American Sign Language for the Workplace, Manufacturing Production Technician, Airframe & Production Test Prep and much more!
The movie, *Back to the Future*, provides a great picture of how past decisions impact future outcomes. It provided a clear picture of how one minor change in the past caused a major change in the future. Let’s apply that knowledge to achieving our goals.

This is the time of year that many will make New Year’s resolutions and set goals. This is an awesome time to do so, but to be effective in planning and commitments, there must be a time of reflection.

Reflection is simply looking back with purpose. Reflection is your back to the future moment. Look back at your past year, month, week or day. What does it look like? What did or didn’t you do? How did that activity or inactivity impact your outcome? Use your answers to these questions to create a plan of action or road map to your future.

One decision with committed activity has the ability to alter your future tremendously! Acknowledge the things that were good and affirm yourself for doing them. Acknowledge the impact of those things that didn’t work best in achieving your goals, but don’t make those outcomes your identity. Make a decision to alter your future by changing those things.

Don’t get frustrated if you don’t see immediate change. With consistency in your commitment the desired outcomes will happen – just keep doing the activity. For many years a bamboo tree is growing without a visible sign because its roots are growing and developing to support it long term. Then suddenly, its growth seems rapid and visible. You are like a bamboo tree.

Don’t stop going back to the future. Reflection is the key to success!

The mission of the Department of Workforce and Economic Development is to assist in the economic and workforce development efforts by coordinating college and community resources to attract, retain and grow economic entities and to be the primary resource for quality continuing workforce education and professional training programs for business, government and industry.
I f you really want to lead, never accept anything less than your personal BEST, and be certain, that it is indeed good enough to positively impact your organization. In order to actually do so, rather than merely go forward in an empty rhetoric-manner, you must know what it really means, not only in terms of quality and attitude, but other essential components and factors to be considered, and focused upon.

1. BENEFITS; BY-PRODUCTS; BELIEFS: The greatest leaders are those who prioritize the needs, concerns and issues that constituents care most about, and create an agenda and/or action plan, that emphasizes how it will benefit his stakeholders and organization. This benefits-mindset begins with articulating one’s ideas, plans, beliefs, and what the leader feels must be positively addressed. Beliefs should be synergistic with ideals, as well as the mission of the organization. How will you enhance their experiences because of your vital, vibrant vision, and will you do so, in a way that gets constituents to buy into the concepts, and thus adopt these as their priorities and concerns.

2. EMPATHY; EFFORT; EXCELLENCE: Start the process by listening far more than you speak (after all, isn’t that why we have two ears, but only one mouth?). See things through the eyes of those you serve and represent, and be empathetic in a real, and not merely a rhetoric-driven manner. Proceed with maximum effort, but assure that you maintain both quality and commitment to continuous, reliable excellence.
3. **SUSTAINABLE SYSTEM**: What good is anyone leading, unless he creates an easily duplicated, quality, sustainable system? Begin with relevance and the right priorities, evaluate all ramifications, and look to what impact, your present course of action, will have on the sustainability of your organization.

4. **TIMELY; TRENDY**: One of the major problems with procrastination, is that when things that need immediate attention are delayed, rather than being addressed on a timely basis, the obstacles and challenges, generally become far more difficult to address, when action isn’t taken at the earliest recognition of the need. Never fear becoming a trendsetter, but embrace being an innovator, who considers alternatives, weight options, and prepares to take advantage of the best opportunities.

Doesn’t it make sense that if you want to be a great leader, you focus on being the BEST you can be? Focus on these four keys, and you’ll be well on your way!

Richard has owned businesses, been a COO, CEO, and Director of Development, as well as a consultant. He has professionally run events, consulted to over a thousand leaders, and conducted personal development seminars, for over 30 years. Rich has written three books and well over a thousand articles. His company, PLAN2LEAD, LLC has an informative website: [http://plan2lead.net](http://plan2lead.net) and LIKE the Facebook page for leadership planning: [http://facebook.com/Plan2lead](http://facebook.com/Plan2lead)

DESKTOP APPLICATIONS

Microsoft Excel 2013, Level I  
Course: W01292 (10 hours)  
Students will learn how to use the Help system and navigate worksheets and workbooks. Then they will enter and edit text, values, formulas, and pictures, and they will save workbooks in various formats. Students will also move and copy data, learn about absolute and relative references, and work with ranges, rows, and columns. This course also covers simple functions, basic formatting techniques, and printing.  
9171  2/29 – 3/4  8:30 a.m. – 1:30 p.m.  MF DTC 409 $125  
9172  4/19 – 4/21  12:00 p.m. – 5:00 p.m.  TR DTC 409 $125

Excel Functions and Formulas  
Course: W00490 (4 hours)  
Students will learn how to use spreadsheet functions not usually covered in other courses such as date, financial, logical, lookup, math, statistical and text.  
9178  4/1  8:30 a.m. – 12:30 p.m.  F DTC 409 $69

Excel: Working with Data Tables, PivotTables and Analyzing Data  
Course: W01332 (3.5 hours)  
In this workshop students will learn how to easily find, organize and analyze information by creating tables. They will learn how to use PivotTables to group or expand levels of data, switch columns and rows, filter and sort. We will teach how to use tools for creating multiple worksheet scenarios, using Goal Seek and Solver tools to perform what-if analysis, and organizing the data by subtotaling, outlining, or consolidating. This course is for those with a good working knowledge and understanding on how to use Microsoft Excel worksheets.  
9179  4/15  8:30 am – 12:00 pm  F DTC 409 $39

Microsoft Excel 2013, Level II  
Course: W01333 (12 hours)  
Students will learn how to use multiple worksheets and workbooks efficiently, and will work with more advanced formatting options including styles, themes, and backgrounds. They will also learn how to create outlines and subtotals, how to create and apply cell names, and how to work with tables. Students will save workbooks as Web pages, insert and edit hyperlinks, and learn to share workbooks by email. This course also covers advanced charting techniques, use of trendlines and sparklines, worksheet auditing and protection, file sharing and merging, and workbook templates.  
9176  3/7 – 3/11  8:30 a.m. – 12:30 p.m.  MWF DTC 409 $140  
9177  5/3 – 5/5  12:30 p.m. – 4:30 p.m.  TWR DTC 409 $140

Microsoft Word 2013, Level I  
Course: W01293 (12 hours)  
After an introduction to Word’s window components, students will learn how to use the Help system and navigate documents. They will enter and edit text, create and save documents, and learn how to enhance the appearance of a document by using various formatting options. Students will also create tables, insert headers and footers, proof and print documents, and insert graphics.  
9173  2/1 – 2/3  8:30 a.m. – 12:30 p.m.  MTW DTC 409 $140  
9174  2/22 – 2/25  5:00 p.m. – 8:00 p.m.  MTWR DTC 409 $140

Microsoft Word 2013, Level II  
Course: W01352 (12 hours)  
The course is an intermediate level course designed for students who have basic knowledge of Microsoft Word. Course content includes how to create newsletter columns, how to use WordArt and clip art, document themes, styles and picture editing, as well as Mail Merge. Students will also learn how to create and modify footnotes, endnotes, headers, footers, table of contents, indexes and templates.

ONLINE COURSES – WORKPLACE SKILLS

Introduction to Laying the Relationship – Building Foundation
Course: W00953 (3 hours) Online Training
Course offers an in-depth look at what constitutes networking, the noun that has been turned into a verb and is a mainstay in business worldwide.
9030  Open Enrollment  $36

To Catch Trout, Don’t Fish in a Catfish Pond
Course: W00954 (2 hours) Online Training
This course will help you complete your personal relationship-building plan and help guarantee that the networking process works for you. Keep this plan handy so you can continue to refine it as you move throughout your career.
9031  Open Enrollment  $24

Creating Effective Business Cards
Course: W00955 (2 hours) Online Training
This course leads you through the process of creating your Verbal Business Card, the front end of your elevator pitch, which also serves as the basis of your top-of-the-mind positioning statement, a must for every business person.
9032  Open Enrollment  $24

Work an Event with Ease
Course: W00956 (2 hours) Online Training
You can do your homework, yet nothing can simulate actually working an event. This is when reality hits, and you have the face-to-face opportunity to build or strengthen relationships that will help increase your sales or get you the job or promotion you want … or to miss the chance because you don’t know networking etiquette or didn’t engage in meaningful conversations that made you memorable. There’s so much more to working an event than just showing up. This course details what to do from start to finish, giving you the framework to adapt to your style so you can succeed much more easily.
9033  Open Enrollment  $24

Follow Up is Golden
Course: W00957 (2 hours) Online Training
You did your before-the-event preparation. You worked the event with ease, and now you have a handful of business cards. What do you do next? You follow up, of course! You’ll learn how … from the importance of collecting and recording information on business cards for populating your database to follow-up methods from email, handwritten notes, e-zines or newsletters to the time-proven telephone calls, business meals and referrals.
9034  Open Enrollment  $24

Building Relationships for Business and Career Success
Course: W00952 (11 hours) Online Training
This five part series includes: Introduction to Laying the Relationship-Building Foundation, To Catch Trout, Don’t Fish in a Catfish Pond, Creating Effective Business Cards, Work an Event with Ease, Follow Up is Golden

The classes listed in this schedule booklet are non-credit courses. Upon successful completion of a class, you receive CEUs (continuing education units) as well as a certificate of completion. If you take classes for professional or continuing education credits, please check with your regulatory organization to determine if these classes meet their requirements.
Captains License: Operator of Uninspected Passenger Vessel (OUPV or “6 Pack”)
Course: W01319 (57 hours)
This course is designed to be the first step in a path towards achieving a USCG 25–100 Master's License. This course is designed for someone who intends to pursue a career as a professional mariner. The course consists of four parts: General Navigation, Plotting and Charting, Rules of the Road and Deck General. Upon completion of the class and a passing score on the tests, a certificate will be awarded. This certificate is required by the USCG as part of your application packet for your license. This course is in lieu of testing with the USCG.

Florida Real Estate Sales Pre-Licensing
Course: W00014 (63 hours)
This course includes the 63 hours of required education to obtain your Florida Real Estate Associate license. In classroom instruction.

Microsoft Excel 2013, Level I
Course: W01292 (12 hours)
Students will learn how to use the Help system and navigate worksheets and workbooks. They will enter and edit text, values, formulas, and pictures, and they will save workbooks in various formats. Students will also move and copy data, learn about absolute and relative references, and work with ranges, rows, and columns. This course also covers simple functions, basic formatting techniques, and printing.

NEW! What’s My Communication Style
Course: W01331 (4 hours)
This course will provide students with new insight into their everyday communications with others. It offers an accurate and reliable way to quickly identify their communication style. It will also help them understand the various forms of communication, identify the communication styles of others, and learn how to “flex” their style to improve communication.

NEW! Your Leadership Journey
Course: W01334 (4.5 hours)
This 4.5 hour course arms a new or prospective leader with the knowledge and skills they need to confront the challenges they face early in their leader career. The course encourages the learner to think about the transitions that newer leaders face and how to handle those challenges. Learners will be introduced to three leadership differentiators that are most important to build a positive reputation as well as add to the organization's success.

NEW! American Sign Language (ASL) for the Workplace 101
Course: W01355 (16 hours)
This course introduces students to ASL vocabulary and grammar used to conduct basic work related conversations. Topics include introductions, making appointments, work duties, giving and asking for clarifying information.

NEW! American Sign Language (ASL) for the Workplace 102
Course: W01356 (16 hours)
This course builds on skills learned in American Sign Language for the Work Place 101 to develop signing fluency and to expand conversational vocabulary. Topics include asking for assistance, using money, explaining procedures, and scheduling events.

NEW! Airframe and Powerplant Test Prep
Course: W01341 (120 hours)
This course prepares the student to pass the Airframe, Powerplant, General, and Oral/Practical Tests given by the FAA to become a Certified Aircraft Maintenance Technician. The students must meet the guidelines and have the necessary documentation as required by the FAA prior to starting the class. The Student must be 18 years old and must read, write, and understand the English language. In addition the student must have 18 months of practical experience with either power plants or airframes, or 30 months of practical experience working on both at the same time, this includes Civilian and Military experience. As an alternative to this experience requirement, you can graduate from an FAA-Approved Aviation Maintenance Technician School. Also FAA form.

NEW! Manufacturing Production Technician (CPT)
Course: W01327 (120 hours)
This course is designed with the goal of positioning completers with skills that communicate to partnering employers their readiness to work in today's advanced manufacturing industry. In addition, the successful completion of the program and earning satisfactory scores on the four assessments articulate into fifteen college credit hours toward the AS Degree in Engineering Technology to any one of eleven state colleges in Florida that offer this degree.
ON THE INTERNET
Online registration is available to everyone. Go to www.pensacolastate.edu/CCPD. Follow the instructions on the Pensacola State College website always choosing Continuing Education.

WALK IN
Register in person at any Pensacola State College campus Registration Office. Pensacola, Building 2; Milton, Building 4200; Warrington, Building 3600

BY MAIL
Mail your completed Continuing Education registration form, with payment information (do not send cash) to: Pensacola State College Cashier Office, 1000 College Blvd., Pensacola, FL 32504.

Rev. 3/4/11
“... a lot of recruiters are now paying more attention to soft skills than to hard skills. Candidates with impressive resumes but poor soft skills often have been rejected in the final rounds of interviews.”

WHAT ARE SOFT SKILLS AND WHY ARE THEY SO IMPORTANT?

Most people are still not clear about what “soft skills” means. Frankly, the term itself was coined just a few years ago.

In any job, the sole importance was given to the candidate’s resume and what his qualifications were. But nowadays, a lot of stress is being laid on the candidate’s soft skills and whether he is properly trained in them.

So, what are soft skills? Essentially, it is a method to judge a person’s performance, leadership ability, and team spirit. Hard skills constitute your educational qualifications and previous job experience. In fact, a lot of recruiters are now paying more attention to soft skills than to hard skills. Candidates with impressive resumes but poor soft skills often have been rejected in the final rounds of interviews. That is why you should develop these skills.

Soft skills can be classified into these categories:

NEGOTIATION: This is a very crucial soft skill. The art of negotiating a deal with a client or even negotiating with a co-worker is something that you need to master effectively. To master this aspect, you will need training to negotiate to the fullest of your capabilities.

TEAM BUILDING: Instilling team spirit in the members of a team is perhaps the most difficult task ever. Ego, personal rivalry, office politics, and various other factors come into play and you have to overcome all these hurdles and utilize all the resources efficiently. This is known as team building and it requires training beforehand.

COMMUNICATION: You must communicate well with your superiors and peers. If you can’t express your thoughts or grievances in the proper manner, then it will soon begin to affect your performance. Honing this particular soft skill is even more important when you are talking to clients of the company.

Looking for an institute that offers soft skills training? First, research the institute. Make sure that it has a good name in the market and that it offers good job placement after the course is completed.
WHAT’S IN A NAME? THE SIX ESSENTIAL ELEMENTS YOU NEED TO KNOW

BY SUSAN FRIEDMANN

Selecting a name for your new business is not easy. A name does more than identify your company. It tells customers who you are, what you do, and more than a little about how you do it.

Your name differentiates you from your peers, peaks customer interest, and invites further investigation — if you do it right.

I didn’t do it right. At least, not at first.

All entrepreneurs make mistakes, and I made one right off the bat. Thrilled with the fledgling business I was starting, I christened my company Diadem Communications. Diadem means crown — a fitting name for what I felt was a crowning achievement.

What does Diadem say to you? Does it evoke thoughts of me coming into your company, training your sales team to be the best booth staff ever, ensuring that every single trade show you attend turns out to be amazingly successful? Does it make me sound so good that you just can’t wait to hire me?

No. It doesn’t say that to me either. And even worse, it didn’t say that to any of my potential customers. Going by name alone, no one could determine the least bit of information about me, my company, or the services we offer. The name said nothing, and it did nothing for me.

The name had to go. More importantly, it had to be replaced by something effective. How do you come up with an effective name? Consider the following six elements.

An Effective Name

1. TELLS WHO YOU ARE: Your name should reflect your identity. This is an essential aspect of branding. You’ll be promoting this name, getting it in front of as many eyes as possible as often as possible. How do you want the public to think of you?
For some, that means integrating your personal name into the name of your business. This is very common in some professions: legal, medical, and accounting leap to mind.

Others prefer a more descriptive name. One successful small baker runs her business under the name “The Cookie Lady” because that’s how her first customers identified her. It’s doubtful that most of the customers even know her first name (it’s Pat) but everybody in her market knows “The Cookie Lady.”

2. TELLS WHAT YOU DO: It’s incredible how many company names give little, if any indication of what type of work the organization actually does. Take the following examples:

• Smith and Sons
• Hulbert Brothers
• Only One

Can you tell what these companies do? Of course you can’t. They’re relying on customers already knowing who they are (a tricky proposition for new businesses!) or finding their name in “context,” such as the yellow pages or online business directory.

3. TELLS HOW YOU DO IT: Words are very powerful. By carefully selecting what words you use in your name, you can convey a great deal about your company’s image. Consider the names of three different massage and bodywork centers:

• Champlain Valley Therapeutic Massage
• Clouds Above Massage
• Speedy Spa

All three companies are providing the same service: massage therapy. Yet the first appears to favor a more medical approach; the second, a dreamy, luxury approach; and the third focuses on fast service.

4. DIFFERENTIATES YOU FROM YOUR PEERS: Your company name is the first opportunity to tell customers how you differ from the competition. This can be done by emphasizing what makes you unique, pinpointing what aspect of your products and services can’t be found anywhere else -- or that you do better than anyone else.

Consider the massage therapy example we looked at in number three. Each organization clearly has a different focus and approach to their customer base. They’re attracting different types of clients, who are seeking fundamentally different approaches. All of which is conveyed in less than five words.

5. PEAKS CUSTOMER INTEREST: Creating customer interest is an art and a science. Think carefully about your target audience. What qualities of your services are of the greatest import to your customers? What kind of words are likely to appeal to them?

Emphasize the important qualities in your name. For example, busy homeowners are drawn to the inherent promise of speed offered by “Bob’s Instant Plumbing” while a reader in search of a good mystery will gravitate toward “Crime Pays Books”.

Word choice is also important. Two yarn shops can both specialize in specialty fibers, but the one who labels themselves “All Hemp All the Time” will draw in a crowd decidedly different from the one named “Natural Beauty: Organic Yarns”.

6. INVITES FURTHER INVESTIGATION: Customers are funny creatures. What one group finds to be funny and engaging turns off another group. You want your name to be inviting and approachable – as those qualities are perceived by your target audience.

The best example of this may be seen in the individual investor segment of the financial services industry. Charles Schwab has spent years cultivating a classic, formal image — but now that the consumer base is changing from “old people with money” to “everyone with a 401K,” Charles Schwab has launched the “Talk to Chuck” campaign in an effort to be more approachable.

Make sure your name doesn’t intimidate customers away! Some industries are more formal than others, but adopt pretension at your peril.

After following a series of simple step-by-step instructions to match my corporate identity with my service offering, I came up with the quintessential name: The Trade Show Coach. This name instantly tells customers what I do - assist companies with trade shows - and a little of the manner in which I do it - coach, rather than dictate, direct, guide, or organize.

See the difference? So did the buying public, some of whom quickly became my best customers. The same thing can happen for you – if you pick the right name.

“Charles Schwab has spent years cultivating a classic, formal image — but now that the consumer base is changing from “old people with money” to “everyone with a 401K,” Charles Schwab has launched the “Talk to Chuck” campaign in an effort to be more approachable.”
What’s Inside

- Captains License (OUPV or “6 Pack”) – Feb. 23 - May 3 (Page 12)
