Pharmacy Technician Program Mission Statement

Pensacola State College Pharmacy Technician program is committed to providing quality, affordable, and accessible education opportunities to pharmacy technician students in the Gulf Coast region.

Pharmacy Technician Program Goals and Student Learning Outcomes

- Program Goal #1:** **The student will be clinically competent.**
Student Learning Outcome: 1. Practice infection control and security procedures, thereby protecting self, patients, and other personnel.
2. Prepare and deliver medications by using proper measurement and calculating techniques as it relates to community practice
- Program Goal #2:** **The student will demonstrate communication skills.**
Student Learning Outcome: 3. Use appropriate medical terminology and complete information in written and oral communication relative to patients, pharmacists, and other medical staff.
4. Discuss procedures, instructions, and care strategies in a manner appropriate to the patient.
- Program Goal #3:** **The student will develop critical thinking skills.**
Student Learning Outcome: 5. Demonstrate correct conversions within and between measurement systems to calculate dosages and volumes specified by prescription or medication order.
6. Identify the classification, use, and side effects of prescription medications, OTC products, and alternative therapies commonly used to treat dysfunction of selected body systems.
- Program Goal #4:** **The student will model professionalism.**
Student Learning Outcome: 7. Demonstrate professional behavior in accordance with the law and ethics of the pharmacy practice setting.
8. Participate in continuous learning for ongoing development of knowledge and skills in the profession.

General Information

The Pharmacy Technician program is designed to provide students with the theoretical, practical, and clinical skills needed in the operation of a pharmacy. The Pharmacy Technician program is a four (4) semester program and accepts a new cohort in the spring semester. The program is limited access, meaning the student must meet admission criteria and then is ranked by date of meeting admission criteria to determine acceptance into the program. Graduates of this program will work under the supervision of a licensed pharmacist to perform tasks such as reading, filling, and issuing prescriptions; maintaining inventory; using computer systems to enter and update patient profile information; and performing clerical duties necessary to the systematic operation of the pharmacy.

The program consists of online, classroom, and simulated laboratory experiences. During the final term, the student will complete a clinical rotation in both community and hospital settings. Program policy requires that all general education and technical courses required for the degree be completed with a grade of "C" or better. Upon completion of this 40-credit hour program, the successful graduate will be awarded the Advanced Technical Diploma in Pharmacy Technician and will be eligible to apply for state registration with the State Boards of Pharmacy. The graduate will also be eligible to sit for the Pharmacy Technician Certification Exam (PTCE) and/or the Exam for the Certification of Pharmacy Technicians (ExCPT) which are nationally accredited certification examinations. Candidates who successfully challenge the certification exam will earn the CPhT designation and Certified Pharmacy Technician credentials. All certified Pharmacy Technicians are required to complete continuing education and recertify every two years.

Occupational Outlook

Pharmacy Technicians can work in a variety of settings and command a varying salary based upon the employment setting. For the latest information regarding these statistics visit the Bureau of Labor and Statistics website for Pharmacy Technicians. <https://www.bls.gov/oes/current/oes292052.htm>

The outlook for Pharmacy Technicians in Florida can also be found on the Pensacola State College website located: <http://www.pensacolastate.edu/academic-programs/phrm-atd/>

ADMISSION CRITERIA

- Pensacola State College (PSC) Application
- High school graduate or GED
- Must be at least 17 years of age.

When the student has met the program admission requirements, the student's application is evaluated by the Office of Admissions and ranked according to the date on which the student completed the final requirement. Students are selected in that rank order.

PROGRESSION REQUIREMENTS

- "C" or higher in courses in the curriculum
- Satisfactory completion of clinical requirements which include the following:
 - Level II FDLE background screen;
 - Urine drug screen;
- Current American Heart Association Basic Life Support for Healthcare Providers Certification or American Red Cross Basic Life Support/CPR for Healthcare Providers Certification; and Immunizations/vaccines:
 - TDaP (Tetanus/Diphtheria/Pertussis) booster within 10 years OR TD booster within 2 years
