Pensacola State College provides all credit students an e-mail account through the Pirate Mail system. Pirate Mail is the primary method of communication to students, and students must activate their Pirate Mail accounts after admission.

Students are required to access their Pirate Mail accounts at least once per week, more often during a registration period. Failure to do so will not be grounds for an appeal of any action taken by the College or any requirement established by an instructor, which has been communicated to the student by Pirate Mail.
