

29th annual

kids
college

PENSACOLA STATE COLLEGE

Distribution does not imply endorsement or recommendation by Escambia County Public Schools

Welcome to Kids College 2019

Please read this handbook thoroughly and discuss each element with your children. This is their way to become familiar with the Pensacola State College Kids College program and yours as well. We are looking forward to providing a summer of quality courses that are fun, interesting and some challenging. Please emphasize to your children that they must have a volunteer with them when traveling across the campus, but rest assured that Kids College students will be supervised at all times — in class, out of class, changing of classes, and during lunch.

BEFORE CLASSES BEGIN

Requirements to Participate

Students must be 6 years old to enroll and must have attended Kindergarten. All students must be **between ages 6 and 12 to participate**.

1. Parents complete the **Check-out and Emergency Form** and the **Acceptable Behavior Standard Agreement**. *Students will not be able to register without these completed.
2. Register and Pay for classes online at **PensacolaState.edu/ce** or on any campus.
3. Register your child based on their age during the program.
4. Bring or purchase lunch if your child attends full day of classes.

**Parent Handbook, including forms, is available on our website, in our office or can be emailed upon request.*

About Registration

Registration is first come, first serve. Classes fill quickly. In order to get your preferred schedule, please register early.

- Register child based on their age during the program.
- All forms must be signed and completed in order to be registered.
- Class enrollment will be limited to insure quality of instruction.
- **Cancellation:** All courses are self-supporting and must have a minimum number of students in order for courses to meet. (The College reserves the right to cancel any class that does not meet the minimum enrollment requirements)
- **Refunds:** All requests for refunds must be received in the Continuing Education Office in writing prior to the beginning of the 2nd day of class.
- **Online Registration:** Register and pay for classes at www.PensacolaState.edu/ce.
- **In Person Registration:** Register at any PSC campus. A completed registration and consent form is required prior to registering. In person payment is by cash or check only. Student ID# and logon information can be obtained at registration if you pay online.
- **Mail in Registration:** Complete the registration and consent form and mail to: PSC Kids' College, 1000 College Blvd, Building 96, Pensacola, FL 32504.

Drop off/Pick up Information

Kids College is from 8 a.m.–4:45 p.m., Monday–Friday.

- Drop off 7–8 a.m. Pick up by 5:30 p.m. (no later)
- Parents will need to come into Building 96 to sign students in and out of Kids College.
- Anyone picking up a child must present a photo I.D. in order to sign out students. If someone else will be picking up your child and has not been previously authorized on your child's registration form, please call 850-484-1797 and inform us of the update.

IMPORTANT INFORMATION

- **Lunch:** Plan to bring or purchase lunch each full day of classes. Supervised lunch will be from 11:45 a.m. until 12:45 p.m. each day. Students can purchase a lunch at a nominal fee from Subway. **Orders and payments need to be placed online at www.subway.com the night before or in the morning by 9 a.m. each day. Use CHILD'S NAME on the order.**
- **Snacks:** Students are encouraged to bring snacks and bottled water. They need them in containers that they must carry throughout the day. **Please put name on any containers your child carries.**
- **Tax Information:** Pensacola State College is an educational institution. We are not a registered daycare provider; therefore, we cannot furnish you with a daycare provider number for tax purposes. The taxpayer identification number for Pensacola State College is 59-1207555.

Suggestions for Success

The Kids College Staff promises to deliver the best programs we are capable of providing. In exchange, we expect students will:

- Wear your Kids College wristband throughout the day;
- Come to class on time, be prepared to take part in classroom activities, and complete assignments given by the teacher;
- Be prepared to have fun and work hard while learning;
- Treat your fellow students, teachers and Kids College staff with respect and consideration;

- Always follow the rules of good behavior established by parents and teachers, and following the PSC Code of Conduct.

DRESS CODE: Children should wear comfortable play clothes. If participating in sports camps, wear tennis shoes.

SAFETY: Talk with your child about safety issues. If this is your child's first experience at Pensacola State College, we suggest that you visit the campus before classes begin.

Give your child a written list of their classes for each day/week.

- Students can purchase a lunch at a nominal fee from Subway, located in PSC Student Center, 1000 College Blvd., Bldg. 5.
- Orders and payments need to be placed online at www.subway.com the night before or each morning by 9 a.m. each day to PSC location. Subway lunches will be ready for students when they arrive in the Student Center. **NOTE: Not available on Fridays.**

COURSE DESCRIPTIONS

The Arts

Amazing African Art Safari: Lets go on a Safari to Africa. Our Safari will include the art, music, animals, literature, and culture of several African Countries. Create masks, weavings, prints, paintings, huts, and jewelry. Come along! You'll never know what you will see on our African Safari.

Art Down Under — Australia: Let's go on an adventure to the Land Down Under, Australia. We will discover animals, sea life, culture, literature, architecture, and art of this beautiful island. Aboriginal art, Uluru Rock, Sydney Opera House and the Great Barrier Reef will be just part of our experience.

Art of Illustrators: Do you want to create pictures for a book? That's the fun work of illustrators. Dr. Seuss, Eric Carle and Jan Brett are a few of the authors/illustrators we will study. We will read and create art based on children's books. Drawing, painting, printing... are just the start of what we will be doing as illustrators.

Art Like Wayne Thiebaud: Discover the sweet treat world of artist Wayne Thiebaud (b.1920-d.2019). Draw, paint and sculpt cupcakes, donuts, cakes, and more like the ones painted in oils by the pop artist who came to fame in the 1960s.

Art of Mexico: Hola! Explore the colorful art of Mexico. Tropical flowers, jaguars, Day of the Dead, molas, embroidery, ancient Mayan hieroglyphics, masks, weavings and alebrijes will be created on our art trip through Mexico. Learn about the history of Mexican art and culture.

Batik Art: Design and create your own fabric using a wax alternative—toothpaste, lotion, and paint. Learn and practice the ancient art of batik on muslin fabric.

Bead Camp: Design and create your own keychains, bracelets, window decorations and other fun gifts with many different kinds of beads with a focus on melly perler beads!

Bookmaking & Pop-up Cards: Create several types of fun, clever books including star, origami, flag, envelope, tunnel, accordion paper bag... It's all in the creation! Plus, learn how to make pop-up cards from simple one-page cards to amazing art pieces. Let your imagination go wild!

Creative Writing: Discover all the ways to express your thoughts, feelings, stories, memories, hopes, and dreams through various types of poetry and prose. Emphasis will be placed on writing content. Selected pieces will be read for a public performance for family and friends at the end of the session.

Digital Photography: Learn basic techniques for taking digital photographs. Practice taking photos around campus. Required: Must bring own digital camera.

Everything Glitter & Unicorns: Take some glitter, paint, paper, and magical unicorns and create anything and everything magical and shiny. Learn various ways to create art after the favorite mythical creature.

Fun with Guitar: Learn to play the guitar! Instructor will teach a quick method to playing the guitar. A little instruction and a lot of practice goes a long way in a short time. Learn about the history of music and guitars. Child-sized guitars and chrome

slides will be provided for instructional purposes. Learn how to play familiar songs in just one session!

Fun with Music: Students will begin to understand the impact music can have in their lives with simple songs and instruments. Students will also have the opportunity to make their own "instruments."

Graffiti/Urban Art: Learn all about urban art, artists, and social responsibility while creating graffiti-style "art". Students will produce some "graffiti-style" art and creative lettering of their own, while applying techniques from contemporary artists.

King Tut ARTifacts: Explore and create art based on the Ancient Egyptian King Tut. Cartouches, hieroglyphics, cats, mummies, jewelry and ancient Egyptian drawings are just a few of the topics. Many art-ifacts will be created as students dig into the life of King Tut and Ancient Egypt.

Paint by the Greats: Discover and create like renowned artists from around the world. Learn of the various styles and techniques used for creating paintings. Students will learn about some of greatest artist in history and have fun trying to paint like them.

Printmaking: Learn to make designs that you can print on paper, fabric, parchment and other supports by various techniques of duplication. Create your very own personalized stamp to mark your prints!

Project Runway: Design, create and model your own fashion designs! Learn about the historical influences on fashion, iconic designers and ways to create new ensembles using recycled materials, beads, fabrics and accessories. Also, learn about modeling and fashion photography—both in front of, and behind the camera. Fashion show is planned for the end of the session.

Reclaimed Art: Reduce, Reuse, Recycle! Create fun and useful projects while learning about recycling of materials, reduction of landfill and ocean waste, improvement of the environment, and the economical and aesthetic benefits of recycling. The challenge is on—make it beautiful and useful and keep it out of our environment!

Russian Art: Experience the wonderful, colorful art of Russia! Create art while learning about the famous architecture, 3-D sculptures, paintings, print makings, and more. Faberge and pysanky eggs, hats, and matryoshka (nesting dolls) are all a part of the fascinating culture of Russia that you will explore.

Stamping/Printmaking: Make your mark as you create a personalized card, book, poster and journal. Experiment with various printmaking tools to produce your own designs.

Wayne Thiebaud Pottery: Discover the sweet treat world of artist Wayne Thiebaud (b.1920-d.2019). Sculpt cupcakes, donuts, cakes from pottery and other materials, and more like the ones painted in oils by the pop artist who came to fame in the 1960s.

Weaving: Experience different styles of weaving from abstract to traditional, using various techniques along with paints, recyclables, yarns, and more!

Acting & Theatre

Acting without Words: Learn the art of pantomime, build self-confidence and improve social skills through a variety of fun activities using this art form.

Costume Workshop: Design and make costumes of your choice. Draw designs, learn to measure and make pattern pieces, and various methods of joining pieces of fabric—including hand sewing, gluing and taping. Creations will be showcased in a fashion show at the end of the session.

Movie Making: Write and star in your own movie which will be available to share with others.

Musical Staging: Learn to stage several numbers from the musical *Aladdin*. The class will concentrate on singing and dancing, but will also include as much in the way of costumes, makeup, and props as possible. Students will perform the numbers for friends and family at the end of the session.

Reader's Theatre: Learn the art of Reader's Theatre, including basic acting skills. Rehearse an age-appropriate piece of literature for presentation at the end of the session.

Shakespeare Mystery Theatre: To be, or not to be, that is the question! Choose characters from Shakespeare's plays and write and perform a classic murder mystery. Create costumes, and props. Learn the various duties in theatre arts and what it takes to do them. No knowledge of Shakespeare is required.

Stage/Theatre: Introduces simple stage and theatre production techniques. There will be a show at the end of the class for parents and friends to view.

TV Commercials: Learn to plan, write, and produce TV commercials using cameras, computers and acting.

Language Arts and Social Science

Be a Hero: Not all heroes wear capes! Learn the importance of doing what is right in regard to respecting others through words and actions using art, skits and words.

Be a Pet Vet: Teaches the importance of pet care. Parents bring selected pets for special visit on campus as part of animal activity — all pets in crates or on leash with vet records of vaccines.

Be a Superhero: What makes a hero a hero? Learn more about your favorite superheroes and some real life heroes. Activities include making your own cape, writing your own hero story and exploring different kinds of heroes.

Bit O' Spanish: Become familiar with Spanish language and culture through various activities including playing games and singing songs. Learn about traditions, food and events.

Grammar with a Giggle: Giggle your way through the parts of speech by being introduced to "The Lady with the Purple Eye" or "Harry The Beast" or "The Four-eyed Weirdo."

History of Five Flags: At least sixteen flags have flown over Florida or parts of Florida since European explorers landed early in the 16th Century. Five of the flags have been of five countries. Are you curious to know which of the flags have flown over Pensacola and this region of Florida? Learn intriguing accounts of explorers, settlers and their legends and flags that shaped our local heritage.

Kid Lit: Discover fun ways to approach reading. Learn strategies to improve reading speed and comprehension, and to consider content through both their point of view and the author's. A range of age appropriate literature will be read—including fairy tale selections from the Grimm brothers and Hans Christian Anderson for younger students, and Antoine de Saint-Exupery's *The Little Prince* for older students

Newspaper Reporting: Produce a "Kids College Newspaper." Interview fellow students in other classes, create stories, type them in computer lab, then reproduce and distribute copies.

Ready Readers: A fun and interactive course to build, reinforce, and strengthen your reading skills.

Song Parodies: Choose from popular songs and rewrite the lyrics to create your own topical, fantastical, and fun tunes. Learn each other's tunes and prepare a performance to give for family and friends at the end of the session.

Travel Fun: Take a virtual trip across the United States and parts of the world, learning about different regions and famous sites. This interactive class includes stories and crafts. Learn what to take, how to plan and options for travel. No passport required!

STEM

Academic Detectives: Do you detect a problem? Let's solve it! You become "academic" detectives on an adventure to find answers in a number of academic disciplines. So, put on your cap and overcoat and prepare to solve some mysteries—and don't forget your magnifying glass!

All about Plants: Explore the different kinds of plants around the world and close to home, from seeds to gardening, science experiments, games and crafts. Learn why plants are needed to survive and how to grow your own.

Amazing Robotics: Imagine it, engineer it, and make it go! Students will get hands on and discover how robots, sense, think, and act. Cubelets and Robolink are tools that will inspire a love of learning and allow students to develop problem solving skills through play. Students will work in pairs or teams encouraging teamwork, friendship and creativity.

Animation & Web Design 8-10: Learn how to create web pages and animated movies in this fun class combining both applications.

Animate Movie Making: Beyond just learning about moviemaking, students will learn how to animate themselves for animated movies.

Block Builders: Have fun creating structures individually and in groups using building blocks.

Braint Games: Help increase creative thinking, vocabulary and math skills through word games, intriguing puzzles and math games.

Cool Critters: Bugs, arthropods, amphibians and reptiles are really quite interesting and even beneficial to our ecosystem and each has its place. Become an explorer of various insects, reptiles and amphibians in our surrounding habitats!

Cool Science: Explore the fun aspects of science through group discussions and hands-on experiments.

Ecosystem Fun: This field trip based course provides opportunities to learn about and experience the ecosystems of the Gulf Coast.

Fishing: Learn catch-and-release fishing. Includes discussions about fishing ethics, hands on activities and field trips to go fishing each Friday. Adult family members can participate by registering as a field trip observer for a one-time fee of \$6 for all field trips. (Course R04542, Section 8495)

Kids in the Kitchen: Explore how to prepare food in the kitchen, from equipment and techniques, to finished dishes. Games and crafts will also be included.

Local Flora and Fauna: Discover the plants and animals of the Gulf Coast and how the co-exist and rely on each other for survival. A Field Trip based class, students will also explore microscopic plants and organisms in our ecosystem.

Math Games: Play games utilizing dice, cards, dominos and math bingo. Review basic math through hands-on activities. Tell time, read temperatures, use weights and measures and count money.

Math in Motion: Learning math can be lots of fun when dance and movement are incorporated to teach it. You can't take this one sitting down!

Money Matters: Learn about the importance of saving money, ways to save and spend, the difference between a want and a needs and discover how to develop a spending plan. Students will work in teams to create their own business plan.

Plants for Fun & Food: Explore plants from seeds to fork through gardening, science experiments, games and crafts. Students will enjoy hands-on gardening and inspiration to continue.

Space Camp: Investigate the last frontier — space. Learn about the planets, constellations, individual stars and more! Space travel will be explored.

Space Explorers: Much is known about the planets, constellations, stars, space travel, scientific discoveries and inventions. But there is so much more in this vast unknown. You just might be one who gets to board a spaceship someday. To infinity and beyond!

Web-Page Design: Students will learn how to create amazing web pages using different kinds of fonts, pictures, backgrounds and lots of other page attributes. Advanced objects like tables, links and frames will be used as well.

Zoology: Explore the branch of biology that includes animals and the animal kingdom. Hands-on visit with exotic animals, reptiles and insects.

Sports and Games

Bowling /Soccer: Learn the basics of bowling including form, rules, scoring, and etiquette. Enjoy weekly field trips to Cordova Lanes. Learn soccer fundamentals in a fun and enjoyable atmosphere.

Games Inside & Out: Play games together with group including a variety of board games, cup stacking, juggling, and yard games, such as Frisbee.

Intro to Gymnastics: Learn the basics of gymnastics skills such as forward rolls, backward rolls, cartwheels, handstands and bridges, as well as coordination, agility, strength and flexibility. This course sets a foundation for basic knowledge of the sport of gymnastics.

Martial Arts: This comprehensive program teaches self-defense, self-confidence, physical fitness, and mental discipline in a non-competitive, safety-oriented class.

Sports Explorers: Perhaps you like to play sports, but have you explored sports? The games you play today may be similar, yet very different from what games were played twenty, fifty or a hundred or more years ago. Learn about how other sports are played around the world and how some of the modern sports were played long ago. Let the games begin!

Games Inside and Out: Play games together with groups including a variety of board games, cup stacking, juggling and yard games.

Sports Sampler: Try a variety of sports including basketball, golf, baseball, flag-football, softball, Frisbee, badminton, horseshoes, boundary ball and more.

Swimming: Receive both classroom as well as water instruction. Learn basic water safety and proper swim strokes. Bring swimsuit and towel each day.

Tennis: Develop and sharpen your tennis skills and learn proper the tennis etiquette to play the game.

Specialty Camps (prices vary)

Arts & Crafts Camp: Create various art projects relating to famous artists and countries. Learn about technique, color theory and more. Weaving, printmaking, painting, tessellations, bookmaking, pop up cards are just some of the highlights.

Fun with Guitar Camp: A little instruction and a lot of practice goes a long way in a short time. Learn about the history of music and guitars. Child-sized guitars and chrome slides will be provided for instructional purposes, but before long you may want to purchase your own to enjoy at home. Learn how to play familiar songs in just one session!

Intro to Gymnastics, Camp: Learn the basics of gymnastics skills such as forward rolls, backward rolls, cartwheels, handstands and bridges, as well as coordination, agility, strength and flexibility. This course sets a foundation for basic knowledge of the sport of gymnastics.

Taekwondo Camps: This comprehensive program teaches self-defense, self-confidence, physical fitness, and mental discipline in a non-competitive, safety-oriented class.

Theatre Camp: Learn the behind the scenes part of a play, the actor's role, the director's role and the variety of other support for creating a play.

App. 10: Make Your First Multiplayer App! Create a web app. Explore the most popular 10 apps; design your own multiplayer experience and learn how to code your own app! You will be able to access your app and play it on any mobile device or computer. (You do not need to own a smartphone to take the class).

Battle Royale: Make Your First Fortnite® Style Video

Game: Design and create your own Battle Royale game using a professional 3D game development software to build levels and assets, inspired by popular Battle Royale games like Fortnite®. Course includes cartoonish action and battle sequences. Student-created games will be available on a password-protected, Black Rocket website to share with friends and family.

Bricks and Sticks Stop Animation: Create your own story with stikbots, legos, action figures or all three! Then using special stop motion software and adding your own special effects, create your own stop motion movie! Your films will be available on a password protected website to share with friends and family. (Students can bring in figures, stickbots and legos from home.)

Code Explorers: Curious young minds take the first steps into the world of programming. Student explorers will use their creativity to solve a series of web-based coding challenges. Each lesson builds fluency in essential digital skills. At the

conclusion, students will receive access to the interactive learning platform to continue their coding journey at home. Students will work in pairs or teams for most of the program.

Minecraft® Modders: Use your favorite game to learn the basics of modding and foundations of programming. Learn scripting and logic statements as you create your first mods! Introductory coding will also be taught through a simulated environment inspired by Minecraft®. Students must own a Java version of Minecraft® to access their projects at home. (tablet, phone and game console versions of Minecraft® are not compatible. Returning students can create more advanced projects that build on previous year.

ROBLOX® Coders & Entrepreneurs!: Discover how to code in the Lua language while playing and designing worlds in ROBLOX®, an online universe where you can create anything you dream of. Combining game design concepts, coding, and fun, young entrepreneurs will learn how to navigate ROBLOX's fast-growing marketplace to publish their games.

Fish Florida Grant provides a fishing rod to each child in the Fishing/Boating course. Funding is provided from the sale of specialized car tags. For more information about this program, go to www.fishfloridatag.org

NEED SOMETHING FOR YOUR TEEN TO DO THIS SUMMER?

Chain Reaction will be recruiting, training, managing and tracking hours for teens (9th–12th grade) who volunteer as teacher assistants. Volunteer hours help with scholarship applications!

**For more information call 850-471-4685
