The Advanced Esthetics Program is a two semester program. The first semester begins in the Fall (August through December) and the second semester begins in the Spring (January through May).

This class is limited to 10 students. Students are accepted into the program on a first-come/first-served basis according to the date your application is received. After your application is received, you will be notified if you are accepted into the program.

To be eligible for the Advanced Esthetics Program you must have already completed the Facial Specialist Program or Cosmetology Program and be certified and registered in the State of Florida. A copy of your license must be submitted with your application.

Please read the information contained in this packet carefully. Questions should be directed to the Program Coordinator.

Dear Applicant,

Congratulations! You have taken the first step in selecting a career that can open a new world of opportunities for you.

For your convenience, this program packet has been compiled to provide additional information that will assist you in beginning your studies.

Please read the program information packet carefully and submit your Advanced Esthetics Program Application form promptly to be considered for the next available class.

The Advanced Esthetics Program is located in Building 12 on the Pensacola Campus. We look forward to hearing from you and will be happy to answer any questions that you may have concerning your educational opportunities at Pensacola State. Thank you for your interest in the Advanced Esthetics Program at Pensacola State College.

Sincerely yours,

Frequently Asked Questions (FAQ’s)

Will there be jobs after graduation?

Employment is predicted to grow with the growth of the population and the demand for facial services. Most preferences are toward personalized services in full-service areas, which enhance your job opportunities. This occupation is on the “top 50” list of occupations gaining the most new jobs.

The Pensacola State College Advanced Esthetics Program has a high percentage of students being hired right after graduation. Pensacola State College hires qualified, experienced salon professionals to come to the Advanced Esthetics Program to teach new techniques to the students. Frequently, the professionals who come to the Pensacola State Advanced Facial Program are also looking for new and fresh talent to work in their salon and/or office setting.

What are the career advancement options?

Graduates of the Advanced Esthetics Program at Pensacola State College are qualified to work all aspects of skin care. Because facial technology is constantly changing, estheticians must keep abreast of the latest fashions and beauty techniques. Business skills are important for those who plan to operate their own salons. While advancements are usually measured in the form of higher earnings, many estheticians may manage larger salons or open their own after several years of experience. Some choose to teach in Facial Specialty schools, while others become sales representatives for cosmetics firms or open businesses as beauty or fashion consultants. Students may also choose to obtain their nails or cosmetology certificates, which enhance their technical abilities and expand their skills into other services provided by licensed cosmetic specialists. The career opportunities for the licensed/registered esthetician are both versatile and personally rewarding. By completing this Advanced Program, you will be gaining a wide knowledge base of the medi-spa, plastic surgery, and dermatological industry.

Do I have to take an entrance exam?

No, but you must be a Certified Facial Specialist registered with the State of Florida and must have a current license. A copy of your license must be submitted with your application.
