 cc)
This course allows students to practice advanced culinary skills under operating conditions. Students prepare and serve meals to the public.
Prerequisite: FSS 1220C. Offered: FA, SP. Notes: AS only.

FSS 2242L - International/Regional Cuisine (3 cc)
This course covers the unique food styles and preparation techniques used around the world. Students design and implement banquet style international menus. Meals are prepared for the public.
Prerequisite: FSS 1063C, FSS 1220C. Offered: FA, SP.

FSS 2247C - Advanced Baking (3 cc)
This course builds on the skill and knowledge the student gained in FSS 1063C and familiarizes the student with advanced baking theories and techniques. The student will apply the fundamentals of baking science in the production of various products. The student will learn the basic baking skills required in the culinary arts field.
Prerequisite: FSS 1063C. Offered: SP. Notes: AS only. Lab Fee.

FSS 2248C - Garde Manger (3 cc)
The student will become familiar with the techniques and equipment used in the production of Hors d’oeuvres, appetizers, charcuterie and other products found typical to catered events. Students will apply these fundamentals in actual catered events as outlined during the first day in class. Students are advised that class times vary greatly.
Prerequisite: FSS 1220C, and one of the following: FSS 1222L or FSS 2242L. Offered: SU. Notes: Lab Fee.

FSS 2284C - Catering, Banquet, and Event Management (3 cc)
This course introduces students to the techniques and management principles necessary for the management of a catering and banquet operation. The course covers catering functions, special events, and banquets. Course topics will include planning and management, preparation and production, and service with an emphasis placed on planning and management of events. Students examine the management process and learn to apply this process to catering functions, banquet operations, and special events. This course provides students interested in event management with practical knowledge in the management of on and off premise functions.
Corequisite: HFT 2212. Offered: SU.

FSS 2382L - Culinary Management Practical Exam (1 cc)
Techniques and knowledge required for a career as a professional chef. Provides knowledge needed to demonstrate artistic and creative abilities in various culinary shows, recipe contests, and exhibitions.
Prerequisite: Completion of all culinary courses and permission of instructor or department head. Offered: FA, SP, SU. Notes: <p class="sc-bodytextns">AS only. Lab Fee.

FSS 2941 - Culinary Management Internship (1 cc)
Internship is a supervised hands-on training experience in which the student will observe and participate in the operation of a restaurant, food service, dietary or other food production operation. The student will learn first hand the day-to-day operations of a food production facility. The student will have the opportunity to demonstrate the knowledge and skills learned in the classroom and apply them on the job. Departmental head permission required.
Offered: FA, SP, SU.
COURSES| 213

FSS 2942 - Culinary Management Internship (2 cc)
Internship is a supervised hands-on training experience in which the student will observe and participate in the operation of a restaurant, food service, dietary or other food production operation. The student will learn first hand the day-to-day operations of a food production facility. The student will have the opportunity to demonstrate the knowledge and skills learned in the classroom and apply them on the job. Departmental head permission required.
Offered: FA, SP, SU.

FSS 2943 - Culinary Management Internship (3 cc)
Internship is a supervised hands-on training experience in which the student will observe and participate in the operation of a restaurant, food service, dietary or other food production operation. The student will learn first hand the day-to-day operations of a food production facility. The student will have the opportunity to demonstrate the knowledge and skills learned in the classroom and apply them on the job. Departmental head permission required.
Offered: FA, SP, SU.

FSS 2946 - Basic Culinary Management Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. Departmental head permission required.
Offered: FA, SP, SU.

FSS 2947 - Culinary Management Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. Departmental head permission required.
Offered: FA, SP, SU.

FSS 2948 - Culinary Management Co-Op (2 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. Departmental head permission required.
Offered: FA, SP, SU.

GEA-GEOGRAPHY-REGIONAL-AREAS

GEA 2000 - World Regional Geography (3 cc)
A descriptive study of selected countries and regions of the world around such key topics as location, population makeup and distribution, natural environment, type of economy, potentialities, chief problems. Human activities are related to natural environmental conditions of countries, regions, and continents. Distribution: General Education, Social Sciences. Offered: TBA.

GEB - GENERAL BUSINESS

GEB 1011 - Introduction to Business (3 cc)
The course includes principles of organization and management as well as operational aspects and the social and economic environment of a business, fundamentals of management controls, marketing, and financial management. This course is a prerequisite only for those students following a program of study in business administration, but is offered in two different formats: the conventional classroom style and a special format which reduces formal classroom time but requires more self-study.
Offered: FA, SP, SU.

GEB 2112 - Entrepreneurship (3 cc)
This course prepares students to start their own business and is designed to assist entrepreneurs to strengthen and manage their business skills. Fundamentals of starting and operating a business, developing a business plan, obtaining financing, marketing a product or service, and developing and effective accounting system will be covered.
Offered: FA, SP.

GEB 2159 - E-Business Management (3 cc)
This course includes the applications, principles, and concepts of business transactions that take place via electronic communication networks. Specific emphasis will be placed on the process of buying and selling goods and services, and information over computer networks.
Offered: FA, SP.

GEB 2430 - Business Ethics (3 cc)
This course will enable students to confront the issues of what is right, proper, and just when making decisions that affect other people in the business world. The focus is on what relationships are and ought to be with employees.
Offered: FA, SP.

GEB 2947 - Business Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: FA, SP, SU.
GEB 2948 - Business Co-op (2 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student's academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. Offered: FA, SP, SU.

GEB 2949 - Business Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. Offered: FA, SP, SU.

GEB 3213 - Professional Communications (3 cc)
Focuses on communication within organizations with emphasis on organizational theory and structure, systems analysis, and communication networks. Offered: FA, SP, SU.

GER - GERMAN
GER 1120 - Beginning German I (4 cc)
Emphasizes the development of basic skills in listening, speaking, reading, and writing German with an introduction to culture. Students with two consecutive years of high school German within the last 3 years with a grade of C or higher should begin in GER 1121. Offered: FA.

GER 1121 - Beginning German II (4 cc)
Continued development of basic skills in listening, speaking, reading, and writing with greater emphasis on culture. Prerequisite: Grade of C or better in GER 1120 with in the last 3 years, or departmental approval. Distribution: General Education, Humanities. Offered: SP.

GIS-GEOGRAPHY-INFORMATION-SCIENCE
GIS 2040C - Geographic Information Systems (3 cc)
A beginning course in Geographic Information Systems (GIS). GIS is the combination of data and where that data occurs spatially on a map. This computer application technology is used by utility companies, forestry managers, environmental businesses, government planners, market researchers, real estate developers, emergency planners, civil engineers, and a variety of other disciplines. Topics include map projections, database management, collection of data, spatial representation of data, analyzing spatial relations layering data in combinations, and creating presentations. This course is open to all students with basic computing skills. Prerequisite: CGS 1570 or permission of instructor. Offered: FA. Notes: AS only. Lab Fee.

GLY - GEOLOGY
GLY 1010 - Physical Geology (3 cc)
An introduction to the study of the earth, its composition (minerals and rocks), gradational processes (running water, glaciers, winds, and gravity), diastrophism (plate tectonics, folding, faulting), and volcanism (volcanic and plutonic features). Corequisite: GLY 1010L. Distribution: General Education, Natural Sciences (Physical Sciences). Offered: FA.

GLY 1010L - Physical Geology Laboratory (1 cc)
A study of rocks and minerals, structural features of the earth, and various earth forms as related to certain geologic processes with the aid of rock and mineral samples, topographic maps and aerial photographs. Corequisite: GLY 1010. Offered: FA. Notes: Lab Fee.

GRA - GRAPHIC ARTS
GRA 1109C - History of Graphic Design (3 cc)
This course is an introductory survey of the history of graphic design from its origin to the present day. Offered: FA, SP, SU.

GRA 2151C - Computer Graphics I (3 cc)
Explores the Macintosh® computer’s capabilities as a tool for artists and graphic designers. Students will use a variety of layout and image-processing programs, digital scanning, and video images in assignments that stress creativity and technical proficiency. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

GRA 2152C - Computer Graphics II (3 cc)
A continuation of GRA 2151C using advanced software and programs on the user-friendly Macintosh(r). Directed at artists and graphics designers. Prerequisite: Grade of C or better in ART 1201C, GRA 2151C, PGY 2401C. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

GRA 2190C - Graphic Design I (3 cc)
Basic experience in the creative and technical processes of visual communication. Concept development, layout skills, uses of type, illustration, and computer-aided design with the Macintosh(r) will be covered. Prerequisite: Grade of C or better in ART 1201C, GRA 2151C, PGY 2401C. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

GRA 2191C - Graphic Design II (3 cc)
Advanced techniques and projects in visual communications with emphasis on development of a professional portfolio and understanding of market demands. A high degree of creativity and craftsmanship is stressed. Prerequisite: Grade of C or better in GRA 2190C. Offered: FA, SP, SU. Notes: AS only. Lab Fee.

GRA 2206C - Typography (3 cc)
A practical introduction to typography, including the development of type styles and their creative uses in graphic design from historic forms to modern and computer type, emphasizing the expressive power of type usage in design, while also covering technical aspects of fonts, letter forms, measurement, x-height, leading, kerning, and aesthetic considerations. Prerequisite: Grade of C or better in ART 1201C, GRA 2151C, GRA 2190C. Offered: FA, SP, SU. Notes: AS only. Lab Fee.
GRA 2210C - Electronic Prepress (3 cc)
A highly specialized course that teaches the current techniques for electronic delivery of artwork for print reproduction. Students will learn industry standards and requirements including digital file output, digital printing processes, and file management.
Prerequisite: Grade of C or better in ART 1201C, GRA 2152C, PGY 2401C. Offered: FA, SP, SU. Notes: AS only. Lab Fee. Replaces GRA 2117C Graphic Processes.

GRA 2721C - Creative Web Design (3 cc)
Creative WebDesigns builds on the design and development skills gained in the prerequisite courses and moves the student to the production of artistic web-based projects on the Macintosh computer platform. Focusing entirely on intranet and internet in animation, sound, video, authoring, editing and HTML coding. Students will use appropriate web development software to create product for use across both Macintosh and PC computer platforms.
Prerequisite: Grade of C or better in GRA 2151C, GRA 2206C. Offered: FA, SP, SU. Notes: Lab Fee.

GRA 3194C - Graphic Design III (3 cc)
This advanced level studio course is an in depth exploration of two and three dimensional media and the potential creative use of contemporary technology in visual communication. This course includes experimentation in multi-page print projects, computer animation, multi-media and environmental signage. The course will include lecture and field trips.
Offered: TBA. Notes: Lab Fee.

GRA 3202C - Advanced Typography (3 cc)
Exploration of the expressive potential of the letter form.
Offered: TBA. Notes: Lab Fee.

GRA 3209C - Typography II (3 cc)
This course is a continuation of the study of traditional Typography. Exercises and projects focus on the hierarchal qualities of typography, the development of marketable, original, and creative problem solving solutions will also be examined with an emphasis on creative techniques. Industry standard software will be used in the development of digital typography and hierarchal skills.
Offered: TBA. Notes: Lab Fee.

GRA 4186C - Senior Studio Graphic Design (3 cc)
Advanced graphic design problems in advertising campaigns and multi-unit visual communication systems.
Offered: TBA. Notes: Lab Fee.

GRA 4189C - Portfolio Development (3 cc)
This course is designed to prepare the student for employment with a well-crafted presentation of their skills in the form of a portfolio.
Offered: TBA.

GRA 4514C - Environmental Design (3 cc)
Students will study a range of examples of exhibition/environmental design measured against conventions of 2D display/informational systems.
Offered: TBA. Notes: Lab Fee.

HCP-HEALTH-CARE-PROVIDERS-ASSISTANTS

HCP 0121C - Nursing Assistant (75 ch)
Provides the foundational knowledge and skill set needed to perform as an entry-level Nursing Assistant. Specific to the Nursing Assistant, topics include: verbal and written communications, legal and ethical responsibilities, physical comfort and safety functions, and principles of infection control. Additionally, students will learn to provide personal patient care and perform patient care procedures; apply principles of nutrition; care for geriatric patients; provide biological, psychological, and social support; perform supervised organizational functions, following the patient plan of care, and assist with restorative (rehabilitative) activities.
Corequisite: HSC 0003C. Offered: FA, SP, SU. Notes: Lab Fee.

HCP 0852 - Psychiatric Aide (180 ch)
This course provides the student with an introduction to the work place and allows the student to practice Psychiatric Aide skills in the actual clinical setting under the supervision of practicing mental health providers and the instructor.
Prerequisite: Grade of C or better in HSC 0003C, HCP 0852. Offered: TBA. Notes: Lab Fee.

HFT - HOSPITALITY MANAGEMENT

HFT 1000 - Introduction to the Hospitality Industry (3 cc)
An introductory course designed to acquaint the student with the many facets of the hotel/lodging, restaurant, travel and tourism, and food service industries. The student will become familiar with the various interrelated professions in these industries and their relationships to each other.
Offered: FA, SP.

HFT 1254 - Lodging Operations (3 cc)
This course introduces students to guest service operations. This course provides students with practical knowledge of the concepts and procedures used in managing commercial lodging operations. Students are introduced to the rooming and guest service functions. The course includes the theories and principles of guest service management used in the lodging industry. The course gives students the opportunity to develop human relations and customer service skills. Operation of the various functions of the rooming department of a lodging operation is covered.
Offered: FA, SP.

HFT 1313 - Hospitality Property Management (3 cc)
This course focuses on three main areas of property management including physical plant management, facilities, systems engineering and management, and utilities and energy management. All phases of property management are covered from operations management to cost analysis and capital investment. The general principles of design, installation, operation, and economical evaluation are applied to hospitality operations.
Offered: SP.
HFT 1410 - Hospitality Industry Accounting (3 cc)

Presents basic introduction to the reservation system and the accounting functions of hospitality operations. The course focuses on the reservations and billing, audit, transient ledger, city ledger, income statement, and of the statistical analysis used in the hospitality industry.

Offered: FA, SP.

HFT 1860 - Bar and Beverage Management (3 cc)

An in depth study into the principles of beverage management. This course will introduce students to the production and characteristics of the different types of beers, liqueurs and spirits. Students will be introduced to the techniques of mixology with an emphasis on the responsible vending of alcoholic beverages.

Offered: SU.

HFT 1867 - Wine Technology and Merchandising (3 cc)

This course introduces students to the principles of oenology. The course provides students interested in wines, wine production, and service with the fundamentals of wine technology. Students are introduced to the theories and principles of marketing, merchandising and promoting wines in the hospitality industry. Practical knowledge of viticulture and vinification methods is covered in the course. Students are introduced to the theories, concepts, and principles of sensory evaluation and other quality factors of wine. The course is designed for both the hospitality manager as well as the individual who enjoys wine for personal pleasure.

Offered: TBA.

HFT 2211 - Hospitality Resource Management (3 cc)

This course introduces students to the resources available to managers in the hospitality industry. This course includes management concepts and practices applicable to the hospitality industry. Students are introduced to the theories and principles of managing a hospitality entity. Students examine the management process and learn to apply this process to the hospitality industry. This course provides students interested in lodging, food service, beverage service, and other related fields with practical knowledge in the acquisition, management and utilization of the resources available to hospitality managers.

Offered: SU.

HFT 2212 - Food Service Sanitation and Safety (2 cc)

This course is designed to develop an understanding of the basic principles of sanitation and safety in order to maintain a safe and healthy environment for the consumer in the food industry. It includes the laws and regulations related to safety, fire, and sanitation and how to adhere to them in the food service operation.

Offered: FA, SP, SU.

HFT 2250 - Lodging Systems and Procedures (3 cc)

This course introduces students to the principles of operating a profitable lodging operation. This course is designed for students interested in managing hotels, motels, resorts, and other related lodging businesses. The course provides students with practical knowledge of the concepts and procedures used in managing commercial lodging operation. Students are introduced to the utilization of reservation systems and the procedures for handling various types of reservations. The student will be introduced to the information systems for registration, guest accounts, checkout and the audit functions of guest services. The course includes the theories and principles of yield management, the economics principles of pricing used in the lodging industry in addition to other related topics.

Offered: SP.

HFT 2451 - Cost Control and Purchasing (3 cc)

An overview of the management system with an in-depth study of purchasing and the control component of the management cycle. This course will focus on the principles and practices concerned with the purchase and receipt of food, supplies, and equipment for various food service operations.

Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA, SP.

HFT 2500 - Marketing in the Hospitality Industry (3 cc)

This course is designed to study the principles of marketing and promotion as they relate to the hospitality industry. This course looks at applying promotional techniques to a hospitality operation. The course addresses topics such as using a restaurant's menu and service staff to generate word-of-mouth advertising, the organization of a lodging operation's sales department, promotion of special events, etc.

Offered: SP.

HFT 2600 - Concepts of Hospitality Law (3 cc)

This course provides the student with a familiarization of the fundamentals of law and an in-depth study of the legal aspects effecting the hospitality industry. This course addresses risk management in the hospitality industry.

Offered: FA.

HFT 2840C - Dining Room Management American Service (3 cc)

This course exposes the student to advanced table service techniques and service styles to include French and Ala Ritz and buffet. Special attention is given to wine service, table-side preparation, carving and service.

Corequisite: HFT 2212. Offered: FA, SP. Notes: Lab Fee.

HFT 2841C - Dining Room Management French Service (3 cc)

This course introduces the student to the principles of managing American Table Service in the commercial food-service operation. All aspects of a la carte service are covered. Service skills and computer technologies are emphasized. This course covers all aspects of dining room service required in the hospitality field.

Corequisite: HFT 2212. Offered: FA, SP. Notes: Lab Fee.

HFT 2850C - Management of Dining (3 cc)

It is recommended that -students take HFT 2212 as This course is a course in management of dining room service. Students will learn the operation of the dining room of a table service restaurant. Students will use various management techniques in the operation of a restaurant dining room. The student will gain hands-on experience in American, French, and banquet table service. This course covers all aspects of dining room service required in the hospitality field. This course emphasizes learning and practicing management and customer service skills.

Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA, SP.

HFT 2931 - Hospitality Management Seminar (1 cc)

This course is designed to allow flexibility for a wide variety of topics/topic of interest, problem, need, etc. of the hospitality industry to meet the special needs of an identified group of students. This course explores current topics as they affect the hospitality industry.

Offered: FA, SP.
HFT 2932 - Hospitality Management Seminar (2 cc)
This course is designed to allow flexibility for a wide variety of topics/topic of interest, problem, need, etc. of the hospitality industry to meet the special needs of an identified group of students. This course explores current topics as they affect the hospitality industry.
Offered: TBA.

HFT 2933 - Hospitality Management Seminar (3 cc)
This course is designed to allow flexibility for a wide variety of topics/topic of interest, problem, need, etc. of the hospitality industry to meet the special needs of an identified group of students. This course explores current topics as they affect the hospitality industry.
Offered: TBA.

HFT 2941 - Hospitality Management Internship (1 cc)
Internship is a supervised hands-on training experience in which the student will observe and participate in the operation and management functions of a food service, lodging, dietary, or other hospitality operation. The student will learn first-hand the day-to-day operations of a business in the hospitality industry. The student will have the opportunity to demonstrate the knowledge and skills learned in the classroom and apply them on the job.
Departmental permission required.
Offered: TBA.

HFT 2942 - Hospitality Management Internship (2 cc)
Internship is a supervised hands-on training experience in which the student will observe and participate in the operation and management functions of a food service, lodging, dietary, or other hospitality operation. The student will learn first-hand the day-to-day operations of a business in the hospitality industry. The student will have the opportunity to demonstrate the knowledge and skills learned in the classroom and apply them on the job.
Departmental permission required.
Offered: TBA.

HFT 2943 - Hospitality Management Internship (3 cc)
Internship is a supervised hands-on training experience in which the student will observe and participate in the operation and management functions of a food service, lodging, dietary, or other hospitality operation. The student will learn first-hand the day-to-day operations of a business in the hospitality industry. The student will have the opportunity to demonstrate the knowledge and skills learned in the classroom and apply them on the job.
Departmental permission required.
Offered: TBA.

HFT 2944 - Basic Hospitality Management Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. Departmental permission required.
Offered: FA, SP, SU.

HFT 2948 - Hospitality Management Co-op (2 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. Departmental permission required.
Offered: FA, SP, SU.

HFT 2949 - Hospitality Management Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student’s academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term. Departmental permission required.
Offered: FA, SP, SU.

HIM - HEALTH INFORMATION MANAGEMENT

HIM 0076 - Health Unit Clerk (240 ch)
Prepares students for employment as health unit coordinators, also known as ward clerks or unit secretaries. Students will learn medical terminology; perform clerical duties; read, interpret, and coordinate physician’s orders; learn legal and ethical responsibilities; monitor ECGs.
Prerequisite: Admission to a health related program or permission of department head. Corequisite: Grade of C or better in HSC 0003C. Offered: TBA.

HIM 0076L - Health Unit Clerk Clinical (180 ch)
The purpose of this course is to provide students an externship as health unit coordinators. Under supervision, students will practice using medical terminology; perform clerical duties; read, interpret, and coordinate physician’s orders; learn legal and ethical responsibilities; monitor ECGs; and perform clinical duties. Upon satisfactory completion of this course, students will be able to take the National Association of Health Unit Coordinators examination.
Prerequisite: Grade of C or better in HIM 0076. Offered: TBA.
Notes: Lab Fee.
HIM 1000C - Introduction to Health Information Management (3 cc)
Orientation to medical records, history, professional associations, and ethics; introduction to confidentiality; medical record content, format, evaluation, and use; numbering, filing, indexing, storage, retrieval, and quality control.
Prerequisite: Permission required. Offered: FA. Notes: AS only.

HIM 1442 - Pharmacology (2 cc)
This course teaches the student the pronunciation, spelling, actions, and side effects of the most commonly prescribed drugs and the interpretation of pharmacological terms, abbreviations, and symbols used in prescription writing.
Offered: FA, SP. Notes: AS only.

HIM 1800 - Health Information Management Professional Practice I (2 cc)
Drug screen, background check and health physical. Supervised directed experience in hospital or other setting-HIM department. Specific assignments medical record procedures, assembly and/or analysis of medical records, record and loose document filing, scanning, record controlling, incomplete chart analysis, release of information and medical staff relations.
Prerequisite: HIM 1000C, HSC 2641. Offered: FA, SU. Notes: AS only. Lab Fee.

HIM 2214C - Health Data Management (3 cc)
This course is designed to expand upon health information management to include an introduction to electronic health records, healthcare data sets, clinical vocabularies and nomenclature systems, healthcare reporting and compliance issues, health information, ethical issues in information technology, and data analytics.
Prerequisite: HIM 1000C. Offered: SP. Notes: AS only. Lab Fee.

HIM 2229C - Introduction to Coding and Classification (3 cc)
Provides an introduction to diagnosis coding using ICD-9-CM and ICD 10-CM classification systems both manual and computer-based practice. The guidelines, conventions and all body systems will be covered to apply accurate code data for research, indices, registries and reimbursement of health care services.
Prerequisite: BSC 1080, BSC 1080L, HSC 1531, HSC 2550. Offered: FA, SP. Notes: Lab fee.

HIM 2253C - Outpatient Reimbursement Methodologies (CPT Coding) (3 cc)
Instruction in CPT-4 Coding, HCPCS, and APC’s as used in physician’s offices and other out-patient settings. Includes principles and practices related to payment by insurance of health or medical expenses by private or government entities.
Prerequisite: HSC 1531, HIM 2229C, HSC 2550. Offered: FA, SP. Notes: AS only.

HIM 2284C - Intermediate Coding and Classification Systems (3 cc)
Provides an introduction to procedure coding using ICD-9 - PCS and ICD-10-PCS coding classification systems both manual and computer-based practice. The guidelines, conventions and all body systems will be covered to apply accurate code data for research, indices, registries and reimbursement of health care services.
Prerequisite: BSC 1080, BSC 1080L, HIM 2229C, HSC 1531, HSC 2550. Offered: SP, SU. Notes: Lab Fee.

HIM 2285C - Advanced Coding and Classifications Systems (3 cc)
Applies previous learned concepts and application to advanced case studies. Analysis and coding compliance principles will be highly stressed for accuracy of data for research, reimbursement, and referencing the AHA Coding Clinic for in depth coding directives for hospital inpatient reimbursement. Extensive self-tests, coding practice exercises, and case studies are provided to reinforce learning. Resources and activities for additional practice will be provided.
Prerequisite: HIM 2229C, HIM 2284C. Offered: FA, SU.

HIM 2500C - Performance Improvement in Healthcare (2 cc)
Introduces concepts, techniques, and tools in the process of improving performance in the health care environment. Emphasis is on the key processes for identification, resolution of problems in the Health Information Management profession.
Prerequisite: HIM 2620. Offered: SP. Notes: AS only.

HIM 2512 - Health Information Management and Supervision (3 cc)
Application of basic principles of management related to office management or medical record department; planning and organizing space, equipment, supplies, and personnel using systems procedures, methods and organization charts.
Offered: FA. Notes: AS only.

HIM 2620 - Medical Statistics and Financial Applications (3 cc)
Statistical concepts and procedures in data collection and preparation of statistical reports for hospital administration and accrediting agencies; financial concepts and optimum utilization of resources.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA. Notes: AS only.

HIM 2653C - Medical Informatics and Health Information Technologies (3 cc)
This course provides the student an overall scope of computer applications in the health care industry with special emphasis on the electronic health record design, implementation, use, and maintenance. In addition, health information technologies and application of skills learned will be applied.
Prerequisite: CGS 1570, HIM 1000C. Offered: SP. Notes: AS only. Lab Fee.

HIM 2810 - Health Information Management Professional Practice II (2 cc)
Supervised learning experience in various health care facilities. Specific assignments: statistical applications, computer applications, coding, performance improvement and risk management. HIM 2813C Coding Professional Practice This is a professional practice course for coding and will include intense exposure of all coding and reimbursement systems learned in the program. It will consist of a practicum utilizing case studies, scenarios, and coding examples in CPT, ICD-9-CM, ICD-10-CM and ICD-10-PCS, etc. Students will reinforce learning and apply coding guidelines for appropriate reimbursement in both the inpatient and outpatient settings using 3M, Quantim, and V-Lab applications and exercises.
Prerequisite: HIM 1800. Offered: TBA. Notes: AS only. Lab Fee.
HIM 2813C - Coding Professional Practice (2 cc)
A professional practice course for coding and will include intense exposure of all coding and reimbursement systems learned in the program. It will consist of a practicum utilizing case studies, scenarios, and coding examples in CPT, ICD-9-CM, ICD-10-CM and ICD-10-PCS, etc. Students will reinforce learning and apply coding guidelines for appropriate reimbursement in both the inpatient and outpatient settings using 3M, Quantim, and V-Lab applications and exercises.
Prerequisite: HIM 2284C. Corequisite: HIM 2285C or HIM 2253C.
Offered: FA.

HIM 2820L - Health Information Technology Professional Practice III (2 cc)
Provides the student with practical experience in Health Information Management with the emphasis on learned skills in coding and reimbursement, DRG Assignment and APC assignment. It will consist of an intense onsite/offsite practicum in reimbursement methodologies, ICD-9, ICD 10 and CPT coding.
Prerequisite: HIM 1800, HIM 2810. Offered: SP. Notes: AS only.
Lab fee.

HIM 2931 - Special Topics in Health Information Management (1 cc)
Provides a comprehensive review for Preparation for the Certified Coding Assistant (CCA) examination offered through the American Health Information Management Association (AHIMA).
Offered: FA, SU. Notes: AS only.

HIM 2932 - Special Topics in Health Information Management (2 cc)
Provides a comprehensive review for Preparation for the Registered Health Information Technician (RHIT) examination offered through the American Health Information Management Association (AHIMA).
Offered: SP. Notes: AS only.

HLP - HEALTH LEISURE PHYSICAL EDUCATION

HLP 1081 - Concepts of Life Fitness (3 cc)
Acquaints students with the principles, concepts and values of physical fitness, proper nutrition, and stress management; and the dangers attached to negative lifestyle behaviors. Students will learn to evaluate their fitness, nutrition and stress levels, identify their areas of interest, and write their own exercise prescriptions. Class periods are held in both the classroom and the LIFE Center where students will take part in a number of health and fitness assessments and will be instructed on the proper use of both strength and cardiovascular training equipment. Upon successful completion of HLP 1081, students maintaining college enrollment or former Pensacola State College students who have successfully completed the course can gain access to the LIFE Centers each term by enrolling in and paying tuition for R 00064.
Distribution: General Education, Social Sciences. Offered: FA, SP, SU. Notes: Lab Fee.

HLP 2947 - Human Performance and Recreation Co-op (1 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student's academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: TBA.

HLP 2948 - Human Performance and Recreation Co-op (2 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student's academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: TBA.

HLP 2949 - Human Performance and Recreation Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student's academic field of study. Each student must meet certain academic and Co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The Co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Offered: TBA.

HOS - HORTICULTURAL SCIENCES

HOS 1010 - Introduction to Horticultural Science (3 cc)
An overview of the biology of horticulture, the horticultural industry and an introduction to the scientific principles that are involved in the production of horticultural crops. The course will provide a comprehensive review of the aesthetic value of horticulture, plant classification, plant problems, plant growth, and plant use.
Offered: FA.

HOS 1014 - Introduction to Organic Production Systems and Farming (1 cc)
An overview of the organic production systems with special attention paid to starting an organic cropping operation, cultural methods such as fertilization and pest control, organic materials, environmental issues, and business applications.
Offered: TBA.
HSA - HEALTH SERVICES

HSA 1172 - Medical Billing and Third Party Payer (2 cc)
This course is designed to provide students with a foundation in billing and coding principles and to teach the fundamentals of reimbursement policies and procedures. Students will also develop an understanding of the proper use of coding manuals for the reporting of diagnoses, medical procedures, and services performed by the hospital and physician for purposes of reimbursement.
Prerequisite: BSC 1080, BSC 1080L, HSC 1531. Offered: SP. Notes: AS only.

HSA 2500 - Introduction to Risk Management (3 cc)
This is an introductory course in the assessment and control of risk within health-care facilities. Included in the course are analysis of possibilities of liability, methods to reduce risk of liability, and methods to transfer risk to others.
Offered: SP. Notes: AS only.

HSA 2810L - Health Services Management Practicum (2 cc)
Supervised learning experience in various ambulatory healthcare facilities to include shadowing and exposure to the different areas of management learned throughout the program.
Prerequisite: HSC 1000. Corequisite: HSC 2930. Offered: SP, SU.

HSA 3113 - Healthcare Trends and Issues (3 cc)
Presents significant health care issues and developing trends. Content may differ each time in order to be current with changing events of varying importance, such as aging, cultural diversity, the obesity epidemic, and patient privacy issues.
Offered: FA, SP.

HSA 4160 - Healthcare Marketing (3 cc)
A comprehensive overview of marketing strategies and emerging technologies that might effectuate productive network systems. The primary focus will be on processes within the health care system from an administrative perspective.
Offered: FA.

HSA 4191 - Health Information Systems (3 cc)
Examination of health information systems with focus on analysis of applications for information systems in the health care delivery system. Emphasis will be placed upon skills necessary to employ the methods used to evaluate a variety of types of information systems applications in a health care setting.
Offered: FA, SP.

HSA 4383 - Quality Management in Healthcare (3 cc)
A study of healthcare quality management concepts, tools, and techniques, with an emphasis on the application of management theory to healthcare products and services.
Offered: FA.

HSA 4502 - Healthcare Risk Management (3 cc)
Explores risk management and its specific applications to the health service field. Focus: Insurance, quality assurance, dispute resolution, clinical records, and management.
Offered: FA.

HSC - HEALTH SCIENCES

HSC 0003C - Basic Healthcare Worker (90 ch)
Prerequisite: Acceptance into the program. Offered: FA, SP, SU. Notes: Lab Fee.

HSC 1000 - Introduction to Healthcare Management (3 cc)
Introduction to the various health professions. Topics covered include career and labor market information, healthcare delivery systems, health organization structure, patient rights and responsibilities, workplace behavior and decision making in the healthcare environment, safety and security procedures, and employability skills.
Prerequisite: Acceptance into the program. Offered: FA.

HSC 1531 - Medical Terminology (3 cc)
The study of medical terminology as the language of medicine including the study of prefixes, suffixes, word roots, with emphasis on spelling, pronunciation, definition, and usage.
Offered: FA, SP, SU.

HSC 1590 - AIDS/OSHA for Health Professionals (1 cc)
A study of Human Immunodeficiency Virus (HIV), Acquired Immune Deficiency Syndrome (AIDS), and OSHA standards for blood borne pathogens, Domestic Violence education and medical errors for the health professional. This course satisfies the minimum HIV/AIDS education requirements including transmission, infection control, prevention, general treatment, legal aspects, confidentiality, testing and attitudes. Within this course, requirements are met for OSHA standards for universal precautions, PPE, microbiological practices, Hepatitis B vaccination, post exposure evaluation/follow-up and hazard communication in working with blood borne pathogens. Domestic violence and medical errors are included.
Offered: FA, SP, SU. Notes: AS only. HSC 2100 - Personal and Community Health (3 cc)
This course includes information and principles for protection and promotion of individual and public health. Emphasis is given to mental health, parenthood, nutrition, disease prevention, and community organization for maintaining and improving health in society.
Offered: FA, SP.

HSC 2400 - First Aid and Injuries (3 cc)
Includes standards and accepted principles of first aid, discussion and laboratory practices in dressings and bandages, wounds and their care, rescue breathing and CPR, poisonings, fractures, burns, and transportation of the injured. The course includes the American Red Cross first aid course. Upon successful completion of all tests, students will be certified in CPR and Basic First Aid.
Offered: FA, SP. Notes: Lab Fee.

HSC 2550 - Pathophysiology (3 cc)
A study of the nature, cause, and treatment of specific disease entities. Basic understanding of the body’s defense mechanism and modalities to treat disease.
Prerequisite: BSC 1080, BSC 1080L, HSC 1531. Offered: FA, SP. Notes: AS only.
HSC 2641 - Health Care Law (3 cc)
An introduction to health-care law. Covers the legal aspects of the delivery of health care in various settings. Includes an introduction to the American legal system, the liabilities of health-care organizations and health care professionals, patient rights and responsibilities, labor relations, and insurance, among other topics. Offered: SP.

HSC 2930 - Special Topics in Healthcare Management (1 cc)
A comprehensive review of the student's practicum experience through creation of a detailed portfolio. Corequisite: HSC 2802L. Offered: SP.

HUM - HUMANITIES

HUM 2020 - Introduction to Humanities (3 cc)
An integrated approach to the study of the humanities which examines philosophy, literature and the arts in terms of their relationships. The emphasis throughout the course will be on the ways in which a shared cultural outlook gives meaning to the human experience. This course examines the cultural achievements from the Ancient World to the Contemporary Era. There will be lectures, correlated readings and illustrations or representative works from each period studied.
Prerequisite: Grade of C or better in ENC1101C. Distribution: General Education, Humanities. A writing emphasis course. Offered: FA, SP, SU.

HUM 2454 - African-American Humanities (3 cc)
The course will examine the impact that the Atlantic slave trade has had on the new world. It will trace Western African culture and how it "re-appears" in the Caribbean, Latin America and North America. The course will examine the history, music, literature and art of these places as well.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Humanities. Offered: FA, SP, SU.

HUM 2740 - Humanities Travel (3 cc)
Each offering is specially designed to expose the student to the culture of other countries. The exact itinerary and experience is determined by the faculty member in charge. Inquiries should be made to the appropriate department head.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better.

HUS - HUMAN SERVICES

HUS 2400 - Drugs and Behavior (3 cc)
"Addiction" is often, incorrectly, equated with physical dependence. In this course, we will come to understand "addiction" in terms of its defining patterns of behavior; and examine the effects of addiction on family dynamics and society. The different classes of drugs will be discussed. Also, the scope of the problem of chemical dependence and possibilities for intervention and treatment will be examined.
Offered: FA, SP.

IDH - INTERDISCIPLINARY HONORS

IDH 2109 - Summer Study at Cambridge University (6 cc)
This is an interdisciplinary humanities course that students will take at Cambridge University International Summer School in England. Students will choose two courses in literature, art, music, theater, international relations, or cultural studies. In addition, they will attend daily plenary lectures given by various international scholars. Specific course outlines are available for every course that students will take in the International summer School.
Prerequisite: Test score requirement the same as ENC 1101C, completion of nine credits of core courses in the Honors Program. Distribution: Meets AA general education Category V. A writing emphasis course. Offered: SU.

INR - INTERNATIONAL RELATIONS

INR 2002 - Introduction to International Relations (3 cc)
The student who successfully completes this course will develop a framework for the logical analysis of international politics. By combining the study of historical events of international importance and the study of various theories of international behavior, the student will develop an ability to evaluate and comprehend current world events. This course will address: the structure of the nation-state system; the motivations, interests and interactions of the various actors; the cultural and structural effects on decision-making and crises management; and the various ways in which we can think about international relations. The student should gain a better appreciation for and a deeper comprehension of the variety and complexity of the behavior of states and the system which governs international relations today.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Social Sciences. Offered: SP.

IPM - INTEGRATED PEST MANAGEMENT

IPM 1011 - Pests and Pest Control (2 cc)
This course is designed to provide information on identification and control of plant diseases, insects and weeds in woody ornamentals. Information on fungicides, bactericides, insecticides, nematicides, herbicides, EPA regulations and training for state licensing will be included.
Corequisite: IPM 1011L. Offered: TBA. Notes: AS only.
IPM 1011L - Pests and Pest Control Laboratory (1 cc)
Corequisite: IPM 1011. A course designed to provide experience in recognition, identification and control of plant pests. Study and use of equipment and chemicals for their prevention and control. Students are expected to participate in use of chemicals and spray equipment. Occasional field trips are required. Offered: TBA.
Notes: Lab Fee. AS only.

ISM - INFORMATION SYSTEMS MANAGEMENT

ISM 4013 - Management Information Systems (3 cc)
This course addresses key technology management issues as they are applied to information resources management (IRM) for information centers and information services. The course will include fundamentals of networking and telecommunications covering LAN’s to “Information Superhighways.” The course also includes introduction to voice, data and video traffic requirements and covers techniques for management of communication resources and services and information to oversee the network administration and network system management.
Offered: FA.

ISM 4314 - Project and Change Management for Information Technology (3 cc)
An overview of the fundamental knowledge areas related to successful project management. Topics include project selection and initiation, work breakdown structure and scope management, scheduling, budgeting and cost analysis, quality control, project communication plans, project risk analysis, resource leveling, and procurement issues. This course prepares the student for the Project Management Institute’s CAPM certification.
Prerequisite: CTS 2149 or CET 2934 or CompTIA Project+ (PKO-003) certification or PMI CAPM certification. Offered: SP.

ITA – ITALIAN LANGUAGE

ITA 1120 – Beginning Italian I (3 cc)
Development of basic skills in listening, speaking, reading, and writing with an introduction to culture. Students with two consecutive years of high school Italian within the last 3 years with a grade of C or higher should begin in ITA1121.
Offered: FA.

ITA 1121 – Beginning Italian II (3 cc)
Continued development of basic skills in listening, speaking, reading, and writing with greater emphasis on culture.
Prerequisite: Grade of C or better in ITA1120 within the last 3 years or departmental approval. Distribution: General Education, Humanities. Offered: SP.

JOU - JOURNALISM

JOU 1400 - College Publications (1 cc)
Introduces the student to the practical world of print and online journalism. The course surveys news and feature writing, headline writing, and legal concerns (libel, privacy). Students electing to take the course a second or third time work on special projects.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA, SP.

JOU 2941 - Journalism Practicum (1 cc)
Internship with an area publication or agency. The publication (or agency), the college, and the student arrange work schedules.
Offered: TBA.

LAT-LATIN-LANGUAGE-STUDY

LAT 1120 - Beginning Latin I (4 cc)
Emphasizes fundamental skills in Latin comprehension, expression, and structure. An introduction to Roman culture.
Students with two consecutive years of high school Latin within the last 3 years with a grade of C or higher should begin in LAT 1121.
Offered: FA.

LAT 1121 - Beginning Latin II (4 cc)
Continued development of basic skills with greater emphasis on Roman history and culture.
Prerequisite: Grade of C or better in LAT1120 within the last 3 years, or departmental approval. Distribution: General Education, Humanities. Offered: SP.

LDE - LANDSCAPE DESIGN

LDE 2000C - Landscape Design (3 cc)
Students practice analysis of landscape design, emphasizing residential and commercial properties.
Offered: TBA. Notes: AS only. Lab Fee.

LEI - LEISURE

LEI 1141 - Introduction to Recreation and Leisure Services (3 cc)
Primarily designed to serve those students curious about or committed to Leisure Services as a major. Considers historical and philosophical foundations and interpretations of the meaning of leisure as well as a practical examination of status and crucial issues. Served well also are students seeking a personal perspective on the value and place of leisure in their lives.
Offered: FA.

LEI 1541 - Outdoor Recreation Management (3 cc)
An orientation and participation course for those students who plan to pursue a career in Recreation and Leisure Services. Course includes outdoor activity planning, conservation, nature activities, safety and hazard procedures and outdoor facility management. Field observation is included as a part of the course.
Offered: SU.

LEI 2730 - Adaptive/Therapeutic Recreation (3 cc)
Designed to develop the beginning-level knowledge and skills of students who aspire to meet individual needs in sport, recreation or rehabilitation settings. It covers the rapidly expanding knowledge base of adaptive physical activity as a profession.
Offered: FA.
LIS - LIBRARY AND INFORMATION STUDIES

LIS 1004 - Introduction to Internet Research (1 cc)
This course provides an introduction to Internet search concepts and vocabulary. Emphasis is on using a variety of search terms and techniques employed in library research to access information sites on the Internet. Lessons cover history of the Internet; electronic communication; research strategies covering topic decision making using a variety of search statements, refining searches using Boolean terms, phrase, proximity, truncation and field searching; web search tools; evaluating websites and documentation of websites using Modern Language Association (MLA) standards.
Distribution: Meets AA, AS computer competence requirements. Offered: FA, SP, SU. Notes: Lab Fee.

LIS 2005 - Information and Internet Research (3 cc)
Emphasizes critical thinking and introduces students to research skills. Students will develop skills and techniques necessary to interpret and use information effectively personally, as well as to locate, evaluate, cite, and use relevant online and print resources for class assignments and personal research.
Distribution: General Education, Communications. Offered: FA, SP, SU. Notes: Lab fee.

LIT - LITERATURE
These courses meet the general education literature requirement. Literature courses further the ability to understand literary devices and language; to appreciate a text and its socio-cultural and historical contexts; to evaluate a text, whether fiction or non-fiction, for its literal and figurative meanings; and to synthesize and communicate the understanding of a text. Further, literature enriches understanding of and appreciation for the diversity of human experience.

LIT 2090 - Contemporary Literature (3 cc)
Selected literature of the mid-to-late twentieth and twenty-first centuries.
Prerequisite: Grade of C or better in ENC 1102. Distribution: A.A. general education literature requirement. A writing emphasis course. Offered: FA, SP, SU.

LIT 2110 - World Literature to 1650 (3 cc)
Selected literature from the classical period, the Middle Ages, and the Renaissance.
Prerequisite: Grade of C or better in ENC 1102. Distribution: A.A. general education literature requirement. A writing emphasis course. Offered: FA, SP.

LIT 2120 - World Literature from 1650 (3 cc)
Selected literature from the Age of Enlightenment to the beginning of the twentieth century.
Prerequisite: Grade of C or better in ENC 1102. Distribution: A.A. general education literature requirement. A writing emphasis course. Offered: FA, SP.

LIT 2933 - Special Topics in Literature (3 cc)
A course designed to allow flexibility in presenting a variety of topics in literature, such as Southern Literature, Science Fiction, and Children's Literature.
Prerequisite: Grade of C or better in ENC 1102. Distribution: A writing emphasis course. Offered: TBA.

MAC - MATHEMATICS-CALCULUS AND PRECALCULUS

MAC 1105 - College Algebra (3 cc)
Covers the following topics: functions and functional notation; domains and ranges of functions; graphs of functions and relations; operations on functions; inverse functions; linear, quadratic, and rational functions; absolute value and radical functions; exponential and logarithmic properties, functions, and equations; systems of equations and inequalities, applications (such as curve fitting, modeling, optimization, exponential and logarithmic growth and decay.)
Prerequisite: Appropriate placement score or completion of MAT1033C with a grade of C or better. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MAC 1114 - Plane Trigonometry (3 cc)
This is a basic course designed to prepare the student for more advanced mathematics. The course treats both circular and trigonometric functions. Topics covered include fundamental concepts, identities, graphs of the functions, the inverse functions and their graphs, application to right and oblique triangles, trigonometric equations, vectors, and complex numbers.
Prerequisite: Appropriate placement score or completion of MAC 1105 with a grade of C or better. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MAC 1140 - Precalculus Algebra (3 cc)
This course furthers the preparation of students in important areas such as graphing techniques, algebraic functions, and transcendental functions. Special emphasis is given to the algebra needed in calculus. Calculators are used to contribute to the goals of the course.
Prerequisite: Appropriate placement score or completion of MAC 1105 with a grade of C or better. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MAC 1147 - Precalculus Algebra/Trigonometry (4 cc)
This course furthers the preparation of students in important areas such as graphing techniques, algebraic functions, trigonometry functions and transcendental functions. Special emphasis is given to the algebra needed in calculus. Calculators are used to contribute to the goals of the course. A background in Trig. is essential. Enrollment by permission only.
Prerequisite: Appropriate placement score or completion of MAC 1105 with a grade of C or better and high school trigonometry; by permission of department head only. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MAC 2233 - Calculus with Business Applications I (3 cc)
Designed for the business major. Topics include graphing techniques, differential calculus, exponential and logarithmic functions; with applications to supply and demand curves, cost functions, revenue and profit functions, market equilibrium, taxation, and elasticity.
Prerequisite: Appropriate placement score or completion of MAC 1105 with a grade of C or better. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MAC 2234 - Calculus with Business Applications II (3 cc)
Designed for the business major. Integral calculus, techniques of integration, multivariable calculus, differential equations, sequences and series, systems of equations, matrices, linear programming, with applications to business, economics, geometry, the social and physical sciences.
Prerequisite: Grade of C or better in MAC 2233. Offered: TBA.
MAC 2311 - Analytic Geometry and Calculus I (4 cc)
This course consists of elements of plane analytic geometry, differentiation of algebraic and transcendental functions, integration techniques of algebraic and trigonometric functions, and related applications.
Prerequisite: Appropriate placement score or completion of MAC 1140 and MAC 1144 or MAC 1147 with a grade of C. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MAC 2312 - Analytic Geometry and Calculus II (4 cc)
A course including differentiation and integration of the trigonometric, logarithmic, and exponential functions; integration by algebraic and trigonometric substitutions, partial fractions, and parts, vectors, polar coordinates, and an introduction to series and sequences.
Prerequisite: Completion of MAC 2311 with a grade of C or better. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MAC 2313 - Analytic Geometry and Calculus III (4 cc)
This course includes a study of vectors, solid analytic geometry, infinite series, partial differentiation, multiple integrals, and integration in 3-dimensional space.
Prerequisite: Completion of MAC 2312 with a grade of C or better. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MAN - MANAGEMENT

MAN 2021 - Principles of Management (3 cc)
The basic principles of planning, organizing, and controlling operations in the process of management. Emphasis is directed toward the development on the part of the student of soundly coordinated managerial philosophy.
Offered: FA, SP, SU.

MAN 3063 - Professional Ethics and Values (3 cc)
Personal, organizational, societal values and ethics in our society. Topics covered include exploration of individual ethics, values, and goals; the study of ethical behavior within organizations as it influences people, products, and work environment; exploration of values, ethics, beliefs upon which a free market system of production exchange is built; exploration of individual roles as well as appropriate roles of organizations; government in society.
Offered: FA, SP.

MAN 3240 - Organizational Behavior (3 cc)
Individual group, and organizational issues that affect and shape businesses. Topics include: individual differences, motivation, communications, decision making, and leadership.
Offered: FA, SP, SU.

MAN 3303 - Theories of Leadership (3 cc)
This course presents the basic concepts, principles, and techniques of business leadership. Emphasis will be on the student developing a solid leadership foundation while centering them in the real themes, demands, and opportunities of an evolving and dynamic business workplace. This course will incorporate basic leadership skill development as it relates to the core aspects of the management practice.
Offered: FA, SP, SU.

MAN 3350 - Training & Development (3 cc)
The study of the various forms of training and development both on and off the job. Major topics include learning theory, the role of personnel, training and development methods and plans, and performance improvement, and current issues in the field.
Offered: FA.

MAN 3353 - Management Theory (3 cc)
Covers the management theories which leads to the development of teams, the management of people and equipment as well as the motivation, empowerment and coaching of employees. The development of processes and procedures, negotiating skills, and conflict management are also covered.
Offered: FA, SP, SU.

MAN 3503 - Managerial Risk Analysis and Decision Making (3 cc)
Concentrates on practical decision problems for the manager in an organization. Topics include decision-making theory, linear programming and extensions, Markov Chains, queuing, simulation, and decision support systems. Use of computer packages.
Offered: SP, SU.

MAN 3583 - Project Management (3 cc)
This course provides conceptual material on project management techniques appropriate in system/subsystems management. Topics include project management functions, project manager roles and responsibilities, the project life cycle, and conflict resolution, emphasis will be placed on project oversight issues across the various business units and functions.
Offered: FA, SP.

MAN 3600 - International Business (3 cc)
An intensive analysis of the process, practice, and theory of international business; financial accounting, marketing, and legal aspects of multinational business operations; governmental assistance to international business; cultural environmental business to include factors such as language, religion, values and attitudes, law, education, politics, technology, and social organization.
Offered: SP.

MAN 4113 - Managing Diversity (3 cc)
Covers questions, dimensions of style and structure, problems and paradigms of solutions that have come out of management experience of a changing workforce during the past twenty years. Emerging styles of leadership among people of diverse cultural backgrounds will be explored as solutions, not as problems.
Offered: FA, SP, SU.

MAN 4162 - Customer Relations in Business (3 cc)
Examines relationship building for all customers of an organization. The impact of culture and diversity on business relationships, successful negotiation strategies, and promotion of the organization through media relations are discussed.
Offered: SU.

MAN 4301 - Human Resource Administration (3 cc)
A study of personnel management and practices with emphasis on the techniques of recruiting, selecting, transferring, promoting, classifying and training workers.
Offered: FA, SP, SU.
MAN 4320 - Recruitment and Selection (3 cc)
In-depth study of the personnel staffing function. Includes an analysis of objectives, techniques, and procedures for forecasting manpower needs, recruiting candidates, and selecting employees. Prerequisite: COM 2100, MAN 2021, MNA 1300. Offered: FA.

MAN 4330 - Compensation Management (3 cc)
Teaches students about the strategic use of compensation and benefits systems for the purposes of attracting, retaining, and motivating a competitive workforce. Prerequisite: COM 2100, MAN 2120, MNA 1300. Offered: SP.

MAN 4335 - Employee Benefit Planning (3 cc)
An in-depth study of wage and nonwage related benefits made available to employees by the firm and various related social and governmental programs. Prerequisite: COM 2100, MAN 2021, MNA 1300. Offered: SP.

MAN 4352 - Effective Employee Training (3 cc)
Focuses on professional development activities as performed by human resources specialists or organizational specialists. Theory, issues, practice and problems are discussed. Prerequisite: COM 2100, MAN 2021, MNA 1300. Offered: SP.

MAN 4402 - Employment Law & Regulations (3 cc)
Federal and State regulation of the employment relationship, including Wage and Hour Laws; EEO; Affirmative Action Programs; Employee Benefits; Insurance; Workers’ Compensation, Safety, Health, Employee’s Personal Rights; Collective Bargaining Legislation. Offered: SU.

MAN 4520 - Total Quality Management (3 cc)
Teaches the significance of quality as a primary competitive strategy for successful business organizations using six sigma methodologies. The impact of quality focus on increasing customer satisfaction is changing the manner in which business organizations function. The student will recognize that quality focused business organizations are evolving into very different environments in which to work and manage. This quality imperative is relevant for both industrial and service sector organizations. The student will be exposed to the critical issues of total quality management through reading, case studies, class discussion, and outside speakers. Offered: FA. Notes: Lab Fee.

MAN 4555 - Quality Certification: ISO 9000 (3 cc)
A comprehensive study of internationally uniform quality standards (ISO 9000) and the steps to individual and organizational certification; includes management responsibility, quality system documentation, contract review, design control, process control, inspection and testing, corrective actions, and other certification topics. Offered: SP. Notes: Lab Fee.

MAN 4584 - Process Improvement Methodology (3 cc)
Presents the basic principles and techniques used to manage process improvement. Teaches today’s managers to understand how to engage people in process improvement as well as how to critically understand and apply the associated methodologies. Process improvement is complicated and dynamic, encompassing a variety of traditionally recognized approaches. Prerequisite: COM 2100, CTS 2433, MAN 2021. Offered: SP.

MAN 4720 - Strategic Management (3 cc)
Students in this course take the view of an organization’s general manager. They address how firms use their resources (technology, managerial know-how, employees, capital, etc.) To pursue their goals and adapt to the environment (competition customers, economic/political/sociological conditions, global and domestic markets). Strategic management is about setting priorities for where a firm wants to go and how to get there. Students work to develop managerial skills such as leadership, communication, and data analysis. Offered: FA, SP, SU.

MAN 4741 - Innovation, Change, and Agile Process (3 cc)
An overview of concepts and strategies to select optimal options for change, use management and leadership skills to build broad support for change, foster innovation, and successfully execute change through solid project management practices. Prerequisite: COM 2100, CTS 2433, MAN 2021. Offered: FA.

MAN 4881 - Authority, Influence, and Projects (3 cc)
Builds leadership and management skills that facilitate the effective execution of objectives where stakeholders and resources come from multiple areas, locations, budgets, and organizational substructures. Prerequisite: COM 2100, CTS 2433, MAN 2021. Offered: SU.

MAP - MATHEMATICS APPLIED

MAP 2302 - Differential Equations (3 cc)
A course in ordinary differential equations. It includes solutions to first and higher order differential equations, series solutions of linear differential equations, graphical and numerical methods, and an introduction to the Laplace Transform. Prerequisite: Completion of MAC 2312 with a grade of C or better. Corequisite: MAC 2313. Distribution: General Education, Mathematics. Offered: SP.

MAR - MARKETING

MAR 2011 - Marketing (3 cc)
The analysis of the potential target market, the marketing mix in relation to its market, channels of distribution, sales promotion, and marketing management. Offered: FA, SP, SU.

MAR 3802 - Marketing for Managers (3 cc)
Students will develop marketing skills necessary for the successful technology manager. Students will understand the strategies of marketing and the ways in which one executes a marketing plan. The course covers full life-cycle product marketing support as well as the marketing of services. Offered: SP.

MAT - MATHEMATICS

MAT 1033C - Intermediate Algebra (3 cc)
Covers the following topics: factoring, algebraic fractions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, linear equations, linear inequalities, and inequalities in two variables and their graphs, systems of linear equations and inequalities introduction to functions, and applications of the above topics. Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA, SP, SU. Notes: Lab Fee.
**MCB - MICROBIOLOGY**

**MCB 1000 - Applied Microbiology (3 cc)**

This course consists of the study of the characteristics and activities of microorganisms; survey of microbial groups with emphasis on pathogenic forms; theories of destruction, removal and inhibition of microorganisms; relationships between infection, immunity, and allergy. While the course is recommended for student nurses and dental hygienists, students in other programs will be admitted. Corequisite: MCB 1000L. Offered: FA, SP, SU.

**MCB 1000L - Applied Microbiology Laboratory (1 cc)**

Laboratory course to complement MCB 1000. In laboratory, students will learn aseptic techniques, culture of microorganisms, and use a variety of microorganismic and metabolic tests to identify organisms. Corequisite: MCB 1000. Offered: FA, SP, SU. Notes: Lab Fee.

**MCB 2010 - General Microbiology (3 cc)**

A study of the taxonomy, morphology, and physiology of bacteria and related organisms, with a brief introduction to pathology, immunology, and food microbiology. Recommended for majors and students in certain four-year medically related programs. Prerequisite: Grade of C or better in BSC 1010 and BSC 1010L, CHM 1045, and CHM 1045L or CHM 1045C. Corequisite: MCB 2010L. Offered: SP.

**MCB 2010L - General Microbiology Laboratory (1 cc)**

A laboratory course designed to accompany MCB 2010. Laboratory work includes stains and techniques used to culture and identify microorganisms, techniques in biotechnology and studies in pathogenesis and disease transmission. Prerequisite: Grade of C or better in BSC 1010 and BSC 1010L, CHM 1045, and CHM 1045L or CHM 1045C. Corequisite: MCB 2010. Offered: TBA. Notes: Lab Fee.

**MEA - MEDICAL ASSISTING TECHNOLOGY**

**MEA 0250 - Introduction to Medical Assisting (250 ch)**

Prepares competent entry-level Medical Assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains in Medical Assisting. Introduces Medical Assisting students to the communication skills, legal responsibilities of the profession, and provides foundational understanding of anatomy and physiology concepts in both illness and wellness states. Corequisite: HSC 0003C, MEA 0501C, MEA 0521C, MEA 0543C. Offered: FA. Notes: Lab fee.

**MEA 0501C - Medical Office Procedures (75 ch)**

Prepares competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains in medical office procedures. Introduces students to basic clerical and medical office duties that Medical Assistants may perform. Topics include: effective communication skills, filing systems, maintenance of medical records, scheduling routine appointments, and government regulations, compliance, and scope of practice for Medical Assistants. Corequisite: HSC 0003C, MEA 0502, MEA 0521C, MEA 0543C. Offered: FA.

**MEA 0506C - Administrative Office Procedures (90 ch)**

Prepares competent entry-level Medical Assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains in medical office procedures. Introduces basic clerical and medical office duties that Medical Assistants may perform. Topics include: effective communication skills, filing systems, maintenance of medical records, scheduling routine appointments, and government regulations, compliance, and scope of practice for Medical Assistants. Prerequisite: Grade of C or better in HSC 0003C, MEA 0502, MEA 0501C, MEA 0521C, MEA 0543C. Corequisite: MEA 0530C, MEA 0573C, MEA 0581C. Offered: SP.

**MEA 0520C - Phlebotomist (75 ch)**

Trains participants in the basic and supporting skills of the phlebotomist. Skills include: specimen collection by venipuncture and capillary puncture, basic anatomy and physiology, infection control, safety, and patient relations. Upon satisfactory completion of this program, graduates will earn an Occupation Completion Point certificate for Phlebotomist (75) hours as per the Florida Department of Education. Includes clinical experience. Corequisite: Grade of C or better in HSC 0003C. Offered: FA, SP, SU. Notes: Lab Fee.

**MEA 0521C - Phlebotomist, MA (75 ch)**

Provides Medical Assisting students the theory and clinical skills necessary to perform phlebotomy in a medical setting. Upon successful completion of this course, the student will receive an Occupational completion Point certificate, Phlebotomist, MA (75 hours) as per the Florida Department of Education. Prerequisite: Grade of C or better in HSC 0003C, MEA 0500, MEA 0543C. Offered: FA. Notes: Lab Fee.

**MEA 0522L - Phlebotomy Clinic (120 ch)**

Provides students with the additional clinical procedural skills necessary to meet the clinical hour’s requirement to take the Phlebotomist Certification examination through the National Healthcare Association (NHA) and the American Society for Clinical Pathology (ASCP) Board of Certification. Prerequisite: Grade of C or better in HSC 0003C, MEA 0520C. Offered: FA, SP SU.

**MEA 0530C - Pharmacology for Medical Assisting (110 ch)**

Prepares competent entry-level Medical Assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains pharmacology. Introduces the principles of pharmacology, including drug terminology; drug origins, forms, and actions; routes of administration; as well as the use of generic name drugs, trade name drugs, and categories of drugs to treat various body systems. Prerequisite: Grade of C or better in HSC 0003C, MEA 0002, MEA 0501C, MEA 0521C, MEA 0543C. Corequisite: MEA 0506C, MEA 0573C, MEA 0581C. Offered: SP. Notes: Lab fee.
opportunities for employment in a medical field. Prerequisite: Grade of C or better in HSC 0003C. Offered: FA. Notes: Lab fee.

MEA 0541C - EKG Technician (300 ch)
Provides advanced procedures for performing EKGs, stress testing, and monitoring telemetry. Upon successful completion of this course, the student will receive an Occupational Completion Certificate of 300 hours as an EKG Technician as per Florida Department of Education. Prerequisite: Admission to a health related program or permission of the Department head. Corequisite: Grade of C or better in HSC 0003C, MEA 0500, MEA 0543C. Offered: SP. Notes: Lab fee.

MEA 0543C - EKG Aide, MA (75 ch)
Provides Medical Assisting students the theory and clinical skills necessary to perform EGKs in a medical setting. Upon satisfactory completion of this course, the student will receive an Occupational Completion Certificate as an EKG Aide as per Florida Department of Education. Corequisite: Grade of C or better in HSC 0003C, MEA 0540C, MEA 0581C. Offered: FA. Notes: Lab fee.

MEA 0573C - Laboratory Procedures (125 ch)
Prepares competent entry-level Medical Assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains in medical assisting laboratory procedures. Prerequisite: Grade of C or better in HSC 0003C, MEA 0500, MEA 0540C, MEA 0581C. Offered: SP. Notes: Lab fee.

MEA 0581C - Clinical Assisting (230 ch)
Prepares competent entry-level Medical Assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains in clinical assisting. Introduces Medical Assisting students to the communication skills and legal responsibilities of the profession. Provides a foundational understanding of anatomy and physiology concepts in both illness and wellness states. Prerequisite: Grade of C or better in HSC 0003C, MEA 0501C, MEA 0543C. Corequisite: MEA 0506C, MEA 0530C, MEA 0581C. Offered: SP. Notes: Lab fee.

MEA 0942L - Practicum Experience (180 ch)
On-the-job training designed to provide the student work experience in a medical agency or physician’s office. The experience allows the student to practice skill learned in the classroom, build confidence, adjust to a work environment, and increase opportunities for employment in a medical field. Prerequisite: Grade of C or better in MEA 0506C, MEA 0530C, MEA 0573C, MEA 0581C. Offered: SU. Notes: Lab fee.

MET - METEOROLOGY
MET 1010 - Introduction to Meteorology (3 cc)
An introduction to the atmosphere, its structure, composition and processes. Major topics will include atmospheric structure and composition, heating and cooling, temperature, pressure and winds, weather systems and climate. Distribution: General Education, Natural Sciences (Physical Sciences). Offered: FA, SP.

MGF - MATHEMATICS-GENERAL AND FINITE
MGF 1106 - Mathematics for Liberal Arts I (3 cc)
Consists of the following topics: set theory, symbolic logic, introductory combinatorics, probability, descriptive statistics, number theory, linear programming and geometries with applications, history of mathematics, and algebra applications. Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MGF 1107 - Mathematics for Liberal Arts II (3 cc)
Consists of the following topics: financial mathematics, linear and exponential growth, numbers and number systems, history of mathematics, elementary number theory, voting techniques, graph theory and society. Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

MKA - MARKETING APPLICATIONS
MKA 2511 - Advertising (3 cc)
A study of the basic promotional objective, advertising markets, the product to be advertised, media, and the composition of the advertisement. Offered: FA, SP. Notes: AS only.

MMC - MASS MEDIA COMMUNICATIONS
MMC 2000 - Survey of Mass Communication (3 cc)
This course covers the history and development of mass media and how those media affect society. Media covered include the Internet, newspapers, magazines, radio, television, and film along with a study of the impact of advertising and public relations. Distribution: General Education, Communications. Offered: FA, SP.

MNA-MANAGEMENT-APPLIED
MNA 1161 - Customer Service (3 cc)
Teaches and improves customer service skills and professionalism of the student. This course teaches customer relations and customer service skills that are applicable to any job position that the student has contact with customers. Included in the topics of the course are the subjects of communication, customer service, handling complaints and customer relations. Offered: FA, SP, SU.
MNA 1300 - Human Resource Management (3 cc)
This course presents the functions of a personnel manager, the philosophy of general management, organizational structure, employee socio-economic climate and career job finding information. Included are job descriptions and specifications, recruiting practices, correspondence for job application, resumes, interviewing, placement, training, performance appraisals, motivational techniques, union-management relations, and wage and salary administration.
Offered: FA, SP, SU.

MNA 2100 - Human Relations (3 cc)
This course includes the patterns of human behavior that lead to effective work relationships, an analysis of factors that shape the industrial environment and influence the human relations that develop within this environment, and the application of psychological principles of the business problems of leadership and motivation, productivity and morale, personnel and industrial relations policy.
Offered: FA, SP, SU.

MSS - MASSAGE

MSS 0205C - MASSAGE THERAPY I (285 ch)
Covers the principles and theories of therapeutic massage and the proper techniques of massage manipulations. Additional content includes the principles and theory of hydrotherapy and hydrotherapy modalities. Safety and health practices that are conducive to the hygiene of massage therapist and the client/patient will be stressed.
Prerequisite: Permission of the Instructor. Offered: FA. Notes: Lab Fee.

MSS 0206C - MASSAGE THERAPY II (375 ch)
Advances the students’ knowledge of message principles and techniques and to equip students with an understanding of the Florida massage practice act and the rules of the Florida Board of Massage Therapy (Chapter 480, F.S.; Chapter 64b7.) Additional content includes: allied studies related to massage therapy, human anatomy and physiology as related to massage therapy and basic information related to business practices and standards.
Prerequisite: MSS 0205C or permission of the instructor. Offered: SP. Notes: Lab Fee.

MSS 0207C - Massage Therapy A (180 ch)
Introduces the principles and theories of therapeutic massage and the proper techniques of massage manipulations. Additional content includes the introduction of principles and theory of hydrotherapy and hydrotherapy modalities. Safety and health practices that are conducive to the hygiene of massage therapist and the client/patient will be stressed. Laboratory and clinical activities are an integral part of this class.
Prerequisite: Permission of the instructor. Offered: SP. Notes: Lab Fee.

MSS 0215 - Legal and Ethical Compliance to Florida Law (30 ch)
Discusses the practice of good business ethics, Florida Law and medical errors and will offer an introduction to Nutrition. This course will present a logical sequence of the necessary steps for practical judgment of ethical behavior in the operations of a small business. The course also will provide knowledge of a safe medical environment.
Offered: FA, SP, SU.

MSS 0262C - Massage Therapy B (210 ch)
Expands the student’s knowledge of therapeutic massage, massage manipulations, hydrotherapy and hydrotherapy modalities. Safety and health practices that are conducive to the hygiene of massage therapist and the client/patient will be stressed. Laboratory and clinical activities are an integral part of this class.
Prerequisite: Permission of the instructor. Offered: SU. Notes: Lab Fee.

MSS 0263C - Massage Therapy C (270 ch)
Equips students with an understanding of the Florida Massage Practice Act and the rules of the Florida Board of Massage Therapy (Chapter 480, F.S.; Chapter 64b7.) Additional content includes: allied studies related to massage therapy, human anatomy and physiology as related to massage therapy and basic information related to business practices and standards. Laboratory and clinical activities are an integral part of this class.
Prerequisite: MSS 0262C or permission of the instructor. Offered: FA. Notes: Lab Fee.
MSS 0401 - OSHA/AIDS Training for Massage Therapists
(30 ch)
Intended for individuals that currently hold a valid non-Florida massage therapy license who intend to transfer their license and need to meet Florida requirements. This program meets the Department of Health HIV/AIDS Domestic Violence and Prevention of Medical Errors education requirements. The course also covers procedures based on Occupations Safety and Health Administration (OSHA) and Centers for Disease Control (CDC) regulations (including standard precautions).
Offered: FA, SP, SU.

MSS 0960L - National Board Prep (30 ch)
Reviews pertinent areas in massage therapy in order to prepare the student for the National Board examination for licensure. This review course focuses on both theory and practical examination questions and provides the student with practice test in evaluating and answering situational problems.
Prerequisite: Permission of instructor. Offered: FA, SP, SU.

MUH-MUSIC-HISTORY-MUSICOLOGY

MUH 2110 - Introduction to Music History (3 cc)
A survey of music literature from the middle ages to the present. Emphasizes musical forms and performance medium from the Western heritage and their development through the ages.
Prerequisite: Grade of C or better in ENC 1101C. Distribution: General Education, Humanities. A writing emphasis course.
Offered: FA, SP.

MUL-MUSIC LITERATURE

MUL 2010 – Music Appreciation (3 cc)
A survey of music from the Middle Ages to the present, introducing the student to various types of music through the use of recordings. No previous musical experience necessary.
Distribution: General Education Core, Humanities. Offered: FA, SP, SU.

MUN-MUSIC-ENSEMBLES

MUN 1120C - Band (1 cc)
Open to all qualified instrumental students enrolled in the college. The credit received for participation, however, is in addition to the normal academic load. Required for all wind and percussion music majors unless otherwise specified by the director. This course may be repeated three times for credit.
Prerequisite: Permission of department head. Offered: FA, SP.

MUN 1180C - Pensacola Civic Band (1 cc)
Open to all qualified wind and percussion players who may also be members of MUN 1120C (other interested students should see the instructor prior to registering). This course may be repeated once for credit.
Prerequisite: Permission of department head. Offered: FA, SP, SU.

MUN 1310C - Concert Chorale (1 cc)
The Pensacola State College Concert Chorale is a mixed voice (SATB) chorus presenting concert performances of choral masterworks. A wide variety of musical styles centered around the classical repertoire and including popular, ethnic and theatre works performed a capella, with keyboard and orchestra provides a well-rounded musical experience for the choral student.
Offered: FA, SP.

MUN 1380C - Choral Society (1 cc)
A community organization devoted to the performance of major choral works. This course may be repeated once for credit by audition only.
Offered: FA, SP.

MUN 1410C - String Ensemble (1 cc)
An approach to ensemble singing or playing is available in several applied music areas. Course is open to all students with the permission of the instructor. Composition of the organization is dependent upon available talent. This course may be repeated three times for credit.
Prerequisite: Permission of instructor. Offered: FA, SP.

MUN 1450C - Piano Ensemble (1 cc)
An approach to ensemble singing or playing is available in several applied music areas. Course is open to all students with the permission of the instructor. Composition of the organization is dependent upon available talent. This course may be repeated three times for credit.
Prerequisite: Permission of instructor. Offered: FA, SP.

MUN 1480C - Music Ensemble (1 cc)
An approach to ensemble singing or playing is available in several applied music areas. Course is open to all students with the permission of the instructor. Composition of the organization is dependent upon available talent. This course may be repeated once for credit.
Prerequisite: Permission of instructor. Offered: FA, SP.

MUN 1710C - Jazz Ensemble (1 cc)
An approach to ensemble singing or playing is available in several applied music areas. Course is open to all students with the permission of the instructor. Composition of the organization is dependent upon available talent. To repeat for credit, see the Performing Arts department head.
Prerequisite: Permission of instructor. Offered: FA, SP.

MUN 1720C - Jazz Choir (1 cc)
A select ensemble of 12-16 of the finest student singers; open to all student singers in the capella chamber choir repertoire with an emphasis on jazz "tight -harmony" arrangements, Broadway and doo-wop.
Corequisite: MUN 1310C. Offered: FA, SP.

MUS - MUSIC

MUS 1201 - Vocal Diction (3 cc)
This course is a study in the correct manner of singing primarily Italian lyric diction. Students are introduced to the International Phonetic Alphabet as a means for studying the language. The course is designed to be taken by voice students who are concurrently enrolled in applied voice.
Offered: TBA.

MUS 1360 - Music and Computer (3 cc)
A course to introduce music students to the abilities of the computer and of MIDI with primary emphasis on entering, performing, and printing music through the program FINALE. Students will also be introduced to tutorials, databases, word processing, and the Internet.
Prerequisite: MUT 1001 or student must understand music.
Distribution: General Education, Communication. Offered: FA, SP, SU. Notes: Lab Fee.
MUT-MUSIC-THEORY

MUT 1001 - Fundamentals of Music (3 cc)
For students who wish to learn the mechanics of music but who have little or no background. Presentation of basic principles of music notation, rhythm, scales, key signatures, and terminology. Also a preparation course for students who wish to major in music. Offered: FA, SP, SU.

MUT 1111 - Music Theory I (3 cc)
The fundamentals of musicianship approached through visual and aural analysis, notation, scales and intervals, and formation of triads, leading to a study of harmony and nonharmonicism. Prerequisite: MUT 1001 or permission from department head. Corequisite: MUT 1241C. Offered: FA.

MUT 1112 - Music Theory II (3 cc)
Continuation of MUT1111. Modulation to closely related keys, chords of seventh. Prerequisite: MUT 1111 or permission from department head. Corequisite: MUT 1424C. Offered: SP.

MUT 1121 - Integrated Music Theory I (3 cc)
The fundamentals of musicianship approached through visual and aural analysis, notation, scales and intervals, and formation of triads, leading to a study of harmony and nonharmonicism. Elementary exercises in reading at sight and writing from dictation. Prerequisite: MUT 1001 or passing score on departmental music fundamentals test, or permission of department head. Offered: FA.

MUT 1122 - Integrated Music Theory II (3 cc)
A continuation of MUT 1121. Modulation to closely related keys; chords of the seventh. Further exercises in reading and writing for dictation. Prerequisite: MUT 1121 or permission of department head. Offered: SP.

MUT 2116 - Music Theory III (3 cc)
A continuation of MUT112 Music Theory II. A study of modulation to remote keys, binary and ternary form, and formation and use of diminished and diatonic seventh, dominant and ninth, eleventh and thirteenth, and borrowed chords. Prerequisite: MUT 1112 or permission from department head. Corequisite: MUT 2246C. Offered: SP.

MUT 2117 - Music Theory IV (3 cc)
A continuation of MUT 2116 Music Theory III. A brief introduction to two part counterpoint instrumentation, and modern composition with emphasis on completing the study of composition of the 18th and 19th centuries. There will be analysis of music of the 19th and 20th centuries. Prerequisite: MUT 2116 or permission from department head. Corequisite: MUT 2247C. Offered: SP.

MUT 2126 - Integrated Music Theory III (3 cc)
A continuation of MUT 1122. A study of modulation to remote keys, binary and ternary form, and formation and use of diminished and diatonic seventh, dominant and ninth, eleventh and thirteenth, and borrowed chords. Advanced problems in sight reading and dictation. Prerequisite: MUT 1122 or permission of department head. Offered: FA.

MUT 2127 - Integrated Music Theory IV (3 cc)
A continuation of MUT 2126. A brief introduction to two part counterpoint instrumentation and modern composition with emphasis on completing the study of composition of the 18th and 19th centuries. Analysis of music of the 19th and 20th centuries. Advanced problems in chromatic, sight reading and dictation. Prerequisite: MUT 2126 or permission of department head. Offered: SP.

MV-APPLIED MUSIC

MV 121__ - Applied Music (Principal Instrument) One 1/2 hour lesson a week (1 cc)
Private instruction in the student's secondary performing medium. Required for most music majors. See schedule for special fees. Open to music majors or minors. Open to general students if faculty load permits. For further information see department head. Offered: FA, SP, SU. Notes: Lab Fee.

MV 131__ - Applied Music (Principal Instrument)Two 1/2 hour lessons a week (1 cc)
Private instruction in the student's principal performing medium required of all music majors. Offered: FA, SP, SU. Notes: Lab Fee.

MV 141__ - Applied Music (Principal Instrument). Three 1/2 hour lessons a week (3 cc)
Applied music for the student who is advanced beyond the normal junior college level of performance. Offered: FA, SP, SU. Notes: Lab Fee.

MV 222__ - Applied Music (Principal Instrument) One 1/2 hour lesson a week (1 cc)
Private instruction in the student's secondary performing medium. Required for most music majors. See schedule for special fees. Open to music majors or minors. Open to general students if faculty load permits. For further information see department head. Offered: FA, SP, SU. Notes: Lab Fee.

MV 232__ - Applied Music (Principal Instrument)Two 1/2 hour lessons a week (1 cc)
Private instruction in the student's principal performing medium required of all music majors. Offered: FA, SP, SU. Notes: Lab Fee.

MV 242__ - Applied Music (Principal Instrument). Three 1/2 hour lessons a week (3 cc)
Applied music for the student who is advanced beyond the normal junior college level of performance. Offered: FA, SP, SU. Notes: Lab Fee.

MVK-APPLIED-MUSIC-KEYBOARD

MVK 1111C - Beginning Class Piano I (1 cc)
For beginners in the respective performance area. For further information, see the Performing Arts department head). Offered: FA, SP, SU. Notes: Lab Fee.

MVK 1112C - Beginning Class Piano II (1 cc)
This is a continuation of MVK 1111C. Prerequisite: MVK 1111C or permission of the instructor. Offered: SP. Notes: Lab Fee.
**MVK 1800C - Beginning Piano for Non-Music Majors (1 cc)**
This course is designed for the non-music major student who has had no previous musical instruction.
Offered: FA, SP. Notes: Lab Fee.

**MVS-APPLIED-MUSIC-STRINGS**

**MVS 1116C - Beginning Guitar Class (1 cc)**
This course is designed for the non-music major student who has had no previous musical instruction.
Offered: FA, SP, SU. Notes: Lab Fee.

**NSP-NURSING-SPECIAL**

**NSP 2050L - Special Topics in Nursing (1 cc)**
Provides instruction and practice in the basic skills needed to help the student who has interrupted the program of study to progress successfully through the associate degree nursing program. Emphasis is placed on concepts and skills needed to provide safe patient care. Specific learning needs will be addressed for each individual student. Special permission from the Director of Nursing is required.
Offered: FA, SP, SU. Notes: Lab Fee.

**NSP 2270C - Critical Care Nursing (9 cc)**
This advanced certificate is designed for the registered nurse who has had no previous experience in critical care. At the completion of this course it is expected that the nurse will be able to practice independently at the beginning level in a high acuity setting.
Course content includes knowledge and skills required to provide nursing care to patients with multi-system disorders.
Prerequisite: Licensure as a Registered Nurse. Offered: SU. Notes: Lab Fee.

**NSP 2290C - Perioperative Nursing (9 cc)**
The Perioperative Nursing course will provide Registered Nurses with basic knowledge and clinical skills necessary to function independently in an entry level Perioperative Nursing position.
Course content includes principles of aseptic technique, patient safety, universal protocol, and the nursing process in the perioperative setting. The course will also address ethical, moral, and legal issues as well as specific considerations for various types of procedures and specialty services in the circulating role.
Prerequisite: Licensure as Registered Nurse. Offered: FA. Notes: Lab Fee.

**NSP 3476 - Infection Control in Healthcare Setting (3 cc)**
Covers the importance of infection control in healthcare settings, especially in acute care. Issues and trends related to infectious processes in hospitals is a focus. Strategies to contain infection including the role of healthcare professionals are explored.
Prerequisite: NUR 3119, NUR 3955. Offered: SU. Notes: Lab Fee.

**NUR-NURSING-GENERIC-UNDERGRADUATE**

**NUR 1020C - Introduction to Nursing (8 cc)**
Introduces the nursing student to client care needs: safe effective care environment, health promotion and maintenance, psychosocial integrity, and physiological integrity. Client care needs, professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities form the integrated framework for clinical practice in long term and acute care settings.
Prerequisite: Admission to the program. Corequisite: HUN 1201.
Offered: FA, SP, SU. Notes: Lab Fee.

**NUR 1211C - Adult Health Nursing I (8 cc)**
The first of three adult-health nursing courses that focuses on basic care of adults. Client care needs (safe effective care environment, health promotion and maintenance, psychosocial integrity, and physiological integrity) and professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities form the integrated framework for clinical practice.
Prerequisite: Grade of C or better in NUR 1020C, NUR 1511. Offered: FA, SP, SU. Notes: Lab Fee.

**NUR 1511 - Mental Health I (1 cc)**
An introductory course designed for beginning nursing students to develop knowledge and skills with concepts such as: therapeutic environment, therapeutic communication, therapeutic relationships and additional foundations for safe and effective care. Studies will encompass legal and ethical issues of the nurse, including Florida Statutes, and the concept of professional boundaries.
Corequisite: NUR 1020C. Offered: FA, SP, SU. Notes: Lab Fee.

**NUR 2003C - Career Mobility Nursing Concepts (4 cc)**
This transition course introduces the role of the registered nurse to the LPNs. Client care needs (safe effective care environment, health promotion and maintenance, psychosocial integrity, and physiological integrity) and professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities form the integrated framework for clinical practice.
Prerequisite: Acceptance into Career Mobility Program. Offered: SU. Notes: Lab Fee.

**NUR 2212C - Adult Health Nursing III (6 cc)**
The last of three adult-health nursing courses that focuses on basic care of adults in high acuity states. Client care needs (safe effective care environment, health promotion and maintenance, psychosocial integrity, and physiological integrity) and professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities form the integrated framework for clinical practice.
Prerequisite: Grade of C or better in MCB 1000, MCB 1000L, NUR 2212C, NUR 2440C. Offered: FA, SP, SU. Notes: Lab Fee.
NUR 2212C - Adult Health Nursing II (6 cc)
The second of three adult-health nursing courses that focuses on care of adults with altered health states in acute care settings. Client care needs (safe effective care environment, health promotion and maintenance, psychosocial integrity, and physiological integrity) and professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities form the integrated framework for clinical practice.
Prerequisite: Grade of C or better in NUR 2211C. Offered: FA, SP, SU. Notes: Lab Fee.

NUR 2440C - Maternal-Child Health Nursing (6 cc)
This maternal-child health nursing course focuses on care of the child and family group during health and altered health states. Client care needs (safe effective care environment, health promotion and maintenance, psychosocial integrity, and physiological integrity) and professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities form the integrated framework for clinical practice.
Prerequisite: Grade of C or better in NUR 2211C. Offered: FA, SP, SU. Notes: Lab Fee.

NUR 2523C - Mental Health II (3 cc)
Focuses on the care of the child, adolescent and adult experiencing acute and chronic psychiatric alterations in health in inpatient and outpatient facilities. Client care needs (safe effective care environment, health promotion and maintenance, psychosocial and physiological integrity) and professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities form the integrated framework for clinical practice.
Prerequisite: Grade of C or better NUR 2213C. Corequisite: SYG 2000. Offered: FA, SP, SU. Notes: Lab Fee.

NUR 2811C - Transitional Practice/Preceptorship (4 cc)
Promotes student transition from student role to graduate professional nurse. Multiple client assignments in acute care settings with RN preceptors assisting faculty in supervision and evaluation of student preceptors. Management of care groups of clients and leadership functions with other health care team members are emphasized. Client care needs (safe effective care environment, health promotion and maintenance, psychosocial integrity, and physiological integrity) and professional behaviors, communication, clinical decision-making, caring interventions, teaching and learning, collaboration, and managing care activities form the integrated framework for clinical practice.
Prerequisite: Grade of C or better in NUR 2213C, NUR 2523C and Humanities elective. Offered: FA, SP, SU. Notes: Lab Fee.

NUR 3065 - Health Assessment and Physical Appraisal (4 cc)
Focuses on client assessment, health risks and formation of nursing diagnoses and health teaching. Emphasis is on the process of client interaction and use of appraisal skills in the collection of bio-psychosocial data across the life span. Students will be required to complete a physical assessment component in an on-campus lab setting.
Prerequisite: NUR 3119, NUR 3955. Offered: FA, SP. Notes: Lab Fee.

NUR 3119 - Professional Roles and Dimensions of Nursing Practice (3 cc)
An introduction to the history, trends, issues, and evolution of the nursing profession. The course includes an overview of selected nursing theorists and professional nursing practice in the changing health care delivery system. Opportunities will be presented that provide for the development of further socialization into the professional role of nursing.
Corequisite: NUR 3955. Offered: FA, SP. Notes: Lab Fee.

NUR 3125 - Pathophysiology: A Nursing Perspective (3 cc)
Focuses on cellular alterations in organ systems as they relate to selected disease states that impact the health of people as holistic beings. Special emphasis is on critical thinking and decision making related to these alterations in homeostatic dynamics, their presentation, and implications for nursing practice.
Prerequisite: NUR 3119, NUR 3955. Offered: SU.

NUR 3145 - Pharmacology in Nursing Practice (3 cc)
Builds on essential concepts and principles of pharmacology as applied in the nursing management of client care. Major concerns in health care include medication errors and medication reconciliation. Improvement in delivery processes to improve safety and quality of care thereby improving client outcomes is the focus of many regulatory agencies. This course will highlight issues in pharmacology and provide the student with basic knowledge for client care and education. This course will specifically address aspects of pharmacology related to the assessment and management of symptoms across the lifespan by providing the student with the in depth knowledge regarding the administration of pharmacologic therapies, the management of physical and psychological symptoms related to disease and treatment, and education related to safe and effective use of pharmacologic agents.
Prerequisite: NUR 3119, NUR 3955. Offered: SU.

NUR 3826 - Legal and Ethical Aspects of Nursing (3 cc)
An assessment of ethical and legal issues confronting nurses and other health care providers in a variety of settings. The course focuses on identification and analysis of legal and ethical concepts and principles underlying the critical thinking process in nursing and health care.
Prerequisite: NUR 3119, NUR 3955. Offered: FA, SP.

NUR 3955 - Portfolio I (1 cc)
Introduces students to the development of an electronic professional portfolio. The course will provide the student the opportunity to assume the responsibility for personal and professional growth as a lifelong learner.
Corequisite: NUR 3119. Offered: FA, SP.

NUR 4165 - Evidence-Based Nursing Practice (3 cc)
Overview of the skills needed to read, understand, evaluate, and use nursing research. This course focuses on research methods and the identification of researchable nursing problems.
Prerequisite: NUR 3119, NUR 3955, STA 2023. Offered: FA, SP, SU.

NUR 4616 - Nursing Across the Lifespan (3 cc)
Focuses on the nurse's role in managing the holistic health care of individuals and families with bio-psychosocial disruptions. Emphasis is on the nursing process and principles from nursing, physical sciences, and behavioral sciences to enhance knowledge development necessary for the promotion of client/family well-being throughout the life span.
Prerequisite: NUR 3119, NUR 3955. Offered: FA, SP, SU.
NUR 4636 - Nursing in Community Systems (3 cc)
Focuses on the holistic nursing role in the community. Emphasis is on concepts and theories related to community health nursing. Special attention is given to the community as client with emphasis on health promotion/disease prevention and teaching of groups in community settings.
Prerequisite: NUR 3119, NUR 3955. Corequisite: NUR 4636L.
Offered: FA, SP.

NUR 4636L - Community Systems Practicum (1 cc)
This course offers opportunities to practice the principles and theory of community health nursing in a variety of health care settings. Included are the identification of health care needs of the community as a client, and the nurse's role as a facilitator, teacher, and evaluator in promoting and maintaining health and wellness.
Prerequisite: NUR 3119, NUR 3955. Corequisite: NUR 4636.
Offered: FA, SP.

NUR 4827 - Organizational Behavior in the Healthcare Settings (3 cc)
Provides a foundational understanding of how nurse leaders apply the principles of management, leadership, and administrative processes in both private and public organizations. Focus topics include an emphasis on: organizational change, measuring quality, performance evaluation, effective communication, motivation, relationship development, and collaborative teamwork.
Prerequisite: NUR 3119, NUR 3955. Offered: SU.

NUR 4837 - Healthcare Policy and Economics (3 cc)
This course will provide the student with a foundation for participating in health policy with organizations and for understanding the economic impact of health planning. Content will include a review of the organization of health care systems, health care financing, economic implications and the role of the provider in policy-making. Emphasis is on the analysis of health policy from a socioeconomic, ideologically, political, historical, and technological perspective while integrating clinical management processes and the use of available community fiscal resources.
Prerequisite: NUR 3119, NUR 3955. Offered: SU.

NUR 4889 - Leadership and Management (3 cc)
Includes a focus on theories, concepts, and principles of leading and managing as well as pertinent legal issues faced by nursing leaders and managers. Emphasis will be on the methods to become an effective leader/manager including interpersonal skills needed for effective leadership and management, the different types of organizations delivering health care, outcomes management, and analysis of current research findings.
Prerequisite: NUR 3119, NUR 3955. Corequisite: NUR 4889L.
Offered: FA, SP.

NUR 4889L - Leadership Practicum (1 cc)
Focuses on the application of the theories, concepts, and principles of leading and managing. Emphasis in the course will be on the development of skills needed for effective leadership and management. Opportunities will be provided to demonstrate appropriate leadership and management ability.
Prerequisite: NUR 3119, NUR 3955. Corequisite: NUR 4889.
Offered: FA, SP.

NUR 4945L - Specialized Focus Practicum (3 cc)
This course includes a synthesis of theories, concepts, and principles of a particular nursing focus, identified by the student, which offers relevant experiences for professional and personal growth. Emphasis will be on the methods used to become an effective leader and informed stakeholder in the policies which frame the strengths of the nursing profession. The student will examine the value of the nursing role in different types of health care organizations with respect to outcomes management, systematic quality initiatives and analysis of current research findings.
Prerequisite: Prerequisite NUR 3119, NUR 3955. Offered: TBA.

NUR 4956 - Portfolio II (1 cc)
A capstone course focusing on the completion, evaluation, and submission of the electronic professional portfolio.
Prerequisite: NUR 3119, NUR 3955. Offered: FA, SP, SU.

OCE - GENERAL OCEANOGRAPHY

OCE 1001 - Oceanography (3 cc)
An integrated study of the basic principles of chemical, physical, and geological oceanography.
Distribution: General Education, Natural Sciences (Biological Sciences). Offered: FA, SU.

OCE 1001L - Oceanography Laboratory (1 cc)
An optional laboratory course to accompany OCE 1001. This course covers the experimental or hands-on aspects of bathymetry, water chemistry, and physical oceanography.
Corequisite: OCE 1001. Offered: SP. Notes: Lab Fee.

ORH - ORNAMENTAL HORTICULTURE

ORH 1260 - Greenhouse Crop Management (3 cc)
Greenhouse production and marketing of foliage and flowering house plants, holiday pot plants, bedding plants and cut flowers. Construction, maintenance and utilization of various types of greenhouses and related plant production structures.
Corequisite: ORH 1260L. Offered: SP. Notes: AS only. Lab Fee.
## ORH - Landscape Management

### ORH 1511 - Plant Materials for Landscape Use (2 cc)
Ornamental trees, shrubs, vines and ground cover for landscape use with emphasis on their identification, characteristics, adaptability, and use. Field trips are required. 
Corequisite: ORH 1511L. Offered: TBA. Notes: AS only.

### ORH 1511L - Plant Materials for Landscape Use Laboratory (1 cc)
Practical experience in identification of ornamental trees, shrubs, vines and ground cover. Students will make collections of plants used in area landscapes and note usage of plants. Field trips are required.
Corequisite: ORH 1511. Offered: TBA. Notes: AS only. Lab Fee.

### ORH 2220 - Turfgrass Management (2 cc)
A basic course in the establishment and maintenance of turfgrass areas. Considers soils, fertility, drainage, grasses and mixtures, maintenance and pest control; includes use of turfgrasses in residential and institutional lawns, athletic fields, and golf courses.
Corequisite: ORH 2220L. Offered: TBA. Notes: AS only.

### ORH 2220L - Turfgrass Management Laboratory (1 cc)
A practical course to develop student skills in identification of turfgrass species and the skills required to establish and maintain turf according to the various requirements of turf management. Several field trips will be taken to local golf courses, residential and institutional lawns. Students are expected to participate in practical exercises.
Corequisite: ORH 2220. Offered: TBA. Notes: AS only. Lab Fee.

### ORH 2820C - Landscape Irrigation (3 cc)
Prerequisite: Appropriate scores on the Florida Entry Level Placement Exam or completion of MAT 1033 with a grade of C or better. Offered: TBA. Notes: AS only. Lab fee.

### ORH 2859 - Landscape Management (3 cc)
Course centers on the management of landscapes including turf, annuals, vines, shrubs and trees. Course includes water, fertilizers, mowing, pruning and shaping. The course will address homeowner, commercial and sports complex management.
Corequisite: ORH 2859L. Offered: TBA. Notes: AS only.

### ORH 2859L - Landscape Management Laboratory (1 cc)
Practical experience in the management of landscapes including turf, annuals, vines, shrubs and trees. Experience in water, fertilizer, mowing, pruning and shaping included. Includes home owner, commercial and sports complex management. Field trips required.
Corequisite: ORH 2859. Offered: TBA. Notes: AS only. Lab Fee.

### ORH 2866 - Landscape Project Management (3 cc)
Basic concepts of managing landscape projects to include estimating labor, supplies, equipment use and cash flow.
Offered: TBA. Notes: AS only.

## OTA - Office Technology

### OTA 0101 - Keyboarding (30 ch)
This course provides instruction in using keyboards to enter data into microcomputers. It includes familiarization with computer keyboards and the mechanics of data entry. Correct finger positioning and accuracy will be emphasized. Letters, memoranda, reports, letters, memorandum, and other materials generated by healthcare organizations.
Offered: FA.

## PAD - Public Administration

### PAD 3003 - Introduction to Public Administration (3 cc)
Prepares individuals to serve as managers in the executive arm of local, state and federal government.
Offered: FA.

### PAD 4046 - Values, Ethics and Conflict Resolution (3 cc)
Examines the various conflict situations in public organizations and how values and ethics influence behavior of administrators in making decisions that affect the philosophy and goals of the organization. In addition, focus will be placed on the role of administrators as conflict managers by examining and providing various conflict resolution mechanisms and strategies that are cost effective to the organization.
Prerequisite: COM 2100, CTS 2433, MAN 2021. Offered: SU.

### PAD 4303 - Emergency Management & Disaster Planning (3 cc)
Emergency management and disaster planning on events most likely to affect Florida including reviewing the four phases of planning mitigation, response, and preparedness.
Offered: SP.

### PAD 4874 - Community Relations (3 cc)
Exposes students to community relations theory and practice within a broad range of public safety organizations. Students will understand why positive community perception of public safety is critical to funding and operational effectiveness. Each student will gain the insight and skills necessary to be effective in the community relations function of public safety administration.
Offered: SP.

## PEL-Phys-EDU-ACTS-Gen-Obj-Perf-Centr-Land

### PEL 1121 - Beginning Golf (1 cc)
Designed to develop skill and give practice in the basic fundamentals of golf. A green fee is required occasionally.
Offered: FA.

### PEL 2122 - Intermediate Golf (1 cc)
This course enables students to enhance and practice intermediate-level skills in the sport of golf. Green fee may be required on occasion.
Offered: SP.

### PEL 2341 - Beginning Tennis (1 cc)
Includes a brief history of the game, followed by instruction and practice in the fundamental techniques of the game. Racket required.
Offered: FA, SU. Notes: Lab Fee.

## PEM-Phys-EDU-ACTS-Gen-Perfmr-Centr-Land-Revised

### PEM 1102 - Exercise and Conditioning (1 cc)
Involves instruction in physical conditioning methods and their effects. Content varies based on student interest, and may include aerobic exercise, calisthenics, bench stepping, circuit training, interval training, or weight training.
Offered: SP.
PEM 1131 - Weight Training and Conditioning I (1 cc)
Involves beginning instruction in physical conditioning methods and their effects: weight training, isometric exercises, circuit training, isotonic exercises, calisthenics, and cardiovascular endurance exercises.
Offered: FA, SP, SU.

PEM 1132 - Weight Training and Conditioning II (1 cc)
Involves advanced instruction in physical conditioning methods and their effects: weight training, isometric exercises, circuit training, isotonic exercises, calisthenics, and cardiovascular training.
Prerequisite: PEM 1131. Offered: SP.

PEM 1171 - Aerobics (1 cc)
Concentrates on increasing muscle tone and aerobic capacity through continuous rhythmic movement to music. Step aerobics are included. Discussions are held in nutrition and injury prevention.
Offered: TBA.

PEM 1181 - Walk, Jog, Run (1 cc)
Involves instruction in physical conditioning methods and their effects. Students may either walk, jog or run to fulfill the aerobic requirement.
Offered: FA, SP.

PEO-PHYS-EDU-ACTS-PROFNL-OBJECT-CENTRD-LAND

PEO 1011 - Team Sports (3 cc)
Principles, methods, and techniques of teaching a variety of team sports, including organization and management, instruction of skills and concepts, motivation, and evaluation.
Offered: FA.

PEO 1031 - Individual Sports (3 cc)
Principles, methods, and techniques of teaching a variety of individual sports, including organization and management, instruction of skills and concepts, motivation and evaluation.
Offered: SP.

PEO 2013C - Sports Officiating (3 cc)
Includes theory and practice in officiating various selected sports. Two hours of lecture and one hour of laboratory each week.
Offered: SP.

PEQ-PHYS-EDU-ACTS-PROFNL-WATER-SNOW-ICE

PEQ 2105C - Management of Aquatic Programs (3 cc)
This course is designed to give Recreational Technology AS majors a foundation in management of aquatic programs. This course will include but is not limited to water aerobics, water safety, pool operations, and aquatic scheduling.
Offered: SP.

PET - PHYSICAL EDUCATION THEORY

PET 2604 - Basic Care and Prevention of Athletic Injuries (3 cc)
This course empowers the student with the knowledge and understanding of the principles and techniques involved in the prevention and care of athletic injuries. The student will obtain extensive hands-on practice in taping techniques and other methods for preventing and treating athletic injuries.
Offered: FA, SP, SU. Notes: Lab Fee.

PET 2941 - Recreation Internship (1 cc)
Designed for students preparing for careers in recreation and leisure services. Whether the internship is on or off campus and where it is off campus (city recreation, YMCA, retirement facility, therapeutic recreation, outdoor recreation, etc.) will be determined by the interest of the student and available facilities.
Prerequisite: Completion of all course work for the AS Degree in Recreation Technology. Offered: TBA.

PET 2942 - Recreation Internship (2 cc)
Designed for students preparing for careers in recreation and leisure services. Whether the internship is on or off campus and where it is off campus (city recreation, YMCA, retirement facility, therapeutic recreation, outdoor recreation, etc.) will be determined by the interest of the student and available facilities.
Prerequisite: Completion of all course work for the AS Degree in Recreation Technology. Offered: TBA.

PET 2943 - Recreation Internship (3 cc)
Designed for students preparing for careers in recreation and leisure services. Whether the internship is on or off campus and where it is off campus (city recreation, YMCA, retirement facility, therapeutic recreation, outdoor recreation, etc.) will be determined by the interest of the student and available facilities.
Prerequisite: Completion of all course work for the AS Degree in Recreation Technology. Offered: TBA.

PGY - PHOTOGRAPHY

PGY 1000 - History of Photography (3 cc)
A study of the history and development of photography both as a technology and art form from its inception to current digital and commercial uses. Course will also explore photography from the standpoint of its sociological, cultural, communicative, and economic impacts.
Offered: FA, SP.

PGY 1110C - Color, Materials, and Methods (3 cc)
An introductory course that explores basic creative methods of color processes in photographic imagery. Explores the technical conceptual, and production relationships in contemporary color photography. Emphasis is placed on color theory, effects of lighting techniques, color-correct printing, and aesthetics.
Prerequisite: Grade of C or better in ART 1201C, ART 1300C, PGY 2401C. Offered: FA. Notes: Lab Fee.

PGY 2107C - Large Format Camera (3 cc)
An advanced course that introduces concepts, techniques and applications of large format cameras. The course examines the uses of large format cameras in fine art photography, commercial illustration, and historical documentation.
Prerequisite: Grade of C or better in PGY 2401C, PGY 2404C. Offered: SP. Notes: Lab Fee.
PGY 2201C - Photographic Lighting Techniques (3 cc)
Introduction to artificial and natural lighting techniques utilized in studio, table top, copy work, and portraiture.
Prerequisite: PGY 2801C. Offered: FA, SP, SU. Notes: Lab fee.

PGY 2220C - Commercial Photography (3 cc)
An advanced photo course which introduces the student to studio and color photography.
Prerequisite: Grade of C or better in PGY 2220C. Offered: FA, SP, SU. Notes: Lab Fee. A DSLR camera is required for this course.

PGY 2221C - Commercial Photography II (3 cc)
A continuation of Commercial Photography I in which the demands of specific commercial assignments are investigated. Experience with color positive material, lighting appropriate to subject and issue unique to the large format medium will be covered.
Prerequisite: Grade of C or better in PGY 2220. Offered: FA, SP, SU. Notes: Lab fee.

PGY 2272C - Photography Seminar (3 cc)
Designed to acquaint the student photographer with developments and special topics in the field. May consist of studio visits, visiting professionals, product demonstrations, and research projects.
Prerequisite: Grade of C or better in PGY 2220C and PGY 2802C. Offered: SP.

PGY 2401C - Photography I (3 cc)
An introductory course with emphasis on the creative use of the camera and dark room. The fundamentals of camera operation, successful black and white film development and printing are taught. A 35 mm SLR camera with manual controls is required for this class.
Offered: FA, SP, SU. Notes: Lab Fee.

PGY 2404C - Photography II (3 cc)
In this course emphasis is placed on the refinement of techniques that are necessary for the use of the camera as a means of individual creative expression. It also includes an introduction to print manipulation and photo essays.
Prerequisite: Grade of C or better in PGY 2401C. Offered: TBA. Notes: Lab Fee.

PGY 2801C - Digital Photography I (3 cc)
Digital Photography introduces students to electronic imaging using computers, scanners, and image manipulation software (Adobe Photoshop). Individual portfolios are created.
Prerequisite: Grade of C or better in and ART 1300C, GRA 2151C, PGY 2401C. Offered: FA, SU. Notes: Lab Fee.

PGY 2802C - Digital Photography II (3 cc)
A continuation of work in Adobe Photoshop established in Digital Photography I. Students will work with advanced Photoshop techniques in the application of personal images that may have application in fine art, graphics, and multimedia productions.
Prerequisite: Grade of C or better in PGY 2801C. Offered: SU. Notes: Lab Fee.

PHI - PHILOSOPHY

PHI 2100 - Introduction to Philosophy (3 cc)
A general survey of the philosophies that have shaped the growth of Western civilization from the ancient Greeks to modern times. Presents a comprehensive view of philosophy and demonstrates the benefits derived from its study.
Prerequisite: Grade of C or better in ENC 1101C. Distribution: General Education Core, Humanities. A writing emphasis course. Offered: FA, SP, SU.

PHI 2070 - Introduction to Eastern Philosophy (3 cc)
A survey of the philosophical thought of Asia. Hindu systems, Buddhist philosophy, and the philosophies of China and Japan will be considered. Comparisons with Western ideas will be made whenever feasible.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Offered: FA.

PHI 2100 - Logic (3 cc)
Study of and practice in reasoning and critical thinking in deductive and inductive logic. Techniques the student learns are directly related to other courses and will help the student in solving everyday problems. Additional treatment may be given to symbolic logic.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Humanities. Offered: FA, SP, SU.

PHI 2600 - Ethics (3 cc)
An inquiry into the moral implications of personal, social, and political commitment. Representative traditional and contemporary ethical concepts will be discussed in light of issues affecting the quality of existence on this planet.
Prerequisite: Grade of C or better in ENC 1101C. Distribution: General education, Humanities. A writing emphasis course. Offered: FA, SP, SU.

PHI 2701 - Introduction to the Philosophy of World Religions (3 cc)
Philosophical, historical and cultural analysis of selected world religions. Special emphasis on the fundamental philosophy of each tradition and the relationships between social institutions and religious systems.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education, Humanities. Offered: FA, SP.

PHM - PHILOSOPHY OF MAN AND SOCIETY

PHM 2122 - Philosophy and Feminism (3 cc)
This course is designed to introduce students to key aspects for feminist thought. We will explore both the content and the methodologies of feminism through a philosophical approach and attitude. Additionally, we will be discussing issues ranging over, but not limited to oppression, gender, sex and sexism with the goal of understanding the role that each plays in different feminist ideologies.
Prerequisite: Test score requirement the same as ENC 1101C. Offered: SP.
PHT - PHYSICAL THERAPY

PHT 1000 - Introduction to Physical Therapy (3 cc)
Provides an introduction to the history, present practice, and future trends of healthcare and the profession of physical therapy. The structure and services of the American Physical Therapy Association (APTA), the team concept of health care including the role and responsibilities of the physical therapist assistant (PTA), and professional behaviors will be introduced along with common disease processes and pertinent medical terminology. Students will learn basic professional documentation and communication skills.
Prerequisite: Acceptance into the program. Offered: FA. Notes: AS only.

PHT 1120 - Functional Anatomy and Kinesiology (3 cc)
The student will have a basic knowledge and understanding of the biomechanical principles of human motion. The structure and function of the musculoskeletal and nervous systems will be studied and applied in basic analysis of therapeutic exercise and gait.
Prerequisite: Acceptance into the program. Corequisite: PHT 1000, PHT 1120L. Offered: FA. Notes: AS only.

PHT 1120L - Functional Anatomy and Kinesiology Laboratory (2 cc)
Students develop skills in palpation of bony landmarks, goniometry, gross manual muscle testing, basic gait analysis and analysis of muscle function as it relates to the biomechanical principles of human motion.
Prerequisite: Acceptance into the program. Corequisite: PHT 1000, PHT 1120L. Offered: FA. Notes: AS only.

PHT 1224 - Musculoskeletal Therapeutic Techniques I (3 cc)
This course covers a variety of medical and orthopedic conditions commonly treated by physical therapist assistants and emphasizes the effects and types of exercises employed for therapeutic reasons. Included are traditional therapeutic exercise routines such as passive, active-assistive, active and resistive range of motion, PRE programs, manual and mechanical strengthening, and aerobic exercise routines. Non-traditional programs will be introduced.
This course includes a module with Information about Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS), Occupational Safety and Health Administration (OSHA) standards for blood borne pathogens, Domestic Violence (DV), Medical Errors (ME) and the Health Insurance Portability and Accountability Act (HIPAA); satisfying the requirements for education about topics required by the state of Florida for initial licensing.
Prerequisite: PHT 1120. Corequisite: PHT 1224L. Offered: SP. Notes: AS only.

PHT 1224L - Musculoskeletal Therapeutic Techniques I Laboratory (2 cc)
Application of therapeutic exercise in the laboratory setting. Emphasis is on orthopedic, cardiopulmonary and vascular disorders, and related therapeutic exercise programs.
Corequisite: PHT 1224. Offered: SP. Notes: AS only. Lab Fee.

PHT 1251 - Basic Skills in Patient Care (2 cc)
Introduction to basic patient care skills, patient positioning and draping, treatment room preparation, transfers, gait training with assistive devices, wheelchair measurement and operation, measurement of vital signs, identification of architectural barriers, wound debridement, and aseptic technique. Elements of body composition as a measure of fitness will be discussed and the gait cycle will be introduced.
Prerequisite: Acceptance into the program. Corequisite: PHT 1000, PHT 1251L. Offered: FA. Notes: AS only.

PHT 1251L - Basic Skills in Patient Care Laboratory (2 cc)
Application of basic patient care handling techniques including body mechanics and lifting, treatment room preparation, patient positioning and draping, transfers, gait training with assistive devices, wheelchair measurement and operation, and measurement of vital signs. Students will create and maintain a sterile field and assess body composition as a measure of fitness.
Prerequisite: Acceptance into program. Corequisite: PHT 1000, PHT 1251. Offered: FA. Notes: AS only. Lab Fee.

PHT 1253 - Neuromuscular Therapeutic Techniques I (1 cc)
Topics include basic neuroanatomy and physiology principles, motor learning principles and normal motor development. Therapeutic interventions and techniques designed to provide the most effective functional outcome for the neurologically impaired infant, child or adolescent will be discussed. Problem solving for treatment plan implementation, revision and adaptation will be explored. Special concerns related to physical therapy and the pediatric patient will be presented.
Prerequisite: PHT 1120. Corequisite: PHT 1253L. Offered: SP.

PHT 1253L - Neuromuscular Therapeutic Techniques I Laboratory (2 cc)
Provides the student with observation, participation, and application of motor learning theories and therapeutic interventions for the treatment of neurological conditions. Application of therapeutic activities with a variety of treatment approaches will be emphasized.
Prerequisite: PHT 1120L. Corequisite: PHT 1253. Offered: SP.

PHT 1801L - PTA Clinic I (1 cc)
Observation and participation in a physical therapy outpatient practice setting under supervision. The focus is on developing professionalism. Students may utilize previously learned positioning, draping, transfers, note writing, gait training, vital sign measurements, goniometry, gross strength testing, orthopedic therapeutic exercises, stretching and modalities. Four to forty hours per week for a total of 40 hours (part-time clinical experience completed in varying time frames to meet both the students and the clinical instructor's schedule).
Prerequisite: PHT 1120. Offered: SP. Notes: AS only. Lab Fee.
PHT 1900L - Alternative Studies in Physical Therapy (1 cc)
This course will provide the student with comprehensive and individualized instruction in selective physical therapy topics. It is intended to facilitate improved clinical skills and patient care. It will address the specific learning skills identified by faculty for each participant in the course.
Offered: TBA. Notes: AS only.

PHT 1901L - Alternative Studies in Physical Therapy (2 cc)
This course will provide the student with comprehensive and individualized instruction in selective physical therapy topics. It is intended to facilitate improved clinical skills and patient care. It will address the specific learning skills identified by faculty for each participant in the course.
Offered: TBA. Notes: AS only.

PHT 2162 - Neuromuscular Therapeutic Techniques II (1 cc)
Presentation of the pathology of complex neurological disorders and congenital deformities. Specific topics include: cerebrovascular accidents, parkinsonism, alzheimer's, and cerebral palsy. Therapeutic exercises and special facilitation techniques will be covered along with basic neuroanatomy. Special concerns related to physical therapy and the geriatric patient will be presented.
Prerequisite: PHT 1224. Corequisite: PHT 2162L. Offered: FA. Notes: AS only.

PHT 2162L - Neuromuscular Therapeutic Techniques II Laboratory (2 cc)
Identification of special concerns related to physical therapy and the adult and geriatric patient. Students will participate in individual and group projects to analyze case studies as they design and demonstrate appropriate interventions within a treatment plan that encompasses interventional strategies to assist the patient with neurological impairment.
Prerequisite: PHT 1224. Corequisite: PHT 2162L. Offered: FA. Notes: AS only.

PHT 2227C - Musculoskeletal Therapeutic Techniques II (2 cc)
Covers a variety of medical and orthopedic conditions commonly treated by physical therapist assistants and emphasizes orthopedic post-surgical patient care through case-study scenarios and protocol development and implementation. Traditional therapeutic exercise routines and non-traditional programs will be reviewed.
Prerequisite: PHT 1224. Offered: FA. Notes: Lab Fee.

PHT 2401 - Psychosocial Issues of the Disabled (2 cc)
Examination of psycho-social aspects of the individual with a disability. Emphasis is placed on how the individual or their family relates to physical and social environments; specifically economic factors, support systems, discrimination, and loss and grief process.
Prerequisite: PHT 1224. Offered: SP. Notes: AS only.

PHT 2810L - PTA Clinic II (6 cc)
A full-time supervised and planned learning experience in a physical therapy practice setting under the direction of a clinical instructor (CI) who is either a PT or a PTA. Focus is on application of didactic knowledge and skills gained in the classroom and laboratory settings to the real world of patient care. The student is expected to function near entry-level (80% or greater) by the end of the clinical experience in that specific setting.
Prerequisite: PHT 1801L. Offered: FA. Notes: AS only.

PHT 2820L - PTA Clinic III (6 cc)
A full-time supervised and planned learning experience in a physical therapy practice setting under the direction of a clinical instructor (CI) who is either a PT or a PTA. Focus is on application of didactic knowledge and skills gained in the classroom and laboratory settings to the real world of patient care. The student is expected to function near entry-level (90% or greater) by the end of the clinical experience in that specific setting.
Prerequisite: PHT 2810L. Offered: SP. Notes: AS only.

PHY - PHYSICS

PHY 1025 - Introduction to Fundamentals of Physics (3 cc)
An introductory course in physics for students who have had little or no prior exposure to the subject. Emphasis is on the fundamental concepts, language and mathematics used in physics. Topics include mechanics, sound, and heat.
Corequisite: MAC 1105. Distribution: General Education, Natural Sciences (Physical Sciences). Offered: FA, SP.

PHY 1053 - General Physics I (3 cc)
General Physics I is the first term of a two term non-calculus based physics course sequence. Topics included are: scalar and vector quantities, Newton's laws of motion, linear and rotational motion, energy, momentum, fluid dynamics, heat and sound.
Prerequisite: MAC 1114 or MAC 1147 or PHY 1025. Corequisite: PHY 1053L. Distribution: General Education Core, Natural Sciences (Physical Sciences). Offered: FA, SP, SU.

PHY 1053L - General Physics I Laboratory (1 cc)
A laboratory course designed to illustrate the laws and principles presented in PHY 1053.
Corequisite: PHY 1053L. Offered: FA, SP, SU. Notes: Lab Fee.

PHY 1054 - General Physics II (3 cc)
Major topics include the study of magnetism, electricity, light and the elements of modern physics.
Prerequisite: Grade of C or better in PHY 1053. Corequisite: PHY 1054L. Offered: SP.

PHY 1054L - General Physics II Laboratory (1 cc)
A laboratory course designed to illustrate the laws and principles presented in PHY 1054.
Prerequisite: Grade of "C" or better in PHY 1053L. Corequisite: PHY 1054L. Offered: SP. Notes: Lab Fee.

PHY 2048 - Physics I with Calculus (4 cc)
A physics course with emphasis on fundamental principles, the quantitative and mathematical aspects of the subject. For engineers and physics majors, optional for chemistry majors. Includes the study of mechanics and thermodynamics. A free use of calculus methods and derivations lay the foundation for basic principles.
Corequisite: MAC 2312, PHY 2048L. Distribution: General Education Core, Natural Sciences (Physical Sciences). Offered: FA, SP.

PHY 2048L - Physics I with Calculus Laboratory (1 cc)
A laboratory course designed to illustrate the laws and principles presented in PHY 2048.
Corequisite: PHY 2048L. Offered: FA, SP. Notes: Lab Fee.

PHY 2049 - Physics II with Calculus (4 cc)
Includes the study of waves, sound, optics, special relativity, electromagnetism, and quantization.
Prerequisite: MAC 2312, Grade of C or better in PHY 2048.
Corequisite: PHY 2049L. Offered: FA, SP.
PHY 2049L - Physics II with Calculus Laboratory (1 cc)
A laboratory course designed to illustrate the laws and principles presented in PHY 2049.
Prerequisite: Grade of C or better in PHY 2048L. Corequisite: PHY 2049. Offered: FA, SP. Notes: Lab Fee.

PLA - PARALEGAL LEGAL ASSISTANT LEGAL ADMINISTRATION

PLA 1003 - The Legal Profession (3 cc)
This course is designed to provide students an overview of the legal system including ethics, our court system, and the functions of a law office, an introduction to procedural and substantive law, and an introduction to civil trial practice.
Offered: FA, SP, SU.

PLA 1104 - Legal Research and Writing I (3 cc)
This course emphasizes learning to use the law library, basic research of both common law and statutory sources, tools and techniques for research, and introduces legal writing culminating in the student writing a legal memorandum.
Offered: FA, SP.

PLA 1203 - Civil Litigation (3 cc)
Provides students hands-on experience and practical knowledge of civil litigation from the inception of a case through trial of the case, including familiarity with the Florida Rules of Civil Procedure.
Prerequisite: PLA 1003, PLA 1104. Corequisite: PLA 1273. Offered: SP.

PLA 1273 - Torts (3 cc)
In depth coverage of the law of intentional torts, negligence, strict liability and related defenses. Other topics covered include malpractice, insurance, and other business torts.
Corequisite: PLA 1003. Offered: FA, SP, SU.

PLA 1303 - Criminal Law and Procedure (3 cc)
Provides an overview of the foundations of the criminal law system, its institutions, substantive offenses, criminal procedures, and criminal trials.
Prerequisite: PLA 1003, PLA 1104, PLA 1273. Offered: FA.

PLA 1700 - Legal Ethics (3 cc)
Introduces students to the types of ethical dilemmas that they may face in the workforce, to the ethical rules developed by the American Bar Association, to the rules adopted by The Florida Bar for the regulation of attorney and paralegal conduct, and to methods for researching the answers to ethical dilemmas. Also, included are the model ethical codes and canons of national paralegal organizations.
Corequisite: PLA 1003. Offered: FA, SP.

PLA 2114 - Legal Research and Writing II (3 cc)
Applies the research principles and techniques learned in prerequisite courses (including the effective use of Westlaw) to develop, refine, and incorporate effective legal research into legal memoranda and other written communications required in a law office.
Prerequisite: ENC 1102, PLA 1104, PLA 2730. Offered: SP. Notes: Lab Fee.

PLA 2260 - Evidence (3 cc)
Covers rules regarding the admissibility of evidence in trials presented by a review of the Florida Evidence Code and its application in case law.
Prerequisite: PLA 1003, PLA 1104, PLA 1273. Offered: FA.

PLA 2276 - Automobile Insurance, Workers' Compensation, and Administrative Law (3 cc)
Includes in-depth study of Florida automobile insurance law, worker's compensation law, and administrative law. Approximately 1/3 of the course is devoted to each separate topic. Although these are 3 diverse topics, each is essential to paralegal work in law offices handling these matters.
Prerequisite: PLA 1003, PLA 1104, PLA 1273. Offered: SP.

PLA 2423 - Contracts (3 cc)
Covers the fundamentals of contract law including contract formation, the UCC, contract provisions, and drafting of simple contracts.
Prerequisite: PLA 1003, PLA 1104, PLA 1273. Offered: SP.

PLA 2433 - Business Organizations (3 cc)
A study of the law of business organizations together with its application in the related fields of agency and vicarious liability.
Prerequisite: PLA 1003, PLA 1104, PLA 1273. Offered: FA.

PLA 2601 - Probate (3 cc)
Covers probate law, wills, intestacy, duties of personal representatives, trusts, and estate administration.
Prerequisite: PLA 1003, PLA 1104, PLA 1273. Offered: FA. Notes: (Available Online - FA, SP, SU).

PLA 2610 - Real Estate Law (3 cc)
Reviews the principles of real property transactions including real versus personal property, deeds, concurrent estates, mortgages, liens, easements and title considerations.
Prerequisite: PLA 1003, PLA 1104, PLA 1273. Offered: SP.

PLA 2730 - Computers in Law (3 cc)
Students utilize computers in legal research, drafting, with a primary focus on learning and using Westlaw in research. The student will prepare legal documents customarily prepared in the law office.
Prerequisite: PLA 1003, PLA 1104, PLA 1273. Corequisite: PLA 1203. Offered: FA. Notes: Lab Fee.

PLA 2800 - Domestic Relations (3 cc)
Covers research into and drafting of pleadings for dissolution of marriage, separation, custody, legitimacy, adoption, change of name, and support.
Prerequisite: PLA 1003, PLA 1104, PLA 1273. Offered: FA.

PLA 2880 - Constitutional Law (3 cc)
Gives an overview from a lawyer's perspective of the constitutional articles and amendments. The student will explore the three branches of government, the interpretation of the articles creating each, individual rights in society, changes in constitutional interpretation, and the role of the Supreme Court in this interpretation.
Corequisite: PLA 1003. Offered: FA, SP.

PLA 2943 - Law Office Internship (3 cc)
Provides students with practical law office experience working as a paralegal trainee. This is a non-paid position that involves working in a law office 145 hours during the semester. A student will receive a pass/fail grade based upon the employer's evaluation of the student.
Prerequisite: Permission of the Paralegal Studies program coordinator, forty-five completed credit hours, enrolled in Paralegal Studies program, and a 3.5 GPA. Offered: FA, SP, SU.
PLA 2944 - Paralegal Practicum (3 cc)
Simulates through an online program working in a law office. The student is given a virtual office space with files, phone, policy manual, form bank and access to other firm members through video presentations. The student will complete legal tasks including preparation of documents and research that are required in a law office environment.
Prerequisite: PLA 1003, PLA 1104, PLA1203. Corequisite: PLA 2730. Offered: SP. Notes: Lab fee.

PLA 2949 - Paralegal Studies Co-op (3 cc)
Cooperative Education (Co-op) is a planned, paid work experience whereby a student is employed in a job directly related to the student's academic field of study. Each student must meet certain academic and co-op departmental requirements before qualifying for job referral and placement. Once enrolled, a student is assigned a Faculty Advisor who, along with the Co-op staff, will monitor student progress. The co-op program offers academic and vocational credit for each term worked, and the Faculty Advisor will assign either a Pass or Fail grade at the end of the work term.
Prerequisite: Permission of the Paralegal Studies Program Coordinator. Offered: FA, SP, SU.

PMT - PRECISION METALS TECHNOLOGY

PMT 0011C - Welder Helper (250 ch)
Provides students with an understanding of basic welding shop skills related to safety, measuring, grinding and the application of math, science, and communication skills related to welding operations. Additionally, basic and intermediate oxyfuel gas cutting and shielded metal arc welding will be covered.
Offered: FA, SP, SU. Notes: Lab Fee.

PMT 0012C - Welder, Shielded Metal Arc (250 ch)
Covers welding symbols and drawings, development of problem solving skill related to welding, introduction to arc gouging and cutting and intermediate shielded metal arc welding techniques and processes.
Offered: FA, SP, SU. Notes: Lab Fee.

PMT 0013C - Welder, Gas-Metal Arc (125 ch)
Covers basic and intermediate gas metal arc welding. In addition, ethics and legal responsibilities of welders, money-management concepts, procedures and strategies for welders, and the use of information technology tools in the welding profession will be covered.
Prerequisite: Permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

PMT 0014C - Welder, Flux Cored Arc (100 ch)
Covers self and gas shielded flux core welding in all positions. Additionally, how welders fit into welding terms, work units and large manufacturing systems will be explored. Students will also explore leadership, entrepreneurship opportunities and employability issues related to welding.
Prerequisite: Permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

PMT 0015C - Welder, Gas-Tungsten Arc (175 ch)
Basic and intermediate gas tungsten arc welding on aluminum and stainless in various positions will be covered.
Prerequisite: Permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

PMT 0016C - Welder, Pipe (270 ch)
The focus of this course is the fabrication and welding of carbon steel pipe joints in the 1G, 2G, 3G and 60° positions. Additionally, the fabrication and repair of ferrous and non-ferrous metal objects using working drawings/prints will also be emphasized.
Prerequisite: Permission of instructor. Offered: FA, SP, SU. Notes: Lab Fee.

PMT 0070C - Welder Assistant I (150 ch)
Prepares students for entry into the welding industry. Students explore career opportunities and requirements of a professional welder. Content emphasizes beginning skills key to the success of working in the industry. Students study workplace safety and organization, basic manufacturing processes, metals identification, basic interpretation of welding symbols, and oxyfuel gas cutting practices.
Offered: FA. Notes: Lab fee.

PMT 0071C - Welder Assistant 2 (150 ch)
Builds on the skills and knowledge students learned in Welder Assistant I for entry into the welding industry. Students explore career opportunities and requirements of a professional welder. Content emphasizes beginning skills key to success of working in the welding industry. Students study drawings and welding symbols, intermediate oxyfuel gas cutting practices, plasma arc cutting principles, and basic shielded metal arc welding (SMAW).
Prerequisite: PMT 0070C. Offered: FA. Notes: Lab fee.

PMT 0072C - Welder, SMAW 1 (150 ch)
Prepares students for entry into the welding industry as a basic shielded metal arc welder. Students explore career opportunities and requirements of a professional welder. Content emphasizes beginning skills key to the success of working in the welding industry. Students study basic shielded metal arc welding (SMAW), carbon arc gouging (GAC) principles and visual examination skills.
Prerequisite: PMT 0071C. Offered: FA. Notes: Lab fee.

PMT 0073C - Welder, SMAW 2 (150 ch)
Builds on the skills and knowledge students learned in Welder SMAW 1 for entry into the welding industry as a basic shielded metal arc welder. Students explore career opportunities and requirements of a professional welder. Content emphasizes beginning skills key to the success of working in the welding industry. Students study employability and welding careers and intermediate shielded metal arc welding (SMAW).
Prerequisite: PMT 0072C. Offered: SP. Notes: Lab fee.

PMT 0080C - Welder I (150 ch)
Builds on the skills and knowledge students learned in the Welder Assistant and Welder SMAW courses. Students explore career opportunities and requirements of a professional welder. Content emphasizes skills key to the success of working in the welding industry. Students study basic and intermediate Gas Metal Arc Welding (GMAW) and basic Flux cored arc welding.
Prerequisite: PMT 0073C. Offered: FA, SP, SU. Notes: Lab fee.

PMT 0081C - Welder II (150 ch)
Builds on the skills and knowledge students learned in previous welding courses. Students explore career opportunities and requirements of a professional welder. Content emphasizes skills key to the success of working in the welding industry. Students study intermediate Flux-Core Arc Welding (FCAW), Basic and Gas Tungsten Arc Welding (GTAW).
Prerequisite: PMT 0080C. Offered: FA, SP, SU. Notes: Lab fee.
PMT 0082C - Welder III (150 ch)
Builds on the skills and knowledge students learned in previous welding courses. Students explore career opportunities and requirements of a professional welder. Content emphasizes skills key to the success of working in the welding industry. Students study intermediate Gas Tungsten Arc Welding (GTAW), and a basic pipe welding.
Prerequisite: PMT 0081C. Offered: FA, SP, SU. Notes: Lab fee.

POS - POLITICAL SCIENCE
POS 2041 - American National Government (3 cc)
A study of the American federal system of government with emphasis on the constitutional distribution of powers among the legislative, executive, presidential, and judicial branches and the states. An analysis of policy formation as related to democratic theory and the role of government in the society.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education Core, Social Sciences. Offered: FA, SP, SU.

PSY - PSYCHOLOGY
PSY 2012 - General Psychology (3 cc)
A survey of psychology as a social science incorporating the physiological aspects of personality development and mental health. Focuses on the adaptation of the individual to his or her physical and social environments. Human motives and emotions, learning and memory, attention, thinking, intelligence, personality, and abnormal mental conditions are among the topics covered. Emphasizes the physiological and socio-environmental causes of behavior.
Prerequisite: Grade of C or better in ENC 1101C. Distribution: General Education Core, Social Sciences. A writing emphasis course. Offered: FA, SP, SU.

PTN - PHARMACY TECHNICIAN
PTN 1001 - Introduction to Pharmacy (3 cc)
This course introduces pharmacy practice and the technician's role in a variety of pharmacy settings. Emphasis is placed on the duties and responsibilities of the pharmacy technician, including critical thinking and professional judgment skills. Course objectives explore employment opportunities, introduction to interpreting and processing prescriptions, pharmacy law and ethics, standards of practice and orientation to the skills required for the occupation of a pharmacy technician.
Prerequisite: PTN 1017, PTN 1131, PTN 1131L. Offered: SU. Notes: Lab Fee.

PTN 1017 - Pharmacy Technician Math (3 cc)
This course provides a comprehensive overview of math concepts essential to the practice of the pharmacy technician's skill set. The course covers the systems of weight, measurement and temperature, and the conversion from one system to another. Other topics include fractions, decimals, ratios, proportions, percentages and allegations. Emphasis is placed on the math skills needed to calculate doses, drug quantity or volume, intravenous flow rates and percentage concentrations.
Prerequisite: Grade of C or better in MAT 0028. Offered: SU.

PTN 1121 - Therapeutic Agents I (3 cc)
This course introduces students to pharmaceutical nomenclature and classification. Topics include the evolution and source of medicinal drugs, product identification, storage and dispensing requirements, dosage forms and routes of administration, mechanisms of drug actions, interactions, indications and contraindications. Antibiotics, therapy for fungal and viral infections, anesthetics, analgesics, narcotics, psychiatric and related drugs will be covered in this course.
Prerequisite: HSC 1531, PTN 1001. Offered: SU.
PTN 1122C - Therapeutic Agents II (3 cc)
This course continues from Therapeutic Agents I with the pharmaceutical nomenclature and classification of drugs for central nervous system disorders, drugs for gastrointestinal and related diseases, renal, respiratory, and cardiovascular system drugs, drugs for mouth and joint disease pain, hormonal disorders and their treatments, and topical, ophthalmic, and otic medications. Special topics include chemotherapy, vitamins, OTC supplements, antidotes and miscellaneous topics.
Prerequisite: PTN 1121. Offered: FA.

PTN 1131 - Applied Pharmacy Practice (3 cc)
This course provides instruction in the technical procedures for preparing and dispensing drugs in the hospital and retail settings under supervision of a registered pharmacist. Topics include drug packaging and labeling, out-patient dispensing, hospital dispensing procedures, controlled substance procedures, inventory control, non-sterile compounding, intravenous admixture, maintaining patient profiles, prescription order entry and label creation. Upon completion, students will be able to perform basic supervised dispensing techniques in a variety of pharmacy settings.
Prerequisite: PTN 1001. Corequisite: PTN 1131L. Offered: FA.

PTN 1131L - Applied Pharmacy Practice Lab (3 cc)
This course provides practical hands-on instruction of the technical procedures required for preparing and dispensing drugs in the hospital and retail settings in a laboratory environment. Students will practice and perform skills such as drug packaging and labeling, non-sterile compounding, IV admixture using aseptic technique, maintaining patient profiles, and typing and filling drug orders. Upon completion, students will be able to perform basic supervised dispensing techniques in a variety of pharmacy settings.
Prerequisite: PTN 1001. Corequisite: PTN 1131. Offered: FA. Notes: Lab Fee.

PTN 1132C - Basic Business Skills for the Pharmacy Technician (1 cc)
This combined lecture, lab and clinic course provides an introduction to professional skills that are critical to the efficient operation of the pharmacy. Topics covered include customer service, protecting patients' health information, ethics, third-party payers, medication and inventory control, business math applications, managing workflow, staffing and team building. Emphasis is placed on communication skills and professionalism.
Prerequisite: PTN 1001, PTN 1017, PTN 1121C. Corequisite: BSC 1080, CGS 1570, ENC 1101C, HSC 1531. Offered: SU.

PTN 1930 - Pharmacy Seminar (1 cc)
This course provides a discussion forum for topics of special interest or currency to pharmacy or to the role of the pharmacy technician. Topics may include discussion of law and rule pertaining to the role of pharmacy technicians, research and presentation of innovative trends in the field of pharmacy, presentation of current pharmacy issues for discussion, and introduction to national pharmacy technician organizations and certification.
Prerequisite: PTN 1001. Offered: FA.

PTN 1940L - Pharmacy Practicum I (2 cc)
Facilitates the transition of the student from the classroom environment to the clinical site. Topics include professionalism, productivity, work ethic, handling challenging situations, and problem solving with emphasis on success in the workplace. Additional topics include employment opportunities, resume writing, and interviewing skills. Students will participate in a mock panel interview and complete a virtual pharmacy externship.
Prerequisite: PTN 1121. Corequisite: PTN 1122C. Offered: FA. Notes: Lab fee.

PTN 1941L - Pharmacy Practicum II (3 cc)
Provides students with hands-on experience in an inpatient hospital setting. The course involves a minimum of 180 hours of on-the-job work experience. Each student is required to work under the supervision of a licensed pharmacist (preceptor) who may delegate some supervisory and/or training responsibilities to another licensed pharmacist or certified pharmacy technician. Students are expected to participate in pharmacy practice activities such as dispensing, compounding, inventory handling and control, drug distribution, and the preparation of intravenous (IV) admixture products, chemotherapy products and total parenteral nutrition (TPN) products.
Prerequisite: PTN 1940L. Offered: SP.

PTN 1942L - Pharmacy Practicum III (3 cc)
This course provides students with hands-on experience in a community pharmacy setting. The course involves a minimum of 180 hours of on-the-job work experience. Each student is required to work under the supervision of a licensed pharmacist (preceptor) who may delegate some supervisory and/or training responsibilities to another licensed pharmacist or certified pharmacy technician. Students are expected to participate in pharmacy practice activities such as dispensing, compounding, inventory handling and control, drug distribution, processing of third-party claims, maintenance of patient profiles and interaction and communication with patients.
Prerequisite: PTN 1941L. Offered: SP.

RTE - RADIOLOGIC TECHNOLOGY

RTE 1000C - Introduction to Radiologic Technology (2 cc)
Students will be able to perform basic patient care procedures, understand radiography clinical setting, and common terminology used in the clinical setting. The student will have a basic understanding of the role of the radiographer, the hospital, and regulations of the program. Medical ethics and legal considerations are also emphasized.
Offered: SU. Notes: AS only.

RTE 1111C - Radiographic Nursing Procedures (3 cc)
An introduction to basic nursing procedures required in the Imaging Department. Body mechanics, lifting, and transferring patients, vital signs, emergency and infection control procedures, pharmacology, drug administration and contrast media procedures are presented and demonstrated to the students.
Offered: FA. Notes: AS only.

RTE 1418C - Principles of Radiographic Exposure (3 cc)
An overview of the production of the radiographic image on film involving both lecture and laboratory exercises. Laboratory experiments will be performed with campus radiographic equipment and phantoms demonstrating the various factors relating to and affecting radiographic images.
Offered: SP. Notes: AS only. Lab Fee.

RTE 1503 - Radiographic Positioning I (2 cc)
Positioning of the chest, abdomen, and extremities is coordinated with Radiography Clinic I.
Corequisite: RTE 1702, RTE 1804. Offered: FA. Notes: AS only.

RTE 1513 - Radiographic Positioning II (2 cc)
Positioning of the extremities, spine, and pelvis of the body will be presented and correlated with the clinical experiences of the semester II.
Prerequisite: RTE 1503. Corequisite: RTE 1712. Offered: SP. Notes: AS only.
RTE 1562 - Radiographic Special Procedures (2 cc)
An overview of angiographic procedures and equipment as well as advanced nursing procedures.
Prerequisite: RTE 1418C. Offered: SU. Notes: AS only.

RTE 1613 - Radiographic Physics (2 cc)
An introduction to the concept of radiation, atomic structure, energy, magnetism, basic electricity, and the use and production of high voltage as well as the x-ray machine parts and safeguards.
Offered: FA. Notes: AS only.

RTE 1702 - Radiographic Anatomy and Physiology I (2 cc)
Chest, abdomen, extremity and spine anatomy and physiology are presented and correlated with the clinical experience of the first semester.
Corequisite: RTE 1503. Offered: FA. Notes: AS only.

RTE 1712 - Radiographic Anatomy and Physiology II (2 cc)
Skull, cell tissue, G.I., G.U. and circulatory anatomy and physiology are presented and correlated with the clinical experience of the second semester.
Prerequisite: RTE 1503, RTE 1702. Corequisite: RTE 1513, RTE 1814. Offered: SP. Notes: AS only.

RTE 1804L - Radiography Clinic I (5 cc)
Under direct supervision, students practice in actual clinical settings, combining the theory and concepts presented during the didactic portion of semester I.
Corequisite: RTE 1503, RTE 1702. Offered: FA. Notes: AS only. Lab Fee.

RTE 1814L - Radiography Clinic II (5 cc)
Under direct supervision, students practice in actual clinical settings combining the theory and concepts presented during the didactic portion of semesters I and II.
Prerequisite: RTE 1804. Corequisite: RTE 1513, RTE 1712. Offered: SP. Notes: AS only. Lab Fee.

RTE 1824L - Radiography Clinic III (2 cc)
Under direct supervision, students practice in actual clinical settings combining the theory and concepts presented during the didactic portion of semesters I, II and III.
Prerequisite: RTE 1814L. Offered: SU. Notes: AS only. Lab Fee.

RTE 1834L - Radiography Clinic IV (3 cc)
Under direct and indirect supervision, students participate in actual clinical settings, combining the theory and concepts presented during the didactic portion of semesters I, II, and III.
Prerequisite: RTE 1824L. Offered: SU. Notes: AS only. Lab Fee.

RTE 1931L - Special Topics in Radiography (1 cc)
Under direct supervision, students practice in actual clinical settings combining the theory and concepts of the program for the current semester. Additionally, the student is required to pass all clinical competencies of the previous semester(s).
Offered: TBA. Notes: AS only.

RTE 1932L - Special Topics in Radiography (2 cc)
Under direct supervision, students practice in actual clinical settings combining the theory and concepts of the program for the current semester. Additionally, the student is required to pass all clinical competencies of the previous semester(s).
Offered: TBA. Notes: AS only.

RTE 1933L - Special Topics in Radiography (3 cc)
Under direct supervision, students practice in actual clinical settings combining the theory and concepts of the program for the current semester. Additionally, the student is required to pass all clinical competencies of the previous semester(s).
Offered: TBA. Notes: AS only.

RTE 1934L - Special Topics in Radiography (4 cc)
Under direct supervision, students practice in actual clinical settings combining the theory and concepts of the program for the current semester. Additionally, the student is required to pass all clinical competencies of the previous semester(s).
Offered: TBA. Notes: AS only.

RTE 1935L - Special Topics in Radiography (5 cc)
Under direct supervision, students practice in actual clinical settings combining the theory and concepts of the program for the current semester. Additionally, the student is required to pass all clinical competencies of the previous semester(s).
Offered: TBA. Notes: AS only.

RTE 2385 - Radiation Biology (1 cc)
The principles of radiation interaction with the cell, and the effects of acute and chronic exposure to radiation are presented.
Offered: SP. Notes: AS only.

RTE 2473 - Introduction to Radiation Safety and Quality Assurance (1 cc)
An introduction to the tests and equipment used to maintain consistent image quality in the Radiology Department.
Offered: SP. Notes: AS only.

RTE 2523 - Radiographic Positioning III (2 cc)
Special views, as well as mammography, myelography, and special equipment will be presented and correlated with the clinical experiences of the second year student.
Prerequisite: RTE 1513. Offered: FA. Notes: AS only.

RTE 2563 - Advanced Radiographic Procedures II (3 cc)
An overview of advanced procedures in various areas, including radiation therapy, cardiac catheterization, magnetic resonant imaging, and computed tomography. Also cross sectional anatomy of the body begins.
Offered: FA. Notes: AS only.

RTE 2572 - Advanced Radiographic Procedures I. (2 cc)
An overview of advanced radiographic procedures which includes Nuclear Medicine, Ultrasound and Computer Tomography utilizing lecture, audiovisual media and on site practice in hospital setting. Also continuation of cross sectional anatomy of the body.
Offered: SP. Notes: AS only.

RTE 2601 - Radiographic Imaging I (2 cc)
An overview of radiographic, fluoroscopic, and image recording equipment.
Prerequisite: RTE 1418C. Offered: FA. Notes: AS only.

RTE 2602 - Radiographic Imaging II (2 cc)
A continuation and a more in-depth study of radiographic, fluoroscopic and image recording equipment.
Prerequisite: RTE 2601. Offered: SP. Notes: AS only.
SLS 1353 - Generations at Work (3 cc)
This course covers basic skills needed for workplace success such as problem solving, critical thinking, teamwork, work and cooperation, time management, good communication, stress management and conflict resolution. Classroom sessions includes discussions, role playing, video modeling, practice, feedback, and activities to build participants skills and encourage the transfer of new skills to the workplace.
Offered: FA, SP, SU.

SON - SONOGRAPHY

SON 1004C - Basic Procedures (4 cc)
An introduction to clinical protocols/procedures and the role of the sonographer. Competency in patient care skills required of a sonographer is acquired. This course also includes common disease processes, medical terminology, and professional issues.
Prerequisite: BSC 1080, BSC 1080L, PHY 1025. Offered: SP. Notes: AS only.

SON 1100C - Principles and Protocols of Sonography (5 cc)
An introduction to the basic principles of sonographic scanning and scanning protocols for the abdomen, pelvis, and vascular system with laboratory practice of basic skills and application of basic principles.
Corequisite: SON 1170. Offered: SU. Notes: AS only. Lab Fee.

SON 1111 - Abdominal Sonography I (3 cc)
Covers the sonographic appearance of the abdominal cavity, recognition of abnormality sonographically, and optimizing imaging of the abdomen. Gross anatomy and physiology of abdomen structures and congenital malformations are included.
Prerequisite: SON 1100C, SON 1170. Offered: FA. Notes: AS only.

SON 1112 - Abdominal Sonography II (3 cc)
This course is a continuation of SON 1111 stressing deviation from normal and customizing the sonographic examination to make a diagnostically optimal study. Pathological processes and differential diagnosis of the abdominal organs are covered.
Prerequisite: SON 1111. Offered: SP. Notes: AS only.

SON 1121 - OB/GYN Sonography I (3 cc)
This course covers the sonographic appearance of the female reproductive system with and without pregnancy, recognition of abnormality sonographically, and optimizing imaging of the female pelvis. Gross anatomy and physiology of the female reproductive system and congenital malformations are included. Anatomy and physiology of normal obstetrics from fertilization through the postnatal period is covered as well as obstetrical sonographic imaging.
Prerequisite: SON 1170. Offered: FA. Notes: AS only.

SON 1122 - OB/GYN Sonography II (3 cc)
This course is a continuation of SON 1121 stressing deviation from normal and customizing the sonographic examination to make a diagnostically optimal study. Gynecologic pathologic processes and differential diagnosis are covered. In addition, obstetrical abnormalities during all phases of obstetrics and postpartum are covered.
Prerequisite: SON 1121. Offered: SP. Notes: AS only.

SON 1144 - Superficial Structures (Small Parts) (3 cc)
Includes anatomy, physiology, and pathophysiology of the superficial structures imaged with sonography. Sonographic recognition of normal and pathologic states and the techniques unique for superficial structure imaging is stressed.
Prerequisite: SON 1112. Offered: SU. Notes: AS only.
SON 1170 - Sonography of the Circulatory System (3 cc)
An introduction to the hemodynamics of circulatory systems and the sonographic imaging and Doppler assessment of the cardiac and vascular structures.
Corequisite: SON 1100C. Offered: SU. Notes: AS only.

SON 1211 - Medical Sonography Physics I (3 cc)
This course offers the principles of diagnostic ultrasound and presents the fundamental properties of ultrasound physics. Tissue interactions and interfaces, focusing characteristics and methods and intensity and power considerations are introduced, along with system resolution considerations.
Prerequisite: SON 1100C, SON 1170. Offered: FA. Notes: AS only.

SON 1212 - Medical Sonography Physics II (3 cc)
This course offers further consideration of the properties of diagnostic ultrasound stressing the operation of the diagnostic equipment, the display system, biological effects and quality assurance methods. Current developments in ultrasound are included.
Prerequisite: SON 1211. Offered: SP. Notes: AS only.

SON 1214 - Practical Aspects of Sonography I (3 cc)
This course explores the practical application of sonography techniques, image critique, communication, patient care as related to sonographic examination, and the routine operation of a sonography department. Invasive procedures and cleaning and care of equipment are covered. Legal, ethical, and cultural issues for sonography are discussed. Professionalism and communication are stressed.
Prerequisite: SON 1170. Offered: FA. Notes: AS only.

SON 1215 - Practical Aspects of Sonography II (3 cc)
This course offers more advanced principles of diagnostic ultrasound, adding knowledge of pathological processes and differential diagnosis. Further presenting the practical aspects of scanning techniques, image critique, communication, patient care as related to sonographic examination, and the routine operation of a sonography department while stressing professionalism. Scientific research, professional organizations, credentialing, and electronic communication are covered.
Prerequisite: SON 1214. Offered: SP. Notes: AS only.

SON 1804L - Sonography Clinic I (6 cc)
Under professional supervision students learn and practice in actual clinical settings combining skills learned in previous courses and didactic knowledge. Professionalism and personal interactions are stressed along with technical abilities for obtaining images.
Prerequisite: SON 1170. Offered: FA. Notes: AS only. Lab Fee.

SON 1814L - Sonography Clinic II (6 cc)
This course is a continuation of SON 1804L. Students will continue to build skills utilizing clinical facilities. Deviation from normal and adaptation of sonographic studies to obtain optimal data is stressed.
Prerequisite: SON 1804L. Offered: SP. Notes: AS only. Lab Fee.

SON 1824L - Sonography Clinic III (6 cc)
Clinical education requiring application of knowledge learned in previous courses. Professionalism and personal interactions are stressed along with technical abilities. The student will be able to explain and demonstrate all procedures learned in prior clinics and didactic courses. He/she will be under the supervision of a registered sonographer during all examinations. Students may have an opportunity to explore an area of sonography of special interest to them.
Prerequisite: SON 1814L. Offered: SU. Notes: AS only. Lab Fee.

SON 1834L - Clinic Skills Maintenance (2 cc)
An extension of the Sonography Clinical Experience to bridge a hiatus in the student’s program. Under supervision, the student will maintain Sonography skills utilizing clinical facilities.
Offered: FA, SP.

SON 1931 - Special Topics in Sonography (1 cc)
A platform for presenting a variety of topics in Sonography. The course may be repeated for credit when content varies. Specific learning needs will be addressed for each individual student.
Prerequisite: Permission of program director. Offered: TBA.

SON 2099 - Diagnostic Medical Sonography Review (1 cc)
Discussion and presentation course focusing on interpersonal skill refinement, employment issues, and career development; a comprehensive curriculum review of all aspects of Sonography and detailed discussions on applying for licensure, as students prepare for the transition to the work place.
Prerequisite: SON 1215. Offered: SU. Notes: AS only.

SON 2935L - Special Topics Continued Practice (2 cc)
Provides the Sonography graduate an opportunity to participate in a clinical experience that will assist the graduate in making the transition from the academic to the work setting.
Prerequisite: Successful completion of Pensacola State College's Sonography program; instructor permission. Offered: FA, SP, SU.

SON 2942L - Internship in Sonography (2 cc)
Planned work-based experience that provides students with an opportunity to fine-tune skill sets learned in course-work and enhance workplace skills through supervised practical experiences related to their career objectives. Each earned credit of internship requires a minimum of 80 clock hours of work. Multiple credit course. May be repeated for credit, but grade forgiveness cannot be applied.
Prerequisite: Successful completion of Pensacola State College's Sonography program; instructor permission. Offered: FA, SP, SU. Notes: AS only.

SON 2943L - Special Topics in Sonography (1 cc)
This introductory course prepares students for advancement in the field of Sonography and provides a comprehensive curriculum review of all aspects of Sonography and detailed discussions on applying for licensure.
Prerequisite: Successful completion of Pensacola State College's Sonography program; instructor permission. Offered: FA, SP, SU. Notes: AS only.

SOW - SOCIAL WORK

SOW 2031 - Introduction to Social Work and Social Welfare (3 cc)
This course is a survey of the social work profession from its historical roots to the present. Emphasis is placed on introducing the students to the field, practice standards, issues in social welfare, the social work process, and practice settings. Particular emphasis will be placed on the role of social workers in advancing the human condition. Students will learn about the role professional social workers play in attaining equality of opportunity, fairness, and social justice.
Offered: FA, SP.

SPC - SPEECH COMMUNICATION

SPC 1006 - Study of Speaking and Listening (1 cc)
This introductory speech communication course focuses on the study of speech composition and delivery and on basic listening skills.
Distribution: Serves as an elective for AA and AS students. Offered: FA, SP.
SPC 1017 - Fundamental Communication Concepts (3 cc)
This course provides an introduction to oral communication, examining the fundamentals of public, small group, intrapersonal, and interpersonal communication, and may include professional, mass communication, and technology based components. Formal oral presentations, informal speaking, and listening situations are introduced. Learning techniques, in addition to traditional lecture format. Distribution: General Education, Communications. Offered: TBA.

SPC 1608 - Public Speaking (3 cc)
This rhetoric-based course examines the concepts of speech communication via lecture, discussion, and practical experiences in public speaking, small group discussion and problem solving, and comprehensive and critical listening. This is a speaking-intensive course, and participation may include original research, writing, and delivery of several types of formal speeches, panel discussions, and critical analysis and evaluation of other speakers.
Distribution: General Education, Communications. Offered: FA, SP, SU.

SPC 2300 - Interpersonal Communication (3 cc)
This comprehensive course studies the speech communication principles involved in one-to-one interaction, family, social, and occupational group communication, comprehensive listening, and intrapersonal thought. Discussions and activities focus on application of verbal and nonverbal communication to convey messages about the self, to create and maintain relationships, to improve academic and professional performance, and to manage/resolve conflict, among other concepts. Learning techniques may include formal and informal presentations, role play, simulation, and small group participation.
Distribution: General Education, Communications. Offered: FA, SP, SU.

SPC 2933 - Special Topics in Communication (3 cc)
Allows flexibility for presenting a variety of topics in communication, including but not limited to interpersonal relationships; communication in film; small group dynamics; voice and diction; nonverbal communication; and intercultural communication. Oral performance may be required. Course(s) may be repeated for credit when content varies.
Prerequisite: Grade of C or better in ENC 1102 or SPC 1608 or SPC 2300. Offered: TBA.

SPN - SPANISH LANGUAGE

SPN 1120 - Beginning Spanish I (4 cc)
Emphasizes the development of basic skills in listening, speaking, reading, and writing Spanish with an introduction to culture. Students with two consecutive years of high school Spanish within the last 3 years with a grade of C or higher should begin in SPN 1121.
Offered: FA, SP, SU.

SPN 1121 - Beginning Spanish II (4 cc)
Continued development of basic skills in listening, speaking, reading, and writing with greater emphasis on culture.
Prerequisite: Grade of C or better in SPN 1120 within the last 3 years, or departmental approval. Distribution: General Education, Humanities. Offered: FA, SP, SU.

SPN 2200 - Intermediate Spanish I (3 cc)
Development of ability to read with comprehension varied material on literature, culture, or history of Spanish-speaking countries with the emphasis on the oral-aural aspects of the language. The study of grammar is continued on a more advanced level.
Prerequisite: SPN 1121. Offered: TBA.

SPN 2201 - Intermediate Spanish II (3 cc)
This course is designed to further enhance the knowledge of students in the Spanish language. The four language skills of listening, reading, writing and speaking will offer the students the opportunity to learn more about the stylistics of the language. Creative material will be introduced that will help students acquire more information about the history and the culture of the language.
Prerequisite: SPN 2200. Offered: TBA.

SPN 2240 - Conversational Spanish I (3 cc)
The course is intended for any student with at least six hours of Spanish who desires proficiency in spoken Spanish. The student is urged to use Spanish in class in the practicing of structural drills and the discussion of varied materials in Spanish.
Prerequisite: SPN 2201. Offered: TBA.

STA - STATISTICS

STA 2023 - Elementary Statistics (3 cc)
A study of fundamental statistical methods including organization, analysis and interpretation of numerical data, measures of central tendency and dispersion, statistical distributions, sampling techniques, hypothesis testing, probability, z-tests, chi-square tests, correlations, and regression equations.
Prerequisite: Appropriate placement score or completion of MAT 1033C with grade of C or better. Distribution: General Education, Mathematics. Offered: FA, SP, SU.

STS - SURGICAL TECHNOLOGY STUDIES

STS 0010 - Surgical Technologist 1 (150 ch)
Introduces the basic sciences related to surgical technology.
Includes an introduction to surgical technology, microbiology for surgical technologists, pharmacology and anesthesia.
Corequisite: HSC 0003C, STS 0015C. Offered: TBA.

STS 0011C - Surgical Technologist 2 (450 ch)
Expands the student’s knowledge and understanding of the basic sciences related to surgical technology. Includes anatomy and physiology with pathophysiology relating to surgical interventions; aseptic technique, surgical supplies and surgical case management; and surgical procedures.
Prerequisite: HSC 0003, STS 0015, STS 0010. Offered: TBA.

STS 0012L - Surgical Technologist 3 (435 ch)
Supervised experiences in the clinical setting where the student is a member of the surgical team. Students will apply and reinforce concepts of the principles of aseptic technique and the skills required of an entry level surgical technologist.
Prerequisite: STS 0011C. Offered: TBA.

STS 0015C - Central Supply Technician (210 ch)
Introduces basic medical principles regarding the use and processing of surgical instruments. Includes operations and procedures performed in the sterile processing department, key principles of microbiology as it relates to the surgical environment, instrumentation and lab, central service and lab, and identification of major instrument sets.
Corequisite: HSC 0003C, STS 0010. Offered: TBA.
SUR-SURVEYING-RELATED AREAS
SUR 1100C - Construction Surveying (4 cc)
An introductory course including the fundamentals of plane surveying and the use and care of equipment. Topics covered are theory of leveling, angles and bearings, curves and topography. An introductory laboratory designed to include measurement of distance, leveling, and land surveying. Includes use of Laser/Electronic Distance Meter.
Corequisite: MAT 1033C or higher math or permission of instructor. Offered: SU. Notes: AS only. Lab Fee.

SWS-SOIL AND WATER SCIENCES
SWS 2006 - Introduction to Soil Science (4 cc)
A study of the relationships of soil water, fertilizers and plant roots. The course will include soil properties, classification, management and use. The social issues surrounding soil water use will be covered. The laboratory period will give students practical experience in the above areas.
Offered: SP.

SYG-SOCIOLOGY-GENERAL
SYG 2000 - Introduction to Sociology (3 cc)
Sociology is the systematic study of human group dynamics. As such, this introductory course will cover the theoretical foundations of sociology and their application to modern society. Some topics covered include: race and ethnicity, gender and age inequalities, globalization, education and politics. The course invites students to view and analyze their social world in a new and exciting perspective.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Distribution: General Education Core, Social Sciences.
Offered: FA, SP, SU.

TAX - TAXATION
TAX 2000 - Income Tax Procedures (3 cc)
A study of current Federal Income Tax Laws and rules as they apply to individual income tax returns. Actual tax forms are studied and prepared by the student. Topics include gross income, inclusions, and exclusions, personal itemized deductions, tax credits and pre-payments, capital gains and losses, and rental and self-employment income.
Prerequisite: ACG 2001 or ACG 2021. Offered: FA, SP, SU. Notes: AS only.

THE - THEATRE STUDIES AND GENERAL RESOURCES
THE 2083 - Theatre Problems (3 cc)
This is an advanced course for students who have demonstrated that they are capable of advanced, highly specialized work in a particular area of the theatre such as scene design, acting methods, play writing, and directing. Students are assigned to a teacher who will design, supervise, and evaluate their projects. May be used for certification or recertification of high school drama teachers. May be repeated for credit (three times).
Prerequisite: THE 2000. Offered: TBA.

THE 2300 - Dramatic Literature (3 cc)
This course explores dramatic literature and develops the student's knowledge and appreciation of the elements of literature through the study of selected scripts, playwrights and dramatic theories. Among these elements are the history of dramatic literature, genre study and the theory and practice of dramatic analysis and criticism.
Offered: SP.

THE 2925 - Theatre Colloquiums (1 cc)
Special sessions centering on a specific topic designed to enhance specific professional skills. Topics will be drawn from the areas of acting, technical theatre, and dance stage movement. In acting, the focus will be upon improvisational acting skills. In technical theatre, the focus will be on the focus will be on Old Age and basic Theatrical Make-up. In dance stage movement, the focus will be on a variety of physical skills and movement exercises; safety conscious warm-up techniques; basic stage combat techniques will be introduced.
Prerequisite: DAN 2100, THE 2000. Offered: FA. Notes: Lab fee.

TPA - THEATRE PRODUCTION AND ADMINISTRATION
TPA 2200 - Introduction to Technical Theatre (3 cc)
Basic design practice as applied to stage settings, practical exercises in construction, painting, mounting, and lighting a stage production. Students enrolled in this course will not be permitted to enroll in Stagecraft Workshop during the same semester. Offered: SP.

TPA 2290C - Technical Laboratory (1 cc)
Course constitutes participation in the backstage technical operation of the current production. This course may be taken three times. Hours to be arranged.
Offered: FA, SP, SU.

TPP - THEATRE PERFORMANCE AND PERFORMANCE TRAINING
TPP 1100 - Introduction to Acting (3 cc)
An introduction to the basic skills of acting, voice, and dance for the stage. Course consists of one hour daily lectures/ participation covering various aspects of theatre arts, including costumes, scenery, and make-up to be followed by three hours of rehearsal. Students will participate on stage or back stage in a musical or dramatic production. This course may be repeated as different productions are performed.
Offered: SU.
TPP 1110 - Acting I (3 cc)
A practical study of beginning acting. Basic skills will be practiced in pantomime, improvisations, and selected scenes. Participation in current Pensacola State College production is encouraged, as well as studying other actors in performance in area theaters: Pensacola Little Theatre, University of West Florida, and local secondary schools.
Offered: FA.

TPP 1111 - Acting II (3 cc)
A study of acting styles with practical application of acting skills in classroom exercises and extra-curricular activities. A study of the advantages and disadvantages of theatre as a vocation and/or an avocation.
Prerequisite: TPP 1110 or permission of instructor. Offered: SP.

TPP 2190 - Rehearsal and Performance (1 cc)
This credit hour is restricted to the students who are cast in performing roles in the dramatic productions of the semester. This credit may be earned three times. Hours to be arranged.
Prerequisite: Permission of instructor. Offered: FA, SP, SU.

TPP 2250 - Introduction to Musical Theatre (3 cc)
Introduction to the study of musical theatre analysis, creation, and performance as applied to the study of voice, dance, and acting.
Offered: SP.

TPP 2300 - Directing I (3 cc)
Introduction of the fundamental principles and techniques of play direction to include script selection and analysis, casting, blocking, composition, picturization, interpretation and staging of plays.
Prerequisite: TPP 1110 or permission of instructor. Offered: FA.

ZOO 1010 - General Zoology (3 cc)
A zoological laboratory experience that includes microscopy, experimental exercises, and dissection. Morphological, physiological, and taxonomic aspects of animals are studied. Representative animals are used to illustrate significant characteristics of major and animal groups. Variety of form and function in animals is given considerable emphasis throughout the course. Local beach and marine animals are emphasized. Recommended for biology majors.
Prerequisite: Placement at the college level or completion of the appropriate exit-level developmental course(s) with a grade of C or better. Corequisite: ZOO 1010L. Distribution: General Education, Natural Sciences (Biological Sciences). Offered: FA, SP, SU.

ZOO 1010L - General Zoology Laboratory (1 cc)
A laboratory course covering the anatomy, taxonomy, and behavior of the vertebrates, including survey of related invertebrates. Dissection of representatives of vertebrate classes, use of taxonomic keys, and a project are included in class assignments.
Prerequisite: ZOO 1010, ZOO 1010L. Corequisite: ZOO 2303. Offered: TBA. Notes: Lab Fee.

ZOO 2303L - Vertebrate Zoology Laboratory (1 cc)
A laboratory course covering the anatomy, taxonomy, and behavior of the vertebrates, including survey of related chordates. Dissection of representatives of vertebrate classes, use of taxonomic keys, and a project are included in class assignments.
Prerequisite: ZOO 1010, ZOO 1010L. Corequisite: ZOO 2303. Offered: TBA. Notes: Lab Fee.

2015-2016 ACADEMY OF TEACHING EXCELLENCE

The Academy of Teaching Excellence was established in 1986 by Dr. Charles Atwell during his tenure as the Executive Vice President. The Academy recognizes outstanding faculty who have exhibited sustained excellence in teaching. Each year several full-time and one adjunct faculty are inducted into the Academy.

HIKMAT BC
Associate Professor
Physical Sciences

SONJA McCALL-STREHLOW
Associate Professor
Professional Service Careers

MITZIE SOWELL
Associate Professor
Biological Sciences

JOHN CHRISTOPHER TURNER
Professor
Mathematics

MARY LOUISE WINTER
Assistant Professor
History, Languages, and Social Sciences

MICHAEL JOHNSTON
Adjunct Faculty
Mathematics

Outstanding New Faculty Member

Beginning in 1994, the Academy began honoring one outstanding new faculty member each year.

ELIZABETH ANN MOSELEY
Assistant Professor
History, Languages, and Social Sciences
