Course Learning Outcomes	1. Identify the key events leading to the colonization of North America, the formation of the United States, the growth of the new republic, and the advent of the Civil War; 2. Identify the individuals, groups, and various people who were instrumental in the formation and growth of this country from the Age of Discovery period to the Reconstruction era; 3. Trace the ideas, forces, and movements which birthed the independence of the United States, created the U.S. Constitution, and forged the country's growth from the colonial period to Reconstruction; 4. Analyze the problems the colonists and the young republic experienced in gaining independence, creating a constitutional government, responding to the Industrial Revolution, taking part in western expansion, and attempting to deal with the crisis of the Civil War; 5. Critically evaluate and compare the key events from this period in American history, especially as it relates to cause and effect, and apply those lessons learned; and 6. Communicate, using critical thinking skills, the key events and players in this formational period in American history.
General Education Student Learning Outcomes	1. Critical Thinking: The student analyzes, evaluates, and, if necessary, challenges the validity of ideas, principles, or data in order to develop informed opinions, probable predictions, or defensible conclusions. 2. Communication: The student effectively communicates knowledge and ideas. 3. Cultural Literacy: Demonstrate an understanding of human culture.
General Education Writing Emphasis Course Requirements	1. All writing used to fulfill the writing emphasis requirement must possess the five characteristics of college-level writing: 1) have a clearly identified central idea or thesis;

	2. 2) provide adequate support for the idea; 3) be organized clearly and logically; 4) show awareness of the conventions of standard written English; and 5) be formatted in an appropriate fashion for the assignment. 3. A minimum of four (4) evaluated assignments, which may include the final exam, is required. Because an extensive amount of writing is intended by Rule 6A-10.030, F.A.C., additional writing assignments may be used to satisfy this requirement. 4. The grades earned on the writing assignments must reflect student performance in 5. college-level writing and significantly impact the final course grade. 6. All sections of a course must meet all requirements. 7. Instructors provide detailed feedback regarding the content, organization, and use of standard written English for all writing used to satisfy the requirement. 8. Instructors return each evaluated writing assignment to a student before the submission of the next evaluated writing assignment, with the exception of a final exam used to satisfy the requirement. 9. Only individual, original student work counts toward the extensive writing requirement; AI or machine-written content is not accepted. 10. The grading rubrics used for each writing assignment will be shared with students and will be uniformly applied as the assessment instrument in all sections of a course.
